100 PEOPLE LOST IN A SNOWSLIDE

AN AVALANCHE COMES DOWN MOUNTAIN BURIES MINING TOWNS

Wallace, Idaho, March 3:- It is estimated that there are one hundred people dead in an avalanche which descended on the town of Mace at 11:30 at night. The deafening roar was heard in Wallace. Two special trains left Wallace at 2 a. m. for Mace. Hardware stores were opened and every ablebodied man in Wallace was armed with shovels and picks and they are now on the scene working feverishly to rescue those who may still be alive.

Warnings were issued Sunday to the towns in the canyon that conditions were favorable for a snowslide, but it seems no one paid any attention. Four small mining towns are located in the canyon within a distance of six miles.

A Northern Pacific work train with fifty men was standing on a siding at Mace and was swept away. All those aboard are supposed to have been killed. H. A. Pascoe, superintendent of the Standard mine, and wife are missing. The bodies of his son and daughter and ten others have been recovered.

Later Reports.

Wallace, March 4:- Thirty-one bodies have been recovered and many injured have been rescued. Six avalanches accurred within two days at Mace, Burke, Carbonate Hill and North Franklin, in the Coeur D' Alene district. Although the miners engaged in tne rescue work are nearly exhausted they are continuing their work in shifts to recover the last of the bodies.

DISASTER ON GREAT NORTHERN

Passenger Train Carried Down Mountainside By Avalanche.

Everett, Wn., March 3:- The Great Northern Spokane local train, which had been stalled in a snow bank since February 24, was carried down the mountain by a snowslide Tuesday. A relief train sent from here was not able to get within ten miles of the wreck on account of blockades. All wires are down. Later advices state that twenty bodies have been recovered. Twenty-six are still missing and twenty were injured.

Floods Reported.

Nampa, Idaho, March 4:- Two hundred families are homeless and scores of houses have been destroyed by floods. No loss of life is reported.

Strikers Demanding Arbitration.

Philadelphia, March 3:- Labor leaders are preparing plans for calling upon the city council to enforce the arbitration of the differences involved in the street car strike, Saturday next. The strikers contend that several hundred motormen and conductors were dismissed because they joined the union. They also demand an increase of wages.

Business and professional men are calling upon the mayor and city council to urge the prevention of a general strike. Meanwhile the riots continue. Within the last 36 hours two people were killed by the derailment of a car; two others were fatally injured and a total casualty list of 75 has been piled up.

Ohio Valley Under Water.

Cleveland, Ohio, March 3:- Dayton, Elkton and other towns in Ohio are flooded. At least two hundred people are dead; hundreds of families are homeless and scores of factories have been closed down. Property loss will amount to hundreds of thousands of dollars. Three hundred people were rescued from their homes at Warren.

Heroism Rewarded.

Montreal, March 3:- Thomas Reynolds, conductor of the train which was wrecked at Spanish river was presented with a gold watch and a cheque for $500 by president Shaughnessy for his bravery in rescuing the passengers.

Another Treasute Hunt.

Seattle, March 4:- Another expedition has been organixed to raised the sunken steamer "Islands" which went down ten years ago with two millions of Klondyke gold aboard.

Millionaire and Actress Married.

New York, March 2:- August Belmont, Sr., and Eleanor Robson were quietly married Saturday last.

Halley's Comet Approaching.

Ottawa, March 3:- Dominion astronomers say Halley's Comet is now visible through a fairly good telescope.

Heavy Storms on Puget Sound.

Seattle, March 3:- This city is passing through the worst combination of weather that has been experienced in years. Heavy rains and terrific winds are continuing. Owing to the heavy snowfall in the interior several passenger trains have been stalleb since the 24th of February and are just beginning to arrive. One train is still in a snow bank, the food supply being hauled to it on hand sleighs. Warnings have been issued to Puyallup valley farmers to prepare for floods which seem imminent.

Mrs. Mabee Dies.

Toronto, March 3:- The wife of Hon. Mabee, chairman of the Railway Commission, is dead.

New Master for Steamer Hazelton.

Charles A. Gardner, formerly mate on the Caledonia and later master on the Skeena, will be in charge of the Hudson's Bay Co.'s steamer Hazelton this year.

Captain Jackman will be again master on the Port Simpson and nearly all of the other officers are remaining in the service.

Passenger and freight rates will remain the same as last year, according to present calculations.

The Hazelton has been undergoing extensive repairs, meaning practically a new hull.

Tunnel Driven on Hudson Bay Mountain.

Jos. Sheedy arrived in town Friday evening from Hudson Bay mountain where has driven a 50 foot adit tunnel on the vein located last summer. The ledge is six to seven feet wide and the ore is galena, carried in quartz. Ae brought samples to be sent out for assay and will return immediately with supplies to continue the work. He says the property has every appearance of making a mine.

