...LD SCENES IN AN AMERICAN CITY

...ussian Poles Kill and Steal —One Shot By Infuriated Mob of Pursuers.

...Lynn, Mass., June 26.—A double ...rder and the robbery of more than ...,000 by three young Russian Poles, ... the principal business thorough... ...es of Lynn yesterday, had its sequel ...s than two hours later in the death ... one of the bandits, the serious ...unding of another and the arrest ... the third.

...The victims of the murder were ...omas A. Landregan, one of the best ...own shoe manufacturers of the city, ...d Police Officer James Carroll, one ... the oldest officers in point of ser... ...e in the local police department.

...The dead robber is Andy Anson, of ... East Twenty-second street, New ...rk, according to his statement to ...e police on the way to the hospital. ...e name of the other wounded high... ...yment is unknown, but the third ..., who said he was "Bill Koval... ... of Boston, has been identified as ... of the Jamacia Plains outlaws, ... killed two persons and held that ...rb of Boston in a state of terror ... years ago.

...Mr. Landregan, accompanied by the ...liceman, was returning from the ...n National bank to the factory of ...lish & Landregan, of which he is ... of the proprietors, and was carry... ... in a bag $6,000, the weekly payroll ... the factory, which employs between ... and 800 operatives.

...As the pair neared the factory on ...illow street, three robbers ran up ...hind them and opened fire at close ...nge. One of the trio seized the bag ... money and almost at the same in...stant Mr. Landregan fell dead, killed ... a bullet through the neck. Soon ...er Landregan was killed Carroll fell ...rtally wounded and the robbers ...arted up the street on the run, head... ... for High Rock, one of the parks of ...e city. After reaching this hill they ...parated.

...In the meantime 5,000 people started ... pursuit. Many were in automobiles ...d armed. In a short time a cordon ...as thrown about the High Rock dis...rict and it was trying to escape ...rough this practically impregnable ...ne that the three bandits came to ...rief. Anson died in an ambulance ...om a bullet wound in the neck.

... Kovalsky has been identified as the ...an who killed Landregan. When he ...as brought to the police station, sev...ral hundred shoe factory employees ...tacked the prisoner on the steps, ...nocked him down, beat and kicked ...im. Several policemen were roughly ...andled in endeavoring to protect ...ovalsky, who was finally dragged ...to the station.

DEATH IN FIRE.

Three Lose Lives When Senca Falls Hotel Burns.

Seneca Falls, N. Y., June 26.—Three ...ersons lost their lives and another ...d a narrow escape from serious in...ury in a fire that destroyed the New ...eneca house today. The building ...joining the hotel was also burned. ...The loss is estimated at $40,000.

...ORK TO BE STARTED AT ...PORT MANN IN THREE WEEKS

Winnipeg Firm Gets First Contract for C. N. R. Work on Coast Section —Figure Not Divulged.

Toronto, June 26.—The Northern Construction company, of Winnipeg, will build the first section of the Canadian Northern Pacific railway on the Pacific coast. Construction work will commence at once.

This statement dealing with the building of the first link of line from Port Mann to the east side of Chilliwack, was made today by Vice President Mann, of the Canadian Northern Pacific.

No decision has yet been reached as to who will be the successful tenderers for the construction of the same company's line from Virginia to Duluth in Minnesota.

Mr. Mann would not divulge the figures of the Northern Construction company's tender. They had, he said, constructed 250 miles of C. N. R. tracks on the prairies and their work had always been good.

It is expected that the company will have started work opposite New Westminster within three weeks.

WIFE FEARS PROSPERITY AND ASKS A DIVORCE

Tacoma, June 26.—Because she feared that her husband will not be able to stand prosperity, Mrs. Mary W. Jones is asking for a divorce from Milnor Jones, who will inherit $8,000 this month. According to the complaint Jones is the original spendthrift and his wife is afraid that the possession of the legacy will only aggravate his propensities.

Jones must appear before Judge Clifford on July 7 and show cause why the divorce should not be granted.

LOCAL BRANCH OF S.P.C.A. IS TO BE REORGANIZED

Meeting of Friends of Dumb Animals Will Be Held This Afternoon in Board of Trade Room.

There will be a public meeting held in the board of trade room in the city hall today at 4 p. m. for the purpose of reorganizing the Society for the Prevention of Cruelty to Animals. J. Pengelly, general secretary, and the secretary of the Vancouver district will be present at the meeting.

Under the new charter the jurisdiction of the New Westminster branch extends over all the electoral district of Westminster and it is hoped that the citizens of the Royal City will show their interest in this movement by being present.

Officers will be elected and a committee will be appointed to wait on the council in an endeavor to secure financial aid to actively prosecute the campaign against cruelty to animals.

Secured Many Jobs.

Winnipeg, June 26.—Since the beginning of the year up until yesterday the employment bureau of the Men's Own secured positions for 6,521 men.

BARB WIRE FENCE FORCES GLENCOE SCHOOL TO CLOSE

Langley School Board Later Suceeds In Getting Injunction Quashed Because Facts Were Suppressed.

The injunction granted to George Hunter and Francis Worrel against the Langley school trustees, restraining them from interfering with a barbed wire fence erected by the plaintiffs, was absolved Saturday by Mr. Justice Murphy, sitting in chambers.

Fifteen years ago Langley school board purchased a half-acre, part of lot 305, township 2, and erected thereon a schoolhouse, in which they have been in quiet enjoyment until recently, when the plaintiffs, Hunter and Worrel, erected a barb wire on part of the property, claiming it as theirs. The erection of the fence had the effect of shutting off the lavatories and well from the pupils. The trustees immediately pulled the fence down, and plaintiffs promptly applied for and obtained from Justice Murphy an injunction restraining the defendants from interference, the result being that during the past week the school has been closed.

W. G. McQuarrie immediately moved to have the injunction set aside, owing to alleged material misrepresentation and suppression of material facts.

On the rehearing, his lordship most emphatically stated that all the facts had not been brought out, and that he had no idea the granting of the injunction would close the school, and while not casting any reflection whatever on the plaintiff's solicitor for the suppression of material facts, absolved the injunction.

Messrs. Hunter and Worrel were ordered to pay all costs of the second hearing, and an order was granted to the Langley school trustees for an enquiry as to the damage they had sustained by the first injunction.

W. G. McQuarrie, of Wade, Wheeler, McQuarrie & Martin, acted for the Langley school board, while H. L. Edmonds acted for Hunter & Worrel.

ST. BONIFACE COLLEGE.

Jesuits to Celebrate Silver Jubilee of Entry Into Manitoba.

Winnipeg, June 26.—The St. Boniface college of Manitoba is preparing for jubilar feasts on August 16, 17 and 18. The former students of the college will gather with all their former professors and hold a great celebration on the above dates.

"Twenty-five years ago next August," says the circular, "the Jesuit fathers took a hand in the administration of St. Boniface college. An elaborate program comprising solemn high mass, banquet, excursions, etc., has been drawn up to celebrate the event. Every old student of St. Boniface college is hereby requested to send his address at his earliest convenience to the secretary of the alumni association, C. H. Royal, St. Boniface, or to J. Dutton, 394 Kennedy street, Winnipeg, and he will receive by mail more detailed information."

The question of a Catholic university is among the probable topics of discussion.

"SIS HOPKINS" A BRIDE.

Married Secretly to Her Leading Man on June 12.

South Bend, Ind., June 26.—Rose Melville, better known throughout the country as "Sis Hopkins," was secretly married to Frank Minzey, her leading man in the play "Sis Hopkins," on June 12. The ceremony was performed in New York at the Marble Collegiate church on Fifth avenue. Mr. and Mrs. Minzey are now at their home in South Bend. Through her "Sis Hopkins" Mrs. Minzey has amassed a fortune of which several hundred thousand dollars has been invested in real estate, the largest office building in South Bend being her property. She will continue on the stage.

IDITAROD CAMP IS OVERCROWDED

Gold Seekers Are Face to Face With Failure—Many Are Disappointed.

Fairbank,s Alaska, June 26.—To the exact extent of the stampede to the Iditarod that camp is overcrowded. This seems certain from the best information that can be obtained from disinterested parties who know actual conditions in what was at first thought would be among the greatest producing gold camps the Northland has ever seen.

From the most reliable sources is is learned that, before the great stampede started, the new Mecca for seekers after the precious yellow metal already had all the population the camp could sustain on treasure in sight and prospective. Therefore those who are making the hard trip sustained by high hopes of quick wealth are doomed to bitter disappointment.

The Flat creek dumps are not coming up to expectations. Hundreds of men must return to the States or to older camps this winter. The Iditarod probably will be a camp of some 1,500 souls only during the winter to come.

All boats for the Iditarod so far have made Otter City, at the mouth of Otter creek in the Iditarod river, the reports say. From now on the vessels probably will reach only Dietman, 110 miles below the Iditarod. There is bitter disappointment expressed over the situation in the new camp.

PACIFIC COAST COUNT READY WITHIN WEEK

Director of Census Brands as Misleading "Advance" Figures on Seattle's Growth.

