VOL. 4. NO. 3. HAZELTON, B. C., SATURDAY, JULY 22, 1911. TWELVE PAGES

NEW HAZELTON HEADQUARTERS

FOLEY, WELCH & STEWART'S ENTIRE STAFF TO BE MOVED

Manager V. W. Smith Visits the New Townsite and is Arranging for Change

Alderman V. W. Smith, of Prince Rupert, and manager for Foley, Welch & Stewart, has been in town the greater part of the week partly on business and partly pleasure. He arrived on the Distributor, and on Wednesday with a party went over to New Hazelton and looked over the property where the contractors will establish their permanent headquarters. The company have a force of men at work now cutting out the timber and brush and preparing the ground for the construction gang. As soon as this is done then the lumber and timber necessary for building will be hauled over from the mills at Sealey and the erection of the warehouses, offices, shops, stores, houses, restaurants, boarding houses, etc., will be commenced at once and carried on as rapidly as possible. It is the intention of Messrs. Foley, Welch & Stewart to have their entire staff moved to New Hazelton by the middle of September. It is to get a line on things and to get acquainted with the locality that Mr. Smith is here

Mr. Smith left on the Distributor for Kitselas, where he will meet Mr. Shepard, the new superintendent for the company, and take him over part of the line. Mr. Smith will also visit New Hazelton again and probably spend some time there. When he returned from his trip on Wednesday he expressed himself as well pleased with the layout. He is delighted with the whole property as a townsite proposition and he is confident that New Hazelton will be a good-sized and a very lively town. The natural scenery cannot be beaten and it cannot be marred.

Mr. Smith is also interested in the Northern Interior Land Co. and that firm has the property immediately adjoining Taylorville on three sides, and it is very choice land for townsite purposes. It is on a part of one of these sections that the company's headquarters will be located. The Northern Interior Land Co. have had a part of one section adjoining Foley, Welch & Stewart's headquarters platted, and they have a man in Victoria now getting everything fixed up so that the lots may be put on the market at an early date. At the present time only a small piece will be sold, as the idea of the company is to concentrate the business part of the town rather than to sell a large block and have the population scattered.

When the lots in New Hazelton are ready there will be some keen purchasers, as there are a great many people waiting for the opportunity to get into the new town and share in the business that will be created there this fall and winter, and particularly next spring. That there will be quite a colony at New Hazelton this fall and winter is assured and the probability is that there will be a lot of business there.

This is Mr. Smith's first visit to Hazelton. He never was more than a few miles up the river before, and what he has seen has been a revelation to him, although he had been told all abont the country and the scenery along the Skeena river scores of times. He has enjoyed every hour since he left home, and he does not like to think that he will have to go back to the coast for a couple of months more and miss the beautiful weather and all the other special features of this district. He was accompanied on his trip by Mrs. Smith and Miss Smith, of Victoria, and they are delighted with both the old town and the new town and predict a very happy life for the thousands of people who will soon make this their home.

Eighteen Hundred Head of Cattle

P. Burns & Co. will bring in 600 head of cattle this year more than last year and the prospects are bright for having a supply of beef all winter. Nearly 1,000 head have already arrived and an other drive of 500 are on the way across the mountains. As soon as the men who brought in the last drive can get back to Chilcotin they will start the last drive for this season. The total number brought over that 600 miles this year will reach 1,800. So far the big meat company have had very good luck, only a few of the cattle have been lost and some of those will be picked up by the next drive.

LOTS SELLING VERY RAPIDLY

Many Reservations of Lots Have Been Made Since Last Week

Since the appearance of the Herald last Saturday announcing that the new Townsite of Larkford was on the market Messrs. Harvey & McKinnon have received many enquiries and applications for reservations in the new town. Not a few local people have secured lots in this locality, in addition to those announced last week, but a large number of Prince Rupert people have also taken reservations. The lots in Larkford that are for sale are choice and some of them are exceptionally fine for residential purposes. The view obtained of the Bulkley river and of the mountains on all sides is indeed beautiful and there is no doubt but that in a short time many very fine homes will be erected on Riverside Ave.

The Herald also learns that the company started this week to clear the streets and get the property in shape so that the purchasers of lots can start building. When the streets are cleared the appearance of the property will be greatly improved.

Three churches have also secured lots in Larkford, viz: the Roman Catholic, the Church of England and the Methodist Church.

WEEKLY REPORT OF THE MINES

TRIMBLE AND PEMBERTON'S PROPERTIES SHOWING RICH

Many Promising Prospects Opening Up in all Parts---Mining Men are Active in Hills

Recent developments on Rocher de Boule mountain have established the claims being worked by R. P. Trimble and W. P. D. Pemberton as being away beyond first expectations. High grade copper ore has been uncovered 8 feet wide in place of the width of 4 feet shown last year, and the vein has been stripped over 500 feet in length. Cabins have been completed, a trail built from the mouth of Kitseguecla river, and these have taken much time. From now on a full force will be engaged in work on the different veins. The property shows every indication of becoming a bonanza.

