BOARD DISCUSSES PRIVATE MATTERS

Subjects of Interest in Board of Trade Not For Publication.

There were some fairly interesting matters at the board of trade meeting last night, but although the press was present in large numbers they were requested not to publish lots of the things discussed. In fact the board of trade was an extremely busy body from eight o'clock until eleven, but the subjects under discussion, most relating to matters of navigation, had not reached that stage when they would make wholesome reading for the people and the press was muzzled.

Steamer Matters Discussed.

Captain Worsnop was present for the first time in many months and he stirred things up considerably. Matters relating to the boats of his company, the Canadian-Mexican Pacific line, were the chief topic discussed, but as nothing definite was decided nothing definite shall appear in the press.

It was decided to appoint E. Goulet and J. R. Duncan auditors for the year and they will make their report at the next meeting of the board.

The meeting was notable for the fact that it was not so largely attended as almost every meeting held during the past year, but perhaps the unfavorable weather was accountable for the deficiency of members.

Communications.

Frank I. Clark wrote stating that Hon. J. H. Turner, British Columbia's agent in London, had requested that he be supplied with information concerning bonds or debentures for sale in British Columbia. The letter was referred to the committee on trade and commerce.

The Vancouver board of trade asked the Westminster board to endorse the action taken regarding the tariff of sleeping car rates on the C. P. R. The proposed tariff is eight mills per mile east of Calgary and ten mills per mile west of Calgary. The Vancouver board protested against the discrimination and wrote to the board of railway commissioners about it. Without any particular discussion the board endorsed Vancouver's action.

F. Ellworthy, secretary of the Victoria board of trade, wrote advising the board that they had discussed in the capital the tax on merchants' stocks. It was also suggested that the exemptions on the income tax be raised. The letter asked for a representative from New Westminster to appear with delegates from Victoria before the government to ask for the changes suggested. The communication was referred to the legislation committee.

The resignation of Herbert Gilley as a member of the board was received and accepted.

Reports on Eastern Trip.

A. E. White, recently a delegate to Ottawa, reported at length upon the progress and probable outcome of this trip. His report was very optimistic and paid a tribute to the courtesy with which the delegation had been received.

George Kennedy spoke of his trip to Ottawa, endorsing Mr. White's remarks. He stated that there was every prospect of a reasonable appropriation for the improvement of the Fraser.

A suggestion made by P. Peebles that a man be stationed at Ottawa to urge the Fraser river expropriation until it was passed, was left in the hands of the navigation committee to report.

GARDENERS PROTEST.

Want No Reciprocity with United States in Garden Truck.

Ottawa, Jan. 19.—Sir Richard Cartwright heard a delegation yesterday representing the market gardener and small fruit growers of Quebec, protesting against any reciprocity treaty with the United States which would include such products. They represented that several millions of dollars and the climatic differences make it impossible for the Canadian gardeners to compete with those of the United States. A number of Ontario gardeners joined the delegation, but the Ontario men as a whole have not yet expressed themselves.

Rebels' Victory Confirmed.

Chihuahua, Mexico, via El Paso, Texas, Jan. 19.—Confirmation comes through official sources of a fight Sunday at Arteaga, where a band of rebels had been in charge for a month. Led by Rufino and Alberto Loya, they had taken possession of a small town. Federal troops went out from Urique and drove them out to the mountains. There is no report of any killed or wounded.

Crew Is Saved.

Victoria, Jan. 19.—According to a wireless dispatch received here this evening the five men composing the crew of the waterlogged schooner Lakme were rescued by the steam schooner Nan Smith. The Lakme will be brought to this port.

IMMENSE SUM APPLIED TO BUILDING OF WARSHIPS

World's Expenditure on Naval Armaments Now Amounts to $700,000,000 Britain Plans More Dreadnaughts.

London, Jan. 19.—Figures made public here today by the British naval authorities show that despite the establishment of Andrew Carnegie's $10,000,000 peace fund and the activities of The Hague tribunal, the year 1911 will break all records for the launching of battleships. From February 1 until December 31 a new Dreadnaught will take the water in some part of the globe every nine days. Thirty-six will be launched in all, or only two less the number already afloat as the result of five years' launches.

Of these sea monsters Great Britain will launch eleven; Germany, seven; Russia and the United States, four each. France, Chile and Japan will each have two to take the water, and Italy, Austria, Brazil and Spain, will each launch one.

The total value of the battleships and cruisers now on the ways of the world's shipyards are played at the enormous sum of $700,000,000.

Chinese Eggs Condemned.

Montreal, Jan. 20.—A shipment of canned eggs from China, valued at $75,000, was seized and ordered destroyed by the health department today. The eggs were declared unfit for human food.

JARDINE QUITS LIBERAL PARTY

Member of Esquimalt Now Declared Supporter of Conservative Administration.

Victoria, Jan. 19.—In the House today John Jardine, Liberal member for Esquimalt, exploded a bomb by expressing unqualified support to the government policy, several times attacking his companion, Brewster, from Alberni.

He said that he had had an assurance that the Victoria-Barkley Sound extension of the Canadian Northern would be started within thirty days and the members of the legislature would be invited to see the premier turn the first sod.

He stated that after voting for the bill last session he had offered to resign from the Liberal executive at Victoria if his action had not been taken in the interests of the country, but no one had disapproved. The advent of the railway would stimulate business on Vancouver Island.

The premier introduced an amendment to the coal mines act, making many changes tending towards the greater safety of miners.

SIX FEET OF SNOW IN CASCADE MOUNTAINS

Seattle, Jan. 19.—During the thirty-six hours ending at three o'clock this afternoon six feet of snow fell in the Cascade mountains. Snowslides block all traffic, but with the aid of snowplows the railways are endeavoring to keep their passenger trains running.

PROVINCE MAY COLLECT REVENUE FROM RAILWAYS

Court of Appeal Decides Lands Owned by B. C. Southern Road are Subject to Taxation.

Victoria, Jan. 19.—The court of appeal has upheld the decision of R. S. Lennie, judge of the court of revision at Nelson, to the effect that the government of British Columbia had power to tax the lands of the British Columbia Southern railway. The decision of the judge of the court of revision was opposed by the C. P. R., but the government held that it had the right to tax.

The decision of the court of appeals means that the government has the right to collect taxes for four years back, since the land became taxable.

The estimated amount of the taxes to be paid into the provincial treasury is $75,000 per year, or $300,000 altogether.

RAINBOW GOING NORTH.

Canadian Cruiser Will Visit Alberni and Northern B. C.

Victoria, Jan. 19.—The cruiser Rainbow leaves Esquimalt tomorrow, bound for Alberni and Northern British Columbia. She will call at Prince Rupert and on her return trip will call at Nanaimo and Vancouver, where it is hoped that some recruits will have been found.

HOLD-UP MAN GETS LONG TERM IN PEN

Judge McInnes Sentences "Hands Up" Artist to Fifteen Years—Seven For Pal

Vancouver, Jan. 20.—Richard Gray, alias Harry Roberts, who was found guilty of attempting to hold-up F. R. Cornwall in this city two weeks ago, was yesterday afternoon sentenced to fifteen years in the penitentiary at Westminster, and in addition to receive twenty lashes. His pal, G. Scott, who was found guilty of having stolen goods in his possession, was sentenced to seven years' imprisonment.

Judge W. W. B. McInnes, in passing sentence, commented upon the large number of holdups in Vancouver recently. He hoped the sentence inflicted on the convicted men would have a deterrent effect on others who might be disposed to attempt this method of making the world pay them a living.

The prisoners took their sentence without emotion.

WOMEN ASK FOR VOTES.

Deputation Waits on City Clerk at Ottawa—Petition Rejected.

Ottawa, Jan. 19.—A deputation from the Ottawa Equal Suffrage association waited on the city clerk and the assessment commissioner yesterday asking why the names of married women were not included in the voters' lists for public school trustees. They claim that married women, separate as to property and paying rates to public schools, should be allowed the ballot.

The clerk informed the ladies that in his opinion a husband's vote was sufficient and as far as he was concerned there would be no change. The ladies departed saying they would secure their rights through application to the law courts.

Confessed Embezzlement.

Los Angeles, Jan. 19.—Federal authorities today are waiting word from Alabama regarding the disposition of M. Keating, thirty-five years of age, who, when arrested for intoxication, confessed he had embezzled $2000 while acting as deputy United States clerk of courts in Alabama.

GRIM REAPER CALLS AGED PIONEER TO REST

Joseph Wintemute, Resident of Westminster for Forty-five Years, Answers Last Summons.

Another of the fast diminishing band of Cariboo miners who sought the elusive gold dust in the early civilized days of this province passed away yesterday in the person of Joseph Smith Wintemute, who died at the residence of his son Robert, 410 St. George street. Deceased was nearly eighty years of age, and had been a resident of this city since 1865. For many years he followed the trade of a carpenter, but of late the infirmities of age had prevented him from taking an active part in anything.