Washington, June 26.—"Figures on the population of the principal Pacific coast cities probably will be ready some time next week," said Director Durand, of the census, today. "In the meantime no estimates are being given out.

"I am aware that certain persons have been sending out what they called official estimates of population but they are without authority. They are based on the purely mathematical estimates of population made last year by the bureau of vital statistics, and are wholly untrustworthy.

"Any so-called estimate on the population of Seattle would be a pure guess, for several years ago, so unusual was the growth of Seattle, that the bureau abandoned making estimates of population there. No figures are given out officially until the count is completed."

FIRE MAY WIPE OUT BEAUMONT OIL FIELDS

New Orleans, June 26.—Meager telegraphic reports from Beaumont, Tex., at midnight say the Beaumont oil fields are threatened with complete destruction by a fire which started at El Vista, a few miles from Beaumont, tonight. Ten oil tanks have burned, according to the report, and many other tanks are aflame.

Fanned by a strong wind, the fire jumped from one tank to another, and it is feared that the entire oil field is doomed. Nearly all the tanks are built close together. The loss up to midnight is estimated at $100,00. The tanks were the property of the Gulf Pipe Line company and the Texas Oil company. The fire originated along one of the pipe lines of the former company and spread to the other lines.

Careless Traveller.

Brandon, June 26.—Carelessness or forgetfulness of a traveller was shown today in the discovery in a room in the Imperial hotel, vacated last night by V. N. Demill, of Calgary, of a vest containing $2,400. Demill and party were on an auto tour from Indiana to Calgary. The money was sent west to the owner on the noon train.

MADRIZ MEN ARE MEETING REVERSES

Important Towns in Chontales Fall Before Attack of Provisionals.

Bluefields, Nicaragua, June 26.—A column of the provisional forces under General Arsenio Cruz has captured La Libertad and Jigalpa, important towns in the department of Chontales.

This column is part of General Mena's army, which was detached for the purpose of occupying advantageous points within reasonable distance of Acoyapa.

General Mena, with his great body of troops, remains within gunshot of Ocoyapa, which is garrisoned by several hundred of the Madriz forces. General Colonen, another of the provisional leaders, has taken San Ubaldo, one of the ports in Lake Nicaragua, where he defeated 200 Madriz soldiers who were on their way to reinforce General Vasques.

Ottawa Firm Gets Contract.

Ottawa, June 26.—The contract for the extension to the eastern departmental block, for which a sum of $75,000 was voted last session, has been awarded to Doran & Devlin, of Ottawa, who were the lowest of eight tenderers. The extension will give additional room for the Dominion police and provide space for the external affairs department, which is now located in the Trafalgar building.

SEVEN LOSE LIVES IN STORM ON COOK INLET

Searchers Fail to Find Bodies of Men Who Perish in Wild Waves.

Seward, Alaska, June 25.—Seven men are believed to have been lost in a storm which swept Cook inlet Wednesday night, according to a report received here today from United States Commissioner Hildreth, of Knik precinct, Cook inlet.

The men, among whom were Joseph Laubner, a prominent citizen of Seward; F. R. Stewart, founder of Stewart City, B. C.; William Perkins and John Winter set out in a dory from Kern Creek to cross the inlet.

The water was rough when they started, and they had not been out long before a terrific storm came up. Nothing has been heard of them and no trace of their boat has been found. It was thought that they might have taken refuge on Fire island, half way across the inlet, but searchers have been unable to find any trace of them, and it is believed that all were lost.

The names of three of the men in the party are not known here.

THREE NEW JUDGES FOR QUEBEC BENCH

Ottawa, June 26.—Although no appointment is expected until September, it appears to be practically decided that the three new judgeships on the bench of the superior court of Quebec will be filled by the appointment of J. A. C. Ethier, M. P., for Two Mountains; R. A. E. Greenshields, K. C., of Montreal, and J. G. H. Laurendo, K. C., also of Montreal.

When the appointments are made it is likely that Judge Weir, now on the Aylmer-Pontiac circuit, will be transferred to Montreal and be succeeded in this district by Mr. Ethier.

LLOYD-GEORGE IN LUCK.

Vast Products of the New British Inheritance and Income Taxes.

London, June 26.—Chancellor of the Exchequer Lloyd-George estimates that the receipts from the inheritance tax for the financial year ending July 1 will amount to $128,000,000.

The delayed income tax collected in April and May amount to over $100,000,000.

Camps of Fighters Visited By Huge Crowds on Sunday

Reno, Nevada, June 26.—Quiet and steady progress characterized the first Sunday in Reno since the Nevada metropolis became the Mecca of the sporting world as the theatre of the Jeffries-Johnson fight. With the arena springing up like a mushroom, the fighters devoting themselves to earnest preparations for the meeting, and every hour bringing assurances of the starting of special trains and cars from all points of the compass, Tex Rickard today had the first day of peace he has experienced sinme Governor Gillett, of California, issued his instructions to prevent the fight in San Francisco.

At Moana Springs there was a continuous procession of automobiles, carriages, motor cycles, and all kinds of modern vehicles and pedestrians winding along the road all day. Jim Corbett was master of ceremonies and he spent most of the day as the center of inteersted groups which gathered around him.

Jeffries was not to be seen He began the day with a fishing excursion which led him up the Truckee river. The crowd heard little of his plans.

Nearly everybody in Reno visited one or the other camps today. Most of them visited both. Many women were in the curious throngs. With little to distract their attention, the street gatherings drifted today back to the question of "Who will win?" In all the talk there could be found no concensus. All agreed that there were too many angles and too many possibilities and unknown quantities to admit of a sure forecast of the outcome.

Captain Cox, of the Nevada State police, arrived today with sixty of his picked desert riders.

COL. HENRY WATTERSON IS AGAINST SUFFRAGE

Declares Only Result of Ballot Would Be the Debauching of Womanliness.

New York, June 26.—Coloney Henry Watterson, of The Louisville Courier-Journal, in an interview today gave some interesting views on woman suffrage.

"I deplore the agitation for women suffrage because I think it tends to create sex antagonism," said he. "I believe in the widening of woman's field of work. There is practically no profession today in which a capable woman cannot stand, but the ballot is a very much overestimated benefit. If I could remake the constitution, I believe I would take the voting power from half those who exercise it. And I would not inflict it upon a woman. I hold her too high to wish to see her debauched by politics."

"But is politics necessarily debauching?"

"Politics is muck," said Mr. Watterson. "In any close contest where the woman vote was determining, the will of a bad woman would control."

TWO CHINAMEN MEET DEATH IN TONG BATTLE

Sudden Outbreak of Hostilities in New York's Chinatown Lasts Only a Short Time.

New York, June 26.—The tong war that sleeps but never dies broke out again today in Chinatown and in ninety-three seconds three Chinamen were shot, two of them fatally and the third was painfully wounded. More than 40 shots from heavy calibre revolvers were exchanged.

Seven Chinamen were arrested. It was all over as quickly as it began, and for the remainder of the afternoon the streets were as quiet as they had been an instant before the battle.

CANADIAN PREMIER IS INVITED TO CHICAGO

Ottawa, June 26.—Anthony Czarnecki, of Chicago, is in the city with credentials from Archbishop Quigley to invite Sir Wilfrid Laurier, Canadian premier, to a Columbia Day celebration in Chicago on October 12.

It is being gotten up by the Knights of Columbus in conjunction with the state authorities. He presented the invitation to Sir Wilfrid and hopes to take back with him an official acceptance.

Redistribution Foreshadowed.

Ottawa, June 26.—An order-in-council has been passed fixing June 1 next as the day on which the census will be taken throughout Canada. The schedules, which have been approved by the governor-in-council, are practically the same as those of other years. It is expected that the figures will all be tabulated in time to make it possible for the government to introduce a distribution bill during the session of 1912 which will probably be the last session of the present parliament.

LANDIS TO FORCE HAND OF FEDERAL GOVERNMENT

Chicago, June 26.—Federal Judge K. M. Landis will force indictments of individuals in the forthcoming investigation by a special federal grand jury of the meat packers' trust regardless of what action is taken by the department of justice in Washington, according to a well authenticated report in circulation tonight.

Landis is determined that the individual packers shall be brought to trial on charges of conspiracy in restraint of trade. The law provides that the court may instruct the grand jury that if evidence is introduced showing a conspiracy on the part of the corporation, the officers of those corporations are liable to prosecution. The report is to the effect that Landis will use this means to bring about the packers' indictment.

MAYOR STARTS WAR UPON PUBLIC MARKET

Tacoma, June 26.—Charging the growers as well as the keepers of the stalls in the public market with combining and destroying produce in order to keep up the prices, Mayor Fawcett has declared war on the offenders.

He cites an instance of a grower who threw away a lot of vegetables and berries because he could not get the price he demanded.

Strawberries and radishes are much cheaper in Seattle, asserts the mayor, and he is determined to find the reason for it.

Fainted When Sentenced.

Woodstock, June 26.—John Whyte, a farmer of Blandford, who was tried this week at the county court sessions, on the charge of attempting to burn down his own barn, was sentenced yesterday afternoon to two years in Kingston penitentiary. Whyte is sixty years of age, and fainted when he received his sentence.

