GERMAN FARMER BUYS BIG RANCH

G. W. BRUNGER PAYS $40,000 FOR 400-ACRE FARM AT UPPER SUMAS—WILL GO IN FOR CATTLE RAISING AND DAIRYING.

A deal of some importance was closed recently between L. A. Lewis and W. H. Keary on the one hand, and G. W. Brunger, a German, on the other, whereby a 400-acre ranch at Upper Sumas was transferred by the local men to the Teuton, who intends going in for cattle raising and dairying on a large scale.

Immediately after concluding the deal Mr. Brunger left for Germany, intending to return to this province with his wife early in July. It is also probable that he will bring back with him a number of German farm hands, his intention being to follow the German method of farming, at least as closely as different climatic and other conditions will permit.

Mr. Brunger is reputed to be wealthy, and if his first experiment in farming in this district proves successful, he will interest a large number of other subjects of the kaiser to cast their lot in British Columbia.

SPIRITED DEFENCE OF NEGRO IMMIGRANTS

WRONG IN PRINCIPLE AND MISTAKE FROM PUBLIC STANDPOINT TO STAMPEDE PUBLIC SENTIMENT, SAYS J. A. CLARK.

The following defence of the negro should be read with interest in this district, where the subject of colored immigration was a live issue re-

To the Press:

It probably seems foolhardy to my readers for me to attempt to throw any light on a question upon which such unanimity apparently exists as the present campaign to prevent any further immigration of colored people into western Canada.

At the risk of offending such public-spirited citizens and bodies as are now so keenly circulating petitions, passing resolutions, etc., I crave the indulgence of the press and people of Alberta, while I draw attention to a few facts and arguments that I fear are being overlooked. I do this, I may say, from a keen sense of fair play, and I may state that I have not spoken to a colored man or child in months and never upon the subject of this letter.

First of all it is unCanadian, unfair, and untenable that any whole race or class should be condemned or discriminated against because of the moral lapses or proved criminality of any percentage of that class, however great.

This prejudice and violence towards negro citizens comes almost exclusively from former residents of the southern states, and if any class or people on earth have made a gigantic failure of the handling of any public question the people of the southern states have made that failure of the handling of the question of negro citizenship and government. It was my fortune to see first handed what the conditions between the two races are in part of the southern states, I make bold to say that a large amount of the black antipathy to white in the south is justified, by the unreasonableness, immorality and outrages of the whites to and upon blacks, with their Jim Crow cars, restricted or total abolition of negro rights to the franchise, with their repeated, continual and habitual creation of children with white fathers and colored mothers, children whose fathers never for one moment recognize their offspring or their mother's rights, and in earlier and slavery days children were slaves to their own fathers from their birth. The wonder to me and many others is not that such children hate their white oppressors and the outragers of their mothers, but the wonder is that they are able to restrain their hatred as much as they do, the wonder is that the outbreaks of violence, crime and revenge are no more general. Let white people ask themselves how long would we stand what the black have stood if the blacks were the most numerous and dominant race, and if we had once been slaves and were now supposed to be free.

I have travelled much and my opinions here expressed have been arrived at from a more less generally all over American experience. I have carefully observed black and partial black citizens in various parts of the world and I never saw any similar number of white or any other color any better behaved.

Our Canadian experience shou'd be enough for us. From the days when Albert Lewis, the great colored point player of the Cornwall lacrosse club, down to the days of the Sourry boys of Vancouver and Dawson, I challenged these people now suffering from negrophobia to show any justification in Canada for their campaign of "Keep the colored people out," a campaign carried on not with private

Hindlip Buys Ranch.

Nelson, B. C., May 10.—Lord Hindlip has purchased W. F. Santo's 600-acre ranch at Thornhill, 65 miles from Granbrook, for a good figure. The transfer includes many head of fine stock.

PUPILS WANTED TO SEND SCHOOL SKYWARDS

Four Lads Placed Dynamite Under Building, Intending to Emulate Los Angeles Fiends.

South Vancouver, May 9.—With two sticks of dynamite and a length of fuse placed in holes in the basement of a two-roomed school on Wilson road, four small boys, the alleged ringleader of whom is only 13 years old, are reported to have confessed that they were only waiting to secure a fulminite cap before blowing up the whole building. The four young would-be dynamiters, in their explanations after having been taxed with putting the explosives in the school basement, are stated to have said that they had been fired to attempting the deed through reading of the explosions at Los Angeles and other cities and thought it would be fine to send the building on Wilson road flying into the air. The boys claimed, however, that they had no intention of lighting the fuse when school was in session but planned to wait until there was no one in the building.