On Bear River

G. A. Rosenthal returned on Thursday from a trip to the Green Mountain group of claims on Bear river. The vein on the property is from 3 to 8 feet wide and directly traceable for the full length of four claims. The ore is arsenical iron and galena. Considerable work will be done this summer to show up the real merits of the group. Values in the ores of that locality are good, silver and lead being on the same ratio as other locations in this vicinity, and the arsenical iron carrying gold values of $10 or better. Several other properties have been located in the same part of the country, on the east side of Bear river, and from fifteen to twenty miles from Hazelton, and in the main have very good showings. The new bridge built across Bear river by the government is a great convenience, and will materially assist in the development of that part of the country.

Glen Mountain

R. W. Thompson and Louis Duncan are uncovering a showing of more than ordinary importance north of the Silver Standard group. The vein averages more than 18 inches of good ore, and some of it is very rich in gray copper.

Nine Mile

There is considerable increase of activity on Nine Mile owing to nearly all of the claim holders being up there working assessments. Dan Olson has been getting some remarkably big assays, nearly $400 to the ton, and further good news is expected before he is done.

Dutch Cline and Harry Tanner have completed the work on the Silver Pick for the present. Later the tunnel will be continued into the hill.

Four Mile

Sinking is still in progress at the Erie, as is also the crosscut driven on the hanging wall side to recover the ore which was lost in a fault at about 50 feet depth. The crosscut may have several feet still to go before encountering the ore, and again it may be met any day. A whip has been rigged for hoisting the broken rock and a horse is doing the work, saving much time and labor.

Rocher de Boule

Another discovery of more than passing importance is reported from Rocher de Boule mountain, Edgar Boling having located a group of claims on a very promising showing in the same vicinity as the other showings which are attracting so much attention.

Ores of the District

An adequate exhibit of the ores of the district, to be collected and sent to Vancouver at the time of the exhibition late in August, has been the subject of considerable discussion locally and at an informal meeting of several men interested in the subject it was decided to call a meeting of all interested for next Wednesday evening at the office of Aldous, Robertson & Murray to go into the subject fully, and if at that time thought advisable, form an association to take up and deal with all matters connected with mining in general in this district.

It seems to be pretty generally the opinion that this district should be represented by the best exhibit that is possible under the circumstances to obtain, and it has also been suggested that a man be sent down to Vancouver with the ore.

Farm Land Sold

On Friday of this week the B. C. Brokerage completed a deal with Vancouver parties for 374 acres of improved land at Round lake near Aldermere for $20 per acre. The property was formerly owned by Chas. J. Hastings who had it listed with E. H. Hicks-Beach. The lots included are Nos. 766 and 766a.

OMINECA WATER AND POWER CO.

Propose to Supply Water And Electric Energy to Taylorville

The Omineca Water and Power Co., Ltd.. are making application for rights for the water power of Mission Creek which has its source in the Rocher de Boule mountain and comes out just half a mile from Taylorville. The object of the company is to supply water and electric power to the town of Taylorville, and the directors propose to start operations at soon as their license is granted and they can get things shaped up.

Mission Creek is a beautiful mountain stream which has a constant flow sufficient to supply a good sized city with electric energy as well as water for domestic and power purposes. It is very handy to the town and in fact the new town is very fortunate in having such a stream so close. Coming down the mountain side Mission Creek is a roaring canyon and their is one fall of nearly 45 feet. It is at this point that it is proposed to develop the power. Another feature of the creek is that the water can be conserved in almost any quantity desired.

The company have forty acres of land at the foot of the mountain and upon this it is proposed to do the development work. The capital of the company is $50,000. Those composing the company are Mr. Leon Benoit, Winnipeg, A. W. Agnew, Prince Rupert, and the B. C. Brokerage, of Hazelton. Barnard & Robertson, of Victoria, Solicitors. The engineers are Agnew & Ritchie, of Prince Rupert.

WORK STARTED ON TUNNEL

ARCHIE McDOUGALL HAS THE SUB-CONTRACT FOR JOB

Will Work About 100 Men in Ten Gangs Going In From the Side at Four Places

Foley, Welsh & Stewart, as announced last week. were awarded the contract for building the tunnel under the mountain at about Mile 43. They have sublet the contract to Mr. Archie McDougall, and he has started to work already on it. The first car of dynamite was shipped up last Sunday. The tunnel will be 1400 feet in length, and it is to be finished by December 31st. This will mean that at least 100 men will be employed on the job. The work will be carried on from four different places, starting in from the side and working both ways. This will enable him to work two gangs of men. If the contract is finished on time the rails will be laid, and the tunnel ready for trains early in the new year, and the danger from heavy snow slides will be overcome to a great extent if not entirely. The original cost will be somewhat heavier than building snowsheds, but in the long run it will be very much cheaper, and traffic will not be interrupted as was the case last winter and spring. The cost of the work will be in the neighborhood of $150,000.

