TURKS DEFEATED IN THIRTY HOUR BATTLE

First Victory Goes to Montenegrin Arms--Strong Position on Mountain Successfully Stormed--Four Guns Captured—Heavy Losses on Both Sides—King and Crown Prince in Action—Austria May Involve Powers in War.

Podgoritza, Montenegro, Oct. 10.—The Montenegrins have captured Detchitch mountain. The Turkish commanders and officers with many soldiers have surrendered.

For the last thirty hours, the battle between the Mountenegrin forces, under command of King Nicholas, and Turkish troops strongly entrenched in the hills has been in progress. The fight began at 8 o'clock yesterday morning, the first shot being fired by Prince Peter against the Turkish position on Mount Planintza. Within a few hours the Turks evacuated that district.

Silenced Batteries.

Strongly fortified positions were occupied by the Turks on Detchitch mountain, which commands the road to Scutari, and reinforcements were brought, resulting in a general engagement, which extended along the line for several miles. King Nicholas remained at his headquarters at Rodgoritza, while Crown Prince Danilo directed operations at the front. The Montenegrins resumed the bombardment of Detchitch at dawn and a heavy cannonading was kept up until 11 o'clock in the morning when the Turkish batteries on the mountain were silenced.

Turks Surrender.

Meanwhile a great battle was near the Turkish town of Tushi, about 13 miles south of Podgoritza. At 4 o'clock in the afternoon the Turkish commander on Detchitch with his officers and a majority of his troops surrendered. The Montenegrins captured four guns.

The Montenegrin standard was hoisted over the captured position. There were heavy losses on both sides, but the Montenegrin camp gave itself to rejoicing on the first victory of the war.

A division of Montenegrins commanded by General Vukotuch crossed the frontier early this morning near Berana.

Puzzling Situation.

London, Oct. 10—Montenegro claims the first victory in the Balkan war by the capture of the strong Turkish position on Detchitch mountain, whose commander surrendered today, with the bulk of his forces. Montenegrins also crossed the frontier near Berana and according to the Turkish accounts, have been repulsed.

The situation meanwhile is as puzzling as before. No declaration of war has been issued by the other allied Balkan states and there is no news of their ministers having left Constantinople. It cannot be definitely said whether Montenegro has acted independently, with the motive of forcing a conflict so as to render the efforts of the powers to preserve peace negatory, or in accordance with a strategic plan arranged by the coalition.

Guns Will Decide.

The powers today presented a collective note inviting Turkey to discuss a scheme for reforms in Macedonia. It appears, however, that though diplomacy is trying to arrange the matter peaceably, guns will decide it for them.

Fresh Bulgarian attacks on Turkish frontier towns are reported tonight and the opinion is growing that the opposing parties are only using diplomatic delays to concentrate their forces in readiness for the inevitable outbreak.

Austria Causes Sensation.

The statement of the Austro-Hungarian foreign minister, Count von Berchthold, to the Hungarian delegation today that Austria is prepared to guard her interests in the Balkans has caused a sensation in European capitals.

The Frankfurter Zeitung publishes a report that Greece will withdraw from the Balkan agreement and mobilize, but this is hardly credited here. Both Greece and Turkey are trying to purchase the Chinese cruiser Chao-Me, recently built at Newcastle.

The mobilization of the Bulgarian army is complete. Five Russian aviators arrived today to operate with the Bulgarian forces, according to a news agency dispatch from Sofia.

Italy Tires of Turkey.

Paris, Oct. 10.—The final negotiations for peace between Turkey and Italy have been delayed by the hesitation of Turkey, says a despatch from Rome to the Temps. Italy has fixed Saturday as a limit, after which it may break off negotiations.

Poles May Revolt.

Paris, Oct. 10.—Reports of a possible insurrection in Poland have resulted in secret instructions being given financiers in Russian Poland to transfer their documents and valuables to Moscow, according to a St Petersburg despatch to the Temps.

DEBATE ON SCHOOL INSURANCE GOES ON

Vancouver's Fire Protection and Eastern Rates Compared With Westminster—No Settlement.

Insurance in all its varied forms, but especially insurance on school buildings, was the chief topic of the evening at the meeting of the board of school trustees last night. A deputation sent by the Westminster members of the Mainland Board of Underwriters was present to explain its basis of rating on the school buildings which the board considered too high. Mr. A. W. McLeod, the appointee of the board to investigate the matter, was also in attendance.

The discussion was very long and contentious, many technicalities and figures having to be examined before a satisfactory understanding could be reached.

Mr. Malins, spokesman of the delegation, said that in reality its rates had been reduced and not advanced as understood by the trustees, but that when the buildings had been insured previously 65 per cent. of the rating had been for brick and the remainder for frame, while now the trustees were calling for insurance on 26 per cent. of brick buildings and 74 per cent. were frame buildings. It seemed that a higher rating had to be placed on frame buildings. He also added that the rating had been made not in a haphazard fashion, but on a scientific basis by thoroughly experienced men. On being challenged he agreed that the rates were lower in Vancouver, but he replied that protection afforded buildings was greater than here.

Trustee Reid disputed Mr. Malins' statement, declaring that though Vancouver might be about 2 per cent. ahead of this city on fire equipment, it had nothing on Westminster as far as water pressure or hydrants were concerned. In reply the leader of the deputation stated that reports on the standing of the two cities had been made by high priced men who knew their business.

Arguing from the universal schedule which the Board of Underwriters usually based their charges, Mr. A. W. McLeod stated that the rates offered were too high. He declared that the board companies were giving much lower rates in other cities in Canada where the fire and water protection was on a parity with Westminster, and that they did not give the same credit to the local school buildings as they did elsewhere. The companies, he stated, citing one or two as instances, were charging 60 cents on frame buildings in New York state towns, while they demanded 90 cents here.

Mr. Malins argued that it was a known fact that things in B. C. were different to the East. The board thanked the delegation and Mr. McLeod for their information. No action, however, was taken nor any opinion expressed as to what procedure the trustees would follow.

AID IS REQUESTED FOR WIDOW AND FATHERLESS

It is gratifying to announce that the fund for Mrs. Joynson and her three little children is gradually swelling. A total of $61.50 was received yesterday, one of the contributions being sent in from Vancouver. The list will close on October 21, and it is hoped that by that date a very substantial sum will be to hand. ....

Contributions may be sent to Rev E. G. Thompson, 407 Columbia street, may be paid in to any of the city banks, or will be received at the offices of the Westminster Daily News or the British Columbian.

SUBSCRIPTION LIST.

Penitentiary staff	$210.00
Y. M. C. A. collection	26.30
A Friend	.50
Three Sympathizers	110.00
Mr. Bourne	25.00
J. J. Johnston	10.00
Mrs. William Johnston	10.00
Mrs. R. Smith	10.00
Mr. Melrose	.50
E. R. McMillan	5.00
Arthur Malins	5.00
Russell H. McAllister, Vancouver	5.00
Mr. and Mrs. C. G. Major	25.00
H. L. Edmonds	10.00
Mrs. N. Mitchell	1.00
Total	$452.30

GREEKS REJOICE AT SUMMONS TO RETURN

Reserves Definitely Called Out—Westminster Men Leave Forthwith—75,000 in America.

With definite word at last received to mobilize in their native country the 350 reserve men of the Greek army now residing in Westminster and district are making final arrangements for their departure from Canada. The local men will hold a meeting this evening to decide various matters in connection with their transportation to their native country.

The call which arrived yesterday will affect in the neighborhood of 75,000 Greeks residing in Canada and the United States. About 1200 will go from Vancouver, and several thousands residing in other places in the Dominion are also expected to migrate.

There was great jubilation among the members of the local colony last evening when the despatches from the seat of war reported that the Turks had suffered defeat at the hands of the Montenegrins, who were fighting singlehanded the cause of the Balkan peoples. That the Turks will be defeated ultimately is the emphatic opinion held by the Greeks residing here, who think that nothing but victory is assured the opposing forces.

EDMONDS OBSERVES HARVEST FESTIVAL

Canon d'Easum Preaches at St. Alban's Church—People Working for Parish House.

Edmonds, Oct. 10.—A large congregation gathered in St. Alban's church this evening, the occasion being the annual Harvest Thanksgiving service. The church had been beautifully decorated by the ladies of the parish, the fruits and vegetables placed in every nook and corner testifying to the substantial crops which have been harvested.

Following a special anthem by the choir, "Ye Shall Dwell in the Land," Canon G. C. d'Easum, rector of Holy Trinity cathedral, preached an eloquent sermon for the occasion, taking for his text "Give us this day our daily bread."

The canon said in part: "We meet here this evening to offer up our thanksgiving to Our Maker, following the custom handed down for centuries. We need be thankful for the blessings vouchsafed us this past year. We are wont to make our plans without a thought of God, sometimes throwing in a 'D.V.' now and then.

"Thankfulness is really the true heart of religion. Only a business than can be combined with religion is a honorable business. In prosperous times when work and circumstances are good the offerings to the church should be in due proportion. There may be some of us who consider the year has been an unfortunate one for them, but one might recall what a preacher in the Northwest said when praying for his flock. He was thankful that they were not prisoners in a penitentiary or lunatics in an asylum. Let us thank God, not in the spirit of the Pharisee, but in that of a humble servant.

"The church people in Edmonds are working for a parish house and the collection this evening will be turned over to that fund. If thou hast much, give plentifully, and if thou hast little, do not be ashamed to give little."

Harvest services will be held on Sunday morning and evening next.

SIX ITALIAN WORKERS MAIMED BY DYNAMITE

North Bay, Ont., Oct. 10.—An explosion of dynamite on the construction work of the Algoma Eastern Railway, near Sudbury, this afternoon, fatally injured six Italian laborers. One man had both arms blown off and another lost both eyes and suffered severe injuries to his head.

The others had arms and legs broken. The injured men were rushed to the Sudbury Hospital, where it is stated several will die. The explosion resulted from the handling of a box of dynamite caps by a laborer.

NOVEMBER 14 LIKELY DATE FOR SUMMONS

Ottawa, Oct. 10.—It was stated in government circles today that if it is found to be at all possible parliament will be summoned for Thursday, November 14. It is felt that if the work of the session is not commenced by the middle of November very little will be accomplished before the adjournment before the Christmas recess. For that reason parliament is more likely to be called for November 14 than for November 21.

HOT FIGHT RAGING IN BYE ELECTION

Lively Doings in Manitoba—"Gum-Shoe Politicians"—"Russianized Constabulary."

Winnipeg, Oct. 10.—As the Macdonald bye-election campaign draws to a close it increases in heat and violence. For the moment the issues are lost sight of in a tossing to and fro of the respective leaders of argument and invective over the arrest of two alleged vote manipulators by the provincial police. Sir Redmond Roblin and his followers declare the constituency is being flooded by gum-shoe politicians from Saskatchewan and the Liberal leaders retort with a protest against the high-handed treatment of honest citizens.

In the course of a telegram of protest sent to the Manitoba premier today, Messrs. Edward Brown, E. D. Martin and Frank O. Fowler challenge the aspiration of Sir Redmond on the volunteers from Saskatchewan and ask the electors of Macdonald to "register their opinion on the Russianizing of our constabulary and the degradation of our minor courts of justice for which you are directly and personally responsible."