C. L. Thornber, assistant master at Collingwood school, who will take charge of the new school now being erected on Wilson road, discovered the presence of the dynamite in the present school building. He said that owing to certain disturbances there he had been instructed to call daily to advise the two female teachers in charge. One day last week a carpenter reported to him that he had seen a boy with a stick of dynamite. An investigation was made and two sticks with the fuse were found in holes in the basement walls.

Archbishop McEvoy Is Dead.

Toronto, May 10.—Archbishop McEvoy died twenty minutes after midnight this morning.

FIGHT CAUSED A PANIC.

Many Persons Trampled on in Rush New Yok, May 9.—In a fight to New oYrk, May 9.—In a fight to eject six men who had forced their way into a moving picture theatre without paying admission six shots were fired in rapid succession here last night, and the cry of "Fire" was raised. This started a panic and three hundred spectators rushed wildly for the exits, knocking down and trampling upon many women and children. One man was hit by a bullet, many of those knocked down were seriously hurt. Only one arrest was made.

GOOD WILL TO FRANCE.

President Fallieres Cordially Welcomed by the People of Belgium.

Brussels, May 9.—The arrival of President Fallieres and his party at the Belgian capital today, for which arrangements had been made in advance, was the occasion of an immense and cordial demonstration of goodwill towards France. From the time the French president crossed the frontier huge crowds welcomed him at every station. On his arrival here he was met by King Albert and practically the whole official body. Three days will be given over to the entertainment of the visitors.

CHINESE MASONIC LODGE.

Organized at Hamilton and will Be Affiliated With Candian Order.

Hamilton, Ont., May 9.—A Chinese lodge of Masons has been organized here, and will be affiliated with the Canadian order. It is the first Chinese lodge to be organized in this section, and many prominent officers of the order from Ottawa, Toronto and Montreal participated in the ceremonies. Seventeen were initiated.

HIGHER PAY THAN MEN.

Boston Women Teachers Demand It, Say They Need the Money.

Boston, May 9.—That women school teachers should receive a higher rate of wages than men because their living expenses are higher is the claim put forward by a teachers' committee here. The committee furnishes tsatistics to show that a single woman teacher can not live properly on less than $1200 a year, while an unmarried male teacher can live comfortably on $838.

The board of education recently proposed a salary of $720 a year for the young women beginners. The latter sum is not a living wage, the committee asserts.

Girls Get Medals.

The following pupils of the intermediate grade, Girls' Central school, have been awarded Palmer Method Buttons by the A. N. Palmer Co., New York:

Ethel Laugheed, Allie Meiss, Helen Pearce, Hettie Pottinger, Jessie Wilson, Daisy Schofield, Kathleen Drew, Nellie Callendar, Barbara McWaters, Helen Agar.

SEVEN BURN TO DEATH IN THEATRE FIRE IN SCOTLAND

Lafayette, a Variety Artiste, Believed to be One of the Victims—Big Audience Marched Out of Playhouse in Safety—Cause of Disaster Unknown.

Edinburgh, Scotland, May 10.—The Empire theatre on the North bridge, in the heart of the city, was destroyed by fire, which started on the stage during the performance last evening.

The large audience filed out without disorder, everyone in the auditorium reaching the street in safety.

Lafayette, a variety artist, is believed to have been burned to death.

The charred remains of seven of the actors were found back of the stage after the fire had been mastered. One of the victims was partly identified as Lafayette, who was going through his act when the fire started.

The cause of the disaster has not yet been ascertained.

DRUGGIST WILL ENTER REAL ESTATE BUSINESS

F. J. MacKenzie Forsakes Mortar and Pestle for More Lucrative Calling —To Specialize in Surrey.

Frank MacKenzie, M. L. A., has joined the personnel of the British Canadian Securities company, limited. He commenced yesterday to familiarize himself with his new duties. The new member of the firm will devote most of his attention to outside work, leaving the inside detail to members of the permanent staff.

The drug business now conducted by Mr. MacKenzie under his own name will in future be under the management of Arthur (Okay) Smith, who is returning from McGill college this week.

Because of his close association with Surrey and Delta, and his intimate knowledge of conditions in those municipalities, Mr. MacKenzie expects to be in a position to negotiate some important deals before he has been in the real estate business many weeks. In addition to looking after part of the business of the B. C. Securities company, the member for Delta will also attend to the selling of several parcels of the MacKenzie estate.

PLAN TO ENJOY LACROSSE ON SUNDAYS

Montreal, May 9.—Some people with considerable financial backing and interested in lacrosse paid a visit yesterday to Delorimier park, and the Shamrock grounds, and came to the conclusion that if Sunday baseball can attract so many as were out at the two grounds yesterday, Sunday lacrosse ought to do the same.