The late Mr. Wintemute was born in Port Stanley, Elgin county, Ont., and first came to British Columbia in 1862, engaging in mining in the Cariboo for a couple of years, after which he returned to Ontario, remaining there until 1865, when he again came west, settling in Westminster, where he made his home for the remainder of his days.

Deceased was the father of four sons, John, (who was killed by accident in the Wintemute factory about twelve years ago), Robert and Alfred of this city, and George, of Seattle. A brother, Benjamin, resident in Vancouver. There are also a number of grand children. Mrs. Wintemute died just about two years ago.

The funeral will take place on Saturday afternoon, interment being in the Odd Fellows cemetery. Rev. C. W. Brown will officiate.

WARM GERMAN SOCKS AS CAUSE OF ARREST

Vancouver, Wash., Jan. 19.—For sitting in the open door of a box car to cool his overheated feet in the local yards, H. L. Carter, a farmer, was arrested and had to spend last night in jail. He was released this morning by Judge Bigham, when he proved he was a prosperous farmer at Toledo, and had a wife and ten children to whom he was returning when arrested.

Mr. Carter was waiting for the train in the Union depot, and was wearing a pair of rubbers with German socks. Becoming too warm he went outside and finding an empty box car, he sat in the door and swung his feet in the air to cool.

Patrolman Troch happened along a few minutes later, and thinking that Mr. Carter was a vagrant, dragged him to the police station.

JAPAN COULD EASILY SEIZE PACIFIC COAST

Representative Humphrey Creates Sensation by Comments in Detroit.

Detroit, Jan. 19.—Taking it as a fact that the nations of the earth knew that the condition of the country was utterly unprepared for war, Representative W. E. Humphrey, of Washington, declared at a banquet here tonight that Japan could seize Seattle, Tacoma, Portland, the Bremerton navy yard, and have an empire on which to live before the United States could rush 75,000 men to the Pacific ocean.

His remarks created a sensation and were commented on by the other speakers.

FRUIT PROSECUTIONS.

Growers Who Disregard Regulations Fined by Magistrate.

At the Victoria police court on Tuesday, January 17, before Magistrate Jay, Edward Plowright, fruit grower, Strawberry Vale, and Fred Saul, fruit grower, city, were on information laid by Dominion Inspector D. M. Robertson, each fined $10 and costs, or in default, one month's imprisonment for violation of the inspection and sales act, in not having their boxes of fruit properly marked in a plain and indelible manner, in letters not less than a half inch in length, with their full names and addresses, the variety of the fruit, and the grade.

W. H. Langley appeared for the prosecution.

Copies of the act explaining how the boxes must be marked and defining the various grades, can be had on application from D. M. Robertson, 237 Sixth street, New Westminster.

CAME, THEN WENT.

President of Defunct Farmers' Bank Made Short Visit to Canada.

Sault Ste. Marie, Mich., Jan. 19.—It has just developed that Beattie Nesbitt, president of the defunct Farmers' bank, wanted for appropriating funds and making false returns to the government, arrived here on Sunday and left for Chicago on Monday.

He seemed to be well supplied with money. He registered at the Park hotel as W. Neshil.

HAZEL KIRKE WILLING TO START ANOTHER MATCH

Lady Who Faced the Ball in National-Westminster Lacrosse Game Last Year Offers to Repeat.

New Westminster has a peculiar interest in the fortunes of Miss Hazel Kirke, prima donna of the "Stubborn Cinderella" company, which plays here on Saturday evening, for this demure lady broke into something akin to "the fierce light that beats upon a throne" when she took part in a championship lacrosse match at Queens park on September 24, being the first woman to figure in a Minto Cup match.

Miss Kirke enjoyed the experience and is willing to again render the Westminster team a like service. With the same ingenuousness which she displays in the part of Lady Leslie on the stage, Miss Kirke, in a letter to the Daily News editor, asks to be permitted to start the lacrosse match on Saturday, 'if the boys don't mind.' The boys are willing, but hard hearted Manager C. A. Welsh has refused to permit them to start playing so early in the season, even to oblige Miss Kirke. Mr. Welsh is just horrid, so there.

An enlarged photograph of the Westminster lacrosse team and a few friends has been travelling in advance of the "Stubborn Cinderella" company ever since the show left this city. The picture will be placed on show in F. J. MacKenzie's window today. Manager McCaig has decided to give two of the best seats in the house to the person who first hands him a correct list of the men and boys in the picture, named in the order they appear. The naming of the players is easy enough, but there are a number of the "officials" who always get in line when a photograph is taken, and these will take some identifying.

This "stunt" is to be repeated in all the Canadian towns where the "Stubborn Cinderella" is to appear. Westminster will not be the loser by this advertising dodge.

Ship Battered.

Victoria, Jan. 19.—The American ship Star of Zealand, from San Francisco to Nanaimo to take on a load of coal, passed into the straits this evening with her fore and main royal masts gone and a thirty-eight mile wind blowing.

Pioneer of Manitoba Dead.

Winnipeg, Jan. 19.—Andrew Mowat born in Moose Factory on Hudson bay ninety-one years ago, died here today. He was one of the pioneer settlers of Selkirk.

LADY TEACHER TO TAKE CHARGE OF NIGHT SCHOOLS

Only One Class Will Be Conducted, Three Days a Week—Principals Submit Scale of Salaries.

Trustee L. Thornber took the chair last night at the school board meeting in the absence of Chairman T. J. Trapp, who is confined to bed with an attack of lumbago.

The night school question was the subject of most of the discussion that took place. The decision come to was that there should be but one class, on Mondays, Wednesdays and Fridays, of each week, two hours each night, and that in the meantime only one teacher should be appointed. The matter of subjects to be taught was left to the teacher and W. C. Coatham, who has been appointed supervisor of night schools.

Out of six applicants, Miss Elizabeth Noonan was appointed night school teacher at a salary of $2.50 per night. Miss Noonan is a teacher in the public schools.

Two applications for increases of salary, and a letter from the four principals submitting a scale of salaries, were laid on the table.

A letter from Dr. Fagan, of the public health department, instructing the board to appoint a medical inspector was referred to the committee on hygiene.

The board then went into a committee of the whole to consider estimates.

JAPANESE SUFFER, SAYS MISSIONARY

Writes to Son of Disasters and Burdens Imposed on People.

Seattle, Jan. 19.—Ninety million dollars will be required to repair the damages that were incurred by recent floods in Japan and to make such changes in the rivers as will secure the country against a repetition of the disaster. This means an almost unendurable addition to the taxes that are being levied in Japan already, according to Rev. Henry Loomis, missionary in Japan since 1872, in a communication to his son, Professor H. L. Loomis, chief of the United States food and drug laboratory, of this city. Dr. Loomis deplores the useless waste of money for fortifying the Panama canal against Japan, and quotes in an article accompanying the letter from various high authorities. Matsuda, a prominent statesman, says:

"The people are groaning under the heavy burden of taxation and the slightest addition will be enough to crush them."

No less an authority than the premier and minister of finance, Marquis Katsura, states that it is the intention of Japan to provide war vessels sufficient only to replace those becoming useless by age, and the sum of $40,000,000 is provided for this purpose, covering the next six years. The increase in taxation, he declares, has already affected the purchasing power of the people and this has affected the price of the Japanese bonds on the markets.

NATIVE SONS ARRANGE FOR BIG ANNUAL BALL

Post No. 4 Will Try to Better Last Year's Social Function—Officers for 1911 Elected.

Arrangements for the Native Sons dance to be held in the K. of P. skating rink on Monday, January 30, are now well in hand, and everything points to the event being even a greater success than last year. The different committees reported at the regular monthly meeting of Post No. 4 yesterday evening that everything was progressing satisfactorily. The decoration committee plans decking out the ball room in a novel and effective manner, using evergreens, flags and animal heads in the scheme. Totem poles and other specimens of Indian craftsmanship will also be included.

The officers for 1911 were elected as follows: Chief factor, Alfred H. Johnston; past chief factor, M. J. Phillips; first vice factor, J. P. H. Bole; second vice-factor, James I Keary; financial secretary, L. G. Sharpe; recording secretary, A. L Johnson; inside sentinel, A. F. Cotton, jr.; outside sentinel, T. Kelly; honorary treasurer, J. J. Johnston; auditor, J. I. Keary; pianist, Frank Major; guide, W. Warwick; finance committee, A. W. Gray, James Feeney and Irving Wintemute.

Ten applications for membership were received, and A. S. McColl and O. S. Peele were initiated.

A supper followed the meeting, the party breaking up about eleven o'clock.

McLEAN MAY BE HELD BY POLICE IN TACOMA

Man Wanted Here For Robbery at Hospital Believed In Clutches of Law.

Chief Bradshaw yesterday sent a police officer to Tacoma and when he returns it will be known whether the man McLean, who is accused of stealing $225 from P. Devoy in St. Mary's hospital a month or two ago, has been located.

