THOUSAND FEET ORE SHOOT NOW

Vein Picked Up On Rocher de Boule 350 ft. west of Shaft—Vein 10 ft. 10 in. Wide in Winze

It was reported from a reliable source this week that the vein on Rocher de Boule had been picked up 350 feet west of the shaft. A big slide of loose rock had always hid the ore west of the shaft, but a short time ago Mr. Cowan put a couple of men over there to hunt for the ore. Last week they found copper float which indicated the presence of the vein and it was expected that another day or two's work would expose the lead. This gives an ore shoot of a thousand feet on the upper vein. The work on the winze in the Pemberton tunnel is also proving very profitable, the vein has now widened out to ten feet ten inches and the ore is the same character as in the shaft. The cross-cut tunnel in the drift has encountered the big lead and at the present time there is an immense body of ore in sight and the development work it might be said is only getting started. The possibilities of that property are almost unlimited, and within the next few weeks great movement will be seen on the big hill.

SILVER ISLAND BEING DEVELOPED

Taken Over on a Bond—Assays Over $1,500—Four Men Now at Work

G. C. Neilson was in town this week having returned from a trip to Silver Island in the Babine lake where he has a native silver proposition. Last winter he took over Silver Island on a bond and he is now developing the property. While he is away, and he is on his way down the river now, he has left four men on the property to keep up the work. He expects to return in about a month. He has with him about a hundred pounds of samples which show the ore to be very high grade. Some of the assays he has had made went as high as $1500 to the ton and others show a high per cent of copper.

Silver Island is just about opposite Fifteen Mile creek. On the mainland side Mr. Tremble is interested in some claims. He also had a deal on a couple of years ago for the Island but let it go when he took over Rocher de Boule and found it to be such a big thing. It is just three miles up Fifteen Mile creek that Anderson has his big property which was referred to in these columns about a month ago. The mining men are directing considerably more attention to the Babine district this year than ever before and there is every indication that some good properties will be opened up there before long.

Presbyterian Service

Beginning with next Sunday evening the services of the Presbyterian church will be held in the Assembly hall and that will be the meeting place until further notice. Next Sunday is also the quarterly communion Sunday and Rev. Mr. Lee, Kispiox, will preach the sermon.

Passenger List

The Inlander brought in the following list of passengers on Wednesday night: W. J. Patterson, J. E. Merryfield, Dr. Ewing, Mr. and Mrs. Wilson, Fraser, Murray, J. Hatch, J. Hane, E. B. Tatchel, H. H. Clarke, Richards, Ferd, More, J. A. Cowan, F. Buchan, Miss Thomson, M. McInnes, G. Keer, R. B. Jeffries, R. E. Paget, G. W. Jackman, W. Grundy, Mrs. Graham, Mrs. Hobbs, Miss King, J. McLeod, W. E. Davidson.

Premier's Visit

It has been officially announced that Premier Sir Richard McBride and Hon. Mr. Bowser will visit Hazelton on July 16th.

His Honor Judge Young has sent word that he will hold County Court in Hazelton beginning July 23rd.

HAZELTON WON BOTH GAMES PRINCE RUPERT LACKS PRACTICE

Dominion Day Celebration a Huge Success—Sunday Ball Game—Sports Monday Morning, Afternoon and Evening with a Dance after all the Rest—Big Crowd in Crowd

Hazelton Dominion Day celebration was the best yet. The crowd was great and the sport was immense. The fun started on Saturday night about midnight when the Inlander pulled into port with the Prince Rupert ball team and a dozen or so rooters and there was something doing all the time from then until the boat pulled out again at 7.30 on Tuesday morning. The Indian band was down to meet the boys and escorted them up street.

On Sunday afternoon the ball game between Prince Rupert and Hazelton attracted a big crowd and everyone of them saw a big league game of ball. It was the first time that Hazelton had been up against a team that was supposed to be an all round ball team and it was doubtful what the result would be. But the boys were there with the goods and they covered themselves with glory. The game from start to finish was a battle royal, with the two batteries as the centre of attraction, although when a ball went to the field the local boys were on it like a flash. Prince Rupert was not able to score until the fifth innings when Brooks managed to make the home plate, and they did not score again until the ninth when Evans touched the fourth bag safe. Owen and Lofquist were playing good ball and they received perfect support from the field, and many times when Rupert had opportunities for a timely hit the game was saved by lightning work in the field. For Prince Rupert the battery was the main feature though Champion behind the bat was not up to standard. Johnston was like a Chinese puzzle. His ball was fast and it also had some funny stunts that kept the boys guessing. So classy was his pitching that he struck out 18 or 19 men and assisted with a couple of others. The only runs Hazelton got were due to bad fielding and a poor catcher. At that the home boys only got four runs, two in the first and two in the fourth.

