MAN CRUSHED BY FALLING CEDAR TREE

TERRIBLE INJURIES SUSTAINED BY JOHN GARLAND WHILE WORKING NEAR COQUITLAM —REMOVED TO HOSPITAL.

An unusual accident, and one disastrous in its results has occurred at Coquitlam, where Ironside, Rannie & Campbell have a camp engaged in clearing land near the lake.

A man named John Garland, of Cumberland, B.C., was engaged at work yesterday morning when without warning a huge cedar tree broke in two, and the upper part crashed through the roof of the cook house, where he was cleaning up after breakfast, burying him in the ruins.

It appears that a number of cedar trees have been cleared from this vicinity, but this particular tree was overlooked, and remained standing. There was no apparent cause for its breaking off in the way stated, however, when the unfortunate man could be extricated, it was found by Dr. J. Harold Jones that he had sustained a compound fracture of the right leg, had an arm broken in three places, four ribs broken and had internal injuries, the full nature of which have not been ascertained.

Dr. Jones had the unfortunate man removed to the Royal Columbian hospital, where he lies in a serious condition.

RECEPTION TENDERED BISHOP DE PENCIER

At a reception held by the members of Holy Trinity congregation yesterday evening, Bishop de Pencier gave an interesting and detailed account of his movements since the time he left this city for the motherland.

The function of last night was held in St. George's hall and was attended by a representative gathering of the congregation, as well as by those who were anxious to hear the bishop speak of the sights he had seen in the country over the seas.

Everywhere he had been, he said, he had been assailed on all sides by enquiries as to the possibilities of this province, and so well had he done his work that he humorously remarked that he had thought of putting in an account to the immigration department, because he felt he would be the indirect cause of many coming from the homeland, and settling down in B. C.

Graphically the bishop told of the various receptions he had been privileged to attend when in London, while of the coronation ceremonies, Bishop de Pencier spoke at great length, detailing the sights in the streets, the scene in the abbey and the noise, bustle and excitement, after the king and queen had been crowned.

During the evening Mackness' orchestra contributed a number of selections, while the ladies of the church supplied dainty refreshments.

Excellent Crop Prospects.

Winnipeg, July 19.—Crop prospects in Western Canada, today, could hardly be more favorable. Some apprehension was felt on account of the rumors of frost in certain localities, and in order to obtain reliable information, six hundred correspondents in the three provinces were wired asking if the cool wave was having a detrimental effect on the crop. The replies are of a most reassuring character. They show that while light frosts have been experienced in a few localities they have not affected the crop in the slightest degree, even vegetables escaping unharmed.

The Coquitlam Fire.

A report reached the city last evening that nearly 500 men are engaged in shifts at Coquitlam lake fighting the fire which has proved a serious matter, although the steps taken have checked its spreading to the timber on the west side of the lake.

GRANT-BRENCHLEY

A very quiet, but pretty wedding took place on Tuesday morning at the home of the bride's parents, Mr. and Mrs. W. Brenchley, when their youngest daughter, Daisy, was united in wedlock to Thomas H. Grant, second son of the late Captain William Grant. The rooms were profusely decorated with roses and carnations. The bride looked very charming in a tailored suit of cream serge, with large cream hat tot match, and carried a shower bouquet of white carnations. The bridesmaid, Miss Hilda Grant, sister of the groom, was gowned in pale pink silk and carried pink carnations. Mr. Thomas Sayer supported the groom. The ceremony was performed by the Rev. Alex. Dunn. After the wedding breakfast the happy couple motored to Vancouver and took the boat for the south where the honeymoon will be spent. The bride and groom received many handsome and useful presents.

FISHERMEN MISSING: UPTURNED BOAT FOUND

Tragedy Expected from Indications in Plumper's Pass—Belonged to Cannery on River.

Vancouver, July 20.—Two fishermen, Watson and Fotheringham, who left here two weeks ago for the fishing grounds, are believed to have been drowned. Their boat was yesterday found at Plumper's pass with her mast broken, and other indications that a catastrophe had occurred.

The men were employed by one of the many cannery businesses on the Fraser river.

MAKE PERSONAL TRIP TO ALASKA COAL LANDS

Seattle, July 19.—Despatches received here today from Washington convey the information that Secretary Fisher, of the interior department, is to leave Washington for Alaska on August 15, and that he intends to give the whole coal land situation thorough inquiry before further decisions, either adverse to the claimants or otherwise, are given.

Mr. Fisher will be accompanied, it is reported, by Fred S. Dennett, commissioner of the general land office, and several attorneys of the department.

Medical Man Dead.

Vancouver, July 20.—Dr. Alfred Poole, a resident here since 1893, died suddenly yesterday evening in St. Paul's hospital from heart disease. The doctor was a graduate of McGill university and was widely known in the city.

WAPPENSTEIN SENT DOWN FOR LONG TERM

SEATTLE'S EX-POLICE CHIEF IS BAILED AFTER SENTENCE FOR RECORD AMOUNT—PRISONER'S INDIFFERENCE TO COURT.

Seattle, July 20.—In a crowded court house here last evening Judge James Ronald passed sentence upon Ex-Chief of Police C. W. Wappenstein for having asked, received, and accepted a bribe in August, 1910, for granting protection to the tenderlion district of this city.

Every space of the superior court room was filled when the judge commenced reading out the sentence. A silence which could almost be felt was upon the listeners, and all eyes were turned on the prisoner in the dock, who stood unmoved when sentence was being delivered. After a recital of the whole case, the court ordered that Wappenstein be detained in custody for not less than three, and not more than ten years, and at hard labor.

Immediately sentence had been pronounced, prisoner's counsel entered an appeal to the supreme court of the United States, and Wappenstein, after bail to the amount of $85,000 had been accepted, left the precincts of the court with intimate friends.

It is believed here that the higher court will sustain the decision, and that matters will be hurried forward.

MEMORIAL ON SITE OF OLD FORT LIVINGSTONE

Prince Albert, July 19.—A suitable memorial to mark the spot on which the first Northwest council legislated for the territories of Western Canada, now comprising the provinces of Saskatchewan and Alberta, is being urged by a number of old-timers of the northwest. The first Northwest council met at Old Fort Livingstone, more commonly known as Swan River, mounted police barracks, the site of which was located some three or four miles from Pelly, and which is to be one of the new stations on the Thunderhill extension of the Canadian Northern road. Rev. E. H. Knowles, Anglican missionary of the Kamsack district, was the first to suggest the idea that some memorial should be erected to mark the site of this, the first seat of government. Dr. Wallace and other leading men of the district also interested themselves in the proposal. Dr. Cash, M .P. for MacKenzie, and J. K. Johnston, M.P. P., will be asked to assist in securing the co-operation of the Dominion and Saskatchewan governments in the movement.

Wreck in Oklahoma.

Muskagee, Oklahoma, July 20.—A passenger train was ditched near here yesterday on the Midland Southern railway, owing to a bridge being injured through a tree falling across it. No one was killed, but several injured.

EX-KING MANUEL AND INTERVENTION

GREAT BRITAIN AND GERMANY APPROACHED TO SUPPORT THE ROYAL FAMILY—BOTH REFUSED TO MEDDLE.

Lisbon, July 20.—A sensation has been caused by the discovery of a small coffer containing some correspondence between the late government and Great Britain and Germany, under which an offer was made of territorial compensation in West and East Africa from the Portuguese colonies to these powers for assistance in suppressing the insurrectionary movement in Portugal.

Neither of the powers approached would listen to the proposal.

MAD ACT OF RUSSIAN ALIEN IN LODGING HOUSE

Tacoma, July 20.—Without any apparent reason a Russian named Enylewoey fired three shots at Mrs. Margaret Walkins, and then stood before a mirror and attempted to commit suicide yesterday afternoon, in a lodging house.

He is not expected to live.

Will Not Retire Yet.

London, July 19.—The foreign office has denied a report cabled from the United States that Right Hon. James Bryce contemplates retiring from his post as British ambassador at Washington following the conclusion of the Anglo-American arbitration treaty.

THREE NEW LOCOMOTIVES FOR B.C.E.R. TRAFFIC

Two Baldwin-Westinghouse Engines en Route from East—Thirty Ton Locomotive Made Here.

In order to meet the growing demands of freight traffic over its interurban lines the B. C. E. R. company has recently secured three additional locomotives, one of which is now in service, the others being on their way to the coast.

The two locomotives secured from the east are intended for use on the Fraser Valley division. They are Baldwin-Westinghouse locomotives, weighing forty-five tons each, and similar in type to the locomotives used for the Detroit-Windsor tunnel. They are constructed entirely of steel, have 36-inch driving wheels, are equipped with four 125 horse power motors and in general are the last word in electric freight locomotives. They are not intended for speed, but are capable of attaining forty-five miles an hour. With their full rated capacity of haul they can make eighteen miles an hour. The equipment is fitted with electro pneumatic control which gives three running speeds, the controller being operated by a lever as a steam locomotive. The control gives the full power at low speed which makes the locomotive very serviceable for switching purposes. The engines are equipped so that they may be coupled and used as a unit in case of need.

