VOL. 2. HAZELTON, B. C., SATURDAY, APRIL 16, 1910. No. 43.

VICTORIA, B. C.

## NEW TUNNELS ON NINE MILE

### SILVER CUP SYNDICATE WILL SHIP 200 TONS OF ORE THIS SUMMER

J. D. Campbell, mining engineer in charge of operations on the Silver Cup, returned to town after a week spent at the property and when interviewed by the Herald stated that it was the intention of the syndicate to ship 200 tons of ore this summer to fully establish the values contained in their ore. The shipment will be equally divided between the Silver Cup and Sunrise groups of claims. Mr. Campbell has ordered by wire 2,000 ore sacks for immediate shipment.

Buildings for permanent quarters will be commenced immediately to accomodate the force of twenty to twenty-five men which it is the intention to employ this summer. Another tunnel, 200 feet lower than the present one, will be driven on the Cup and plans for development of the Sunrise are still under consideration.

Mr. Campbell regards the showing in the tunnel now being driven as good and does not consider that a shadow of a doubt exists about the property being a mine. When he reached the workings, at 170 feet from the portal there was then 16 inches of solid ore in the breast of the drift that will run from $100 to $150 to the ton. Nine cubic feet in place will make a ton so that this streak on which they are driving runs into money very fast.

#### STRIKE ON FOUR MILE.

Tom Stephenson came in town Tuesday with samples of ore from a new discovery just made on one of his claims on Four Mile hill. The samples were nice looking pieces of galena ore, but no tests have been made to determine the silver contents. The showing crops for a considerable distance along the south side of hill, facing Bulkley river. Stephenson was forced to stop work in his shaft on account of surface water coming in and in prospecting the surface found the new vein. Some work will be done at once to open up the new lead.

William Johnson of Babine was a visitor in town this week. He had not been out before in three years. He is one of the oldtimers in that country and has spent several years placer mining on the Omineca and other streams. Concerning the possibilities of the eastern half of this mining division as a mineral bearing country, he says that all the indications are favorable. A great part of the country has never been traversed by white men but evidences of mineral are found on any of the streams.

#### HAD A CLOSE CALL.

T. T. Dunlop, Foley, Welch & Stewart's representative in this vicinity, had a close call Friday afternoon; one that he will not forget for some time. He had visited a gang of right of way men about two miles and a half from town and, finishing his inspection of their work, headed for the Skeena directly instead of returning by the trail. He came out to the river at the cut bank this side of the Sealy property and without noticing his location started to descend to the shore. At this point the bank is the highest of any place for miles, being about 150 feet, practically straight up and down. The upper fifty feet has some slope and there are a few bushes growing but for 100 feet there is a straight drop to the water with nothing to break a fall. Dunlop, thinking he was much nearer town and in a safe place, had descended this slope for about twenty-five feet before he realized his position. Being unable to return to the top at this point he started to work abong the steep slope to a place where he could regain a safe place when he slipped and started to slide toward a drop into the Skeena and certain death. When within two feet of the edge of the vertical bluff he caught on a projecting root which held. No help was to be sumoned and the root might give at any time so Tom had to solve his own troubles. A western railroad man is hard to beat, however. His walking stick driven into the bank relieved the immediate situation and where no bushes offered a hold for foot or hand, sticks were driven into the almost vertical bank and he thus made his way for about 100 feet to a point where a little ravine offered a possibility of reaching the shore.

He admits that his nerves were somewhat shaken by the experience and that it was one he never hopes to repeat.

#### SKEENA RIVER ITEMS.

Pete Salvus is coming up the river and will arrive at his camp in a few days.

A. S. Gray of Meanskinisht is planting three acres of strawberries this year.

Mr. Graham is clearing land and building a new house on his place near Meanskinisht.

Recent reports are to the effect that the river is open from Paget's camp down.