Dispatch Corrected

Elsewhere in this issue will be found a dispatch from Winnipeg to the effect that the contracts will be let immediately for the 600 remaining miles of the G. T. P. mountain section. Mr. V. W. Smith, of Foley, Welch & Stewart, informs the Herald that the tenders were called for some time ago, and that the tenders will be opened on August 15th. It will not be possible to let the contracts before that time. His firm have a tender in for the work.

Mining Men in Town

When the Port Simpson arrived yesterday morning she brought up several prominent mining men who are here to do business if they can get just what they are looking for. One trio Messrs. P. J. Jennings, J. T. Jennings and G. H. Jennings, of Portland, Ore., left this morning with Mr. McKinnon and Mr. Brown, for Four Mile mountain and they will also visit the Harris boys' and the Lead King properties. Other mining men are Mr. Alex. Faulds, of Vancouver, Martin Wamlich and Jas. Wright, both of Vancouver, and Franklin Hess of Chicago.

SATURDAY, JULY 22, 1911

New Hazelton

In a comparatively short time the majority of Hazelton's population will be moved or moving across the Bulkley river to New Hazelton. By New Hazelton is meant that large tract of land controlled by three different syndicates, viz: Rolid Kelly owning Taylorville, The Northern Interior Land Co., owning property on three sides of Taylorville, and the local syndicate which has Larkford. All these properties must, sooner or later, come under one municipal control, and all be known as New Hazelton.

In moving across the river the old town will make no mistake. We will be on the railway where there is a tract of land which the residents can own and do with as they please and not have to bow to the will of the Indians, who own the greater portion of the old town. The new town is as close, if not closer, to the mines, and from many locations one can see the camps of several of the miners. The view from New Hazelton is a magnificent one stretching for miles up the Bulkley river and valley and for quite a distance down the river, while Rocher de Boule Tour Mile and Nine Mile Mountains, with their ever fascinating grandeur, are always in view.

New Hazelton is an ideal spot for a townsite and there is no doubt but that that town will be a live one. There are no rock hills to cut down, no great fills to make. It is almost as level as a table and the soil can all be worked with a shovel. The sewerage question will be a very simple one, and on another page will be found a water works and electric power proposition.

Problems that will have to be worked out, although the citizens will have no part in them, will be the transportation of the mineral from the mines to New Hazelton and the carrying of supplies back again. The Bulkley has to be crossed to reach most of the mineral properties, but even at that it is merely an engineering fete and one that will be easily accomplished.

It is up to every citizen of Old Hazelton and vicinity to boost for New Hazelton, (meaning of course the greater town referred to above).

PRINCE RUPERT INTERESTS

What is going on in the Harbor City

Special Correspondence.

Prince Rupert, July 15

While the east is scorching, sizzling and melting its vitality Prince Rupert is bathing in sunshine, a sea breeze, high barometer and temperature at 71 degrees.

Though Prince Rupert is still too young to have gathered the moss of a pioneer aristocracy it is not altogether without a civic pride. The boys still retain the memory of a defeat at baseball by the sports of Hazelton and where two or three has-been ball tossers are gathered together there is an inspiration to challenge for the lost laurels. There appears to be a lot of latent talent here and one never knows when he is talking to some ex-champion. It is doubtful if the boys will be able to get a team to make the journey this summer but the linking of the two towns by rail is sure to bring some excitement to the fans.

Pictures of the world-wonderful inland sea passage between Vancouver and Prince Rupert, the scenic grandeur of the mighty and perilous Skeena, combined with steaming ships and rushing express trains, produced with all the thrill of motion and the embellishment of calcium light, is the latest advertising scheme of the publicity department of the Grand Trunk Pacific. The moving picture machine and its operator are now making the films which will be loaned to all the nickle theatres in the East. To see the Inlander pulling her freight up canyons more awe-inspiring than Niagara and running rapids more perilous than those of the St. Lawrence ought to be worth the price.

Mr. McKinnon, of the firm of Messrs. Harvey and McKinnon of Hazelton has been in the city this week arranging to place the townsite of Larkford on the market. Larkford adjoins Taylorville, or New Hazelton, as the post office is to be called. In this city Hazelton, and its successor to be, is attracting a lot of attention. So consistent and persistent are the good reports sent down of its agricultural lands and mines that a firm faith in the town's stability has been created. Business men look upon Hazelton as a great future feeder for Rupert and every speculator here expects to see the up-river city produce him some easy money. Local merchants generally expect to at least invest in a Hazelton lot. Several have already made selections in Larkford.

Though Prince Rupert believes itself to be outgrowing its days of infancy it has not yet put away childish things. One would suppose that with a daily expenditure of $1000, and a half million dollar water and power problem on hand Prince Rupert would develop some publicists worthy of a real city. In place of classics the city is just now being entertained by a moving picture show of gimlet politicians conjuring a scandal out of an item of special civic legislation designed to overcome a ridiculous technicality in the liquor license by-law. Two bottle licenses were granted by the commissioners and the holders were accused of being interested in each other, whereby they might form a combine to buy their stock cheaper and even perhaps keep the price of booze at an exhorbitant figure. The very thought of such a heinious possibility is not softened even by the fact that there are seven hotels, three clubs and two wholesale licenses in competition.

