Freberg & Stone will start the tunnel on their contract, about eight miles down the river, in a few days. This tunnel will be between three and four hundred feet long. Right of way cutting will be continued to Moricetown, thirty miles into Bulkley Valley, this winter.

Stephen Morgan, an Indian of Kitwangar village was arrested and brought to Hazelton last Saturday on a charge of inciting the recent rumpus at Kispiox at the time the Indians of that village tried to stop the government road work. He was brought bebore Magistrate Allison Monday morning at ten o'clock. Evidence was submitted to show that he was the real thing as a trouble maker. He drew ninety days on the wood pile.

THE WEATHER.

For the week ending Friday, December 4, the lowest temperature recorded for each day is as follows:—

Saturday	26 above zero
Sunday	28 above zero
Monday	26 above zero
Tuesday	16 above zero
Wednesday	16 above zero
Thursday	22 below zero
Friday	22 below zero

While the low records of the last two days, Thursday and Friday, indicate severe cold the entire absence of wind and the dry air made it not uncomfortable to those engaged in out of door occupations. Bright sunshine in the daytime brought the thermometer up to the zero point. Ordinary occupations were not interfered with in the least.

No sign of the storm which made such havoc on the coast, was felt at Hazelton. During the greater part of Sunday and Monday a light rain fell.

Police arrive.

A squad of ten providcial police arrived on Thursday from Prince Rupert. J. Campbell was in charge of the party which was recruited and sent up the river at the time of the trouble at Kispiox Indian village. They were nearly three weeks on the way and had a very difficult trip. From Hole in the Wall, where they were dropped by the steamer, they traveled afoot. The trail on the bank of the Skeena, if it can be called such, is never good travelling and covered with snow, was nearly impassable in places. The river was not frozen over enough to permit of travelling on the ice.

WORK TO BE STARTED ON THE SILVER CUP.

The bond on the Silver Cup group of two claims on Nine Mile mountain, near Hazelton, held by J. Czizek of New York, has been transferred to a syndicate of Prince Rupert people, among them being J. F. Ritchie, Sol. Cameron and a number of the contractors on the G. T. P.

The syndicate is represented locally by J. D. Campbell, a mining engineer who examined the showings on Nine Mile mountain some months ago. Mr. Campbell arrived from the coast Thursday and called for tenders for driving a 200 foot tunnel on the claims. The contract will be let immediately and work started just as soon as the men and supplies can be got on the hill,

How much of an advance the new syndicate had to pay Mr. Czizek for his bond is not given out but is understood to be a substantial sum.

The two claims of the Silver Cup group were located in August 1908, by H. A. Harris and F. Treanor of Hazelton, being the second group to be located on the mountain. J. H. Verschoyle of Hazelton and A. H. Kinman of Vancouver, after became interested, taking over a part of Treanor's interest. When the bond was given to Czizek, Harris owned a half interest, Verschoyle a quarter and Treanor and Kinman each an eighth. Mr. Czizek was paying about thirty thousand dollars under his bond, fifteen hundred of which was distributed among local owners, in cash, before he left.

The showing on the property has been admired by all mining men who have visited Nine Mile. At one place on the Silver Cup the mountain has been worn away by natural action, leaving an almost vertical precipice for one hundred and fifty feet. In this precipice the ledge appears, standing almost vertical and showing from fifteen to eighteen inches of solid galena. The first samples taken from the property returned about ninety dollars to the ton, $15.20 gold, 85.5 ounces silver and 44 per cent lead. The ledge is traceable for about one thousand feet on the surface.

The work this winter will be a tunnel on the vein, starting at the foot of the precipice. A new trail will be opened up by way of Salmon creek, reaching the claims by going around the northwestern point of the mountain instead of over the summit, the route traveled by the prospectors. By the Salmon creek route the distance to the Silver Cup will be about twelve miles. An easy grade can be obtained.

A concert will be given by the Conservative Association, Dec. 30.

Logging for the Glen Vowel saw mill has commenced and it is the aim of the management to cut half a million feet this winter. The cut for the Kispiox mill will be about the same.

LOCAL OPTION.

Complaint is heard from various quarters that the local option plebiscite was rushed on the voters without an explanation of the bill that would follow in case it carried. It is certain in this out of the way part of the world no very clear idea existed in the minds of a large portion of the voters as to the exact meaning of local option. We cannot see but one meaning; that each separate community where licensed houses exist shall have the power, through the ballot, of doing away with them. Anything other than this would not be local option but county option or district option as the case might be. How it will be worked out in the legislature remains to be seen but at least a bill may be expected that will be fair to the interests of all.

British Columbia is the only province without a local option law. The restrictions placed on the liquor traffic in parts of Canada amount to practical prohibition. The movement for the curtailment or abolition of the liquor traffic has had a new birth and is going ahead at such a rate in Canada and the United States in the last few years that a time can almost be set, unless a reaction sets in, when both countries will do away with it entirely. Figures on the growth of prohibition sentiment are not available for Canada but conditions are so similar in both countries that prohibition success in the States woul undoubtedly be paralleled in Canada.

At the beginning of 1909 nearly one half the territory and one third of the people of the United States were living under some form of prohibition. Eight states were entirely dry and more or less dry territory in all the others, with few exceptions. The prohibitionists' program aims at putting two states each year into the dry column and so far are meeting with success. Gains made in the last year are fully up to those of other recent years.

MAIL SERVICE ON THE SKEENA.

The mail service on the Skeena during the months when there are no steamers operating is never very good. The people have ceased to expect that it shall be good until the G. T. P. is running. Conditions this year are so bad that the people of the interior might as well be at the North Pole so far as receiving mail goes. The last steamer to leave Hazelton departed October 25, since then we have had one mail and that was despatched from Prince Rupert October 28, arriving at Kitselas November 1 and lying there two weeks. The people of the interior are not critical. They endure a lot and say nothing. But things went too far this fall. Conditions on the Skeena must be known to the officials in charge of this service. At any rate they were advised by wire of the closing of navigation. Instead of acting at once, in order to insure two trips a month to which we are supposed to be entitled, enough time was allowed to elapse so we had one mail in November and that was despatched from Prince Rupert October 28.

In round numbers there are three hundred names on the voters' list for Hazelton and Bulkley valley. There are nearly as many more too recently arrived to have a vote and not taking into consideration men connected with railway construction, nearly two hundred more.

Post office receipts in established offices increase at an astonishing rate. New offices are opened, but the service between the interior and the coast remains very poor.
