REBELS WINNING ALL ALONG LINE

China's Imperial Army Being Badly Defeated—Several Leaders Shot

(Special to the Herald)

Tokio, Oct. 25—Advices received here today state that it is now certain that the rebellion will be a long one and that it will cause enormous losses to the foreign interests in China. It is now felt best that the powers should safeguard their commercial interests, and come to an understanding with the authorities at Peking, and with the rebels, making a portion of Yangtse Kiang neutral and guarded by foreign troops, thus allowing trade to be carried on. A quantity of copper that was shipped by a Japanese firm to Hankow and seized by the rebels, has been paid for by the Imperial Government.

Pekin, Oct. 25—Ten thousand Japanese troops have arrived at Muden. The Imperial court here will now be transferred to Jehol.

Shanghai, Oct. 25—Changchu Junction and Pekin and Hankow Railway has been seized by the rebels who outflanked the main Imperial army.

Shanghai, Oct. 25—General Cheng, commander of the Imperial forces at Canton has been killed by a boom, and it is feared here that an outbreak will occur. The Governor of Canton has telegraphed to Pekin advising the surrender of the city to prevent the massacre of the Manchurians.

San Franscisco, Oct. 26—A cable received by a rebel paper here reports the overwhelming defeat of the Imperial forces at Wusing Kiang with heavy losses. Their retreat was cut off.

Honors for the Duke

(Special to the Herald)

Ottawa, Oct. 26—The Duke of Cannaught, the new Governor-General, has accepted the invitation to be patron of the Dominion Rifle Association. He is also president of the British Nationalist Association.

Poor Graham

(Special to the Herald)

Ottawa, Oct. 26—The feeling here is so strong against former Minister of Railways Hon. Mr. Graham that dispite other leaders now in opposition being allowed election by acclamation, he will be opposed wherever he attempts to run.

Russian Born Briton

(Special to the Herald)

Warsaw, Oct. 25—The British Consulate here has formally asked St. Petersburg to define the status of a Russian Born British subject who returns to his native country after having been arrested as a Socialist. Miss Malecka, who is noted on the London Musical stage is awaiting the reply to know her fate, She was arrested a year ago, with thirty others, including women, who were later tried and banished to Siberia.

New Gliders Good

(Special to the Herald)

Kill Devil Hill, North Carolina Oct. 26.—Orville Wright today proved the efficiency of the new gliders on his areoplane by remaining near the clouds while a sixty mile gale was blowing. His trial was watched with the greatest interest and it is now admitted that another triumph has been achieved.

ANTHRACITE COAL FIELD EXPLORERS RETURN

IMMENSITY OF THE DEPOSIT OF HIGH GRADE COAL HAS BEEN PROVEN THIS SEASON

Mr. Campbell-Johnston has Covered a Tract 70 Miles by 30 Miles and He Has Not Seen it all Yet---Will Require Over 300 Trains Daily to Handle the Output Available—Great Country Still Farther North Where the Cariboo Live.

"We know that the Ground Hog Coal fields are 70 miles long by 30 miles wide" said Mr. R. C. Campbell-Johnston to the Herald, just after he and Mrs. Campbell-Johnston had arrived in Hazelton, having completed the season's work and a twenty-six day tramp over a rough country.

The Ground Hog Coal fields are so immense that it is difficult to describe them in a manner that will be comprehensive and at the same time accepted as truth by the general public. Mr. Campbell-Johnston states that he has been over a territory 70 miles one way and 30 miles the other, and that he has not covered anything like the total ground. "There are many miles of territory up there that I believe contain as much and as high grade coal as any I have ever been over. It has not been covered yet by any means. We know it is all coal there. Nature has done the work of the diamond drill and we can start mining coal on the surface. There will be no thousand foot shafts to sink, or long tunnels before the coal is reached. The creeks run through the country giving cross geological sections and shows up the true nature of the rock which is all sedimentary without a trace of the volcanic which is so prevalent in many districts where coal has been found.

"The coal on Ground Hog is a smokeless, non-coking, hard, high grade coal giving 84 1-2 per cent. fixed carbon and equally good for all purposes which the Pennsylvania hard coal is used. It is particularly good for marine use and we will command the entire market for the Pacific fleets (naval and commercial).

"During this season's work we have uncovered and worked eleven big commercial seams in which there is enough coal to justify us in proceeding with the construction of the railway for which we got our charter last session of parliament. Our railway will be the Naas & Skeena Rivers Railway and there will be very little delay in constructing it.