"Since Magna Charta was wrested from a tyrannic king," says counsel for D. H. Wilkinshaw, whose case has been enlarged to the afternoon of election day, "there has been no such invasion of the sacred domain of British justice and fair play. It is political lynch law."

On the other side the government forces claim that Sullivan, who was arrested at Carman, has agreed to return to Saskatchewan rather than face the charge laid against him.

The government organizers predict they will sweep the riding and will get a majority of from a thousand to fifteen hundred. They claim they have the solid French vote. While offering no figures those who have Mr. Richardson's campaign in hand express themselves as quite confident of winning the seat. But it is all guess work. Both sides are making elaborate preparations for assembling in Winnipeg for the returns on the different polls, but some of these are hard to get at and during the recent general election Macdonald was one of the last Manitoba seats to submit to definite figures.

WESTERN LIVESTOCK FALLS OFF GREATLY

Rate Enquiry Adjourned—Nearly Half Freight of British Columbia is Ore Tonnage.

Ottawa, Oct. 10.—After running for a little over three and a half days the resumed inquiry into the western freight rates before the railway board was adjourned this afternoon until November 4.

M. K. Cowan, counsel for the Alberta and Saskatchewan boards, took some exception to the date on the score that he might not be able to be present, but his protest did not prevail with the board, which desires the counsel for the federal and provincial governments and the Winnipeg board of trade will analyize all the facts and figures as presented by the railways and come back to Ottawa prepared to proceed with the cross-examination with the railway witnesses.

The most interesting statement made during the day was the declaration of Vice-President and General Manager Hanna, of the C. N. R., that the C. N. R. could not stand anything in the way of freight reduction. He quoted figures to show that the surpluses of the company are not large and said that if the rates were reduced they would be wiped out and probably more.

Mr. Hanna further stated that the west is prosperous under the existing rates, more prosperous as a matter of fact than any country in the world. He also expressed the view that it would not be right to deprive the C. P. R. of the privilege of making legitimate profits in view of all that the company has done to develop the Dominion.

J. E. Dalrymple, vice-president of the Grand Trunk, was the last witness examined by the railway board today. He did not go into detail, but said he agreed with the evidence submitted by the C. P. R. and C. N. R.

The railways have not closed their case, but will submit more evidence at the later sittings.

One of the interesting exhibits by the C. P. R. at today's sitting shows the statement of dairy products, grains, hay and clover, potatoes, turnips and fruits. Ontario and Quebec produced in 1910 twenty-four million tons as against seven million tons in Alberta, Saskatchewan and British Columbia. It also showed the falling off in the live stock industry in the West. Alberta and Saskatchewan raising about one-quarter as many horses, cows, sheep and swine as are raised in Ontario and Quebec.

Another statement showed that in the tonnage originated on the various parts of the C. P. R. the East still ex-

(Continued on page four)

BURNABY TO HOLD BIG FLOWER SHOW

Plans Are Under Way for Next Summer—Strong Committee Takes Immediate Action.

Edmonds, Oct. 10.—Burnaby is not going to sit down and watch other municipalities hold successful flower shows. This was evident last evening when a representative body of the residents of Edmonds and East Burnaby decided that the summer of 1913 would be the right time, and the municipal grounds at Edmonds the right place for the holding of such an event.

The meeting was held in the municipal hall with Mr. A. S. McPherson in the chair, and another gathering is slated for the evening of October 23. In the interim, a strong committee composed of Messrs. A. L. McPherson, T. B. Harrison, A. S. Patrick, W. S. Rose, H. W. Mansfield and W. S. Vivian will proclaim this idea throughout the length and breadth of Burnaby so that all horticulturists will be present at the gathering.

The boards of trade and Progressive associations of both New Westminster and Vancouver have been asked to send a delegate to the meeting and the support of the Burnaby board of trade is being solicited also.

LUMBER MILL IS ADDING TO PLANT

British Canadian Company Begins Erection of Planing Mill and Cooling Sheds.

The British Canadian Lumber Company took out a permit at the building inspector's office at the city hall yesterday for the erection of a planing mill and cooling sheds on their Lulu Island property to cost in the neighborhood of $11,000. This is in line with the plans of the company to extend its plant when the occasion warrants it.

The planing mill will be 140 by 194 feet and fitted up with all the latest and most time saving machinery. The cooling sheds which are for the purpose of cooling the lumber after it comes out of the dry kilns, will be 73 by 128 feet in dimensions. As in the case with the planing mill the latest and most improved style of construction will be used in both the building and its equipment.

One of the latest developments around Westminster's biggest industry is the practical completion of the railroad tracks. The company has been waiting for these for some time and now that they are finished a start will be made immediately at cutting lumber for export. It is expected to begin the loading for the first shipments on Monday and operations will continue right on from that time. The plant is now operating in first class order and is having all the work it can do handling the orders which have been pouring in since establishment.

TURKISH STUDENTS CLAMORING FOR WAR

Five Thousand March to Porte and Protest Against Reform in Macedonia.

Constantinople, Oct. 8.—(Tuesday, delayed in transmission.)—A violent storm of opposition has been aroused by the Turkish government's decision to grant reforms in Macedonia.

Two students, armed with revolvers, today marched to the Porte, clamoring for "war and no surrender." On the way they met the minister of war to whom they shouted "We want war."

The minister replied: "Nobody wants peace."

Arriving at the Porte, where the ministers were sitting in council, the students, whose numbers had swollen to more than 5000, broke the windows of the grand vizierate, shouting "We will not have the treaty of Berlin."

The grand vizier, Ghazi Abmed Mukhtar Pasha, who assured them that application of article XXIII of the treaty of Berlin did not mean autonomy or independence for Macedonia, was received with hisses. He persisted, however, saying that the longer war was delayed the better it was for Turkey; but the cries of "Hurrah for war" continued unabated.

Eventually the grand vizier promised to receive a deputation of the students, and the crowd dispersed.

It is believed the demonstration was organized by the party of Union and Progress and that the position of the cabinet will be compromised if it shows any weakness.

This is the first dispatch from Constantinople since martial law was declared. It was sent by indirect routes.

BOTH COMMITTED TO STAND TRIAL

Shackled Convicts Arraigned in Police Court on Murder Charge.

Smith Asks Guard Why He Could Not Hit Him.—Wilson Had Revolver Concealed.

After hearing the evidence, the greater part of which had been related before the coroner's jury, Magistrate Edmonds, yesterday afternoon committed the two convicts, Wilson and Smith, to stand trial at the next assizes for the murder of Guard Joynson, who was killed at the British Columbia penitentiary on Saturday afternoon last.

The hearing began at 3 o'clock and the accused men were brought in by the police patrol, heavily shackled with leg and wrist irons. Smith is of small stature, little more than five feet in height, and looked a pigmy against Wilson, who is a well built, strong featured man. Both were in their prison garb with closely cropped hair. Smith was wearing a plaster on his right cheek covering the wound which one of the guards inflicted upon him while shooting. Wilson's right arm was in a sling, his shoulder having been injured when Guard Elston shot at him after he had thrown down the keys of the inner gate.

Asked Questions.

Both appeared nervous at the outset of the hearing, but later in the proceedings recovered their composure and showed interest in the testimony submitted by the employees at the government institution, even going so far as to ask several of the witnesses questions connected with the shooting.

Warden John C. Brown was the first on the witness stand and related what he knew about the sad affair. Wilson, he stated, was committed in Vancouver by Judge McInnes on May 23, 1912, to a sentence of ten years and twenty lashes for robbery with violence. Smith was sentenced by Magistrate Shaw, also of Vancouver, to a term of ten years for assault with intent to steal.

Mr. G. A. Martin appeared for the city, while the prisoners were undefended.

Dr. Green, who performed the post mortem examination, testified to being called to the penitentiary and the condition in which he found Joynson when he arrived. Mr. G. Harris, undertaker's assistant, spoke of being present when Dr. Green was making the examination.

Points Out Error.

John Imiah, trade instructor at the penitentiary, submitted a plan of the government buildings. The two prisoners now appeared to liven up to the proceedings and Smith pointed out an error in the plans. This was rectified later and the exhibit was passed upon.

Robert Craig, the guard who was the first to be assaulted, gave his account of the affair. Guard Round, the next one to be held up by the convicts in their plan of escape, was next on the stand and after he had given his evidence, he was questioned by the two prisoners regarding the number of shots fired.

A new feature of the tragedy appeared when Guard Morrison stated that he picked up a rifle from the deputy warden after the shooting and wounding had taken place and that the gun had been discharged accidentally. He was asked by the court why he did not pick up the rifle which Wilson dropped after he had been wounded by Guard Elston.

The Rifle Incident.

Morrison—I saw Round running for the same rifle and therefore did not go myself.

Convict Smith (with a grin)—I know why you did not go for it.

Guard Elston related what he saw of the melee and the part he played therein. He was interrogated by Smith, who asked: "Did you fire three shots at me?"

Elston—Yes.

Smith—What distance would I be from you?

Elston—About seven paces.

Smith—Could you give any reason why you did not hit me? (Laughter.)

Elston—No.

Wilson asked Elston several ques-

(Continued on Page Eight.)

GERMAN CREW TRIES TO KILL CAPTAIN

Berlin, Oct. 10.—Three officers and eighteen men of the crew of the German steamship Lottmenzall mutinied at Horta in the Azores, and attempted to kill the captain today. The vessel was bound from Norfolk, Virginia, to Copenhagen. The mutiny was surprised by the intervention of the German cruiser Herthab, and the mutineers were arrested.

FOUND—BAY MARE ON THE 6th inst. Owner can have same by paying expenses. Acme Soda Water Works, Simpson street, Sapperton.

LONDON DIRECTORS OF LUMBER COMPANY

Said to Be Incapable—Futility of Managing B. C. Business from England.

London, Oct. 10.—Sir William Flenders, receiver and manager of the Dominion Sawmills Limited, a British Columbia Company, had an eager body of debenture holders before him yesterday when his scheme of reconstruction was considered again. He said that the company's acreage contained approximately 300,000,000 feet of merchantable standing timber, but the margin of profit was very small. Stocks which were left over last season were badly graded. Certain American manufacturers continued to dump lumber into Canada at low figures, but the courts now held that some classes of this were liable to an ad valorem duty. When his representative visited the undertaking last year he found disorganization and lack of proper supervision. It was esimated that the net profit this year would be £20,000, compared with a previous loss of probably over that sum.

Sir William Flender, however thought it unlikely that they would be able to pay more than a part of the debenture interest for a few years, and in the best interests of the company it might be advantageous to withhold any interest for a term of five years when, by careful management, the company might be put on a sound financial basis. Inquiries were being actively pursued in Canada to secure a body of directors there would command confidence.

Loud applause greeted a shareholder's assertion that the late London directorate was absolutely incapable and the company's solicitor said that the futility of trying to manage a British Columbia business from London had been amply demonstrated The scheme of reconstruction was approved unanimously.

EXPRESS COMPANIES WOULD BE RUINED

If Rates Proposed by Interstate Commerce Commission Go Into Effect —$33,000,000 Loss.