R. E. Paget started for Prince Rupert on Thursday.

#### Hon. R. G. Tatlow Dies.

Victoria, April 11:-Hon. R. G. Tatlow, formerly minister of fiinance, died this morning as a result of an automobile accident last Friday.

For the first time since the Herald commenced publication, July 8, 1908, we failed to receive our news despatches. The wire is down.

## LOCAL AND DISTRICT NEWS.

H. Maidment of Telkwa was in town Monday.

Lots of grub at C. V. Smith's General Store, Hazelton.

W. H. Burken had a rib broken at football practice Thursday evening.

Ed McLaren, formerly of Rossland, came up the river from Kitselas this week.

Dr. Wallace was summoned to one of the camps down the river this week, returning Friday.

R. O. Jennings, who is to be road superintendent on Queen Charlotte Islands, is in Bulkley valley on a business trip.

Hugh Taylor, P. Hewitt, E. G. Kennett and F. A. Driefke were among tne Kispiox people registered at the Omineca hotel this week.

Mr. and Mrs. Stillings were in town from their ranch Wednesday. Mr. Stillings has a good many acres under cultivation this year.

Dr. Wrinch left at half after ten Wednesday evening for McInnes' ranch in Bulkley valley. He was reported at Telkwa at six o'clock Thursday afternoon.

FOUND—At the Hudson's Bay Company' Store, while preparing for stock taking; 3 sets (double) lead harness, at $45.00, and 1 set (double) wheel harness at $50.00.

R. G. Steele and Alex. S. Millar, mining men, came up the river from Prince Rupert, arriving last Sunday. They will remain in the country to look it over.

Through error last week it was stated Wm. Kerr was ill. It should have been Wm. Carr. It was a severe attack of erysipelas but he is reported to be improving rapidly.

The Hudson's Bay Store has some flour, beans and a few other groceries left but many lines are sold out. After the arrival of the steamers the stock will consist entirely of fresh goods, which will be sold at the lowest possible prices.

## BOND ON BARBER AND SILVER BELL GROUP TRANSFERRED

A private telegram from Duke Harris, in Seattle, announced the closing of a deal for the transfer of the bond on the Barber and Silver Bell group on Nine Mile mountain, the first payment being made April 11. Harris starts for Hazelton April 19.

#### Rifle Club for Hazelton

A meeting will be held on Monday next at 8 p.m., place to be determined, with the object of electing officers and enrolling names for the Hazelton Rifle Club.

It is to be hoped this organization will meet with success. The Militia Department furnishes rifles and a certain amount of ammunition free, the remainder to be purchased at cost.

#### KISPIOX VALLEY.

Ranchers in the Kispiox valley are showing greater activity this spring in getting their farms under cultivation than ever before. The season is well advanced and plowing will be the general thing for the next few weeks. The prospects of having a good wagon road, with the Skeena and Kispiox bridges furnished, during the coming summer amount to practically a certainty and with a good market for all that can be raised there ought to be a large influx of settlers during the next few months.

There is a lot of good land left but like the rest of the northern country, the cream of the open land has all been taken by preemption and purchase. Good land covered with the light growth of poplar that is common to the whole country, is still open in quantity to the pre-emptor. The reserve placed on all the valley land for thirty miles, from sale or lease, is a guarantee against the Kispiox being held by non-resident owners and is operating strongly to create a settlement of actual farmers. Men living in the valley report that 86 pieces of land within the reserve belt have been taken, the larger part being held by preemptors. Anyone looking for good land can still find it and a man willing to put his shoulder to the wheel at the start can soon have a good ranch. Prices for all produce are excellent and will be so for the next few years at least. One farmer was offered, last fall, three cents a pound flat or sixty dollars a ton for all he had to sell, including hay, potatoes and garden vegetables; surely good enough for anyone.

All the vegetables grown in northern B. C. yield big crops in the Kispiox; oats and barley ripen early and a trial of fall wheat last season gave very encouraging results. The farmers now located in the valley, some of whom have been there for six years, can give ample demonstration that soil and climate are both favorable for mixed farming.