It is, therefore, quite likely that a meeting will be held shortly to discuss the possibility of arranging a professional Sunday lacrosse league.

Sunday lacrosse has been played for some time past in a sort of detached mannr, in the West End, particularly in St. Henri, but the new scheme is to have it properly organized, and already it is said, Maisonneuve, which thinks it would be a good advertisement has intimated that it will provide grounds at very reasonable lease rates, and a similar proposition is expected from St. Henri.

One very well known sporting gentleman financially interested in various branches of indoor and outdoor sport is ready to go into the scheme.

DANGER OF A DROUGHT.

Prices of Fodder Are Rising Everywhere in Australia.

Melbourne, May 9.—The heavy rainstorms which were experienced in various parts of Australia during the month of March have given place to a lengthened spell of dry weather, among agriculturists fears are being expressed that a drought is not unlikely. The prices of fodder are rising everywhere. Farmers are holding last year's wheat and as the ground has become too hard to plough there is great likelihood that the amount of wheat sown this year will be considerably below the normal.

BILLIARDS.

Metal workers who are representing that trade in the Commercial billiard league championship, put it over the quintette from the B. C. E. R. car shops, at Bert Fletcher's parlors on Sixth street yesterday evening, to the tune of four games to one, losing the latter by the narrow margin of nineteen points.

Folowing are the scores:

Metal Workers—	Car Shops.
Sutherland 150—	Beat Oliver 135.
Douglas 150—	Beat Ashbely 96.
Brisbane 150—	Beat Blacklock 149.
Johns 150—	Beat Rowe 130.
Cormack 131—	Lost to Judd 150.

Unfortunately four of the contesting players from the United Banks and the Real Estate teams failed to materialize yesterday when the bout over the championship course was due for settlement. The scores as for as the heat was decided resulted:

Real Estate—	United Banks.
Gilchrist 150—	Beat Wells 56.
Kellington 150—	Beat Smith 136
Eastman 150—	Beat McDonald 136

HAWTHORNTHWAITE IS "ENEMY OF THE REDS"

Nanaimo Socialists Say Bourgeois Lacked in Ability to Discuss Proletarian Monistic Philosophy.

Nanaimo, May 9.—For some months considerable friction has existed between the Provincial Socialist leader, J. H. Hawthornthwaite, M. L. A., and the Nanaimo local of the Socialist party of Canada, of which he has been a member. On Friday last the Nanaimo local made an official announcement to the effect that Mr. Hawthornthwaite had resigned his membership in the local on February 26 last, and that a committee had been appointed to investigate the cause of his resignation. On Sunday last this committee submitted its report which was unanimously adopted.

The report is addressed to the Nanaimo Local of the Socialist Party of Canada, and its general tone is rather hostile to Mr. Hawthornthwaite. It sets forth that Mr. Hawthornthwaite undertook organize Vancouver Island for the Socialists but did not devote himself with any enthusiasm to the work.

"On February 26, 1911," continues the report. "Hawthornthwaite was criticized for congratulating the Conservative government regarding the Coal Mines Regulation Act. This was followed by a suggestion to form a committee to outline a plan of organization for Vancouver Island to be carried out by Hawthornthewaite. As soon as the suggestion to form a committee was made he immediately stated that it seemed to him he had lost the confidence of the local and that he would resign his membership, stating that he was alright anyway. On being asked if he had always received a fair and square deal from this local, or if he could name one occasion on which he had not been treated fairly he replied that he had always been shown every consideration.

"In regard to the flim-flamming this local," says the report, "we wish to state that in our opinion he did not possesses sufficient ability to do so as he found out on various occasions when with all his ability and his bourgeois education he failed to hold his own with a coal miner in discussing proletarian monistic philosophy, and in discussing sociological questions he proved himself a novice in the use of the dialectic.

After reviewing all the circumstances and setting forth the efforts made by the Socialists to elect Mr. Hawthornthwaite, the committee finds that he has not lived up to his obligations, and says in conclusion: "In the estimation of the committee this local has nothing to take back and further state that in their opinion J. H. Hawthornthwaite by his double dealing and treacherous actions has demonstrated that he is an enemy to the revolutionary working class interests and the committee as members of this local and members of the revolutionary working class warn our class against this man.—James Hurst Hawthornthwaite."

The report will be given the widest possible publicity through the Socialist press of the world.

JUDGE DISALLOWS APPLICATION FOR BAIL

John J. McNamara, One of Alleged Dynamiters, Must Remain Under Lock and Key.