Washington, Oct. 10.—A net loss of $33,000,000 a year in the revenues of the express companies and the railroads would result from putting into effect the express rates proposed by the Interstate Commerce Commission, according to figures submitted by the companies to the commission today. This loss, it was estimated, would be divided between the express and the railroad companies. It was asserted by counsel for the express companies that the commission's rates practically would put their clients out of business. Mr. Walter D. Hines, representing the Adams, American, Southern, United States and Wells Fargo companies, said the proposed rates would cost the express companies 5.87 cents on every dollar received by them, "thus destroying all profit and producing an enormous deficit." The deficit, he said, for the companies he represented would total $6,743.622 annually, measured by the present volume of business. According to Mr. Hines' figures, the "proposed rates mean a reduction of not less than 11 cents in the total revenue per package on the express business in the United States." Several representatives of shippers were heard.

HORRORS OF WAR HAVE BEGUN TO APPEAR

Vienna, Oct. 10.—Many Albanian villages to the north of the Boyana river are in flames, according to a despatch to the Neue Freie Presse from Cattara. Many fugitives, including some wounded men, already have arrived at Scutari. Scores of peasants who fled to the frontier posts at Szamesi were slain by Montenegrins.

Shots are reported to have been exchanged today between the Turks and Bulgarian troops occupying advanced positions on the Turko-Bulgarian frontier at Timrush and Klissura.

POTATO CANKER IS THE LATEST DANGER

Has Been Spreading All Over Europe and Now Menaces Canadian Farmers.

Victoria, Oct. 10.—Potato canker is the latest danger with which farmers are threatened, according to bulletins issued by the Ottawa experimental farm, and forwarded to the provincial department of agriculture in order that a warning may be issued here. The disease is not yet known to have reached British Columbia, but is liable to acquire a domicile in the province any day unless precautions are taken.

Potato canker reached Canada last year, when, owing to the shortness of the crop there was large importations from Europe. Some of the imported tubers were used as seed, with the result that the disease has been introduced. The Dominion Government has issued an order prohibiting the importation of potatoes from Europe, Newfoundland and the islands of St. Pierre and Miquelon. Mr. W. E. Scott, deputy minister of agriculture, is having prepared a number of lantern slides illustrating the disease. The slides are to be used in lectures to the farmers' institutes throughout the province.

Potato canker, which is known scientifically as chrysophlyctis endobiota, has been spreading in Europe for the past thirteen years. It is of so virulent a nature that not only will it destroy the whole crop where it has gained a footing but it will poison the land so that no potatoes can be grown on it for five or six years without being infected.

Ready for Parliament.

Ottawa, Oct. 10.—A circular has been issued to all the departments from the Premier's office asking that the preparatory work in legislation to be dealt with at the coming session of parliament be expedited. The departments are already at work preparing their estimates so that when the House meets there will be business for it to do.

ONE EMPIRE, ONE NAVY; HIS CREED

New Zealand Statesman Favors Direct Contributions—Is Belief of His Countrymen.

London, Oct. 10.—Hon. T. McKenzie, of New Zealand, who has arrived in London, declares himself entirely in favor of direct contributions to the Imperial navy.

"I am not," he said, "a believer in the local navies scattered all over the Empire under separate control and direction, even in time of peace, much less in time of war. I am a profound believer in one Empire, one navy, and I am glad to say that the New Zealanders, as a whole, are as deeply committed to that principle as I am."

DUKE WILL REMAIN ADDITIONAL YEAR

News Will Be Popular in Canada—Prince of Wales Coming In 1914.

London, Oct. 10.—It is almost certain that the Duke of Connaught's term in Canada will extend another year, says Truth, which generally is reliable in such matters.

Continuing, Truth says:

"It is very desirable that he should be at the head of the Canadian Government when the Prince of Wales and Prince Albert visit Canada in 1914. The extension of the Duke's term will be very popular in Canada. The Duchess of Connaught and Princess Patricia are coming to England for a few weeks' visit in April of next year. They will visit the Crown Prince and Princess of Sweden at Stockholm, and it is probable that the young couple will visit Canada next autumn."

Corner 6th Ave. and 12th St.

NEW STORE

Corner 6th Ave. and 12th St.

Trenholm & Edmondson will Open Up This Store

SATURDAY, OCT. 12th

WITH A FULL LINE OF

Dishes, Hardware, Furniture, Linoleums, Floor Oils, Blankets, Comforters, Sheets, Pillows, etc.

In Fact We Intend Carrying Everything Needed for the Home

While our goods are coming as fast as steam cars bring them, yet we cannot hope to have all our full stock in for the opening day, but we will have enough in to introduce the cheapest place in the city to buy at.

In Order To Get Acquainted

With the people quickly, we are going to try a unique method, and that is: We are going to give every person over 18 years old that comes in our store between Oct. 12th and 31st, both dates included, a numbered ticket. Ten of these tickets will represent ten different prizes. For instance, a certain ticket will entitle holder to an All Felt No. 1 Mattress, worth $15.00. Another ticket will entitle holder to a 97-Piece Dinner Set, and so on until ten prizes are given away. Remember these prizes are absolutely free to the lucky ticket holders, and you are not required to buy anything whatever; just call in and see us is the only condition. We are not throwing money away. We believe that this is the best way to advertise our business, so come in and see us, and you will have ten chances to get a nice present. Don't forget the place

The Mandeville Block, corner 12th Street and 6th Avenue

Right on the New Westminster--Vancouver Car Line.

TRENHOLM & EDMONDSON

WELCOMES AMERICANS TO CANADIAN SOIL

Royal Party at Macleod—Notable Speech of H. R. H. the Duke of Connaught.

MacLeod, Alta., Oct. 10.—On the arrival of the royal train at 11 o'clock today the Duke of Connaught, the Duchess and Princess Patricia were received by a great assemblage of the people of MacLeod and the surrounding country, and escorted to the City Hall, where in reply to the civic address his Royal Highness made a reply in which referring to an expression in the address of welcome in regard to the large number of settlers from across the boundary in this section, he took occasion to add one more to the notable utterances which are signalizing the present tour. Said his Royal Highness:

"I am very glad to have had an opportunity of paying this short visit to MacLeod and beg to thank you most heartily for your address of welcome.

"I am well aware that among those whom I am now addressing there are a very great proportion who were not born under the British flag. Most of these will have realized by now that residence under that flag implies no disabilities, all we ask is that the laws of Canada should be obeyed.

"With this provision every one is free to come and go, to marry, to live and die as seems best to him and as it pleases providence.

"We bring no pressure to bear on anyone to adopt the Canadian nationality, for we do not value citizenship which is obtained under compulsion.

"Our American cousins are welcome from over the border. Thrice we welcome our Canadian and British brothers who return to the Union Jack after living under the Stars and Stripes.

"History is repeating itself. For many years hundreds of young Britishers have sought fortune in the western states, time has brought about a change and the tide has set in the other direction, bringing across the frontier numbers of our neighbors to whom we are glad to return hospitality.

"One of the chief dispensers of such hospitality in proportion to its population, has as we have said, changed its character from an important cattle town to the centre of a thriving wheat producing area.

"What it has lost from the picturesque point of view it has gained in material and I wish in conclusion to express the hope that the prosperity which has evinced itself here for the past ten years may continue unabated in the future."

After the proceedings at the City Hall, which included the presentation to their royal highnesses of souvenirs of old Fort Whoop-Up, there was a motor drive around the town. The program for the stay of the royal visitors included for the afternoon an Indian display by Bloods, Piegans and Blackfeet, who are in town today in great numbers. Totem Three Persons, the Blood who so distinguished himself at the Calgary Stampede, and whom the Duchess and Princess Patricia saw ride the Oklahoma horse Cyclone, is to give an exhibition of riding. The royal party will leave at 5 o'clock for Lethbridge.

UNCLE SAM GETS WONDERFUL CROPS

This Year's Harvest Is Heaviest on Record—No Need Now to Import Potatoes.

Washington, Oct. 10.—Never before have the great cereal crops of the United States been so bountiful as those of this year. Records of production for almost every cereal have been surpassed, in some instances by millions of bushels.

The October report of the department of Agriculture issued today shows that spring wheat, oats, barley, rye and hay all have exceeded the best record productions, while the crops of corn and potatoes, from present indications, also will be the greatest ever when harvested.

Speaking of this great showing made by the country's farmers, Mr. James Wilson, Secretary of Agriculture, said:

"The crops this year are the heaviest on record. The season has been favorable, but some credit is due to the wide efforts made in late years by the Federal Government and the states to help farmers throughout the country to get better returns from the average acre."

The world has been searched for better plants by the Department of Agriculture, and its scientists have been creating new plants by hybridization.

Twenty-eight million pieces of literature have been sent out by the department in addition to the advices from the state stations.

More than three million bushels of corn, almost a billion and a half bushels of oats and three hundred and thirty millions of bushels of spring wheat have been grown. The states in the northwest are harvesting the greatest crops ever grown there.

"It looks as if we don't have to import any potatoes this year," said Secretary Wilson, in commenting on the record potato crop.

TO REMIND BRITAIN OF GENERAL BROCK

London, Oct. 10.—An arrangement has been made between Lord Strathcona, at the instance of Premier Borden, for a service to be held at St. Paul's Cathedral, Monday next, to commemorate the one hundredth anniversary of the death of General Sir Isaac Brock and of his services to the Empire. Lord Strathcona will give a short address and place a wreath on behalf of the government and people of Canada.

The secretary of state for the colonies and Hon. G. E. Foster are also expected to be present.

Counterfeit Bills in Plenty.

Ottawa, Oct. 10.—Counterfeit Dominion bills of the one and two denominations are in such abundant circulation as to cause anxiety in the Finance Department, and special efforts are being made by the secret service to locate the source of supply. The counterfeits are a rather clumsy imitation, yet they appear to be taken by a great many people without question, and are especially plentiful in Nova Scotia and New Brunswick.

MACKENZIE DELTA IS RICH IN GOLD

Prospector Returns Empty Handed After Three Years' Search, But Is Confident of Success.

Dawson, Oct. 10.—A man who has been prospecting on the very farthest reach of the continent for gold was in the city yesterday. It was Forbes McRae, of San Francisco, who has been at the head of the "McRae party" on the Arctic slope for three years, looking for an alleged rich placer strike. The first is said to have been made thirty years ago. McRae says there is no doubt it was made, but he has been unable to relocate the place.

"I know such a find was made, and that the exact location was ascertained by the original finders," says McRae. "I consulted with Wifley, an engineer and mining man of Kokomo, Colo., the discoverer. He was an engineer on the C. P. R. thirty years ago, and with seven other surveyors they descended the Mackenzie. About 50 miles up the Mackenzie delta and to the westward they were making a tour from the coast toward the Mackenzie, on their way back, when they found gold in extraordinary quantities. I have been there, and others have been there, looking for it, but I must say we did not find it.

"Imet Mason and Anette, and they told me they had located it, and I had them come out and go in with me but we could not find it. I know that Wilfley can go there and locate it for me. Being a surveyor, he ascertained the location scientifically.

"Burt, who was in the country with us, is on his way out. Mrs. McRae was there, but came out via Rampart House this spring, over the ice. Mrs McRae is a niece of the late Charles D. Lane, of Nome fame.

"I have a gasoline power schooner at the mouth of the Mackenzie, with which I planned to go to the Copper Mine river this spring, but I called off the deal until next year, when I shall go in with a gasoline schooner from San Francisco. Wood is plentiful on the Arctic coast, but the gasoline is the proper fuel for a boat of the kind I want to take. The waters of the Arctic there are wide open two months of the year.

