APPLIED FOR EXTENSION OF PASSENGER SERVICE

To New Hazelton--Also Ask For Freight Service--Trains Now Run to Town Empty--G.T.P. Railway Company and the Railway Commission Appealed To

The New Hazelton Citizens' Association have made application to the president of the G. T. R. Co., to the General Manager of the G.T.P., and to the Railway Commission of the Dominion for an extenson of the passenger and freight service to New Hazelton. The railway company are now running within less than three miles of the town. The road bed is in excellent condition not only to this town but for about ten miles beyond here. There are a hundred and twenty business and residential buildings in this town and a population of over three hundred. There are several cars of freight every week for New Hazelton, and there is a big bunch of passengers both up and down.

The Railway Company dump both passengers and freight for New Hazelton off the train about three miles down the track and run the trains on through to this point empty; or with laborers for the contractors, while women and children are compelled to drive in all kinds of weather and over roads that cannot be equalled for ruts and pitch holes any place in the province.

The New Hazelton Citizens' Association have presented a pretty strong case to the Railway Commission and there is every reason to believe that the service will be extended to this point within a very short time. As a matter of fact there is no reason in the world why the service should not be extended.

MAKES GOOD SHOWING

Indications Are That the Harris Mines Will Be Big Shippers

At the rate the American Boy group is working into high-grade ore, those lucky enough to be interested may look for a substantial increase in value of shares. The number of heavily mineralized veins, carrying high values, which run parallel through the length of the property, coupled with the rich ore being obtained at depth, would indicate that the American Boy group would ship an immense quantity of high-grade ore through New Hazelton in the near future.

WAREHOUSES IN NEW HAZELTON

Second Big Building Started Tuesday Morning For Foley, Welch & Stewart

On Tuesday morning work was started on the second big warehouse for Foley, Welch & Stewart. The lumber was all on the ground on Monday and a big force of carpenters will be employed to rush the building up. This one will be 30 x 125 ft. and is being built just behind the first one. The first warehouse is already well stocked with goods and several car loads every day or so are arriving. At the same time the hundreds of horses owned by the contractors are hauling the stuff away as fast as they can. The new building will make quite a difference in the appearance of the town coming in from the mines or from old Hazelton.

Wm. Larmer, of the Up-to-Date Drug Stores, was on the sick list a few days last week. During his absence Mr. Johnstone was in charge of the store here.

NEW HAGUELGATE BRIDGE GREAT SCENIC ATTRACTION

Perfect Suspension Bridge To Be Located Amongst Magnificent Surroundings--Fifteen Men Working on Foundation--Force Doubled in Another Week

Next summer one of the greatest scenic attractions of the Hazelton District, and this district is already noted for its scenery, will be the site of the new high level bridge across the Bulkley at Haguelgate. On all sides and in every direction one wishes to turn there is a new and a more beautiful picture presented of river, gorge, table land, rugged mountains, green fields, snow capped peaks, and virgin forests. The crossing of the Bulkley will not only cut off a couple of miles and some bad hills but will create an ideal picnic grounds and a rendezvous for tourists and travellers. The place is easily reached along picturesque winding paths and through woods and open fields, or by the main road which will soon be cut out. In short, the new bridge site will be one of New Hazelton's many attractions.

This week Mr. Sandborn, former superintendant of Silver Cup Mine, began work with a crew of fifteen men on the rough excavation work on this side of the bridge. They will have this side done this week and next week start on the other side. As soon

(Continued on page 4)

It is now rumored and on excellent authority too, that Messrs. Noel & Rock, men's furnishers, will move part of their stock from the old town to New Hazelton and that they expect to be ready for business here in time for the Christmas trade.

SEVEN THOUSAND MEN EMPLOYED

Work on G. T. P. Making Great Progress—Within Eighty Miles of Fort George by New Year.

J. W. Stewart arrived on Wednesday's train and is remaining in town until Sunday. He is again in charge of the work on this end of the line and has just come from the Fort George district to which point the rails are rapidly approaching. By the first of the year they will be 80 miles from that town. At the present time the work is going along better than since the early summer and about seven thousand men are employed. The right-of-way is cleared some distance this side of Fort George and by spring it will be connected up with the clearing on this end. When asked about the townsite question Mr. Stewart said he was sure that President Chamberlain or the Railway Commission were not aware of the real conditions in this locality or the service would have been extended here long ago. It was a shame for passengers and freight to be dumped off at Sealy and that freight from the mines that has been lying here for months should be neglected. He felt sure that as soon as headquarters learned the facts conditions then would be changed.