The new locomotive which is now in service was turned out of the Westminster shops. It is a thirty ton locomotive of the centre cab type and is equipped with four seventy-five horse power motors. It was built especially for switching purposes, but will also be used for local freight traffic.

State Monopoly in Coal Oil.

Berlin, July 19.—The Tageblatt says the government will introduce a bill in the next reichstag creating an Imperial monopoly in petroleum. It is alleged that the reason for this action is that the incessant cutting of prices by the Standard Oil Trust treatens to cause Austrian refiners to withdraw from the German markets, which would give the American combination a monopoly. It is feared that prices to German consumers would then be raised.

A Brave Mountaineer.

Tacoma, July 19.—While Professor C. A. Johnson of the University of Washington and his wife, together with C. Ellenberger, of Ballard, and Guide Joe Stampfter, were climbing Mount Rainier on Monday and were rounding the face of Gibraltar rock, a small bouder struck Mrs. Johnson's left hand in which she had her alpenstock, crushing two fingers. Stampfter caught her, or she would have gone over the precipice. Mrs. Johnson insisted on going to the top of Gibraltar Rock, after which they returned.

NO BILL EXPECTED ON REDISTRIBUTION

CENSUS FIGURES NOT AVAILABLE BEFORE OCTOBER—LITTLE PROSPECT OF ARRANGEMENT OF CONSTITUENCIES.

Ottawa, July 20—In view of a statement in the House of Commons by the Hon. Sydney Fisher, minister of agriculture, that the census figures will not be available before October, there is little prospect of a redistribution bill this session.

MEXICAN LIBERALS IN LOWER CALIFORNIA

Washington, July 19.—The state department today instructed Ambassador Wilson at Mexico City to complain to the government there of the depredations of Mexican Liberals in Lower California.

The action was taken as the result of reports from the American consul at Ensenada, who declared that American ranches in Lower California are being raided and that their owners had appealed to him for protection.

Haytien Revolution.

Port au Prince, Hayti, July 19.—The revolutionists have occupied St. Marie and are marching on Archahaie, a port eighteen miles northwest of this city. The government has assembled two divisions of troops at Archahaie to oppose the enemy. The cruiser Antoine Simon has been repaired and is proceeding to the threatened port.

RIFLE MEETING OPENS AT THE RICHMOND RANGE

Westminster Marksmen Do Well on First Day, and Stand High in Aggregate—Five Local Shots.

The Westminster men did well yesterday at the first day's shooting at the Richmond range in connection with the B. C. Rifle association. Five local men were shooting and their record so far is a satisfactory one.

Tyro match, 200 yards—A Vancouver man, Latta, made the highest possible. A. F. Menzies, of this city, was second.

Nanaimo, 200 yards—J. H. Vidal made 32 out of a possible 35; he was in 24th place.

Helmcken, 200 yards—Vidal made 94 and W. Sloan 93 out of a possible 105. Welford, Vancouver, made the highest possible.

Westminster, 500 yards—Sloan 48 out of 50, Vidal 45, Chamberlin 45 and G. Turnbull 44. Tyler, of Victoria, made the highest possible. Sloan was placed sixth.

Victoria, seven shots at 600 yards—Five competitors made the maximum of 35. Chamberlin registered 31. Sloan and Vidal each made 30.

In the grand aggregate Welford, Vancouver, leads with 116 out of 120 points. Westminster men highly placed are Sloan 108, Chamberlin and Vidal 106.

Today's program will be as follows:
8 to 8:45—Extra series, 200 yards.
8:45 to 10:15—Lieutenant-Governor's match, 200 yards.
10:15 to 11—Extra series, 500 yards.
11 to 12:30—Lieutenant-Governor's match, 500 yards.
12:30 to 1:30—Luncheon.
1:30 to 2:30—Extra series, 600 yards.
2:30 to 4:15—Lieutenant-Governor's match, 600 yards.
4:15 to 6—Vancouver match, 600 yards.

To Look Over Valley.

Montreal, July 20.—General Darcier, the famous soldier and liberator, arrived here yesterday from England. He will make an extensive tour of inspection throughout the Dominion and proceed as far as Vancouver. In British Columbia the general will carry out a series of enquiries for prospective settlers on the Fraser river, and study the natural resources of the country.

France for Peace.

Washington, July 19.—France, it is announced, is practically ready to sign a general arbitration treaty with the United States, similar to the one with Great Britain. Ambassador Jusserand's visit to Paris, where he is now on leave, is declared to have brought this rapid determination of the French foreign office to conclude such a treaty with the United States. It is now regarded as possible that Secretary Knox will sign the treaties with Great Britain and France at the same time.

RARE MULE DEER DOE PRESENTED TO PARK ZOO

Captain Fritz Mayers and Engineer Pare Capture Animal Bathing in Pitt Lake.

On view in the zoo at Queens park is a mule deer doe, one of the few in captivity in the west. It is about a year old, weighs eighty pounds, and has been presented to the city by Captain Fritz Myers and Engineer J. Pare, of the Fearless.

It appears that on Friday, July 14, the tug was in Pitt lake, near the Bridal Veil falls, when the crew saw the doe swimming in the lake. A lasso came into play, and after a considerable struggle, the animal was captured. In the effort Pare's clothes were torn.

The animal, which is a rarity, was brought down to Joseph Mayers' wharf, and subsequently sent to the zoo. It remains somewhat timid, but is becoming more used to captivity.

The scientific name of the species is Cervus Macrotis, and obtains its vernacular name owing to its long ears.

Massacre by Tribesmen.

Livingstone, Rhodesia, July 19—German District Commissioner Von Frankenburg, two white sergeants, fourteen black police and twenty carriers have been massacred by the Okarango tribe of Bechuanaland according to native reports. The massacre took place on British territory, the presence of the Germans there being explained by the fact that the frontier is not clearly defined.

AMAZING BREACH OF NAVAL ETIQUETTE

CAPTAIN OF GERMAN CRUISER BREMEN STYLES NIOBE USELESS—CONSUL HANDS IN AN APOLOGY.

Montreal, July 20.—Canada is threatened with a cause celebre. The commander of the German cruiser Bremen now in port here had the audacity yesterday to criticise the Canadian navy, and said the Niobe was no use for warfare. Ottawa was at once notified, and Admiral Kingsmill issued a statement that war was threatened by expressions of this nature.

Later in the day the German consul expressed his regret, and that of his country, the statements being in writing. That there will be trouble between the two governments is almost certain, despite the summary action of the consul. It is a proceeding almost without precedent, the action of the commander who was in the port of a foreign power giving expression to his views on the ships of the nation whose waters he was visiting.

COMMISSIONERS ISSUE IMPORTANT RULING

Ottawa, July 19.—The railway commission has issued two orders, one for the protection of railroad employees and the other for the protection of the public.

The first order requires railways to file with the board within sixty days a statement showing the number, class, weight of each locomotive, and whether the locomotives are equipped with dump ash pans to avoid the necessity of a man going beneath the locomotive, as in the past there have been a number of accidents from this.

The second orders that at a crossing where an accident has happened since January 1, 1905, or hereafter happens by a moving train to a person using the crossing, such crossing must be immediately protected by a watchman until the board has had the accident and the crossing examined.

Child's Peculiar End.

Alameda, Cal., July 19.—Genevive Mae Phillips, the 2-year-old daughter of Mr. and Mrs. Foster Phillips, of Eureka, is dead at a sanitorium here as the result of drinking a washing fluid six months ago. The child was unable to eat after drinking the fluid and was slowly starving to death when physicians insterted a feeding tube into her stomach, through which she was fed. The operation, which was performed several weeks ago, seemed to be a success.

The Strathgarry is on her way from San Francisco and will arrive about Saturday with a quantity of steel for the C. N. R. construction work at Port Mann. She loaded her cargo at Sydney, Cape Breton.

FINDING NEW HOMES IN SUNNY CANADA

SCOTTISH MINISTER OBSERVES CONDITIONS IN WEST—WILL LECTURE ON IMMIGRATION WHEN HE RETURNS HOME.

A visitor to the city yesterday, who was charmed by the pleasant appearance of the Royal City in summer, even after the delights of the resorts of Southern California, was Rev. John Scott, of Camelon, Falkirk, Scotland.

Mr. Scott is minister of the Established Church in a suburb of Falkirk, a busy industrial centre, where his church has a communicant roll of 698, and ministers to a population of five thousand. He came out by way of New York and Chicago, and proceeded direct to Southern California, where he has been visiting friends for some weeks. Naturally the Golden State impressed him, and he now proposes to return through Canada. He leaves this evening for the east over the C. P. R.

Mr. Scott was met yesterday on his arrival from Victoria by Messrs. J. R. Duncan and his brother, and had the peculiar experience of being driven in an automobile to this city by the president of the Chinese board of trade in Victoria.