The other day the chief received word that a man resembling McLean had been seen around Tacoma and he wired the police there, who arrested the suspect.

McLean did some quick work after leaving here. He stole the money while employed as an orderly at the hospital. He went to Vancouver and got married to a Westminster woman who went there to meet him.

In Seattle, after spending all his wife's money, he deserted her. In spite of a large reward offered by Mrs McLean no trace of the man was found and it was thought that he had got clear away.

The Tacoma police claim that immediately after deserting his wife in Seattle he left for Ireland on a visit to his old home. He made a nice visit there and then returned to the Pacific coast, though why has yet to be explained.

Chief Bradshaw is reasonably sure that the arrested man is the one he wants. The case here aroused considerable interest and was the cause of an investigation by the city council into the conduct of the police department. It was rumored that precautions had not been taken to arrest the man at once after the crime was supposed to be committed. The investigation resulted in the complete exoneration of the police.

RECOVERED HER VOICE.

Ontario Girl Lost It Through Shock—Regained It Same Way.

Chatham, Ont., Jan. 19.—Miss Anna Parsons, of McKay's Corners, who is attending school at Ridgetown, fell at the skating rink a couple of weeks ago and was rendered unconscious. She remained in that condition for some time, and afterwards suffered from convulsions. When she recovered from her injuries it was found that she had lost her voice.

A few days ago, while walking to a neighbor's house she slipped and fell again. The shock of the second fall caused her voice to return, and she is now fully recovered from her temporary affliction.

Engineers Strike in Mexico.

Mexico City, Jan. 19.—Traffic was suspended today on 1000 miles of the Mexican line and branches of the Southern Pacific railway in Mexico as a result of the strike of American and native engineers, which began last night.

NEVA'S WATERS BLESSED.

Czar Witnessed Ceremony for First Time in Six Years.

St. Petersburg, Jan. 19.—Emperor Nicholas was present at the ceremony of blessing the waters of the Neva today, for the first time since that eventful day in January, 1905, when the whole Romanoff family was threatened with death from a rain of grape shot which according to official report of the affair, had been arranged by anarchists who put a charge in one of the guns of the Seventeenth battery of the Fire Horse artillery.

Today's ceremony passed off with no unpleasant incidents. A feeling of relief was noticeable in the crowd when his majesty left the scene.

Prince Rupert Aldermen.

Prince Rupert, Jan. 19.—The count of ballots in the aldermanic election shows that the following will sit on the city council under the leadership of Mayor William Manson: Ward one, V. W. Smith, G. W. Kerr, D. W. Morrisey; ward two, John F. Kirkpatrick, John Hilditch, S. M. Newton, W. B. Clayton and I. D. Pattullo. H. O. Nelson was elected school trustee.

TWO GIRL PRISONERS SET FIRE TO JAIL

Chicago, Jan. 19.—One death resulted today from fire started last night by two girls imprisoned in the Lemont, Ill., jail, who attempted to commit suicide. Miss Stelle Maxwell, 22 years old, the elder, died today, in the hospital in Joliet. The other girl, Freda Kampka, who formerly was a singer in small theatres in Joliet where both girls lived, is not expected to live through the day. The girls had been arrested on charges of stealing furs at Lemont.

Paul Morton Dead.

New York, Jan. 19.—Paul Morton, president of the Equitable Life Assurance company, and secretary of the navy under the Roosevelt administration, died of cerebral hemorrhage in the Hotel Seymour tonight. He was fifty-four years old.

A STUBBORN CINDERELLA

"A Stubborn Cinderella," that highly successful musical comedy of real quality and merit by the well-known trio, Hough, Adams and Howard, which is making an extended tour of the country this season under the direction of Charles A. Goettler, will be the attraction at the Westminster Opera house on Saturday evening.

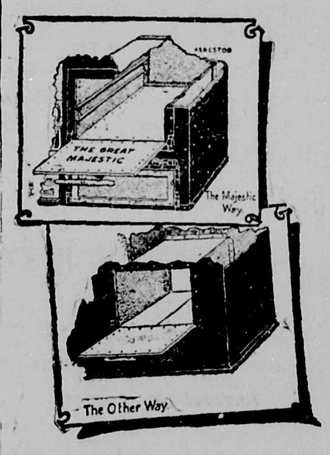
This pretty little play, as it may well be termed, is said to contain more catchy musical numbers than any other entertainment of its kind that has been produced in recent years, and is without a doubt the gem of the long list of successful comedies of that now famous Chicago university pair.

Of the twenty musical numbers in it each one is prettier and catchier than the other, and it is positively stated that from the time he first one is sung until the last one—"When You First Kiss the Last Girl You Love"—is finished, there is not a single moment that the ear is not delighted. "Love Me Just Because," "What's the Use," "Adois, Senorita," "Don't Be Anybody's Moon But Mine," "Don't Be Cross With Me," are other tuneful numbers well calculated to please the most musical hearers.

In the third act is introduced as pretty a picture as was ever presented on any stage, "The Orange Fete," at that famous California retreat, Coronado Beach, where the authors were sojourning when writing this play. The scenic effect is an exact reproduction of the beautiful hostelry there, and the various dances, minuets, marches, etc., executed during the fete by a chorus of as pretty and shapely girls as it was possible for the management to collect after diligent search in the best avenues for desirable chorus girls—it is safe to say that this number alone is more than worth the price of admittance. The production is an exceedingly elaborate one, and it will undoubtedly score a big success here.

For sale on Third avenue, premises 192x297, with good ten-room house; grounds all in lawn and orchard; right on car line. Terms can be arranged to suit. White, Shiles & Co. **

The Oven Of a Range



THAT a perfectly constructed, air-tight oven will bake better with half the fuel than a loosely constructed oven, is a fact beyond question. The Majestic oven is made of heavier material than any other, and is riveted (not bolted) to a malleable L or angle iron frame, making it absolutely air-tight. The oven in an ordinary stove or range is bolted or riveted to the range body, without bracing and without frames, allowing a knife blade to pass through corners and sides. It is natural that with an oven constructed in this manner, it requires twice the fuel, and not near as good results as can be obtained in any oven of a Majestic Range. The Majestic oven stays that way, too.

Note the illustrations.

SURGERY SAVES GREAT CRIMINAL

Edward E. Grimwell, Convict, is Changed From Criminal to Honest Man.

Albany, N.Y., Jan. 19.—Transformed by an operation on his brain from one of the most expert and remarkable criminals in the country to a man of kindest and most upright impulses—his nature apparently changed—Edward E. Grimmell, thirty-four years old, a convict in Clinton prison, at Dannemora, has been pardoned and in a few days will be restored to his parents in Buffalo, whose fortunes and lives were wrecked by his astonishing and unexplainable series of criminal deeds.

His case has for more than a year, attracted the attention of alienists, neurologists and surgeons. They at last came to the conclusion that his persistent infraction of the law were not entirely, due to an injury to his brain following a small fracture of the skull inflicted when he was a boy of fourteen.

An operation performed in March, 1909, by Dr. De Witt G. Wilcox, of Boston university, one time president of the Homeopathic Medical society of New York state, brought about an almost complete change in the convict, who had besought the surgeons in Clinton prison to operate on him in the hope—and to him it was only the vaguest hope, but he preferred death to a continued career of crime such as he felt he was doomed to—that he might become a normal man and of some comfort and use to his impoverished and enfeebled parents.

The Surgeon's Belief.

Of most perverse and criminal nature prior to the operation, he has since become, to all appearances, a moral man of the highest impulses, and the surgeon who operated on him, and the physicians who have observed his case closely, express the belief that the injury to his skull was primarily responsible for his eccentricities. They have in their own minds at least established the belief that cranial injuries become potent factors in developing, if not producing, criminal tendencies.

Details of the amazing case were brought to the attention of Judge Charles B. Wheeler, of Buffalo, who, in 1908, sentenced Grimmell to prison on two forgery charges for ten years and nine months, and he wrote to Horace White, then lieutenant governor, by way of aiding the appeal that had been made to get Grimmell out of prison.

Letters from teachers who, when Grimmell was a small boy, noted the difference in his deportment before and after his head injury, wrote to the governor, as did also physicians in Dannemora, who had made a study of his case. After giving careful consideration to the case, Mr. White decided to commute the sentence of the young man and he will be liberated within a few days.

The case is by far the most interesting that has ever come before the pardon clerk at the capitol and has already attracted the attention of scientists, criminologists and surgeons all over the country. Treatises have been written upon it for circulation among specialists, and copies of them have been filed at the pardon office.

Felt Strange Influence.

One of the interesting phases of the case is that Grimmell felt during his years of crime that some strange influence held sway over him and prompted him to do things which he knew he should not. After he was sent to prison for the fourth time he began to study criminology and concluded that possibly the injury to his skull was responsible for a his escapades. He first interested Dr. Wilcox in his case and begged him to operate on him.