PROSPEROUS 1911

After the fall of last year, when every indication pointed to such a bright outlook for the coming season of 1911, we anticipated that a great demand would be created for furnishing lines, and decided to put in a well assorted stock of

Carpet and Matting Squares Japanese Matting Cork Linoleums

LARKFORD LOTS ON SALE

NEW TOWNSITE ON MARKET
TWENTY-SEVEN LOTS SOLD

Local Men are Buying in Addition to Taylorville with Intention of Moving Their Stores

Messrs. McKinnon & Harvey have put the town of Larkford on the market and within a couple of hours the leading business men of Hazelton had taken up twenty-seven of the lots. Their idea in this is to move their business houses over to the new town as soon as conditions warrant it. This means a big thing for the new townsite and especially if their is any necessity to move over in the near future.

Larkford is what is known as lot 883. It adjoins the townsite of Taylorville and at one point the railway touches it. It is at this point that it is planned that the station and railway yards will be established so that the location is ideal. On the other hand the traffic of the mines will have to pass through whether it is a bridge which will cross the Bulkley at the low level or whether a tram is run across at the high level. It is proposed now to put the main town on the high level ground. Another feature of this property is that it is on the bank of the Bulkley river and affords a beautiful view as well as good drainage and the land is very easily worked.

In this townsite there are 202 lots that are for sale after the Provincial Government has taken out their portion, It might be mentioned that the Government has already selected its blocks. Of the 202 lots left 27 are sold and the others will go very rapidly. Several parties have either gone over to pick out their lots or will go over in a day or two. The placing of these lots on the market has caused quite a little stir locally and it is expected that things will begin to move in a very short time. The lots on the main business streets are selling for $400.00 to $200.00 and on terms of one quarter down and the balance in four, eight and twelve months without interest. On another page of this issue will be found the introduction advertisement.

Suit Cases, Hand Bags, Valises and Grips, full and complete lines at McArthur's Emporium.

Expect a Big Rush

Vancouver is expecting a big rush of visitors during the next three months. It is estimated that a hundred thousand persons will call at that city for short visits and that they will spend in the neighborhood of $4,000,000.

Free Reading Room

A movement is on foot, fathered by Rev. D. R. McLean, pastor of the Presbyterian church, to establish a free reading and writing room for the men of the town and district. If a satisfactory location can be secured a large tent will be erected and furnished with writing tables and writing materials, as well as all the leading papers and magazines. Rev. Mr. McLean will no doubt receive very hearty support in his undertaking as such a place will be much appreciated by the large number of men in the town and those in the hills who come to town for the week end.

Sunday School Picnic

The Presbyterian Sunday School children, along with their parents and friends, enjoyed their first annual picnic on Wednesday last. A large number were present.

Jail For Sealey

Plans have been prepared for a jail for the town of Sealey, and it is understood that it will be erected at once. The building will be 16 x 24. It is felt that Sealey is now getting large enough for such a building.

The Boy Scouts

All information for the formation of the Baden-Powell Boy Scouts in this province may be obtained from the Rev. and Hon. T. R. Heueage, honary secretary, of Victoria. All warrants and badges must be obtained through his office.

Very Successful Dance

The dance on Saturday night given in the Auditorium under the auspices of the Hazelton Athletic Association was a decided success, in fact it was one of the best and most enjoyable social events given by the Association. Over a hundred were present and the floor was in perfect condition. The music furnished by Mr. Springsteen and Mrs. Lee on the piano was perfect and added very materially to the pleasure of the dancers. Supper was served by Chas. Black of the Overland Restaurant, and was all that could be desired.

Ladies are invited to attend the Special Sale of Summer Hats at McArthur's Emporium, one-third off, while they last.

HAZELTON BOYS CHAMPIONS

WON TWO GAMES FROM TELKWA LAST WEEK

Big Scores in Both Games---Large Crowds Present---Muckleston Pitched Fine Game

Hazelton can now claim the baseball championship of Northern British Columbia. They have thus far defeated all comers and the boys are prepared to meet all who desire to come. Last Saturday and Sunday the locals went up against the best in the Bulkley Valley when they met and defeated the boys from Telkwa in two very interesting although one-sided games. A large crowd witnessed both games and the rooters for both teams did their utmost to help their favorites along. The visitors came down with the intention of taking the first game at least and so confident were they and their supporters that they could figure out a win that they backed the team with a couple of thousand dollars. Hazelton supporters, however were not at all slow in picking up all the easy money that was offered.