"Nothing has been heard of Darrell, the missing trader, since he left Jacquot's place. We feel sure he perished somewhere on his trip to the eastward.

"Some good gold-bearing quartz was brought to Macpherson by prospectors from Great Deer lake. They found it at Lake bay, on the Great Bear lake. It seemed rich in gold. The Douglas party located the rock there.

"I want it made plain that there is nothing promising near the mouth of the Mackenzie or in that direction for the ordinary prospector now. Grub cannot be bought of the traders. They sell only to those who can give furs for the food. I feel sure the prospectors would waste their time in the region now.

"If our party finds the Wifley property and locates anything worth while there will be plenty of time for the others to come afterward. On the whole, the gravel deposits on the Arctic slope are shallow and do not promise a vast placer area like exists near Dawson.

"With high-power guns the natives have killed off the game fifty miles or more back from the coast, making it more difficult for the prospector to live along the shore."

MARJORIE CORTLAND

In "Baby Mine" at the opera house on Saturday, October 12.

"Baby Mine" is from the pen of Margaret Mayo, with a record of one solid year at Daly's Theatre, New York, and reached its second year at Sir Charles Wyndham's Criterion Theatre, London.

ADVOCATES CHANGE IN CIVIL SERVICE

Prize Essay on National Engineering Reorganization Sent in by Ottawa Man.

Ottawa, Oct. 10.—Some time ago Mr. C. A. McGrath, a member of the International Joint Commission on waterways, and former member of parliament for Medicine Hat, offered two prizes, one of $200 and another of $100 for the best essay on formation of a national engineering service Chief Justice Sir Charles Fitzpatrick, Mr. Collingwood Schreiber, C. M. G., Mr. Long, Deputy Minister of Railways and Canals, and Col. J. H. V. Crowe, R. A., commandant of the Royal Military College, acted as the judges.

Publicity was lent to the offer by Lt.-Col. Wurtele, of Quebec, secretary of the Royal Military College Club and Prof. C. H. McLeod, secretary of the Canadian Society of Civil Engineers. A number of essays were sent in and one written by Mr. Charles Arthur Bowman, of Ottawa, was awarded first prize. Mr. Bowman's essay proposes a method of reorganization of the public service which is advocated by many good judges here. He proposes that there should be a board formed of engineering control composed of a number of engineers with experience and ability sufficient to pronounce with authority upon any engineering project, and that such board should be non-political and of as high standing as the Supreme Court. Mr. Bowman suggests that it should comprise five directors who in the first instance should be appointed by Royal Commission after due investigation of all the conditions relating to the engineering expansion of Canada. Once appointed the board should fill all vacancies in its number. The board should be responsible to parliament after the manner of the Auditor-General, and the House of Commons could require the resignation of any member of it. The board should have power to appoint or dismiss any subordinate and to approve or suspend any public engineering contract. Mr. Bowman sketches a complete system of organization of technical experts under this board, the purpose being to ensure thorough treatment of every engineering project from all sides and to prevent overlapping.

Queen Victoria's Statue.

Victoria, Oct. 10.—The Provincial Secretary today received from Hon. J. H. Turner, Agent-General of the Province in London, the plans and models made by the well-known Irish sculptor, Mr. Albert Bruce-Joy, R. H. A., for the statue of the late Queen Victoria, which is to be erected by the people of British Columbia on the lawn of the Parliament buildings. These will be taken up by the cabinet at once and arrangements for proceeding with the work will be made.

EMIGRATION PROBLEMS.

The number of announcements that considerable bodies of European and other peoples are about to enter British Columbia, shows no sign of diminution, and if all that is proposed comes about our composition will prove ere long to be more than kaleidoscopic.

Yesterday it was stated in Vancouver that the recent visit of a representative of the Maltese government will result in a thousand natives of that interesting isle making their homes in this province. They are, of course, British subjects, are anxious to work in the mills and employment has already been promised a number of them.

The problems of emigration are many and complicated, and as long as no definite stand thereon is taken by mutual consent of the Imperial government and the governments of the overseas dominions, those problems are likely to remain not only unsolved, but to become even more difficult of solution.

It is of interest to note that while we hear of activity on the parts of various agencies in directing emigration to Canada from all parts of the world—Russians, Boers and what not—we hear very little of those schemes for building up the future nation by the settling within our bounds of the peoples of the British Isles.

True, a gentleman has but lately returned from the coast after making arrangements for the emigration of ex-soldiers, but the same difficulty which confronts the bulk of his men, is that present to thousands of worthy settlers from the British Isles. We have the land and the work for them, they have not the means to get here. It may be advanced with reason that for every British immigrant to Canada there are at least ten others who would come had they the means and the promise of work to come to.

These difficulties appear to have been met by some private and some government effort. It is high time that the various emigration societies now existing in the homeland formulated some campaign with the object of inducing the proper authorities to take the matter up. We need settlers badly, especially those who will till the soil, but the more we can get of the same stock as those who hewed out homes for themselves in the Ontario forests, the better will it be for British Columbia and for Canada.

EAVESDROPPING.

The common attitude of many writers toward the use of the dictaphone and dictagraph suggests a weakening of popular standards of honor. It is freely asserted that leading merchants and manufacturers know the opinions through overhearing the conversations of subordinates. These statements will not be accepted without the fullest proof. It is impossible to imagine anything more belittling or destructive of self-respect than eavesdropping. The listener is the most contemptible of men. That prominent men would thus demean themselves or employ subordinates for such despicable work is impossible of belief. Such spying would put any man beyond the pale of respectability.

Those who have freely made accusations in regard to the general use of such detective devices seem oblivious to the social gravity of the charge and the utter meanness of the offence. This tends further to discredit assertions that have freely been made. The men at the head of large industrial financial, and commercial concerns are, as a rule, men of strict honor who would scorn to descend to tricks of espionage or countenance any such dishonorable practices. Supervision and direction do not entail descent to any such littleness. If they did our social fabric would soon fall to piece with its own rottenness.—Toronto Globe.

CANADIAN BATTLESHIPS MUST BE READY.

The suddenness with which the latest Balkan war cloud blew up should serve as an "object lesson" to those who argue that we might as well keep our battleships in the Pacific as anywhere else, provided we are always willing to send them to the help of Britain when she is attacked. We may be willing; but there is no way in which our will can be carried out if our battleships must steam half-way round the world to get to the point of danger. Under modern conditions, nations may grumble and growl at each other for a long time; and no one knows whether war is coming or not. More often than the contrary, it is not coming. The bad feeling slowly passes. But when it comes, it comes with the swiftness of a stroke of lightning. One day we are told that all is well and that the friends of both parties have succeeded in finding a basis of agreement; the next day, the news comes that both parties are mobilizing their armies.

War comes by telegraph these times. Modern methods of diplomacy have cut out all the old delays during which possible belligerents could get ready in leisurely fashion. The Minister of a Power is now in constant and instant communication with his home government, and matters may progress from "unsettled" to "stormy" in a few hours. The nation which is always ready, is twice armed. One of the most effective reforms of the latest German Navy bill is to increase the proportion of her battleships always in commission. That is one of the new features of the case which the British Government is now meeting. For Canada to propose to keep her battleships in a condition of perpetual unreadiness, would be to practically elliminate them from the problem which a ready foreign power would have to face, and put Canada in the class of the nations—if there be any such—that have not improved in fifty years. Canadian battleships must not only be built, paid for and manned; but they must be of 100 per cent. value in protecting the empire. —Montreal Star.

BURYING THE EVIL PAST

Now that Canada and the United States are preparing to celebrate the one hundredth anniversary of peace between the two countries, it is of interest to note the "entente cordiale" of French and Russian patriots which was brought about recently to honor in mutual amity the deeds and fate of the brave men of the campaign of 1812 in Russia. In this case France and Russia joined in celebrating the centenary of the great battle of Borodino, fought near Moscow on Sept. 7, one of the bloodiest conflicts in history, when, of 257,000 men engaged, between 70,000 and 80,000 were killed or wounded. After Borodino, the Russian troops withdrew from the field, but they retreated in good order, and Napoleon's claim of victory was empty enough. In honor of the men who fell at Borodino, a French society had a monument carved by a sculptor, M. Paul Besanval, but unfortunately the ship on which he sailed with his work was lost in the Baltic with all on board.

Both France and Russia find much to thrill their patriots with pride in the history of the early years of the nineteenth century, France because of the triumphs of Napoleon and his grand army, Russia because of the fact that she administered the first great repulse to the most stupendous figure of his day. If victory rested nominally upon the eagles of France at Borodino, Russia's stubborn stand there and great sacrifice in the burning of Moscow were greater causes for national pride, because the wonderful struggle was defensive, not aggressive.

The example of two great European nations uniting in times of peace to celebrate the past glories of war is eloquent in expression of the feeling which should unite the people of Canada and of the United States in celebrating the events of the war of 1812 some of which were undecisive enough to give both nations a claim to the glory of military prestige.—Ottawa Evening Journal.

DOING GOOD BY STEALTH.

The race for military and naval efficiency in which the big nations of the world are at present engaged, burdensome as it may be argued to be to the people of some countries, is not without results that make for the betterment of humanity in general.

Military and naval efficiency consists of many things besides studied preparation for destruction or for defence. It includes the organization of departments having regard to transportation and health. Any improvement made along these lines with a view to increasing military and naval efficiency is invariably reflected in the betterment of general social conditions. Therefore, the energy displayed by the powers in furthering preparations for war cannot be considered as of little use from the humanitarian standpoint.

In addressing the International Congress of Hygiene and Demography at Washington last week, President Taft pointed out the remarkable results achieved by American military sanitarians in Cuba, in the Philippines and in Panama. "He argued," says the New York Times, "that if the use of scientific methods, applied under competent direction and authority, had enabled government sanitarians to overcome the most terrible of health conditions and make the worst parts of the tropics habitable by white men with a fair degree of safety, failure to ultilize those methods at home was a folly amounting to madness."

Had not the race for military efficiency produced the advanced military sanitation brigades of the United States, and, indirectly, made possible their work in tropical countries, the lesson pointed out by President Taft would yet have to be learned. This conclusion might also be drawn from the great strides that have been made in sanitation by British army medical officers in Egypt, in India and in other foreign countries where the duties of occupation included the mastering of diseases, the ravages of which retarded economic growth. Thus in many instances the work of the army health officers aided materially in bringing that prosperity and well-being which ultimately vindicated British occupation.

The work of military men in transportation, including aviation, submarine travel, railroad and bridge building, and marine engineering and construction operations, is largely a matter of common knowledge. Following the launching of the battleship Marlborough on Oct. 24 next, the British government will construct a sister battleship to burn oil which will be the largest oil-burning vessel in the world, and may revolutionize transportation on the ocean. And only recently the world was awakened to the remarkable utility of heavier-than-air machines by the proficiency of airscouts at the army manoeuvres in Englang, France and Germany.

Great war preparations mean the outpouring of large streams of energy and of money, and the careful assembling of results due to that outpouring. It will be apparent from the facts given above that these results are not lost to the service of humanity in peaceful times. — Ottawa Evening Journal.

ENGLAND NOT DECADENT.

"Those who think that the Great Mother of nations is dead or dying are mistaken. The people of Britain are of the same sturdy stock that has built up the Empire and I am sure that if peril should come those of the British race will be as true to their trust and firm to defend their ideals as their forefathers were of old. And that is saying a great deal."