$20,000 FOR DOMESTIC SERVANTS

THE GOVERNMENT TO GO INTO IMMIGRATION WORK

CANADIAN NORTHERN TO START BUILDING JULY FIRST

Victoria, March 3:- The budget as brought down includes twenty thousand to the Salvation Army to bring out domestic servants from England; one hundred girls to be brought out this year. It was announced the government intended to branch out in immigration work.

Ten thousand was granted to Vancouver exhibition for prizes; a quarter million for the Second Narrows bridge across Burrard Inlet, no tolls to be charged and the bridge open to all railways.

The funded debt, amounting last year to over nine millions, has been reduced by the amount of two millions cash on hand. At present the government has six milllions in the Bank of Commmerce, at three per cent interest.

Work on the Canadian Northern is to start July 1, this year, and to be completed July 1, 1914. A minimum of fifty miles is to be completed the first year.

Bank For Hazelton

In response to a telegram sent by Hazelton business men to the Union Bank of Canada in regard to putting in a branch here the bank wired they would establish a branch at any point recommended by the business men. The committee then replied with an offer of a free site, centrally located and requested an early answer so that in case their offer was not accepted the subject might be taken up with another of the chartered banks.

CREW IS NOW UNDER COVER ON FIRST TUNNEL ON DUNCAN ROSS' CONTRACT

At the invitation of T. T. Dunlop the Herald man went over the work of Duncan Ross' contract of the G. T. P. The main or No. 1 camp is loctaed about eight and one half miles from town and near the center of work.

The first cut reached was the "Jones" cut where a gang of station men, headed by P. Jones, are taking out a large cut several hundred feet long, by the trap tunnel method. This tunnel is different from others in that it is driven four feet below grade and while they are thus able to move through the roof of the tunnel a much larger portion of the total amount of material to come out of the cut the dump is four feet too low and will have to be built up. A four yard car is being used and they seem to be making good progress, a car going out every five minutes. Eight men were working the tram and others were building culvert in the gulch.

Four other traps are being worked and the dirt is coming out of all of them at a lively rate. On the west end of the tunnel the crew is at work in the cut, taking out the approach to the tunnel and at the east end the crew is under cover. One four horse team is hauling hewed timbers, 12 x 12, for use in the tunnel and about 300,000 feet board measure will be needed.

Several gangs of right-of-way men are at work at different places, quite a number of Indians of the Haquel-ghet village having contracts. All of the clearing will be completed in a short time.

The number of men employed at present is just under 100 and more would be employed if they offered themselves. As soon as navigation opens the force will be greatly increased. Supplies are holding out well and with the exception of a few minor articles will last until the boats start running.

POLICE COURT NEWS.

A row over a dog packed the court room Thursday morning when C. G. Harvey was before Magistrate Allison charged with shooting an animal belonging to W. J. McAfee. Harvey admitted the shooting but claimed he was justified; that the creature was more wolf than dog; that she had bitten several people and as a free miner he had a right to kill wild animals. The court here reminded Harvey that a miner's license only entitled him to kill for food. As Harvey had not eaten the dog and did not propose to, the point did not seem to be well taken. Numerous witnesses were examined, much to the amusement of the crowd.

Owing to the mass of testimony and, doubtless, the weighty nature of the case, judgment was reserved until Friday morning at nine o'clock.

"Famous" or the "Wolf Dog" was the one killed and as dogs go was a noted canine in this region. Friday morning the case was dismissed.

REMARKABLE SHOWING IN SILVER CUP

Tunnel Has Now Reached The One Hundred Foot Station and It Is Expected to Make A Big Mine.

Frank Brown came down from Nine Mile Wednesday. He reports that the tunnel reached the hundred foot station February 28. Some rapid work is being done these days. There are five men in the crew all told and they drove twenty-four feet in the last five days of February. The entire contract, 200 feet, will be completed in the specified time, April 1.

It was aimed to avoid the ore as much as possible but there has been more or less ore in the tunnel all the way. Every day is making it more apparent that the Silver Cup is a great mine. Mr. Brown has had a lifetime of experience in many camps in western America and he states without qualification that the Silver Cup compares favorably with the greatest mines of the Coeur D'Alene and Park City at the same stage of development.

Where the purchasing syndicate thought at first they had a small shipping mine it is turning out that they have a big one—just how big will not be known for a long time. At any rate it means that Nine Mile will be a great silver and lead producer with a big tonnage and a big pay roll.

NEW BOAT BEING RUSHED.

River Boat Will Be Completed in Time To Make An Early Trip Up The River.