Mayor Lee met the party, and a visit was paid to the abattoir plant of the Vancouver-Prince Rupert Meat company. He would have liked to see the Fraser mills, but time did not permit.

Mr. Scott plans to lecture on the west when he returns to the land of the white heather, and some suitable views for slides will be selected for him by Mr. Duncan, illustrating the features of the Royal City and district. Since he first went over the scenes of the Indian mutiny thirty-eight years ago, Mr. Scott had enjoyed a reputation as a lecturer, this event leading him to pass on his information to friends who cannot travel.

Mr. Scott is an enthusiastic golfer, and says the finest course he ever played on was in the interior of Ceylon, in the hills 6000 feet above Columbo.

To a representative of the Daily News Mr. Scott discussed the problew of emigration from his native country to Canada, and mentioned that from his own parish forty families had come out, and some of the very best of the young men were forsaking Scotland for the land of the Maple Leaf. What was Scotland's loss was Canada's gain, but he did not see how any change could take place when the pressure of industrial conditions were such as they were in the old country. So far as his personal experience went, the Scottish families who had come out had made good amid new surroundings.

THE "TOYMAKER" IS ATTRACTIVELY PRESENTED

"The Toymaker," which appeared at the opera house yesterday, differs from all other shows. The conception, the whole idea of the play, is so far removed from the usual run of productions, that one felt refreshed. The performance was witnessed by a good house.

Ferris Hartman, the Toymaker, has so often taken the part that he is word perfect, and the longer he follows the author's lines the more subtle humor does he seem to get into the personation of the man who made Edison jealous. Hartman with his rolling r's and his gutteral intonation of the happy though conceited German, who would make the world wonder and stare at his wonderful inventions, was the life of the play, and so often was he recalled that he appealed to his listeners in one of his many chorus songs to desist, as there were other members of his company who had to be considered as well. The renowned American actor carries a heavy repertoire, but he would be well advised to bank on "The Toymaker" wherever he goes; he gets more genuine laughs out of this than from all others put together. Last night's company was a capable one, and a word of praise must be accorded to Oliver Lenoir, who in the part of Brother Matthews gave four numbers for which he was recalled, and which showed his voice to perfection. Owing to the desire for anonymity it is impossible to do justice to those of the large company of thespians who gave of their best. The male and female choruses clearly showed that the farewell appearance of "The Toymaker" is still long removed. This will be one of the last of the more important engagements before the opera house closes down for extensive alterations.

Gas Heater Explodes.

Brockville, Ont., July 20.—W. H. Comstock, ex-M. P., was fatally injured yesterday evening by an explosion of a gas heater in his home here.

Wants

BATHS DEMANDED BY IRISH TRAMPS

Dublin, July 18.—The board of poor law guardians of Athlone have just been amazed to receive a long and emphatic manifesto from the associated tramps of the province of Leinster. The manifesto was composed of sundry resolutions passed by a mass meeting of the Knights of the Road at the Curragh, when, with "the right Hon. the head chief knight of the road" in the chair a solemn conclave of hoboes discussed the relation of their fraternity to the community in general.

The document was signed by George J. Gingerweather, chairman; David McNaboe, treasurer, and Francis Barlow, secretary, and referred to the Athlone board of guardians in no uncertain language. The members of this body, it declared, like the other poor law guardians of the neighborhood, were working chiefly for jobs for themselves and families and were not spending anywhere near enough money on "the poor, unfortunate, half-starved Knights of the Road."

As a suggestion toward this end the midnight conclave rrecommended that a bathing pond should be constructed between Castletown and Tyrell's Pass so that the tramps could get a good washing in the hot weather, if nothing else. It also hinted at mass meetings of tramps all over Ireland after the manner of the solemn gathering of American hoboes in the Middle West.

Burned in Wire Fence.

Visalia, Cal., July 19.—Entangled in a barbed wire fence, Phillip Aultman, 84 years old, was burned to death near here yesterday. Aultman was climbing through the fence to put out a fire in some weeds when his clothing caught on the barbed wire. The fire surrounded him and when assistance came he was burned beyond recognition.

ST. GEORGE'S HARBOR GRAVEYARD OF SHIPS

SPOT ON BERMUDA COAST CONSTANTLY HAS WAGED SUCCESSFUL WAR AGAINST SHIPPING OF WHOLE WORLD.

Boston, July 18.—St. George's Harbor, Bermuda, bears a sinister reputation as the graveyard of the Atlantic, and its shores present a scene of melancholy and desolation not often equaled in her array of abandoned, rotting ships of all nations, nearly all of which in times past brought cargoes from far and wide to Boston.

Every year the fleet of decaying hulks, their ravaged and yawning decks and sides growing more dilapidated with the wear and tear of time, receives reforcements in fresh victims. Such wholesome blight, such vast and hopeless dissolution, has a most depressing effect on the beholder.

The dismal scene, with gulls circling like vultures overhead, seems like death and despair personified, the end of all things, a chaos. Bermuda's cordon of pitiless, knifelike coral reefs extending twenty miles off shore on all sides yearly proves the undoing of many unfortunate, confused skippers, who by a slight deflection from their course stumble upon this deadly pitfall unguarded in mid-Atlantic.

With the rending, lacerating fangs of the jagged white ledges clutching a ship's bottom, her roaming of the seven seas may well be considered over. If wreckers succeed in freeing her from the sawlike, foam-covered barrier and floating her into harbor, salvation is not at all nigh. The cost of repairs is so prohibitive in Bermuda that her unhappy owners find themselves swamped by simple contemplation of them, and she is almost always sold for the benefit of all concerned.

Fighting World's Commerce.

At any rate her hull goes to mark another successful encounter in the conquest which Bermuda perpetually wages against the commerce of the world. After each week the shores of little St. George Harbor, or less frequently those of Hamilton, are littered with one more skeleton of a once magnificent ship, like the carcass of a huge animal picked clean by wolves. Wreckers either burn or break her up for the metal in her construction, or possibly, if her condition warrants, convert her into a coal hulk for harbor use.

Each ancient ruin recalls to the native thrilling incidents of fearful gales, shipwreck and destruction, while the disintegration of years has obliterated beneath the harbor the last reminders of yet other fine ships which have found their last resting place here in past ages.

Only a few blackened ribs showing at low tide tells the life story of the former American full-rigged ship George H. Warren, built at East Boston in 1864. Soon after being launched she was placed under German colors as protection from Confederate men-o'war, being renamed Ida. Under this and Norwegian ownership she continued for the greater part of her career. Ten years ago she got into trouble at Bermuda and was purchased by new owners there, who wished to replace her under the American flag. Legal complications arose in the way of this step, however, and as a final result the Ida, instead of resuming the cargo trade, was burned for junk.

In the upper end of the harborr are the remains of the one-time Boston bark Lillian, built at Harrington, Me., in 1873, and sold to New York parties shortly before she stranded on the reefs two years ago, while inward bound with coal. After being floated into smooth water it was found that the terrible battering had unfitted her for further use, and she was beached and stripped.

Terrible Coral Reefs.

Nestling close beside the Lillian is the Gloucester fisherman Priscilla, to all outward appearances as good as new, but never again to sail. A year or more ago she was sent there to fish on grounds supposed to exist northwest of Bermuda, it being the plan of the promoters to ship her catch regularly to New York by steamer. The Priscilla's only noteworthy achievement was striking the reefs, after which the enterprrise was abandoned.

The destructive powers of the beautiful coral reefs was never better evidenced than in the ruination of the fine steel bark Filippo Denegri, their last victim. Bound from Montevideo to New York with a cargo of bones, she went to her doom some ten miles off shore in December last. Wrecking tugs eventually succeeded in bringing her into St. Georges, still white of side and symmetrical of spar, only 18 years old, but actually fit for little more than the junk heap. She is ending her days in lightering coal about the harbor.

Tragedy veils the mystery of the Russian bark Passat, of Helsingfors, which, abandoned, was picked up at sea by a British steamer nine years ago and towed into Bermuda. No trace of the crew has ever been found. The Passat was formerly a Norwegian vessel, built at Arendal in 1878, her name meaning Trade Winds. She is now is use as a coal hulk.

NO CAUSE FOR ALARM SAYS BACTERIOLOGIST

Edmonton, July 19.—Dr. Revell, government bcteriologist, has not yet completed his examination of the dog which was turned over to him yesterday by Poundkeeper Smith as showing evidence of rabies.

'It is well for people to remember that rabies is not peculiarly a hot weather malady," said Dr. Revell to the Journal representative. "Some people are under the impression that it is the extreme heat which brings on rabies and that it is not found in cold weather. This is a mistake. There is no more dangar of an epidemic of rabies in summer than in winter.

"It should be borne in mind, also, that dogs have other kinds of sickness besides rabies, which may be quite inocuous as regards their bite. People should not be too hasty in making away with a dog that has bitten someone, or that has been acting queerly.