MONDAY'S GAME

As a result of Sunday's game there was a great deal of speculation as to who would pull off the second game. To practically everyone it looked like an even bet, and especially when it was rumored that Cameron, of New Hazelton was to catch. Several hundred dollars were bet on the game at even money and the Hazelton backers bet on them more because it was Hazelton than a conviction they had a cinch. When the teams lined up it was found that Hazelton had also made quite a shake up. Macdonald was replaced at first by Davy, Telkwa, and Lofquist was replaced by Owen, New Hazelton, who pitched on Sunday, while Mills took the box. Holt, a new man in town went out to centre where Mills had been. The change had a wonderful effect and the team was much superior as was evidenced from the very first innings. It was plain that every man realized that it was up to him personally, and with Owen as backstop the field had more confidence, although Lofquist caught a splendid game on Sunday.

At first it looked as though the visitors would hit Mills, and although they did land on the ball frequently, Mills received perfect support.

Even at that it was anyone's game until the end of the sixth when the score was eight to five in favor of the locals Had Rupert steadied down and found themselves they had a good chance, but the opposite occurred. In the seventh every man on the Hazelton side made a run and Sinclair was brought home twice. Johnston, who had been pitching quite as good ball up to that time as he did Sunday, lost heart at the lack of support and threw the ball to Toby to pitch. Toby tried it for the rest of the innings and gave it up, and Cameron was taken from behind the bat and put in the box. He had some good luck and shut the boys out in the eighth. The score at this time was 19 to 6. Prince Rupert went to bat, and although they had several chances to score a half dozen runs they failed to deliver the goods, and only got one man home in two innings.

It was plain that the visitors had had no practice, and everyone knows that they have no place in their own town to play except on a street newly covered with broken stones. The boys are up against it hard, and they have a council which fell down on their promises of a ball grounds. Taking these circumstances into consideration the visitors deserve great credit for the exhibition they put up, especially in Sundays game. The boys are a good bunch of ball players and if they could get practice they would be all to the good.

MONDAY MORNING'S SPORTS

Dominion Day morning a fine program of sports was pulled off. The first events were the horse races and in the race for Indian riders Donald Lum won with Robinson second. In the free for all Robinson won with Jimmy Michael second.

(Continued on page 3)

V. W. SMITH ON THE TOWNSITE SAYS ITS ALL NEW HAZELTON

Last Clause of Commissioners Decision Requires the Railway to do the "Impossible"—The Least Cost Will be Half a Million Dollars

V. W. Smith returned from his trip east on Saturday night last. While away he visited his father in Pownel, P.E.I. The chief object of his journey was to attend the hearing of the townsite case before the Railway Commissioners in Ottawa. Mr. Smith is one of the owners of sections one and two, New Hazelton, and he was one of the chief witnesses. He states that in his opinion there will be only the one townsite and the one station in this district and that one will be New Hazelton. He does not hesitate to say that he does not believe the G.T.P. will ever attempt to undertake putting a station at their townsite. He says that when the railway company get the plans and estimates of alterations necessary to bring their townsite up to their standard that they will find the expense is greater than the cause justifies. The last clause of the Commissioners decision, and that is the one which the representatives of the railway townsite are making so much use of, has been entirely misunderstood. The last clause means that the railway would have to spend half a million dollars before they could start to build their station even though the commission finally granted them one. At the present time there is only one station in the district and that is New Hazelton and it will be a long time before there is any chance of any other station if there is ever one.

The last clause of the decision as taken at the hearing is as follows:

"The original plan for the location of the station at South Hazelton, which is before us, shows that the railway, in the lay out of the station grounds and sidings, departed from practically everything which it has considered as a standard from the standpoint of engineering and operating practice. Had the Board required the Railway to locate a station under the engineering and operating conditions, which itself chose in this case, there undoubtedly would have been the most strenuous objection upon the part of the railway. When called upon by the Railway to approve such station site as it may deem convenient for the people of Hazelton, the Board cannot, and will not, be oblivious to the standard which the railway has taken for itself."