Mr. Borden, in using these words, is but voicing the thoughts of almost every Canadian who visits the old country. The old mother renews her youth like the eagles, while the prophets of doom pass away and are forgotten. Britain today was never more virile, never more alert and never more susceptible to new ideas.

To the student of men and things there is no place on earth so stimulating to thought and speculation as Britain's capital. The actual amount of business transacted in London and the distribution of goods which is effected from London is simply amazing. And this vast business is done under conditions which to the Canadian accustomed to ample spaces must appear sadly lacking in elbowroom. As a matter of fact London accomplishes its gigantic tasks with surprisingly little friction. London is not merely the financial centre of the world; it is the distributing centre, par excellence, of the food and raw products of the earth. Upon London converges wealth from almost every country under the sun, from the tropics to the polar regions. And with this exchange London's life reflects the various nations with which it does business. No city in the world is so cosmopolitan, none so genuinely and naturally picturesque.

London's transportation system is a medley of motor-busses, horse-drawn busses, street cars, underground railways and tubes, yet for general efficiency, smooth running, low fares, frequent service and rapid transit there is nothing like it anywhere else. The London tubes, which form a veritable spider's web beneath the metropolis are more like the work of a magician than of mortal man. On London's tubes and other underground railways were carried in 1910 no less than 500,970,000 passengers, while on the street cars within the London County Council's area were carried during the same year 701,166,000 passengers. These figures take no account, it will be observed, of the enormous number of passengers carried by motor-busses and horse-drawn busses.

Britain's virility is just as sustained in things social as in things pertaining to business. There is today a vast amount of thought being expended by men and women in the old country over social and economic problems. It is not that there is not a sincere desire for progress and betterment in a much greater degree than has hitherto been realized, the fact is that the problems of the old country are too often past the wit of man to solve. Britain today is contending and wrestling with legacies of anomaly from a past which Canada never had, and interests more deeply and more strongly vested than probably any on this side of the water. The life of Britain is so complex, privilege is so widely ramified that the march of democracy is hindered and obstructed at almost every turn.

But in spite of the incubus of the status quo there has arisen in recent years a new Britain. In London the improvement is most marked. Consider, for instance, the following fact and its meaning. Fifteen to twenty years ago London's vast army of workers lived on the average between two and two and a half miles from its work. That is to say it lived practically within the centre of London, congested, badly housed and breathing a vitiated atmosphere. Today London's workers live on the average between eight and ten miles from their work. This change has been accomplished by means of cheap and rapid transportation. As far as London is concerned the prophecy made some years ago by John Burns that a quarter of a century hence London would be the best city in the world to live in bids fair to become true.

In other cities of the United Kingdom the same tendency for the worker to live further from his or her work has obtained. But this is only one of many directions in which improvement has taken place. Nowhere is the change more striking than in education. The British child today is being better educated, more liberally and more humanly educated than ever before. The old and discredited pupil teacher system has been practically abandoned and instead the public school teachers are trained in government training colleges. Smaller classes, entailing less strain upon the teacher and making for increased efficiency, have widely taken the place of the larger and impossible classes of all too recent days.—Manitoba Free Press.

BLEW ARM OFF

Rancher Reels Over Mile of Rough Ground to Gain Aid.

Calgary, Alta., Oct. 10.—With his right arm practically blown off by a charge from a shotgun, Alfred Engstom, a rancher staggered for more than a mile Tuesday evening over the broken country to a ranch house near Calgary, where he was given relief.

Engstom lives alone and while he was moving some furniture the shotgun was knocked from a gunrack and discharged.

WESTERN LIVESTOCK FALLS OFF QUICKLY

(Continued from page one)

ceeded the West by a wide margin, the tons forwarded per mile of road in Ontario and Quebec exceeding by 58 per cent. and 48 per cent., respectively, that originating in Manitoba, the largest division from a tonnage standpoint in the West.

It was shown that for the year ending June 30, 1912, almost four million tons of grain were forwarded over the C. P. R. lines, of which 73 per cent. was transported at furtherance rates, which the company claimed were the lowest rates in the world on a like commodity for a like service. Twenty-five per cent. of the whole of the traffic forwarded from the company's western lines (exclusive of British Columbia) constituted grain forwarded to the East at these low rates.

The British Columbia traffic was similarly analyzed to show the proportion of ore tonnage forwarded in that province amounting to over eleven hundred thousand tons, or 42 per cent. of the total traffic.

RIVAL TEAMS ON EQUAL STANDING

Little Josh Devore Hero of Victory to Nationals—Rube Marquard Puzzles Red Sox.

Boston, Mass., Oct. 10.—The New York Nationals overcame the Boston Americans today by a score of two to one in the third game of the world's baseball championship series. Each club has now won a victory, the second ended in a tie. Nearly 35,000 persons witnessed the pitcher's battle in the Giant's left hander, "Rube" Marquard, opposed the Red Sox moist ball moundsman "Buck" O'Brien, and Marquard carried off the honors.

Little Josh Devore was the hero of the day. The midget outfielder made a catch that snatched seeming victory from the Bostons and sent them down to defeat. The Red Sox made a desperate rally in the ninth and there were men on second and third and two out when Cady came to bat. The crowd cheered, for two Red Sox men were on their way home, and victory seemed won, when Devore, speeding after the ball, speared it with his gloved hand on the dead run and ended the game.

Marquard was a puzzle to the Red Sox. His fast ball sped over the plate with the swish of a rawhide lash and his curves were under good control.

After announcement had been made that if a ball hit one of the policemen standing in the outfield, it would be still in play, the same as if it had hit a fence, O'Brien took his place in the pitching box and the first three offerings to Devore were called balls by Umpire Evans.

First Inning.

New York—Devore singled over O'Brien's head. Doyle flied to Speaker. Devore out stealing, Carrigan to Wagner. Snodgrass flied to Speaker. No runs.

Boston—Hooper popped to Fletcher. Yerkes fanned. Speaker out, Doyle to Merkle. No runs.

Second Inning.

New York—Murray doubled to centre. Merkle sacrificed, flied to Hooper, Murray scoring. Meyers out, Garner to Stahl. One run.

Boston—Lewis singled to centre. Gardner sacrificed, Herzog to Merkle. Stahl flied to Murray. Wagner fanned. No runs.

Third Inning.

New York—Fletcher walked. Marquard sacrificed, O'Brien to Stahl. Devore fanned. Doyle lined to Stahl. No runs.

Boston—Carrigan fouled to Meyers. O'Brien fanned. Hooper fanned. No runs.

Fourth Inning.

New York—Snodgrass out, Yerkes to Stahl. Murray out, O'Brien to Stahl. Merkle out, O'Brien to Stahl. No runs.

Boston—Yerkes popped to Fletcher. Speaker singled to left. Lewis forced Speaker, Herzog to Doyle. Gardner flied to Murray. No runs.

Fifth Inning.

New York—Herzog doubled to left. Meyers out, O'Brien to Stahl. Herzog takes third. Fletcher singled to left, scoring Herzog. Fletcher stole second. Marquard walked. Bedient warming up. Devore forced Marquard. Wagner to Yerkes. Fletcher taking third. Devore stole second. Doyle walked, filling the bases. Snodgrass flied to Lewis. One run.

Boston—Stahl singled to centre. On a short passed ball Stahl tried to steal and was out. Meyers to Doyle. Wagner flied to Murray, who made a sensational catch. Carrigan out, Marquard to Merkle. No runs.

Sixth Inning.

New York—Murray flied to Lewis. Merkle fanned. Herzog out, Wagner to Stahl. No runs.

Boston—O'Brien fanned, Hooper flied to Doyle. Yerkes singled to centre. Speaker popped foul to Meyers. No runs.

Seventh Inning.

New York—Meyers fanned. Fletcher out, Gardner to Stahl. Marquard out, Stahl to O'Brien. No runs.

Boston—Lewis out, Fletcher to Merkle. Gardner fouled to Murray. Stahl doubled against the fence in left field. Wagner flied to Devore. No runs.

Eighth Inning.

New York—Devore hit a Texas leaguer behind third base. Doyle flied to Lewis. Snodgrass singled to left field. Murray flied to Lewis. Merkle forced Snodgrass, Wagner to Yerkes. No runs.

Boston—Engle batting for Carrigan, flied to Murray. Ball batting for O'Brien fanned. Hooper walked. Yerkes out, Herzog to Merkle. No runs.

Ninth Inning.

New York—Bedient and Cady now Boston battery. Herzog hit by pitched ball. Herzog out, stealing, Cady to Yerkes. Meyers singled through second. Fletcher out, flied to Speaker. and Meyers was doubled off second, Speaker to Yerkes. No runs.

Boston—Speaker flied to Fletcher. Lewis beat out an infield hit. Gardner doubled to right, scoring Lewis. Stahl grounded to Marquard, who threw to Herzog, and Gardner was tagged out at third. Hendricks running for Stahl. Wagner safe when Merkle dropped Fletcher's throw. Hendricks took third on the error. Wagner stole second. Cady flied to Devore. One run.

Bankers' Soccer Line-up.

The following team has been selected to represent the Bankers against Sapperton on Saturday. Kick-off at 3 p.m. on the Sapperton grounds: Goal A. R. McIver; backs, H. C. Stacey, D. Shildrick; half backs, W. R. Hamilton, Jack Scott, J. A. Flood; forwards, R. M. Adams, J. Thompson, D. Murray, E. H. Dunford and K. M. Pitcairns.

Tomorrow's Rugby Game.

Tomorrow the Westminster rugby fifteen will meet the Vancouver Rowing club at Queens park. The team will be chosen from the following who are asked to be on hand at 3 p.m.: Greame, Hoult, Lloyd (captain) Chamberlain, Collins, Dart, Ford Leat, Spicer, Railton, Savage, Turney, Biggs, Walker, Stevenson, Davenport and Andrew.

DE PALMA WAS ROBBED WHEN WRECKED IN RACE

Milwaukee, Oct. 10.—Besides losing the $2500 second prize of the Grand Prize by going into the ditch as the race was ending, De Palma was robbed of a pocketbook containing about $1000 when he was thrown out of his car.

De Palma's clothes were torn to threads. The pocketbook was carried in an inside pocket of his coat. As he was carried off the course a crowd gathered around him and it is believed someone picked up the pocketbook.

Several times in the ambulance on the way to the hospital De Palma asked about his pocketbook, but the medical attendants took little notice thinking him delirious. To satisfy him his brother, John, told him that his money was safe.

Little attention was paid to the matter until yesterday when De Palma mentioned it. The course has been searched without success. De Palma has not been told of the loss

BECKER'S TRIAL.

Whitman Will Show How Rosentha Was Killed Under Compulsion.

New York, Oct. 10.—The actual trial of Police Lieut. Charles Becker charged with the murder of Gamble Herman Rosenthal in front of the Hotel Metropole here, began today when the twelfth member of the jury was secured. District Attorney Charles S. Whitman at once started outlining his case against the accused man.

"I expect to show that this man," shouted Whitman, leveling his finger at Becker, "compelled Jack Rose, Sam Schepps, 'Bridgie' Webber and Harry Vallon to bring about the killing of Rosenthal, under threat of 'framing' something on them."

Mrs. Rosenthal, wife of the murdered gambler, probably will be the first witness for the prosecution.