Mr. Stewart expects to be in the Old Country with his family for Christmas. He has business in London the first of the year and will return to this neck of the woods immediately after.

Dan Stewart returned to town on Wednesday night after a visit to the hot springs in Missouri. He is feeling quite a lot better and will go out to his work as soon as the snow comes. He will be around town for a few days.

Overcoats at cost. McArthur's Emporium, Hazelton.

Owen Lake Mine

Frank Brown and John Brown arrived from Owen Lake the first of the week to get more supplies and make ready for an all winter season on their big silver lead property which was only located last summer. Mr. Brown says that the property is opening up in great shape and that it is every bit as big as he first anticipated and a great deal bigger than anyone else thought. They have already done a great deal of work and it has all been profitable and when spring comes they will have an ore body that will make the most of them sit up and take notice.

John Bostrom spent several days in town this week renewing old acquaintances.

Dump Cars and Engines

All this week there has been a big gang of men with an engine, steam derrick and a number of flat cars busy bringing in dump cars, locomotives, steam shovels, etc., and unloading them here. As soon as the snow comes these will be hauled over a hundred miles on sleighs to the Burns Lake work.

The weather the past week or two has been ideal fall weather and quite out of the usual. There have been no storms and just cold enough to make a person feel good.

H. L. McHugh was in town a couple of days this week and on Thursday visited Silver Standard Mine.

New Hazelton Has Made Good

New Hazelton has to-day one hundred and twenty-one buildings, running from 10x12 feet to 60x250 feet. This does not include any of the buildings for which plans are now ready, and which will be erected before the new year.

New Hazelton has three hundred of a population, with a floating population of as many more.

New Hazelton has today two large general stores; three pool rooms; ten rooming houses; one drug store; one doctor; two real estate offices; one blacksmith shop (the only one in the district); one newspaper (the leading weekly paper of the north); one church (Presbyterian); one carpenter shop with machinery; besides building contractors, carpenters, painters, etc.

New Hazelton is Foley, Welch & Stewart's only pay office, and it will remain the only pay station until the G.T.P. is completed.

New Hazelton is the home of all the G.T.P. engineers connected with the headquarters.

A high level bridge is being built to connect New Hazelton with the mines and Kispiox valley.

Among those who have plans ready for buildings at New Hazelton are: W. J. Larkworthy, Noel & Rock, L. Seifker, C. G. Harvey, all of old Hazelton, and Mr. Rudda, Stewart.

New Hazelton has what others want.

HIGHLAND BOY NEGOTIATIONS

Believed that Deal for Large Group of Claims on Rocher de Boule Mountain will Go Through

According to latest advices there is every reason to believe that the deal for Highland Boy Group on Rocher de Boule mountain, and joining the mining camp of that name, will go through. If this is correct, it will be one of the biggest deals put through in the Hazelton district. P. J. Jennings is engineering the deal, and it is understood that some of the same people who are interested in Rocher de Boule are also interested in the Highland Boy group. The deal is being put through the office of Harvey & McKinnon. During the past few weeks the ore bodies on Rocher de Boule have been showing up particularly well, and with the increased depth and with the cross tunnels that property is proving as good if not better than anticipated. The same veins run into the Highland Boy group and as soon as the deal goes through it is expected that Mr. Jennings will return to the district and prepare to start development.

Fine Jewelry Stock

Next week W. Wark & Son will announce in the Herald the date upon which Mr. Wark will arrive here with a full line of high-grade jewelry and Christmas novelties. This is a special trip and is made to accommodate the people of the district who desire to purchase a better grade of jewelry than can be had locally. He will have a large assortment. It is the intention of Mr. Wark to go on through the valley. Watch the announcement in next week's paper.

Leslie Martin, of D. A. Rankin & Co., contractors on Burns Lake Work is spending a couple of weeks in town.

FRIDAY, NOVEMBER 22, 1912

In the past it was not possible to secure a license in New Hazelton, or any other place along the line of construction, but now the railway is completed for several miles past New Hazelton, and trains are operating as far as Mud creek, a distance of about ten miles or more east of here. The town has grown to such a size, and there is so much business done here, that the time is now ripe for a licensed hotel. It is well known that where the law does not permit of a license that liquor is sold some place in that locality, and the government often stoops to the depth of employing stool-pigeons to catch the guilty parties—a most disgraceful procedure at best. But there is now no obstacle in the way to granting an hotel license, where the liquor traffic would be under control, and where proper accommodation would be afforded the public. New Hazelton is now such a size that the people require, and demand, a modern stopping place such as would be afforded by a licensed hotel. There is no town in the province which needs more accommodation worse, and there is no town in the province which is growing quite as fast, and where the need is increasing quite as fast. It is well known that at least two hotel men are prepared to build and establish large, comfortable and modern hotels just the minute the provincial government will allow a license here. There is no reason why such a license should not be granted.