The game Saturday afternoon was by far the more interesting from a spectators point of view and it was also the better game. The battery for the visitors got off to a bad start. Tholman was in the box and he was touched up for seven runs. In the third inning he was replaced by Sweeney who pitched fine ball for four innings then the locals found him and got seven runs in the seventh and eighth innings. In the second innings, Davy, the catcher for the visitors was injured and he was replaced by Farro who put up a good game behind the bat.

For Hazelton Muckleston played great ball. The visitors could not hit him to any extent and in several instances when it looked bad for the home boys Muckleston saved the game by good pitching and by catching three men running to first. Riley behind the bat was there all the the time and was a good general for the rest of the team. The boys all played their positions well and they are a credit to this isolated district.

The line-up was as follows:

HAZELTON TIGERS		TELKWA-ALDERMERE
Rock	3rd base	Tibbals
Fred Daniels	s. s.	McDonnel
Riley	c.	Davey and Ferro
McDonald	1st base	Eason
Al. Harris	2nd base	Middlestead
Kenny	l. field.	Gore
Stickney	c. field	Sweeney
Trimble	r. field	Davey and Wakefield
Muckleston	pitcher	Tholman

Score by innings:

Hazelton	2	5	0	0	0	1	3	4	x	—15
Telkwa	1	0	1	2	0	2	0	0	0	— 6

SUNDAY'S GAME

There was a fair sized crowd out on Sunday afternoon although the weather was extremely hot. The game was not as good as the day before and not so interesting for the spectators. The score was one-sided. The locals got 13 runs in the first two innings off Tholman. He was then replaced by Sweeney who held the boys down very well until the last two innings.

For Hazelton the line-up was the same except that Trimble was in the box and Muckleston took his place in the field. Trimble pitched a good steady game all through.

Score by innings:

Hazelton	4	9	1	0	2	0	0	3	4	—23
Telkwa	3	0	3	2	0	5	0	0	1	—14

Erie Erie

FOR MANY REASONS we recommend

Omineca Mines Limited

(Non-Personal Liability)

For many reasons we recommend the immediate purchase of stock in Omineca Mines Limited at the present offering

10 cents per share.

FIRST AND FOREMOST

WE believe that the stock will steadily advance on the true merit of the properties. Secondly, we believe in the management of the company, and further that the safety of the investors' money is absolutely assured. We believe furthermore that there is great value in the property holdings far and above the present selling price of stock.

It is with all these facts in mind that we recommend investment in Omineca Mines Limited.

Believing that this enterprise, consisting of a big mining property systematically developed, the management by reliable business men, assuring a clean business administration, offer an opportunity for extraordinary profits to everyone who wishes to share in the benefits derived from a successful and energetic development of a big mining property. And Omineca Mines Limited is fast proving to be a big mining property. Read the report of the noted mining expert, Mr. R. C. Campbell-Johnson, published in the Omineca Herald of June 24th. Visit the properties and see for yourselves. Call on us and let us show you some of the ore and tell you about it. But above all, **BUY OMINECA STOCK.** Don't hesitate. Do it now.

Looking ahead we venture the opinion that Omineca Mines will sell for many times the present price of shares. Our predictions are based upon sound estimates of what may reasonably be expected from a liberal development of the Omineca Mines ore bodies.

Be one of the early purchasers and secure the maximum of profit.

Positively no more than 100,000 shares will be sold at **10 CENTS PER SHARE.** Thereafter the sale of treasury shares will either be withdrawn or the stock advanced to a price consistent with the development of the property. The shares are going fast, buy now before the price increases.

Terms of purchase are cash or one quarter cash with order and balance in three equal monthly payments.

Make your application in person or by letter to

News by Wire

Close Shingle Mills

Seattle, July 19—The shingle manufacturers of Western Washington will close their mills every Saturday during the remainder of the year, or until the market improves.

Killed by a Blast

Nelson, July 19—John Beckman was instantly killed and Alex. Byers was seriously injured by a powder blast at Josie mine of Le Roi No. 2 Co. Beckman's head was shattered and his body was frightfully mangled. It is believed that the men drilled into a missed hole.

Ottawa House in Session

Ottawa. July 19—The House of Commons reassembled tonight. but there was a very small attendance after the adjournment. The government at once threw down the gauntlet by moving that the House go into committee on Ways ann Means on the reciprocity question. The Opposition has completely reformed the old line of uncompromising hostility by moving to the effect that services rendered by Canadian volunteers during the Fenian raid be recognized by the government. This was voted by a vote of 61 to 45, the smallest on record for many sessions. Arthurs, Conservative, from Parry Sound, spoke for two hours against reciprocity, and Taylor, of New Westminster, after an hour and a half moved the adjournment of the House.