GREAT FINISH WINS GAME FOR VICTORIA

Capital Players Turn Almost Certain Defeat Into a Brilliant Victory.

By the score of six to five Victoria won the first game of the season here on Saturday in one of the most exciting finishes that lacrosse has furnished this season. With the score four to one at the end of the third quarter and apparently everything working right for the locals, the Capital players by the most brilliant exhibition of lacrosse seen here this season snatched the victory.

Scored Five in Last Quarter.

In the last quarter, the Victorias, who had appeared helpless against the New Westminster defence for the first three quarters, scored five goals, while the locals had their troubles annexing one lonesome tally. Two goals in two minutes just before time was up tells the tale.

Play, Not Luck.

To anyone who had not seen the game, it would seem that such a result could only be brought about by sheer luck, but that was far from the case. The winners simply played rings around New Westminster; had them beaten, faded, dazed, rattled and hornswoggled.

The crowd which turned out to witness the tragedy was far too small. It is rather discouraging, to the amateurs, considering the brand of lacrosse that they offer to the public, that they receive such poor support.

The First Quarter.

The first quarter was fairly even, but New Westminster seemed to have a shade the best of the argument. The locals got the ball from the faceoff and had things pretty much their own way, except for the fact that Johnson, in goal, seemed to have an idea what he was there for, and stopped all kinds of shots. However, after twelve minutes play O. Smith worked in a nice goal. New Westminster did not remain in the front, for it only took Young a little over a minute to even the score. The scoring for the quarter ended when Jack Gifford, who had not been showing up well early in the game, came in with a nice shot and put New Westminster one ahead. Petticrew, who seems to have but a poor idea as to how a gentleman should use his feet, went off in this quarter for attempting to trip Atkinson. The foul was most deliberate.

Second Quarter.

In the second quarter the game was New Westminster all the way and only the great work of Boss Johnson in goal, saved a couple of thousand goals. As it was the locals annexed two while the visitors were still thinking about the one they had captured in the first inning. Petticrew again went off for tripping, and excited the jeers of the multitude on top of the press stand. Okell went off for five minutes for slugging, but the New Westminster men remained virtuous and on the field.

Third Quarter.

There was no score in the third quarter, but New Westminster still

(Continued on Page Five.)

JUDGEMENT IS GIVEN IN ACTION ON BRICK SUPPLY

Question of Legal Measurement Decided in County Court—Defendant Loses and Must Pay Costs.

The following judgment was handed down on Saturday by His Honor Judge Howay in the county court in an action, Allen vs. Deane:

This is an action to enforce a mechanic's lien claim against Lot 1, Block 15, New Westminster City, owned by the defendant.

Mr. McQuarrie for the defendant objected to the statement of the work done as not being in compliance with Section 12 of the Act of 1900. I think however, that the powers of amendment given by Section 13 of that act are large enough to make me to grant the amendment asked for by Mr. Edmonds for the plaintiff and as there was no evidence that the defendant was in any way prejudiced by such amendment, it is granted.

Upon the merits two questions arise:

(1) When a contract is to lay bricks by the thousand is payment to be made according to "Kiln count" or according to "Wall measurement"?

(2) Is the defendant entitled to any set off, and if so what amount, for rebuilding the wall?

The first question is a very important one and I have taken some time to consider it. I am giving my judgment at length so that if the case goes further, the court of appeal may have before them the grounds on which it is based.

The contract was to lay the bricks by the thousand, but the plaintiff seeks to affix to this contract an alleged usage that the method of ascertaining the number of thousands of brick is by measuring the wall.

It is undisputed that the actual number of bricks supplied by the defend-

STREET IMPROVEMENT DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand ($150,000.00) dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the city for the construction, improvement and repair of streets and sidewalks, and it is expedient that additional sums be spent in like manner, amounting in all (with the sums already spent) to the sum of One Hundred and Fifty Thousand ($150,000.00) dollars;

And Whereas, it appears that if the said sum of One Hundred and Fifty Thousand ($150,000.00) dollars, be appropriated from the general revenue of the city for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount;

And Whereas, for the payment of interest on the debentures or registered stock certificates, proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates, the sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars;

And Whereas, in order to raise the said yearly sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars, an equal rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of One Hundred and Seventy-four Thousand, Five Hundred ($174,500.00) dollars proposed to be raised under the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Schools Debenture or Registered Stock Bylaw, 1910," and the "Parks Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears;

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4,866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates, shall be payable on the first day of July, 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of Six Thousand, Seven Hundred and Fifty ($6,750.00) dollars for the payment of the interest thereon, and the sum of Eight Hundred and Forty and 32.100 ($840.-32) dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise: towards paying the cost of the passing of this Bylaw and the issue and sale of the debentures or registered stock certificates therein referred to, recouping the treasury of the city such sums as have been this year expended in street works, or may be so expended until the proceeds of the sale of the said debentures or registered stock certificates have become available, the making, improving and repairing of such streets and sidewalks in the city as may be deemed expedient by the council, but no sidewalk or street shall be made or repaired out of the moneys borrowed under this Bylaw unless the same shall have first been approved by a resolution of the Council.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Street Improvement Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the day of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July, 1910, between the hours of nine o'clock a.m. and five p.m. at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

SCHOOLS DEBENTURE OR REGISISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Ninety-seven Thousand, Five Hundred ($97,500.00) dollars for School Purposes.

Whereas the Board of School Trustees of the City of New Westminster have caused to be prepared and laid before the Council a detailed estimate of the sums required by the Board for the current year's ordinary expenses of maintaining the schools of the said City of New Westminster; and have also prepared a like detailed estimate of the sums required to meet any special or extraordinary expenses legally incurrable by the Board, which last mentioned estimate is subject to consideration, alteration and final approval by the Council, and the same has been finally approved by the Council.

And Whereas, the amount required under the said last mentioned estimate for schools amounts to Ninety-seven Thousand, Five Hundred ($97,-500.00) dollars, made up as follows: Thirty-five Thousand ($35,000.00) dollars for the erection and equipment of the new Sapperton school; Two Thousand, five Hundred ($2,500.00) dollars for the erection and equipment of a school on Lulu Island, and Sixty Thousand ($60,000.00) dollars for the erection of a High school.

And Whereas, by Section 40 of the the Public Schools Act 1905, as re-enacted by Section 30 of the Public Schools Act 1905, Amendment Act 1906, any statute to the contrary notwithstanding, the Council of any city, town or rural municipality in the Province including the City of Vancouver and City of New Westminster, may in each and every year pass a Bylaw or Bylaws for levying aspecial rate of not more than Five (5) mills on the dollar for school purposes, and the Council may in addition to such rate apply any portion of the ordinary revenue to school purposes.

And Whereas, it appears that the amount required to meet the current year's ordinary expenses of maintaining the schools will exhaust the amount authorized to be levied under Section 40 of the Public Schools Act 1905, as re-enacted by said Section 30 of the Public Schools Act 1905, Amendment Act 1906, and it will be necessary also to apply a portion of the ordinary revenue for such purposes.

And Whereas, it appears that if the said sum of $97,500.00 be appropriated from the general revenue of the city for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount.

And Whereas, for the payment of interest on the debentures or registered stock certificates proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates, when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates the sum of four Thousand, Nine Hundred and Thirty-three and 70-100 ($4,933.70) dollars;

And Whereas, in order to raise the said yearly sum of $4,933.70, an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,-249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of Two Hundred and Twenty-seven Thousand ($227,000.00) dollars proposed to be raised under the "Street Improvement Debenture or Registered Stock Bylaw, 1910;" the "Fire Debenture or Registered Stock Bylaw, 1910;" the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910," and the "Parks Improvement Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears.

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $97,500.00, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of $97,500.00 for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates shall be payable on the first day of July 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of $4,387.50 for the payment of interest thereon, and the sum of $546.20 to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July 1910, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

LOCAL IMPROVEMENT NOTICE.

The Municipal Council of the Corporation of the City of New Westminster having by resolution determined and specified that it is desirable to carry out the following works, that is to say:

To construct cement concrete sidewalks on both sides of Tenth street from Sixth avenue to Tenth avenue, except on the east side of said street between Sixth and Eighth avenues, also on both sides of London, Edinburgh, Dublin and Hamilton streets, Eighth and Seventh avenues between Tenth and Twelfth streets.

And that the said works shall be carried out in accordance with the provisions of the Local Improvement General Bylaw, 1909.

And the City Engineer and City Assessor having reported to the Council in accordance with the provisions of the said bylaw upon the said works, giving statements showing the amounts estimated to be chargeable against the various portions of real property to be benefited by the said works and other particulars and the said reports of the said City Engineer and City Assessor having been adopted by the council.

Notice is hereby given that the said reports are open for inspection at the Office of the City Assessor, City Hall, Columbia street, New Westminster, B.C., and that unless a petition against the proposed works above mentioned, signed by a majority of the owners of the land or real property to be assessed or charged in respect of such works representing at least one-half in value thereof is presented to the Council within fifteen days from the date of the first publication of this notice the Council will proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvements as the Council may by by-law in that behalf regulate and determine and also to make the said assessment.