"As for the tonnage available from the Ground Hog Coal fields it will equal the Pennsylvania coal fields with a daily output of 300,000 tons and the supply will last for centuries. There are already five charters for railways into that country and four of them will go down the Naas. The Grand Trunk Pacific which will have to get their coal from there will build in from Hazelton going up the Skeena and Kispiox to the lakes at the head of the valley and follow this chain over to Black Water lake which is one of the headwaters of the Naas river. From there they can get through to the headwaters of the Skeena and Stikine rivers, or follow one of the forks of the Skeena to Bear Lake on the way to the Peace River country. This will give the Grand Trunk Pacific a productive route right through from Hazelton. All the railway grade can be kept down to one per cent. The passes on the Courier and Biernes Creek are 4100 and 4300 feet above sea level respectively, while the elevation of the coal fieds is from 3000 to 3500 feet.

"That there is sufficient tonnage for all railroads is beyond the guessing or estimating stage. Such an output as mentioned means the operation of 300 independant colleries and the running of 300 trains daily to the seaboard. The importance of the development of these coal fields is immense both from the standpoint of the vast army of men employed and the railway activity, to say nothhing of the wealth being added to the country from the product.

"Beyond the Ground Hog coal fields lies another immense country of which very little is known owing to the difficulties of exploration. This new territory is drained by the Turnagain river which flows into the Liard River and empties into the Artic Ocean. It is up there where all the cariboo make their winter quarters so that the climatic conditions must be as favorable, and even more so, than around here.

"In days to come an all Canadian trunk line will run up from the Skeena river along the Stikine and on to Dawson through to Alaska and then connect with the Siberian railway, thus serving an immense country and at the same time realizing the dreams of the greatest and most optimistic railway men of America. With the development of Northern British Columbia the possibilities of this great road are increased and the day of necessity rapidly approaching."

Mr. Campbell-Johnston left Hazelton for the coal fields on June 20th and he was accompanied by his wife and son. Mrs. Campbell-Johnston stood the travelling exceptionally well and as a woman is a hero. Twenty-six days on horse back, sleeping under the canopy of heaven and eating the fare of men hardened to the rough life of the prospector, seeing no other white woman for months, is an undertaking very few women would attempt. Mrs. Campbell-Johnston is glad she went. She has a world of knowledge she could not otherwise get and she is in every way the better for her trip.

Mr. and Mrs. Campbell-Johnston will leave this morning in a canoe for Newtown where they will take the train for Prince Rupert and then proceed south for the winter.

BRITISH COLUMBIA A HIDING PLACE

Sixty Thousand Pounds of Bank of Montreal Money Idle in This Province

(Special to the Herald)

San Francisco, Oct. 25—A prisoner on parol here declares that he will devulge the hiding place in British Columbia of sixty thousand pounds which were stolen from the Bank of Montreal, if he were given his full liberty. His story is being investigated.

Thanksgiving Shoot

There will be a full practice at the ranges Saturday afternoon preparatory to the big shoot on Thanksgiving Day. All who intend to take part in the sports on Monday should turn out Saturday.

THANKSGIVING

(Written by Rev. D. R. McLean)

Thanksgiving like many other of our institutions has its roots in the distant past. It originated in the Jewish Festival called the Feast of Tabernacles, which was celebrated at the ingathering of the earth's increase. On this occasion there was great rejoicing, when friends and neighbors united to render thanks to the Lord of the Harvest. It is not strange that such a custom should have survived because the spirit of gratitude is an attribute of the race, especially of religious minds. The Pilgrim Fathers in 1631 set apart a day for Thanksgiving in acknowledgement of their first harvest in America, and it was perpetuated in many of the States, an annual feast appointed by the Governor. Its national celebration in recognition of the year's blessing was first recommended in a proclamation by President Abraham Lincoln in 1863, and has since been annually observed and usually it falls on the last Thursday in November. Very early in Canada's history Thanksgiving became a public holiday and has so remained ever since. Until two years ago it always fell on Thursday but since then Monday has been chosen as a more convenient day as it lengthens the week end and thus makes more family reunions possible.

Challenge eggs $15.00 per crate. These are very choice. Hudson Bay Co.