"Rather the dog should be kept alive for observation, of course being kept from running at large. If a dog has rabies it will die within a few days; if it does not die, the person whom it has bitten need have no fear. The bite of a dog suffering from some ordinary symptoms is not necessarily fatal. The sick dog should be fed well and given lots of water, and its behavior closely watched."

A Splendid Example.

A father has commenced the purchase of a Canadian government annuity for his son of 20 under an arrangement with the son that he is to bear a portion of the expense until he, the son, is able to assume the whole payment of $50 a year, which is the amount required to be paid from 20 to 60 for 40 years to secure for the son at 60 an annuity of $507.69. It will be seen that the total payments will amount to $2000, and that the return each year will be over one-fourth of this amount so long as the son lives after he attains the age of 60. If he dies before the annuity is due, all his payments with 3 per cent compound interest up to the time of his death will be refunded to his legal representatives. If he died at 30 they would receive $590, at 35 $957.85, at 40 $1,383.80, at 45 $1,877.65, at 50 $2,450, at 55 $3,113.80, at 60 $3,883.15.

GOLD DUST will

sterilize your kitchen things and make them wholesome and sanitary

Soap only cleans; GOLD DUST cleans and sterilizes.

Soap washes over the surface, leaving a greasy film behind it; GOLD DUST digs deep after germs and impurities, and insures purity and safety.

Soap needs muscle help (as an exerciser, it's fine); GOLD DUST does all the hard part of the work without your assistance, leaving you to take your exercise in a more enjoyable manner.

GOLD DUST is a good, honest, vegetable oil soap, to which is added other purifying materials in just the right proportions to cleanse easily, vigorously, and without harm to fabric, utensil or hands.

"Let the GOLD DUST Twins do your work."

Made by THE N. K. FAIRBANK COMPANY
Makers of FAIRY SOAP, the oval cake.

BUSINESS DIRECTORY

BOARD OF TRADE—NEW WESTminster Board of Trade meets in the board room, City Hall, as follows: Third Thursday of each month; quarterly meeting on the third Thursday of February, May, August and November, at 8 p.m. Annual meetings on the third Thursday of February. New members may be proposed and elected at any month ly or quarterly meeting. C. H. Stuart-Wade, secretary.

I. O. O. F. AMITY LODGE, NO. 27—The regular meetings of this lodge are held in Odd Fellows' Hall, corner Carnarvon and Eighth streets, every Monday evening at 8 o'clock. Visiting brethren cordially invited to attend. George Adams, N.G.; W. C. Coatham, P.G., recording secretary; J. W. MacDonald, financial secretary.

HIPPOPOTAMUS SKIN ON EXHIBIT

PRODUCTION CREDIT TO ART OF SCULPTOR—NOW PART OF GROUP DEPICTING AFRICAN WILD LIFE.

New York, July 18.—After months of hard work, requiring much technical skill on the part of the sculptor, a new group, consisting of two zebras and Caliph, a hippopotamus known for many years to visitors at the Central park zoo, have been added to the African Hall collection in the American Museum of Natural History.

Caliph was brought to America from the Nile in 1872, when he was 4 years old. He was bought for $6000 in 1888 for the Central Parrk menagerie, and died five years ago, mourned by every child in New York. At the time of his death he weighed between four and five tons, being the largest hippopotamus of which there is any record. The stretch of his mouth was four feet nine inches. The skin, which weighed 1200 pounds, when freshly taken from the body was shaved down to sixty-eight pounds before it was stretched over the model prepared for it by Frederick Blaschke, animal sculptor of the museum staff.

Old Caliph and the zebra group form a part of a series planned to cover the large game of Africa, and artists say Mr. Blascke never has done better work. The task of making animal models in clay so exactly that the skin, thinned to the last degree consistent with durability, will fit with every wrinkle and fold in proper place, is regarded as very difficult, and Mr. Blaschke's associates say the work on Caliph called out all the skill which came of his training under Prof. Stobl in Budapest, in the Berlin Academy of Science, and under Rodin in Paris.

The modeling and mounting of Caliph involved special difficulties, it was pointed out at the museum yesterday, because of the giant size of the animal and the character of the skin being adapted by nature to life in the water. The result as any visitor to the museum may see, is a fine example of the application of modelling to the art of taxidermy.

"The work of a sculptor in a museum," said a curator regarding the technical difficulties overcome by Mr. Blaschke, "must stand for scientific truth, for accurate presentation—not in a few details, from the work of an animal sculptor in art, where detail may be wholly subordinated to action or character. In animal sculptor for science, howeverr, it would be unfortunate if the art of showing the spirit of an animal were lacking, and most fortunate if the sculptor combined with his power of accuracy an appreciation and sympathy which would give him ability to see life from the animal's viewpoint and to set forth convincingly, in spite of the intrusion of detail the impression of his mind.

"To use one of the examples at hand, a zebra must stand before the public as a representative of a given genius and species, and it may be mounted to show its haunts and habits. But there will be no confusion as to its scientific status if, in addition to technical accuracy, the work gives an understanding of the animal's characteristic timidity and nervous activity. Thus the finer conception of the zebra living is set forth and strong human interest of a work of art realized.

Conception Well Achieved.

"This conception is rather well achieved in the new zebra group, notwithstanding that the group represents a composition of animals in repose. The group stands against the walls of the African Hall, with no habitat constructed about it, yet there is so much alertness in the lines of the tense muscles of the male zebra that the suggestion is vividly apparent to any one who knows anything of wild African life, that this zebra is looking out over the reaches of African country alive to the possibility of an enemy's approach.

"A new era for the Natural History Museum came when the taxidermy method gave way to the careful delineation of the sculptor. It is likely that this change marks only the beinning of a new era, however, the work having very large possibilities in an age when animal sculpture is of the highest level in its history. Hence it is that unusual interest will attach to work done in this line in the immediate future, especially with the museum's plans in hand for okapi, white rhinoceros, elephant, and other mammal groups.

"No ability can prove too great to bring to the work, no training too thorough, no understanding of animal life too profound. In fact, the highest standard for the work is made imperitive by the need of andequate and permanent record of the world's large game, much of which is destined to become extinct."

Valuable New Gusher.

Medicine Hat, Alta., July 19.—Medicine Hat capped the new city well this morning when an official test revealed the fact that the well is the greatest producer of the cluster. The mercury showed the flow to be 4,285,000 cubic feet per twenty-four hours.

ADVENTURE OUTFITS FOR ARCTIC TRADING

CAPTAIN COUCH DOES NOT THINK HUDSON BAY ROUTE IS PAYING PROPOSITION—ROMANCE OF FUR TRAPPING.

Montreal, July 19.—While the good ships Pelican and Beothic, that nose their way through icy Arctic waters for the benefit of the Hudson's Bay company, lie calmly in this port, it is a rather curious coincidence that their chief rival, the staunch Adventure, which is chartered by Revillon Freres, should also moor here and outfit for the coming season's campaign along the Labrador coast, through Hudson straits, then down the east coast of Hudson Bay and into the very heel of James Bay.

Here is a real romance rubbing elbows with prosaic commerce, and there is sufficient material afloat in Montreal port just now to furnish plots and plans for a score of Ballantyne stories. What a chance for a boy to meet a man who had actually set foot in Ungava, who had met the ice drift from Fox Channel and had been held prisoner in August ice fields!

Captain Couch comes into the category of "jolly" as applied to mariners, and when he rests comfortably in his seat in the Adventure's cabin, yarns fall thick and fast, and seem like Clarke Russell stories come to life, and relieved by the humor of a Jacob's tale.

The Hudson Bay Route.

A Devonshire man with twenty-five years' experience and life in Newfoundland, and many cruises in Arctic waters, Captain Couch has a wide knowledge of conditions in the great circle, and he is emphatic in his assertion that the Hudson Bay water route is not a profitable commercial possibility.

"The ice conditions are so uncertain, and they change from year to year," said Captain Couch. "Sometimes there is thick ice in August, and here is a photograph that shows the Adventure surrounded by ice at Port Burwell on August 11, 1906. Sometimes there is clear water on July 15, but more often there is not, but it should be a specially constructed vessel to brave the power of the ice fields. Now the Adventure is specially designed for that purpose, being built after plans of Alex. Harney, of St. John, Newfoundland. She was built at Dundee and engined at Dundee. Her frames are only fourteen inches apart and are further strengthened by pitch pine beams six feet apart. With all that she was once squeezed so tight that her sides were shoved in two inches, but not a plate parted from its fellow. You can imagine what such pressure would do to any ordinary craft. Her plates are 1 1-2 inches thick so that they can stand quite a strain."

Heroes of Trade.

Captain Couch had some interesting tales to tell of the growth of trading posts. For instance a party of four set ashore at Port Harrison; an old country Frenchman, Armand Herodier, and a Canadian, F. C. Martineau, with two Esquimaux. They set to work, erected their house, and although there was not a sign of a native when the Adventure left them at their lonely post, yet when a year later the staunch craft poked her way in, there was a big party in sight, and a wealth of furs ready for shipment to civilized lands to be fashioned for my lady's comfort. Life in such a post will not want for adventure, but they needs must be hardy men to spend their lives so.