Dated this 9th day of June, A.D., 1910.

W. A. DUNCAN,
City Clerk.

Judgment is Given in Action On Brick Supply

(Continued From Page One.)

ant was 194,200, and that is all the brick actually laid by the plaintiff.

It is claimed, however, that the defendant must pay for laying 239,862 bricks, being the wall measurement, and making no allowance for ordinary openings.

Evidence was produced before me to show that knowledge; and the defendant stated that he was ignorant of any such usage. Any other state of the law would make such usages of a trade a trap for the general public.

I hold therefore on these facts as found that the plaintiff can only recover payment for laying the actual number of bricks in the wall, that is, on the basis of kiln count.

Upon the second point, it is undisputed that the bricks were put into the wall in a very wet condition; it is also undisputed that in order to make good work the brick should be dry. This is elementary knowledge of the trade. A man performing any work is by law required to perform it with reasonable care and skill.

Even though it might be the owner's duty to cover the bricks (upon which point I express no opinion), his failure to do so does not exempt the plaintiff from his obligation to use reasonable care and skill in the work. I hold that to put bricks into a wall, so wet that they will not absorb the moisture in the mortar—and that too in the month of November—is not doing the work with reasonable care and skill.

And on this ground alone the plaintiff would be liable on the set off.

Of course the wall, so constructed, fell down. The plaintiff agreed to rebuild it, the defendant supplying four barrels of cement. There were other terms of the arrangement, but these are not essential to be considered. The plaintiff did rebuild part of the wall. It cost the defendant $590 in labor alone to remedy the rest of the work. I therefore hold on this ground also that the defendant is entitled to the set off claimed.

The amount of that set off has been fixed by the defendant in his claim at $250, which under the circumstances I think most fair and reasonable.

An alleged usage of bricklayers is that in a contract to lay bricks by the thousand, unless kiln count were specified wall measurement applied.

Words denoting weight, measure or number, must undoubtedly be understood in their ordinary sense unless some specific meaning be ascribed to them by statute or custom or usage.

Now an usage to have any force in law must be reasonable, Coke Littleton 62 a.

"Evidence of the extent of difference between measurement on the merchant's premises and measurement at the time of shipment might be material to enable the judge to form his opinion on the reasonableness of the usage; and if the usage should appear to be in a high degree unreasonable on this account such evidence might have weight with the jury on the question whether the usage did or did not exist in fact." Bottomley vs. Forbes 5 Bing N. C. 128.

The difference between kiln count and wall measurement is 45,662 or $456.62; and to ask this defendant to pay for laying over 45,000 bricks which were in fact never laid, appears to me most unreasonable.

An unreasonable usage does not bind any one who was ignorant of it when the contract was made. See Blackburn vs. Mason, 4 R. at p. 300-1, and cases cited in Halsbury's Laws of England, Vol. 10, p. 269.

If a purchaser orders a dozen oranges, and the dealer acting under an alleged usage, while supplying only eight oranges, claims payment for a dozen, common sense requires (and the law supports it) that such an unreasonable usage must be shown to have been known to the purchaser and thus to have been an implied term of the contract. So here. But no evidence was.

There will therefore be judgment declaring the plaintiff entitled to a Mechanics lien on the interest of the defendant in the said property for $717 and also judgement against the defendant personally for that amount.

This amounts is made up as follows:

Laying 194,200 bricks	$1942.00
Cutting bricks on corner (admitted item)	25.00
	$1967.00
Deductions—	
Cash paid (admitted item)	$1,000.00
Amount allowed for rebuilding walls	250.00
	$1,250.00
	$717.00

The plaintiff will also obtain the costs up to the date of payment into court, subsequent costs to the defendant.

F. W. HOWAY,
Co. J.

June 23, A.D., 1910.

H. L. Edmonds for plaintiff, W. G. McQuarrie, of Wade, Wheeller, McQuarrie and Martin, for defendants.

ARE SEARCHING FOR SOUTH POLE AGAIN

Punctual to the Moment S. S. Terra Nova Sails From West India Docks.

A London exchange has the following in reference to the departure of the Terra Nova for the search for the South Pole:

Punctual to the moment, and with less fuss than attends the departure of an ordinary steamship, the Terra Nova cast off from her berth in the West India docks and turned her nose seawards in quest of the South Pole.

The few hundred friends and well-wishers at the docks cheered her; the crew cheered in return; the White Ensign dipped at her stern, the tugboat Hornet grunted along with taut towlines, and the whaler slowly moved down between the rows of merchantmen, whose meagre shore crews took up the cheers as she passed. Every vessel dipped her bunting as the wooden three-master glided by. Every steamer with an ounce of steam in her boiler shrieked a whistle or groaned a siren in farewell.

Down at the dock gates a crowd of strictly plebeian but royally enthusiastic sightseers repeated the cheers of the friends left behind at the berth. The steamships gave another chorus of toots, that were cordially responded to by the explorers, and the Terra Nova passed out of London on the first reaches of her three years' cruise.

The weather was charming. Early in the afternoon there was a pleasant little ceremony when Lady Bridgeman "broke" the White Ensign that flies from the main of the Terra Nova. Captain Scott made a little speech before Lady Bridgeman pulled the string that liberated the bunting and let the color float out from the stay. He explained that it was Sir Francis Bridgeman who had been mainly instrumental in securing for the ship the privilege of sailing under the White Ensign. Therefore, his wife had been invited down to "break" it.

Everybody cheered as she broke the color and then everybody, cheered for Captain Scott.

All the day the vessel was crowded with friends of the officers and crew. Daintily dressed women who knew nothing about such matters tripped over coils of rope and sniffed about in the cook's galley and admired the view from the bridge. Then they inspected the officers' messroom and their sleeping cabins.

In one of the latter they found the pianola which is being taken out to beguile the bears and other music-loving creatures of the Antarctic. The instrument would not fit in the messroom unless the dining table was moved out. Therefore, it was stowed elsewhere. But the feminine assumption was that it was put in a sleeping apartment to keep it warm.

Thoughtful and sentimental sailormen showed their women freinds over their quarters. Some of them lifted up little children—wee brothers or cousins or sisters or nieces—to show them things, in high places. Then they bade them bood-bye and sent them ashore while they finished their work.

Other sailormen, with more masculine tastes, foregathered with male friends, and joked merrily over the prospects of adventure.

At ten minutes to five everybody was ordered off; and everybody left save those guests, including about a dozen women, who had been invited to travel on the Terra Nova as far as Greenhithe. Ten minutes later the gangway was pulled on board, and the Terra Nova started.

Among the many friends and spectators who cheered their farewells to the ship were the veteran explorer, Admiral Sir Clements Markham, Lady Markham, Captain Robert Bartlett, of Commander Peary's Polar expedition, Sir Francis and Lady Bridgeman, Admiral Bruce, Admiral Sir Vesey Hamilton, Sir George Reid and his two sons, Mrs. Scott (wife of Captain Scott), Mrs. Evans (wife of Lieutenant Evans), Dr. Scott Keltie (secretary of the Royal Geographical Society of Japan) and a number of naval and military officers.

The Terra Nova proceeds to Portsmouth, and thence to Cardiff to fill her bunkers. Thereafter she sails for Lyttelton, New Zealand, where Captain Scott will join her in the autumn. By Christmas, which is midsummer in the summer hemisphere, the bold explorers of the Terra Nova will be battling with the ice barriers of the Antarctic.

Caterpillar Plague.

St. John, N.B., June 26.—The annual plague of caterpillars has struck the C. P. R. this year at McAdam Junction. They are covering trains and rails. Last year trains were delayed by them, but the plan is now adopted of directing a column of hot steam along rails, blowing them off before the wheels strike them. The advancing swarm strips trees as it goes, leaving leafless woods behind.

"The WHITE SQUAW."

The Chatanooga News of February 23 says of the new romantic drama, "The White Squaw," which Manager Harry Tidy is offering to the patrons of the Opera house on Thursday evening, June 30:

"'The White Squaw,' ably presented by Miss Della Clarke and a select company, was well received at the Albert theatre last night. Miss Clarke, the authoress of the drama, appeared in the character of Reamata, and acquitted herself well.

"The plot of the play is unique and the ending is somewhat melancholy, which is true of a large number of modern plays.

"Michabo, the Indian foster father of Reamata, tells her the true story of her life and she realizes that she is a white girl. It is also revealed that Neamata is the sister of Octavia, though they have not seen each other in many years.

"In the end there are mutual explanations, Marshall and his sweetheart are reunited and the play ends with the while girl left among the Indians, while her friends go back to civilization, which is rather an unconventional ending.

"Miss Della Clarke, as 'The White Squaw,' acquitted herself with great credit in a difficult part. She shows great ability and her work was decidedly the cleverest of the performance."

Laurier Changes Program.

Ottawa, June 26.—Owing to his many engagements Sir Wilfrid Laurier has altered his vacation program. Instead of going first to Arthabaskaville he will go west on July 6 and on his return in September will visit Arthabascaville. Lady Laurier will also visit Arthabaskaville after which she will go to Banff for the remainder of the summer.