Soon after his recovery he said to Dr. J. B. Ransom, physician at Clinton prison, who had charge of the case for Dr. Wilcox: "I see things differently and notice more, and think I have found myself. I can concentrate my mind more easily and my general mental condition is better. I have noticed an increase of sensitiveness to my prison environment, consequently I am at times a little depressed over it.

"Another feature is that I have lost memory of events occurring previous to the operation in quite a degree, but my memory is good regarding other events taking place since the operation. My mind is somewhat vague as to a number of things which occurred previous to the operation."

In his letter to Mr. White, Judge Wheeler, of Buffalo, wrote: "Grimmell at the time of his trial for forgery did not deny any of the facts, but his counsel contended that his criminal impulses were the result of injuries to the head received when a boy. It appeared that in boyhood Grimmell had received a blow on the head from a picket, which fractured the skull and left a depression in the skull, plainly discernible. Grimmell declared that he could not resist impulses to commit crimes and attributed his criminal propensities to his injury.

"He protested his desire to lead a proper life and a willingness to submit to an operation to remove the depression in his skull in the hope of beneficial results.

"At that time I did not place credence in the claim made in his behalf. I considered him a clever, professional crook, dangerous to his community, and for those reasons I imposed sentence upon him. I am advised that since entering prison he has submitted to an operation. The facts, I understand, are all before you. I can only say that Grimmell comes from a most respectable family and his criminal career has caused them great distress and trie.

SAYS INDUSTRY MUST SLOW UP

Going Ahead Too Fast, American Industries Claims.

New York, Jan. 18.—"Industries must slow up if unsatisfactory conditions are to be avoided in 1911," says American Industries in its January issue. "It is apparent that the country will experience a long period of quiescent trade, constant apprehension and possibly hard times if our business men do not face the situation and inaugurate a sane, conservative administration of their business affairs. Capital must be invested conservatively. Speculation on the possible future demand must accept its share in the slowing up of the nation's commerce.

"We require the immediate application of two fundamental principles, or reforms—strict conservatism in industrial output, and rigid economy in business administration. The prime evil is our tendency to go ahead too fast. The slowing up process must begin. Manufactures in particular must quickly scrutinize trade possibilities of the next twelve months with extreme conservatism. Overproduction has undoubtedly been one of the most important factors in creating present conditions and overproduction must cease. We must discount the future.

"It has been estimated that not three per cent of the manufacturing plants utilize scientific systems in their administrations, but are content to work by the old rule 'o' thumb' methods. It has been demonstrated absolutely that application of scientific principles results in doubling efficiency and in a saving in cost of production of from 20 to 25 per cent. Workmen, under the system, earn a bonus of from 24 to 30 per cent over the prevailing wage.

"The reforms are fundamental and not superficial. The relief which will accrue from the direct and immediate application to our industries of strict conservatism of output and rigid economy in business administration will be found necessary in the prevention of serious business depression in 1911."

PHOTOS OF CARD SHARPERS.

Gallery of Them on the Steamer Lusitania.

New York, Jan. 19.—For years the steamship companies, acting in cooperation with the American, British and continental police have striven unsuccessfully to protect their cabin passengers from well dressed card sharps.

At last they have hit on a plan from which they hope much. They believe that, if widely carried into effect, it will put an end to the profits of professional gamblers. Below the customary warning to passengers there are posted in the smoking room of the Lusitania on her present trip, a number of portraits of well known sharpers who travel back and forth with regularity. The ships' officers think the men will find partners rather scarce on this trip.

FRESH GAME BIRDS FOR THE PROVINCE

Provincial Game Warden is Satisfied With Results of Past Year's Work.

Victoria, Jan. 19.—Provincial Game Warden A. Bryan Williams says his department is continuing its policy of introducing fresh blood for the pheasants, partridge and prairie chicken of the province. Within the past two years about 1500 pheasants have been put out in the lower mainland and Vancouver island and the good results in the improvement of the quality of the birds have already been seen. For some time the British Columbia pheasants had been deteriorating in size and quality and the department found this plan of improving the breed an excellent one. It is likely that more pheasants will be brought in this year, although the object aimed at has been practically accomplished.

Some partridge were turned out at Agassiz last year and are doing well. Fifty brace have now been ordered for distribution among the native partridge this season. The partridge in the province are increasing rapidly and it is for the purpose of having the quality of the stock kept up to the quantity that the game department is introducing new birds.

Prairie chicken have also been ordered from Saskatchewan to breed with the chicken now in British Columbia, which are spreading rapidly, especially in the Okanagan valley.

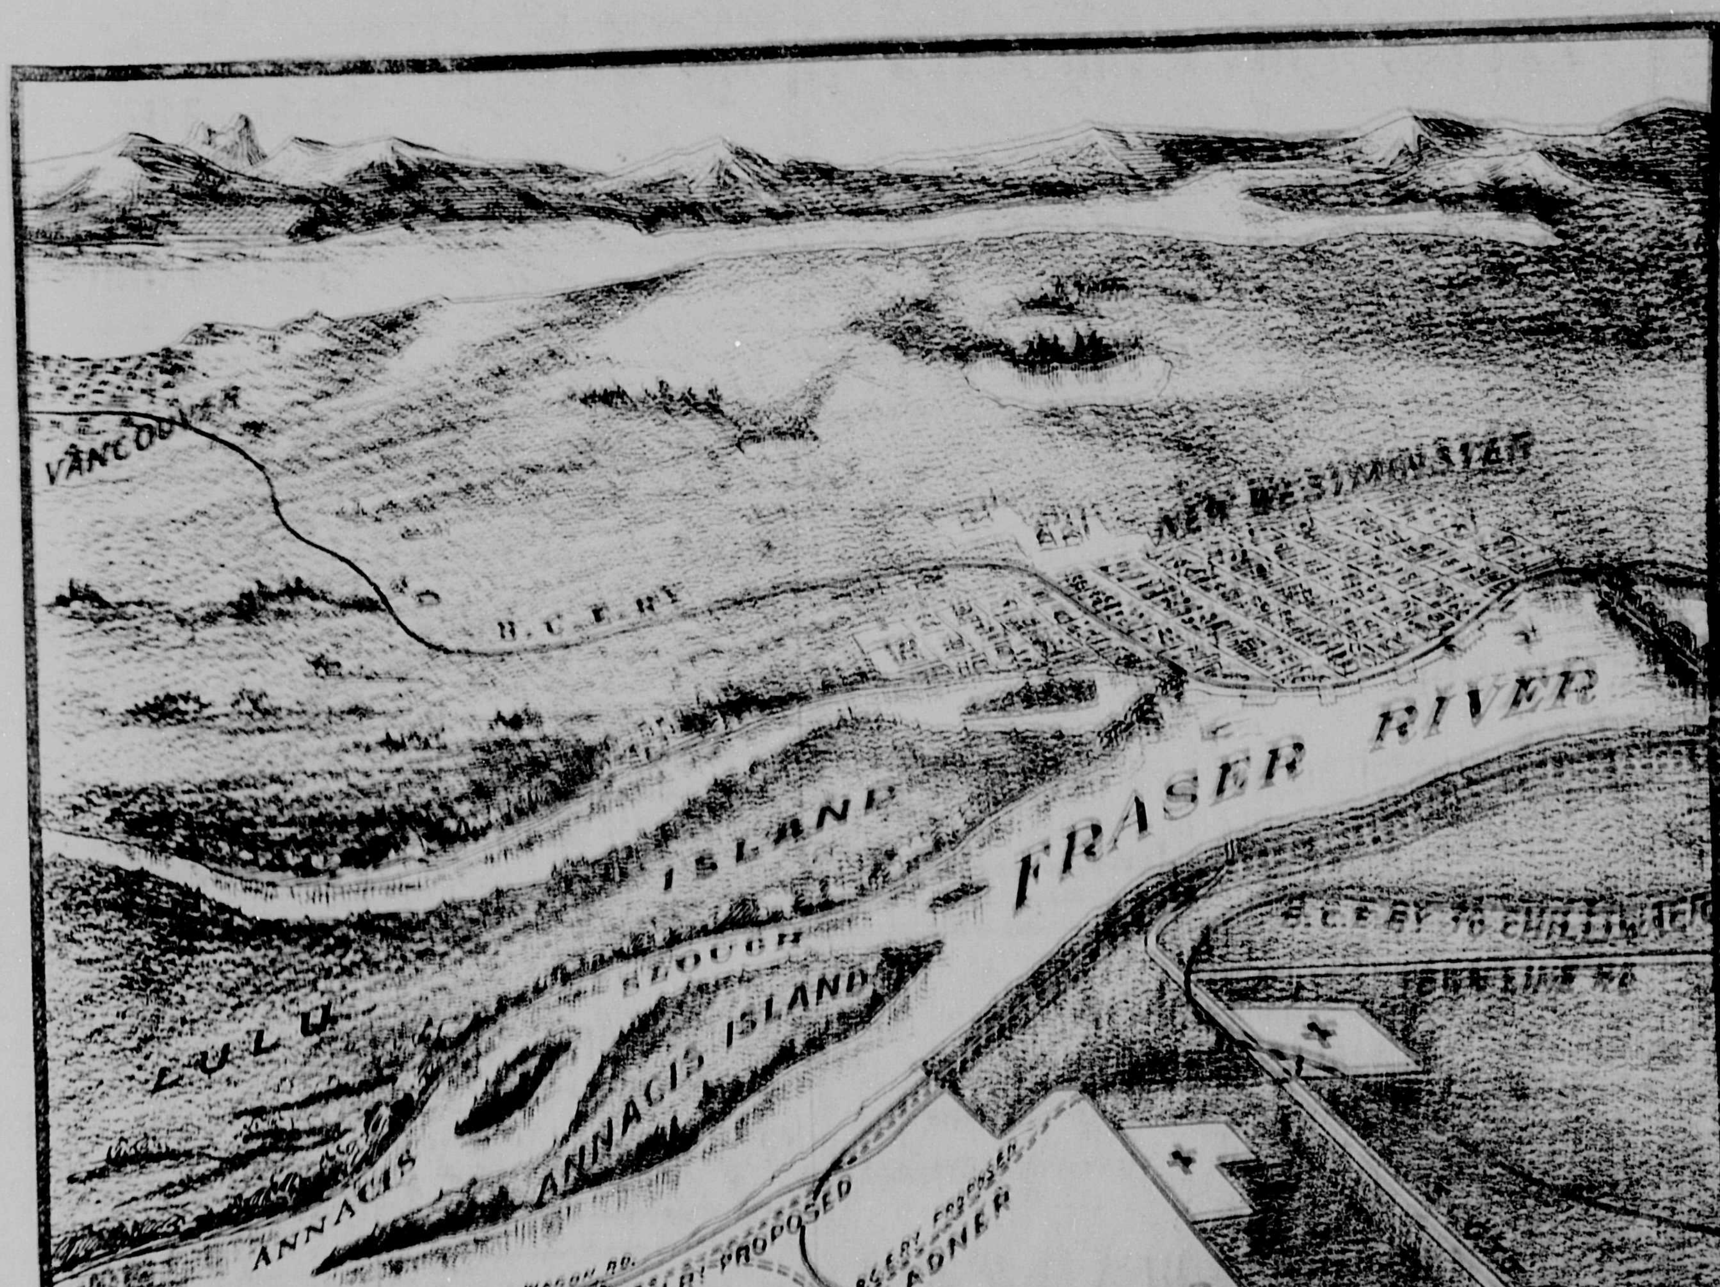
On account of the fact that grouse are almost impossible to secure no efforts are being made to bring any of them in, either willow or blue variety which are the most common here. The British Columbia grouse in any case have not shown any signs yet of material deterioration in quality.