DROPPED BOMB ON HIS HOUSE

One Of The Ablest Of Imperial Generals Was Killed By The Rebels

(Special to the Herald)

Shanghi, Oct. 25.—From the details which have arrived of the killing of General Fenshang it is apparent that the rebels had the allies beaten. A bomb was dropped on the General's house and several of the personal guard were also killed. General Fenshang was regarded as one the ablest strategists of the modern army. He was trained in Germany. The Imperal Commanders in other parts of the Empire are demoralized, fearing a similar fate.

Johnson Gone Back?

(Special to the Herald)

New York, Oct. 26—Following other announcements by Marty Cutler, Jack Johnson's sparing partner, he declares that Johnson knows that he has gone back so far that he is now unable to defeat any really good man. Johnson has picked up weight from heavy living so rapidly that he will never be able to fight a real contender. He never made a match with Wells and had no thought of it. He always considered Wells far inferior. At that, Johnson with hard training could never get into condition to meet Wells with any surety of winning. He figured on his boxing skill to catch Well's in the early stages with one punch that would knock him out. Johnson is anxious to retire from the championship and therefore we may expect a definate announcement shortly. His footwork is clumsy and slow and Cutler says Johnson will soon have to get one or two ten-round fights with alleged white hopes to try himself out if he is unable to retire for good.

Thanksgiving Dance

On Monday evening next the Assembly club will hold its first dance in the town hall. Good music will be provided and a big attendance expected.

The launch Kit-Exchen left Tuesday morning for the end of steel with a load of passengers, mostly from Campbell-Johnston's party who just returned from Ground Hog Mountain.

Messrs. J. H. Hetherington of the Union Bank staff and Paddy Carr arrived home on Tuesday after a two weeks stay in Bulkley valley where they indulged in all kinds of good healthy sport.

DR. COOK WAS ORDERED OUT

He Was Denounced As a Fakir And Pelted With Apples And Eggs

(Special to the Herald)

Cophenhagen, Oct. 25.—Dr. Cook, the North Pole celebrity has been getting into trouble again. This time it was in this city where so much faith had at first been put into his report, and where he had looked for a continuance of support. He attempted to lecture before a great audience here last night but there was such general disorder and apples and eggs were coming so fast that the Artic hero had to escape through the back door. He was denounced as a fakir by Nansen at the same meeting and the police warned him to get out.

A Forward Move

To keep pace with the times and to meet the wishes of the people in the communities surrounding Hazelton, down the Skeena and up the Kispiox and Bulkley Valleys and also to give our advertisers the opportunity of reaching those people before the week is out, the Omineca Herald will in future be issued early Friday morning thus connecting with the first mails going to the outlying sections. In this move we hope to meet the requirements of our readers and advertisers and also to give a better service in all departments. We would request our advertisers to send the copy for their changes in, not later than Wednesday noon, instead of Thursday noon.

United Action

Prosperity has been so general among the people of this town and district in the past and everything has, as a matter of course, flowed into our laps, that no effort on the part of business men has been necessary to open new channels for business or to even maintain the old. Hazelton has heretofore occupied the unique and enviable position of a manopolist. But the fact that making money has been so easy the majority here have overlooked the possibility of opposition the minute there is easy access and egress to this Happy Hunting Ground. With the coming of the railway and the opening up of the country and the vastly wealthy resources, new towns and new communities will spring up, all serving as blood suckers to suck the life blood out of this natural supply point, and out of the people who came in here to suffer the hardships of the pioneer in order to develop the country in advance of the railway. If things are allowed to drift and to be wafted hither and thither by every wind that blows there is only one result—the scattering of the population, the division of trade among many centres and serious injury to the development of the district.

All these disasters can be prevented by the people of Hazelton acting as one united whole. Stay together and pull together and the country that nature has intended to be ours will be ours. It means money in the pockets of everyone; a larger and better town (wherever that town is) and a concentration of business that will make Hazelton (New, Old or South) one of the foremost towns of Northern British Columbia.

Through the medium of a Board of Trade, or a Business Men's Association these results can be achieved. The time has arrived for Hazelton people to act or the best that is in the country will be taken from us while we sit idly by and look on.

A Bunch of Business

Within reach of Hazelton lies a bunch of business that will surpass the total business of the town today. That which is referred to is the Ground Hog coal fields, two hundred miles or more from here, but with Hazelton as its supply point. A great deal of trade has been derived from the coal prospectors last year and this year. Next year the total will be doubled, if not trebled, After next year it is difficult to say. At present the best trail to the coal fields is from Hazelton up the Skeena, Kispiox and Stikine rivers, but when it takes twenty-six days to go one way and entails the loss of several horses, it means that a new route will be found and the traffic and trade diverted. This can be prevented by a united action on the part of Hazelton. The trail can be improved—it can be made a road over which animals and wagons can travel and make time without danger of life. Stopping places can be built along the road where animals will find feed and shelter. At the same time these improvements are opening up a territory that will be immensely productive and always a source of revenue to Hazelton business men. The northern route will soon be a keen competitor for the coal fields trade, in fact in time the bulk of the business will go by the Naas, but with union now Hazelton can lay the foundation for a vast business.