Los Angeles, May 9.—The application of John J. McNamara for the fixing of bail upon the charge of dynamiting was disallowed today, without prejudice, and with leave to renew it at another time, by Superior Judge Walter Bordwell.

When Judge Bordwell called the case of the people against McNamara, Job Harriman, the accused man's attorney, and John D. Fredericks, district attorney, said that they were ready. The court asked for suggestions as to the fixing of the bail, and Harriman answered that the defendant had the right to demand that the amount be named.

"There is nothing else before the court," he declared. "The bail should not be large because the evidence which tends to connect the defendant with the crime of dynamiting, is that of an alleged accomplice, which is always looked upon with suspicion.

"The prosecution is indifferent as to the fixing of bail," said Fredericks. "The admission to bail is what we object to. The fixing of bail applies to charges; the admitting to bail to individuals. If the court makes any order it might as well be one permitting the defendant to go on his own recognizance."

Judge Bordwell remarked that the defendant was held on charges which upon their faces were unbailable. "An order fixing the bail now," he said, "could be only of slight benefit to him." Harriman was persistent.

"It is the defendant's right," he asserted. After some argument Judge Bordwell disallowed the application, adding that he did so without prejudice, and that it could be renewed later. McNamara was not in court.

PRESIDENT MOORE SEES SITE OF STEEL CITY

J. A. Moore, president of the Western Steel Corporation, accompanied by a number of the Vancouver and local directors and shareholders, were in the city yesterday and paid an official visit to Steel City, going down by motor launch, for the purpose of selecting the site for the proposed Canadian steel works of the company and looking over the adjacent townsite.

The president and his associates were much pleased with the location, both for the works and the townsite, which they considered ideal, and it was decided that incorporation of the neccessary Canadian company under the laws of this country should be proceeded with, preliminary to the organization of the enterprise and erection of rolling mills, smelter, etc., to follow in due course.

TRYING TO DEFEAT UNION.

City of Winnipeg Lends Assistance to Contractor on Power Works.

Winnipeg, May 9.—At a meeting of the Structural Iron Workers last night the members present were greatly exercised over a statement made by some of their number to the effect that the Winnipeg civic works department was lending its assistance to defeat the union in its struggle for better conditions, it being alleged that four men were sent from the city's shops to assist the contractors who were engaged on the iron work of the power house.

LACROSSE TOMORROW.

Reginas and West Enders to Meet in First Test at Queen Park.

The first lacrosse match in the city intermediate league will take place at Queen's park tomorrow evening, commencing at half past six o'clock, when the Reginas will face the West Enders.

The boys on both teams have been practicing hard for this first match, and a good brand of lacrosse should be put up by the old rivals.

The Reginas will pick their team from the following: Keary, J. Gifford, E. Cotton, Weaver, H. Fletcher, H. Turnbull, H. Ferguson, E. Fenton, E. MacKenzie, Stewart, L. Herod, J. Johns, E. Eastman and E. Salt.

The West Enders will have a reconstructed team in the field, several of the old standbys having either joined the amateur seniors or decided to take a rest. Here is Thursday's lineup: Goal, Gilley; point, Mortison, coverpoint, Capt. Cooper; defence field, Gregory, Currie, H. Battson; center, Louis Sangster; home field, W. Sangster, L. Adams, F. Battson, T. Storme and S. Mortison.

Cooper, Gregory, W. Sangster and the Battson brothers are the only ones who played on last year's team.

FIGHTING FEDERALS SURROUNDED BY FIRE

TOWN OF JUAREZ, CAPTURED BY REBELS, GOES UP IN SMOKE—LAST REMNANT OF REGULARS MAY BE CREMATED IN CHURCH

El Paso, Texas, May 10.—(1:30 a. m.)—At midnight the whole town of Juarez, where fighting which had been in progress for nearly twenty-hours between the federals and the rebels, was a sething mass of flames.

All the railway depots have been reduced to ashes and a majority of the principal buildings are in ruins.

The fire is creeping towards the cathedral, where the last remnant of federals is stubbornly holding out against the victorious rebels. The federals are so stoutly barricaded in the cathedral that they will find great difficulty in escaping when the flames compel them to seek safety elsewhere. The assault by the rebels upon Juarez began at 4:30 o'clock yesterday morning. The rebels fought desperately from behind barricades thrown up in the streets.

There was a great exodus of the residents of Juarez when it appeared that the city would be wrecked by cannon fire. Throngs of men, women and children rushed to the international bridge, fleeing for their lives to American territory. They were allowed to come without question, but neither rebels nor federal soldiers were allowed to cross, even the wounded being turned back by the American troops on patrol.

