Officials Selected New Hazelton Station Site

NEW HAZELTON WINS OUT AFTER STRENUOUS BATTLE

Temporary Station at McLeod Street--Engineer Kerr Will Make Favorable Report--Work to Start Immediately---New Road to be Opened Up to the Station

After hard work and a strenuous fight the citizens of New Hazelton are to get a passenger and freight service and that within a few days — in fact, just as fast as the railway company can get another siding in and the townsite company can get a road opened up to the station.

On Wednesday night Mr. Kerr. chief engineer for the Railway Commission, arrived in town and that night and Thursday morning he looked over the station yards here with W. C. C. Mehan, and they selected a point about McLeod St. for a temporary station site. Mr. Mehan stated that he would begin immediately to build a big siding at the south side of the track for the accommodation of the immense freight and passenger traffic at this point.

When asked about the position of the Railway Board in connection with the New Hazelton service, Mr. Kerr stated that he was here to make a report which he would send in as soon as he got

(Continued on Page 8)

PURCHASED BEAR RIVER PROPERTY

Jackson & Clark Will Develop Sullivan & Olson Property—Starting to Work Right Away

Frank Jackson and C. B. Clark have taken over the Sullivan & Olson property on Bear river and went out this week to look it over. Mr. Clark will spend the winter here opening it up and getting ready for some big development work next season. It is the intention of the purchasers to work this property on their own hook. They have a good idea of its worth and they are satisfied that it will be a big payer. It is only eight or ten miles from the railway and very easy to get at, and the quartz is of high grade class.

HUDSON'S BAY STORE WIPED OFF THE EARTH BY BIG FIRE

Second Blaze Makes Clean Sweep---Started Mid-night Tuesday---Very Heavy Loss—Work of Fire Bug General Belief ----Citizens Did Good Work At Rescue

That old Hazelton has a fire bug, and one that had a particular grudge against the Hudson Bay Co., is now generally acknowledged. On Tuesday about midnight, while the worst storm of the season was on, a fire was discovered in the main store of the Hudson Bay. It was only a short time ago that the warehouses were burned and a very heavy loss entailed. The last fire was evidently started in the front of the main building, according to those who arrived on the scene in the early stages. The flames were shooting out of the front door and from the very first it was evident that the building could not be saved. The fire department and the citizens were soon at the fire and everyone worked hard for several hours in saving the goods. A long line was formed and the contents of the building passed out, but even at that the amount saved was as nothing compared to what was lost by the fire.

(Continued on Page 8)

The Herald Wishes Its Readers a Merry Christmas and a Bright and Prosperous New Year

HAVE STRUCK ORE AT THE SURPRISE

Lowest Assay is Over $250 and Averages $300—Same Character as Silver Standard

Word came down from the Surprise mine on Monday to the effect that the ore had been hit in this first vein which the long tunnel cut. While this vein was small on the surface a gang of men were put to work drifting on it from the tunnel. They have gone 90 feet and have encountered some very high grade grey copper ore carrying big values in silver. The vein is getting better now with every foot of work.

At the same time the long cross cut tunnel is being carried through to cut the second vein, which promises to be a big payer. The tunnel is now in 440 feet and will reach the vein almost any time. Supt. North and other mining men who have seen the property recently are satisfied that the Surprise will be a good paying mine.

CHRISTMAS ANNOUNCEMENT

The Omineca Market at the corner of Eleventh Ave. and Pugsley St., have received a big stock of the good things necessary to a Christmas dinner which has never yet been equalled in New Hazelton.

They have turkeys, geese, chickens, fresh pork, prime B.C. mutton, finest quality pork sausage, etc.

In fruits and vegetables the stock is the best. Such things as Naval and Jap oranges, Jonathan apples, choice fruit, bananas, hothouse tomatoes, head lettuce, pomegranates, Valencia cluster grapes, etc., can be had. Everything was carefully selected before shipment.

Also majestic hams, Laurel bacon, salmon, halibut, herring, Harrison and Loggie Brand finnan haddie, cod and soles and fresh butter.

