CONTRACTS ARE GIVEN OUT BY C.P.R

. McArthur and Foley, elsh and Stewart Secure st of Big Jobs.

ipeg, March 22.—Contracts will involve an expenditure of of dollars were let by the today through Assistant Chief er J. E. Schwitzer. In the west most of the new work of r will be done by Foley, Welsh wart, and near to Winnipeg it ected that most all the con- will go to J. D. McArthur. lberta, the Kipp extension will t by Foley, Welsh & Stewart. ne has ben completed to Lit- w river. It is now proposed to it from Carmangay to a point st of Calgary. Next year the ll be continued until a junction cted with the Calgary-MacLeod . The extension of the Lang- anch at Irricanna and runs in Welsh & Stewart firm. This ion, or spur, leaves the Lang- anch at Irricanna and rnus in heastly direction, the intention to afford facilities to the large r locating in the irrigation belt.

Big Job for McArthur.

Weyburn extension will be y the J. D. McArthur company, e expectation is that this com- will remain on this work for l years, until the line is built h towards Lethbridge. twenty-five miles of the dump e completed this year. J. D. McArthur company will uild the Outlook extension. This inety-mile job, the work begin- n the north side of the Saskat- n and continuing until the point ched where the road branches Macklin. The work of construc- n this road from the Macklin a separate contract.

Griffin Line Abandoned.

announcement was made with nce to the contract for the con- on of the line from Regina to ay. It is understood that the for the building of a line from to Griffin has been withdrawn. rand Trunk Pacific is to build through the same territory and tated that for this purpose the R. did not receive the privilege, rights being obtained by the oad. Tenders are called for a track from Winnipeg to Port- ut contracts have not been

OID PATIENT JUMPS ROUGH WINDOW TO DEATH

onton, March 22.—The Miseri- hospital was the scene of a fa- cident last night shortly before e o'clock. The victim was Wil- Barber, aged thirty-eight. He aken to the hospital on Sunday ing from Typhoid fever, and was night in a delirium. While the was absent from the room for ment he walked to the window, d it and jumped through the n to the ground, three stories . He was picked up in an un- ious condition and taken back s bed, where he expired shortly four o'clock this morning. He s a wife and four children, now ere without any means of sup-

LERS' EFFECTS ARE RUSHING IN AT PORTAL

nnipeg, March 22.—From eighty e hundred carloads of settlers' s are being received every day rtal and over five hundred horses eing examined daily by the Cana- officials at that point. The im- tion officials there are working night and day and the force been doubled in order to keep with the great influx of new rs.,

MISSION NAMED TO OBE LIVE STOCK CONDITIONS

nnipeg, March 22.—A. M. Camp- of Stonewall; Stephen Nelson, ewapa, and Ald. Manning, of this will compose the commission to ire into the live stock conditions is province. The commission has appointed to make an exhaustive iry as a result of the recent reve- ns relating to the monopoly men- g the live stock industry in this ince. The question of a union k yards will also be taken up by commission, as will also the mat- of a public abattoir.

EBERY'S RESOLUTION PASSES HOUSE OF LORDS

ondon, Marcsh 22.—The house of s today, by a vote of 175 to 17, ed the third and last of the reso- ons introduced by Lord Rosebery urtherance of his program for the rmation of the upper chamber resolution declared that a neces- preliminary to the reform and onstruction of the chamber, as pro- ed in the first and second resolu- s already agreed to, was the ac- tance of the principle that the pos- sion of a peerage itself should no ger afford the right to sit and vote the house of lords.

The meting of the B. C. L. A., which been advertised for next Saturday the National Sports club, in Van- ver, has been postponed till Tues- March 29 at 3 o'clock in the Van- ver hotel.

TIMBER BERTH TO BE SOLD BY AUCTION THIS AFTERNOON

Upset Price of $6,044.93 Will Probably Be Distanced by Thousands When Lumbermen Stop Bidding.

The license to cut timber on berth number 533, comprising about 683 acres of land, will be offered for sale at public auction today at 2 o'clock in the office of the Dominion timber agent in the post office block. The upset price is $6044.93 but it is probable that the sale price will greatly exceed that sum. A limit of about the same size, sold a few months ago, brought over $20,000, and this will probably do the same.

The timber is situated on the east side of Lillooet lake and the timber cut can be easily floated down the Lillooet river to Pitt. A license to cut will not be issued till the full amount of the purchase price has been paid.

BRICKLAYERS READY TO RETURN TO WORK

First Break in Sympathetic Strike Affects 2000 Men---No Hope of Peace.

Philadelphia, March 22.—The first big break in the general sympathetic strike came today, when the journeymen bricklayers, numbering about 2000 men, notified the master bricklayers that they were ready to return to work. The masters will act on the matter tomorrow and it is expected work will be resumed on Thursday.

Car Dynamited.

Thirty-five striking motormen and conductors who were arrested late last night following the dynamiting of a car in the Kensington district were given hearing today and held in $1000 bail each on a charge of cospiracy to destroy the property of the Philadelphia Rapid Transit company and endangering the lives of passengers.

Peace Plans Fail.

All peace plans having failed to end the labor trouble, the labor leaders today renewed their efforts to spread the general strike.

The leaders expect the state federation of labor to call the general state strike within a few days.

FRENCH GENERAL ELECTION.

Polling Will Probably Start April 10 and End April 24.

Paris, March 22.—Politicians are now discussing the general elections and the dates of the fight. On this subject M. Briand, the premier, and M. Valle, the president, and members of the executive committee of the Radical and Radical-Socialist party had a consultation yesterday. It is hoped that the pollings will open on April 10 and that the ballots will be taken on the 24th of that month. The new chamber would thus be elected before the May Day demonstration, which does not promise to be of an exciting character this year.

According to the present condition of the parliamentary barometer the budget and the Workmen's Pensions bill will have passed the chamber and senate before March 20. By the constitution the new chamber is compelled to hold its inaugural sitting on June 1.

TIMBERLAND LUMBER CO. BUY DEVOY & OWEN'S MILL

Another Industry Assured for Surrey.

Mill Will Have Capacity of 50,000 Feet Per Day.

Announcement was made yesterday that another industry with headquarters in this city had begun business. The Timberland Lumber Co., Ltd., is a company recently organized to take over the Devoy & Owens mill, together with the extensive timber holdings of that firm.

The company is erecting a new mill on the Chilliwack tramline, about four miles from the city, which will have a capacity of 40,000 to 50,000 feet per day. All kinds of lumber and piles will be dealt in.

A. J. Craig, B. W. Craig, W. K. Craig, H. H. Craig and J. A. Gibson are the stockholders in the new company. A. J. Craig, who has been appointed managing director, has recently purchased Mr. Jackson's house on the corner of Agnes and Cobourg streets and will move here from Vancouver in a short time.

Caucus on Wednesday Night.

Washington, March 22.—The house republicans will hold their caucus for the selection of the six republican members of the new committee on rules on Wednesday night. The democrats also have agreed tentatively on Wednesday night for their caucus.

INCREASE IN PAY WILL AVERT STRIKE

Switchmen and Switch Tenders Receive Small Raise After Arbitration.

Chicago, March 22.—An increase of three cents an hour to switchmen and of five dollars a month to switchtenders and towermen of several railroads is granted in a decision of the federal arbitration board announced here today. The increase is retroactive, going in effect February 1, 1910, on the following roads, which became involved in a wage controversy with the Switchmen's Union of North America: Chicago & Eastern Illinois; Chicago switching district; Chicago Great Western, entire system except Twin City district; Chicago, Rock Island & Pacific, entire system except in Vergrove, Minn.; Terminal Transfer railroad, entire system; Lake Shore & Michigan Southern, yards only; Michigan Central, east of Detroit river; Pere Marquette, entire system; Wisconsin Central, Chicago switching district. The advance is justified by the arbitration board on the grounds of increased cost of living, approximately twenty-five per cent in the last four years. An increase in the pay of the assitsant yardmasters was denied.

NAVAL APPROPRIATIONS BILL BELOW ESTIMATES

Washington, March 22.—The naval appropriation bill, carrying $129,037,602, was reported to the house today by the naval committee. This amount is about $2,000,00 less than the department's estimates. The bill provides for two first-class battleships, one repair ship, two fleet colliers and five submarines.

SEATTLE MEN PURCHASE IMMENSE TIMBER TRACT

Forty-Seven Square Miles in Quatsino Sound District Purchased for $175,000.

Victoria, March 22.—One of the largest deals in Island timber land put through for some time past was closed yesterday, when forty-seven square miles of timber, fronting on and running back from Winter Harbor, Quatsino Sound, were purchased by J. N. Britten and S. A. Sizer, of Seattle, for an amount approximating $175,000. The vendors were W. B. Garrett, of this city, J. Montgomery, of Texas, and F. Eade, of Vancouver.

Half of this timber is tributary to the waterfront of Winter Harbor. It is a remarkably fine tract, comprising cedar, larch, hemlock, balsam, and spruce. If, as anticipated, a railway is constructed across the Island, with an outlet on Winter Harbor, the tract of timber in question would supply freight for haulage back to the prairies for a number of years.

Messrs. Britten and Sizer hold as well on the island twenty-eight square miles of timber in the Alberni Canal district. In the same zone they have an option on another seventeen sections, the purchase of which will be completed in a short time. They have alos extensive holdings in California and Oregon, and in the Squamish River district of British Columbia.

VANCOUVER WINS BILLIARD GAMES

First of the Chamberlin Cup Series Goes to National Sports Club Men.

The local billiardists were badly beaten by the Vancouver players last night in the first of the series for the Chamberlin cup. At the close of the five games they were over 200 points down, none of them winning their games. Watt came off the best, Brown only beating him by eight points. Coldicott and Gordon put on the best game and the result was in doubt till Gordon scored the winning shot. Coldicott made the hign run of the evening, 37 points.

The local men were playing in hard luck, but there is no denying the fact that the Vancouver men played the best billiards. It is the first time that most of the New Westminster team had mixed in a match of the kind and the fact was disastrous to their nerves. There are still four games to play and they have a good chance of retaining the cup.

The score:

Vancouver—Robinson, 200; Parks, 200; Adie, 200; Brown, 200; Gordon, 200.

New Westminster—Grant, 118; Andeberg, 157; Davis, 149; Watt, 192; Coldicott, 177.

Jack Reid, two days before the match, announced that he would not play and his place was taken by Watt. Reid was one of the prime movers of the tournament.

A good crowd watched the game and evinced much interest. The next series will be played in Vancouver at the National Sports club next Tuesday night and the Vancouver men have promised the Royal City boys a smoker and a good time after the match.

NOTED ARTISTE WILL APPEAR IN FAMOUS PLAY

Madame Harriet Labadie Will Give Reading of "The Servant in the House" Here Tonight.

New Westminster literary people and lovers of the drama will have an opportunity tonight to hear what promises to be a rare intellectual treat in the presentation by Mme. Harriet Labadie of Charles Rann Kennedy's "The Servant in the House," in St. George's hall, at 8:15 p. m.

It is a remarkable performance, with which Mme. Lebadie has astonished the cultured people in all the large centres in the States. In producing "The Servant in the House" unaided she accomplishes a Herculean task which excites the admiration of all who hear her. Endowed by nature with an exquisitely modulated voice, rich and responsive in its tones, her readings are something to be remembered. Although Mme. Labadie has on her repertoire some of the works of Shakespeare, Ibsen, Sudermann and others, she is probably at her best in the remarkable play she has chosen to present here this evening.

The National Paper Mills., Ltd., have applied for a water record of three cubic feet, the same to be diverted from an unnamed stream ten chains south of the Pitt river road. The application will be heard before the water commissioner on April 13.

CONDUCTORS AND TRAINMEN ARE ANXIOUS FOR A STRIKE

Small Percentage of Men Vote to Abstain From Walkout if No Satisfactory Terms Are Made.

New Haven, Conn., March 22.—The ballots cast by the conductors and trainmen on the New York, New Haven & Hartford railroad system on the matter of a strike should the conference committee be unable to secure a satisfactory settlement of the wage and schedule demand have been counted. The conductors voted ninety-seven per cent. for a strike and the trainmen voted ninety-nine percent. for a strike. The total vote cast was 3884, 3758 being for a strike and 86 against. President Mallen will meet the committee representing the employees this afternoon.

BRUTE FORCE IS ASQUITH'S WEAPON

Redmond Will Assist In the Coercion of House of Lords ---Unionists Angry.