Additional American troops are closely guarding the river bank and forcing back the people from the zone of fire along the river.

San Diego, Cal., May 9.—Tia Juana was captured by the Mexican rebels shortly after eight o'clock this morning.

After the rebels marched in little squads of federals began coming out of the houses and surrendering to the victors. Other federals had fled to the line or scattered in the brush. A party of thirty under Luerdo Gonzales, for whom the United States immigration officers have been looking for some time, walked to the line and stood across in Mexican territory. The immigration officers tried hard to coax Gonzales across, but failed.

It is reported that about a dozen dead are lying in the streets of Tia Juana.

When Gonzales reached the line he said:

"We can do no more." The pitifully tired and heartsick federals with him needed assistance.

To take care of the situation at the line, General Bliss has ordered fifty men and two officers from Lakeside, where the maneuvre camp is located, to reinforce Captain Wilcox's men at Tia Juana.

VESTA VICTORIA WILL BE BIG DRAWING CARD

Many Seats Reserved for Performance of Noted Comedienne—Soldier Boys Will be There

According to the advance sale of reserved tickets for the Vesta Victoria program at the Opera house tomorrow evening, it is safe to predict that the auditorium on Lorne street will present an animated appearance when the curtain rises on the galaxy of talent which, according to the reception given to the artistes in Vancouver this week, surpasses anything of its kind ever seen in this province.

While Miss Victoria is the bright star of the combination, the program will present to this city a number of famous performers from different parts of the world, England, Scotland, Australia and the United States giving of their best.

A contingent of the 104th regiment will be present, the soldier boys having reserved fifty seats and so as to be in keeping with the traditions of the army, well to the front—in the stalls.

BIG DEAL.

Westminster Trust Properties Purchased by F. J. Hart.

F. J. Hart and company has closed a deal which is generally conceded to be one of the most important engineered in the Royal City for a long while. For the sum of $160,000 this firm has become the owners of the Westminster Trust and Safe Deposit company's block, situated at the corner of Columbia and Lorne streets. This property, which houses the Masonic temple, and the Adams block, is right in the heart of the city.

Included in this sale was the property at Chilliwack belonging to the Westminster Trust. This has a frontage of 80 feet on Westminster street and 110 feet on Westminster street. On this latter property are stores and offices, all bringing in a comfortable yearly rental.

NEARLY DIED OF STONE IN THE BLADDER
GIN PILLS SAVED HIM
513 JAMES ST., HAMILTON, ONT.
"Five years ago, I was taken down with what the doctors called Inflammation of The Bladder—intense pains in back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor.
My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once and the attacks were less frequent.
In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me." JOHN HERMAN. 48
GIN PILLS are sold at 50c a box—6 for $2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write us, mentioning this paper. Money back, if GIN PILLS do not give full satisfaction. National Drug and Chemical Co., Dept. B.C., Toronto.

HAIR INSURANCE

INSURANCE AGAINST PREMATURELY GRAY HAIR.

In these up-to-date days, it is possible to purchase insurance on anything. Insurance is, practically, taking a chance, with the chances figured largely in favor of those issuing the insurance—not those who buy it. Hair insurance is different, in that the one buying the insurance obtains full value at the outset, with correspondingly increased values for the greater amount bought; while the sellers of this insurance are likely to lose unless the purchasers obtain full value at once.

This applies to Wyeth's Sage and Sulphur Hair Remedy, for if it does not do exactly what is claimed for it, the sales would naturally drop off; whereas if it gives satisfaction the increased sales give it the only chance to be successful. However, Wyeth's Sage and Sulphur Hair Remedy does "make good," as evidenced by its daily increasing sales. Druggists say that this preparation gives the best satisfaction of any hair remedy ever sold. Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It removes dandruff, strengthens the hair, gives new life to dull or parched hair, and gradually restores gray hair to natural color.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

THE FORTIFICATION OF PANAMA CANAL.

Rear Admiral Mahan, of the U. S. Navy, writes in the North American Review interestingly on the fortification of the Panama Canal, as follows:

What will be the value of the canal to the United States, and incidentally to the United States navy Primarily, and above all, it will be the most important link in the line of communications between our Atlantic and Pacific coasts. There is throughout the whole length and extension of our sea coast, from Maine to Puget Sound, no single position or reach of water comparable to Panama in this respect. Communications, the free access to an army to reach the other for material support, or of the whole to move to any particular point of a theatre of war, communications in this sense are the most important factor in war. Communications dominate war in all its aspects. On a battlefield the connection of the several divisions of an army must be such that such an enemy cannot break through. Advancing in campaign, the relations of army corps to each other must be such that they can unite before the enemy attacks either in force. Concentration, of which we hear so much and so justly, means simply communications so preserved as to enable the whole to live and the parts to unite betimes.