HARRISON & SHRUBSALL

LIVELY TIMES NEXT SEASON

Frank Martin Predicts Big Crowd of People and Lots of Work on Mining Properties

Frank Martin arrived home last week after spending several months in Vancouver looking after his coal and mineral interests. Frank stated that while money in Vancouver is tight there is looks of activity in Victoria and that there is lots of loose money there also. He was very successful in several of his deals and has no kick coming whatever. He will be around the district now for some time.

Mr. Martin stated to the Herald that next summer would most likely be the greatest in the history of this district. In the south there is far more interest beiug taken in Hazelton than ever before and many more people were coming in now that the railway is open.

MOVING DAY FOR BIG SHOVEL

Dick Johnson Started the First Loads Off to Burns Lake on Wednesday---Many More to Go

Dick Johnson got a bunch of teams started away on Wednesday afternoon with the first of the many heavy pieces of machinery to be taken to the Burns Lake work. The first loads consisted of the big steam shovel which was brought up from the lower river and which has been here for several weeks. As soon as the teams can be had dump cars, rails and dinkey engines will be shipped out. This will give the contractors a lot more room in the yards here for handling supplies and other machinery.

A special train came into town on Sunday evening from Prince Rupert with chief engineer Kelliher on board. Mr. Kelliher is making a tour of inspection.

ORGANIZED THE HOCKEY LEAGUE

Old Hazelton and New Hazelton Will Meet Every Saturday—Telkwa May Play the Winners

A meeting of those interested in hockey was held in the Union Bank here last Monday night, when three representatives from old Hazelton and three from New Hazelton were present. These are the only places within fifty miles that have enough material for a hockey team. Rev. D. R. McLean was acting chairman. It was decided to call the association the Northern Interior Hockey League, and the rules of the O. H. A. for 1912-13 were adopted with such charges as are necessary for this district. The officers elected were:—

Hon. Pres.—Duncan Ross.
Pres.—J. M. MacCormick.
Vice Pres;—G. C. Hartley.
Secretary—D. R. McLean.
Committee Man—H. H. Little.
Cup Trustees—N. P. Moran, G. O. Graham, Jas. Richmond and Robt Rock.

The cup was donated by Duncan Ross and is a very handsome one. Telkwa was not represented at the meeting and were consequently left out of the schedule. They will, however, be given an opportunity to play the winner of the league on the winner's ice.

The first game will be played at the old town on January 4th, and the last game on February 23 will be on New Hazelton ice. There will be a game every Saturday during the season, alternating between the two towns, and the home town will have the say as to whether the game will be played in the day time or at night. Each team will retain its own gate receipts and pay its own expenses. The games will be played in three periods of 20 minutes each. In the matter of residence all players must have lived in the town they are playing with at least thirty days before the first game.

NEW CHURCH IS NOW ADVOCATED

New Hazelton Presbyterians Want to Erect a Building—Will Have Central Location

Immediately after the service in the Presbyterian church next Sunday morning there will be a congregational meeting to talk over the matter of a new church for this town. The present quarters are too small and are not suitable for service in the cold weather. The congregation has funds and all who are interested in the work of the church are requested to be present and take part in the discussion.

Fare And One Third

Starting December 21 to January 1, inclusive, fare and one third tickets will be issued by the Grand Trunk Pacific for the round trip. Tickets good to return on or before January 6th.

PUBLIC HALL FOR THE TOWN

Local People Getting in Shape to Erect a Public Hall—Figures being Asked From Contractors

Early this week a number of citizens considered the advisibility of a public hall for the town. Such a place is badly needed for public meetings, places of entertainment and for many other purposes. The idea appealed to many and now the contractors are being asked to give a figure on the construction. The building will be about 30x60 ft. and may be built on Eleventh Ave. Next week fuller particulars will be given of the plans.

John H. Hetherington, of old Hazelton, is acting manager of the New Hazelton branch of the Union Bank during the absence of E. B. Tatchell, who left for the south on a holiday last Sunday.