Time for a License

* * * * * *

In spite of the fact that the season is now well advanced, and if the weather conditions were ordinary it would be out of the question to undertake building to any extent, New Hazelton continues to grow and every week sees new buildings started. On every hand there are buildings being put up, and this in the face of obstacles which would make a tenderfoot quiver. But the people of the district, and those from the outside who come in, are convinced that this town is the commercial centre, and that the sooner they get in and get their business established the sooner they will start to reap the benefits of the big business. Last week a man from Stewart announced that he would move his tin shop here. Three business men of old Hazelton are getting their new buildings started. A fish and meat market is being opened by Prince Rupert people. The local merchants are enlarging their premises and getting in bigger stocks to enable them to handle the increasing business. This is a remarkable record for a new town, and at this season of the year. There is no other town in the northern part of the province which is enjoying half the prosperity of New Hazelton. In fact, all the other towns are at a standstill or going backward.

New Hazelton Grows

What is the reason? New Hazelton is the natural business centre for this whole district. It is the distributing point for hundreds of miles. The mining properties are being worked as never before, and they are getting out more ore than ever; three properties are now ready to ship. Foley, Welch & Stewart's pay office is here; the headquarters for all the western division of the G.T.P. construction is here; everyone coming into the district comes here and New Hazelton is the shopping place for everyone.

There can be only one business centre in any district. New Hazelton is that, and New Hazelton is growing so fast that it makes the oldtimers almost gasp with wonder. Everybody is busy, and everybody is making money, and they are all happy. New Hazelton is a town united, and the people are working together to make it the big town and one worthy the district which will shortly be surprising the world with its shipments of ore and agricultural products.

When we draw your attention to the advisability of using a good grade of office stationery; when we point out to you just where and why it pays, remember that there is a vast difference in the application given "good" printing by different printing offices. You want good printing. Every business man does. But do you want good printing regardless of cost? Certainly not. When an order is left with us we treat it with our best judgment, insofar as that judgment does not conflict with your wishes or instructions, using good stock, to the end that we do good printing---not good printing at any price, but rather do we make it good printing at a **usable** price.

NUTS TO CRACK

Hazelton Nuts

No. 1—New Hazelton is already a thriving town.
No. 2—New Hazelton has shipments of ore at its very door now ready.
No. 3—It is a natural townsite,
No. 4—The high level bridge leading to the mines is now under construction.
No. 5—It is the natural outlet for central traffic.
No. 6—It will have a pay roll from the start.
No. 7—The G.T.P.R. has never made a townsite of itself yet.
No. 8—Investors, when they view the situation, agree in what we say.
No. 9—It requires no boosting.
No. 10—It has the double pay roll—shipping of ore, and the head office of construction.

Crack these then see **G. W. ARNOTT** He has more to crack.

Office Pugsley Street, New Hazelton

Opening Announcement

HAVING disposed of my drug business at Hazelton, I take this opportunity to thank those who supported me so liberally during the time I was in business at Hazelton. In future I shall devote my entire attention to the Telkwa store, and shall be more than pleased to greet old friends at all times.

J. Mason Adams, Telkwa

Overcoats at cost. McArthur's Emporium, Hazelton.

F. C. McKinnon has been in Butte, Mon., for some time on business. He is expected to retnrn to town about the tenth of December.

Mr. McAfee, of the Ingenica Hotel, has received his new 48 h.p. car. It arrived last week and has already been doing considerable business.

Since the blacksmith shop was closed the town people have had to go to New Hazelton to get their horses shod. In a short time it will be a case of "Go to New Hazelton for Everything."

J. Mason Adams returned from a trip to Vancouver on Saturday night and on Thursday he left for Telkwa to take charge of his store in that town. Mr. Adams says that everything is booming in Victoria but that Vancouver appears to be quiet.

Ernest Price, local postmaster, has left this office and on Thursday took up his new duties as mail clerk on the train running from Prince Rupert east. Mr. Price's many friends will be glad to learn of his promotion in the service.