There is plenty of fur in the land yet, said Captain Couch, principally foxes, white and silver, and martens.

While on the subject of ice and weather, Captain Couch pointed to pictures of himself and the men with heads swathed in bandages. This he explained was as protection against the mosquito. It appears that there is always a bad season of about three weeks when these pests make their presence painfully felt, and the northern 'skeeter is a sharp nipper.

The Adventure, as befits her name, has had an adventurous career. Five years ago she was enployed by the Canadian government and took supplies to the police forts at Fullerton and Churchill, and for four years has been chartered by Revillon Freres, and used in their fur trade enterprises.

BANISH THOSE GRAY HAIRS!
Kill the Dandruff Germs—Stop Hair Falling

Thousands of mothers are looking younger.—Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Dandruff Cured
Three applications removed all the dandruff and left my scalp clean, white and smooth.
Wm. Croak, Rochester, N. Y.

Restores Gray Hair to Natural Color

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR REMEDY a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored
My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.
MISS E. A. ROSS,
Sharon, Mercer Co., Pa.

Grew Hair on a Bald Head
For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.
STEPHEN BACON,
Rochester, N. Y.

WHERE IS THE GRAFT?

Something in the nature of a mild sensation has been caused in this city by the publication of an article in the Columbian, setting forth sundry discrepancies and errors in the prices of foods and domestic supplies prevailing here, as published in the Labor Gazette for the month of June. In most cases the prices quoted for New Westminster are considerably higher than those given for Vancouver. That the quotations given are decidedly wrong there cannot be any doubt; but it is preposterous to suggest that these figures have been quoted in the official organ of the department of labor at Ottawa for the purpose of demonstrating to the intending settler desiring to choose between Vancouver and Westminster that in the latter place "your food will cost you more." There can be no possible motive on the part of the federal government in trying to advance the interests of one city at the expense of the other, and in such a way as this.

It is necessary to look in another direction for the source of these incorrect quotations. We have good reason to believe that the figures given in the Labor Gazette were obtained by the department from the superintendents and contractors connected with the various large works being undertaken by the provincial government, who in their turn utilized the bills and accounts of the various purveyors. These latter are, it is almost needless to say, supporters of the government at present in power at Victoria. The prices therein charged are considerably above those asked of the ordinary customer, the said purveyors thus making an extra profit at the expense of the taxpayers of the province.

As usual our contemporary is unable to see beyond its own nose, and in its frenzied attempt to throw dirt at the department of labor to discredit the federal government generally it has forgotten that while it is drawing pap from Victoria to the measure of several thousands of dollars per annum, other good friends of the McBride administration are also receiving unholy increment of a like character from the same source. Doubtless we shall presently witness the spectacle of J. D. Taylor, who has so often proclaimed himself an honest man, arising in his place in the House of Commons and with simulated wrath asking questions of the minister about these prices and condemning the government for its desire to prejudice the interests of his constituency. It is to be hoped, however, that he will receive the answer he properly deserves.

That the matter is of serious import to New Westminster there cannot be any question, and we hope the government will take steps to have the matter enquired into, so as to prevent any similar misrepresentation occurring in the future.

GOVERNMENT BY COMMISSION.

In the request which the city council of Victoria has addressed to the councils of Vancouver and this city with reference to the proposed amendment of the Municipal Clauses Act, and which the council has decided to support by the appointment of delegates, may perhaps be detected the yearning for the commission form of government which has received so much attention since the first experience was made at Galveston, Texas, some years ago, and which has been adopted under various guises in so many places in Canada and the United States.

Mayor Morley, of Victoria, has declared himself a firm supporter of the commission form of government, and there is no doubt that the object of the proposed conference will be to persuade the representatives of the two principal mainland cities to agree to a scheme by which the legislature will sanction the commission form of government in cities and municipalities of this province above ten thousand population.

While the courts in Olympia are arguing the legal rights of small cities to adopt this form of control in the neighboring state of Washington, the adjacent Canadian province of Alberta is seeking to draft a uniform municipal law for the whole province. The commission form of government is in the fierce furnace of criticism in Edmonton, and yet other Alberta towns are longing for the adoption of the plan.

It is not two years ago since Westminster abandoned her charters, which had proved obsolete, and came under the provisions of the Municipal Clauses Act, which applies to the whole province. Whether the city is ready for a change remains to be seen, but no doubt Victoria is suffering from very serious disabilities under the system which prevails there, and makes the council feel that any change would be an improvement.

It had been felt that the commission form of government might be suitable for a rapidly growning community, like the cities of Western Canada, or a relief from corruption like some of the American towns experienced under boodle aldermen, but the proposal of Reeve Weart tto obtain powers for its adoption in municipalities of a non-urban character is a new idea for this province, and by experience can it alone be judged. His arguments are strong, and must carry weight when the legislature considers the whole municipal law of British Columbia, and its adaptability to the needs of the progressive communities here.

The disgraceful condition in which the streets of this city are left for weeks after the sidewalk improvements have been completed has become a matter of general comment. The appearance of Clarkson, Lorne and Mackenzie streets at the present time, for instance, is most disgraceful, and must attract the unfavorable notice of visitors. We had, however, forgotten for the moment that so far as the last named thoroughfare is concerned the work of laying the sidewalk, which was commenced eleven months ago. is not yet completed. The grading on nearly all the streets where the new sidewalks have been laid also yet remains to be done. On Front street the old wooden sidewalk was torn up some weeks since, but at this point the work was abandoned leaving the laying of the cement pavement to be commenced at some time in the distant future.

FORTUNE FOR FAMILY.

Former Regina Lady Now Claiming Urquhart Millions.

Regina, July 19.—The Watt family, residing on St. John street in this city, have been discovered to be directly connected with a large fortune at present in chancery in Scotland awaiting a claimant. The fortune is estimated at $15,000,000, and was left by a Highlander named Urquhart. Many claimants have now come to hand for the money, including Mrs. John Gillies, of High River, Alberta. Mrs. Gillies has a record of the past generations of her family and a lawyer in Scotland is protecting her interests. The Regina connection with the fortune is rather remote. A few years ago a Miss "Dollie" Watt, daughter of the local family of Watts, married a Mr. Gillies, son of Mrs. John Gillies, of High River, the claimant for the huge fortune mentioned above.

Miss Watt, when interviewed yesterday afternoon, acknowledged the relationship to Mrs. Gillies, and was able to give some information regarding the fortune. The fortune is said to be $15,000,000, which was left by a Highlander named Urquhart, who met a mysterious death in India. The direct heirs to the fortune are dead, and now about 2000 of the more remote relatives of the deceased have placed their claim for a share of the large fortune.

PRESCRIPTION FOR SMOKING.

Latest Theory About Tobacco Is That It Is a Medicine.

New York, July 19.—Let the good physician prescribe for you if you feel that you ought to smoke, for if the right kind of tobacco is burned you may live a hundred years. It is likely the medical man will say, "Extirpate the appetency" and obliterate it from your memory like a vain appendix. The latest theory about the fragrant weed as expounded by Dr. William F. Waugh, of Chicago, in The New York Medical Journal, is that it is medicine.

"Tobacco is a heart sedative," observes Dr. Waugh, "and the fact that many hearts learn to accommodate themselves to the burden and continue apparently normal functionation for many years, despite the heart poison, does not alter the fact that it is a poison. The cases are exceptional in which the heart that endures tobacco and whisky for 50 years would not have gone on for twenty years more without them. The exceptional cases where tobacco is beneficial are pathological, and it should be prescribed by the physician like any other drug."

IN THE SUPREME COURT OF BRITISH COLUMBIA.

IN THE MATTER of the estate of JAMES CAMPBELL MURPHY, deceased.

Sealed tenders will be received by the undersigned up to one o'clock in the afternoon on the 1st day of August, 1911, for the purchase of the south half of the southeast quarter of section five (5), township eight (8), in the district of New Westminster and province of British Columbia, containing eighty (80) acres more or less.

This land is well situated near Cloverdale, in the Municipality of Surrey. About ten (10) acres are cleared and stumped and about ten (10) acres more partly cleared. There is a small house on the property.

All tenders must be accompanied by a marked cheque for five (5) per centum of the purchase price. If tender is not accepted cheque will be returned.

Tenderers will name the amount of cash which they are prepared to pay and also the terms which they will expect for payment of the balance.

The highest or any tender will not necessarily be accepted and all tenders shall be subject to the approval of the Judge.

For further particulars apply to Messrs. Wade, Wheatler, McQuarrie & Martin, rooms 7 and 8 Guichon block, New Westminster, B. C., or rooms 20 and 21 Williams building, Vancouver, B. C.

Dated this fifteenth day of July, 1911.