OVER THE BANK LOAD IS A LOSS

Sleigh Slides Where Road Overhangs River—Horses and Teamster Escape Unharmed

A load of hay and oats belonging to Foley, Welch & Stewart, and being hauled into the valley by one of their four-horse teams, went over the Bulkley bank and dropped some three hundred feet to the river one day last week. The accident happened at Dan Stewart's hill, about 16 miles out from town. This is one of the many places along the Aldermere road where the road overhangs the river, and is at a height that would make one dizzy to look down. There is just room for a team to travel under favorable conditions, but with the light fall of snow and the mild day ice formed on the road and there was not enough snow to keep the sleigh from sliding. As a result it swung and just at the edge struck a hard piece of mud which stopped the sleigh, but the bed and the whole load went over and crashed down the hill, tearing out trees, etc., in its path. Fortunately the horses and the sleighs and driver were left on the bank and were not hurt. The load will be a total loss as the bank is too steep to hope to get anything up.

The skating rink is now ready, and the officers of the hockey club desire that all hockey players turn out for practice every day.

TENDERS FOR GRADING

Tenders are hereby asked for grading streets in New Hazelton from the temporary station site to the business centre.

Plans can be seen at Foley, Welch & Stewart's office, New Hazelton. Tenders are to be in the hands of the undersigned between nine and ten o'clock Saturday morning, Dec. 21st.

Work to be commenced immediately contract is awarded.

D. MCLEOD, New Hazelton.

FRIDAY, DECEMBER 20, 1912

On the arrival here this week of Engineer Kerr, chief of the engineering staff of the Dominion Railway Commission, the citizens of New Hazelton should avail themselves of the opportunity to present their grievances in the matter of railway accommodation. It is presumed that Engineer Kerr comes for the purpose of inspecting the road, preparatory to the formal granting of permission to open the road to this town. His report will go to the commission, and it is the duty of the citizens' organization to endeavor to have that report embody their just complaint. It would undoubtedly assist in getting quick action.

Get to the Engineer

At the present time conditions here cannot help but arouse indignation and fighting protest. The development of the district is being retarded and every business man is paying out good money unnecessarily and experiencing all kinds of annoyances from lack of transportation accommodation. Besides the travelling public suffer the inconvenience of being dumped off in the woods three miles from their destination. Instances of how development is being held up may be recited in the fact that four carloads of timber for the high level bridge at Haguelgate are lying three miles down the line, and the work on the bridge has to be stopped pending their arrival. That is one big contract tied up. In New Hazelton yards is a carload of ore waiting shipment to the smelter from one mine, and two other mines have ore ready for delivery. These mines can do nothing until they get train service.

Development Retarded

These delays are not uncommon in a new country. They are expected and provided for, but in this instance they are absolutely unnecessary and due solely to a dog-in-the-manger policy. As an actual fact while the G.T.P. will not accept passengers or freight beyond the box-car station three miles down the line, all trains come right through to New Hazelton. The turning "Y" is located here and all yard work is done in New Hazelton. Yet passengers and freight are both dumped out three miles down the line, where there is no excuse for a station and where there is absolutely no accommodation.

The excuses given by the railway officials differ. One states that the Railway Commission have been applied to and have not accepted the road beyond the station called South Hazelton. As a matter of fact it has not been formally accepted beyond Skeena crossing, and the same informal permission which allows the company to run to the box-car station would allow them to carry freight and passengers to New Hazelton if it were asked for. But the really astonishing excuse is given by General Manager Donaldson, who wrote to the Citizens' Association to the effect that the company would not be justified in opening to New Hazelton this winter. Snow storms and limited equipment are the possible causes suggested by him for this stand. Apparently Mr. Donaldson, even though he is general manager of the road, does not know that every train actually runs into New Hazelton and the accommodation asked for by the citizens would not cost an extra ounce of steam or a minute of time.