POSTAL SAVINGS BANK.

It seems a little strange that a country like the United States, which makes so loud a boast of its advance and progress, should have remained until now without the world recognised advantage of Post Office savings banks, whilst this institution has flourished exceedingly for a great number of years in almost every other civilised country of the world. Yet so it is. For only on Wednesday was it that the Senate decided by a majority of twenty-one votes to institute the system of Post Office savings banks throughout America. Our neighbor is nearly half a century behind the times in this respect, Post Office savings banks having been established in Great Britain in 1861. In Canada this splendid aid to providence and thrift has been instituted since 1868, and some idea of its wide appreciation is to be gathered from the fact that forty-four and a half millions of dollars stood to the credit of depositors in the Canadian Post Office for the year 1909.

In Great Britain, where the centenary of savings banks has just been celebrated, the total sum deposited in the Post Office for the financial year 1905, amounted to one hundred and fifty-two million pounds sterling, in addition to which nearly twenty-one millions of pounds of government stock was held by Post Office depositors, and a vast amount was also invested in Post Office annuities.

In view of these facts and the immense service rendered both to the state and the people by savings banks in checking improvidence, especially among the working classes, the recent celebration of the centennary of savings banks and the acclamation of the founder of this institution as a benefactor to his race, formed a noteworthy event. The originator of this valuable aid to providence and thrift was the Rev. Dr. Henry Duncan, of Ruthwell, a remote and sparsely populated parish in the county of Dumfries, Scotland. This good pastor devised the scheme of a self-supporting savings bank to enable the industrial population to which he ministered to provide against the proverbial rainy day, as well as to improve their social position, and render the poor laws unnecessary. After overcoming several difficulties, Dr. Duncan established the first savings bank in his little parish on May 10, 1810. When the prejudice against the innovation had died down success came to the modest institution and in the fourth year deposits to the amount of nine hundred and twenty-two pounds were made.

The success of the Ruthwell minister's experiment demonstrated that it was possible to give (to use the doctor's own words in his pamphlet) "to the honest and successful laborer or artisan a place of security free of expense, for that part of his gains which the immediate wants of his family do not require, with the power to reclaim all or any part of it at pleasure." Seven years later savings banks had multiplied to quite a large extent and were established all over Great Britain. Encouraged by the happy result of the movement Dr. Duncan sought government approval and protection for the institution and finally, after a great deal of opposition, and with the aid of Wilberforce, secured a legislative enactment giving statutory support and countenance to savings banks. Thus strengthened, the movement leapt ahead and in 1821, only eleven years after the establishment of the modest bank at Ruthwell, the amount deposited in savings banks throughout the United Kingdom was over four million pounds sterling. In 1861, when the Post Office savings bank was established, there were 1,609,102 depositors, with forty-one and a half million of pounds to their credit.

Though so late in the field, it is to be hoped that the United States will find the adoption of a national system for the encouragement of thrift will prove to be the lasting advantage of the state.

THE HIGH SCHOOL.

Editor Daily News:

Sir—In Saturday's paper you discuss editorally the High school matter. It is gratifying to hear, from a newspaper, that an interest has been aroused in school matters, because such an interest of the citizens is highly desirable.

It is also pleasing to hear editorially that "No one has any serious doubt, we believe, that the institution (the High school) stands in need of improvement and enlargement. Nor perhaps can there be dispute as to the wisdom of the trustees' decision to erect a new, larger, and more modern building."

I think the judgment of the majority of the rate payers will agree with that statement, if only the ratepayers will think over the situation. The present High school quarters never were suitable for the purpose. More accommodation is needed. Further, the location of the High school in the same building, and on the same grounds with the Public schools is an undesirable arrangement for many reasons. Then the present High school rooms are needed for Public school acommodation. So that a new High school, on some other site, while necessary in itself, is highly desirable for other reasons. There is no question of the need of the Sapperton and of the Lulu island schools. These considerations should insure the passing of the School bylaw on July 14 next with little or no opposition.

The fact is, there is no opposition of any account to the school proposals except that some few people object to the using of Tipperary for a High school site. This in spite of the fact that the school board obtained the grant of this land to the city. And it was given specifically for school purposes. Further, the objection is made, not because the site is unsuitable, but because some people,—on Queens avenue and nearby,—would have no other use made of Tipperary than that of a public park (and of course a "short cut").

You, Mr. Editor, state that there are numerous objections but that "The most vital of these would seem to be that by placing a school on this reserve the city will be robbed of a most valuable 'lung.'" Now, Mr. Editor, the "numerous objections" cannot amount to much if that is the most vital one for that objection cannot be well established. How is the "lung" value of a square of five or six acres to be appreciably affected by the placing on it a High school building of pleasing design and proportions? What use can be made of Tipperary as a park, that cannot still be made of it if a High school is built upon its Royal avenue side? St. James square in Toronto, on which stand the Model and the Normal schools, although much more crowded by the buildings than Tipperary would be, is still patronized by the public as one of the pretty parks—one of the notable "lungs"—of the Queen City.

As to alternative sites. I still maintain that no other suitable site for a High school is owned by the city. And I would like to know where any such site could be secured, even for the figure I have suggested, twenty or twenty-five thousand dollars. You, Mr. Editor, suggest three different sites to the board—(to "the School Trust." Thanks!) First—and therefore I suppose you consider most suitable—is the Chinese cemetery on Eighth street. Addison, I believe, used to entertain himself when in serious mood, by strolling through Westminster abbey and musing on the epitaphs of the great. The entertainment may have been suitable for that serious scholarly essayist, but it is a far cry from that to the New Westminster High school students wandering among the unnamed graves of the Potter's field. And even if the associations of that plot were all that could be desired, it is on the extreme edge of the corporation—difficult of access from all parts of the residential area of the city, and much of what is not graveyard now is swampy. Second, Moody square. The use of this square for a school is contrary to the terms of its reservation. That was what kept Lord Kelvin school off Moody square. So that is not available. Third, North end of Queen's park. If a school site can be obtained there it will doubtless be needed before very long for a public school to serve the north central part of the city. So that it seems to me that the alternative to Tipperary is a new site, and it will certainly be costly. But why should we seek any alternative site when we have such a splendid site, suitable in every way for a High school, in Tipperary? And why should not the beauty of the city and of Tipperary be enhanced by building there such a High school as will be a credit to New Westminster?

T. BENNETT GREEN.

New Westminster, June 26, 1910.

NELSON'S POWER PLANT IS NOW COMPLETED

Nelson, June 26.—The second unit of the Nelson civic power plant at Bonnington falls has been completed and the whole plant has been accepted and taken off the contractor's hands. For about four years the single unit has supplied light and power to the city with practically no cessation, but now that the second unit has been completed the plant originally installed will be given a thorough overhauling and in six weeks' time the city will have both units to rely upon. The completion of the work, costing about $300,000, has been a long undertaking, but the city is now excellently equipped, not only for lighting purposes, but to supply power at reasonable rates to mills, factories and the mines.

Quiet Wedding on Saturday.

A quiet wedding took place at St. Andrew's manse on Saturday morning, when Rev. J. S. Henderson performed the ceremony which united Charles Arthur Rogers and Miss Jessie Irene Haggarty. The groom was supported by R. Haggarty, while Mrs. Alex. Garrett assisted the bride. Mr. and Mrs. Rogers left in the afternoon for Victoria and Seattle, where the honeymoon will be spent.

SPORTING NEWS

VICTORIA MAY PLAY PROFESSIONAL GAME

Capital City is Anxious to Mix With the Best Players Next Year.

Vancouver, June 26.—Although the lacrosse season of 1910 is only half over, enthusiasts in Vancouver, New Westminster and Victoria are already figuring on the personnel of the league for 1911. Everything points to a four-club affair with two clubs in the running from Vancouver, one from New Westminster and the other from Victoria. J. Sweeney came up from the Capital City yesterday morning with a husky bunch of amateurs in tow, and imparted the cheering information that the island folks would have a professional team in the league next year. Officials of the Vancouver and New Westminster clubs have all along been desirous of having Victoria represented in the league, and the inclusion of the Capital City would round off the league to a nicety and would ensure more matches and keen competition.

Second Club for Vancouver.

The recent split in the ranks of the Vancouvers has paved the way for another club in Vancouver next year, and unless all signs fail, this other club will be comprised of "home-grews." There are many enthusiasts in Vancouver who believe that a team of local men can successfully cope against any other combination, and they will have an opportunity to place a team in the field. The present team will, of course, be in the running again, while it's a safe bet that the Royals will be on the job if they hold the cup. Otherwise there is no telling what the future holds for lacrosse in New Westminster.

Clubs Must Import Players.

It's just possible that all of the clubs will do a little importing next year. New Westminster needs a couple of good men on the home, and they will not overlook a chance to sign some of the eastern stars. Vancouver has a pretty strong combination right now, and the whole lot should stand another year, while Victoria must bring out at least six or seven men before they can hope to put a strong twelve in the field.