London, March 22.—The secret of the ministerial policy is out. The long expected veto resolutions are before the public and if the government has its way the house of lords will be denied all chance of self-reform and will become at once what Lord Rosebery called "a painted chamber, stripped of all its power—a mere decorative ornament in the constitution."

The author of the Campbell-Bannerman resolutions relied chiefly upon compromise and persuasion. Mr. Asquith, on the other hand, adopts brute force and makes the speaker, who is the paid servant of the house of commons, the sole arbiter.

The unionists denounce the proposals as preposterous and destructive of the constitution, but they are likely to receive the support of the Redmondites and the labor party and to pass the house of commons by a substantial majority. Moreover, the two-hour conference last between the chancellor of the exchequer and Messrs. Redmond and Dillon will probably result in a compact on the budget question. Redmond might abstain from opposing the old budget if promised lower whisky duties in the new budget.

Thus ministerialists talk more confidentially this morning of realizing their ambition to confine the coming election to the single issue of the lord's veto. They even dream of rushing through a bill to secure all the elections on one day and thus stop the greater part of plural voting. Here, however, they dream idly, for the house of lords would certainly reject any such bill except as part of a general redistribution scheme which would, among other things, deprive Ireland of twenty seats.

Moreover, Mr. Haldane and Sir Edward Grey, who are thought to have been defeated for the time being in the cabinet, probably guaged public opinion accurately when they declared that a single chamber policy or anything approaching it would arouse widespread distrust among the general public. Tariff reform is still a strong election card for the unionists.

TINY POLICE PARTY BRAVES FREEZING COLD FOR 80 DAYS

Travel 1000 Miles From Dawson to McPherson and Return—Sleep in Open.

Dawson, March 22.—The Royal Northwest mounted police expedition has arrived, completing the round trip from Dawson to Fort McPherson, covering 1,000 miles and carrying its own supplies from each end.

It comprised five men in charge of Constable Dempster. They broke trail through deep snow all the way going and coming, with snow shoes, dragging supplies on five toboggans with dog teams.

In no winter before was ever recorded in this region a more prolonged period of low temperature, making this trip a feat to be compared to a polar expedition. The time from Dawson to Fort McPherson was thirty-three days, and the return was made in twenty-four days. The party was absent from Dawson eighty days.

The party crossed the Rocky mountains twice, sleeping under the open sky every night. It connected at McPherson with a police expedition from Herschel island, and brought 500 letters, mostly from whalers, missionaries and traders, which are being mailed from Dawson immediately. The mail is largely for Seattle and San Francisco.

DELEGATES NAMED ON SITE COMMITTEE

Rev. J. S. Henderson and J. W. Creighton to Act For City.

Rev. J. S. Henderson and J. W. Creighton were appointed at the citizen's meeting last night to represent the city on the Mainland University Site committee. They were given no definite instructions but the feeling of the meeting was that the site chosen should be somewhere between Vancouver and New Westminster, possibly at Central Park or Deer Lake.

Only Seventeen Present.

The meeting was hardly a representative one, only seventeen persons being present. These were: D. S. Curtis, Rev. R. Lennie, Rev. J. S. Henderson, Dr. T. Wardlaw Taylor, George Adams, W. S. Mansford, Dr. Sipprell, J. W. Creighton, Prof. Burwash, J. A. Lee, and a few others. None of the aldermen and very few of the business men of the town were present.

However, those who did show up displayed much enthusiasm and transacted all the necessary business. The first resolution passed was to the effect that it was desirable to have a representative mainland committee, formed for the purpose of coming to a compromise on some site on the lower mainland.

Secretary Wade of the board of trade, spoke strongly in favor of the Deer Lake site as being the most desirable in every way. He said that he would like to see the university situated in New Westminster, but in the face of the conflicting interests at work he did not think it possible and, as the next best thing, he thought the Deer Lake site to be ideal.

The delegates were elected by acclamation. Dr. Sipprell was nominated but at his request his name was withdrawn, as he thought that it should be a representative citizen and not a member of one institution who should have the honor.

University Should Dominate Location.

Rev. Dr. Taylor said that from his long experience in and of universities, he thought that the Central Park site was the most favorable. It combined a certain air of seclusion with close proximity to the city and was close enough to water to permit indulgence in aquatic sports. Besides that the Central Park people had a larger site to offer. He held that the delegates should go with the firm idea that the university should not be situated in a large city. What was wanted was a university community. Oxford and Cambridge would not have the influence they have if the universities did not dominate the city each was in. The Scotch universities of Glasgow and Edinburgh were overshadowed by the city and hence did not have the influence of the others. Central Park was still small enough to allow an academic community to spring up and if in a few years the city grew out and around the university the institution would by that time be strong enough to withstand the influences of the city. On the grounds that the site was accessible, healthy, isolated and not too large, he would advocate the placing of the university there. He had never seen the Deer Lake site.

The Mayor's Stand.

Mayor Lee did not wish to bind the delegates down to any one site. The committee wanted to find the best site, and the government would not let a little matter like two or three hundred acres of land stand in the way if a suitable location were found. "I am going to that committee with the idea that if we can compromise on a site somewhere between Vancouver and New Westminster we will do so, but if Vancouver or any other community sticks out for any particular location which will not be central, I am for a site on the banks of the Fraser, one the south side or on the north side, if a location can be found."

In response to an inquiry, Mayor Lee stated that he would try and arrange that one or more of the four delegates to be elected from the alumni of the different universities to the Lower Mainland committee should be selected from New Westminster.

READY-MADE FARMERS.

Party of C. P. R. Recruits Leaves Liverpool Friday for Canada.

London, March 22.—The first party of Canadian Pacific railway ready-made farmers are ready to sail. All are married and holders of a variety of occupations. The first party, which sails from Liverpool by the Empress of Ireland on Friday next, will comprise thirty married men and their wives.

BODIES WASHED ASHORE.

Light Has Been Thrown on Fate of Dutch West Indian Liner.

L'Orient, France, March 22.—Two unidentified bodies, a lifebuoy marked Prinz Wilhelm II., several oars and much miscellaneous wreckage was washed up on the shore of Belle Isle yesterday. The Prinz Wilhelm II. belonged to the Royal Dutch West Indian Mail line, and sailed from Amsterdam for West Indian ports and New York on January 21. Several articles were picked up at sea near Belle Isle a week ago.

Surrey Real Estate is Making Great Record for Quick Trausfers

"Have you any Surrey acreage?" is the question on the lips of nearly every man or woman who enters a real estate office.

The heavy buying is still along the Hjorth road, and no sooner is property sold than it is re-listed, often in the same office. One peculiar incident occurred in an office not ten miles from White & Shiles which is typical of what is happening in a dozen other offices, only on a more satisfactory scale.

The agent in question had some forty acres for sale above the Hjorth road near the Hatchery. It had not been surveyed, so the exact acreage was not known. It was advertised for $13,000, and the first thing yesterday morning the agent took a prospective buyer up to see the land, showed him where he thought it was, and he was satisfied. The two returned to the office, the buyer to pay the first installment, the agent to make the transfer.

Two other men were in the office waiting, apparently breathless with excitement, but when they saw the recent arrival was drawing a check they stepped up to him. They had both come with the intention of buying that same piece of land and were aware that this man had the first chance and when they saw him bring out his check book they knew their chance had gone. From that moment some stiff bidding ensued and in less than ten minutes the buyer had sold the property, he intended to buy, for $14,500, without having finished drawing his check or having even seen the deeds.

In conversation with a Vancouver man connected with the C. N. R., and who has interests over the water, he said that buying had not commenced in Surrey yet; nor until it was officially known where the C. N. R. intended to put their townsite, which would be made public shortly, would the real buying begin, and then there would be such a rush for South Westminster as would startle even real estate men.

Besides several big deals in Surrey, J. J. Johnson yesterday sold 160 acres at Langley adjoining the Balfour road at $100 an acre. His Queen's park subdivision is nearly all disposed of, only two lots being left. The prices varied from $300 to $700.

Evans & Darke are still religiously loyal to Sapperton and in spite of the Southerly wind disposed of several lots yesterday. "These goods things which have blown to Surrey will make Sapperton property doubly valuable," said Mr. Evans.

"The news about the C. N. R. townsite could not have come at a more appropriate time for our clients," said B. Kennedy, of Hale Bros. & Kennedy. "All those who have bought lots in our subdivision, 'Westminster View,' are patting themselves on their backs. I have during the week sold lots to many Americans in Seattle and as far away as Chicago."

FRENCH OPPOSED TO GOVERNMENT CONTROL

People Do Not Like Idea of Having Department Control Alcoholic Trade.

Paris, March 22.—Convinced that there is already an overdose of government ownership in France, there is general opposition today to the proposal to take over the French insurance companies by the state, making the insurance business a government monopoly and to gobble up the alcohol trade by the government.

As to the insurance, nobody—except the insurance men themeselves—cares much. As a matter of fact one rather hopes the government will make this a monopoly. All that rankles in this regard is the principle. A fellow dislikes any more government ownership on general principles. In the states, if a man allows himself to mutter to himself, on a dark night in the middle of a ten-acre lot, that he is thinking of taking out a little life insurance, the next morning he is rousted out of bed by a dozen agents come to "write him up." And he doesn't draw an easy breath until he is "written up" either. And then he doesn't.

If the French government should take the business over, a man would call up the department and inform it that he wishes to take out a policy for $10,000. The person who responded to his telephone call would inform him that he (the speaker) wasn't the proper person to apply to. He wasn't quite sure who was the proper person. He'd send another man to the phone. Mr. Man would repeat his request, more meekly still. The second chap would probably bawl him out for disturbing him, saying he knew nothing of the matter. He'd nave to talk to some one else. And so on. After a half day's industrious, diligent effort, the proper person would be located and Mr. Man would be told to make his application in writing. The proper forms could be had at any branch postoffice. Yes, Mr. Mann would have to get them himself, or send for them. Did he think the government was being run for his especial benefit?

And when Mr. Man (who was a modified Socialist) took his medical examination, the doctor (who was an appointee of the Radical government) would tell him he had an ingrown sty coming on his left eye and couldn't have any life insurance.

NEW CURE FOR BERI-BERI.

Victim Undergoes Cure-Air Treatment As Experiment.

Liverpool, March 22.—In a room at the Liverpool university sits a man who is enduring something of the rigours of an Arctic climate. Whatever may be the varying temperature of the fickle English atmosphere, he is experiencing one steady, consistent period of cold. Indeed, during the day the temperature of his room is considerably below zero. He is a victim of the dreaded tropical disease of sleeping sickness ,and as he is putting to the best practical test a novel cold-air treatment for tropical diseases taken in hand by the Liverpool School of Tropical Medicine ,he is a source of daily interest to the professors of the school, who have spent years in combating the baneful effect of blood parasites.

Most of the experiments for fighting this peculiar sickness have been carried out on the spot in the tropics, and it is not an unreasonable suggestion that if parasites, even when they have entered the blood of a human being, are removed from the warm climate where they start their deadly operations and transferred to a climate of an extremely opposite character, they may by this simple operation be annihilated. If the method should prove successful it would mean the establishment of huge refrigerators at all the European stations in tropical countries in which a victim would be installed in the early stages of sleeping sickness.

TRANSFER TAX ON HARRIMAN ESTATE REACHES HUGE SUM

Albany, N.Y., March 22.—State Comptroller Williams has received $675,000 in partial payment of the transfer tax on the estate of the late Edward H. Harriman. The transfer bureau of the comptroller's office estimates that the final settlement will be made on an estate of about $140.-000. The payment just made is on $71,000,000.

BIG HATS MADE A CRIME.

Delaware Solon Introduces Bill to Get Even With Offenders.

Annapolis, Md., March 22.—Maryland has swung into line with some of the western states in the matter of unique legislation. If a bill in the possession of Delegate Wittig, of Allegany county becomes a law, the picture hat is doomed. Mr. Wittig received the bill from David A. Webb, state attorney of Allegany county. Mr. Webb submitted the bill with the following interesting note:

"I enclose a bill to stop women wearing big hats. I am going to draw up one later to prevent them from having big feet. That might help some."

The new bill classes big hats under the following heads for legislation:

"Crimes and Misdemeanor; disturbance of the public peace."