Have No Good Excuse

There are other features of the case which public opinion does not treat very kindly, but getting the service to New Hazelton is the point rather than the causes which have been responsible for delaying it, and the Herald believes this service can be secured immediately if the case is put up to the Railway Commission through the Citizens' Association.

FIRE DAMAGED RUPERT HOTEL

Top Floor and Roof of G.T.P. Inn Was Destroyed and Whole Place Damaged by Water

About seven o'clock on Saturday morning fire broke out in the roof of the G. T. P. Inn at Prince Rupert and the whole of the top flat was destroyed with contents. The cause of the fire was not known when the passengers left on the Saturday train but the damage will amount to about $10,000. There was a big list of guests in the house at the time and many had to be pulled out of bed, including several New Hazelton people. The fire department did good work but were unable to save the top flat and it will have to be rebuilt entirely. Part of the second floor was also burned and the contents of the whole place was more or less damaged by water. The guests were all able to get out with their belongings. It will be some time before the Inn is in ship shape again.

Send to Merryfield & Co., Prince Rupert, for wholesale grocery price list. It means big money to you.

MAKE FORMAL APPLICATION

To Railway Commission for a Station and Freight and Passenger Service to New Hazelton

There will be a general public meeting of the Citizens' Association on Monday night next at 8 p.m. in the Presbyterian Church on Twelfth Ave. The executive committee will present a report of the work done during the past three or four weeks. The meeting will be open for general business and also for new members. Everyone in town is invited to be present.

At the executive committee meeting on Monday night last it was decided to make formal application to the Railway Commission for the extension of the passenger and freight service and for the erection of a station and freight shed here immediately.

Water Committee

The question of a future water supply was brought up and after consideration the chairman was authorized to appoint a committee to ascertain which water could be brought into town with best results. This committee will make a trip or two this week and report at the meeting on Monday night.

OLD HAZELTON LOCALS

There will be big doings at the Hazelton Hotel this Christmas and Christmas Eve. Mr. Harvey has engaged a brass band of 18 pieces for the evening and he is preparing a big dinner for Christmas Day.

Business across the ferry was at a standstill for a few days last week on account of the bridge having been carried away by the river. Anchor ice formed at the bridge and the water rose until it swept the frail structure away.

Hotel Specials

For Eastern Oysters, Crabs, Ooligans, Herring, Halibut, and all other luxuries of salt chuck, go to the Hazelton Hotel, old Hazelton. C. G. Harvey, Proprietor. 1t

Wants to Move

K. K. McLaughlin was in New Hazelton this week looking for a location. He says he will have to move pretty soon as there is no business in town for him any more. He is doing a lot of work for the mines but he will get that in New Hazelton anyway, and there is a good deal more building there and more work in his line.

FINE NEW TEAMS

Cohen, Zackon & Co. Now Owners of Handsome Horses

M. B. Cohen, of Cohen, Zackon & Co., arrived home last week from Vancouver. While there he purchased two very handsome teams of horses to be used in connection with their business in this town. This makes three teams Cohen, Zackon & Co. have on the road. The new horses were bought from Dickson Bros. & Schulz, Vancouver. One team is a very handsome pair of blacks of just the right weight for driving and delivery work, and that is what they will be used for. The other is a heavy team and will be used for hauling from the railway and from the New Hazelton store to the Bulkley valley. The heavy team is the finest that has been brought into the country and they have been greatly admired by everyone. Cohen, Zackon & Co. are right up to date and their business is increasing worderfully.

TWO MORE BRIDGES READY RUSHING WORK ON GRADE

Mud Creek Bridge Delaying Extension of Rails==Road Bed Finished to Telkwa by Middle of January==Have Twenty-five Hundred Men on Construction Work

The big steel bridges spanning Porphry and Boulder Creeks will be completed this week or the first of next week. These are the two largest steel bridges on the western division with the exception of the Skeena Crossing bridge. From Boulder Creek the bridge gang will be moved right up to Trout Creek where the last bridge of any size is to be erected until after Telkwa is passed. The construction of Mud Creek has been delayed on account of the steel not arriving but as soon as it comes it will not take over a month to erect.