WHERE TWO ACTS MEET

North Vancouver Bank Clerk Claims Against Late Employers.

Vancouver, Oct. 10.—Does a bank clerk come under the provisions of the Masters and Servants Act of the Legislature, or is he bound by the provisions of the Bank Act where the two clash? This is the legal puzzle that has been placed before Judge McInnes for a decision, and on which his honor will give a reserved judgment.

The circumstances of the suit in which the question arises are as follows: Mr. C. P. Ashmore, a teller in the Bank of British North America at North Vancouver, recently left the bank's employ after giving a month's notice. Mr. Ashmore had entered the bank's service in England, signing a contract for three years. The three years were not up at the time he resigned, so the bank refused to refund to Mr. Ashmore the $100 which he claims to be due him for tellers' risk money and arrears of salary. To collect it Mr. Ashmore entered a suit in the County Court, in which his counsel, Mr. Montgomery, yesterday, contended that under the Masters and Servants Act Ashmore was entitled to leave on giving reasonable notice in spite of any contract.

The bank replied with a counterclaim for $400 for the alleged breach of contract, Mr. R. L. Reid, K. C., contending that the Masters and Servants Act was not meant to apply to special classes like bank clerks, who were already under the Bank Act, which provided against special contracts being broken.

His honor reserved his judgment on the interesting point of law.

GOVERNMENT AWARDS VERY LARGE CONTRACTS

Ottawa, Oct. 10.—The cabinet at its meeting yesterday awarded heavy contracts for rolling stock for the Intercolonial, and with one exception the various contracts were awarded the Canadian Car and Foundry Company of Montreal. Those awarded to this company were 500 additional steel-framed box cars, price $1210 each, 100 Hartt convertible cars of 40-ton capacity, 100 steel underframed platform cars of 80,000 pounds capacity each, $1070. Fifty Otis all spring dump cars, 20 refrigerator cars price $2058.50 each, one 8000-gallon tank car, price $2695.

In addition the Preston Car and Coach Company, of Preston, Ontario has been awarded the contract for three baggage cars for the I. C. R., at $7500 each. It will be recalled that several large orders for box cars and locomotives have preceded today's announcement.

Mayor Must Pay.

Victoria, Oct. 10.—An intimation has been conveyed to the city aldermen by a prominent ratepayer that if the verdict of one thousand dollars secured by R. G. Barnum against Mayor Beckwith is paid from the city treasury, the aldermen who vote in the affirmative will be held responsible, and suit will be brought against them. The jury in the Barnum-Beckwith case were informed that any damages they might award would have to be paid by the mayor personally, and not by the city.

IN THE HOUSE OF LORDS.

What Occurs When Two or More Peers Want to Speak at Once.

There is no rule against a dozen peers, or the entire peerage for that matter, rising and addressing the Lord Chancellor at the same time. The Lord Chancellor has no power to select the peer who shall speak. A Lord Chancellor's leg may be pulled, we imagine, but his eyes can never be caught. For all he can do, two peers wishing to address the House and refusing the give way one to the other could stay on their feet until one of them dropped from exhaustion.

This is no exaggeration. Within living memory two peers engaged in an adventure which at first threatened to develop into a tiring down contest after the manner of Goldsmith's dancers. It happened in 1884 on a warm July day and was very entertaining while it lasted.

The two were Earl Granville and Lord Cairns. Both rose simultaneously to speak. The two peers stood facing each other at the table, and each tried to speak, while their partisans kept shouting "Granville!" and "Cairns!" in an aristocratic manner. Lord Selborne sat on the woolsack helpless. The scene might have lasted until either Earl Granville or Lord Cairns had fallen fainting had not Lord Beauchamp earned immortal fame by creating a precedent in the House of Lords. He moved, in a tone of anger, that Lord Cairns be heard, and Lord Cork, in a similar tone, moved that Lord Granville be heard.

A vote was taken, and Lord Granville won by a majority of one in a House of fifty-three excited peers. So if the Lord Chancellor at any time finds himself confronted by two noble but obstinate orator, there is a precedent to fall back upon which may be found useful.—London News.

V. C. Man In Workhouse.

There is at present in the infirmary of the Cambridge (Eng.) workhouse an ex-noncommissioned officer of the army who holds the Victoria Cross, and is a member of a family of soldiers, three brothers, two sons, and eight nephews either serving or having served in various branches of the army.

The man is James Collis, who was born in Cambridge in 1851, and enlisted in the 46th Foot in 1872. He was transferred to the R.H.A., and went out to India, where he arrived just before the war broke out with Afghanistan. Collis went to the front with Major Blackwood and E Battery of B Brigade of the R.H.A., and was present at the disaster at Maiwand, when the British force was almost annihilated by Ayub Khan.

Collis, who was then a gunner, loaded sick and wounded on his gun and made for the British base, which he reached after great difficulties. He was nearly cut off on the way, and to save his charges unlimbered his gun, under fire of which the wounded were removed on the limber. He was relieved by a troop of Bombay cavalry, under Gen. Nuttall, who complimented him upon his bravery.

Shortly afterwards he made a daring trip with despatches.

Twelve months later, at a parade on the Poonah racecourse, Collis had his name called out and had the Victoria Cross pinned on his coat by Lord Roberts (then Gen. Roberts).

Collis afterwards joined the Bombay police in which he became an inspector, and experienced various adventures. He returned to England, where his health gave way, and he finally decided to make for his native place, whose workhouse infirmary now shelters him.

"BABY MINE."

W. A. Brady, Ltd. presents the first local presentation of "Baby Mine," Margaret Mayo's laughing play, at the Opera House Saturday, Oct. 12.

"Baby Mine" comes with a record of one solid year at Daly's Theatre, New York, and nearing its second year at Sir Charles Wyndham's Criterion Theatre, London. Productions are also shortly to be made in Paris, Berlin, Vienna, St. Petersburg, Australia and South America.

The farcical possibilities of "Baby Mine" are obvious, and Margaret Mayo, the author, is said to have handled them with unusual ingenuity and skill. Indeed, no comedy within memory is said to have surpassed this in its swift, compact technique. It will be presented here with an excellent company of players and makes a hilarious evening's entertainment.

ROYAL THEATRE

The audience at the Royal theatre last night certainly appreciated Manager Gillis' excellent offerings, which comprise the most pleasing performance that has ever been witnessed in this theatre. There are four big acts on the program as well as three reels of first run motion pictures.

The act that opened the program went just as well as the closing feature and it can be said without exaggeration that every act was greeted with thunderous applause.

The acts on the bill are as follows: Gerrard and Belle, character comedians and singers; Will Landry, sensational aerial artist; Dick Caster, favorite English comedian; Neal and Neal, singers, comedians and balancers.

FIREMAN KICKS CHILD FROM PATH OF TRAIN

Sioux City, Iowa, Oct. 10.—When Milo C. Dodge, a fireman on the Milwaukee Railroad, looked out of the cab window between Jefferson and McCook yesterday, he saw a child playing on the track. Realizing that the engineer could not stop the train in time, Dodge jumped out on the running board and made his way to the pilot. Just as the engine was rushing upon the child, Dodge reached out with his foot and kicked the little one to safety.

The child was Gerald Allard, the 2-year-old son of a farmer. He landed in a ditch, and the only souvenir of his escape from death was a few bruises.

LARGEST LIST OF WATERFRONTAGE ACREAGE and LOTS

BEARING OF RATES ON GRAIN SITUATION

Higher Wages, Weather Conditions and Cost of Living in West Are Debated.

Ottawa, Oct. 10.—The Railway Board delved into another mass of facts and figures submitted by the C. P. R., in connection with its defence of its western freight tariffs in the western rates case. The C. P. R. did not close its case, but towards the end of the sitting witnesses for the company gave place to Mr. B. B. Hanna, vice-president of the Canadian Northern system, who was being examined by Mr. F. H. Phippen, when the board rose for the day at 6 o'clock. Mr. Hanna agreed with Vice-President Bosworth of the C. P. R., that water competition controls the rate situation in the East. He said if it were not for this competition eastern rates would be increased. He declared that in many ways the cost of operation is higher in the West, owing to the weather conditions, the higher wages and the greater cost of fuel.

Mr. W. B. Lanigan, freight traffic manager in the West, was the star witness for the C. P. R. He maintained that the western rates were reasonable, and that the through rate on grain to Fort William is the lowest in the world.

Mr. Lanigan was cross-examined at length by Mr. W. A. Macdonald in regard to the possibility of an export wheat trade being developed via Vancouver. He said that while the C. P. R. was anxious to see this done, the present high rates for ocean carriage and insurance make it practically impossible. No reference was made to the conditions which will be created by the completion of the Panama Canal. The general cross-examination of the C. P. R. witnesses by counsel for the federal and provincial governments and the Winnipeg Board of Trade has been deferred until they have had an opportunity to study the rate comparisions submitted by the company.

A feature of the morning session was the cross-examination by Mr. W. A. Macdonald, K. C., counsel for the British Columbia Government, of Mr. W. R. McInnes, general freight traffic manager of the C. P. R., who completed his main evidence yesterday.

Mr. McInnes agreed with Vice-president Bosworth that, as a basis of rates, it was not fair to compare the British Columbia division with the Lake Superior division. The proper basis of rate making, he said, would be upon traffic that originates, or is consumed, in each railway division.

Mr. McInnes agreed that ocean freight with Vancouver, Montreal and St. John would be credited to these points, but not freight such as grain carried over other divisions for furnerance eastward. He stated that the C. P. R. had claimed exemption from jurisdiction of the Railway Board and for some reason none of the tariffs in use eastward from Vancouver had been approved by the board in accordance with the provisions of the Railway Act. An order of Aug. 23 approved of standard tariffs east of Vancouver, subject to the decision of the board in this inquiry.

Mr. McInnes admitted the ability of the C. P. R. to separate local from through freight and passenger earnings, and that through rates were charged on a mileage basis throughout the entire system. Both freight and passenger business had increased since the return filed in the Vancouver Board of Trade investigation. The board directed that a fresh return should be filed showing the business done on each division over the whole system.

A discussion of the grain situation obtained an admission from Mr. McInnes that at some seasons of the year wheat is taken to St. John from Winnipeg, a distance of fifteen hundred miles, for thirteen cents. This was a non-paying rate and a twenty cent rate earned a profit. Mr. McInnes stated that the export rate from Calgary to Vancouver, a distance of six hundred and forty miles, is 19½ cents, while the local rate is 32 cents. Reference was made to the reduction of 70 per cent. ordered by the United States Interstate Commerce Commission on freight eastward from coast cities, and a comparison of the rates created by this reduction with these in effect from British Columbia coast cities was gone into.

REPORTED ANNIHILATION OF MONTENEGRIN FORCE

London, Oct. 10.—A Montenegrin force which crossed the Turkish border has been annihilated, according to a dispatch from Constantinople, which declares four thousand Albanian troops have invaded Montenegro.

A Bulgarian army has started for Mustapha Pasha to force the road to Adrianople, where the Turks are concentrated in great strength. Skirmishes have occurred on the Servian and Bulgarian frontiers.

Frontier Ablaze.

Saloniki, Turkey, Oct. 10.—Serious fighting continues between the Turkish and Montenegrin forces on the Montenegrin frontier. Essad Pasha, the Turkish commander of the force marching to the relief of Scutari, has passed the river Boyana, without encountering opposition. The Albanians in the frontier district have promised to restrain the Montenegrin troops with help from the Turkish troops.