MARTIN MONK'S MOTTO IS NOW "ON TO RENO"

Fishmonger Wins Free Trip to Big Fight by Producing Ticket No. 1692 at Steamboat Exchange.

In the drawing for the winning number at Freeman's Steamboat Exchange on Saturday night, Martin Monk was found to be the lucky man. After eight numbers had been called without result Mr. Monk came to the front on the ninth round with No. 1692 triumphantly displayed.

The holding of the lucky number entitles Mr. Monk to a trip to Reno, Nevada, and return. He has already received offers from different parties who are anxious to see the big fight, but so far he has refused them all, although he has not yet stated whether he intends to make the trip himself.

AMERICAN SCHOONER IS WINNER OVER GERMAN BOATTS

Kiel, June 26.—In a stiff breeze today the American schooner Westward, owned by Alexander S. Cochrane, of New York, won the Jubilee prize, defeating Laitut Krupp's Von Bohlen and Halbach's Germania by one minute and forty-two seconds. Emperor William's Meteor, with the emperor aboard, finished fourth only a few lengths behind the Germania. The emperor today conducted divine services aboard the imperial yacht Hohenzollern.

Gave 1,500 Sticks Away.

Toronto, June 26.—An interesting incident at the lacrosse match at the Island on Saturday was the giving away to 1,500 boys the same number of lacrosse sticks. Mr. Solman, who donated these sticks, desires to encourage the playing of the national game. It is safe to say he has gone the right way about it. The chief obstacle heretofore with the boys has been the securing of a lacrosse stick. The national game is rather an expensive one to play. Parents do not care to hand out all the way from $1 to $3 every year for the necessities of the game. Now the boys have the sticks, thanks to Mr. Solman's generosity and it is safe to say there will be more lacrosse teams in Toronto this year than ever before.

BUTLER AMES IS CANDIDATE FOR SENATE

Washington, June 26.—Representative Butler Ames, of Massachusetts, publicly announced his candidacy for the United States senate today in a formal statement embodying an exceptionally bitter attack upon Senator Henry Cabot Lodge. Mr. Ames in his statement says he becomes a candidate after having failed to induce anyone else to take up the fight against "Boss Lodge" and his political machine.

Great Finish Wins Game For Victoria

(Continued from Page One.)

seemed to have the best of the argument. However, the visitors began to show signs of life and made Munn in goal work a little. Both he and Johnson stopped all kinds of shots and were looking for more. Henry was the only man penalized in this quarter. He inhospitably hit one of his guests over the head and Referee Gifford gave him five minutes to read up on etiquette.

Last Quarter.

Its a shame to mention the last quarter. The Victoria men must have been drinking "come, come" or some dope with a similar name for they went into the game as though they had a chance to win, a thing, which even their lone rooter did not hope for. It took only one minute and twenty seconds for the fireworks to start and then some fellow with a name imported all the way from Norway, with a letter added for every mile it travelled, did some nice playing and bulged the Westminster net. After that there was a five minute lull before MacDougall did a like stunt and then another five minutes till Young came through with a fast shot which tallied.

This tied the score and the men who would have bet if they had had any money, began to doubt how they would have bet. In two minutes New Westminster made a nice rush and at the end of one of the prettiest combinations of the game C. Smith scored making the score five to four in favor of the locals.

But alas; New Westminster only had a chance to rejoice for one minute before they were plunged into a state of uncertainty by Macdonald, who scored a nice goal, and then their uncertainty was removed by Macdonald repeating the performance at the end of another minute. Score, Victoria, 6; Westminster, 5.

FIRST QUARTER.

Westminster—O. Smith 12:15
Victoria—Young 1:20
Westminster—Gifford 4:00

SECOND QUARTER.

Suffragette Is Fined.

London, June 26.—Emily Davidson, a militant suffragette, was fined $25 in Bow street police court yesterday for breaking windows in the house of lords by means of chalk to which labels were addressed to Mr. Asquith. The labels contained such expressions as "indignant women won't take this insult," and "women won't be trifled with." These messages referred to the refusal of the government to give facilities for the passage by the commons of Mr. Shackleton's bill for the enfranchisement of women under certain conditions, the "conciliatory suffrage bill," as it is called.

GOVERNOR HUGHES SIGNS LABOR MEASURE

Albany, N. Y., June 26. — Senator Wainright's bill amending the labor law in relation to workmen's compensation in certain dangerous employments, as recommended by the commission which is investigating the question of employers' liability, was signed by Governor Hughes last night.

Governor Hughes also signed the Merritt bill, placing the telegraph and telephone companies under the jurisdiction of the public service commission of the second district.

SUNLIGHT SOAP

SICK MAN LAY ON PRAIRIE THREE DAYS

Qu'Appelle, Sask., June 26.—This morning a farmer living about six miles north of town reported to Constable Jessett that a man had been lying on the prairie near his place since Sunday. The Constable immediately notified the Mounted police, and on their arrival, accompanied by Dr. Henderson, they drove out and found the man, who appeared to be a Galician laborer, lying on the prairie near the buildings of Mr. Brown, who occupies the farm of John Pollock. The doctor found that the unfortunate man was suffering from pneumonia and rheumatism. He was practically unconscious. The police brought the unfortunate man to town, and later took him to the Indian Head hospital. It seems strange that a man should be allowed to lie sick on the prairie for three days without the authorities being notified. The parties mentioned refused to assist the police when requested to.

Cheese Makers Fined.

Ottawa, June 26.—L. Lalonde and F. Robinson, Papineauville, Quebec, pleaded guilty to charges of "stuffing" twenty-one cheeses with inferior or worthless "curd" yesterday. The charge was laid by Inspector MacPherson of the dairy commissioner's staff. The defendants were fined twenty-five dollars and costs, and there will be the loss on cheese in addition. This is the second case which has come up under the law.

STEAMER BURNED.

Fire Does $125,000 Damage at Poughkeepsie, New York.

Poughkeepsie, N. Y., June 26.—Late this afternoon the steamer Poughkeepsie, of the Central Hudson Steamboat company, and the company's warehouse at Highland, opposite the city, were completely destroyed by fire.

The motor Cardinal and the Luahe, of the Wisconsin navy, were also destroyed. The total loss is about $125,000.

EMPLOYEES PARTNERS IN WATTSBURG MILLS

Stock Not for Sale But Will Be Given to Capable Employees—Workmen's Homes.

Creston, June 26.—A. E. Watts, president of the Wattsburg Lumber company, which owns mills at Proctor and Wattsburg, upon being interviewed at Creston today in reference to his co-operative plan of employing workmen at his mills, said in part:

"My proposal of making employees partners is to give them a real business interest in the business in which they are engaged, and I do not propose asking men to purchase shares, they are not for sale, but will each year distribute a certain proportion of shares to the employees who exhibit a real interest in the business in a practical way. These shares will be fully paid up and will carry no liability with them, and will be given according to the worth of the men and their ability and the measure of success they make. My idea is to attract good men, who wish to make permanent homes, and for that purpose we have reserved lands near our mills which will be either sold on easy terms or leased to workmen under perpetual lease. Lumber and all necessary articles for construction of permanent residences will be supplied on time and at wholesale prices. My article recently published in the Nelson Daily News on the new and practical Socialism has attracted widespread attention. I am in receipt of many letters asking for further particulars and making favorable comments on the idea, notably from the editor of the American Lumberman, the minister of labor and others.

"With the high wages men can now earn at work in logging camps, in the sawmill, and in the sash and door factory, if they own their own home with an acre or two of land, if attended to in their spare time, they can save at least half their wages, and it is a well known fact that an acre of the productive land of the Kootenays can produce from $100 to $200 worth of produce annually. Therefore, if he chooses he can be practically independent in the course of a few years, besides becoming a partner in a lucrative business. But it is distinctly understood that we have no use for drones or men who are looking for easy snaps, and also that when we are giving our shares as an inducement to attract good men, they are not getting shares in a bogus concern, but in a concern whose assets are worth over half a million. Neither is a sawmill of this kind a temporary business, as we contract over three million feet of timber tributary to the Proctor sawmill alone."

ONE THOUSAND MOTOR CARS ARE OWNED IN THE PROVINCE

Victoria, June 26.—One of the many indications of the prosperity and rapid growth of British Columbia during the past couple of years is found in the record of automobile registrations, which show that since the first of the present year almost as many automobiles have been purchased in the province as in the preceding six years.

In 1904, when registration was first instituted by the province, there were only thirty-four machines in the whole of British Columbia. At the end of last year the number had increased to 614 ,while the total today is 1008. Since the end of December the number of cars registered has been 394, an average of over sixty a month or two a day. The registration continues to roll up and the staff of the provincial police is being kept busy issuing licenses.

A search of the registration records revealed the following interesting figures, showing the number of cars owned in the province at the end of each year given:

In 1904, thirty-four; 1905, fifty; 1906, 112; 1907, 275; 1908, 363; 1909, 614; 1910, 1008.

The total includes motor-cycles, of which there are only a dozen registered. Vancouver leads in the number of cars, with Victoria an easy second.