CONTRACTORS NOW ASK FOR $700,000

Big Land Suit Against The Dominion Government is Entered

One of the biggest lawsuits entered in Canada will be begun shortly with the Dominion Government as defendant, and the contractors of the national transcontinental railway as the plaintiffs. The amount involves totals about $700,000, and the issue is as to the proper amount the government should pay for the work done by the contractors on the national line from Moncton to Winnipeg. Some months ago a board of arbitrators gave a decision which deducted the above amount from the total claimed by the contractors. The contractors are not satisfied and will endeavor to get the courts to alter that decision. Mr. E. L. Stinson, deputy paymaster for Foley, Welsh & Stewart had a sub-contract on the territory in dispute, and he is very much interested in the outcome.

Local News

Mrs. Haller returned from a visit in Vancouver on Tuesday.

Large and complete assortment of Ladies' Dress Skirts at McArthur's Emporium.

H. H. Little, manager of the Union Bank, returned on the Distributor Tuesday from a trip south.

F. C. McKinnon, of Harvey & McKinnon, returned on Tuesday morning from a business trip to Vancouver.

Eiderdown Comforters, just received, price $8.00 to $30.00, at McArthur's Emporium.

Mr. B. Durant, of Prince Rupert, arrived in town this week and will take charge of Larkford townsite sales for Harvey & McKinnon.

Presbyterian Church service Sunday evening at 7:30 o'clock. Sunday school at 2 p. m. In Town Hall every Sunday.
—D. R. Mclean, pastor.

Mr. and Mrs. V. W. Smith, Walter Smith and William Manson, Jr., of Prince Rupert, and Miss Maude Smith of Victoria, were passengers on the Distributor Tuesday.

Furnished Rooms.—Two nicely furnished rooms in a quiet part of the town. For particulars see Fred Polley, G. T. P. Cigar Store. 2-4t

County Court Session

Among the work that according to present arrangements will be attended to by His Honour Judge Young at the forthcoming sittings of the County Court at Hazelton to be opened on 8th August will be an appeal by G. W. Morrison of Sealey against his conviction for selling liquor without a license on the morning of 5th July, and any further similar appeals, and on the Civil side an action Noverwitch v McDames, being a suit relating to payment for 250 cords of cordwood, Juvich v Stipitz, an action for the recovery of money lent and balance of a partnership account, and there is further litigation which it is hoped will be ready for trail by the time that the Judge arrives.

Got A New Rifle

Mr. Arthur Skelhorne has received his new rifle and at the weekly shoot this afternoon and tomorrow he will show some of the boys what a real good rifle will do. The gun is a handsome one and and of the very latest design. It is the same that is used this year at the Bisley matches. It is the latest model Lee-Enfield rifle made by the Birmingham Short Arm Co.

Sunday Game

On Sunday afternoon the Hazelton Tigers and the Post Toasties, the latter an aggregation of fireside ball players at present in town, will clash. It is expected that a lot of new and heretofore unknown talent will be discovered.

In Telkwa Aug. 5

The Hazelton Tigers will play Telkwa in that town on August 5. Word comes from the Interior that the Telkwa boys are prepared to slaughter the ball team and also the backers. Muckleston will pitch for the locals.

Pa. Beak and James Craig returned to town this week after a long trip through the Bulkley Valley and around by the Hudson Bay Mountain and down the Kitseguecla River. They were gone about a month and during that time they covered a lot of territory. Mr. Beak will return to Prince Rupert in a week or so where he will spend a short time.

ANDERSON'S ISLAND AFIRE

SOUTH END OF ISLAND ALMOST TOTALLY DESTROYED TUESDAY

Mr. Anderson's House a Prey to the Flames---The Whole Island Will be Burned Over

The passengers on the Distributor Tuesday morning brought in a report of the fire on Anderson's Island. The flames started on the south end of the Island and when the Distributor passed it had pretty well cleaned up all the portion of the property, and Mr. Anderson's house had just been caught by the flames. A later boat reported the house completely destroyed, and that the fire was spreading throughout the timber. This is the property secured by the Grand Trunk Pacific for their freight terminals. The south half belonged to Mr. Anderson and the north half to a Prince Rupert syndicate. Except for the loss of the timber, and there was a lot of good trees on the property, very little damage will be done. The fire was very hot and some of the boats in passing had to wet down the decks and keep the passengers inside until they had passed the Island.

Wedding Bells

A very interesting event took place in Hazelton on Tuesday morning, July 18, when Miss Catharine Marjorie Raby became the bride of Mr. Charles Gordon Harvey. The ceremony was performed by Rev. D. R. McLean, pastor of the Presbyterian church. Both of the interested parties are well known in Hazelton and they both have a whole host of friends who will join in wishing them a long and happy life together. The groom is an old timer and a real pioneer who has traveled over all parts of this continent.

Father Bunoz Here

Rev. Father Bunoz, of Prince Rupert, was in town on Monday having arrived from Fort George. The reverent father left Prince Rupert the first of May to pay an official visit to the Catholic churches and Missions throughout the interior of British Columbia. He went by way of Vancouver and Ashcroft. Then he took the lakes around to the Babine country and then into Hazelton. He left again Monday afternoon for Aldermere and Telkwa and will return this way and he expects to reach Prince Rupert the latter part of July, making his trip extend over three months. Father Bunoz says that while the interior appears to be a little quiet just now that there has been a great development and everything is now ready and waiting for the railway to come through. He passed through several new townsites and a great stretch of agricultural country that is waiting for the railway. He predicts a great future for the country between here and Fort George.