Mr. Williams says that if the heavy snowfall in the mountains continues the situation with respect to the feathered game as well as the deer and wapiti, will become serious. A heavy snowfall would mean a scarcity of food and the deer especially would be driven down into the lower ranges, where they were more likely to become the prey of other animals and less likely to obtain food to their liking.

We have the cheapest lots in the city for sale on Fifth and Sixth streets, all cleared, ready to build; come in and see us.
White, Shiles & Co.

Orange ballet scene in "A Stubborn Cinderella" at the Opera House on Saturday evening.

STEEL CITY



Birdseye view of site on Fraser purchased by us for Western Steel Corporation's great Canadian steel works and townsite, and approved by G. M. Gibbs, fiscal agent, and R. P. McLennan, director; also confirmed by wire by J. A. Moore, President Western Steel Corporation.

General Manager Price has informed press work will begin April 1st next, after which townsite will be put on market.

As result of recent deputation to Ottawa, Dominion Government will shortly make extensive harbor improvements on Fraser, adding vastly to the value of these lands.

A limited amount of choice waterfrontage and other property adjacent to Western Steel Works and Townsite is now for sale.

Last chance to get in on the ground floor on these splendid acreage and waterfrontage propositions before the big rise, when Steel City townsite is put on the market.

For location of these choice snaps adjoining townsite, see properties marked with cross (X) in accompanying birdseye view.

For full particulars, terms, etc., apply to

GOVERNMENT LAND POLICY.

Though Premier McBride is a clever skirmisher in debate, and is endowed with the capacity and capability for placing an enticing gloss upon the most unpromising material, we scarcely think he succeeded in proving the honesty of his government in regard to the question of land settlement in British Columbia, in his reply to Mr. Brewster's criticisms, upon the debate on the address. The member for Alberni charged the government with having allocated large tracts of valuable land to speculators at what may be termed bargain prices, these prices varying from one to five dollars per acre; then, without doing anything more than perhaps subdividing the lands, these men have sold them to the settler at anything from ten to fifty dollars per acre. Often, however, the original purchasers sell to another person or syndicate, by whom the price is still further increased.

Mr. McBride strongly objects to the use of the word speculator as a definition for the men of wealth "who may come here for the purpose of securing crown lands?" He admits, however, that within the past seven years nearly one million acres of land in this province have been sold to such men of wealth, but says there has been no favoritism in this matter and rests his defence upon the plea that these purchasers (who are not to be dubbed speculators) have been required to obey the terms of the law and pay their quota of taxes. Surely nothing less could be expected. Even a man of wealth who purchases land in large quantities from the government upon favorable terms, has to bear his statutory responsibilities. The government is entitled to no praise for having seen that they do so. But if these same lands had been allocated to the genuine settler by an active and honest policy of land settlement there would have still have been the income therefrom in the way of taxes.

That Mr. Brewster and those politically opposed to the government are the only ones who charge this serious offence against it, as Premier McBride suggests, is of course beside the facts. The strong gathering of the government's supporters at the Nelson convention last fall passed a resolution strongly urging the government to adopt a strenuous land policy, whilst similar resolutions have been passed by the Vancouver and many other boards of trade throughout the province. In fact it is generally and widely known that the McBride administration has not dealt fairly and squarely with the people in this matter of land settlement.

It may be, as the Premier says, that the rural population of the province has been doubled within the past five years, and we are glad to hear that it is so, but this is certainly not due to the encouragement afforded to the settler by the government. It is safe to say that if it had been possible for any fair area of homestead land to be acquired this rate of increase in the rural population would have been immensely enlarged. At this moment there are practically no cultivable lands available for the pre-emptor. Mr. McBride says there are upwards of twenty millions acres reserved for pre-emption and that seven hundred and ninety-six thousand acres have been surveyed for the same purpose. These figures are attractive, but where are these lands we should like to know? Are they mountain ranges and rocky wastes, or areas practically inacessible, or beyond the possibility of securing a market for produce?

We are glad to learn that the government is at last making a move in a practical direction, and that it is intended to undertake surveys along the lines of the Canadian Northern Pacific and the Grand Trunk Pacific railways, and that these lands will be reserved for pre-emption. This action is undoubtedly the outcome of the strong criticism which has been made of its land policy and of the pressure which has been brought to bear from many quarters to secure a fairer and more intelligent administration. It is to be hoped that the work of surveying will be advanced with all speed.

KNOX CHURCH WILL BURN MORTGAGE NEXT MONTH

Presbyterian Institution at Sapperton Is Now Free of Debt—Pastor's Salary Is to Be Increased.

Progress and prosperity are the keynotes of the annual reports of Knox Church, Sapperton, presented at the annual meeting held Wednesday evening and the year just past, which is the twentieth of the congregation's existence, is an epoch marking one in that the debt of the church has now been paid off and the mortgage taken up.

In celebration of these two facts a social meeting will be held on February 7, when, according to ancient custom, the mortgage will be solemnly consigned to the flames.

The treasurer's report is of a nature to encourage those who have worked so long and strenuously for their church. It shows that during the year 1910 the contributions of the congregation towards the general fund and the debt fund almost doubled those of 1909.

In consequence of the satisfactory nature of the finances, it was resolved that the church should now assume the responsibilities of a self-supporting organizaiion, instead of remaining in the condition of an augmented congregation, and that the pastor's salary should be increased considerably. Rev. E. G. Thompson, who has been pastor of the church for some years, is regarded by his flock with feelings of love and esteem, and it has been felt for some time that his services were not sufficiently remunerated. The board of managers have therefore determined on this action. It was also decided to pay a salary in future to the organist, who has so far given her services without fee.

Another step, of minor importance, determined on in consequence of increased prosperity, has been to instal a hot air heating system in the church and this was done about two months ago.

The clerk of the session reported that weekly Sabbath services were well attended, and the prayer meetings were also held regularly, although the numbers of attenders were not very large. During the year there was an increase in the membership roll.

The Christian Endeavor society reported a successful year, during which much good work of a social nature was done.

The Ladies' Aid of the church also met with considerable success in their undertakings throughout the year. A number of concerts, sales of work, etc., were engineered, resulting in substantial additions to the treasury.

In the Sunday school 115 scholars were enrolled last year, and conditions otherwise are satisfactory.