TWENTY-FIVE INJURED IN STREET CAR ACCIDENT

Albany, N. Y., June 26.—A big electric car crowded with pleasure seekers, bound for Electric park on the Albany Southern railroad, ran into an open switch about a mile below Rensselaer yesterday afternoon and crashed into a work train on a siding. Of the hundred or more passengers aboard, including two local baseball teams, twenty were more or less injured, five seriously. The injured were brought to this city in a special car. Some were sent to the hospital, but the majority were able to go to their homes.

Scene from "The White Squaw," Opera House, Thursday, June 30.

HORNY HAND OF TOIL REPELS "NICE" FOLKS

Girls "Turn Them Down" Because of Evidence of Labor, Say Workmen.

Do "nice" girls think more of a man's hands than they do of his character and his ability to provide a good home for them?

"Are the 'better class' of American citizens so undemocratic that they don't care for mechanics as neighbors, even though the representative of the 'better class' may be a clerk at $15 a week and the mechanic a bricklayer at about $11 a day?"

These questions, fired broadside at Former Superintendent of Schools E. G. Cooley after he had finished telling the members of the Association of Commerce, at their weekly luncheon at the Great Northern hotel, what he expects to learn about industrial training in public schools on his approaching trip to Germany, drew more attention than Mr. Cooley's set address, says The Chicago Record-Herald.

When the former head of Chicago's school system answered them, without qualification, in the affirmative, something of a sensation was created.

Quit Building Trades.

George Beaumont, an architect, and a member of the Association of Commerce, propounded the queries. He sat quietly through Mr. Cooley's speech, listening closely, and when Chairman Nathaniel Butler announced that the speaker would answer any questions that might be asked, Mr. Beaumont said:

"Mr. Chairman, I am an architect, and I make a practice of chatting with the mechanics who work on the buildings I am erecting. I like to get their views of things. A great many of them tell me they have quit, or are going to quit the building trades because the better class of people don't seem to want to associate with them.

"The bricklayer, for instance, comes home with his shoes covered with lime, and the neighbors don't like to see him living near them. The young men say the nice girls turn them down because their hands are big and coarse, with big knuckles, or are seamed and cracked from their daily toil. The average mechanic doesn't live in as good a home as the $15 to $18 a week clerk, although he earns more money. The average pay in the building trades is seventy cents an hour, but men are scarce. Perhaps Mr. Cooley can explain this."

Possibly the familiar lines of the Scottish plowman, "For a' that, and a' that, a man's a man for a' that," flitted through the minds of some members of the audience. At any rate, each one hunched forward a little in his chair and put his elbows on the table and listened eagerly for the reply.

Mr. Cooley, who already had given utterance to this epigrammatic statement. "The boy who is to become an efficient workman in any calling must believe it is something worth while and like to do it," admitted that Mr. Beaumont had truly described existing conditions.

"That is one of the most difficult problems of today," he said. "I am in hopes that schools for industrial training may create a different viewpoint toward manual labor. I am in hopes that the domestic science courses will make good housekeepers of the girls, so they will take a pride in their own work and respect a workingman who respects his own trade."

Polish Desired Now.

Mr. Cooley dwelt briefly with the subject, but he declared more attention was paid to polish than to framework nowadays. Both he and Mr. Beaumont were heartily applauded when they finished their discussion of the subject, showing the interest the listeners had taken in it, and while the question was left open, it was apparent that most of the company thought Mr. Beaumont had presented the meatiest question they had heard for some time.

In his talk on industrial training in the schools Mr. Cooley said he would investigate particularly the training best adapted to the needs of boys from fourteen to sixteen years old. He declared that this was the critical stage in their education, a gap between their school training and their practical experience in life.

Many boys leave school at fourteen years of age, because they may go to work at that age although the law provides that unless they do work they must continue in school until they are sixteen, but many do not get jobs, and of this class he said:

"There are in Chicago today about 25,000 boys and girls from fourteen to sixteen years old doing absolutely nothing. They are a body of idle young folks on the streets and in the alleys, learning things that do not tend toward citizenship."

Mr. Cooley said several German cities had come the nearest to solving the problem of proper industrial training through a combination of the school and the shop. He said the evening schools of Chicago and other large cities practically were valueless except for the instruction they gave foreigners in the use of the English language.

BRIDE ROBBED AT ALTAR.

Denver Police Uncover Theft by Dragnet in Pawnshops.

Denver, June 26.—Through the recovery by the police in a local pawn shop of a gold watch and chain belonging to Mrs. William Gordon Lennox, daughter of former Gov. Henry A. Buchtel, who was married here last Saturday afternoon, it was learned today that the bride was robbed while she was standing at the altar. The watch and chain, a present from her father, had been left in a chatelain bag in the ladies' dressing room of the church while the ceremony was being performed.

BUDGET IS COMING BACK TO HOUSE ON THURSDAY

Premier Asquith Makes Important Announcement—Language of Accession Oath to Be Altered.

London, June 26.—In the House of Commons Mr. Asquith announced that the budget would be introduced on June 30.

The Prime Minister promised to give an opportunity for the second reading of David J. Shackleton's bill for the enfranchisement of women, but he said he was unable to promise further facilities in this respect at the present session.

Mr. Asquith also said that he hoped to introduce a bill in reference to the King's accession declaration next week. It would, he said, merely propose to alter the language of the declaration. It would not vary in any material respect the conditions of the succession to the throne.

It is hoped that the veto conference will be finished before the end of July. Augustine Birrell, who is a member of the conference, speaking at Bristol last night, made some attempt to placate the stalwarts of the Liberal party, as far as the strict reticence surrounding the negotiations permitted.

He said the conference was not between popes or plenipotentiaries, not between those who could bind or loose, not between those who could sign, seal or deliver. Therefore, there was no deed to get agitated. The motion that any one would meet at a round table to try to discover a compromise was ridiculous. The object was to discover an agreement, to find out how far it extended, and how far it would carry them. They must not forget that in the event of disagreement their position would revert to its former state.

DOMINION LANDS RAILWAY BELT BRITISH COLUMBIA.

Coast Division.

Surveyed agricultural Dominion Lands in the Railway Belt not reserved or withheld from entry and not disposed of or occupied, are open to entry under the provisions of the British Columbia Dominion Land regulations.

In the Coast Division of the Railway Belt any male person over eighteen years of age and otherwise eligible, may obtain under entries as homestead and pre-emption, a legal subdivision of forty acres of Bench Land. Residence is required for at least six months in each of five years. Total cultivation required to earn patent for a twenty acre homestead, ten acres cleared and six cultivated, and if the remaining twenty acres is pre-empted by the homesteader, an additional ten acres cleared and six cultivated either on the homestead or pre-emption., no additional residence for the pre-emption. Price of pre-emption, five dollars per acre, payable in five installments with interest.

Conditional purchase entries may be obtained for twenty acres of Bench Land by a male over eighteen and otherwise eligible and not holding homestead or pre-emption. Residence required only for six months during the fifth year but cultivation duties increased. Price, ten dollars per acre, five installments.

Bench Lands in this division are lands below twenty-five hundred (2,500) feet above sea level. Uplands are lands above that altitude and are subject only to disposition by quarter sections under homestead entry or grazing lease to settlers. Flooded lands may be reserved for hay purposes or leased to settlers by legal subdivisions.

Entree fee for homestead, pre-emption and conditional purchase is ten dollars for each entry. After securing patent in connection with the land first entered for, the settler may secure another entry and so on, but not for more than a total of one hundred and sixty acres.

Entries under the British Columbia Dominion Land Regulations, effective on the 2nd July, 1910, may on and after that date be made for lands then open to entry. Any lands withdrawn from timber berths, as well as newly surveyed lands, will before becoming available for entry require advertisement for thirty days. "Surveyed" Lands for the purpose of entry means legal subdivisions abutting on a surveyed line, or, in case of Uplands quarter sections abutting on a surveyed line.

For further information apply to the Dominion Land Office, New Westminster, B C.

P. G. KEYES, Secretary.

IT WILL BRING RESULTS

SECOND SEAM OF COAL IS STRUCK

Discovery Proves That Nanaimo Series Extends Over An Extensive Area.

Victoria, June 26.—A discovery of the first magnitude which establishes the fact that the Nanaimo coal series is of an unusually extensive area has been made on Tumbo island. A second seam of coal, fifty-eight feet below the eight-foot seam discovered a month ago, has been struck. On Wednesday last Mr. Stone of the firm of Messrs. Stone and Knight, diamond drill contractors, of Spokane, arrived in the city from Tumbo Island and informed A. E. Hepburn, the principal proprietor, of the discovery. Mr. Hepburn, accompanied by Mr. Blakemore, the mining expert, upon whose advice the drilling has been carried out, and Richard Smith, of England, who is interested in the property, left yesterday for Tumbo island and verified the information which is of such an important character.

The importance of the discovery lies in the fact that it proves that the Nanaimo coal series exists at Tumbo. Throughout the whole of the mines of Vancouver island the lower Douglas seam has been found some sixty feet below the upper Douglas. This distance is correct to within two feet in the case of the Tumbo island measures.