This bill provides that it shall be a misdemeanor for any woman to appear in any public place or upon any public street in a hat which shall exceed 10 inches in diameter. For this grave offence the woman shall forthwith be hauled before any justice of the peace, who shall have power to assess a fine of not less than $10 and not more than $100, according to the size of the hat. And in aggravated cases, such as the peach-basket, or the merry widow hat, the punishment may be not less than thirty days or not more than three months in jail.

This vengeful solon of Allegany county also desires to make it a misdemeanor for a woman to wear a hat of any sort in any theatre, music hall, lecture room or place of amusement.

Maryland, the state of chivalry, the home of courtesy towards women. Why, the smallest turban worn by women now is more than ten inches in diameter. If the bill becomes a law the women must appear in public in hats no larger than the average derby, and not as wide as the summer hat worn by the men.

Maryland is entitled to a proud place in the line with Nebraska and Texas and Colorado and Oregon, where "freak" legislation has reached its highest point, to say nothing of the sovereign state of New Jersey, where they tried to put through a bill forcing a saloonkeeper to provide tea and coffee, and give his bartender a percentage on all soft drinks, in order to discourage the sale of hard liquor.

Some of the freak legislation floating about just now is:

In Nebraska—To compel all hotels to have bed sheets nine feet long, clean towels, and disinfect all linen once a season.

In Colorado—To make it a misdemeanor to give or take a tip, excepting only the sleeping-car porter.

In Oregon—To prohibit the wearing of a hairpin more than nine inches in length, anything else to be declared a deadly weapon.

In Deleware—to tax bachelors and gypsies, both of whom are classed as undesirable citizens.

In Utah—To make it a misdemeanor not to bathe at least once a week.

In Texas—To make it a criminal offence to swear over the telephone.

STREET RAILWAY IN REGINA.

Franchise Will Be Given to Winnipeg Company.

Regina, March 22.—At a special meeting of the city council last night a resolution was passed accepting, subject to the ratification of the ratepayers, the franchise for a street railway to be granted by the city to J. W. De C. O'Grady, J. A. Anderson and J. Geddes, all of Winnipeg.

Altogether there are some thirty odd clauses in the franchise dealing with matters such as the character of the power to be used, the style of cars, fares and the usual terms in franchises of this description. One of the important clauses is connected with the percentage of the gross earnings that for an $8000 per mile of track the company shall pay 5 per cent. per annum of its gross receipts to the city. Upon each $9000 per mile this percentage is increased to 7 1-2; at $10,000 they will pay 10 per cent.; 12,000, 12½ per cent. and $15,000, 15 per cent. The contract provides that seven miles of track shall be laid by December 1, 1910, and be put in operation by May 1, 1911.

MASSACHUSETTS NOT TO VOTE ON PROHIBITION THIS YEAR

Boston, March 22.—The people of Massachusetts will not have an opportunity this year to ballot upon the question of amending the constitution of this commonwealth so to prohibit the sale of intoxicating liquor. The house late today refused to substitute a bill providing for such referendum for an adverse committee report, and then accepted the adverse report.

EARL GREY IN NEW YORK.

Will Visit Washington After Short Visit in Metropolis.

New York, March 22.—Earl Grey, who came down from Albany yesterday with President Taft, will spend a week in New York sightseeing and engaging in various social duties.

At the expiration of this period it is understood that Earl Grey will visit Washington, although no statement is forthcoming as to whether he will confer further with President Taft at this time regarding tariff relations between this country and the Dominion.

WEDNESDAY, MARCH 23.

CANADA AND THE UNITED STATES.

It is gratifying to learn that there is a fair promise of a friendly settlement being arrived at between the Canadian and the United States governments in regard to the tariff question. The estrangement that has hitherto existed between Canada and her immediate neighbor has always been matter for regret and the sooner this can be put to an end the better for both. It was of course absurd for the United States to protest that they were entitled to the same consideration as Great Britain in a matter of this kind. Such a position was altogether untenable. Canada is a part of the British Empire and has a perfect right to give any preference she may think well to the mother country without concern for or consideration of any other nation. And too she has a perfect right to make just what arrangements she pleases with France or Germany, or for that matter with China or Japan, without considering how this may please or displease her neighbor on the south.

Now that the United States government has at last come to its senses and recognized the foolishness of its having taken offence when the British preference tariff was arranged the way has been cleared for a friendly understanding. The advances to this end which have been made from Washington are what we should expect from our neighbors. They have been met by the Dominion government in the spirit in which they were made and negotiations have been proceeding in a most friendly manner between the President, Earl Grey and the Hon. W. S. Fielding. The arrangements are not yet sufficiently advanced for their exact terms to be made public, but we have a pacific message from President Taft which serves to indicate that these are likely to be satisfactory.

The president has sent this message to the people of Canada: "That my most sincere desire is that not only the present unforseen difficulty but that all other difficulties between Canada and the United States be settled with justice to both and in a spirit of friendship and generosity. . . . . I am hopeful of finding a solution which will have regard for my judicial responsibilities as president and also serve trade interests in both great countries." These expressions engender a feeling that the prospect of an amicable understanding is assured and that for the future the trade relations of Canada and the United States will be of a much more intimate character and result in a mutual extension and expansion of trade between the two countries.

It is perhaps scarcely necessary to enter upon any speculation as to what caused the United States government to recognize the error of its ways and the necessity for a better basis of trade relations. Briefly, in this connection, however, it may be remarked that it was probably the recent new tariff arrangements made between this country and Germany, which followed closely upon the Franco-Canadian tariff treaty, that served to awaken our neighbors to a sense of their absurd position.

In these times, when commerce is an international privilege, there is neither reason nor room for jealousy of any one country against another. Moreover, to hinder trade in any direction is a serious thing, bringing trouble and immeasurable loss in its train. The principle that the interest of all commercial countries are mutual must nowadays de recognized, for this is a potent factor in the prosperity if not in the very existence of the civilized nations of the globe.

BAD TIMES IMMINENT THROUGHOUT TURKEY

Key of Situation Held by Sir E Cassell, Largest Concession Holder in Empire.

London, March 22.—There is every indication that Turkey is in for a period of extremely bad times in the very near future.

The central government is weak. Money is urgently needed and the treasury is empty. The army's loyalty is uncertain. The disloyalty of a large proportion of the population is absolutely certain Various elements of the peope also hate one another to the point of actual murder—wholesale murder. The prospect of internal disorders is so good that the Austrian government has officially notified the Porte of the probable necessity of vigorous foreign intervention in Turkish affairs in the spring. War with Greece is likely to break out at any time. Bulgaria is only awaiting a favorable opportunity to grab the big Turkish province of Lacedonia.

There is but one man who undoubtedly can prevent all this trouble. This is Sir Ernest Cassel, probably the closest personal friend King Edward of England has, and a tolerably close friend, too, of Kaiser Wilhelm, of Germany. The whole question hinges on whether Sir Ernest thinks his interests will be best served by permitting things to take their course or by getting promptly to work to bring order out of chaos.

It rather looks, just now, as if he had decided upon the former policy. There are obvious reasons for this decision. Sir Ernest undertook, very soon after Abdul Hamid granted a constitution to his people, to make himself virtual ruler of Turkey. He had acquired vast interests in the country, had practically completed arrangements for the establishment of a new government bank under his own complete domination and seemed in a fair way to have the whole place completely in his hands, when the Turks took a fright at the thoroughness with which he was evidently assimilating them and decided to give certain French interests a look in.

Can't Eliminate French.

Since then Sir Ernest has been unable to crowd the Frenchman altogether out. Plenty of trouble for the present Turkish administration will certainly do it, however.

To wage a foreign war or two and to put down a multiplicity of internal uprisings the administration will have to have lots of money. The French interests are unable to furnish it in such quantities as are likely to be needed. Sir Ernest Cassel can. But he will do it only on his own terms.

Then again, in the event of serious trouble in Turkey, Sir Ernest's property interests there will need careful watching and Sir Ernest is influential enought to secure two big governments' assistance—the governments of England and Germany—in protecting these interests. It is not likely, indeed, that he will ask for aid from both governments. One will be enough and to ask assistance from both of them at once would simply be to invite a clash between them. But by playing one against the other it is very certain Sir Ernest will get just such guarantees as he wants.

Whichever country he invites to his aid, having one got into Turkey, will be extremely unlikely ever to get out again. For the invitation, this country will be under obligations to Sir Ernest and may be depended on to defer largely to him in all matters of policy in its new field. Sir Ernest will thus secure a stronger hold on Turkey than he has ever had before—a financial and, through England or Germany, a physical hold.

To prevent all this trouble Sir Ernest needs only to let the Turkish government have the money it needs before the trouble starts. Most, if not all, of the country's difficulties are of a kind that cash would remove. It would also probably be cheaper for Sir Ernest to set Turkey upon a sound financial basis now than it will be for him to do it later. But if he does it now the Turkish government will be sure to want to bargain with him. If he does it later there will not be any bargaining. Sir Ernest will be in a position to take what he wants without consulting anyone about it.

So the chances seem to be that Turkey is due for a series of foreign wars and violent civil disorders from which it will almost inevitably emerge as a sort of protectorate—something like Egypt—either of England of Germany, with Sir Ernest Cassel at the head of its banking system, its largest individual property owner, the holder of all its best franchises, the dictator of its business affairs and the most powerful factor in the shaping of its governmental policies.

AMERICA'S HIGHEST WAGES PAID IN CROW'S NEST PASS

Contract Miners Earning From $150 to $250 Per Month—Pay Roll of $175,000 Distributed Among 9000.

Winnipeg, March 22.—Mark Drumm of Blossomwood ranch, Frank, Alberta, formerly publisher of the Frank paper, is in the city today on the way east to Ottawa and New York. Mr. Drumm, although a young man, is the oldest resident of Frank and has been on the frontier most of the time for the past thirty years. Speaking of the great development of the coal and other interests at Frank in the past few years, he said:

"This year coal is being mined in The Pass at the rate of 5,000 tons per day. By The Pass I mean that portion of the Crow's Nest Pass which lies in Alberta, this phrase being now used in the west with this meaning. In the year 1900, ten years ago, there was no coal mining in The Pass, and in 1901 it was being mined at the rate of one or two cars per day.

"In the past nine years companies have been organized for mining purposes in the district with a capitalization of $12,000,000. Equipment for mining has been installed at the mines at a cost of between $7,000,000 and $8,000,000. In addition, new companies are now being organized or have been recently formed and are just beginning operations. These, together with other industrial enterprises will bring the capital investment up to $20,000,000. Among the other industries of the district to which I refer is a cement plant, lime burning plants and kindred industries, such as brick yards. The cement plant is noted as one from which cement can be placed on the cars from the factory seventy-five cents a barrel cheaper than from any other plant in America.

"The town of Frank has now a population of between fifteen hundred and two thousand people. It is the centre of a district eight miles long and one and one-half miles wide. Each of the towns of this district has an electric light and a water system, affording to the residents all modern conveniences. A project is now under way to connect all the towns with an electric interurban line. Frank, which is located in the exact centre of the area, has the customs house for the district, and is the only station at which the Soo-Spokane flier stops. It is the junction point of the Frank and Grassy Mountain railway with the Crow's Ness line, and is the natural distributing point for the district. The population of this area at the time of the inception of the work of the Canadian-American Coal and Coke company in 1901 was not a hundred souls and not a dollar was paid out in wages. The district now has between 8,000 and 9,000 people and an average monthly pay roll of $175,000. It has as fine schools and churches as are to be found anywhere in the Canadian west. It has a perfect long-distance telephone system. We can talk a thousand miles in any direction, and have a direct telephone wire to the coast. We are in the closest touch with the great inland empire of Washington and Idaho, as well as with Western Canada.

"The conditions of labor in the district are better than those in any similar district on the continent. Butte is commonly regarded as the Mecca of the man who has only his labor to sell, but men in Butte do not enjoy as favorable conditions as those which exist in The Pass. Men there receive the largest average wage for the shortest number of hours of any point on the continent. The law of the province forbids any miner to be in the mine for a longer period than eight hours daily. The actual work done often does not exceed six hours, the balance of the time being spent in reaching the coal, from the mouth of the mine. Day men in the mines receive $3.50 per day. Contract miners receive from $150 to $250 per month. No Oriental labor is employed, but there are representatives of almost all European nationalities.