The Nelson School Board have been compelled to close the school for the lack of funds to secure a supply of fuel. With the steady increase in the price of wood in Hazelton we will either close down entirely and move south for the winter, or buy dressed lumber for fuel.

There is one cloud hanging over Hazelton that has a silver lining, that is the wood problem which just now looms up black and discouraging to the tune of $12 per cord and cutting extra. Its only a matter of time when the black diamonds from Ground Hog Mountain will be distributed for general use.

CANCELLATION OF RESERVE.

Notice is hereby given, that the reserve existing on vacant lands of the Crown, notice of which was published in the British Columbia Gazette in the issue of May 5th, 1910, and bearing date of May 5th, 1910, is cancelled in so far as the same relates to the lands serveyed as Lots 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2329, 2330, 2331, 2332, 2334, 2335, 2336, 2337, 2339, 2341, 2342, 2343, 2347, 2348, 2348A, 2349, 2350, 2358, 2369, 2408, 3113, 3114, 3115, 3116, 3117, 3118, 3119, 3120, 3121, 3122, 3123, 3124, 3125, 3126, 3127, 3128, 3129, 3130, 3131, 3132, 3133, 3134, 3135, 3136, 3137, 3138, 3139, 3140, 3141, 3142, 3142A, 3143, 3144, 3145, 3146, 3147, 3148, 3148A, 3149, 3150, 3151, 3152, 3153, 3154, 3155, 3156, 3157, 3158, 3159, 3160, 3161, 3162, 3163, 3164, 3165, 3166, 3167, 3168, 3169, 3170, 3171, 3172, 3173, 3174, 3175, 3176, 3177, 3178, 3179, 3184, 3186, 3187 and 3188, Range 5, Coast District.

LIFE IS MADE PLEASANT FOR RAILROAD WORKERS

Railroad Y. M. C. A. Doing a Noble Work Along the Grand Trunk Pacific Right of Way--How Men are Helped

Along the banks of the Skeena River for the past three or four years have been employed several thousand men by Messrs. Foley, Welch & Stewart, contractors for the Grand Trunk Pacific right of way. A large portion of these men are hundreds, if not thousands of miles from their homes and their friends, and if not born with an English speaking tongue have, since coming to Canada, acquired it. Day in and day out, month after month, in all kinds of weather the work has proceeded and the men see or hear little but their work by day and sleep by night. The magnificent scenery, of which so much has already been written, but to which no writer or artist can do justice, is nothing to those whose ceaseless toil brings them into contact with it continually. They are a lonesome lot of men when it comes to the pleasures and luxuries of life. They are hundreds of miles from the business and social circles or the home fire place. But they have not been forgotten and a great work has been, and is being, carried on among them.

The Young Men's Christian Association, with branches all over the world in every town of any size, has also a railroad department, and that great institution has been working among the men affording them pleasure and enlightenment.

On the Foley, Welch & Stewart contract Mr. W. H. Morrison is Secretary and the man in charge, and had the country been searched a better and more capable fellow could not have been found. Early and late, Sundays and week days Mr. Morrison is on the go carrying with him that which enables men to live better, work better and feel that there is more in life than work and three meals a day with a bed at night. The weary, sick, discouraged and discontented all go to Mr. Morrison who is the mental and spiritual physician of the camps.

The work of the Y. M. C. A. among the railway workers is far reaching and beyond the conception of the average man. Not only are gospel meetings held on Sundays and the men thaught those things which help them see beyond the present life, but through Mr. Morrison is distributed newspapers, magazines, books and literature in all forms. Most of the periodicals are late and out-of-date for a city man, but they are eagerly sought and earnestly read on the railway right of way and thus these men keep abreast of the times.

Phonographs or gramophones are now in every camp and thousands of records are in use and passed from one camp to another keeping the men up to date in the musical world. In these railway camps one hears the latest songs and the newest music sung and whistled in unison with the pick, shovel and hammer and by the teamsters plodding along behind their horses.