C. G. Harvey has returned home from the south and he was accompanied by Mrs. Harvey and daughter. Mr. Harvey was very successful in doing an immense amount of advertising while away and there is no doubt but that a lot of good will result. The vegetable display which he took down attracted a great deal of attention. It was the finest display ever seen in Vancouver and spoke well for the Hazelton district.

Overcoats for Winter at Cost

We have a quantity of Overcoats of the very best quality and material, made by Coppley, Noyes & Pandall, of Hamilton, Ontario. Preparatory to our removal to Telkwa we will sell at invoice price—McArthur's Emporium, Hazelton.

WILL BE HEADQUARTERS

Main Drug Store Changed From Old Hazelton To New Hazelton

Mr. A. V. Johnstone, manager of the Up-to-Date Drug Stores, New Hazelton and old Hazelton, decided this week to make New Hazelton the headquarters and the main branch of the business. He was in town for several days sizing up the prospects for business and he came to the conclusion that this was the place for him. Just as fast as he can get the greater part of his stock moved from the old town he will do so and in a very short time he will be a permanent resident here. Mr. Johnstone has engaged R. H. Morrison, Vancouver, to look after the old Hazelton store and Mr. Morrison arrived on Wednesday night's train. This is only one of the many indications of prosperity in New Hazelton.

THE NEW BRIDGE AT HAGUELGATE

(Continued from page 1)

as the rough work is done then a big force of skilled rock men will be put on to do the rock excavation for the anchors, towers, etc. It is stated now by the engineer in charge, W. R. M. Hunter, that the work will be completed and ready for the timber when it gets here and the tower timber has already been shipped from Vancouver.

The New Hazelton bridge will be 416 ft. long and 9 ft. clear in width. It will carry a load safely of 15 tons and has a breakage capacity of 300 tons. The towers will be built of the finest fir that can be selected in British Columbia and is supplied by the British Canadian Lumber Corporation. The towers will be 68 ft. high and cover a base of 50 ft. They will be built into the solid rock and held down by 16 huge bolts so that it will be impossible for them to move a sixteenth of an inch.

The cables will be carried from the towers through steel saddles. They are made under the renouned process adopted by Cradock & Co., and each strand, before being made into the rope is treated so as to make the effect of rust upon it nil. In other suspension bridges in this country the girders and cross bearers are usually of wood, but on this bridge they will be of steel, making the bridge as nearly rigid as it is possible to get a suspension bridge in any part of the world. The cables will be 2 1-2 inches in diameter.

In keeping with the rest of the bridge the floor timber is to be of the best selected fir and the flooring of three inch selected planking.

In every respect the bridge will be as near perfection as science can make it. The best of material all through and the best workmen. All the steel is tested at the shops to stand a strain greater than traffic or wind will ever put upon it. The steel is now on its way out from the shops in England and will be here in lots of time to permit the bridge to be completed in contract time.

The road from the bridge to the depot in New Hazelton will wind a little to avoid all hills and it will come through with practically a level grade, thus saving thousands of dollars yearly in horse flesh, wagons, and in freight charges. This road will be constructed this winter to permit sleighs to travel, and in the spring the finishing touches will be put on.

CHAMPIONSHIP CUP ARRIVES

Duncan Ross Made Good His Offer—Cup the Most Handsome in the North

The hockey championship cup for the northern interior of B.C,, which was presented by Duncan Ross, has arrived and is now on exhibition in Moran & Polley's window. The cup is a very handsome one standing about eighteen inches high. It is one of the most valuable cups yet presented to any athletic association in the north and the hockey clubs might well put forth their greatest efforts to capture it.

Sleigh Beds

Sleigh Beds for sale and made to order, average length 14 to 16 feet., with seats 4 ft. 4 ins. high and three-eighth inch rods in front. See Tom Ryan, the Blacksmith. 1t

LAND NOTICES

Fort Fraser Land District—District of Cassiar

Take notice that Walter H. Liddiard, Victoria, plumber, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the s.-w. corner of lot 1364, thence west sixty chains, south eighty chains, east about eighty chains to lakeshore, thence northerly along lakeshore to point of commencement, containing about 560 acres.
Aug. 20, 1912 Walter H. Liddiard

Fort Fraser Land District—District of Cassiar

Take notice that William Hinderley, Vancouver, teamster, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the s.-e. corner of lot 1364, thence east eighty chains, south eighty chains, west about forty chains to lakeshore, thence northwesterly along lakeshore to point of commencement, containing about 480 acres.
Aug. 20, 1912 86 William Hinderley

Fort Fraser Land District — District of Cassiar.