There is every liklihood of mineral being found at the head of the Kispiox. There has been little or no prospecting done in that part of the district but late last fall a party of men looking over the country reported good indications of mineral showing in different localities, chiefly galena.

Croppings of coal are seen all along the river banks and search may reveal workable seams.

At the head of the valley and on the mountain slopes, on both sides, is some sf the best timber in the interior.

Powerful interests are developing coal properties nearGroundhog mountain and their anthracite will more than likely be provided with a railroad outlet in the next five years. Kispiox valley, with a low divide at the northern end, offers a cut off of twenty to thirty miles over a route following the Skeena. The G. T. P. already have a proposed line north and it will only be a few years before Kispiox valley is placed on an equal basis with any ranching district in the province.

## BIG LEDGE ON HUDSON BAY MT.

### A GREAT DEAL OF WORK EXPECTED TO BE DONE THERE NEXT SUMMER

On Hudson Bay mountain, opposite Glentanna there promises to be considerable activity this summer. Among the claims located there are two owned by Angus Matheson, Angus McLean and Dan McLeod, of Hazelton, on which they claim the showing is remarkably good. Samples taken across the ledge for a distance of fifty feet, which they claim is the width of the vein, returned values of $31 per ton, ten dollars in gold and twenty-one in silver. Although the snow will not be off till June, they propose to make a trip to the property about the first of May and clean out their worgings for inspection by mining men wish-to see the showings.

Among other claims close by are the Sheedy group and one in which J. W. Stewart, the railway contractor, is interested.

They were all located in 1909 and the most work has been done by Joe Sheedy who drove a tunnel about forty feet last winter. Sheedy is well pleased with results on his property and will drive farther this year.

These properties are only a short distance from the railway line, on the east side of the mountain.

#### CORRESPONDENCE.

Pleasant Valley;

Correspondence.

W. Eggleston of the firm of Smith & Eggleston, contractors of Telkwa, was in the valley last week on business.

W. Poulton is among the fortunate ones, he has a townsite for sale.

A mail service has been started from Aldermere to Francois lake via Pleasant valley and South Bulkley.

A. McMillan has returned to his ranch here, but intends to leave again shortly for Hazelton on business.

Fred Allan who has been trapping and hunting on the Buck river this winter has been fortunate in securing some very fine marten and fisher.

H. Davis, who has been wintering quite a number of horses this year, is to be congratulated on their condition as they certainly look as if they had been cared for.

R. J. Allen, one of the most recent settlers in the valley, is now on his place doing improvements, and intends putting in quite a crop this spring.

Nearly all the ranchers in the valley were at a threshing at the Home Ranch for a few days. 400 bushels of oats and 300 bushels of barley were threshed. The grain looks good and ripened well considering the poor harvest weather we had last year.

## THE MAIL SERVICE

Another two weeks will see the mail brought by steamers and the carrier system ended until navigation closes next autumn. It goes without saying that we had the best mail service this past winter that we have ever had. Starting the first week in February a weekly service was inaugurated and well maintained by the carriers.

Outside of the benefits conferred by the postal authorities by the increased service the mail carriers are deserving of great credit for the manner in which they have done their work. Except for short periods the Skeena is not good traveling even in the middle of winter and how poor it can be at times can only be appreciated by those who live in this country and have had at times to make the trip to the coast on foot.

In spite of storms, thaws and overflows our mail has been delivered by Beirnes and Mulvany with a regularity not considered possible. Many people have remarked lately that our winter mail service, except for the quantity delivered and for which the mail contractors are not responsible, is better than the service rendered during the summer months with the steamers running. People advocating an alternative route for a winter mail service have claimed the Skeena is impassable for a time in the spring when the ice is breaking up. If it is the carriers have achieved the impossible in delivering a mail at Hazelton every week.

Not alone the contractors but but everyone connected with the service has worked faithfully and well and all are entitled to the esteem and gratitude of the community.