It might just be mentioned that at the hearing the Commission had before it the evidence as taken at a previous case a short time back when the Commission asked for a station on a grade similar to the one at South Hazelton, and the Railway made great objection saying that it was impossible from an engineering and operating standpoint to comply with the order. The commission is therefore holding the Railway to its own standard and not to a standard established by the Board, as it is supposed by some. The railway is now called upon to do the "impossible" before the Board will grant a station at South Hazelton.

Str. Inlander

A special excursion will be run to Skeena Crossing on Sunday, leaving Hazelton at 10.30 a.m. and returning leave the bridge at 3 p.m. Fare $2.00. Ice cream and cake will be served on the boat, 25c.

THE MINISTER OF RAILWAYS COMING

Hon. Frank Cochrane Will Visit Prince Rupert and Then Run Up the Line of the G.T.P. on a Trip of Inspection

It is a matter of general interest throughout the province to learn that the Hon. Frank Cochrane, Minister of Railways and Canals for the Dominion will pay his first visit to this district in the near future. In his official capacity he is greatly interested in the construction of the railway and his visit to the district should be of great interest to this district. He will be the first minister of the new government at Ottawa to visit Hazelton district and the Board of Trade should make an effort to get the honorable gentleman to visit this old historic town. The Hon. Frank is a real pioneer himself and has had a strenuous career in the new sections of Ontario. He will find much to interest him here. The Minister of Railways is also a very forceful speaker and a very interesting one and the citizens of Hazelton and vicinity would profit much from an address by one of the biggest men that Ontario has produced, and one of the biggest men in Dominion politics today.

HIGH GRADE ORE ON MILL CREEK

Silver and Gold Alone Go Over $300 per Ton—A New District to Receive Attention

Jas. Hatch arrived on the Inlander on Wednesday night and is on his way to his property on Mill Creek where he will spend the summer in company with his partner Peter Powers. Both of these prospectors are old Rossland men and are well known to many of the mining men in town. It is some five years ago since they staked the three claims they are now working and they have held on and done the necessary work because they knew they had something that was high class. Mill Creek is really the head of the Telkwa river and as it is a considerable distance from transportation there has not been much attention paid to the district. But there is something really good out there and these two boys have a piece of it. Their three claims show ore that is very high grade in both silver and gold, and there is also a high percentage of lead although in most of their assays they have not bothered with that commodity. Mr. Hatch has samples of ore with him that have caused several of the best mining men in the district to take more than a passing notice. One firm has asked for the privilege of examining the property with the view of taking an option. The ore is principally silver and gold, and an assay of $20 in gold is not uncommon. One assay that Mr. Hatch had with him gave values of $300 in gold and silver alone. Up to date they have worked on only three leads, although there are several others and some of these will be tested this season. From all that can be learned this property will cause more than an ordinary stir in the neighborhood. One of the best mining men in the district said yesterday that the samples submitted were the best he had seen in the district, and that miner had seen most of them.

Looking Over Farm Lands

J. K. Hannay, Seattle, representing the Valley Farm Lands Co., and who is one of the largest stockholders, returned the first of the week from a trip to the Babine district, where he had spent a couple of weeks looking over a large tract of farm lands which his company purchased last year, but which he had not seen before. As a result of his trip, he says that he is greatly pleased with the property. It is quite up to expectations, and he was very agreeably surprised at the extent of the country through which he passed. He had no idea that there was so much open country, nor that the land was as good as he found it.

Mr. Hannay also has several sections of fine stuff down the Skeena, and he will inspect it when he goes down. It is expected that the Skeena river stuff will be divided into small tracts.

Remember Your Opportunity!

Always keep in mind that every knock you give your home community recoils with greater or less force upon yourself, and that in every benefit that follows a boost you also have a share. If we would expand and prosper, we must work together for the common good. The opportunities of the country fair should appeal to every farmer, and yet there are some who always have a hammer out; what then should an international exposition, right in the very heart of this western country, require in the matter of your aid and co-operation through exhibiting the best that you have grown? And what about the man who criticises, when an exposition is made international-world-wide in scope, with displays of the best that nearly every country under the sun produces—and it is brought right to his very door, with its thousands of attending official representatives, progressive agriculturists and captains of finance and transportation, who travel thousands and thousands of miles to ascertain what are his requirements, what they can do to make his journey through life easier and happier, and what is best for the country, yes, the world, as a whole? God loves an honest man; the Bible doesn't place a knocker anywhere near the throne. This also applies to a mining centre.