Take notice that Olson Mahoney, of Seattle, Wash., sailor, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 3 miles north and 1 mile east of the s.e. cor. of lot 1364, thence north 80 chains, east 80 chains, south 80 chains, west 80 chains to point of commencement, containing 640 acres.
Aug. 27, 1912 Olson Mahoney

Fort Fraser Land District — District of Cassiar

Take notice that Edward P. Rorison, Seattle, Wash., architect, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 3 miles north and 1 mile east of the s.e. corner of lot 1364, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug. 27. 1912 Edward P. Rorison

Fort Fraser Land District — District of Cassiar

Take notice that James Dulap, of Seattle, Wash., farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2 miles north of the s.e.cor. of lot 1364, thence north 80 chains, east 80 chains, south 80 chains, west 80 chains to point of commencement, containing 640 acres.
Aug. 27, 1912 James Dulap

LAND NOTICES

Fort Fraser Land District — District of Cassiar.

Take notice that Jhon Poulos of, Victoria, B. C., farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east of the s.e. corner of lot 2333, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug 24, 1912 33 Jhon Poulos

Fort Fraser Land District — District of Cassiar

Take notice that Stavros Donos, of Victoria, B.C., blacksmith, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile north and 1 miles east of the n.e. corner of lot 2333, thence south 80 chains, west 80 chains, north 80 chains. east 80 chains, to point of commencement, containing 640 acres.
Aug. 24, 1912 Stavros Donos

Fort Fraser Land District—District of Cassiar

Take notice that Epiros Scodras, of Victoria, B.C., fisherman, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east and 1 mile north of the n.e. corner of lot 2333, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains, to point of commencement, containing 640 acres.
Aug. 24, 1912 Epiros Scodras

Fort Fraser Land District—District of Cassiar

Take notice that George Cremidas of Victoria, B.C., laborer, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east of the n.e. corner of lot 2334, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains, to point of commencement, containing 640 acres
Aug. 25, 1912 George Cremidas

Fort Fraser Land District—District of Cassiar

Take notice that Tonis Getsas of Victoria, B.C., merchant, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 2 miles north and 1 mile east of the n.e. corner of lot 2333 thence north 80 chains, west 80 chains, south 80 chains, east 80 chains, to point of commencement, containing 640 acres.
Aug. 24, 19I2 Tonis Getsas

Fort Fraser Land District—District of CASSIAR.

Take notice that George Haros, Victoria, B.C., waiter, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east of the n.e. corner of lot 2334, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, containing 640 acres
Aug. 25, 1912 George Haros

Fort Fraser Land District—District of CASSIAR.

Take notice that John Papros, Victoria, B.C., farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 1-2 miles south and 40 chains east of the s.e. corner of I.R. No. 6, thence north 80 chains, west 80 chains, south 40 chains, east 20 chains, south 40 chains, east 60 chains to point of commencement, containing about 560 acres.
Aug. 25, 1912 John Papros

Fort Fraser Land District—District of CASSIAR.

Take notice that Mary Verge, of Victoria, B.C., Spinster, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of the North Arm of Babine lake and about 1 mile in a northerly direction from the n.e. corner of lot 1370, thence west 80 chains, south 80 chains, east about 80 chains to lakeshore, northerly along lakeshore to point of commencement, containing about 640 acres.
Aug. 22, 1912 Mary Verge

Fort Fraser Land District — District of Cassiar

Take notice that James Patrick McNally, of Vancouver, B.C., machinist, intends to apply for permission to purchase the following described lands:—Commencing at a post planted on the west shore of Morrison lake and about 2 miles south of the s.-e. corner of lot 1364, thence west 80 chains, north 80 chains, east about 60 chains to the lake shore, thence south-easterly along lake shore to point of commencement, containing about 560 acres.
Aug. 20, 1912 James Patrick McNally

Fort Fraser Land District — District of Cassiar

Take notice that Ennert Weight, of Vancouver, B.C., machinist, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the east shore of Morrison lake, about 1 mile south and 40 chains east of the s.e. corner of lot 1364, thence east 80 chains, south 80 chains, thence west about 40 chains to lake shore, thence north-westerly along lake shore to point of commencement, containing about 480 acres.
Aug. 20, 1912 27 Ennert Weight

LAND NOTICES

Fort Fraser Land District—District of CASSIAR.

Take notice that Stanley James March of Victoria, B.C., teamster, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the northeast cor. of I. R. No. 10, thence north 80 chains, east 80 chains, south 60 chains, east 40 chains, south 20 chains, east 40 chains to point of commencement, containing 560 acres, more or less.
Aug. 23, 1912 Stanley James March

Fort Fraser Land District—District of Cassiar.