MATTERS MARTIAL

BY GARETH

If true, the two reports lately received concerning Lord Kitchener of Khartoum look very much as if the services of that renowned soldier are to be lost to the army. The two facts rumored, namely that he is to succeed the late Sir Eldon Gorst as British agent and consul general in Egypt, and that he is shortly to be married, seem to point to the conclusion of a brilliant military career. However, it is to be hoped that many years of successful administration and fresh laurels gained, are in store for perhaps the most remarkable soldier of the present day.

Horatio Herbert Kitchener was born in the year 1850 of English parentage at Ballylongford, County Kerry, Ireland. He is the eldest of the three distinguished soldier sons of Lieutenant Colonel H. H. Kitchener, the second being Colonel H. E. C. Kitchener, and the third Lieutenant General F. W. Kitchener.

Having entered the Royal Military academy at Woolwich in the year 1868, he passed out with honors three years later and joined the Royal Engineers, of which famous corps he became colonel commandant in 1906.

We first hear of him in connection with the military surveys of Palestine and Cyprus, on which useful but inglorious work he was engaged from 1874 to 1882. Thence he went to Egypt and assumed command of the native cavalry, serving with distinction in the Nile expedition of 1884-5 and the subsequent frontier fighting against the followers of the Mahdi in t he Soudan.

He became Sirdar, or commander-in-chief of the Egyptian army in 1890 and successfully directed the operations of the Dongola expeditionery force which resulted in the final overthrow of Mahdism at Omdurman. For his services he was raised to the peerage and presented with a grant of $150,000.

In the dark days towards the close of 1899, Lord Kitchener accompanied Lord Roberts to South Africa as chief-of-staff, and in 1900 he became commander-in-chief of the troops engaged in that campaign. In 1902 he successfully terminated what although only a comparatively small war, was yet probably the most wearisome and harrassing of any in the history of modern warfare. For his splendid work there he received a viscounty, a grant of $250,000 and the thanks of a grateful nation.

The next field for his unbounded talent and ceaseless energy lay in India where as commander-in-chief he remodelled and reorganized the army, which is today acknowledged to be, by even the most adverse of foreign critics, the finest fighting machine for its size in the world.

After such a glorious career we can only feel that the army's loss is the gain of the political service, and doubtless we shall in future hear as much of Lord Kitchener as an administrator as we have heard of him in the past as a soldier.

Of one thing, however, we can rest assured. Should the necessity arise, his previous training and varied experience would undoubtedly cause him to leave the office of the administrator for the array of battle.

At Tacoma—Portland 4, Tacoma 3.

BALS CLASH TOMORROW WITH MAPLE LEAFS

Both nines are training vigorously for the match between the Balmorals and Maple Leafs at Queens park tomorrow evening at 6:30. Either Dr. Doherty or George Adams will take the thankless task of umpire, and some classy ball is assured for all ball fans on that occasion.

SENIOR AMATEURS KEEN OVER SATURDAY'S GAME

The senior amateurs are keen over the match of Saturday afternoon with Victoria, and are holding stiff work-outs in view of the necessity of taking the honors on that occasion. J. J. Mahoney will referee, and a good display is assured, the match being called for 3 p.m. at Queens park. Victoria will arrive on Friday evening's boat.

There will be a meeting of the association in Vancouver on Saturday night, when the protest of Westminster against coronation day game, at which the V. A. C. were leading at three quarter time, when the parade stopped play, will come up for decision.

WEST END MEET BURNABY IN INTERMEDIATE SERIES

The intermediates will resume operations this evening when the West End meet East Burnaby. The previous match resulted in a win by five goals to two for the West Enders.

Both teams has been practicing carefully, and lacrosse enthusiasts are assured of a good time at Queens park this evening. The West End line-up will be: Goal, G. Sangster; point, Mortison; cover point, Cooper; defence field, Adams, W. Sangster and H. Battson; centre, L. Sangster; home field, D. Huggard, R. Henderson and Gregory; outside home, Keefer; inside home, Swanson; spares, Gilley and Burr.

Allow Fight Pictures.

Toronto, July 19.—An order in council passed by the Ontario cabinet is not of sufficient force to stop the exhibition of the Jeffries-Johnson fight pictures in the city or province, according to a judment of Judge Morson.

The judgment is upon appeal from the decision of Police Magistrate Denison convicting Alexander McLean of the charge of illegally exhibiting the fight pictures in Toronto.

LIBERAL CONVENTION

A convention representing the Liberals of British Columbia will be held in the city of Vancouver commencing Aug. 30, 1911.

Each provincial constituency is entitled to send ten delegates for each member which such constituency is entitled to elect to the legislature.

FAR TOO EARLY YET TO THINK OF ENGAGING YOUR CHAUFFEUR--NEXT SIXTEEN DAYS DECIDE

Candidates Who Keep After Votes Every Day Will be Among the Winners--Entire City and Outside Districts Are Becoming Absorbed In Competition for Valuable Prizes--Help Your Favorite Win.

The $1750 Auto is on Display at T. A. Muir & Co's. Drug Store. The $500 Piano Can be Seen at the Columbia Piano House. The Furniture Sets Can be Seen at Galloway & Lewis. The Watches Can Be Seen At T. Gifford's Jewelry Store. The Scholarships Were Purchased From The Westminster Modern Business School.

Only Sixteen Days More.

After that time you can rest on your laurels. You can look back on the seven weeks of excitement with a perfect feeling of satisfaction in your heart over the effort you put forth, and if that effort reached the required degree you can fully enjoy the results which it obtained for you, were it to be an automobile, a piano or any of the other valuable prizes. The Daily News would like to see you all win a prize. They would like to have each and every one of you receive some renumeraiton for the determined and energetic show of persistency that you put forth. If you have worked with an earnestness to correspond with your desire you will undoubtedly see that desire fulfilled on August 5.

Do Not Wait.

Do not wait until the day after the contest closes to wake up. It will do you little good then to sit up and rub your eyes as you look at the highest vote in your district. It won't help you to your own touring car to see that you could readily have secured a higher number of votes than the winner.

Now is the time to wake up. Now is the time to say that you will not allow yourself to be outclassed by any of your opponents. Of course you cannot know just what those running against you hold—neither can they tell what you have accumulated, but you can be perfectly certain of one thing, which is that the more you have the less likely they are to surpass you.

If every other contestant were to lay back for the remainder of the contest it might be safe for you to do likewise, but they are not going to, so the only system is to keep right after the votes until the finish.

Contestants and their friends are requested to be present and see how carefully votes are handled and counted.

Little Difference.

The contestants are beginning to realize that the difference of a few thousand votes is not a very large margin, and are not losing heart by any means. A race is never ended until the goal is reached, and there is always time for the last competitor to win out.

Make Another Trip.

If you have exhausted your territory, go over it again and sign renewals and extensions now.

The people who have promised extensions ought to be willing to help you now that the contest is on the home stretch.

Uninterested Judges.

That each candidate in the contest may feel assured of a square deal, a committee of well-known business men will be selected to act as judges to count the votes and award the prizes at the close of the contest.

Rules of the Contest.

In addition to the nomination rules published below, the following regulations will govern the conduct of the Westminster News three thousand dollar voting contest:

1. The contest opens Monday, June 12. Names and standing of candidates will be published Thursday, June 15, for the first time, and the contest will close at 9 p.m. Saturday, August 5. There will positively be no extension of the time.
2. Votes may not be secured except on subscriptions to the Daily or Weekly News or by clipping the ballots daily during the life of the contest.
3. No votes may be transferred from one candidate to another.
4. Candidates must enter from the district in which they live. If a candidate removes from one district to another during the life of the contest she will be a contestant from the district she first entered.
5. If a candidate withdraws from the contest her votes are lost.
6. Votes will be issued on all subscriptions, old and new, according to schedule.
7. A subscriber who pays up his arrears to the News will be allowed votes according to the schedule.
8. No statement made by any solicitor, canvasser or agent varying from the rules set forth will be recognized by the News.
9. Candidates by accepting their nomination and filling votes certify their agreement and these and any other published conditions of the contest.
10. The contest management of the News reserves the right to settle any controversies which arise during the contest.

Standing of Candidates.

Nominations for the big automobile contest are published below, and show the growing interest in the competition. Look them through, and see if you cannot add that of a friend.

The Prizes.

Eleven in all. Two grand prizes and nine district prizes will be divided into the three districts as follows:

The Candidate receiving the greatest number of votes in the three districts combined will be awarded the $1750 McLaughlin Buick touring car, to be seen at T. A. Muir's drug store, Columbia St.

The candidate receiving the most votes in the remaining three districts will be awarded the $500 piano. This piano was purchased from the Columbia piano house and is on display at their store, the Walker block, 425 Columbia street.

The candidates getting the greatest number of votes after the winners of the grand prizes will be given their choice of the district prizes.

The Nine District Prizes.

Three scholarships purchased from the Westminster Modern Business college. They are good for eight months tuition and worth $96 each.