CUTS PRAYER MEETING TO KILL HER RIVAL

Fort Worth, Tex., Jan. 19.—While Mrs. T. M. Brooks was killing Mrs. Mary Bingford in a crowded department store yesterday afternoon, women of the First Methodist church were at Mrs. Brooks' home holding a prayer meeting.

A telephone call to the house announcing the killing was the only explanation they had of her absence.

This developed today when T. M. Brooks issued a statement saying jealousy was the cause of the killing. He defended the character of the dead woman as well as that of his wife.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Texada division of New Westminster district.

(a.) The name, address and occupation of the applicant, Nels Persson, of Helsingborg, Sweden, manufacturer; (b.) The name of the lake, stream or soure (if unnamed, the description is) two draws coming together near the middle of the northern boundary of lot 9, Texada, thence flowing or seeping northward 125 feet across lot 12, to Blubber Bay; (c.) The point of division, at the junction of those two draws and the springs therein on lot 9; (d.) The quantity of water applied for (in cubic feet per second) .042 cubic feet; (e.) The character of the proposed works, a lime and cement business, a portion of the plant whereof has been already erected; (f.) The premises on which the water is to be used (describe same), lot 9, Texada; (g.) The purposes for which the water is to be used, steam for manufacturing purposes; (j.) Area of crown land intended to be occupied by the proposed work, none; (k.) This notice was posted on the 23rd day of September, 1910, and application will be made to the commissioner on the 23rd day of October, 1910. (l. Give the name and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet, H. W. STEAMER ON FIRE IS ABANDONED IN MID-OCEAN

Crew of Parisiana, Bound for Melbourne, Rescued by Transport—Gasoline Boat Pounded.

Melbourne, Australia, Jan. 20.—The British steamer Parisiana, which sailed from New York to this port on October 29, has been abandoned at sea on fire.

The members of the crew were taken off by the British steamer Transport, which arrived yesterday in Albany, West Australia.

No details of the disaster have yet reached here.

Seattle, Jan. 20.—The gasoline boat Mariner was pounded to pieces on the rocks off Lopez Island, one of the San Juan group, during the storm which commenced on Sunday night. The three men comprising the crew had a narrow escape.

U. S. MAIL CLERKS MAY GO OUT ON STRIKE

Minneapolis, Jan. 19.—A tie-up of the country's mail system and a walkout of the railway mail clerks is likely unless Postmaster General Hitchcock discontinues certain phases of his postal service policies, according to members of the Twin Cities Railway Mail Clerks' association.

Tentative plans for a walkout of the railway mail clerks have been made, it is said. This will be ordered, the clerks say, unless the practice of requiring the clerks to work overtime without extra pay is stopped.

Speakers last night who addressed an indignation meeting of the Twin Cities clerks, repeated today assertions made before the meeting.

"The mails surely will be tied up all over the country," one of them said. "Although the amount of mail handled is daily increasing, the number of railway mail clerks has been decreased by Hitchcock. His policy of economy is a good one, but the clerks bear more than their share of the saving. A general notice of mail clerks certainly will follow unless some remedy is applied.

ENDORSED ALDRICH PLAN.

National Board of Trade Approves Scheme for Monetary Reform.

Washington, Jan. 19.—The National board of trade today endorsed the principles of the Aldrich plan of monetary reform by adopting a resolution offered by New York delegates recommending a "Central Banking Organization." Tentative plans were drawn for a monetary league of business men soon to be organized by the national board.

The committee of the National board of trade, which has been considering the question of amalgamation with the National council of commerce and commercial bodies of the various cities, reported that within sixty days it would present a plan for consideration.

$50,000 MAY BE GIVEN FOR ROAD TO IDITAROD

Washington, Jan. 19.—The house has refused to include in the army appropriation bill the Wickersham amendment, having an additional $50,000 for roads and trails in Alaska, but Mr. Wickersham has received assurances that the amount will be included in the bill in the senate. If appropriated, the sum will be expended on a road from Seward into the Iditarod territory.

SPORTING NEWS

SCRIBES TO BOWL AGAINST FIVE CLEVER THESPIANS

Advance Agent Goettler, of "Stubborn Cinderella" Company, Challenged Newspaper Team.

The Newspaper men of New Westminster vs. A Stubborn Cinderella, that is not the name of a divorce case nor yet of a prize fight, but it is the title of a bowling match which will begin its history tomorrow and end when British Columbia is no more.

It had been thought by the gentlemen connected with the newspapers of Westminster that by a liberal application of the star chamber method they could keep themselves from being famous, but such was not to be. To Westminster Junction and Agassiz and to Hope and even to New York did the fame of the skill of the newspaper men extend and in New York it was laid hold of by the violent minds of sundry actors.

E. Colt Albertson, who plays "Mac," Bobbie Wagner, known to patrons of the dramas as "Fat," Dan Moyles, the "Whichwaysnorth" colonel, Neal Burns, the "Kkeeter," and Edwin Burns, the tutor, got hold of the report that the newspaper men in the City of Westminster were some bowlers. "Ha!" said they one with another, "Business Manager Goettler has that place down on our bill-of-fare. We will tell him to inform those newspapermen that we doubt their prowess and will wager a beef steak on the result of a game betwixt us and they."

And so when Alphonse Goettler was here yesterday he informed as requested, and the newspapermen will be on hand at the Front street bowling alleys at four o'clock tomorrow afternoon to bowl for five beef steaks (bread, butter, tea or coffee, potatoes and ice cream free with all orders over fifteen cents).

Reserved seats will be kept for the ladies of the company and if all goes well a gentleman with a mouth organ will discourse sweet music during the progress of the mill.

Other features will be added as the time or occasion requires, but the main fact is that at four o'clock tomorrow afternoon five newspapermen will uphold the honor of the fourth estate against five travellers in the land of Make Believe.

BOWLING

Interest in bowling circles is being aroused by the coming contest for the silver cup the People's Trust company is offering for commercial and professional teams. As a matter of fact the entry is limited to four teams, the Peoples' Trust team, the Bank of Montreal, the Druggists and last but not least (Oh, No), the Newspaper men.

Captain Boulton, of the People's Trust team, is now arranging the schedule and it is expected that the first game will be rolled off next Thursday night, probably between the Bank of Montreal and the Peoples' Trust.

The cup is well worth scrapping for and is now on view in the windows of the Peoples' Trust company's offices on Columbia street. It stands about sixteen inches high and is a fine example of the silversmith's art.

BASKETBALL

Victoria Quintette Coming to Try Conclusions with Columbian College Team Saturday Evening.

The Victoria Y. M. C. A. basketball team will play the Columbian quintette in the college gymnasium on Saturday. The Capital boys have been in a class by themselves in the Victoria City league and are now looking for bigger game.

The local boys are in good condition and the team has been greatly strengthened by the presence of "Nellie" Kenny, who has resumed studies after an absence of two years. Kenny is playing in his old position at left forward and his showing so far this year proves that he can "come back."

There will be two fast preliminaries. The college second team will play the Westminster night class team and the 115 pound collegians will play the Westminster Midgets.

The first team will line up as follows: Guards, Priest and Draney; centre, Ferguson; forwards, Kenny and McArthur.

SEEKING HONORS.

Westminster Billiard Players Trying to Recapture Chamberlin Cup.

The Westminster billiard players have at last summoned enough courage and located enough good players to challenge for the Chamberlin Cup which was taken from this city by Vancouver last year.

The challenge was forwarded to the National Sports club yesterday. There has been no time for a reply.

The five men to hold up Westminster's honors will be chosen from the following players, Coldicutt, Grant, Harland, Reid, Andeberg, Douglas and Bowers. Coldicutt, Grant and Bowers were on the team which met defeat last year. Among the other four there are some good players and there is no doubt that the team this year will be an improvement on the old.

LONDON DAILY MAIL CHANGES ITS VIEW

London, Jan. 19.—Desertion of the cause of the conservatives by Lord Northcliffe and acceptance by his powerful newspapers of the Liberal program, which hinges on home rule for Ireland, are seen here today in a publication by Northcliffe's paper, the London Daily Mail, of a story saying sensational rumors that Ulster is arming to resist home rule are untrue.

The publication created a political sensation. It is admitted that the Mail's new attitude will do much to destroy the "Ulster county bogey," designed to frighten the lords into defeating the home rule measure sure to be passed by the Commons.

BUSINESS MEN FIGHT TO DEATH IN STREET

Haywards, Cal., Jan. 19.—In a quarrel over money matters, Augustus Reis, of San Francisco, shot Captain Chester Madison on one of the main streets here this afternoon, and was himself shot in a running fight with an officer and citizens pursuing him. Both are retired merchants.

In a statement after his capture Reis said that he and Madison were formerly in the ship chandlery business in San Francisco and that the firm went out of business with Madison owing him money. Today, he said, he made a final demand for the sum and was angered beyond endurance by Madison's refusal to settle.