"The men have considerable leisure time and as they are well paid, many of them are improving themselves and educating themselves by private study. As an illustration of this I may state that at a meeting of the United Mine Workers of America, district number 18 ,embracing all Alberta, held at Lethbridge, out of the thirty delegates present, it was found that eight were splendid qualified shorthand reporters. None of these men had received instruction, but had all learned stenography privately in their leisure time for the purpose of advancing themselves in life. I doubt if this could be equalled in any labor gathering anywhere in the world. Other miners are devoting themselves to other pursuits of an educational nature and fitting themselves for better places in future years. It must be admitted, however, that in The Pass, as in all the mining towns of Alberta and British Columbia, there is too much drunkenness. If it was possible by any means to check the excessive drinking of a portion of our population, we would have the most prosperous and richest working population in the world."

While in the city Mr. Drumm is a guest of the Royal Alexandra. He will be in Winnipeg again in the course of a few weeks. His home, Blossomwood Rranch, is a part of the town of Frank, and he is arranging to subdivide a portion of it and place it on the market.

Mayor's Remonstrance Has Effect.

New York, March 22.—Police Commissioner Baker announced today that in compliance with Mayor Gaynor's letter of yesterday he has ordered that no prisoner be measured or photographed for the Rogues Gallery unless he has been tried and convicted or has pleaded guilty to the commission of a crime.

The time to buy South Westminster Real Estate is now. We are offering the largest and choicest lots at market values. Do you know that any one of the lots we now offer you might make you a wealthy man or woman in a few weeks? So great is the demand for land over the river that it is impossible to buy wrong. All buys must yield a profit but some larger than others. See our notice on Page 12.

ORAL BASEBALL BOYS ILL HAVE STRONG NINE

Meeting of Senior Club in League Is Occasion of Much Talk—Officers Elected.

e Balmoral Baseball club bids be a winner once again this having already secured an on a bunch of promising sphere s that look like real heroes of mond. Here are a few of the hampions who are to don the d blue uniform this summer: Sinclair, Dr. Briggs, Alex. How- Sayce, McPhail C. Stein, H. C. Smith, F. O. Canfield, H. Fitzgerald, T. H. Barbaree, Mc- McIvor, Jackson, H. J. Spurr, s Wright, Frank Bilodeau, ell and C. B. Deans. And at he list is still far from com-

annual meeting of the club was esterday evening, when F. O. d directed the proceedings. Af- uch weighty conversation the ng officers were elected: Hon. ent, Dr. C. E. Doherty; presi- D. Taylor, M. P.; vice presi- W. Luce; secretary, C. Stein; er, W. E. Sinclair; executive ttee, H. Ryall, Dr. Briggs, W. E. McPhail and Alex Howard. Canfield was elected manager, e choice of a captain was left or some time.

O. Canfield and Alex. Howard appointed delegates to the ister Baseball association and ave something to say at the meeting, which takes place on lay of next week at W. E. Sin- office.

NTO SCRIBE REVIEWS OSSE SITUATION IN EAST

Could Be Commercialized and Remain Attractive to Public, Declares Critic.

following general comment on ng affairs by Francis Nelson, ell known Toronto writer, should interesting:

ow, it is lacrosse that is to be ned, and part of the reform s to be a general unanimity that National Lacrosse union is re- ible for the lack of interest and tunted growth of the national To some extent that is so, he cant phrase of 'commercial- the sport," which the super- and the half-informed are fond plying to everything, does not sent the case correctly. La- e, in the professional branch, be commercialized here as all is in the States, and become ular and respectable sport. It nducted on a different plan h. The principle being that thing goes if you can get away it.' As a rule you can—so far e N.L.U. discipline is concern- Players may beat referees whose ions do not suit, and may beat ing players without paying more the merest trifle of penalty. And ng as the N.L.U. is constituted is, of some half dozen clubs that ot exist each one without the , so long will that continue.

Montreal a working committee been appointed to increase the in- t in the game among the boys, to organize junior leagues. W. E. lay, of the M.A.A.A., is at the of it, and there is sure to be thing done, because he is sound rinciple and very much in earnest is love of lacrosse. The Canadian osse association as usual, was in forefront with the establishment ar ago of a juvenile series, which ertain to produce great benefits, use it is a movement in the right s.

Lacrosse has no special trouble of own. It suffers, in a general way, n the common 'sissy' tendency of day. The feminist spirit is abroad active in the land. We are all e made mollycoddles, with no dif- lties to face, no battles to fight, no ptations to overcome. A tribe of women is to be produced and the t of youth is to be altered to fit. nes of personal contact and strenu- effort are to be tamed, and hock- lacrosse, football, rowing and h manly pastimes are becoming opular because they demand virile lities and purposes. Not so will ada produce an enduring or a dom- nt race of people, able to maintain r position among the nations of world.

REGINA'S TEAM MADE BIG MONEY

Trip of Hired Men in Quest of Minto Cup Makes Calgary Think

Now that the question of professional lacrosse has been broached in the city of Calgary, a number of lacrosse supporters, including Barney Collison, have asked The Calgary Herald to tell the story of Regina's experience in regard to sending a professional team after the Minto cup.

This The Herald proceeds to do, and in accomplishing its purpose, shows that the Regina trip netted a profit of some $13,000 to the promoters.

The Herald says:

Last year the matter was considered early in the season at Regina, and it was decided to be an excellent publicity scheme, if it could be financed.

(Continued on Page Eleven.)

CHINESE NOW AT GATE OF HOLY CITY OF LHASSA

London Regards Military Activities One of Most Momentous of Present Day Warfare.

London, March 22.—China is engaged in one of the most momentous military undertakings of the present day. She is reconquering Tibet, the last remaining land of mystery in the world, and her army is at the gates of Lhassa with modern artillery and wireless telegraphy.

No more amazing announcement has ever been made of the action of any foreign government. China is at last awake; she has begun her new life with an energetic policy which must have lasting and far reaching effect, not only on the future of the Far East, but of the Chinese empire itself. Tibet is to be regenerated and reformed; the populous monasteries (hitherto the most inaccessible stronghold of Buddhism in the world) are to be reduced or suppressed, and Chinese colonists are receiving inducements to settle in the newly opened protectorate.

Twenty-five thousand men, comprising the finest modern troops in China, and commanded by officers trained under the Japanese, have entered Tibet from Szechuan with 200 mountain guns and all the equipment of a modern army in the field.

A telegram from Calcutta states that the Chinese have entered Lhassa from the east. The Dalai Lama, the incarnation of Buddha, has fled from the sacred city with his ministers, and is now on his way to India. He will arrive at Kalimpank on Saturday. It is believed that he intends to appeal to the Indian government.

Explains Plan of Campaign.

Important information regarding this epoch-making situation has been received from an official who has spent the past fifteen years in the neighborhood of the Eastern Tibetan border, involving between two and three thousand miles annual travelling among the semi-independent and wild tribes of that region. He is the only white man some of them have seen; he possesses many friends among the border Tibetans, and is in touch with Lhassa.

"The news of the Dalai Lama's flight from Lhassa is not surprising," he said, "for it was not the intention of the Chinese government to allow him to be fully reinstated—at any rate so far as his civil power was concerned.

"China is pursuing an extremely aggressive Tibetan policy, owing to the British mission to Lhassa and the necessity thereby imposed upon China of establishing more effective control over old hereditary border chiefs and other frontier men have been replaced by Chinese officials.

Thousands of Troops Sent.

"Twenty-five thousand troops were to be sent from Szechuan, the best organized military province in Western China, and of these 15,000 had left Chentu, the capital of Szechuan. All these men had been trained on Japanese lines by Chinese cadets, who themselves passed through the military academy with its Japanese instructors.

"It was a daily occurrence for caravans to be dispatched from various centres in Szechuan towards Tibet. These caravans averaged 400 coolies with loads and perhaps 200 mules, carrying arms, ammunition, and military supplies along the main road into Tibet.

"The idea in view was not thoroughly to subdue the frontier tribes at once, but to cut a way through to Lhassa. The army took with it wireless telegraphic apparatus, and completed this installation as it advanced into Tibet. The existing telegraph is always being cut by Tibetans, and has to be guarded by Chinese soldiers every two and a half miles.

"The Chinese army on the frontier met with great opposition and encountered enormous difficulties. Much suffering was occasioned by extreme cold and the lack of supplies and clothing. Just before I left reports came in of severe Chinese reverses.

"At least 200 mountain guns of Japanese pattern have been sent into Tibet, and on the day I left fourteen of these passed my house bound for the west. Some time ago I counted a caravan with 150 loads of silver for the payment of the troops.

Rush Manufacture of Arms.

"Feverish activity prevails at the two arsenals at Chentu, where 7,000 men are working night and day. All the machinery in the new arsenal is German, and, together with the plant at the new powder factory, was only lately completed under German supervision.

"Unfortunately there is no doubt that the Chinese soldiery do not pay much regard to the religious susceptibilities of the Tibetans, and that the charges of desecration of the monasteries are well founded. The Chinese are doing their best to reduce the number of lamas, they policy being not to allow more than 100 to a monastery whereas at present there are often as many as 5,000.

"The remainder they are inducing to get married and go on the land. The Chinese are also holding out every inducement for Chinese emigrants to go into the newly opened part of Tibet. They are offering grants of land, and are also advancing money for outfits, seeds, etc., for five years without interest.

"The large majority of the trained troops who are now being employed are strongly anti-dynastic and chafe under the antiquated methods of Pekin. Well armed and organized and flushed with victory, the attitude they may take up may have a good deal of influence on the position in China."

EXPERIMENTS WITH WIND.

Special Efforts to Convert Air Into Electricity.

London, March 22.—Successful efforts are now being made to convert wind into electricity. Quite a large farm near Hamburg is being supplied with electrical energy generated by wind-power threshing machines, pumps and various farm appliances being electrically driven, while some hundreds of incandescent lamps are lighted in various sheds and houses on the farm.

A large wind turbine is placed at the top of a tower, and as this is revolved by the wind it actuates a dynamo, which charges accumulators; consequently the electricity generated by a wind during the night can be stored up for the following day. An auxiliary oil engine has been installed for times when the wind falls.

This is not the only plant for generating electricity. A firm of electrical engineers at Willesden Green have for some tme had one running successfully. An ingenious arrangement is used by them to check the vagaries of the wind. When a strong wind is blowing, the turbine naturally revolves quicker than in the case of a light breeze, hence the dynamo is driven quicker. The voltage or pressure of a dynamo rises in direct proportion to its speed, and a considerable rise might easily ruin the accumulators it was charging. The arrangement referred to automatically checks and charges in voltage, so that a sudden change in the wind is instantly counterbalanced.

Look over the mattings. Still got 'em; 20c yard. Fales. **

Loose Tea Loses Flavour

It not only loses flavour, but worse than this, loose tea takes on new odors, such as coal oil, molasses, onions, coffee, soap, etc.,—to say nothing of its exposure to the sun, dust, dirt and air. Therefore for your protection

"SALADA" 12A

is sold only in sealed lead packets—never in bulk.

EMPLOYERS' LIABILITY

Why You Should Insure Against Lawsuits

WORKMEN can sue you without cost to themselves, and they have EVERYTHING to gain and small chance to lose by so doing.

PERSONS other than employees accidentally injured about the premises invariably sue for damages.

REGARDLESS of their own responsibility for the accident, or the existence of negligence on the part of others.

ON the slightest pretext employees may sue you, even for accidents caused by the negligence of a fellow-workman, and

THE suit may be brought against you long after the occurrence of the accident by which he was injured.

EMPLOYERS and business men can ill afford to assume the risk of this ever-increasing and uncertain liability.

CREDIT of otherwise responsible manufacturers and business firms is sometimes seriously impaired by such damage suits.

TO go to law means loss of time, money, endless annoyance and worry.

YOUR profits may be seriously curtailed as a result of accident unless you are insured.

ONLY insurance against such risks will enable you to fix and reduce your expenses to a minimum.

UNDER the protection of a Liability Policy in the Railway Passengers' Assurance Company you will save money and time and be relieved from all such annoyances.

ACREAGE IN SOUTH WESTMINSTER

SURE BUY

You've read all about the coming development of the C. N. R. and B. C. Electric on the South bank, so why dwell upon it further.

As an old timer said to me this morning: "There'll be 5000 people across the river within 18 months."

South Westminster is going to be a North Vancouver over again and here are a few parcels of acreage which will play a prominent part in the evolution.

55 Acres at $500

This 55 acres is in the south half of Section 29, township 2, and is a dandy for subdivision purposes. On Chilliwack tram and Sandal roads, superb view and light clearing,---a piece of land with untold possibilities at $500 an acre.