Ladies Side and Back Combs, Brooches, Barettes, fine line English import order just received. McArthur's Emporium.

BOARDS OF TRADE TAKING A HAND

Coal Strike Assuming Alarming Proportions and a Famine is Feared

Nelson, July 19—The Nelson and Fernie Boards of Trade have passed a resolution calling for a special joint meeting of the eastern British Columbia boards of trade at an early date, to consider the passing of a resolution asking the Dominion government to take some action to relieve the serious situation created by the coal strike. According to local dealers the prices for coal this winter will be very high if there is not a famine. Even if the strike were settled within the next few weeks, it would be impossible to obtain fuel owing to other demands upon the supply. and there will also be a shortage of cars due to the movement of wheat from the prairies. The Boards will hold special meetings tomorrow to consider ask ng the C. P. R. to give a special rate on coal from Vancouver Island mines to relieve the situation, otherwise importations will ave to be made from Pennsylvania.

More Tenders Called For

Winnipeg, July 18.—Six hundred miles of the Grand Trunk Pacific mountain section will be contracted for immediately. Tenders will be called this month for the companies big hotel at Edmonton.

Testing Canadian Coals

Seattle, July 18—The United States Navy Department has decided to thoroughly test the Canadian coal for navy purposes. The Cruiser West Verginia goes to Vancouver to take on nine hundred tons from Nanimo, Comox and South Wellington, while the Cruiser Colorado will take on an equal amount of American coal. It will require eleven days to make the test and the result will be watched with keen interest by both countries.

Dominion Cabinet Changes

Ottawa, July 18—Hon. Mr. Fielding returned today from his European trip greatly benefited in health. It is rumored here that there will be quite a shuffle in the Dominion Cabinet. Mr. E. M. Macdonald member for Pictou, N.S., will succeed Sir Fredrick Borden, and Dr. Beland will succeed Brodeur who will go to the bench. Hon. Mr. Lemieux is to be transferred to the Marine department and then Dr. Beland will become Post-Master General.

Death Roll Not so Heavy

Toronto, July 18—The total death roll in the Porcupine fire is now known to be less than a hundred, probably not more than seventy-five. The relief committee is doing splendid work and everybody is being cared for. Lunch counters are open and several carloads of blankets, tents, etc., from the military department reached Porcupine yesterday. Twelve settlers' families are safe but they lost everything. Rain fell last night and greatly relieved the situation. The construction of forty new buildings has already been started. Fhe relief fund in Toronto has now reached $40,000.

BULKLEY VALLEY DRUG CO. STORE

Will Locate In New Hazelton and Will be Ready for Business In a Few Weeks

A partnership has been formed this week between J. Mason Adams and George W. Arnott to go into business in New Hazelton. The new firm will be known as The Bulkley Valley Drug Co., with headquarters in the new town. Mr. Arnott will be in charge of the store and he was over to the property on Thursday and selected his lots. It is understood that he will start clearing at once and get carpenters at work on the building as soon as they can get the lumber on the ground. The contract for the building has been awarded to Messrs. Stephenson & Crum. This will be the first commercial house to be erected in the new town and the firm expects to be ready for business by the time Foley, Welch & Stewart get their headquarters established there this fall.

Full line of Muslin Underwear at McArthur's Emporium.

Got a Ducking

Mr. W. H. Sharpe, of the Hudson's Bay Co., who recently left to relieve the manager of the Babine branch, had an exciting experience one evening since his arrival at his new post. He went out on the lake for a sail with a couple of other young fellows, and he took the rudder and was guiding the destinies of the craft. Something went wrong, however, and Mr. Sharpe and his companions found themselves in the cool waters. The boat upset and the two men men swam ashore while Mr. Sharpe climbed on top of the boat and paddled to terra firma.

IMMENSE ACREAGE BURNED

BUSH FIRES ALONG THE SKEENA ARE SPREADING

Most of the Country was Burned Over Years Ago and Present Fires will Benefit

Bush fires are still raging and are spreading all over the country in the neighborhood of Lorne Creek, Meanskinisht, Kitwangar. It was first started on Anderson's island, but since new fires have broken out and the flames are raging on both sides of the river. Thousands of acres are burning and have been burned. It is fortunate that there have been no heavy winds as there is so much country in flames now that it would be impossible to check it, and there is no telling where it would stop.

To date there has not been very much serious damage done, as most of the country affected was burned over some twenty years ago, and it has since grown up with small stuff and underbrush which has made it very difficult for prospecting. If the fire does not get away into the good timber it will do more good than harm.