What is the meaning of the well-known urgency of the Pacific coast population that the Government divide the battle fleet, sending one-half to that coast? The most entirely suicidal act that could be contemplated. It is an uneasy sense that the whole may not be able to reach the Pacific betimes, in case of the sudden outbreak of a Pacific war. In other words, they are uneasy about the communications, although very possibly the word in that sense is as foreign to them as is any reasoned knowledge of warfare. The absence of such knowledge is evident in this desire for diversion, which ignores the recent destruction in detail of the Russian navy.

The question of fortifying the canal, therefore, is the question of preserving an essential line of naval communications. But, it will be replied, you beg the question; the navy will protect its own communications, the canal not least. Will, then, the navy be tied to the canal, or will it protect it by a big detachment, by dividing its numbers while the bulk of the fleet goes to some other assigned duty? Yes, it is replied, the money is spent for fortifications, which are immobile, will be given to the ships, which though mobile, will remain for defence of the canal, and yet, if required, can go to reinforce the fleet. Just so; if required they will go away. One advantage of fortifications is that, being established in moments of calm consideration, they cannot be moved in moments of real or panicky pressure. A primary charge of Nelson for the naval defence of Great Britain when invasion was feared was that the 'block ships,' floating forts, established on a reasoned scheme, should on no account be moved in an apparent emergency. He recognized the danger which permanent fortification obviates. Moreover, to use active vessels for stationary defence is to lock up mobile force in an inferior effort. "To decrease our cruisers at sea by commissioning vessels for harbor defence," said St. Vincent, second only to Nelson, "will be a step that can lead only to our ruin."

It is often argued that because an enemy intending the invasion of a country situated as the United States is, must primarily possess a competent navy, therefore the best defence against the invasion on either large or small scale is a mobile navy. This is perfectly true, and applies with equal or greater force to the maintenance of oversea dependencies, such as Hawaii, Guantanamo and the Canal Zone. A navy at least equal to the enemy's is essential to their preservation, but it does not follow that the navy, therefore the best defence either or all. A navy does not protect by local presence, but by action upon the lines of communication; that is, upon the sea. "Hence fallacy enters with the further assertion that all money spent on fortifications had better be spent on ships." The question is one of proportion. Coast fortification may be pushed, at times, has been pushed, to an extravagant extent. But for the defence of points the tenure of which is essential to military operations, the operations of a fleet, fixed works are better than floating, because they secure the same aggregate gun defence at much less cost; or, if you prefer it so stated, much greated defensive strength for the same cost. In addition to the fact that they cannot be moved under popular apprehension, such as kept the flying squadron in Hampton Roads during the war with Spain, a measure which would have cost the country dear with a more active enemy, guns in forts cost far less under normal conditions than those in ships. Forts need no floating power, no motive machinery, no long storage of fuel. Moreover, they are less vulnerable; for the solidity of the ground permits the accumulation of armor or other protective covering, and they have not to dread the submarine or the floating mine.

Guns on ships are also necessarily massed within the length of the ship presenting a concentrated target, whereas on shore they may be dispersed indefinitely, and largely concealed, which is the modern practice. For such reasons, while vessels have usually been able to run by forts through an "unobstructed" channel, the same amount of artillery in ships has rarely been to stand up against forts. Even with superior fire, ships have been able to dominate land works only under peculiar conditions, which the all big gun ship does not possess: the conditions of very rapid fire from very numerous pieces at very close range. No one is going to take a $10,000,000 battleship over an unexplored mine field to get near the same number of guns ashore; nor will it be attempted to engage at a distance, because the ship is so much more open to fatal injury by a chance shot. Besides the two Japanese battleships destroyed by Russian mines, a third, the Asahi,' very narrowly escaped being struck by a shell which might well have caused serious injury. The forts were not seriously hurt by naval bombardment; and it may be profitably remembered that the work of repairing battleships injured by the first torpedo attack was carried on in Port Arthur during the period in which the Japanese naval bombardments occurred.

Granting, then, that the United States intends to make sure of the use of the canal in war, fortification will insure that peculiar end more cheaply, with less danger of losing the position, than the same amount of money expended in warships, unless there are abnormal peculiarities of the ground, of which I have not heard. It is to be taken for granted that the board of fortification, checked as it should be by a naval representation will not pile Ossa on Pelion in needless muntiplication of defences, but will have a due regard to the fundamental fact that the defences exist for a canal, and not the canal for the sake of being defended That is, it will be remembered that from the broad military point of view, which includes the entire military establishment of the country as a composite whole, army, navy, coast defence, the value of the canal is not its impregnability as a position, but its usefulness to the navy as the offensive defender of the whole national coast line, Atlantic, Gulf and Pacific.