11 Acres at $650

Eleven acres in Section 21, on Yale, Hjorth and Sandal roads, high, dry and with a splendid view of the Fraser and the city. Can be subdivided to excellent advantage.

9 and a half Acres Cleared at $9,500

This piece is in Section 20. The tram runs right through it, all cleared and part in bearing orchard, Right against South Westminster post office and a store, not more than 20 minutes walk from the New Westminster city hall. This is eminently inside stuff and will produce a rental to the man who wants to hold it. One third cash.

18 Acres at $500

This block faces on the Yale and Hjorth roads in Section 27, and has a house and barn on the Yale road side. One acre is cleared, the rest is light marketable timber. Here is one of the chances which stand ready to make a lot of money for some man on the south shore. Will bring $1000 an acre before a year.

BUY IN South Westminster

Two 4 acre tracts in Lot 5, right beside B. C. E. R. New Shops and Freight Sheds. The price is right. See us to-day.

Ten acres in Section 15 at $1000 per acre. The C. N. R. own all the rest. This is surrounded by roads. Easy to subdivide.

Five acres in Section 30, touching the tram, at $900 per acre. This lies beautifully, and there is no nicer homesite.

Ten acres, N. E. corner of Sec. 32, almost cleared at $350 per acre, for two days only.

Ten acres in Section 34 at $350. House, barn, etc., included.

145 Acres, Delta farm. All cleared, right at G. N. R. Depot, for $200 per acre. $4000 cash handles this, balance long terms.

Five lots all cleared and five roomed house on 1st street. Double corner, all for $1800.

DISTRICT COUNCILS

BURNABY COUNCIL.

The regular meeting of the council was held on Saturday March 19 at two p.m.

A largely signed petition was received from residents and others with reference to the condition of Smith avenue caused by the non-fulfillment on the part of the B. C. E. Railway company of their agreement on the erection of high level bridge. Referred to Councillors Rumble, Stride and the Reeve, the board of works having made a recommendation in regard to the same matter.

The board of trade wrote asking for a joint meeting with the council for the purpose of mapping out trunk roads in the district. The board were to be notified that the council would be pleased to meet their deputation at any regular meeting.

The board of trade also wrote urging the necessity of obtaining title to portion of Edmonds street now vested in the B. C. E. Railway. Received and the board to be notified that the B. C. E. Railway had already agreed to grant deed.

J. D. Taylor, M.P., wrote with reference to bill of Western Canada Power company with regard to which the council had forwarded resolution and stated that the provisions of the bill which passed the Commons some time ago were not as it appeared to have been reported to the council; the bill providing merely for the construction of a railway from company's works at Stave river to a point on the C. P. R. near Hammond. There never was any suggestion that the company should be given the power to construct tramways through any municipality in British Columbia without the consent of the municipal council.

Letters were also received from the secretary of the school board asking for Dow road crossing to be opened to accomodate pupils attending West Burnaby school; W. H. Ladner with reference to drainage of property south of Jubilee road. These matters were referred to Councillors Rumble, Stride and the reeve.

W. Haight wrote asking for ditch to be constructed on Gunn road to enable him to drain his property. It was decided that the council could not undertake to dig ditches for this purpose.

The board of works reported as follows:

That the committee appointed had seen the City of New Westminster with reference to the repairing of Tenth avenue between Thirteenth and Fifteenth streets, and recommended that specifications be prepared by the two engineers for the work.

That the B. C. Telephone company be allowed to proceed with the erection of poles on the Vancouver road on the terms of their letter.

That a committee of Councillor McKee and the Engineer go out and inspect Snake Hill with power to spend a sum not exceeding $300.

That Rose avenue be gravelled, sum not to exceed $400.

That work be commenced on Nelson road under the bylaw and that Councillor Rumble be empowered to spend a sum not exceeding $200.

That specifications be prepared for extension of Buller road to Lot 18, Block 24, D.L. 159 as requested by M. Carlyle.

That Coquitlam Council had agreed to build ten chains of North road south from Boundary of Port Moody.

That gang now working east of the Pole Line road repair worst parts of road west of Pole Line road and widen out Pole Line road at junction with Barnet road.

That New Westminster council be asked to cut hill south east from Tenth avenue for about four chains. The excavation to be used in making fill for about five chains northwest of Tenth avenue.

That clerk write B. C. Electric Railway requesting Buller road, Royal Oak road and Dow road crossings to be opened up and that a committee of Councillors Stride, Rumble and the Engineer see D. J. McQuarrie in reference thereto.

That council write B. C. Electric Railway requesting them to carry out contract at Central Park in clearing grade and macadamising Vancouver road.

That profile of cuts to be made on the Vancouver road be prepared by the engineer and submitted to the board of works for approval before being given to road foreman.

That the tender of J. H. Murton for the clearing and grading of thirteen chains (more or less) of Eleventh avenue at $13.75 per chain be accepted.

That the tender of Messrs. Reid and Pickens for the clearing and grading of twelve chains (more or less) of Eighth avenue at $15 per chain be accepted.

The report was received and adopted.

The reeve reported that at a joint meeting of the waterworks committee that they had recommended that the agreement with the B. C. Electric Railway company as to the supply of water from their well be approved, and that the services of A. J. Henderson, C.E., be retained in connection with the scheme.

The report was received and adopted and the reeve and clerk were authorised to sign agreement and that tenders be now called for work of construction of the waterworks system.

The waterworks bylaw was read a third time and finally passed.

Councillor Rumble gave notice of his intention to introduce a Trades and License bylaw.

Councillor Coldicutt gave notice that he would introduce the following resolution at the next meeting of the council: That all subdivision plans from this date must show a twenty-foot lane at the rear of lots.

The council then adjourned to Saturday, April 2, at three o'clock p.m.

SURREY COUNCIL.

The council met in the Town Hall, Surrey Centre, March 19, the reeve and all the members being present. The minutes of the previous meeting were read and confirmed.

Communications were received as follows:

From C. J. Fagan, secretary, thanking the council for their grant of $60 to the Anti-Tuberculosis society. Received.

From Alex Philip, C.M.C., of North Vancouver, conveying the thanks of his council for support in the matter of the proposed amendment to the Municipal Elections act, and stating the objectionable provisions had been withdrawn by the attorney-general. Received.

From Harley D. Miller, applying to have the road opened on the northwest side of lots 1 and 2, block 4, section 30, as it is the only thoroughfare to the street railway tracks for residents in that district. Received and referred to Councillor Murphy.

From H. Neville Smith, enclosing plans of subdivision of the northwest quarter of section 22, township 7, which were approved and singed.

From Walter J. Walker, re taxes on church property at Port Kells; also danger of slashing and piling brush along the road without burning the same. Received. Also regarding taxes on southeast quarter of section 23, township 2. Received and referred to the reeve.

From Thos. W. Hardy, protesting against the expenditure of the $100 appropriated for opening a road to the northeast quarter of section 23, township 1. Received and referred to Councillor Keery.

From D. C. Esson, saying he had been unable to make his home on his land, section 12, block 5, N. R. 1 W., as there was no road, and requesting the council to improve the Clover Valley road to the river. Received and referred to Councillor Inglis.

The clerk was instructed to write to the G. N. Ry. company to clean out their ditch to carry the water through their culvert at a point about one-half mile south of Tynehead station.

On motion the following appropriations were made:

Johnston road, $400; Scott road, $400; Yale road, $200.

Councillor MacKenzie gave notice that he would introduce a Highway bylaw at the next meeting.

The following accounts were passed and cheques issued:

F. J. Hart & Co., guarantee bond, road tax collector, $7.50; E. M. Carncross, postage, etc., $10; The Columbian Co., Ltd., advertising, $4.25; James Bothwell, work C. M. road, Ward 1, $12; Edward Martin, work C. M. road, Ward 1, $9; W. E. Laking, plank for culvert McLellan road, Ward 4, $1.62; E. Rose, work C. V. road, Ward 4, $20.75; Samuel Spencer work C. V. road, Ward 4, $22.75; H. L. McCallum, work C. V. road, Ward 4, $30; Jos. Perdue, work C. V. road, Ward 4, $10.25; George Troughton, work Yale road, Ward 2, $2.50; John Quible, work New Yale road, Ward 2, $10; William Hadden ,repairs Nicomekl bridge, Ward 3, $2.60; Robert Johnston, work McBride road, Ward 3, $12; George Kyle, work McBride road, Ward 3, $5.

The council then adjourned to meet again on Saturday, April 2, at one o'clock p.m.

HEMER REEVES DISCUSSES CANADA'S SECOND CHAMBER

London, March 22.—Hemer Reeves, director of the London School of Economics, and a member of the Senate University of London, in discussing the second chambers of the Empire, said the colonies laugh at Great Britain's lesson to have nothing to do with second chambers on that basis. Although there was an upper house in Canada appointed for life, there had not been a conflict between it and the lower house because the latter was somewhat conservative and had not introduced drastic social reforms and penal taxation as a novel experiment.

BETRAYED BY GIRL.

Train Robber Long Wanted by Police Given Away by Sweetheart.

Seattle, March 22.—Betrayed by his sweetheart, Richard Howley, believed to be one of the participants in the boldest train robbery in the history of the Pacific northwest—the looting of the express car of the Great Northern passenger train No. 247, on the morning of May 21, 1908—is held by the police at the city jail.

It was after four months of persistent and careful work on the part of James Ryno, a special operative in the employ of the prosecuting attorney's office, and County Detective L. K. Church, with the only clew that was given by a woman, Miss Marie Southerland, of Tacoma, that the detective located Howley and produced evidence, the collection of which baffled the police and detective departments of half a hundred cities.

The Great Northern Express company, St. Paul, Minn., has wired Ryno and Church that they will pay $5000 for the conviction of Howley.

CUPID GETS BUSY IN NIGHT SCHOOL

One Hundred and Twenty Girls Guided by Leader's Advice Become Engaged.

New York, March 22.—Since Miss Margaret Dwyer, principal of the high school at Pitt and Rivington streets, began the present term last fall she has spent much time tellings the girls what sort of men they should choose for husbands. As a result of her advice 120 misses, between 15 and 17, have become engaged, twenty having announced their betrothals since last Friday night. They are going to show up at the close of the session next Thursday night to get their diplomas and many weddings will take place within ten days thereafter.

The belle of the night school, and one of the latest to announce her engagement, is Miss Annie Kessler of 314 Houston street. She won't be 16 for several weeks.

Miss Pauline Reich, 17, of 51 Columbia street, went to school for four years to learn English. She learned it so well that the American she will marry within a fortnight will have no trouble on that score.

Rose Satin, of 106 Ridge street, and Bessie Elkin, of 125 Broome street, both 17, have found husbands. The former is to marry a young clothing salesman. Miss Elkin's choice is Julius Bernfeld, of 6 First avenue, who came four years ago from her native town, Minsk, Russia. Miss Elkin has been in this country two years. She will be married three days after she receives her diploma.

All of the girls are consulting Miss Dwyer, thirty-seven years a schoolteacher, about what is the correct thing for weddings, and she bids fair to become the champion wedding guest of New York.

'VARSITY BOAT RACE.

Oxford and Cambridge Make Final Preparations for Contest.

Putney, Eng., March 22.—Light paddling and a few practice starts completed the preparations by the Oxford and Cambridge crews for tomorrow's race over the championship course from Putney to Mortlake. All the men appear to be in prime condition. Both crews have strong supporters, but the heavier Oxonians remain the favorite with the riverside crowds. The race is timed to start at 12:15 o'clock.

JAMES LEAMY RETURNS FROM TRIP TO INTERIOR

James Leamy, Dominion timber agent, has just returned from a trip to the interior. Mr. Leamy's business was purely official. He states that the trains were very irregular owing to the state of the line in the mountains. Slides were occurring every day and traffic was very slim on account of the danger.

He went as far as Salmon Arm, and most of the places he stopped at were experiencing the same prosperity as the coast. Real estate in Kamloops is very high and Ashcroft and Salmon Arm are also booming. Mr. Leamy got back in time to assist at the timber sale being held today.

The regular monthly meeting of the New Westminster Liberal association will be held at eight o'clock this evening in the Liberal clubrooms over The Daily News office.

See the carpets at Fales. **

The annual meeting of the East End junior lacrosse club will be held in No. 2 firehall at 7:30 o'clock this evening.

Mrs. Moore's millinery opening is now in full swing. See what she has in all that is the latest and best in millinery. **

Rev. Dr. T. Wardlaw Taylor has called a meeting of all university graduates resident in the city for the discussion of representation on the lower mainland university site committee. The meeting will be held on Thursday evening in the board of trade room in the city hall.