## SKEENA RIVER NAVIGATION

Steamers have arrived from the coast as early as April 25, a record set by the Pheasant of former days. In 1906 and 1907 the Mount Royal reached here on April 27. Other boats have tied up at Hazelton in April but the average time of arrival for ten years has been about May 5. The two preceeding years have both been backward, and in 1908 the first boat here, the Port Simpson, came in on May 9, in the evening and in 1909 the Hazelton arrived May 14.

Prospects for an early reason this year are not bright at present writing. Amongst the old timers a warm March with general rains means that the following month will be backward. The river is now several feet lower than three weeks ago and as long as frosty nights occur no improvement can be expected.

A rise in the river to make navigable water comes only with the melting of the snow on the higher levels. What snow falls in the valleys is gone weeks before the ice is out of the river.

Interior people are anxious this year for an early commencement of navigation and a continued favorable season as the entire transportation system is sure to be taxed to provide for the traffic offering. Some thousands of people are to be added to the population through farming, mining and railway construction and a very much larger amount of freight will be required than in any previous year. It was late last year before the three additions to the Foley, Welch & Stewart fleet reached the Skeena but this year with all boats in commission shortly after navigation commences and a total of eight steamers running there should, with ordinary luck, be enough supplies landed here to allow of all operations being carried on without restraint.

### CORRESPONDENCE

Pioneer Ranch
Bulkley Valley, April 2nd.

Editor Omineca Herald,

Dear Sir:

In your correspondence column of March 19th we were very much surprised to see a letter under the heading of "Pioneer Ranch;" Now the person who wrote such rubbish, ought, in our opinion, attend to his own affairs and leave those of other people alone. We fail to see what right anyone has to use the name of our ranch for the heading of his letters.

Thanking you for this space,
Yours Very Truly
McInnes Brothers.

### Saturday's Football Game.

The game between the Invincibles and the Hasbeens, the local soccer teams, on April 9, was full of excitement from start to finish. Although the score was two to nothing in favor of the Invincibles the match was by no means a one-sided affair. The players of both teams were out to win but, although the game was rough at times, the best of feeling prevailed. There was some heavy checking on both sides but only one injury resulted, W. J. McAfee having his nose broken by some one's elbow. Bets were freely offered and taken and about seven hundred dollars was wagered.

The first goal was scored after about ten minutes play. The lighter and faster forwards of the Invincibles kept the ball in their opponents' territory most of the time and only the agility of W. Larkworthy, the Hasbeen goalkeeper, kept the score down. The half closed one to nothing.

It was evident with the commencement of the second period that the older men had been holding back to avoid exhaustion. Frequent rusnes carried the ball close to the Icvincibles' goal and only sharp work prevented the score being evened. The second goal came about the middle of the half and resulted from a pass from wing to center and a quick shot. Larkworthy slipped and fell as he jumped for the ball and a score resulted from what should have been an easy return. With the second goal went the last hope of the Hasbeens for victory but it did not dampen their ardor in the least.

The losers were to furnish a spread for the winning team and the Invincibles were entertained at the Ingineca Hotel by manager Pratt, in good style. Major Morison was toastmaster and presided in his ablest manner. Several short speeches were made and several musical selections rendered by local talent and the thirty-five men who attended pronounced the affair a great success.

The Indian band was engaged by the winning footballists to head their triumphal procession about town early in the evening and were kept stationed in front of the hotel for a time afterward.

Another game between the same teams is scheduled for this afternoon. Some changes will be made in the forward line of the Hasbeens and a spirited contest can be expected.

### POLICE COURT.

Peter Brown, the Indian lad who was cut about the throat by another Indian on the reserve two weeks ago, was before the magistrate for sentence this week and was compelled to pay his bill for treatment at the hospital. Outside of this case none offered more interesting than a plain drunk who contributed five dollars and costs for the privilege of being disorderly.