Montrelynview

The Name Tells The Story

New Westminster people looking for a good investment, or looking for a choice lot on which to build, are advised to investigate Montrelynview, the new sub-division situated in Burnaby, overlooking Burnaby Lake, and but three blocks distant from the city carline.

Not only is this property adjacent to the city carline, giving quick connection with the downtown section of New Westminster, but it is but three or four minutes' walk from the new Burnaby carline—the line that takes you to Vancouver in thirty minutes, or less. Besides this, the present Vancouver-Westminster interurban carline runs to the rear of the property, only a five minutes' walk away.

Vancouver and other outside investors are putting their money in Montrelynview. Have the same faith in your own locality and share in the profits.

Montrelynview is straight out Eighth street, and occupies the prettiest situation of any of the property surrounding Westminster. Convince yourself of this by a personal investigation. Walk up Eighth street to the property, take the carline to it, or better still, phone or call at our office and be taken out in our automobile.

There are only 176 lots in the subdivision and we are satisfied you will like the locality. In a short time we are firmly convinced that you will make a handsome profit on your buy, if you care to sell.

With every one of the 176 lots sold you have a chance for the beautiful Gordon residence now at Montrelynview. This house is easily worth $12,000. If you do not want it, providing you are the lucky one, there is a standing offer of $7500 cash for it. The drawing will be done by independent parties, probably officials of the city of New Westminster.

Terms of sale for the lots are: One-fourth down, balance in four equal payments; price of lots $550 to $850, average, price, $650.

Spirited Defence Of Negro Immigrants

(Continued from Page One.)

money but with public money of which our colored citizens pay their share of the taxes. These boys and all colored boys in Canada were treated as they deserved to be treated regardless of color, and show me one of them that ever presumed to take advantage of such treatment. The colored boys know their place far better than many of us ever learn to. Use negroes as human beings, say I, and you will find them the last people on earth to butt in or make themselves obnoxious. But attempt to import into Canada the methods and policy of the southern states and we will very likely get the same results.

There is a line of legitimate endeavor, which is being overlooked. Make mixed marriage laws as strict as you please, increase the penalty for seduction or assault between the races as much as you desire, and the negroes will be the last people on earth to raise objections, if I read the literature on the subject aright.

But Canadians do not need to go to the southern states or anywhere else for pointers on how to handle and satisfactorily handled in Canada before. In western Ontario since before the abolition of slavery we have had a large, very large, settlement of colored people, and I have yet to hear any complaint from the fellow citizens of Sol White and the other eminent colored and partially colored residents of the district between Chatham and Sarnia.

I have yet to see the statistics that show that the colored percentage of the citizens of Ontario or any other place that treats them as humans, are more criminal than a similar percentage of any other color.

Let Canada deal with the question on its merits and as far as the busy bodies, who are now pretending to try and earn the immense votes of public money that are voted them, are concerned, judging them from their published statements, my opinion privately held and publicly expressed is that they don't know what they are talking about.

There are other races and colors being welcomed by these same people, into Canada, who are just or more criminal and immoral and a far worse menace to the laboring majority of Alberta or any other country or province they invade, and boards of trade and other capitalistic appendages have no objection to offer.

I do not like to see public opinion stampeded as it is being attempted now, it is wrong in principal and a mistake from a public standpoint.

The Winner of the $50 Cash in the Name Competition

W. T. Stiner,
641 Lightheart Block, Vancouver, B. C.

REPORT OF THE SELECTION COMMITTEE:

The environments are plainly stated in the advertisement in "Pointers to Competitors." First, the three carlines of which it was said: "This last-named feature should be remembered by competitors." Another feature accentuated was the view of mountain and lake. Therefore, some such name as "Threelines Lake and Mountainview," (which, of course, is impossible on account of clumsiness and its length) would fill the bill. Many attempts have been made to arrive at a short name to include all this. More have been content to mention one feature only, e.g.:

1. TRIPLECAR.
   TRIPLETRAM.
   TRICARLINE.
   TRICAR.
   TRIPLETRACK.
2. LAKEVIEW, MOUNTAIN VIEW, ETC.

The former names occur frequently with many different endings, such as view, mount, heights, burn, etc. There are other names such as Carslake, Carslaken, Tricarlak, etc., which united the two requirements, but not with sufficient detail, i.e., not accentuating both the number of carlines (three) and the view.