Free tuition is now being given to intending purchasers of Oliver Typewriters. It costs you nothing to try this machine, and only seventeen cents a day to buy one when satisfied with your test. Particulars post free from Mr. Holton E. Sands, 746 Columbia Street, City. ***

For the latest in fashionable footwear, see Sinclair's show window today. **

The marriage took place on Monday of John Edward Seabrook, of this city, and Miss Elizabeth Sword, of Bogner, Ont. Rev. J. Calvert, D. D., performed the ceremony at the West End parsonage. Mr. and Mrs. Seabrook will take up their residence for the time being on Twelfth street, the guests of George R. and Mrs. Speck.

South Westminster lots are in great demand at present. Hales Bros. & Kennedy, Ltd., have a choice subdivision at low prices. See them. **

Two sailing vessels, one of them French and the other Russian, are expected daily at the Fraser River mills to load lumber for the United Kingdom.

Ladies,—See the latest in New York styles at Sinclair's. **

A good appearance is an invaluable asset—not a luxury but a necessity. Ring up R 278, Royal City Chemical Cleaners, and we will assist you. **

Local grown plants and flowers, fresh every day at the Co-Operative store, Sixth street. **

C. R. Sayers, western secretary of the Y. M. C. A., who is in the city preparing to commence an extensive canvass for funds for the new building here, states that he will not be ready to start for about a week. Mr. Sayers was shown around the city yesterday by Alderman Gilley and in the course of his travels held an interview with Mayor Lee.

A payment of $25 procures a lot in South Westminster from Hale Bros. & Kennedy, Ltd. These lots are in great demand. **

Easter lillies and Easter flowers at Tidy's, the florist, 737 Columbia St. Phone L 184. **

Mrs. Janet Wallace, of Medicine Hat, left for Victoria and Seattle yesterday, accompanied by her daughter-in-law, Mrs. G. B. Wallace, of this city. On her return Mrs. Wallace will leave for her home in the Gas City.

Mr. H. T. Kirk has just received a carload of Sherwin William's Paints.*

F. C. Meyers, agent of the Great Northern, has written to the secretary of the board of trade to the effect that he is making arrangements to have the shunting of cars in front of the market on Front street curtailed as much as possible. The addition to the G. N. R. wharf, which will be completed in a few days, will help to avoid the trouble.

Next Monday being Easter Monday all the government offices in the city will be closed and the employees of the city hall will also take a day off.

Ladies, our show window will be lighted every evening this week. The latest in foot-wear, as shown in New York, is here. W. E. Sinclair, the shoe man. **

S. H. Ford, the man who figured in the row at Pitt Meadows last Sunday, was taken out of the hospital yesterday and appeared before Magistrate Pittendrigh on a charge of wounding with intent to do grievous bodily harm. The case was remanded for a week without evidence being taken. Ford was taken to the jail. A. LeLion, who is resting at his home at Pitt Meadows, is reported to be progressing favorably.

See big display of Easter plants and flowers at our market stand, on Thursday. Davies Greenhouse. **

Finlay Murchison, a man eighty-three years of age, who died at his home on Galiano island on Sunday, was buried yesterday in the Masonic cemetery, the Rev. J. S. Henderson officiating. Murchie & Sons had charge of the funeral arrangements.

Charles Guffey, a young man charged with obtaining money by false pretences, was yesterday sentenced to three months in jail by Magistrate Corbould.

Judge Howay yesterday afternoon handed down a judgment in the case of Wick vs. Croll. This was a case brought by the owner of a launch against the captain of the tug Clive for damages resulting from a collision in November. Damages were awarded to the extent of $180 and his honor gave it as his opinion that all vessels of whatever kind in the harbor of New Westminster should carry lights at night.

Fales' for furniture, Agnes St. **

The case of L. Pillath vs. the Dominion Shingle company was heard before Judge Howay yesterday afternoon. Pillath complained that the defendants had cut down four trees on his property and he wanted damages to the extent of $50. The shingle company maintained that the cutting was purely the result of a mistake on their lart in locating the survey line and submitted that they had offered the plaintiff what they considered a reasonable indemnity, which he refused to accept. His honor was inclined to view the matter in the light of a mistake and awarded the plaintiff the sum of $8 and reserved the question of costs. W. G. McQuarrie appeared for the plaintiff and G. E. Martin for the defence.

Got any papering and patining to do? If so, see I. Hudson, Sixth street.

Timing Device Out of Business.

Dayton, Fla., March 22.—The ten-mile auto handicap was won by Chalmers Forty in 2 minutes 3 seconds; Chalmers Thirty, 5 minutes 25 seconds was second, and Hudson, 6 minutes 30 seconds, third. The timing device in use became short circuited and no time was taken. The tide came in rapidly and it was necessary to postpone the one and five-mile championship events until Wednesday. Oldfield (Christie) drove an exhibition but no time was taken.

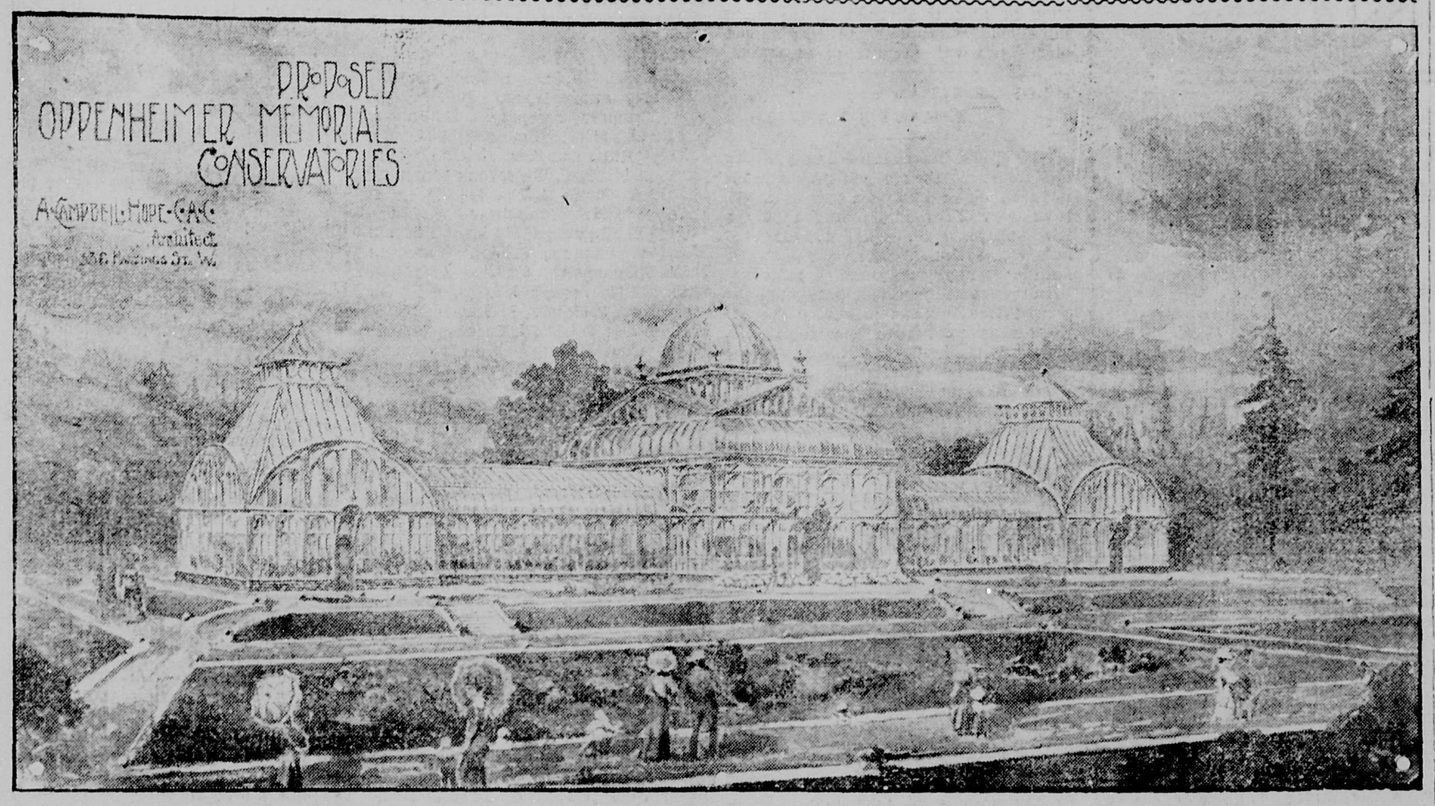
Artistic Conservatory Designed for Oppenheimer Memorial



The design for the Oppenheimer memorial which has been prepared by A. Campbell Hope, who has recently opened a branch office in this city, was last week submitted to a meeting held in Vancouver to decide on a suitable memorial for the late Mr. Oppenheimer. The meeting were unanimous in its favor, thinking it more suitable than an arch, which had been previously proposed. A further meeting will be held at the Vancouver board of trade offices tomorrow and if satisfactory financial aid is forthcoming the city council will be asked to provide a site for it in Stanley park and an amount sufficient for its upkeep.

The design comprises a large central building with two wings, so arranged that they can be built at a latter date when more funds are available. The present suggestion is to construct the central hall at a cost of about $30,000 to $40.000. This will make a fine and artistic conservatory of about sixty feet square and fifty feet high.

Since the last meeting at which it was proposed the matter has been well discussed and favorably commented on by the members of the board of trade and the council and there is every chance of it being taken up and started almost immediately.

A. Campbell Hope, who is a well travelled man, is now comfortably settled in his offices here, and the walls are adorned with photographs and plans of the buildings he has erected in Vancouver and San Francisco from the cottage to the apartment house, and the farm house to the skyscraper.

He intends looking after this branch of his business personally, but until some of his Vancouver contracts are completed he will only be at his offices, 625 Columbia street, on Mondays, Wednesdays, and Fridays.

POETS COME TO SAD ENDS.

Yeats Tells of Deaths From Drink and Suicide.

London, March 21.—W. B. Yeats, the Irish songster, told a sad little story of the dissolution of the coterie of poets which existed in London a few years ago under the title of the Rhymsters' club, in the course of a lecture on contemporary poetry this week.

For the twelve poets who had formed the club Mr. Yeats claimed that sincerity which marks the true artist. Several of them had gained distinction. Yet of the little party two had since died of drink, a third had committed suiside, and two others had lost their reason.

"A poet's life must almost necessarily be troubled," said Mr. Yeats. "All songs are those of victories won in the poet's mind. If you could find a perfectly steady nature you would find a silent one."

POISONED WINE PLACED ON THE COMMUNION TABLE

Rome, March 20.—At Villafranca, near Verona, a priest, while celebrating mass in the crowded parish church, fell senseless on the altar steps immediately after drinking the consecrated wine. The congregatoin in a state of great excitement and alarm, rushed to his aid. A doctor was hastily summoned, and ascertained that the priest had been poisoned. He analyzed the wine and found that it contained sulphuric acid. The priest was conveyed to a hospital and it is believed that he will recover.

The case is surrounded with mystery. The police have arrested the three sacristans, but the crime is ascribed to an anarchist. At any rate it is believed that the motive was political, and that the parish priest, who is the leader of the local clerical party, was the intended victim. He was to have performed mass, but owing to indisposition his place was taken by another priest.

Another theory is based on the belief that the alms-boxes had been broken open, and that burglars poisoned the wine on the previous night.

PATH OF TRUE LOVE PROVES THORNY ONE

Tonopah, Nev., March 21.—Although every clergyman and judge in the city had refused to perform the wedding ceremony, G. Masaki and Juliette Schwann, both of Los Angeles, secured a second marriage license here today and will make a last appeal to the parish priest in an effort to be made man and wife. The priest has declined to officiate. When the couple appeared in Goldfield yesterday to be married, they were escorted out of town by the sheriff.

PRESIDENT DENOUNCED FOR ATTENDING DANCE

Toledo, Ohio, March 21.—Bishop William M. Weekly in the current number of the Religious Telescope scores President Taft for dancing and says Mr. Taft by attending so many dances is degrading the nation.

"Of course, Mr. Taft wants to appear broad-minded," says the bishop, "but when his wide notions degrade the nation to the level of the ball room it is time to protest. The churches will experience more trouble in restraining wayward boys and girls than ever before."