Bulgaria Concentrates.

New York, Oct. 10.—News reaching here from Bulgaria today says that the rapidity of the concentration of army has exceeded all expectations. Everywhere in connection with the mobilization has worked with the utmost smothness. The stock exchange was somewhat more retarded today by the Balkan situation owing to the weakness of the continental bourses and principally of Paris from which selling orders were rather liberal.

CORSET NEWNESS.

What the Smart Woman Will Wear.

CORSET LACED AT THE FRONT.

Very slender hip lines are given by this new corset, which reaches almost to the knee, yet is particularly soft and pliable.

The corset is worn over a chemise bloomer of embroidered glove silk, which is exactly like the embroidered silk gloves in texture.

KEEPING YOUNG.

Advice For the Woman Who Would Look Well.

At nearly sixty-eight Miss Carlotta Addison was playing a short time ago a fairy in "The Blue Bird." She gave her secret of youth to the correspondent of a foreign publication. Here it is in two lines:

"Work has kept me young. I have had no time to grow old."

And her next sentence emphasizes the point:

"Only when I have a spare hour and sit down to play patience do I begin to feel old. So long as I am working I always feel young. In 'The Blue Bird' I played the part of a fairy—an old fairy, it is true, but still a fairy—and I felt very young, and I believe all the really young fairies thought I was young too. I'm sure they had no idea I was nearly seventy.

"I have had a hard life, but I believe it is the people who have the hardest lives who keep the youngest. The prematurely old people are those who are always taking rest cures. Nothing makes people so old as having nothing to do. But work should be congenial. If I had been a charwoman I am afraid I should have been much older than I am.

"It is a good thing to be as much as possible with the young people—if they will put up with you and you know how to get on with them. Some of my friends tell me that young people bore them. But that is never so with me. I am still interested in everything that interests young people.

"It is not wise to try to keep young. Nothing makes one feel so old as wearing 'young' clothes. I think the great secret is to work hard and take no notice of birthdays and avoid holidays. A holiday always makes me feel rather old, especially if I have to play patience."

An Autumn Wedding Gift.

One of the interesting additions to fine china displays for autumn wedding gifts is this cracker and cheese dish.

DISH FOR SERVING CRACKERS AND CHEESE.

The cheese reposes in the small, inner dish, and the crackers are arranged around the plate.

Fancy Work Stitches.

A conventional figure that is easily adapted is an oval composed of four rows of dots, the largest on the outside. This design may have the dots worked in slightly padded satin stitch, or for more open effect eyelets can be used. A bold border could have three rows of the ovals, the outer walls measuring an inch and a half by an inch and a quarter, the next an inch by three-quarters and the inner ones half an inch by three-eighths. The size of the dots is proportioned to the size of the oval.

Suffrage In North Dakota.

An active state wide campaign is being planned in North Dakota, and legislative work will receive the first attention of the leaders of the movement, who have outlined a progressive program for the coming year.

Every Woman is interested and should know about the wonderful **Marvel** Whirling Spray **Douche**

Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies. WINDSOR SUPPLY CO., Windsor, Ont General Agents for Canada.

New members may be proposed and elected at any monthly or quarterly meeting. S. H. Stuart Wade, secretary.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the leasee will be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

SEARCH FOR WIRES SENT DYNAMITERS

Originals Cannot Now Be Produced, But Government Holds Incriminating Messages Sent.

Indianapolis, Oct. 10.—Telegrams signed "Ping," alleged to have been the alias of Herbert S. Hockin and sent to Ortie E. McManigal, directing where to "drop" dynamite bombs on his trips about the country, were sought by the government through the examination of the first witness called in the trial of the accused "dynamite plotters" today.

Managers of the telegraph offices in Buffalo, Detroit, Toledo, Chicago, Cincinnati and Indianoplis, Evansville, Ind., and Salt Lake City, testified. With one exception they said the original of telegrams asked by the government covering a period as far back as 19098 had been destroyed in the ordinary course of business.

The government asserted it had possession of the telegrams as received and it called the witness to show why the original message sent cannot be produced. It was during this period that McManigal and the McNamaras formed the "flying squadron of dynamiters," the government charges, often sending McManigal out alone and equipping him with a suitcase filled with explosives to await orders by telegraph as to what he should blow up.

When James W. Noel, one of the counsel for the government, asked why the telegrams were not produced, Senator Kern, counsel for the defendants, asked the witnesses: "You don't know that any such telegrams ever existed, do you?" The witnesses replied they could not remember individual messages.

The telegrams, Mr. Noel said often were sent by Hockin, now acting secretary-treasurer of the International Association of Bridge and Structural Workers, and at present on trial, to McManigal's home in Chicago. They shifted him at times, the attorney said, from Chicago to Louis, from Cincinnati to Indianapolis and from Chicago to Holyoke, Mass.

H. A. Knight, manager of a telegraph office at Salt Lake, was the first witness to produce a telegram. The telegram was dated Oct. 10, 1910, and was purported to have been signed by J. E. Munsey, known as "Jack Bright," one of the defendants. According to the government's charges, J. B. McNamara, after blowing up "The Los Angles Times' Building on Oct. 1, 1910, hid for two weeks in places secured by Munsey. J. J. McNamara, then secretary of the Ironworkers' headquarters in Indianapolis, was anxious about his brother after the Los Angeles explosion.

The telegram as identified by Knight and Mrs. Charles McCarthy, who was the counter clerk at Salt Lake City, follows:

"J. J. McNamara, Indianapolis:—Everything is O. K. Glad C. is coming. Patient is out of danger and will get well. He is improving right along. You can depend on me to handle matters carefully. Will wire you if there is any change.

(Signed) "J. E. MUNSEY,
"2225 Southwest Temple St."

It would be shown, the Government said, that "C" referred to was Eugene A. Clancy, San Francisco, on trial here, who had been in Boston when "The Times" disaster occurred and who was about to start on a fishing trip with Michael J. Young, Boston, also a defendant, but news of the loss of life at Los Angeles induced Clancy to change his mind and after sending a telegram to San Francisco "to clean out the office," he decided to hurry West.

The examination of telegraph managers had not been concluded when court adjourned until tomorrow.

M. C. Tifft, Minneapolis, counsel for Fred Mooney, Duluth, Minn., and C. N. Beum, Minneapolis, in addressing the jury, said it would be proven that photographs of non-union work under construction were taken, not for use of the "dynamite gang," but to enlighten the union as to where more employment might be had. The government had charged that Beum, former member of the Ironworkers' executive board, visited Frank K. Painter, of Omaha, about a "job" to be done there; that at Winnipeg he bought an alarm clock to be used for setting off bombs, and that he voted to supply money to carry out operations in Los Angeles.

GERMANY'S LOSS

Immense Dirigible Wrecked When Gas Explodes—None Hurt.

Berlin, Oct. 10.—Germany's aerial fleet suffered a severe loss today by the total wrecking by explosion of one of its immense military dirigibles and of the hall in which it was stationed at Reinickendorf, a suburb of Berlin. The balloon, which was of the semi-rigid type with air balloonets to preserve its shape, invented by Major Gross of the Prussian army was being refilled with hydrogen gas by soldiers of the flying corps.

The gas, which is highly inflammable, was being passed into the envelope from metal cylinders when the friction of the gas-filling tube caused fire to break out. A violent explosion ensued, completely destroying the dirigible and blowing the hall to splinters. None of the crew was injured.

Vessel Burns at Sea.

Halifax, N. S., Oct. 9.—The fate of the crew of a large vessel, identity unknown, which was reported afire, and then sank tonight off Prespect, east of Sambro, remained unrevealed up to a late hour. First word of the wreck came at 9 p. m., when the lighthouse keeper at Sambro sent a wireless message that "a large vessel" was on fire near his station. An hour later he sent a message that the vessel had sunk. No other particulars are available. The government steamer Aberdeen sailed at midnight to render any assistance possible.

BALKAN LEAGUE HAS PLANS WELL LAID

Danger of General European War is Pointed Out—How States Hoodwinked Powers.

London, Oct. 10.—The Daily Mail's special correspondent in Vienna telegraphs:

"Europe stands on the threshold of a general conflagration in the Balkans, an event which, viewed from Vienna, the half-way house between Europe and the near east, is fraught with the gravest possibilities in view of the all too imperfect accord at present existing between the great powers.

"From a source in the closest touch with the Balkan governments I have received information which I transmit, fully conscious of its gravity.

"I am in a position to state that the action of Montenegro in breaking relations with the porte and declaring war was not a hasty action, inspired by the personal ambition of King Nicholas. It was the first move in a most carefully pre-concerted plan, elaborated by the Balkan League and Europe. Tomorrow will witness consecutive steps in the plan.

"While the great powers were dickering over the Austrian and British objections to the intervention proposals of Premier Poincaire, with the result that their intervention became practically useless, the Balkan governments, leaving their representatives abroad completely in the dark, tranquilly pursued the way prescribed by the provisions of a secret agreement between them. It is possible that King Nicholas anticipated events a day or so ago, but it was part of the arrangement for Montenegro to strike first, as the information of the Balkan allies showed that the Turkish troops were weakest on the Montenegrin frontier.

"The next move in the plan will be concerted action by Bulgaria and Servia. Their ministers at Constantinople may already this afternoon have demanded their passports or will do so tomorrow. The rupture of diplomatic negotiations will be followed by a formal declaration of war, whereupon the Bulgarian army, with a Servian force on its right wing, will instantly take the offensive. It is not impossible that a Servo-Bulgarian force is already drawing near the Turkish frontier.

"I have the impression that events have been delayed by the slowness of the Greek mobilization and that it is this circumstance and not any intention on the part of the Balkan states to admit the intervention of the powers that has prevented a declaration of war by the Balkan League up to the present time and may yet delay the climax by twenty-four hours.

"I have reason to believe the answer of the Balkan states to the representations of Russia and Austria will take the following form: They will point out that during the past few days their relations with Turkey have become so bad that they can not be remedied by the intervention of the great powers and will add that the note of the powers does not contain any guarantees adequate to assure the prompt and efficient execution of the reforms in the Turkish European provinces.

"The great powers have been hoodwinked by the Balkan League like a greenhorn over a horse deal. While European diplomacy was working miracles of speed in patching up an accord between the powers to facilitate intervention at the earliest possible moment, events in the Balkans were marching steadily on.

"The King of the Montenegrins will have a hearty laugh at his headquarters in the mountain fastnesses if ever he reads the ingenious disquisitions of the Vienna press regarding his alleged desire to seek the halo of the King of Servia."

TURKS FACE ENEMY WITH GRIM DELIGHT

War Scenes at Constantinople Depicted—War Correspondents Must Face Hunger.

London, Oct. 10.—A telegram to the Daily Mail from Constantinople says:

"If war does comes, it will be in a grim mood and with fierce delight that the Turks will, at least, face their enemies. The Turkish papers hail the declaration of war as a day of festival.

"Conspicuous in the great throng of men, soldiers and civilians at the railway station this morning was a closed brougham, guarded by eunuchs with wooden panels where the glass of the windows should be and around which peeped the black silk-veiled faces of Turkish ladies. It was the wife and mother of a young Turkish officer, whose wish to see him till the very last moment caused them to transgress so far against the law that keeps members of the harem in the background on all public occasions.