The grading of the road bed as far as Telkwa will be completed entirely by the middle of January. This is rushing the work along in good shape and especially when it is considered that the laying of the rails has been delayed at Mud creek and all the supplies have had to be hauled all the way from New Hazelton and Sealey. Upon the completion of the Mud Creek bridge the line will then be ready for the rails right through for another 50 odd miles and that will be a great help to the contractors.

The wagon road from Burns Lake to Stella has been completed and is ready for the winter hauling from this end. There will be men working all along the line this winter and the greatest progress yet made will be accomplished this winter on the grading of the road bed. The cache and stables at Decker Lake are completed and are receiving goods. All the goods are being sent out from New Hazelton and will continue to be all winter although the railway will substitute the teams from this point as soon as the road is extended. At the present time there are 2,500 men working on the line and more are coming in on every train. There is no scarcity of labor this winter and there is no indication of any, so that Foley, Welch & Stewart will be able to make great strides with the construction of the road bed.

HANDSOME HOME

Laid Out All Land in This District But Decides on New Hazelton

Boyd C. Afleck, land surveyor representing Green Bros. & Burden in this district, is erecting a large and handsome residence on Ninth Ave., Sec. one. This is one of the best residential locations in the town and from it one can get a magnificent view of the whole country. Mr. Afleck is the engineer who laid out every piece of land in the district that has been put on the market as a townsite during the past couple of years. He chose New Hazelton as the place for his future home in preference to all others because he knew this was the only townsite property that could amount to anything. His house will be 20x30 ft. and two storeys high and it will be finished up in good shape. Mr. Afleck will reside in this town as soon as the house is completed or as soon as his contract in the south is completed.

OLD HAZELTON LOCALS

NEW SECRETARY WAS APPOINTED

Hazelton Hall Association Held Special Meeting—Auditors Refused to Audit the Books

On Monday night, Nov. 24, a special meeting of the Hazelton Hall Association was held and considerable business was done in the way of making changes and getting the association on a more business-like basis. Auditors Allison and Kirby refused to audit the books of the secretary-treasurer, as it was impossible to make a correct or satisfactory report. An investigating committee was appointed and they had considerable difficulty getting the affairs of the association in any kind of shape. Secretary J. A. Macdonald resigned and the executive committee appointed H. H. Little to take his place. The old committee holds office until the first of the year and then the new committee which has been appointed will take over the business, with Mr. Little remaining as secretary. The trustees are W. Allison, J. E. Kirby and E. H. Hicks Beach.

HAVING GOOD TIME

Mr. and Mrs. Jackson Visit Hazelton and Occasion is Celebrated

Since their arrival in town Mr. and Mrs. Jackson and party have been having a right royal time. Upon their arrival they were met by many of Mr. Jackson's friends who extended a real pioneer welcome to the bride and groom. The celebration was kept up until late in the evening. The next day C. G. Harvey and Mrs. Harvey entertained them to an auto ride to New Hazelton where they called at the new Omineca Herald building and were guests of the editor. C. B. Clark, of Montana, one of the best known mining men ever in the district, was one of the party. The rest of their visit to Hazelton was spent in riding, driving, skating, mushing dog teams and many other pastimes new to the bride.

When Mr. and Mrs. Jackson leave for the south again they will spend some time around Vancouver, and will then travel south for a couple of months before returning to the north. Mrs. Jackson will accompany her husband on his next trip to Ground Hog coal fields. They will leave about the first of March and travel up the Skeena river by dog team.

Closed Up Shop

Slinger & Ayerde are closing up their pool room and cigar store business this week and will leave for the south at once, where they will spend the winter. In the spring they expect to open up in Granby Bay, where they have some valuable property. Both of these gentlemen will be missed around town, as they have been here for several years, and had a big business in the town.

Skating on Charleson's lake has improved lately and quite a number of the young people are taking advantage of it.