The Over Seas Club

The visit of Evelyn Wrench, the Founder of the Club, was on Tuesday 11th June made the occasion of a meeting of the club at Winnipeg. The Lieutenant Governor of Manitoba presided at the Hall of Industry, where the Club meeting was held, on the platform were men prominent in business and political life, regardless of political affiliations.

It was mentioned that there were 72 branches of the club in Canada, in the New York branch there were 500 members. Mr. Wrench spoke of the series of meetings that were being held, and he recalled the dramatic moment at the Toronto meeting when the Chief Rabi rose and told the meeting why he believed in the British Empire as a world-force.

Mr. Wrench described how the idea of the formation of the Club had originated at Rideau Hall at Ottawa, while he was staying there as a guest of Lord Gray. Lord Gray had shown him some papers that had belonged to Cecil Rhodes, which Lord Gray as one of the Rhodes Trustees had in his keeping, there was a note of an early idea of Rhodes when he was 23 years of age, he died in 1902 at the age of 46 years, to the effect that the ultimate unification of the British Empire might be wrought by the establishment of a Secret Society. It is interesting to recall that at times Cecil Rhodes considered the inclusion of the United States as a probable incident in such unification, with a corresponding transfer to this continent of the direction of affairs; that note by Mr. Rhodes was the foundation as it proved of the Over Seas Club. Lord Northcliffe on Mr. Wrench's return to England placed the columns of the Daily Mail reswpaper at the disposal of the Club.

The Club was founded 27th August 1910, its membership now is 89,000. There are 350 branches in all parts of the world, of which 63 are in Western Canada.

Mr. Wrench presented to the Winnipeg branch a reproduction of Millais' picture, "The Boyhood of Raleigh," making the presentation on behalf of Lord Gray who has written beneath, "The Empire is my Country, Canada is my Home."

For Sale

One highly bred Buff Orpington cock. Good for breeding or show purposes. Apply Box 2, Herald office. tf

For Sale

About one dozen Angora goats imported from Oregon a short time ago. They are fine for clearng brushy land. Will sell reasonable. Will deliver to Hazelton.

Frank Joyce, Lorne Creek.

Lost

Two or three keys on a small ring. Finder please leave at the Hazelton Hotel. tf

DR. QUINLAN
Dentist

Office: Opposite Herald office.

Will be in Hazelton a short time and then will go to Telkwa for a few weeks, returning to Hazelton about July 1st.

LAND NOTICES

Omineca Land District—District of Coast, Range V.

Take notice that I, J. D. Jay Jones, farmer, of Terrace, B.C., intend to apply for permission to purchase the following described lands:

Commencing at a post planted one mile east of the northwest corner of Newtown Indian Reserve No. 4, thence 20 chains north, thence 20 chains west, thence 20 south, thence 20 chains east to point of commencement, consisting of 40 acres, more or less.

Dated June 5, 1912 50-7 J. D. Jay Jones

Omineca Land District—District of CASSIAR.

Take notice that May Shewen, of Vancouver, married woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted on the east bank of Skeena river, at the mouth of a large creek about eighteen miles north of Hazelton, thence east 20 chains, north 80 chains, west 20 chains more or less to river bank, thence in a southerly direction along river bank to point of commencement, and containing 200 acres more or less.

June 7, 1912

j14 May Shewen

Omineca Land District—District of Coast, Range V.

Take notice that Jonothan Webster Cornett, of Vancouver, salesman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted one mile north, one mile west from the north-west corner of Lot 3995, thence north40 chains, west 40 chains, south 40 chains, east 40 chains to point of commencement, containing 160 acres more or less. Jonothan Webster Cornett

May 25, 1912

j14 Alex. Geo. Walker, agent

Omineca Land District—District of Coast, Range V.

Take notice that Frederick William Renworth, of Prince Rupert, merchant intends to apply for permission to purchase the following described lands:

Commencing at a post planted one mile north and half a mile west from the n.-w. corner of L3995, thence north 40 chains, west 40 chains, south 40 chains, east 40 chains to point of commencement, containing 160 acres more or less. Frederick William Renworth

Alex. Geo. Walker, agent

May 25, 1912 j14

Omineca Land District—District of Coast, Range V.