Captain Joe. Bucey, who will be in charge of the new boat being built by the Prince Rupert & Skeena River Navigation Co., writes from Victoria that construction is being rushed in order to have it completed by April 20; at which time he expects to leave Victoria for the Skeena. The steamer will be 135 feet long, 28 foot beam, 5 foot hold and will draw 17 inches light and 30 inches with 80 tons aboard. Cylinders will be 14 x 72 inches and the boiler will carry 200 pounds of steam. She will be fitted with steam steering gear and all the late improvements, including bath rooms for the passengers. The state rooms will accomodate 40 people. The Captain also says, 'there will be no Chinese laundry on the hurricane deck.'

Of the other officers Robert Ryder will be chief engineer, Jerry Cunningham, mate, Wiggs O'Neill, purser. Frank Waller, freight clerk and Joe. Doyen, steward.

In securing such a large carrying capacity with such a light draft Captain Bucey has carried the lines of the hull very full fore and aft. This will make her not so pretty nor so easy to handle as the other boats but should have little effect on her speed.

REDUCTION IN FREIGHT RATES NOT LIKELY

If a reduction of freight rates on the Skeena had been expected for this year from the construction of the new boat there is nothing at present to indicate the possibility of it coming about. The only circumstance that would have brought a reduction of rates would be a shortage of freight and the consequent competition among transportation companies.

There is enough cargo now offering to keep all the river boats busy steadily from the opening of navigation to its close, with a favorable season.

It is the policy of the Hudson's Bay Co. to supply the wants of the people living in the country before accepting any railroad freight, and such will be the custom this year. If there is not enough local freight offering to load the steamers, then railroad supplies will be handled. Foley, Welch & Stewart have already guaranteed a capacity cargo for every trip.

The new boat being built by the Prince Rupert & Skeena River Navigation Company would have been needed in the ordinary course of events to take care of this year's increase of business on the river. Both Hudson's Bay boats were busy last year and freight was left at the coast at the end of the season. 1250 tons was brought up the Skeena last year, in round numbers, outside of railroad construction supplies, and an increase of at least fifty per cent may be expected for 1910. This in itself will keep another boat fairly busy.

Stocks of merchandise were much lower on March first than at the same time a year previous. All of the heavy lines which make up the greater part of the tonnage bought each year are especially short. Partly on this account and partly owing to the great increase in the number of men employed on railway construction some of the merchants are looking forward to an increase of 100 per cent in the amount of freight to be landed at Hazelton. This would mean that all three boats engaged in freighting for the public would be taxed to capacity without carrying a pound of railway freight.

Of Foley, Welch & Stewart's boats two are wintering at Andimaul, slightly damaged and requiring a few weeks for repairs after they reach the coast. Under more favorable circumstances those boats would have no room for anything but railway supplies. There is little likelihood, with all boats loaded to capacity each trip, of any reduction in either passenger or freight rates this year.

CORRESPONDENCE

Feb. 24, 1910.

Editor Omineca Herald,

Dear Sir:-

I would like to make a few suggestions in regard to the road running from the Government ranch to McInnes'. Personally, I have walked over it, rode over it and last summer I hauled a wagon load of machinery over it. The proper route for the road is to start at Mr. Thompson's, follow the telegraph line more or less through Lem. Broughton's, Jack McKendrick's and J. Hunter's pre-emptions, keeping on the north side of the lakes all the way and it will tap six farms between the Government ranch and McInnes', also Dr. Wrinch's land and eight or ten more pieces surrounding his. The distance is not over twelve miles from Mr. Thompson's to the North Bulkley telegraph cabin. I understand the people of Pleasant Valley are pulling hard to have the road come their way. I would like to know what the people of Francois lake and South Bulkley would gain by going down through Pleasant Valley to get to Aldermere. You could not get any better grade as the terminus of last year's road work is on the highest part of the hill at the Government ranch and it is only a matter of choosing between two evils which side you drop down. The distance up Pleasant Valley to McInnes' is 26 miles with two bridges to build. I might say that at present there is a strong petition being circulated at Francois lake and South Bulkley to have the road follow the telegraph line to McInnes'.

Yours Truly
Thos. T. Aitken.

Glenview Farm,
South Bulkley

Following the receipt of Mr. Aitken's letter the Herald made some inquiries into the matter of the continuation of the road south and we find there is a proposal to divide the road at its present terminus and continue one branch along the telegraph line and run the other one into Pleasant Valley. The country is too large to be served by one road wherever it might be located.

Copper River Coal Being Worked.

Frank Jackson came in from Copper river this week, by way of Telkwa, where the coal properties owned by a Vancouver syndicate are being opened up. Amos Godfrey is in charge of the work and two tunnels each 100 feet in length have been driven this winter. The tunnels are on different seams, the larger one showing between five and six feet of first class coking coal. Jackson is going back to Copper river in a day or two but will return to Hazelton in a short time to prepare the expedition going north to work the coal seams, owned by the same syndicate, on the upper waters of the Skeena, Mr. Godfrey finding it impossible to make the trip as his attention is required at Copper river. Mr. Jackson reports the Copper river trail to be very dangerous owing to the frequent snowslides.