Take notice that Sydney Arthur Potts of Victoria, B.C., gentleman, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 40 chains north of the n.e. corner of I.R. 1358, thence north 80 chains, east 80 chains, south 80 chains, west 80 chains to point of commencement, containing 640 acres.
Aug. 23,'12 Sydney Arthur Potts

Fort Fraser Land District.—District of CASSIAR.

Take notice that Makis Fodides of Victoria, B.C., waiter, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east of the n.e. corner of lot 2329, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug. 24, 1912 Makis Fodides

Fort Fraser Land District.—District of Cassiar.

Take notice that Michel Kemos of Victoria, B.C., cook, intends to apply for permission to purchase the following described lands: Commencing at a post planted about 1 mile east of the n.e. corner of lot 2329, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug. 24, 1912 46 Michel Kemos

Fort Fraser Land District.—District of Cassiar

Take notice that Lyle S. Wilson, of Hazelton, clerk, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Babine lake, and about 1 mile south of the s.e. corner of lot 631-A, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug. 18, 1912 47 Lyle S. Wilson

Fort Fraser Land District.—District of CASSIAR.

Take notice that Henrietta Wilson of New Hazelton, B.C., spinster, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Babine lake, and about 1 mile south of the s.e. corner of lot 631-A, thence west 80 chains, north 80 chains, thence east about 60 chains to lakeshore, thence southerly along lake shore to point of commencement, containing about 560 acres.
Aug. 18, 1912. Henrietta Wilson

Fort Fraser Land District.—District of Cassiar

Take notice that Christ Pantages of Victoria, B.C., laborer, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Babine lake, and 2 miles south and 1 mile east of the s.e. corner of lot 631-A, thence west 80 chains, thence north about 80 chains to lake shore, thence south-easterly along lake shore to point of commencement, containing about 320 acres.
Aug. 18, 1912 Christ Pantages

Fort Fraser Land District.—District of Cassiar

Take notice that John Eastwood of Seattle, Wash., teamster, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Babine lake and about 2 miles south and 1 mile east of the s.e. corner of lot 631-A, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains to point of commencement, containing 640 acres.
Aug. 18, 1912 50 John Eastwood

Fort Fraser Land District.—District of Cassiar

Take notice that Peter Neilson, Seattle, Wash., teamster, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Babine lake, and about 3 miles south and 2 miles east of the s.e. corner of lot 631-A, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains, to point of commencement, containing 640 acres.
Aug. 18, 1912. Peter Neilson

Fort Fraser Land District — District o Cassiar

Take notice that Everett A. Sinclair of Victoria, B.C., clerk, intends to apply for permission to purchase the following described lands: Commencing at a post planted on the west shore of Morrison lake, about 1 mile west and 20 chains north of the s.-w. corner of lot 1363, thence south 80 chains, east 80 chains, north 80 chains to lake shore, thence westerly along lake shore to point of commencement, containing about 640 acres.
Aug. 19, 1912 32 Everett A. Sinclair

POULTRY DEPARTMENT

Getting Ready For Winter

From this time on the nights will be quite cold, with sudden and severe changes in temperature, and we must take as much pains in caring for our fowls as we do for ourselves. During the day, if the fowls are kept where it is dry, and they have plenty of litter in which to scratch for their grain, they can withstand almost any amount of cold. But at night, when at rest, the lessened blood circulation makes them more susceptible to the cold, and usually there is a lowering of the temperature that increases rapidly after sundown. These two things make it necessary to provide the best conditions for the fowls, if they are to be kept comfortable, and we cannot afford to neglect them.

The roosting end of the coop must be well closed so as to shut out all drafts of air. In using the adjustable coop, we close the north slide entirely, and the south one, with its muslin cover, is usually closed also, during the coldest nights and when fierce storms are raging. The muslin-covered slide at the top of the coop, which is removed during warm weather, is put in place and drawn closely to the end where the birds roost. The little drop curtain that hangs over the cross partition in the centre of the coop, allows plenty of air to enter the roosting quarters, so that good ventilation is provided without any drafts of air upon the fowls.

These matters are attended to early in the fall, in order to prevent the fowls from taking cold at the beginning of the winter season, as we have learned that this is surely the occasion when an ounce of prevention is worth vastly more than a pound of cure. At the best, winter is a trying time for fowls, and all of them, but especially the pullets, need to be kept in the very best physical condition, if they are to give satisfactory results.