Take notice that James Gilmour, of Telkwa, rancher, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the n.-e. corner being the n.-w. corner of Lot 3309, R.V. coast thence west 40 chains, south 30 chains more or less to the Bulkley river thence traversing the bank of river in a s.-e. direction to west boundry of S. B. Clearihue, thence north about 60 chains along west boundary of S. B. Clearihue and lot 3309 to point of commencement, containing 100 acres more or less. James Gilmour

HAZELTON WON BOTH GAMES

[Continued from page 1]

There was some dispute between local sports as to the ability of a black horse that did not finish and the winner of the free for all. The result was that a special race was called for the afternoon on a straight away course. The black horse failed to come up to expectations although there were a couple heats that were real races. Robinson won with Donald Lum second.

After the horse races in the morning several races were pulled off for small boys and girls, also one for the young ladies. This event created quite a sensation and several wagers were put up, the winner was Miss Ritchie, with Miss Cliff second.

The 100 yard dash brought out six starters with Hetherington 10 yards in the rear. At that Hetherington pulled through the bunch and with a magnificent burst of speed crossed the mark a couple of feet ahead of McVittie who was running a fine race. Hetherington repeated the stunt in the 220 yards dash. John is a wonder when it comes to a run and he caused the visitors to open their eyes.

Just after lunch a prospectors pack race was pulled off and this was won by Gordon Wilson, with Tommy Brewer second.

EVENING PERFORMANCE

To wind up the day a series of athletic events were pulled off in the assembly hall which provided a lot of sport and which was enjoyed by a big crowd. The tournament was under the auspices of N. Alexander and Bert Hughes and the event of the evening was the go between those two feather weights. The first event Sterns and Roach boxed three rounds for a draw. In the wrestling Frisco got two falls in six and two and a half minutes.

The flour dive by the six gold dust twins was a bunch of fun from start to finish and it is doubtful if the boys have got the flour all out of their mouths yet.

The go between Alexander and Hughes was something of a scientific event. Both boys were very clever with the mitts and although Hughes was somewhat lighter he had the better of the scrap as far as it went. Alexander had the best of the first round, although he handed out a couple of foul punches and was warned not to repeat them. In the second and third rounds Hughes had the best of it and about the middle of the third round Hughes was given the decision on a foul. At that it was the general opinion that Hughes would have got the decision if not a knock out.

Following the athletic events the hall was cleared and cleaned out, and a dance took place, the happy time being kept up till the small hours of the morning.

The Inlander pulled out at 7.30 sharp on Tuesday, and that was the finish of the Dominion Day celebration.

Hazelton Hospital The Hazelton Hospital issues tickets for any period from one month upward at $1 per month in advance. This rate includes office consultations and medicines, as well as all costs while in the hospital. Tickets obtainable in Hazelton from E. C. Stephenson and Fred Field; in Aldermere, from Rev. F. L. Stephenson, or at the Hospital from the Medical Superintendent.

TO THE PUBLIC

THE FINAL decision of the Railway Commissioners, confirming the location to the railroad station at NEW HAZELTON, puts the final stamp of approval on New Hazelton as the only townsite in the district. The insane attempts by some parties, who, to further, what they considered, their own interests, to have the town removed from its natural location as decided by the late Judge Mabee, already resulting in business stagnation and the loss of thousands of dollars to the business men of Hazelton, besides setting the development of the district back by many months, have now met with complete failure.

NEW HAZELTON

To those who may still have a lingering doubt

The railway commissions have intimated that the Grand Trunk Pacific Railway Company have, on every occasion, fought against providing station facilities at points with gradients and curvatures that obtain at South Hazelton, claiming that traffic could not be handled at such points. To handicap the great trade of the Hazelton district in such a manner as this is the height of absurdity.

Anything the G.T.P. may say in the matter

should not be taken seriously, as it is obviously for purposes that have nothing whatever to do with the creation of a town in the district. The future of Hazelton demands a point with the very best facilities for large yardage, and a chance to expand, in view of the large local mineral tonnage, and an early movement of coal tonnage from Ground Hog. These facilities New Hazelton possesses to the greatest degree.

Stand on the South Hazelton bluff and imagine the absurdity of creating such facilities there

The Commissioners also state that if the G.T.P. propose to put a station there, they would have to conform to the standard laid down by themselves. Prominent engineers give it as their opinion that such is impossible.

The owners of New Hazelton are prepared to act in a liberal manner toward the old town business men, who feel that the coming of the railway necessitates the removal of their business to the new town. The railway will easily reach New Hazelton by September 1st.

Get in line for the new town. Boost for the Ground Hog Railway, the Mines and a large, united town

NEW HAZELTON DOINGS

E. B. Tatchell spent several days in Prince Rupert the past week the guest of friends. During his absence the Union Bank was in charge of H. H. Little, old Hazelton.