This fall Mr. Morrison has established his headquarters at Skeena Crossing bridge where from 200 to 300 men will be employed throughout the winter. Here the Secretary has erected a building 22 by 40 feet in which are found many comforts of civilization. He has provided a large reading room in which are found the leading papers and magazines. There are writing tables with stationery and writing materials. In connection are two bath rooms with hot and cold water; two pool tables; checkers, chess and other games, and a small loaning library.

All these things which do so much to make life pleasant and profitable are furnished the men free of charge although they are privileged to make contributions and a movement is now on foot among the men themselves to contribute regularly to the institution. By such they are able to enjoy even more of those necessary luxuries.

Mr. Morrison has as an assistant at Skeena Crossing, Mr. Ed. Kenny who has charge of that camp while Mr. Morrison is visiting the many other camps along the road between Prince Rupert and Aldermere and even beyond.

In all the work undertaken by the Y. M. C. A, the contractors, Messrs. Foley, Welch & Stewart, and all their official staff have given noble and heartyassistance. They work hand in hand with Mr. Morrison and his requirements in the way of material, land, transportation, etc., are given first consideration. Foley, Welch & Stewart are expert employers. They know their men and their needs and they do everything possible for their convenience and comfort and the same policy is followed by the sub-contractors.

LAND NOTICES

Omineca Land District—District of Coast, Range V.

BRITISH COLUMBIA BROKERAGE CO.

HAZELTON, B.C.

THE HUB OF THE HAZELTON DISTRICT OF B. C.
On the Main Line of the Grand Trunk Pacific.
REGISTERED TOWNSITE.

THE PROSPERITY OF EVERY GREAT CITY IS DUE TO ITS GEOGRAPHICAL POSITION

NEW HAZELTON

THE SPOKANE OF CANADA

The most important Townsite! The most talked of Townsite along the line of the Grand Trunk Pacific Railway.

NOTICE.

New Hazelton Townsite, Section 1.

Now being offered for sale Is Not a Grand Trunk Pacific Promotion Townsite. NEW HAZELTON Townsite was selected by the experts of a syndicate of successful men as the geographical location for a big city. They bought the land, realizing the wonderful resources of the Hazelton District, the Mines, the Distributing Centre for hundreds of miles, and many other reasons.

We ask you to investigate in your own way all the statements in this advertisement. Should you join us by buying lots you will know that your investment is guarded by every means known to human foresight, and the judgment of a body of successful men known to you all.

Your profits should eclipse the story of Edmonton, Calgary, Regina, Moose Jaw or Prince Rupert.

Don't be classed among the failures who will say, "I wish I had known." Don't stand idly by and see your neighbors reap the profits on Real Estate while you reap nothing but your salary. Put your savings to work in that sure coming city—NEW HAZELTON.

NEW HAZELTON is out of the damp belt, and many people who spend the whole year in the district say the winters are not severe—plenty of sunshine and dry air.

Taken from Official Bulletin, B.C. No. 22, page 23:—

"On the Upper Skeena, about a distance of 50 miles, there are large tracts of land on both sides of the river, which, as far as soil and climatic conditions are concerned, I would consider ideal for successful growing of fruit as well as for other branches of agriculture. Potatoes, and other garden produce, grow to perfection."

Have you confidence of Merchants on the ground?

Many Lots already purchased by the keenest business men of Hazelton (Old Town). You can safely follow the judgment of such men.

NEW HAZELTON should be the centre of a busy population of thousands within a year. Why not? During the past year there was an average of over two new towns created in the Canadian West every week. We are all here to share in this most wonderful prosperity. We offer you an opportunity to participate in the progress of the best town for investment on the line of the Grand Trunk Pacific.

New Hazelton Railroads open new country.

Railroads have been the great feature in the growth of Western Canada.

NEW HAZELTON, located on the Grand Trunk Pacific Railroad is attracting the attention of the whole world, as all important towns do on the main line of the Grand Trunk Pacific Railroad.

Stores are going up. Newspaper, two or three General Merchandise Stores, Drug Store, Bank, Restaurant's and in fact many lines of trade are now arranging to open in NEW HAZELTON, Section One. Activity is in that part of the townsite known as Section One.

The story of NEW HAZELTON is well known to the public. It is a Townsite being offered to the public by successful men. There is positively no Railroad Company or Townsite Promoter financially interested in the land. The owners have undertaken to make NEW HAZELTON a city of importance in British Columbia. NEW HAZELTON promises to be the most profitable city to the Grand Trunk Pacific along its main lines.