FIVE CENT PIECE MAY BE MADE OF NICKEL

Movement Started to Substitute Pure Nickel for Silver—American Coin Is Amalgam.

The elusive little Canadian five cent piece, the bugbear of United States visitors, to Canada, is doomed if many geologists, metallurgists and mining men have their way. It is claimed that the adoption of a nickel coin worth the same amount of money would be an improvement. Germany, France and other European countries have adopted nickel for coinage purposes, and why not Canada, a country where nickel, as applied to a five cent piece in coinage vernacular, is a misnomer when Canadian coins of that denomination are referred to. Canadian five cent pieces do not contain any nickel. United States five cent pieces are composed of an amalgam of nickel and copper.

Dr. W. G. Miller, Ontario provincial geologist and ex-president of the Canadian mining institute, is an enthusiastic advocate of the superiority of nickel for coinage purposes. In his presidential address he made the following reference to the matter: "Heretofore the Dominion mint at Ottawa has been turning out copper and silver coins and British sovereigns. Now it is to mint Canadian gold as well. It is to be hoped that ere long Canada will have a pure nickel coin, since this metal has been used by several European countries for coinage and found to be well adapted for the purposes. The present Canadian nickel is the smallest coin in the current coinage. It is also, perhaps, the most handled, and its size makes the handling of it extremely awkward. It is so near the size of a ten cent piece that it is not an easy matter to distinguish the two, unless by careful scrutiny."

"Pure nickel can be stamped now," Dr. Miller stated, "and why can we not use it for coinage? It wears hard and would be between the size of a ten and a twenty-five cent piece, and thus would be more easily distinguishable. The United States nickel wears greasy. This is because it is not pure nickel, but copper and nickel amalgamated. The pure nickel coins are superior to the amalgam coins."

Nickel has a value of forty cents a pound and is not as heavy as silver. The proportion in weight between the two metals is about the ratio of one to two. Silver is of great deal more value, is might be expected, an ounce being worth forty cents.

The federal government has been impressed by expert metallurgists and others with the desirabilitiy of having a real nickel five cent piece coined in Canada. Nothing has been done yet, but the disciples of the "real nickel nickel" are as enthusiastic as ever and expect that the question will be taken up seriously in the near future. Canada produces sixty-five per cent of the world's supply of nickel; New Caledonia being the closest competitor of the Dominion. It has been styled Canada's characteristic metal and its value is increasing as its usefulness becomes more widespread. Many reasons are being put forward favoring its adoption into the Canadian coinage, and business men, as well as the general masses, favor such an innovation.

Advocates of the new coin are expecting a general crusade in its favor in the course of a few years. When once adopted, they contend, it will be a widespread favorite, even among street railway conductors, who will then be able to distinguish the coins more readily, though the fare mouth of the box will have to be enlarged.

PICKS UP TITIAN BY CHANCE AT ART SALE

New York, March 20.—Three weeks ago W. E. D. Stokes, the philanthropist, dropped in at an art sale in downtown New York and picked up for a few dollars a dingy old canvas that struck his fancy. He had done a similiar things many times before.

But in this particular instance he proved luckier than usual, for the experts who have been engaged in the restoration of the portrait have just reported that beneath the dust and grime of many years' careless handling there stands revealed an undoubted Titian, which they declare is worth in the neighborhood of $50,000.

LABOR FAMINE IS THREATENED IN REGINA

Regina, March 22.—With buildings of the approximate value of $1,500,000 already contracted for, and other work such as the parliament buildings, C. P. R. improvements, the gas plant and street railway, and extensive civic undertakings bringing the figures to well over the three million dollar mark, considerable apprehension is felt as to the labor outlook. According to local contractors, the city will shortly be up against the biggest labor famine ever experienced. By the middle of next month, it is claimed, the city will be in a position to provide work for more than 2,500 men in excess of the present supply, and of that number 1,000 would be skilled mechanics, principally carpenters, the remainder being unskilled laborers. In view of the seriousness of the outlook, the board of trade has been asked to take the matter up with a view of the possibility of relieving the situation to some degree, and it is possible it may take steps to approach the boards in Winnipeg and other western cities for the purpose of taking concerted action.

DIDN'T WANT DAMAGES.

This Youth's Modesty Will Work His Undoing.

Prince Rupert, March 22.—A Russian lad, who was given $1,000 damages by Messrs. Foley, Welch & Stewart for the loss of a foot thinks that there is no place in British Columbia so attractive as the Prince Rupert police station.

The money is being held in trust, while the young man's case is being disposed of, for as yet the authorities haven't decided to send him back to Russia. It is thought that he is a bit unbalanced. For example, he did not want to take the money. He was told that if he wanted to he could put up at a hotel, but preferred to remain in the police station.

FINANCE COMMITTEE ACCOUNTS ARE PASSED FOR PAYMENT

The finance committee on Monday evening recommended the payment of the following accounts for schools at the council meeting, the report being adopted:

Daniels and Loat, $1.25; William Beadle, $21.65; Joseph Crane, $26.40; H. Morey and company, $6.75; Royal City Transfer company, $1.25; A. Hardman, $3.40; Anderson & Lusby, $13.68; Brackman-Ker Milling company, $2.50; B. C. Telephone company, $3; D. S. Curtis & Co., $26.60; H. T. Kirk, $39.25; Todhunter & Burr, $4.70; S. Bowell, $32.50; Pearson Electric company, $19.80; Vanstone H. & P. company, $124.30; Archibald Bros., $4.30; Joseph Mayers, $12; Gilley Bros., $165; L. S. Purvis, $1.25; W. E. Fales $16.80; J. Brookes $63.25; Royal City Planing Mills company, $48.95; Dingle and Burnett, $3.50. Total, $642.08.

FAMISHED WOLVES SWARM INTO TOWN

Lisbon, March 22.—Terrible snowstorms have been experienced at Audani and the neighborhood. Great packs of famished wolves have swarmed down from the mountains and invaded the town. A party of horsemen arrived at full speed at Audani, being pursued right into the town by a pack of over 200 wolves.

The riders, who owed their lives to the fleetness of their horses, had set out to tell the town authorities that the farms, ranches and plantations in the neighborhood were beseiged by ferocious animals, and that the inmates were prisoners. Several farmers who had dared to venture out had been devoured.

Next day the weather cleared somewhat and the authorities organized a huge hunt, headed by the civil guards and detachments of infantry and cavalry. Although there was a tremendous slaughter of the wolves, many got away to their mountain homes, and it is feared that they will soon return. Eighteen of the hunting party received injuries.

FORMER ROSSLAND MAN TO DIRECT DOME LODE

Dawson, March 22.—D. J. McDonald, a mining engineer formerly connected with the Le Roi, in Rossland, B.C., has returned to Dawson to direct the development of the Dome Lode company's property, having the first big quartz proposition in Yukon under way. The company has a tunnel in more than 1,000 feet, and plans to put on a stump mill this season.

Some splendid assay returns were obtained last year, but it was desired to do more extensive prospecting, and the company has had two men handdrilling this winter. They have made good headway.

The assay for First Ledge is given as follows: Gold, 9 2-10 ounces; value, $190.06; silver, 2 4-10 ounces; value, $1.22. Ross Ledge: Gold, per 2,000 pounds, 25.04 ounces; silver, 3.64 ounces.

WANT PACKING PLANT.

Lloydminster Farmers Enthusiastic Over Plan.

Lloydminster, Alta., March 22.—A representative of the Alberta government, Mr. Stevens, addressed the Lloydminster branch of the U. F. A. here on Saturday. He came to explain the government's proposal for aiding and equipping the pork-packing plant in Alberta, concerning which the farmers have talked much during the past two years.

Mr. Stevens said that the government would require, before taking the matter up, a guarantee from the farmers of the province of an annual supply of at least 50,000 hogs. The funds for the plant would then be provided by the government as a loan, and the ownership of the plan would be gradually transferred from the government to the farmers.

That the Lloydminster farmers approve of the plan, was shown by the eagerness with which they signed the papers guaranteeing a big annual delivery of hogs for the plant.

BIG JAIL DELIVERY AT PENITENTIARY FAILED

Edmonton, March 22.—A desperate attempt by several convicts in the penitentiary here to beat down the guards and escape has just come to light, despite the efforts of officials to keep it secret. The attempt took place a week ago, but was nipped in the bud by a Japanese trusty, who gave the alarm in time to save the situation.

It was evidently a plan which had been contemplated for some time, as the convicts had bars and other crude weapons stored in their cells. Early on Monday morning Convict McQuillan forced an exit from his cell and beat one guard over the head. The guard returned the attack, and both clinched. Other convicts were breaking from their cells, and what the result would have been is easy to guess had not the Japanese trusty at this moment given the alarm. Guards hurried in, and the convicts were got under control.

TO DEPORT CHINESE.

United States Adopts Summary Practice to Exclude Orientals.

Washington, March 22.—Chinese who enter the United States across the Mexican and Canadian borders are to be deported promptly when caught, according to a new system instituted by the department of commerce and labor. Hereafter they will be dealt with under the general immigration law and will be deported by departmental warrant on the ground of being unlawfully in the United States.

In this respect the practice will supercede that under the general Chinese Exclusion act, which requires the government to institute court proceedings, leading frequently to much litigation, and heavy expense, followed in some cases by failure.

LETHBRIDGE LADY GIVES $10,000 TO Y.M.C.A.

Lethbridge, March 22.—The Y.M.C.A. campaign is breaking all records. Already it has the largest single contribution ever given to the Y.M.C.A. in Western Canada, being $10,000 from Mrs. W. L. Thompson, and the last day over half of the amount being sought was secured. This afternoon the total subscribed is over $[illegible]. The committee hope to raise the whole $50,000 in five days, closing the campaign on Saturday instead of on Tuesday.

JOHN FERDINAND BAGGS,
Name of Applicant.

Dated at Nelson Island, B. C., December 29, 1909.

LAND ACTS.

New Westminster Land District.
District of New Westminster.

Take notice that Alexander McLennan, of Vancouver, British Columbia, occupation contractor, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southeast point of the island situate about four (4) chains from Timbe rlimit N. 38733, thence northerly and westerly and southerly and easterly around the shore at low tide to place of commencement, containing four acres, more or less.

ALEXANDER McLENNAN.
J. F. BAGGS, Agent.
March 17, 1910.

NOTICE TO CONTRACTORS.

Tenders for Machinery, Belting, Shafting, Cranes, Air Compressors, Etc

SEALED TENDERS, addressed to the undersigned, and marked on the envelope 'Tender for Machines and Tools,' 'Tender for Leather Belting,' etc, etc., as the case may be, will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, Ontario, until 12 o'clock noon of the 12th day of April, 1910, for:

(1) Machines and tools;
(2) Leather belting;
(3) Shafting, hangers, steel frame work, etc.;
(4) Miscellaneous equipment, industrial track and lockers;
(5) Motors;
(6) Furnaces and forges;
(7) Cranes;
(8) Air compressors;
(9) Grey iron foundry equipment and brass foundry equipment;

required for the equipment of the locomotive and other shops of the Commissioners of the Transcontinental Railway at Springfield, east of Winnipeg, Manitoba.

Tenders will be received and considered for any or all of the items indicated above and numbered from 1 to 9, both inclusive.

Plans and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa, Mr. Gordon Grant, and in the office of the District Engineers of the Commissioners at St. Boniface, Man., Mr. S. R. Poulin.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to the Chief Engineer at Ottawa, or to the District Engineer at St. Boniface, Man.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for a sum equal to ten per cent (10 per cent) of the amount of the tender.

Any person whose tender is accepted shall within ten days after the acceptance thereof sign the contract, specifications and other documents required to be signed, and in any case of refusal or failure on the part of the party whose tender is accepted to complete and execute the contract with the Commissioners, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited.

The cheques deposited by parties whose tenders are accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms.

The cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary. The Commissioners of the Transcontinental Railway
Ottawa, March 2, 1910.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it

REVOLT IN LIBERIA.

American Cruiser Has Been Ordered to Scene.

Washington, D.C., March 20.—The United States cruiser Birmingham has been ordered to proceed forthwith to Monrovia, Liberia, upon the urgent request of the Government of Liberia, which has represented to the State Department that it is powerless to hold in check the rebellions tribes now in revolt against it.