"Major Izzet Bey commanding at Pera, who has been appointed to supervise the war correspondents generally, promises plenty of hardships for the campaign. 'You can make up your minds to be hungry,' he said to me this morning. The war correspondents are to leave with the general staff.

"While I write this telegram, rough, khaki-clad troops tramp past the window in full war kit. Some wear the regular fez-shaped calpak, others have the gray cloth turban-like head dress of the Kurds. Just now a company of white skull-capped Albanian reserves—gaunt, big-boned fellows—are passing, clapping their muscular hands and shouting in chorus 'Padishahim Choke Yusha' (Long Live the Padishah)."

Situation at Sofia.

William Maxwell, the Daily Mail's special correspondent at Sofia, wires under yesterday's date:

"Premier Gueschoff today admitted to me that the proposals of the powers were unsatisfactory, seeing that they did not give guarantees.

"He added: 'We have lost so many hopes that we cannot draw back now without something substantial.'

"This sentence describes both the difficulty and danger. The government dare not recede. The people do not trust the powers, who talk once more of carrying out the solemn engagements made by them thirty years ago. The least they expect is that Bulgaria should share in the supervision of reforms. This, said the premier, was under consideration.

"The premier still professes hopes of peace though he could not suspend the preparations for war.

"There is no pause in the war preparations. This afternoon the flags of twelve regiments were blessed by priests of the Greek Church in the palace grounds. The solemn picturesque ceremony was witnessed by the king and many people.

"The council sat till 8 o'clock tonight to consider the powers' note. The Greek and Servian ministers conferred with the president of the council. No decision was arrived at as to framing a reply. I have good authority for saying that probably no reply will be given, as the form of the note demands no reply. It is more probable that an ultimatum will be presented to Turkey in a few days."

NIGHT SCHOOLS.

It is requested that all persons desiring to attend the Night Schools which will shortly be opened, send their names and addresses to the secretary's office not later than noon on Thursday, October 17. If sufficient names are not enrolled, the schools will not be started until the required number is obtained.

L. AVORY WHITE.
Secretary, Board of School Trustees
New Westminster, B. C.

NIGHT SCHOOL TEACHER WANTED.

Teacher wanted for the Night Schools. Applicants are requested to write stating qualifications and salary required, and must hold B. C certificates. The schools will open on three nights per week.

Applications to reach the secretary by noon on Thursday, October 17.

L. AVORY WHITE,
Secretary of Board of School Trustees, New Westminster, B. C.

Mr. R. J. MacDonald, of Seattle, is in the city visiting relatives.

Baggageman wanted at C. P. R. depot. **

Until further notice we cannot receive orders for coal.—Gilley Bros. **

Mr. H. Stewardson, assistant city engineer, left on Tuesday evening on a six months' trip to the old country.

A. Hardman, the cake man. Get good bread. Eighth street Bakery. Telephone 281. **

At a meeting held in the Y. M. C. A. last night the committee selected from the various city churches made arrangements for the rally and annual election of officers of the Christian Endeavor societies of the city.

Wanted to buy—Two second hand pool tables. Apply Miller Employment office, Front street. **

Mr. and Mrs. H. G. Kirby, of Edmonds, have left for California, where they will make a protracted stay.

George R. Speck has moved from the Trapp Block to 626 Hamley Block, Columbia street. **

City Engineer J. W. B. Blackman is suffering from a bad cold and was unable to come down to his office yesterday.

Miss Minerva A. Smith, Graduate of Music, has opened her studio at 13th avenue and 6th street. Telephone R 735. **

The Ladies' Aid Society of the Norwegian Lutheran church will hold its annual concert and sale in Eagle hall on Saturday evening. No charge will be made for admission and all are cordially invited.

Another meeting of the Burnaby branch of the Victorian Order of Nurses will be held this afternoon at 3 o'clock in the municipal hall. Everyone interested in this worthy institution is invited to be present.

The members and friends of East Burnaby Foresters lodge held their first dance of the season in Vicker's hall last evening. Peck's orchestra discoursed excellent music and the light fantastic was kept up until an early hour.

Definite word has been received from Attorney General Bowser that the opening date of the fall assizes will be changed to October 21. This is in response to the telegram sent out by the Westminster Barristers' association that the day be altered to November 5 in order that they might be given sufficient time to prepare their cases. A compromise was effected in date by Hon. Mr. Bowser.

Yesterday was a fairly good day at the building inspector's office. The British Canadian Lumber Company's $11,600 permit for the erection of a planing mill and cooling sheds helping things along somewhat. Residence permits to the total value of $4000 were also taken out. One was for a seven room house to be erected on Regina street at a cost of $2500 and the other was issued to B. Knight for the construction of a $1500 home of six rooms on Nanaimo street.

$500,000 FLOUR MILL.

Officials View Sites in City for Establishment of Industry.

Officials of a big flour milling concern which proposes to establish a mill and elevator in Westminster at the expenditure of $500,000, were in the city yesterday viewing several sites which might be suitable for their plant.

They had a conference with the mayor and were taken around the city by Mr. Stuart-Wade. For obvious reasons they do not wish to give out any detailed information regarding the project just yet but that they will eventually establish here is practically certain.

LIGHTING COQUITLAM

Western Canada Power Holds Contract on Pitt River Bridge Work.

Coquitlam, Oct. 10.—Linemen in the employ of the Western Canada Power company are busy stringing the new street lights throughout the municipality. Only thirty are being installed at the present time, but this number will be increased to 70 before many months.

The Foundation company, of Montreal, which holds the contract for building the new C. P. R. bridge over the Pitt river, has contracted with the company for light and power during the length of the job.

MIKE PAID UP

Free Drinks with Meals Said to Be His Rule.

The dangers of selling liquor without a license were demonstrated in the police court yesterday morning when a Greek named Mike Condor was charged with handing the stuff over the counter at his restaurant on McInnes street.

Mike, who stated that the land of his birth was in the Balkans, in his evidence tried to maintain that free drinks with meals was a necessary adjunct in New Westminster if one wished to corral all the trade in the hash slinging line.

This story, in the eyes of Magistrate Edmonds, did not appear feasible, and the Greek nation, hard up as it may be to furnish the why and the wherefore towards the equipping of its troops in its fight against the wicked Turks, is $50 the loser in the deal. Mike paid.

BOYS HAVE SPLENDID ENTERTAINMENT AT Y.M.C.A.

The "At Home" day for boys held at the Young Men's Christian association quarters yesterday proved a thorough success. Over one hundred and fifty boys put in an appearance and enjoyed to a full measure the splendid program that had been prepared for the occasion.

Organized games in the gymnasium, shower baths, swims, and many other enjoyable events were indulged in with a vigor known only to youth. The new game room was opened for the first time to the delight and pleasure of many lads who patronized it. Every boy appeared delighted, anad many non-members expressed a desire to join the association.

SALE OF SHEEP

At Queens Park—Government is Endeavoring to Promote Industry.

With the object of fostering the sheep breeding industry throughout Canada, the Dominion Sheep Breeders' association, under the auspices of the federal government, are holding sales of selected and graded sheep in cities adjacent to farming districts. Yesterday afternoon several hundred sheep were put up for auction in the stock yards at Queens park, and though the interest shown was not as great as it has been in some places the sale proved a reasonable success.

It was at its last session that the government passed an appropriation to encourage this industry which has been conspicuous by its absences in all of the western provinces.

The sheep are retailed by the association, and in case the purchase price of the stock is not realized the government has set apart an appropriation from which the balance is made up.

The sales in this province are being conducted under the supervision of Dr. S. F. Tolmie, Dominion live stock commissioner for B. C., and Colonel McEwan, of the Dominion Sheep Breeders' association. Both were in Westminster yesterday, but left later for Vernon, where the next sale will be conducted on Saturday.

Mr. T. J. Trapp was auctioneer and realized from $7.50 to $12.50 for ewes in pens of five. The rams also went at a good figure. Mr. Trapp will also officiate at Vernon, and left last night in company with his son, J. D. Trapp, for that city.

OBITUARY

BURROWS—The funeral took place yesterday afternoon of James Burrows, who died on Tuesday at the Royal Columbian hospital. Interment was made in the Church of England cemetery, Rev. Canon d'Easum officiating. Mr. Burrows was 63 years of age, and but a short time ago had come out from England. He was a farmer and resided in East Delta.

McCALLAN — The funeral took place from Ladner yesterday of Mrs. James McCallan, wife of James McCallan, of Wellington farm. Interment was made in Boundary Bay cemetery, Rev. J. J. Hastie officiating. Many friends of the late Mrs. McCallan and family were in attendance and numerous floral tributes were placed on the casket. The pall-bearers were: Messrs. Handford Lewis, James Nelson, W. Hennessey, J. Rogerson, C. W. Davis and William Stokes.

P. G. E. PAYS OVER MILLION FOR HOWE SOUND LINE

Victoria, Oct. 10.—The Pacific Great Eastern Railway and the Howe Sound and Northern have come to an agreement after negotiations extending over several months with the result that the Pacific Great Eastern has acquired the assets and undertaking of the Howe Sound road as well as the townsite of Newport. The settlement of the differences between the two companies was materially aided by Sir Richard McBride.

The Howe Sound and Northern Railway is taken over as a going concern, and its operations will be continued and extended. The transaction involves over a million dollars.

BOTH COMMITTED TO STAND TRIAL

(Continued from page one)

tions regarding what was done with the rifle after the wounding had taken place.

Wilson Hid Revolver.

Deputy Warden W. J. Carroll also brought out new evidence in stating that Craig's revolver was found on the Sunday morning hidden behind a radiator in the cell where Wilson was placed. The brick wall had to be taken to pieces before the gun could be taken out. It was empty.

Some surprise was evinced when a convict was placed on the stand to give his account of the trouble from its beginning in the stone pile. This man stated that he saw the whole proceedings, told of the attack on Guard Craig, and said that when he went to the assistance of the guard Wilson stuck a gun in front of him and threatened to blow his brains out if he did not keep in his place.

Convicts Testimony.

Another convict, a man of fine physique and apparently of good education, stated that he saw Wilson and Smith armed with revolvers and had thereupon warned Joynson, the murdered man, of the danger.

Smith, one of the accused, here interjected a remark that this man was telling the truth.

Guard Woolcock's testimony concluded the hearing, and Mr. Martin then asked for a committal which was given by Magistrate Edmonds. The two prisoners were later transferred to the penitentiary, where they will be held until they appear to answer the charge of murder preferred against them.

Going To Greece
The proprietors of the Palace of Sweets, Olympia Oyster and Fish Co., and the Maple Leaf cafe, all reserves of the Grecian army, have been ordered home at once, and wish to sell their businesses at a reasonable figure. An excellent trade is being done at all the places.
Splendid opportunity for man with moderate capital. Apply without delay at
Palace of Sweets
407 Columbia Street.

Many Good Positions
are open to young men and young ladies in the field of "Wireless" or Commercial telegraphy. The passage of a federal law effective October 1, compelling all sea going vessels to be equipped with wireless instruments, and manned by two competent operators, has created a great demand for young men in the wireless service.
The Morse Telegraph Company, of Seattle, Wash., operates under direct supervision of wireless officials and places all graduates in positions. It will pay you to write for full particulars.