In consequence of the discovery a new contract has been awarded to Messrs. Stone and Knight to carry on the drilling operations still further. It is also likely that Mr. Hepburn will put down another bore hole on Saturna island, where he owns 2,500 acres of coal lands.

As a result of the discoveries on Tumbo island a considerable amount of prospecting work is being carried on at Mayne, Saturna and Galiano islands. A local syndicate, in which the Tyee Copper company, is largely interested, has secured a number of claims and intends starting a diamond drill hole on Galiano island, opposite to Mayne island. The operations to be carried out there will be under the direction of Mr. Bryant, the mining engineer of the Tyee Copper company.

CHINA WILL HAVE OWN MERCHANT MARINE

Victoria, June 26.—Wu Ting Fang, former Chinese minster at Washington, has taken up the work of evolving a national Chinese merchant marine company after the manner of the Nippon Yusen Kaisha, and is starting a national subscription to this end. He has headed the list with a contribution of $30,000, and a rich Chinese merchant of Java has given a like amount. The undertaking is being officially supported by the Pekin government, and agencies for the collection of funds will be started throughout the world wherever Chinese are gathered.

The project of establishing steamship lines under the Chinese flag on the Pacific was started two years ago when the seventy-two guilds of Kwantung, South China, took up the movement and prospectuses were sent to Victoria in common with other parts of the world. The idea is to build a volunteer fleet under government control, and these vessels, with Chinese masters and Chinese crews, are to be engaged in various trades on the China coast and also in the trans-Pacific trade.

UNEARTHS STRANGE FIND.

Two White Frogs Alive Found Five Feet Beneath Ground.

Rievrside, June 26.—Landlord Cooper, of the Hotel Riverside, while digging a hole on his premises in the rear of the hotel, unearthed a strange find. He had reached a depth of five feet when he noticed a movement in the loam.

Taking his shovel he uncovered a smooth pocket about the size of a hen's egg and in it found two frogs. As soon as they were released from their prison they began to show signs of life and in another minute were hopping around as lively as any frog could be.

They were thrown to the surface, and an investigation disclosed two more pockets similar to the first one uncovered, each of the pockets containing two frogs. Like those found first, the others were alive and frisky as soon as the warmth of the sun affected them.

The frogs when found were huddled together and were white. The color in a few minutes changed to a green shade. The soil in which they were found is a hard loam.

NO ABATEMENT IN RUSH OF SETTLERS

Montreal, June 26.—It is figured by Canadian railway officials that immigration into Canada from Europe since January 1 was almost 112,000, which is considerably more than for the whole of last year and much more than twice as much for the same period last year. The most surprising thing is the continued activity. In past years the rush of immigrants always dropped off towards June, but this season every boat coming out is loaded to capacity with settlers. This is shown by the fact that the Canadian Pacific has so far during June handled 12,436 settlers, as compared with about 8,000 for the whole of June last year while the total immigration during the first three weeks of this month was almost 23,000 and there are now some 6,000 people on the Atlantic, due to arrive at the end of the week. The present year will easily break all records for immigration, almost doubling previous figures.

SUCCESS
---IN---
BUSINESS

TO be successful in business, to establish, maintain, and keep it on a firm basis, three things are essential to that end:

FIRST---Thorough knowledge of the business you are about to undertake, and, of course, the necessary capital.

SECOND---Good location, ample facilities to receive fresh stock and a well-kept, clean store, having nothing but the best in quality of dry goods, drugs, groceries, hardware, or whatever the nature of your enterprise may be.

THIRD---Tell the people that you are doing business by Advertising in **The Daily News.** Talk to them; get them interested; gain their confidence in your ability to supply their wants as efficiently as any store in Vancouver. Back up your statements by showing them the goods. Don't exaggerate their quality or excellence; give plain straight talk, otherwise you will lose the confidence and goodwill of your patrons, both present and prospective, and don't blame them if they do go to Vancouver for their shopping.

WHY NOT TRY AN AD. IN

CITY NEWS

A. G. Featherstone, of Ottawa, private secretary of the Hon. Frank Oliver, was a visitor in the city yesterday.

McQuarrie Bros. are specialists in New Westminster realty. Watch their advertisements for bargains. **

The barque Alta, which has been anchored in the river here since Friday night, left last evening on her long voyage to Natal.

For Geraniums, Dahlias and all kinds of Spring Bedding Plants phone Davis' Greenhouse, R 208. **

Work on the Hassam pavement on Columbia street was stopped on Saturday, as the cement available was considered too fresh and not liable to set properly.

For a pleasant cool drink, try the Ice Cream Sodas at The Royal Cafe. **

More boats are fishing in the river now, but the run of salmon still continues to hold off. There are barely enough caught to supply the local retail market.

Carloads in and more on the way. See our stock. We defy competition. For Anything in the Furniture line come to W. E. Fales. **

George Harrison, general manager of the Merchants Bank of Canada for this province, paid a visit to Westminster yesterday, when he was the guest of Local Manager H. C. Adams.

The management of the Bohemian Cafe sees to it that the best only is served there. **

Hunter Jack, a blind Indian, is scheduled to appear in the police court today on a charge of imbibing too freely. He is only partially blind usually, but he was quite so when the police gathered him in yesterday.

Sons of Scotland picnic to Westminster Junction, July 1. Sports, highland dancing and piping. Trains leaves 9:10 a.m. Come and have a good time. **

The Great Northern auditor has found the books of F. C. Meyers, the missing agent, all correct. No word has been heard of the missing man, although there are all kinds of reports circulated concerning him.

To accommodate the large number of children now attending the East Burnaby school, built about two years ago, a couple of rooms are being added. This will double the seating capacity in the rural hall of learning.

Good progress is now being made on the installing of machinery in the Northern Pacific Lumber company's mill at Barnet, and another couple of months should see the big plant active once again. The mill was burned to the ground about fourteen months ago.

An important meeting of the W. C. T. U. will be held at half past two o'clock this afternoon in the parlor of Queens avenue Methodist church. The financial affairs of the recent convention will be straightened out and all the members are urgently requested to be present.

The fire brigade turned out about half past four o'clock yesterday afternoon, when a call was sent in from the west end of the city. A heap of old shingles and sawdust near the end of Fourth avenue had caught on fire and might have spread to a dangerous extent if the brigade had not responded promptly. The blaze was extinguished in a short time. This is the first time that the fire brigade has made a run on the new pavement and the difference in the time made from one end of Columbia street to the other was surprising.

Hon. William Templeman, minister of inland revenue and mines; Mr. and Mrs. Feathersone and Mr. and Mrs. Robert Kelly, of Vancouver, visited the city yesterday, taking lunch at the Russell with Robert Jardine, W. J. M. Sandel and A. E. Kellington. In the afternoon the party took an automobile trip through Surrey and Delta.

The marriage took place at Knox Presbyterian manse on Saturday morning of John N. Corder, of New Westminster, to Miss Sadie Louise Martyne, of Toronto, Ontario. Rev. E. G. Thompson performed the ceremony in the presence of a few friends and witnesses. After the ceremony the couple left on a honeymoon trip to Vancouver island.

In a fast game of lacrosse before the big game on Saturday the Hustlers defeated the Tigers by a score of two to one in the first game for the Burde watches. The game was fast all through and Referee C. Smith had quite a job keeping the players in their places. By the form shown in the game, the Hustlers have a good chance of winning the time pieces.

Under the auspices of the Epworth league of Queens avenue Methodist church, a national and patriotic program will be given in the church parlors at eight o'clock this evening, when all the nationalities in Canada will be represented by proxy. Refreshments will be served, national dishes being the specialties. An orchestra will be in attendance during the evening.

About fifty members of the local lodges of the I. O. O. F. attended the annual Decoration Day services of the order yesterday afternoon, the event being in charge of Isaac Lawrence, P. G., chairman; W. C. Coatham, P. G., secretary; N. R. Brown, P. G.; J. W. MacDonald, P. G.; Sam Bowell and Fred Parsons. Service was held in the I. O. O. F. Hall, after which the members proceeded to Sapperton, where the cemeteries were visited and about seventy graves decorated. The Decoration Day service of the order was read at the cemetery.

There will be international complications at the police court today, when Peter Toney, an Italian, will answer to the charge of stealing the sum of $80 from two Belgians. They had all been living at a hotel together down town, and the Belgians say that Toney filched their money and left. They followed and captured him and handed him over to the police. All the money, with the exception of a few dollars, was recovered. Toney's version of the affair is that the Belgians were under the influence of liquor and he had taken the money in order to keep it safe for them until they recovered. Magistrate Edmonds will decide on the merits of the two yarns this morning.

That great and mysterious painting "The Shadow of the Cross," which has been exhibited all over the world and has always defied explanation or analysis, is now being shown at the Crystal theatre. The picture is a life size unfinished portrait of the Man of Sorrows, depicted in an attitude of gentle resignation. When all lights are lowered, a faint glow is noticed which gradually grows until the faint outline of the Savior can be seen while from the background emerges the shadow of a cross. The cause of this phenomenon has never been explained, and such was the effect on the artist when he first witnessed it that he declined to finish the painting. In later years he has often tried to reproduce the effect, using the same colors and materials, but without success.