Pay Office Completed

Supt. Sheppard of Foley, Welch & Stewart has wired Prince Rupert office to move everything at once. Union Bank of Canada will open Branch in New Hazelton.

Sectional Building and Supplies enroute for same.

NEW HAZELTON, the hub of the Hazelton district, will be the natural headquarters for what promises to be the Most Active and Sensational New City in the fastest growing part of the world today on account of the wonderful Lead and Zinc Mines, the Groundhog Mountain Coal Fields, the Vast Agricultural Country tributary to the coming principal city in British Columbia on the Grand Trunk Pacific Railroad.

Investments

Made in towns with the

Right Kind of Country
Right Kind of Resources
Right Kind of People

will surely be big paying investments. This is the kind of town you find at

NEW HAZELTON,

B. C.

Buy Lots

Terms are Easy.

Look them over again, and think of this money making investment.

Out of City Investors.

Can reserve one or more lots by wire or letter. State price of Lots and number required, and we will make the best available reservation for you.

Remember NEW HAZELTON is not a gift Townsite and when you buy a lot in it you are investing your money on the business judgment of the most successful men in British Columbia.

NEW HAZELTON Townsite had over a Quarter of a Million Dollars Invested by a few Business men before the Lots were offered for sale. NEW HAZELTON is a Business Man's Townsite. All the G.T.P. and local history was carefully considered. The Engineer's reports as to grades, opportunities for side tracts necessary to handle the thousands of freight cars were examined. Then they invested in NEW HAZELTON. They paid cash for NEW HAZELTON and nearby lands over Two Hundred and Fifty Thousand dollars.

That is a wonderful sonnet written by John J. Ingalls on the subject of Opportunity, but the real fact is, Opportunity does knock once on each man's door. Opportunity plays a continual anvil on every man's portals—but, of course, if he is knocking at the time he will not hear Opportunity when she knocks.

New Hazelton.

Where the Grand Trunk Pacific Railroad has Sixty Acres of right-of-way and track grounds.

NEW HAZELTON is reported by Engineer's to be the only available spot in the Skeena or Bulkley Valleys for many miles each way where it would be possible to have the Railroad yards large enough to handle the Hazelton District's business.

NEW HAZELTON affords a long, nearly level stretch of land suitable for Immense Yards, which will be required to handle the thousands of cars of ore and coal that will be shipped from the mines in the Hazelton District.

The G.T.P.

Capital of Grand Trunk Railway and the Grand Trunk Railway Systems, $447,898,932.

Over 50,000 Stockholders, G. T. and G.T.P. Millions of people boost for Grand Trunk Pacific Townsites.

Maximum grade of the G.T.P. is 21 feet to the mile, one-fifth of any other Transcontinental Railroad in Canada or the United States.

NEW HAZELTON is the Town that everybody is talking about, and there are no two opinions as to its opportunities for investments. The reason is obvious.

NEW HAZELTON is situated near the junction of the Skeena and Bulkley Valleys.

The Northern Interior Land Co. Ltd., paid cash for and own (Section One) NEW HAZELTON TOWNSITE and guarantee to deliver to purchasers of lots an Indefeasible Title upon receipt of final payment.

WALKED FROM BIG CANYON

Wm. Davis Studied the Work of Railway Contractors—Rails at the Bridge by Christmas

Mr. Wm. Davis of the Interior Lumber Co., has been in Vancouver on business for several weeks. He arrived home on Monday having walked up from the Canyon. Although the distance is long the tramp is not a hard one or one to be dispised. The grading for the right-of-way is practically completed right up to New Hazelton and the walking is good. It also gives the pedestrian a splendid opportunity to carefully observe the work that has been accomplished, and this Mr. Davis took advantage of. As to the statements that the rails will be laid to the Skeena Crossing bridge he says there is no doubt. The big tunnel is going ahead rapidly and on this side of it the company have two pile drivers working all the time putting in tressels for the bridges. All the bridges will be small ones and there is nothing to delay track laying until they reach the Skeena Crossing. As soon as a train can run over the rails steel, cement and supplies will be rushed forward for the bridge, and hundreds of tons of supplies for the contractors will be rushed up and from there hauled out through New Hazelton to the Bulkley Valley.

While in Vancouver Mr. Davis said that everybody was asking about the silver and lead mines up here and about the townsite. The advertising that has been done thus far has been doing good work and Hazelton is coming to the front and with the railway coming in next year the whole district will witness a great boom.