The names which come nearest to the required answers are probably:

1. "TRICARLOCHEIGHTS," which suggests mountain and omits view.
2. "TRICARLINEVIEW," which omits lake.
3. "TRIPLELINEVIEW," which omits lake.

It will be seen that several of these names could be brought nearer to the requirements by the addition of a feature.

Tricarlineview might be altered to Tricarlakeview.
Tricarlocheights might be altered to Tricarlochview.
Not one of these altered names occur.

Upon the evidence of the whole of the names (over 10,000 in number) suggested, it would thus be possible to secure a name which might be satisfactory, but which has not itself been suggested. "Tricar," or "Triline," each by itself, indicates that feature without making a three-sylable word "Tricarline." So that the whole meaning could be included in four (4) syllables, i.e., adding lake and view.

It happens as a coincidence that "lin" means both line and lake, being part of the name of the English city "Lincoln" (the Lake Colony). So the name could be shortened to three syllables, as "Trilinview."

As in the science of philology vowels are not important in structure of names; this word could be spelled "Trelynview," "Trelynvue," without altering the meaning.

But this name has not been submitted, but is simply the summing up in three syllables of the whole appropriate ideas which have been suggested.

NOTE:—The "mountain view" is not included in this name, but if required, a four-syllable word would be produced by prefixing a syllable of one word which signifies a mountain, such as mont, pen or ben and don.

Montrelynview or Pentrelynview (or Ben, as in Scotland, Ben Nevis, etc.)

It has been decided, therefore, to award the $50.00 to the sender of Tricarlocheights, which suggests three out of the maximum four ideas, namely, the carlines, three (3), the lake, and the mountain, without specificially mentioning "view," which is implied in the heights.

This name is fullest in the suggestions which has induced the Directors to name the property "MONTRELYNVIEW."

HOW THIS POOR WOMAN SUFFERED

Saved By A Friend

RESTLESS AND NERVOUS AND SLEEPLESS MY NIGHTS.

There is a lesson in this letter of Miss Balcombe's that should be taken to heart by every woman who is weak and nervous—who is tortured with Headaches and Backaches—and especially if she knows she has Kidney or Bladder Troubles.

Hundreds and hundreds of women are well and strong today solely because they did just what Miss Balcombe did.

PORT DUFFERIN, N.S.

"I was troubled with Kidney Disease for several years. My back was weak. I had terrible headaches, and was so restless that I could not sleep at night. At last, a friend told me about Gin Pills. I, at once, got a box and after taking them, I felt better—after taking three boxes, I was cured. I would advise everyone suffering from Kidney Trouble, to take Gin Pills".

ETHEL BALCOMBE.

You don't even have to buy Gin Pills to try them. We have such faith in their wonderful curative properties that we will send you a trial sample, absolutely free. Simply write us that you have Kidney Trouble, Bladder Disease, Pain in the Back, Swollen Joints, Neuralgia or Headaches, Rheumatism or Lumbago—and we will mail you a free sample of Gin Pills. You can thus see for yourself just what they will do. Then buy the regular size boxes at your dealer's and continue the treatment until Gin Pills cure you. 50c. a box—6 for $2.50—and remember this—every box of Gin Pills is sold on a positive guarantee of money back if they fail to cure. Buy six boxes at your dealer's and take them according to the directions on enclosed wrapper. If after taking the six boxes, you feel that Gin Pills have not helped you in any way, take the empty boxes to your dealer, and your money will be returned without question. We rely on your sense of fair play and will take your word for it. National Drug and Chemical Co. Dept. B.C. Toronto. 80

Fraser mills last month got close to the record mark, when 10,000,000 feet of lumber were cut and 3000 feet in addition shipped from the wharf there. The former represented an increase of 250,000 over March. Ere the month closes the English barque Holt Hill will leave out with no less than 2,000,000 feet, this to fulfil an order for South Africa. A large number of ships are expected up the river in the course of the next few days to load for foreign ports, Australia amongst this number. Trainloads will carry to the prairie provinces much lumber in the present month demands from this direction, having exceeded previous heavy consignments.

ALICK LAUDER.

When Alick Lauder, the famous comedian and his company come to Westminster on May 13, there is no question but that they will be greeted by one of the largest audiences that ever assembled in the Opera house. Alick Lauder is not working on the fame of his world-renowned brother Harry, for in the old country, the people are quite as enthusiastic over the young brother as they are over Harry. Alick has been singing in all the principal music halls in Europe, and has met with ovations on each and every appearance. The only disadvantage Alick has compared with Harry, is the fact that the latter has the reputation. When this celebrated comedian comes to Westminster he will no doubt be given a right royal welcome by his fellow countrymen, as well as the people of all nationalities. The date is May 13.