BIG DEVELOPMENT FOR GROUND HOG

All Coal Companies are Preparing for Heavy Work Next Season—More Men Going In

When seen by the Herald last week, Ground Hog Jackson stated that he would make his next trip to the coal fields the first of March, when he would take in a lot of supplies by dog team to keep the men working, and also to take in more men. He will return in time to start the pack trains in as soon as the snow is off the ground and the grass has started to grow. Frank is interested in several blocks of coal lands and he will have charge this next season of nearly all the packing and getting the camps ready. He says that there will be an immense amount of development work done next year, not only by the Canadian Finance and the other companies that were operating this year, but by many others, including Williams & Murdoff, Laidlaw, etc. He will also do a lot of work on his own claims and get them in shape for engineers to inspect. He has had many offers for his own stuff but he says that he will find out what there is on the property first and thus get the actual value for the ground.

LAND LEASE NOTICES

Omineca Land District—District of Coast, Range V.

Dec. 9, '12 25 Frank Carleton Teck

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior
N. B.—Unauthorized publication of this advertisement will not be paid for.

HUDSON'S BAY STORE BURNED

(Continued from Page 1)

The Hudson Bay Co. carried a stock close to $60,000, and the biggest part of it went up in smoke along with all the buildings the last fire left standing. The total loss will be hard to estimate.

The cause of the fire is unknown as was the last, but there is strong and a general belief that it was the work of a fire bug.

The whole town had a very close call to total destruction and the citizens realized their position and were prepared with dynamite to blow up any other buildings that might have caught fire. A heavy wind was blowing right over the town and big pieces of burning wood were carried through the air. On nearly every building some one was stationed to watch for pieces of wood, and in this way other fires were prevented. The real salvation of the town, however, was the snow which had fallen earlier in the day and evening.

The plans of the Hudson's Bay Co's future actions have not yet been announced.

STATION SITE IS NOW SELECTED

(Continued from Page 1)

to Calgary, and that it would be favorable. It is more than probable that he has made his report from Prince Rupert.

The day of cheap transportation and the abolition of excessive cartage is here; the death knell of outrageous inconveniences has been sounded. New Hazelton will have all freight and passenger business handled right here, and the town will now go forward with leaps and bounds as there is nothing to block its progress.

The Harris Mines ore will be picked up and taken to the smelter. Silver Standard will start preparations immediately to haul down their ore and all winter the station at New Hazelton will be by far the busiest spot on the line east of Rupert.

Arrangements are now under way for opening up a road to the depot. Tenders are being called and the work will be under way early next week.

The temporary depot will be used only until the level crossings can be selected and the permanent station erected. It will be located at or close to Laurier street which is about the centre of the tangent.

HIGH LEVEL BRIDGE WORK BEING DELAYED BY G. T. P.

Grand Trunk Pacific Refuses to Deliver Four Cars of Timber Now Required for Structure--Excavation is Completed--Work May Have to be Shut Down

Work on the new high level bridge is progressing very favorably and by the end of this week all the rock work will have been completed and ready for the timber and the steel work. Engineer Hunter has been pushing the work along and the excavation on both sides of the river was practically completed last Sunday. Last week four carloads of timber for the bridge arrived at the end of the G. T. P. train service and it has been stalled there since. The timber is for public works and consigned to New Hazelton. The railway company refused to take it any farther although they accepted the goods as consigned to New Hazelton. If the timber is not delivered this week the work will have to be closed down until such time as the railway hauls it up. The cost to haul from the siding where it now is would be around $1000.00.

Thus the G. T. P. is endeavoring to assist in the development of the country through which it passes. The railway which the people of Canada are helping to finance refuses to haul goods to New Hazelton or to haul freight from New Hazelton.

C.P.R. steamer Princess Beatrice sails from Prince Rupert for Vancouver at 8 p.m., on the following dates: — November 24th, December 8th and 22nd, or every alternate Sunday. Through connection made on these days with train from Hazelton. tf