Both men are believed to be fatally wounded. Reis was struck twice. He is 55 years old and his victim 70.

FOLLOWED SUIT.

Witnesses at Wedding Suddenly Decide to Do Likewise.

Tacoma, Jan. 19.—When Arthur R. Shutes, a clerk in the local post office, and Miss Joy Cooley, of South I street, went to Seattle to be married yesterday afternoon, they discovered that they had failed to provide for witnesses.

They asked the aid of Seattle friends, and Miss Frances Sarver and Dale Flater consented to act.

Shutes was very grateful. "I'll do as much for you," he said to Flater. Flater looked at Miss Sarver. "Now's a good time," he remarked. Miss Sarver blushed and a few moments later both couples were married by the same clergyman. News of the double wedding was received here today.

AIRMAN WILL CROSS STRAITS OF FLORIDA

Washington, Jan. 19.—The course of the aeroplane flight next week from Key West, Fla., to Havana, Cuba, which will be attempted in connection with the Havana aviation meet, will be patrolled by a flotilla of torpedo boat destroyers of the United States navy for the guidance and protection of the airman on his journey. Secretary Meyer has sent a telegram to Lieutenant Stirling, commanding the destroyer Pauding, authorizing him to use, at his discretion, four destroyers of the eighth flotilla now at Key West in co-operation with the officials of the aviation meet.

CLAIMS ARE STAKED AT HOUR OF MIDNIGHT

Seward, Jan. 19.—There was a lot of staking of ground early in the morning of the first day of the new year.

Considerable ground that recent prospecting has shown to be valuable would run out and be open for relocation as soon as the old year lapsed and many prospectors had their eyes open for just such snaps.

As soon as twelve o'clock midnight had struck on December 31, at least a dozen claims were located, and as soon as the recorder's office was open Monday morning the new locations were placed on record.

They will stand as new locations on virgin ground.

Lady Leslie and the College Girls in "A Stubborn Cinderella" at the Opera House on Saturday evening.

Public Library Burned.

Portland, Ore., Jan. 19.—Fire today destroyed the East Side public library. About ten thousand volumes were burned. The building was one of the most artistic libraries established in the west. The damage is estimated at $12,000. The cause of the fire has not been ascertained.

CITY OF LONDON WILL LOSE HISTORIC LANDMARK

Farm House of Centuries Ago Now in Modern Theatre District to Go—Photographs Made.

Another relic of old London is about to be levelled with the dust in order to make room for modern improvements.

This is the house, No. 13 Archer street, Soho, facing the stage door of the Lyric theatre; a place which dates back some centuries, as testified by the sloping red-tiled roof, the old-time dormer windows and bottle-glass panes.

Originally it was a farmhouse, surrounded by green fields and purling brooks, like the one which stood further west in what is now Farm street, Piccadilly. In more recent times this historic relic of Soho has been occupied by a metal worker, and for the last forty-five years by an art-fringe maker.

Tradition says that Charles I., on one occasion called at the farm, in 1637, and again in 1672 rumor has it that the place was granted to Henry Jermyn—he who gave his name to Jermyn street in the same neighborhood. It is possible, too, that this interesting spot may have been known to Dr. Johnson and his clubable set who used to meet in Gerrard street close by. Certain it is that if these walls could speak they might tell a tale of wondrous comings and goings, of the building and demolition of Charles II.'s statue for instance; of the changing of names, King's square—Monmouth square—Soho square, etc.; of the disappearance of the White house and other aristocratic residences, and the coming of the Italian.

With change of time has come change of value. Once the freehold was offered for £1500, the same sum as for which it had been bought, and for a while a bargain went begging. Now, however, things have altered; where once was open country is now the West End of London, the heart of theatre-land. Nevertheless, the county council have taken care that the old place shall not be forgotten. Photographs of the interior and exterior have been taken and a record made for future readers of by-gone London.

CANADIAN PICTORIAL.

Canada's Popular National Illustrated Magazine; Enamelled Paper.

The Canadian Pictorial is the best printed magazine in Canada. It is crowded with the most interesting pictures of recent happenings, pictures of beautiful or curious things, portraits of men and women in the limelight, pictures showing the kaleidoscopic development of our great Dominion—pictures that tell the facts as no type-printed pages ever could. It is the next best thing to travelling and seeing people, places, and events, with one's own eyes.

The more people are educated, the more they appreciate and value pictures of current events, for they convey so much information in so short a time. But the children also profit by and enjoy them. The Canadian Pictorial contains between one and two thousand square inches of pictures in each issue, and costs to produce a thousand dollars each issue—sometimes considerably more.

What Its Readers Say:

"The Canadian Pictorial is certainly worthy of all praise. I have been particularly struck with the excellence of the portraits and illustrations.

(Signed) "R. L. BORDEN,
"Ottawa."

"The Canadian Pictorial, a publication which, if I may be permitted to say so, is a credit to Canada.

"LORD STRATHCONA."

What the Press Says:

"The Canadian Pictorial is the most expensively produced illustrated publication in Canada."—Mail and Empire, Toronto.

The regular price is 10 cents a copy, but it will be sent on trial to new subscribers for 65 cents a year—and full money back if in a month the new subscriber writes that he does not like his bargain. Address The Pictorial Publishing Co., 142 St. Peter street, Montreal.

TO RAISE STATUE OF HIGH LIVER

French Town to Honor Man Who Said, "Animals Feed; Man Eats"

New York, Jan. 19.—Belley, a little town in the southeast of France, is about to raise a monument to the glory of one of its sons, Brillat-Savarin. The author of "The Physiology of Taste" was the absolute realization of the typical good liver. The revolution confiscated his property and removed him from his office as civil judge. He fled to Switzerland and then to the United States, where he played a fiddle in a New York theatre to gain a living, says the Sun.

His property was afterward returned to him and he was made a counsel of the supreme court, an office he clung to successfully through changes of empire and kingdom. His "Physiology of Taste" shared the fate of many celebrated books. It was refused by several publishers and eventually was published at the author's expense, but without his name attached to it, as he considered the nature of the work incompatible with his judicial functions.

It was Brillat-Savarin who declared that "the discovery of a new food does more for the happiness of the human race than the discovery of a star."

Some of the axioms from his book are:

"The man who can cook is made, the man who can roast is born."

"To invite anybody to one's house is to undertake the responsibility of his well being during the whole time he is one's guest."

"Animals feed; man eats; the man of sense alone knows how to eat."

"The destiny of nations depends upon how they are fed."

"The table is the only place where one is not bored for the first hour."

"Monsieur the Counselor," a hostess asked him one day, "which do you prefer, Burgundy or Bordeaux?"

"Madame," replied the judicial authority, "that is a lawsuit in which I have so much pleasure in taking the evidence that I always postpone judgment."

"RED" EMMA GOLDMAN IS LOCKED OUT OF CONVENTION

Columbus, O., Jan. 19—Considerable stir was created among the United Mine Workers of America today by the locking out of Emma Goldman from the hall where the miners convention is meeting. Miss Goldman has been making efforts to speak before the convention and today when she appeared at the hall about 100 delegates met her. The convention did not meet today until ten o'clock, but late last night about 150 delegates after adjournment, adopted a motion to hear Miss Goldman, and she appeared this morning in response to their request. The custodian said he had been ordered to lock the doors against Miss Goldman and the delegates and Miss Goldman adjourned to another hall, where she spoke.

Liniments Won't Cure Lame Back

GIN PILLS WILL—As This Gentleman Testifies

LUMSDEN, SASK.

"I have suffered much from Lame Back and Soreness across the Kidneys, and used to apply liniments to relieve the pain until I was told to try GIN PILLS. Now, I am never without them. As soon as I feel the weakness coming on, I at once start to take GIN PILLS and a very few doses relieve me, but I continue to take them for sometimes two weeks at a time that they may do their work. I heartily recommend GIN PILLS to anyone suffering from Lame Back or Weak Kidneys."

A. B. SPARKS.

Lame Back is simply the pain caused by weak, strained or sick kidneys. GIN PILLS heal and cure Kidneys. GIN PILLS relieve the Bladder, and regulate the Urine. That's why the pain in the back disappears when you take GIN PILLS. 50c. a box, 6 for $2.50 and money refunded if GIN PILLS fail to relieve you. Sent on receipt of price if your dealer will not supply them. National Drug & Chemical Co. Dept. B. C. Toronto.

National Lazy Liver Pills keep the bowels regular, the stomach sweet and the skin clear. 25c. a box.

Land Registry Office, New Westminster, B. C., January 17, 1911.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Steel Tug for Vancouver, B. C.," will be received until 4:00 p. m., on Monday, February 13, 1911, for the construction of a Steel Tug Boat for Vancouver, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of H. A. Bayfield, Esq., Supt. of Dredges, New Westminster, B. C., Wm. Henderson, Esq., Resident Architect, Victoria, B. C., and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa, January 12, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

AUCTION SALE OF TIMBER BERTH COVERING DOMINION LANDS.