Three handsome furniture sets worth $75 each purchased from Galloway & Lewis and can be seen at their store, corner Fourth and Columbia streets.

Three beautiful solid 14k. gold watches worth $40 each, purchased from and on display at T. Gifford's jewelry store on Columbia street.

The District.

In order to give every candidate an equal chance to become the possessor of one of these valuable prizes the territory has been divided into three districts as follows:

District No. 1—All territory west of east side of Sixth street, within New Westminster city limits.

District No. 2—All territory east of west side of Sixth street, including Sapperton.

District No 3—All territory covered by the Daily and Weekly News outside the city limits of New Westminster.

The Auto that will be given away by the Daily News, Aug. 5, was purchased from the McLaughlin Carriage Co., Ltd.

B. C. BRANCH: 1285 PENDER STREET WEST, CORNER JERVIS, VANCOUVER.

Machine on display at T. A. Muir & Co's Drug Store

Galloway & Lewis

4th and Columbia Streets

Three $96.00 Scholarships Will be given away by the Daily News August 5th, 1911. *in The Westminster Modern Business College*

The Modern Business School, which was established in New Westminster two years ago, an affiliation of the Vancouver Business Institute, has merited enviable fame and sucess as a school for the training and equipping of those desirious of entering business life. One of the greatest difficulties with which the management of the school has to contend is to secure enough young men and young women to meet the demands made upon them by business men for qualified competent help. The course of instruction in this school is very similar to the methods employed in the offices of business men, and a student graduating from here does not have to "learn all over again," consequently great confidence is placed in those who receive their training at the Modern.

The school has three departments, commercial, shorthand and typewriting. A. L. Bouck, principal, has charge of the commercial department and by his painstaking and conscientious attention and co-operation is enabling many young men and young ladies to "make good," as evidenced by the school register which shows an enrollment of 240 students during the past two years.

Miss McKnight, who assumes the duties of teacher of Gregg shorthand, touch typewriting and business penmanship, was the first lady on the western coast to receive a writing certificate from the world-famed writing specialists, Zaner and Bloser, of Columbus, Ohio.

In regard to the typewriting department, we desire especially to say that there are eleven of the standard typewriters with blank keyboards so that touch typewriting, now required by all up-to-date business men, is necessarily taught and in the most effective way, so satisfied was the writer company with the work being done in this department, that at the time of the demonstration by Miss Fritz, they donated a gold medal to the school to be awarded the winner of the typewriting contest held in December.

This school is of great importance and affords a great advantage to the young men and women of the Royal City and surrounding districts who contemplate a business career and it is also a decided acquisition to the city itself.

Three 14 k. Solid Gold Watches

Also prizes in the Daily News Auto Contest; one for each of the three districts. **They are on display at T. Gifford's** Jewelry Store, Columbia Street

DEPARTMENT OF RAILWAYS AND CANALS, CANADA.

HUDSON BAY RAILWAY.

Notice to Contractors.

Sealed tenders addressed to the undersigned and endorsed "Tender for construction of Hudson Bay Railway," will be received at this office, until 16 o'clock on Tuesday, the 1st of August, for a section of about 185 miles from Pas Mission to Thicket Portage.

Plans, specifications and form of contract to be entered into can be seen on and after Wednesday, May 31, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Chief Engineer of the Hudson Bay Railway, Winnipeg, at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labor, which schedule will form part of the contract.

Contractors are requested to bear in mind, that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $200,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals
Ottawa, May 26, 1911.
(Newspapers inserting this advertisement without authority from the Department will not be paid for it.)

CITY OF NEW WESTMINSTER, B.C.

Tenders for Construction of Sewers. East Half West End Sewer.

The Corporation invite tenders for the construction of about eleven miles of main sewers, laterals, manholes, etc. Plans, profiles and specifications to be obtained from the office of the City Engineer, upon payment of $20.00 to the Treasurer as a deposit.

Tenders to be deposited with the undersigned by five o'clock on the 24th July, 1911.

W. A. DUNCAN,
City Clerk.
New Westminster, B.C., July 10, 1911.

CORPORATION OF BURNABY.

To Contractors.

Tenders are invited for grading:

Douglas Road (Boundary Road east three miles).

Barnet Road (Boundary Road to Pole Line Road).

Plans and profiles may be seen at the Engineer's Office, Edmonds, B.C., and the specifications and general conditions of contract may be procurred there on depositing $5.00 which will be returned to all bona fide tenderers.

Tenders will not be considered unless submitted on official forms and accompanied by marked cheque for 5 per cent. of the amount of tender.

The Council does not bind itself to accept the lowest or any tender.

Sealed tenders addressed to the undersigned will be received up to 12 noon, July 24th, 1911.

WM. GRIFFITHS,
Clerk.
Municipal Hall, Edmonds, B. C.

R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, June 29, 1911.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

AUCTION

PUBLIC SALE OF VALUABLE PROPERTY AT EDMONDS JUNCTION.

Five Cent Fare from New Westminster.

To those looking for a SURE and LUCRATIVE INVESTMENT, for a small outlay of cash, we strongly recommend their attention to this sale,

WEDNESDAY, THE 26th INST., 2:30 p.m.

Favored with instructions we will sell to the highest bid:

(1) Store building, with two front entrances, suitable for partitioning off for two good stores, with five room flat above, and 45 foot lot, on Edmonds street—the business street, and within a block and half of station and block of new building just being erected, costing $15,000. Terms—$500 cash, balance very easy.

(2) Thirteen other lots adjoining. Terms—$90 cash, balance 6, 12 and 18 months.

Particular attention is called to these properties from an investment point of view as the activity in development in Edmonds just now is marked and houses are being started all around. This activity is bound to continue and purchase of land like the above must show a quick advance, especially when an opportunity of buying below value is afforded. Property has gone up 100 per cent. here within nine months. Go and see the place for yourself—that's all we ask, and remember these properties must be sold. Those are our instructions.

Place of sale will be announced later.

Chas. Dawson

Auctioneer and Appraiser for Ward, Burmester & von Graevenitz.
Phone 4595.

IT PAYS TO ADVERTISE — IN — THE DAILY NEWS.

NUMEROUS TEST CASES ON LORD'S DAY OBSERVANCE

Druggists, Restaurateurs and Others Summoned for Sunday Selling—Judges' Views Differ.

Toronto, July 19.—A peculiar situation has developed in regard to the judicial adjudication of appeals against police court convictions for infractions of the Lord's Day Act under Mr. Justice Middleton's decision making it illegal for refreshment vendors to sell ice cream, soft drinks, candy or tobacco on Sunday and allow the same to be carried off their premises.

Judge Morson does not uphold Mr. Justice Middleton's judgment, having already quashed some appeals from police court convictions for infringement of the Lrd's Day Act. As Mr. Justice Middleton's decision was not made on an appeal from Judge Morison's court, the latter does not know whether he is bound by it or not. He has practically intimated that he will continue to quash any such convictions that are appealed before him under the Lord's Day Act.

The matter becomes interesting in view of the fact that yesterday the police court authorities announced that they had decided to press further charges alleging breach of the Lord's Day Act in Sunday selling of ice cream, soft drinks, cigars, etc., it being averred, in each case, that the refreshment was allowed to be carried from the premises, instead of being eaten in the place.

Four summons were issued yesterday returnable on Friday, and fourteen more will be issued in the course of the next day or two.

The additional charges will be preferred against three boothkeepers at Scarbora Beach, two boothkeepers at Hanlan's Point, and six restaurateurs in various sections of the city for allowing ice cream, soft drinks and candy to be carried away; also against several druggists for the sale of tobacco.

TENDERS.

Tenders are hereby called for clearing up and burning timber and brush on the Fraser Valley branch right of way on the B. C. Electric railway.

Specifications can be seen and full particulars obtained by applying to

R. M. C. SOUPER,
Purchasing Department B. C. Electric Railway, New Westminster.

The lowest or any tender not necessarily accepted.

Tenders are invited for the erection of a two story frame workshop on Royal avenue, near Eighth street, for Mr. T. Ovens.

Tenders to be delivered not later than noon, August 1, to the undersigned, where plans and specifications may be obtained. The lowest or any tender not necessarily accepted.

GARDINER, MERCER & GARDINER,
Architects.

CORPORATION OF BURNABY.

To Contractors.

Tenders are invited for clearing and grubbing only, of the following streets:

Royal Oak road, River road to B. C. E. R. (except where no right of way), 73 chains.

Royal Oak road, centre D. L. 80 to Still creek (except where no right of way), 77 chains.

Pole Line road, Barnet road to Burrard inlet, 40 chains.

Cariboo road, Gunn road to Johnston road, 60 chains.

Queens avenue, Burrard inlet to South D. L. 121, 83 chains.

Seventh avenue, Sixth street to Coldicutt road, 100 chains.

Twentieth street, Tenth avenue (city) to Mara road, 48 chains.

Gilmour avenue, Barnet road to Douglas road, 62 chains.