It appears that the tribes of the Greboes, a powerful people inhabiting the regions of the Cabely river, adjoining French territory to the southwest of Liberia, have rebelled against the Liberian government, and are beseiging the town of Harper at Cape Palmas, where there are considerable missionary interests. The object of the insurrection seems to be to force the Liberian government to purchase peace.

CANNOT HELP GIVING AWAY THEIR WEALTH

St. Louis, March 21.—Rockefeller, Carnegie and others of the country's philanthropists give away their millions because they cannot help it, in the opinion of Dr. Denton J. Snider, psychologist and author.

In an interview Dr. Snider says the giving away of vast sums is a necessity which is a part of the evolution in which America and her financial geniuses are moving.

"Perhaps these captains of finance do not recognize this element of civilization and evolution working in them, but it is there just the same. They are part and factors of the scheme which has been reached in these times of the world's history. The thing is in them, and they must obey," he declares.

More and more, Dr. Snider predicts, we shall produce men in this country who will give away their fortunes. The wealth comes as a result of conditions and the times, and must in the rotation of the cycle, revert to the people who create both the times and conditions.

HALLEY'S COMET DAILY LOSING ITS REPUTATION

Mysterious Power Shattered by Scientific Knowledge—Couldn't Have Caused All the Trouble.

London, March 21.—By the time Halley's comet arrives it will have lost the last shred of its reputation.

Astronomers have already declared that it will not consume the earth. Sir David Gill, late Astronomer Royal at the Cape, went so far in a lecture at the Horticultural hall recently as to deny that it can exercise any political influence or even affect the weather.

"People always seem to have thought that something was sure to happen every time a comet became visible" he said, "as if something did not happen every day. How can a comet one hundred million of miles away cause a flood in Paris, say, and dry weather in Egypt on the same day?

"Halley's comet appeared in 1835, and it is to appear again in May. According to the superstition, it must be a potential comet, because the representation of the two main parties in the house of commons is practically the same as it was in 1835.

"In 1835 there was a dissolution, and this year also there is to be a dissolution," he declared amid laughter. "There were 385 Liberals in 1835 and there are 393 in 1910, while the number of the opposition is exactly the same now as then—273.

"When the comet appeared in 1066," he continued, "the pope of that day, it is alleged, denounced the comet, the Turks and the devil in one bull. But it has been shown that the excommunication applied to the Turks only and not the comet.

"Comets' tails always turn away from the sun. The worst of it is that nobody knows exactly what they are.

"Some people think they consist of very minute matter thrown off by the action of the sun, and others think the tails are electrical affairs because they do not believe the tails could travel so far."

He added that the comet would give its most gorgeous display on May 21.

PASTEURIZATION PLAN ABANDONED IN CHICAGO

Health Committee of Council Finds That Cost to Dealers Would Be Too High.

Chicago, March 20.—The health committee of the city council yesterday decided by a vote of 6 to 1 to abandon the pasteurization of milk in Chicago under a plan only recently adopted.

Alderman J. E. Jey's argument for the repeal is that 1300 of the 1400 dealers in the city will be put out of business if compelled to install costly pasteurization machinery.

"Under pasteurization of milk, the people or Chicago will play $14,000,000 more for milk annually than before," he said. "The dealers left will then combine and raise prices.

"Chicago uses about 1,000,000 quarts of milk a day. The milk trust would raise the price four cents a quart and hence the people of Chicago would pay $14,600,000 more a year than they do now."

MANY VIOLENT DEATHS.

Russian Roll Swells to Appalling Proportions.

St. Petersburg, March 22.—The Russian roll of violent deaths during these last few eventful years has been swollen to appalling proportions, as every one knows. Exact figures on the subject are now available.

In 1905 there were only ten executions in Russia, but in the following year there were 144 and in 1907 the total grew to 1,139, dropping in 1908 to 825.

Assassinations during the same period make a gruesome list. Three hundred and seventy-seven officials and 162 others were murdered in 1905. In 1906 the figures were 1,588 and 1,044 respectively; in 1907, 1,231 and 1,770 (an average of about nine per day). In 1908 the figures decreased to 397 and 1,436; while last year there was another large decrease.

It is not surprising, therefore, that a committee of the Duma, which has been considering a proposed law to abolish capital punishment, has decided on its rejection.

WORLD'S WOMEN AWAKE, SAYS MRS. FAIRBANKS

New York, March 21.—Mrs. Charles Warren Fairbanks, wife of the former vice-president of the United States, just back with her husband, from their round-the-world trip, declared in an interview given out here today that she found in every country which she visited a wonderful awakening among women.

"The change is most notable in China and Japan," said Mrs. Fairbanks. "The Chinese women are forging rapidly to the front and it won't be long before they are heard from in alliance with the women of other countries.

"The Japanese women are by no means cumberers of the gorund. The lower classes do everything that men do, workeng beside them in the fields, carrying bricks and mortar and assisting in all the labors of the stronger sex. I was particularly impressed by the Empress of Japan. She wears European dress and not only that, but all the ladies of the court were gowned in Paris creations when they entertained me."

ARDENT SUITOR IS MARRIED.

Montreal Girl Now Wants $5,000 from Gent Who Woed Her.

Montreal, March 22.—After making love to Miss Margaret Cox, a pretty stenographer, for six months, and being gall that a lover should be, Mr. G. J. Perlson, till yesterday at 767 Laurier avenue, is now being sued by his prospective fiancee, who charges that he is a married man.

Miss Cox demands $5,000 to repay her for the expense she incurred getting her trousseau ready for the first of March, their prospective wedding day.

Suit was entered yesterday for breach of promise against Perlson, but the gentleman is not to be found. He moved yesterday and court officers cannot ascertain his whereabouts.

Just three days before the proposed nuptials on the first of the month. Miss Cox, according to her lawyers, discovered by chance that her coming husband was already attached and lived with his wife and four children on Laurier avenue. She had in anticipation of her coming wedding invested in a most extensive trousseau.

Miss Cox when seen yesterday was naturally reticent in regard to the affair, but was very determined to make her deceitful lover pay for the injury he had done her pocket-book and her feelings. Her lawyers have Mr. Perlson's marriage certificate, showing that he was married fourteen years ago in Montreal.

REGINA TEAM MADE BIG MONEY

(Continued from Page Five.)

The team was selected from all parts of Canada and salaries as high as $350 for the two games, were paid, but when all was settled, the team had a surplus of $1.300. The board of trade of that city as well as business men of the city, considered the advertising that Regina received through sending the team was worth at least $6,000, and although at the first of the season, previous to sending the team, they figured on a loss of about $1,500 results proved adverse and though no lacrosse glory was gained by the games, or the cup brought back they considered the city had derived publicity that could have been obtained in no other way.

It was comparatively late when Regina was sure of its players. The city was ridiculed in the various papers at first for attempting such a scheme, and the nerve of a small place trying to capture the silverware from a bunch like Turnbull's Salmon Bellies, seemed to startle all who heard it. Pickering, the Tecumseh player, was to be one of the stars to figure on the team, but owing to his business he was unable to come west, although the high figure of $350 was offered him. Doc. Davidson, who had a practice near Regina, was secured and was made captain of the all star aggregation. Others who figured on the line-up were Tommy Gorman, Jack Shea, Warwick, Billy West, Newsy Lalonde, Howard, Billy Allen, Sport Morton, Bun Clark and the only home brews were McGregor and McDougall. The salaries ranged from $200 to $350 for the two games but owing to the cold weather holding out until late in April, the bunch were unable to practice on the field, and most of their work was done in the Y.M.C.A. gymnasium. They were on the field about four times before leaving and the lack of practise and no team work counted greatly towards their overwhelming defeat.

At the first game with Westminster, Regina's share of the gate receipts were close on $3,000, and the combined amount for both games was over $4,000. In Vancouver they realized about $2,000 and in other games over $1,000. The expenses of the trip with the salaries of the men, came to about $5,000, leaving a balance of nearly $1,000. The success of the trip, from a lacrosse standpoint, was lost, but from an advertising scheme and a financial success, it proved excellent.

If such a team or if a team standing more chance to win glory by the games, is to be brought together in Calgary this season to go after the Minto Cup, steps should be taken as early as possible. Players are being signed up very quickly, and all the best men are getting fixed for the season. Regina started even earlier than this and found difficulty in securing the men they did.

Vancouver is out with the net now, and pulling them in from all sides. To make any showing whatever, only the best will serve, for everybody knows that the present cup holders are a bunch that will cling to the tinware through thick and thin, and the most urgent prayers offered in New Westminster are for the safety of the championship. The group, under Turnbull, have come up from the time they wore dresses with a stick in their hands, and what they don't know about the game has not been written.

IRELAND BOASTS KING OF OCEAN

Lord Pierrie Will Soon Control 245 Ships and Manage $150,000,000

Dublin, March 21.—Ireland can now lay claim to have the greatest shipping man in the world. If any man has earned the title of "Ocean King," is is Lord Pierrie, who has purcased the numerous undertakings of the late Sir Alfred Jones, with whom he was associated for many years.

By this purchase Lord Pierrie becomes by long odds the greatest captain of the shipping industry. He is not only the premier buidler of giant ships, but he has shown that he has the genius to operate as well as build. At present the great firm of Harland & Wolff, of which he is the head, is building for the White Star line the Olympic and Titanic, which will be the largest merchant steamers in the world.

Lord Pierrie's interest in ocean steamship companies is enormous, but when he takes control of the two undertakings with which Sir Alfred Jones was chiefly connected, namely, the Elder-Dempster Shipping Co., Ltd., and Elders and Fyffes, he will acquire a great measure of control over a combined fleet of 245 ocean going steamships owned by companies possessing a total capital of about $150,000,000.

NEW YORK BUILDING TRADES VOTE FOR GENERAL STRIKE

New York, March 21.—A general strike of all building trades employees in this city will be called on March 28, according to the announcement tonight of Charles Wamp, secretary of the steamfitters' local union, unless a settlement of the steamfitters' strike now on has been made before that date. The vote to strike was taken last night.

WOMAN GAGGED AND TIED UP BY ROBBERS

Prince Rupert, March 21.—Miss Lucille Paynter, proprietress of the Star lodging house on Fraser street, was overpowered, gagged and left bound to a post in the basement of her own establishment in an unconscious condition, while robbers made off with $300 in cash which she had secreted about her person. Miss Paynter, who has been in poor health for some time, intended going south on the Cottage City to Seattle for a medical consultation for some internal trouble, and had drawn the $300 from the bank in the afternoon for expenses while on the journey.

SUBSTITUTE ELECTRIC ENGINES FOR STEAM

New York, March 22.—The plan to substitute electric engines for steam locomotives on all of the hundreds of trains that enter the Grand Central station daily became an accomplished fact today, when the new electric service on the Harlem railroad between this city and White Plains was put into operation. The New Haven road, which also uses the Grand Central station for its New York terminal, has used electricity in running its trains into this city for several years.

The installation of electricity by the Harlem railroad was signalized today by the running of an official train between New York and White Plains, carrying several hundred members of the Westchester County Chamber of Commerce, representatives of the New York Central lines, and a number of invited guests. The train was made up of heavy, new steel cars which the railroad has had constructed especially for the sehvice.

KILLED IN CALGARY GYM.

In Attempt to Turn Somersault Young Man is Fatally Injured.

Calgary, March 21.—A lamentable accident occurred in the Y.M.C.A. gymnasium at noon today by which Joseph Lynn, a homesteader lost his life.

It was Lynn's first visit to the gymnasium and he went there accompanied by his brother-in-law, Wm. Nott, with whom the deceased, his wife and young child are living in Mount Pleasant. Arriving at the gymnasium, Lynn who was about thirty-three years of age, drew the mat up opposite the spring board and commenced turning somersaults, being successful the first few times, and then attempted another one, trying to land on his hands. The time he was not successful, and fell to the floor, the fall resulting in a fracture of the base of the skull.

A physician was immediately called, but Lynn died before reaching the hospital.

Is attracting buyers from all over this continent. Some are buying land worth the price they are paying for it, others are more fortunate and are making large fortunes in very few hours.

We have a bunch of lots situated in the very heart of the land now so much in demand, and are ready to sell at fair market prices on the easiest of terms.

$25 Cash - - - $10 Monthly

By keen judges and those seeking sound investments, these lots will be readily bought. There is a Reason why these lots must increase in price. Step in and ask us the reason. If you are looking for low priced land which is not worth half the money you would be willing to pay for it, don't waste your time or ours, we cannot afford to handle that class of property. Every Lot in the bunch we are now offering must double in value every month for some time to come.