GOLD AT OUR BACK DOOR

Just Two Miles From Town a Prospector Found Gold On H. Coppock's Farm

Within two miles of Hazelton, just a pleasant evenings walk along the automobile road that winds and turns among the hazel bushes and the young popular trees, to the beautiful little Two Mile Creek that has its source away up in the silver lead mountains, a lone and strayed prospector kicked up some dirt on a hog's back in the centre of Mr. Coppock's farm, Bulkley Gardens No. 1, and his eyes saw the sparkle of the precious yellow metal. He broke a piece a rock off and showed it to Mr. Coppock who had it assayed, and there is gold in the rock. The ground is now being prospected and the owner of the farm has joined forces with the prospector and they are coutinuing investigations. It is to be hoped it turns out well. There is nothing known of this country yet but Mr. Coppock will find out all about that gold.

Thirty Claims Bonded

It is reported that thirty copper and gold claims in the Copper river district were recently bonded to Walters & Walters, of Tacoma and that the property will be developed at the earliest possible date. The bond was for $33,000.

INVESTMENT EDITION IS READY

The Investment Edition of the Omineca Herald is now ready. Over five thousand copies have already been ordered and delivered to all parts of the world, but most particularly throughout Canada and the United States where they will do the most good. No pains or expense was spared in getting out, what is universally declared to be the finest piece of work issued in the north. The magazine excelled our greatest expectations and every day we are receiving congratulations, not only from town but from outside points.

The Investment Edition is not only a work of art but it is a volume of information gathered from the most reliable sources and written in a conservative strain. It is just the thing to send to your friends on the outside. It may induce them to come in where the water is fine and the weather always fair.

Get your Investment Editions now. The supply is limited and the demand great. We furnish you with wrappers in which to mail them.

MORE BUILDINGS IN NEW HAZELTON

Bank Will Shortly be Opened—Feed Stables and Stopping Place For Teamsters

The business section of New Hazelton continues to grow. This week there was a transfer of lots, the first since the townsite was put on the market. Mr. Roy Miller sold his property on Thirteenth Ave. to Mr. Jas. Hodder, a well known rancher of the Bulkley Valley who will establish feed stables and build a bunk house for the accommodation of the freight teams hauling out to the valley all winter.

R. J. Carson will enlarge his restaurant on Thirteenth Ave. in order to accommodate the big transient trade that will pass his door.

The G.T.P. are continuing the construction of their sidings in both section one and section two and when finished they will have fine yards.

Beli Tadick is erecting a hotel and rooming house and the Pioneer restaurant has been opened by Mr. Peacock.

Arrangements are being hurried for the erection of the Union Bank which will have a branch near Foley, Welch & Stewart's offices.

The office staff from the Sealey headquarters arrived on Monday and are now about settled and ready for business.

Several Hazelton people were visitors in town this week and they all expressed surprise and admiration of the splendid progress this town is making.

COPPER PROPERTY ON BABINE LAKE

Immense Low Grade Property That Can Be Easily Worked By Steam Shovel

The Babine Mining district which is tributary to Hazelton, is coming in for recognition more and more. The Islands in Babine Lake are highly mineralized and during the past summer good samples of ore have been brought in from several of the claims staked in that vicinity within the past year. On Wednesday another group of claims was heard from. Messrs. H. J. Macdonald and A. M. McDonald brought in samples of yellow copper taken from a property they staked which shows an immense body of ore. It is a low grade property but one that may be worked by steam shovels. It is low and no tram will be necessary. The main line of the Grand Trunk Pacific runs within 15 miles and a spur can be run in which will serve several properties at small cost, as the country is easy to build through.

Messrs. Macdonald and McDonald have just completed their season's work, having gone in last June and worked steadily all summer. They have two drifts giving a vertical depth to the ore of 35 feet.

The owners will be around Hazelton for a while and if they do not decide to work on some of the properties around here they will go down south forthe winter.

WATER NOTICE

I, W. T. Hoyes, of Vancouver, B.C., by occupation a medical doctor, give notice that I intend on the 29th day of September next, at eleven o'clock in the forenoon, to apply to the Water Commissioner at his office at Hazelton, B.C., for a licence to take and use fourteen cubic feet of water per second from Two Mile Creek, a tributary of Germanson Creek, in the Manson Division of the Omineca Mining District.

The water will be used on Hilda Fraser's hydraulic creek lease for hydraulic mining purposes.