A Warm Mash at Noon

We have adopted the plan of feeding the moistened mash at noon, and during the winter we mix it with hot water, and feed it while it is warm. This is not a sloppy mash but just moist enough to be crumbly. In this mash we use whatever table scraps they get, being sure that everything is in small pieces. Salt is desolved in the hot water, and in this way the whole is more evenly seasoned. We aim to use about the same quantity of salt that we would for food prepared for our own table. Occasionally a little pepper is added, and just enough of the mash is given at a feeding so that the fowls will eat all of it quickly. Any that is left in their feeding trough is just that much wasted.

Renewing the Soil

People often ask about the condition of the soil in the dirt end of our small coops. Before a coop is placed we always dig down ten or twelve inches and sift out all stones and rubbish, and add sand, ashes, or other soil, as may be necessary. Every morning, summer or winter, we spade this mellow ground and bury the daily ration of grain, so that the hens must scratch for it. By scraping off the surface litter and refuse before the morning spading, there is never any contamination of the soil, and we keep our coops standing in the same spot year after year.

Now and then we take out a pailful of the surface dirt, and put in fresh soil or sand, and during the winter, when there is more dampness, we put in dry siftings from our coal ashes. This. mixed with the dirt, helps to absorb the moisture and so prevents freezing, to a large degree, and the sanitary conditions are always good.

The Roosting Board

We find the small, loose roosting board to give the best results. It is lifted out each morning, all the droppings removed, after which it is placed on edge at the bottom of the coop, thus giving the entire bottom of the coop for scratching purposes during the day. By this daily process of cleaning there is never any accumulation of droppings, and no unpleasant odor in the coop. This lessens the opportunity for lice and mites to gain a foothold, and an occasional spraying keeps them away entirely.

The Litter

We have tried almost all forms of litter, from full length straw to sawdust. But for use in the small coops, short cut material seems to give the best results. Cheap hay or straw of any kind, or the chaff from the floor of the hay mow will answer. We prefer to use only enough at a time so that we can afford to clean out everything down to the floor every few days, as we are thus able to gather up all the droppings and keep everything scrupulously clean.

Keeping the Windows Clean

During the summer we take the three loose lights of glass from the end of the adjustable coop, but as cold weather approaches they are replaced, and they soon become soiled by the dirt scratched against them, and by the splashing of the water and feed from the troughs underneath. By selecting a warm day, they may be taken out and washed in a pail or pan of hot water, and dried quickly with soft cloths. It is necessary to keep them clean, as during severe weather the top must be lowered, and the muslin slide closed, so that what light the fowls get must come through these lights of glass.

All of these things take time, but the results more than repay one for all the time and work; in fact, there seems to be no road to success with poultry except that of strict attention to details at every point.

Fort Fraser
B. C.

We positively state that Fort Fraser will be the largest City on the line of the Grand Trunk Pacific Transcontinental between Edmonton and Prince Rupert, and that a **DEPOT OF THE G.T.P.** will be built at Fort Fraser just as soon as the rails of this second great Canadian transcontinental reaches the townsite.

The Question of this depot has already been settled
and there are no "ifs," "ands," or "buts" about it.

We are the financial backers of FORT FRASER and stand ready to guarantee this statement.

Have you studied Fort Fraser's situation? It should convince you of the possibilities of the future. Here are a few of its NATURAL ADVANTAGES:

- It is the centre of the now famous rich Nechaco agricultural district.
- It has a lake fifteen miles in length of the finest sparkling fresh water on the continent.
- A REGULAR HEALTH RESORT—Its climate is the best in Canada.
- It has one thousand miles of inland navigable waters, with steamer service assured.
- Hydro-Electric Power at its very door.
- Two lines of railway are already assured, and a third contemplated, this great COMING CITY.

Western Canadian cities have increased phenomenally in the past 10 years, and fortunes have been made by small investors, for instance: Winnipeg, Vancouver, Victoria, Calgary, Edmonton, Saskatoon, and many others. - - - - - - - WRITE FOR INFORMATION AND BOOKLET

Sep. 21, 1912 20

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Good printing does not mean expensive printing; cheap printing is expensive in the end. If you want good work at a fair price you must see the Herald.

RECTOR'S PAY IS FAR TOO SMALL

Rev. Gilbert A. Shaw Gives Reasons for Accepting the Call to New Hazelton

The following clipping from the Portland Oregonian will be of interest to everyone in this district. When a man must leave a country like New York state for the northern part of British Columbia in order to make ends meet, it speaks well for the new country.