The Port Simpson was inconvenienced somewhat on her trip up this time on account of smoke and Captain Bucey says that several times he thought he would have to tie up, as he was coming through the fire swept country late in the night. He managed, however, to make the grade. He says that when he went down earlier in the week the fire was not very bad, but that it had spread very rapidly during the past few days. How it started he could not say. In one place a whole mountain side was in flames. So far as any of the settlements were concerned he said that there was no danger as the fire could not reach them.

In Hazelton the reflection from the fires was very distinct nights and on Thursday night a pall of smoke hung over the mountains around the town. The telegraph wires were down for a short time on Wednesday, but there was no particular interruption in the service. On the whole it will be a good thing for the country.

News by Wire

Building Canadian Northern

Spokane, July 20—Patrick Welsh and his associates were today awarded the contract for the construction of 551 miles of the Canadian Northern Railway between Port Arthur and Sudbury, Ont., for $12,000,000. The contract is to be completed by October, 191h.

Carpenter's Strike Over

Vancouver, July 20—The Carpenter's strike which was started on June 5th came to an end today. The union men voted to go back to work on the terms offered by the contractors, viz: $4.25 a day with closed shops.

No Redistribution Bill

Ottawa, July 20—In view of a statement made in the House tonight there is little prospect of the Redistribution Bill being brought in this session. Sir Sidney Fisher told the House that final figures of the census would not be available before October.

New Trial Refused

Seattle, July 20—Former Chief Wappenstein, who was sentenced to ten years for accepting a bribe of $1000 to allow houses to operate in the restricted district, was refused a new trial. His appeal now goes to the Supreme Court.

Secret Correspondence

Lisbon, July 20—There is great sensation throughout the kingdom caused by the announcement of the discovery of a small coffer containing secret correspondence between the deposed royal family and the British and German governments. King Manuel, foreseeing the late revolution, asked for foreign intervention, and offered in compensation Portuguese territory in Africa. Great Britain refused to interfere.

Uprising in Rhodesia

Livingstone, Rhodesia, July 21—In the German district, Commander Frankenburg, two white sergeants, fourteen blacks and twenty carriers were massacred by the Okarango tribe of Bechuanaland. This occurred on British territory, and the incident will no doubt add to the complexity of the international complications which now prevail.

Wales Ports to be Closed

Cardiff, Wales, July 21—At a meeting of all classes of workers it was resolved to seal up this port until the shipowners recognize the Seamen's Union. Coal trimmers and other workmen have quit work and business is paralyzed. The seamen refuse to sign an agreement even at an advanced rate.

Gas Heater Exploded

Brockville, July 20—W. H. Comstock, ex-M.P., was fatally injured by the explosion of a gas heater at his residence today.

New Peers are Ready

London, July 21—It is unofficially learned that the list of new peers whose creation is intended to force the Veto Bill through the House of Lords has been completed. There are three hundred names on the list, and the way each will vote has been fully ascertained.

Canadians Are Leading

Bisley Camp, July 21—Corporal Trainor of the Royal Canadian Regiment, Toronto, won the first stage for the King's prize. Thirteen Canadians qualified for the second stage. Last year twenty-two qualified for the second stage. This confirms the impression that the shooting is not up to the reputation of recent years. The aggregate of all three stages count in deciding the winner of the King's prize, so far the Canadians lead with Trainor winner of the first stage.

For Sale

A quantity of old newspapers for sale at the Omineca Herald office.

Mr. H. G. Wilson, manager for P. Purns & Co., was in town yesterday.

LAND NOTICES

Omineca Land District. District of Cassiar.

july15 A. W. McKnight, agent.

LARKFORD

The First Permanent Townsite to be put on the market along the Grand Trunk Pacific Railway in the vicinity of Hazelton

The lots were put on the market Thursday afternoon without any advertising and twenty-seven lots were sold.

The following is a list of purchasers which shows the class of investors, and most of these have signified their intention to move their business houses to Larkford.

William J. Larkworthy, General Merchandise
C. G. Harvey, Hotel
McDonell & McAfee, Hotel
Harvey & McKinnon, Real Estate
R. S. Sargent, General Merchandise
J. C. K. Sealy, Hotel
Stephenson & Crum, Contractors and Builders
S. B. Slinger, Billiards and Pool, Tobacconist
J. W. Davis, Interior Lumber Co.
C. M. Mackenzie, Interior Lumber Co.
L. H. F. Siefker, Tonsorial Parlors

Does not the solidity of their business and the financial standing of these men impress you with the merits of Larkford? :-: :-: :-: :-: :-: :-: :-: :-: :-:

We have the location and will have the ENTIRE BUSINESS of HAZELTON and VICINITY established in LARKFORD by the day the railroad arrives and the rest are BOUND TO FOLLOW to the immediate neighborhood of ESTABLISHED BUSINESS.

We also have the advantage of being directly across the river from the mines, and the traffic will pass through our ground. THINK THIS OVER and you will readily recognize the logic. Ride out to the townsite and see where we have the advantage.

HARVEY & McKINNON

Fiscal Agents

HAZELTON, B. C.