I intend to apply at the same time for permission to store one tenth part of acre-foot of the said water in a reservoir at a point about quarter-of-a-mile above Germanson old town upon the north bench of Germanson creek.

Signature SAMUEL OLSEN,
Agent F.M.C. No. 57356B, Vancouver.
Dated this 29th day of August, 1911.

IS USING MONEY AND BRAINS HAS FAITH IN THE COUNTRY

Kansas City Man Has Invested $25,000 And Owns 1800 Acres Of Land That He Is Improving.--The Bulkley Valley Gardens Are In The Lead

To talk about a country and to believe in the future of the country is one thing that will help some, but when a man will back his opinions and talk with his money he is helping a country a whole lot. Mr. H. Coppock, a native of Kansas City, Mo., and who still holds large interests down there, blew into Hazelton a year ago last June with $25,000 in his pockets. Mr. Coppock is a man of years; his hair is white and he is a little stooped, but otherwise he has the energy and the ambition of youth. He is on the go early and late and never lets an opportunity go by without singing the praises of Hazelton and the Bulkley Valley.

As soon as Mr. Coppock arrived and settled in a room he started out on the warpath. He was here to invest some money. He first wanted to know how to invest that money, and not let it out on a wild cat proposition. He planted some potatoes and when the time came he started in to harvest his crop. The first hill he dug he was surprised. "I took a whole bread pan full of potatoes out of that hill, and they were such big fellows weighing as much as four pounds each. I cut one open and it was solid and juicy right through. I just sat down on a big stone nearby and I figured the whole thing out. What I want here, says I, is land. The fertility of this soil is wonderful. Do you know I started in right there and bought land and I have been buying ever since."

That is the way this Kansas City man started in to do business in Hazelton, and he will continue to do business here for years.

Mr. Coppock has invested his $25,000 and he owns 18,000 acres of land, much of which he has since improved, and he put crops in many acres and will have several hundred acres under cultivation next season. He has 160 acres at Two Mill Creek which he calls Bulkley Garden No. 1. Of this 30 acres are cleared and some of it is ploughed ready for seed. It is all surveyed into one acre lots. He took 1,200 cords of wood off the place which he is finding a ready market for.

On the railway side of the Bulkley river he bought 160 acres locally known as Mosquito Flats, but which he has rechristened Bulkley Nalley Garden No. 2. He has sixty acres cleared and ploughed and has six men at work clearing the balance. In this he will sow one hundred acres in oats, one acre in strawberries and the rest in small fruits and general farm produce. He has erected a good house and a large barn and looks after the travellers to and from the valley. He regards this as his best farm and not an acre is for sale.

At Twenty Mile he bought Strawberry Flats of 160 acres with the railway running right through the centre, and although this is one of his Bulkley Gardens the name will not be changed.

Recently Joe McPherson, who owned 160 acres at the foot of Hudson Bay Mountain, disposed of his farm to Mr. Coppock. Forty acres are already cleared and Joe will be employed all winter clearing another forty acres and enclosing it with a wire fence the new owner will take out when the sleighing is good. This is Bulkley Valley Garden No. 3 and it is at the turning of the trail up to the great native silver property so recently discovered.

One of the first farms the man from Missouri bought was the Cullen Farm in the Kispiox which has been offered for sale but this week taken off the market. "I have no land for sale," says Mr. Coppock.

By degrees this veteran speculator and land improver has gathered together some of the choicest land and he is making farms out of them. In another year the crops from his land will bring him in a big revenue and he will have a string of Bulkley Valley Gardens that a prince might be proud to own. But Mr. Coppock does not want money. He could never hord it. He wants to invest it and work with it, and he does it in a way that developes a country and makes the nation wealthy.

Ever since he came to town Mr. Coppock has been doing things. He had a livery business, feed stables, buys and sells horses, built houses and barns, put in the only platform weigh scales in the whole Northern Interior. He has helped men out of difficulties. In fact he is a "Live One" and he will always be a "Live One". The country needs more like him.

Harris Mines, Ltd.
(Non-Personal Liability)

THE American Boy Group is right in every particular to make a big mine. The formation is right—the veins are right—the ore is right (rich and plenty of it)—the location is right for cheap mining. In short it is Hazelton's banner prospect. With an issued share capital of $600,000 it is only capitalized at $150,000 at the present selling price, the the same figure the locators held for from the time of staking. We can conscientiously recommend to anyone the : : : : :