"Riverhead, N.Y., Nov. 12—A minister cannot face the high cost of living of the present day and maintain his honor on a salary of $1000 a year, according to Rev. Gilbert A Shaw, rector of Grace Episcopal Church here, who gives this reason for his resignation. He has accepted a call to a church at New Hazelton, B.C., where he will receive a larger salary.

'I have not the conscience to ask you for more money,' said the rector, 'and yet I cannot live on the salary I am receiving. I could not stay here and pay my bills and I don't intend to run into debt.'"

M. B. Cohen, accompanied by Mrs. Cohen and daughter, left this week for Vancouver. Mrs. Cohen and child will go on to Winnipeg where they will visit for some time. Mr. Cohen will purchase a heavy team of horses in the south and return as soon as possible. This will give the firm of Cohen & Zackon two teams, both of which will be used in connection with their big business here.

Likes New Hazelton

Chief Justice Hunter, Vancouver, who held court in Prince Rupert the first of the week was a guest of Supt. Mehan and J. W. Stewart on a trip to New Hazelton on Wednesday night. His Lordship was very much taken with New Hazelton as a townsite and he was more than surprised at the size of the place. He stated that it was an outrage that the railway company did not extend its service to this point long ago. It was the first time he had been in this part of the district and never before understood the townsite situation as he does now. Since his visit he is quite a booster for New Hazelton and he will make it known in Vancouver. Chief Justice Hunter returned to Rupert Thursday morning on Mr. Mehan's private car.

LAND NOTICES

BIG FORCE ON SURPRISE MINE

Splendid Progress Being Made on Long Cross-Cut which will Tap Big Vein from Silver Standard

Work on the Surprise Mine is being pushed ahead and very satisfactory progress is being made says Supt. North. Fifteen men are employed underground and they are driving a cross-cut to tap the big vein which showed up so well on Silver Standard Mine, the adjoining property. All the veins on the Standard show up on the Surprise and Mr. North expects to open up a big ore body in a very short time now. With the Surprise and the Standard both working on Glen mountain this winter there will be doings in the way of ore shipments before spring.

Some of the boys from the headquarters camp went out to Two Mile lake on Sunday for the first skate of the season. They went through the ice but had a skate just the same and they were the first.

The boys turned the water on the hockey rink this week, but there will have to be a liitle more work done before a good sheet of ice can be obtained. This will be attended to at once and in a few days more there will be skating.

C. G. Harvey, Hazelton Hotel, was a visitor in town last Saturday. He has just returned from a visit to the south and while there he had plans prepared for his new hotel in New Hazelton. Mr. Harvey is now preparing to get his new building under way. He will start the work, he says just the minute that the railway company announces the location of the depot.

Word was received in town this week that Sadie Small, a daughter of Mrs. Small, of this town, was dangerously ill and that an operation was necessary. Later a wire came that she had passed away. The deceased had been attending school at Metlakatla. Mrs. Small left on Thursday's train and her son will leave on Sunday's train to attend the funeral. Mrs. Small's many friends will extend sympathy.

Had Fine Holiday

Mr. and Mrs. D. McLeod arrived home on Wednesday, after an absence of seven weeks, which time was spent in visiting all the big towns as far east as Chicago and south to Salt Lake City. While away they enjoyed ideal weather and their trip was exceedingly pleasant. It was the first holiday Mr. McLeod has had for seven years and he feels very much better for it, and he is now ready to settle down to hard work until the contract for the G.T.P. is completed. Both Mr. and Mrs. McLeod stated that they were glad to get back to New Hazelton again, and that this place, although young, had attractions which the larger and older places did not possess.

HAD NARROW ESCAPE

Broke Through Ice on the Lake Last Monday Night

Two young people of Hazelton had a very close call last Monday night while skating on the lake near the hospital. It was the first skate of the season, and, like the small boy who cannot wait until the ice is safe, they broke through and were nearly drowned. The water was deep where they went in and the ice broke easily after the first hole was made. It required many hands to shove boards out before the couple could be rescued. It was nearly a quarter of an hour before they were on land again, and both were exhausted and had to be carried to the hospital, where they remained for several days. With the boys who broke through the ice on Sunday, and the two on Monday, it should be a lesson to others to wait for more frost before starting the winter sports.

Mr. Legg, of Stewart, was a guest of his old Stewart friends in town this week. He found a great many old timers here, and he was also very much interested in the townsite.