The right to cut timber under license on Berth No. 531, comprising the following lands in the Province of British Columbia, will be offered at public auction at the upset price of $400.00, at 2 o'clock p.m., on Wednesday, the 29th day of March next, at the office of the Dominion Timber Agent at New Westminster:

Timber Berth No. 531, situate in the Province of British Columbia, in Township 5, Range 27, west of the Sixth Meridian, and comprising that portion of the northeast quarter of Section 14, not covered by Berths 423 and 471, and containing an area of 80 acres, more or less.

A license will not be issued until the full amount of the purchase price, and the ground rental for the first year, have been paid.

The conditions of payment, rate of rental, etc., are contained in the Timber Regulations, a copy of which may be secured on application to the undersigned, or to the Crown Timber Agent at New Westminster.

P. G. KEYES,
Secretary.
Department of the Interior,
Ottawa, December 23rd, 1910.

Sealed tenders addressed to the undersigned, and endorsed "Tender for three 260 yard dump scows for Vancouver, B.C.," will be received at this office until 4 p.m., on Monday, January 30, 1911, for the construction of three 260 cubic yard dump scows for Vancouver, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of H. A. Bayfield, Esq., Superintendent of Dredges, New Westminster, B.C., William Henderson, Esq., Resident Architect, Victoria, B.C., and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to 10 per cent. of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

300,000 NEWCOMERS ARE EXPECTED IN 1911

Minister of Interior Outlines Prospects for Coming Season—No Land to Sell.

Ottawa, Jan. 19.—In answer to questions regarding the outlook of immigration in 1911, asked by a representative of the Canadian Press association, at an interview in Ottwa, the Hon. Frank Oliver, M. P., minister of the Interior of the Dominion of Canada, stated that during 1910 the total number of immigrants who had come to Canada was a little over 250,000, and that reports from the Dominion's emigration agents in Great Britain, the United States and elewhere indicated that during 1911 the total number would be a little over 300,000 and in answer to further questions the minister said:

"Canada is the only country in the world today giving away good land with good conditions. And it is given away free, gratis, but not for nothing. This is with us a matter of principle and national policy. Not only is Canada giving this land away, but she won't sell it."

"Does that mean, Mr. Oliver," he asked, "that the Dominion government won't sell any land at all to anyonce?"

"Not an acre," he replied, "except to settlers who have already taken a free homestead of 160 cares and desire to acquire some additional adjoining land. Other than this, there isn't enough money in all England or the United States to buy one single acre. We have millions of acres to give to millions, but not a foot to sell. The reason is that the Dominion wants citizens, not speculators. The Canadian people are a business people, and as a business proposition it suits them better to give this land away than it would to sell it—always provided that the land is given to those who will bring it into use. The conditions of the gift are use and occupation.

"Canada is characterized by conditions of social life, moral atmosphere, religion, fair laws well administered, business standards and opportunities, which ,in conjunction with the quality of the fertile land she is giving away, makes her unequalled, not only on the American continent, but throughout the British empire and the nations of the world. This is the national policy that is the basic foundation of our national prosperity—of our unrivalled development, progress and substantiality ,that makes the Dominion of Canada the best country for settlers to come to, and the safest country for investors to place their capital in. Whether for the building of homes with incomes and the enjoyment of the comforts of life, or for the making of money with a feeling of absolute security, Canada is incomparable.

"But don't misunderstand me; neither the Canadian people nor the Canadian government are philanthropists. There is no room in Canada for the 'won't works' or the 'can't works,' and we dont want them at any price.

"This national policy that Canada has adopted in regard to land is what is attracting the great rush to the prairie provinces—not cheap land, but goood lands for nothing, that is, for nothing, except occupation and use.

"Then, too, all the hundreds of thousands that are coming to Canada every year know—every man of them—that the first comer gets the land, whatever land he has chosen, confident that no pull or influence is ahead of him. To all of them we say: 'We want, not your money, but your citizenship.' This is worth more than money to Canada. And it also means thousands more consumers or customers for all our products—natural and manufactured. So that all who are now here benefit by every new citizen's success and prosperity.

"Canada is one nation commercially. It is true the great tide of immigration is flowing into the three prairie provinces of Manitoba, Saskatchewan and Alberta, and into British Columbia. But when western Canada prospers, eastern Canada prospers. The prosperity of the west and the east is co-extensive. Some portion of every dollar that is taken into the west, or taken out of it—out of the soil—finds its way to the east and through the various channels of trade and commerce, eventually enriches Ontario, Quebec, and the maritime provinces.

"As to land tenure, we want farmer proprietors. They make the best and strongest citizens—and it's such citizens we are after. Hence, after a man has fulfilled the three years' condition of use and occupation of the land the Dominion gives him the land in his fee simple, absolutely and for ever. He can keep it or sell it, or do as he likes with it.

"The man who overcomes the great difficulties of those three years of settlement—and they are great—has earned his land, has established himself, has become a good citizen. By that time he has a stake in the country and its future.

"Canada is establishing a landed aristocracy, in the truest meaning of the word—a landed proprietorship extending over fertile prairies 800 miles long and 300 miles wide. This is due time will make 240,000 square miles of farms and homes with incomes, with many busy towns and cities.

"Agriculture being the backbone of every country, Canada is taking the means and is doing it now to make her backbone bigger and stronger. The vast number of prosperous agriculturists, together with the many manufactures and other industries necessary to so great a territory—will constitute a population of land owners and good citizens that will be large enough and powerful enough to weigh something in Canada, in the British empire and in the world."

WAR ON EASTERN OYSTERS.

Washington State Legislating on Bivalves and Automobiles.

Olympia, Jan. 19.—Among the bills introduced today are measures providing for the licensing of automobile drivers and making it a misdemeanor for an intoxicated person to drive a machine.

War on the Eastern oysters has been started by the introduction of a bill which makes it a misdemeanor to sell oysters on the half shell unless the oyster owns the shell.

The body of Chung Fong, the Chinaman who committed suicide on Wednesday afternoon, was interred in the Douglas street cemetery yesterday.

DIED.

WINTEMUTE — AT THE RESIdence of his son Robert, 410 St. George street, New Westminster, on Thursday, January 19, Joseph Smith Wintemute, aged eighty years.

HONEYMOON TRAIL

"Honeymoon Trail," the attraction at the opera house last night, could be well called a comedy with music, for with a fair resemblance to a plot and a dozen catchy musical numbers the play went through with a dash and vim that was pleasing to a large audience. Although the show is now in its second season this was the first appearance in New Westminster. Its reputation as a funmaker has preceded it and the consequence was that the offering was well patronized.

The plot deals with the efforts of Tommie Perkins, advertising manager of "Barlow's Boston Baked Beans," to win the love of Edna Kennedy, stepdaughter of Daniel Mason, manufacturer of "Mason's Canned Beans." Fun waxes fast from the start. Fred Wyckoff, fat and jolly, fitted the part of a first class stepfather to a nicety and was always the one to see the point of the joke last when it was found to be generally on him. At this part Mr. Wyckoff is as good as Bert Baker, the Chicago comedian who created the role. L. Kelso as Tommie Perkins is bright and breezy, but might not be a hit as an advertising man if he used the same methods in business as in the play. Clara Dalton as Edna Kennedy, the girl in the case, was a winsome little miss and well worth winning.

The scene of the play is laid in California at the Sleepy Hollow Rest Cure and Liberty Hall hotel, (it would be a geographical puzzle to find these places) but here are the usual number of characters and the girls in the show are what the front row would call "nifty."

It all ends in the same old way. The boy wins the girl and everyone is happy. The musical numbers throughout were well received and will be whistled for some days to come.

NOTICE TO CONTRACTORS.

Bids will be asked for the plumbing and heating, metal work and roofing on the new Bank of Commerce building, New Westminster, up to Monday, January 23, 1911. Lowest or any tender not necessarily accepted. Plans and specifications can be seen at room 9, Windsor hotel, New Westminster, or by applying to W.H. Cawston, Windsor hotel.

A. Cosens, of Kelowna, was a guest at the Hotel Russell yesterday.

Ice cream on hand. Ira A. Reid, next tram office. Phone 310. **

H. E. Fitzgerald and wife, from Chilliwack, were registered at the Windsor hotel yesterday.

Davies Green Houses is the place to get bouquets, floral designs, and all kinds of cut flowers. Phone R 208 **

Ronald S. Cliff has applied for a water record of two cubic feet per second to be taken from Atchalitch creek in lot 373A(group 2. The water is to be used for power purposes.

The water situation is gradually improving. It is expected the usual level will be reached in the reservoirs in the course of the next two or three days.

For Delta acreage, large and small, priced right, see Reid, Curtis & Dorgan, 706 Columbia street. **

At the annual meeting of St. Stephen's Presbyterian church on Wednesday evening the retiring board of managers, W. A. Duncan, William McAdam and J. H. Vidal, was re-elected. The church was reported in a prosperous condition.