Cumberland road, diversion to Burnaby lake, 40 chains.

Specifications and general conditions of contract may be procured at the Engineer's Office, Edmonds, B.C., on depositing $2.00 which will be returned to all bona fide tenderers.

Tenders will not be considered unless submitted on official forms and accompanied by marked cheque for 5 per cent. of the amount of tender.

The council does not bind itself to accept the lowest or any tender.

Sealed tenders addressed to the undersigned will be received not later than 12 noon, July 24th, 1911.

WM. GRIFFITHS,
Clerk.
Municipal Hall, Edmonds, B.C.

MAZDAZNAN CULT INTRODUCED IN EAST

PECULIAR SECRET SOCIETY HAS BRANCH IN MONTREAL—CREED AND PHILOSOPHY OF THE ZEND AVESTA.

Montreal, July 18.—Proclaiming the freedom of man and his self-sufficiency for the overcoming of evil, proclaiming also the sacredness of the family life and tie, the cult of Mazdaznan was formally installed in Montreal at the residence of Hooper Mollet, at 1063 Mount Royal avenue, where there gathered about 70 persons, about half of whom were followers of the movement, and the others desirous of examining it.

Like most religions of its type, it evidently appeals to the wealthy or well-to-do people and those of good education, and all the surroundings bespoke this fact. The meeting was in a suburban drawing room and attended by ladies and gentlemen who suggested such an atmosphere, though the dress was regulated by the circumstances, white being the predominant color of the ladies' costumes, while the gentlemen in many cases wore white suiting, either frock coats or jeckets, imparting a smack of life in Oriental and trophical climes where such garb is worn on account of the heat.

Initiation of Neophytes.

The master of the ceremonies, Dr. Ottoman Zar-Adusht Han'sh, wore priestly vestments of white, surmounted by a sort of stole in red over the shoulders, and seated in the front row were three youths, who appeared to be acloytes, and who during the service were initiated into the mysteries of the cult by some words and hidden signs. To be noted in the appearance of the disciples was the fact that they all looked healthy, thus bearing testimony to the fact that their dietary scrpues write for the flesh food and the tobacco habit produce good physical results. It was also noticeable that no man wore a beard, and a clean-shaven face was the rule. The master is said to be nearly three-score and ten, but would easily pass for fifty.

The first service was dedicatory in respect of the first home of the cult—that is, of the roof where hospitality was shown it; but beyond this Mr. Hooper Mallet has granted a plot of ground behind his house for the the erection of a temple, and this plot is to be also dedicated.

Mysticism of Telepathy.

An admixture of mysticism, pantheistic adoration and telepathic concentration seemed to mark the mental attitude, added to which was the outward manifestation in the form of ritual expressed by lighted candles, seven in number, the burning of salt as a symbol of cleansing, all of which was interspersed with congregational singing, solos, invocations, and once the reptition of what seemed to be a modification of the Paternoster.

Messages of greeting and congratulation on progress achieved by the Canadian "center" were reported from Chicago and Brooklyn.

Following the ceremony of the induction of the three youths, during which a refrain, containing a Persian word, was lustily chanted by all, the master pronounced the dedicating words upon the house, dedicated, he said, by "signs known only to those who are the members of the inner fold." Then came the singing of some verses, which he repeated, and which slightly varied in a word here and there, are sung in many an evangelical church, and as these lines were sung, "Blest be the tie that binds," the faithful joined hands.

Address on Principles.

In the address, which was then given by Dr. Ha'nish, he claimed that the history of Mazdaznanism was too well known to speak of, but apparently for the benefit of the heathen, he proceeded to retell it. Unlike all other systems and movements of the world, he said, it had retained in all its purity the idea of family teaching, holding that the ties of family relation are most sacred above all things. It was for this reason that the true principle of Mazdaznan from time immorial found expression in the father, mother and child, the father as the male positive incarnated in flesh demonstrated the fatherhood of God, the negative female, the mother of the race, the God-mother, and the child the culmination of the fatherhood and motherhood of God. With this thought and idea well rooted in the mind, the family relation had been cultured through dispensation of cycles, and at certain times, not finding suitable material to answer its higher purposes. Mazdaznan had regained this most noble teaching in their own little family circle, and only when the conditions and environment proved satisfactory would they impart whatever was contained within the annals of their specific records as was judged expedient to the wealthier of human-kind.

The master went on declare that they took in their philosophy all the great teachers, their object being the betterment of the race, teaching simplicity, and pointing out that the only way for man to overcome was by his own individual effort, as the efforts of the individual alone could bring final redemption.

The concluding portion of the address apostrophized Aainyahita, the subject of a legend of the Zend people, who was supposed to have solved the problem covering all the evolutionary stages of being.

CITY NEWS

The monthly meeting of the board of trade will be held this evening at the city hall.

H. A. Carney, of Fort George, was a visitor to the city yesterday.

The adjourned meeting of the promoters of the Burnaby Social club will be held this evening at the municipal hall, Burnaby.

Two fires engaged the fire brigades of this city during yesterday. One was a bush fire at the corner of Ninth street and Third avenue, caused by children playing with matches on a vacant lot, and the other in the sawdust district on Twelfth street.

The Dominion government boat Alcedo, Captain Laird, leaves today for Nanaimo. She has been undergoing a thorough overhauling at Dawe's ways, Lulu island. Protection work in the fisheries will keep her employed for some time.

The magnificent McLaughlin-Buick automobile, to be given away by the Daily News, is to be seen in the window at T. A. Muir's drug store, Columbia street. Full particulars on page six. **

Miss Hitcham, on the teaching staff at Columbian college, has undertaken the work of organizing educational clubs in connection with the Methodist churches of the province along the successful lines of the Women's Educational club in this city.

George L. Cassady made his first appearance as an advocate since his call to the bar yesterday. He appeared with W. G. McQuarrie to conduct the prosecution of K. Chick, a Japanese, for alleged attempted bribery. Chick was committed to the fall assizes.

J. R. Freeman, Dominion government consulting expert, of Providence, R. I., has arrived in Vancouver in company with J. B. Challies, department of interior engineer, and R. S. Stronach, Mr. Challies' assistant, tto inspect the Coquitlam lake dam. Mr. Freeman will go over the dam in company with J. D. Schuyler, consulting engineer for the Vancouver Power company.

A new box factory will shortly be in operation in Sapperton, managed by the Western Canadian Box and Card Manufacturing company, as word was received yesterday that the necessary capital in order to make a start is available, and the work of installing the machinery will be undertaken at once. This will make the third box factory in operation within the city limits.

Acting on information from the police of Vancouver, the local police authorities yesterday evening paid a visit to an up town hotel and took Ruth McDowell into custody for alleged theft in the Terminal City. The young woman was held until the arrival from the neighboring city of Detective McDonald, who escorted her to the lock-up in Vancouver, where she will be brought before the court this morning.

There was no quorum at the monthly meeting of the Royal Columbian hospital board of managers yesterday. It is largely due to the pending appointment of two representatives of the city, and two from the government to sit on the board in lieu of the representatives whose term of office has expired. The members are appointed for two years, and as a consequence only eight members are now legally entitled to sit, some of whom are out of town, making it very difficult to secure a quorum to carry on the business of the board. The Local Council of Women has already made its appointment of two ladies.

OPIUM JOINT RAIDED IN QUEEN CITY STREETS

Toronto, July 19.—Armed with search warrants yesterday, Detectives Tipton, Archibald and Armstrong effected the arrest of four men and three wmen, all negroes, who are alleged to be part of an organized gang of "alley" workers. They were all detained on the technical charge of vagrancy. Earl and Blanche Sims, Francis and Charles Shortz and Gertrude Kelly were located at a rooming house on McCaul street, while James and Louisa Harris were found in a room at 221 Richmond street west.

In the latter place an opium layout was displayed, spread out on a blanket on the floor, with lots of fruit neatly arranged all around it. The officers seized the outfit and bundled the two prisoners into the patrol wagon, after which they proceeded to the McCaul street domicile and placed the other five people under arrest.

They were all well-dressed and protested against being detained by the police, on the ground that they were tourists and had important business to transact elsewhere. They claim New York, Brooklyn and Chicago as their home towns.

ANOTHER BIG SLICE OF C. N. R. TRANSCONTINENTAL

Spokane, July 20.—Patrick Welch & Co., the well known contractors, have been awarded a contract for 551 miles of C. N. R. track between Port Arthur and Sudbury, Ontario, at a cost of $12,000,000.

The contract calls for completion of work within the period before October, 1913.

The Dominion government dredge Fruhling left yesterday for Esquimalt for overhauling. The King Edward dredge will resume operations in the North Arm at an early date.

Commencing Sunday, July 23, the steamer Transfer will make the trip to Steveston and return on Sunday afternoons during the fishing season, leaving the B. C. Electric wharf at 3 o'clock. Round trip every Saturday, leaving B.-K. wharf at 2 o'clock. **