F. C. McKinnon was in town on Tuesday on townsite business. Mr. McKinnon is very confident that there will be no station at any other point in this district.

The greater portion of the population went to the old town to celebrate the holiday and to witness the ball game between that town and Prince Rupert. Two of the local ball players were in the game. Owen pitched and caught for Hazelton and he was a tower of strength to that team. Cameron caught and pitched for Prince Rupert.

Wm. Lynch, Prince Rupert, was a visitor in town this week and was very much interested in the business progress at New Hazelton.

D. McLeod spent the holiday at Silver Standard mine looking over the work that has been accomplished there recently. He reports that the property is looking better than it ever did.

Word has been received from J. W. Stewart that he is still improving in health and in a very short time he will be as strong as ever.

Arrangements are being made for a general meeting for next Tuesday night for the purpose of organizing a Board of Trade or some other society to boost New Hazelton as a business and mining centre. Some of the first things to be taken up by the association will be street improvements and other improvements to the town, and then other matters will follow. Besides all New Hazelton people being requested to be present, all those in the old town who are interested in the progress of New Hazelton are invited to be present and take part in the meeting. It is the intention to start boosting the town and the district from the town itself.

ALL FORCES TO JOIN HANDS

Strong Evidence of a Compromise being Effected By All Townsite Interests

There will be no station granted to South Hazelton. and there is not much chance of even an application being made for one, is an opinion that is rapidly gaining ground. On the outside there is no doubt in the minds of the people about any other station in this district than the one at New Hazelton. This is evidenced by the fact that thousands of dollars have already been paid in on lots previously sold and on new sales.

It is also rumored in circles where such rumors are tinged with authority, that a compromise is about to be effected between the South Hazelton and the New Hazelton interests. Conferences have already been held and progress is reported, and there is every indication that the combination of forces will be effected. There is no doubt but that such a move would mean many thousands of dollars to all parties concerned.

A Creditable Edition

The North Vancouver Express issued an Empire Day Prosperity Edition, a copy of which has been received by the Herald, and it is a credit to the editor and staff of the Express.

Work is progressing rapidly at all the railroad camps along the line, and the camps are full of men. R. E. Paget's camp employs about 150 men. His No. 3 shovel camp will be through early in July, and No. 4 camp in August.

TO BUY
----or not to buy
This is the Question

Whether 'tis better to keep on paying rent, or else, with money spent, buy me a home where I may love to dwell.

You will make no mistake in buying in

HAZELTON MINING DOPE

J. K. and John Ashman returned on Monday from their property on the Hudson Bay mountain.

Jas. Craig has returned to the gold property on the Kisgagas trail and will spend some time there prospecting.

Work was started this week installing the telephone system at the Harris mines. In a couple of days that property will be connected with town and the management will be saved many trips.

Supt. Haskins, Silver Standard, was in town on Tuesday on business. He reported that the mine was still improving and that it was making money every day. The vein in the bottom of the shaft averages thirty inches of solid ore for the full length.

F. H. Brown arrived home last week after a trip of inspection to the new find on the Morrice River. He was favorably impressed with what he saw but said that he could not say much about it at present as it would require some time to examine the ground and to sample it properly.

Duke and Hugh Harris spent several days on the Hazelton View group on this side of Rocher de Boule mountain. They have several claims there that are very promising and especially as they join on the Rocher de Boule property. They are confident that the big copper vein runs right through their property.

Al. Harris, superintendent at the Harris mines, returned to the camp on Wednesday and it was his intention to start the work on the shaft on No. 3 vein right away. This shaft is already down 127 ft. and they will continue it down to the 200 ft. level. Everything is now in fine shape and the work will proceed very rapidly.

Nesbitt came in from Nine mountain on Sunday and brought in some sample ore from a new strike he has made on the south side of the hill at the head of Seven Mile creek. The vein is from one to three feet wide and lies along side a big dike. As yet there has not been enough work done to determine the values to be expected, but the surface shows some nice clean galena. He will do considerable work on it this season yet.

ss. INLANDER

The fastest boat on the river.

Will run to connect with all trains at the end of steel

POULTRY DEPARTMENT

I have proved to my satisfaction during the past year that alfalfa excels clover both as a green food for growing chicks and a winter relish for adult fowls. We have a field of ten acres sown to alfalfa stretching just below the colony coops and pens where I raise my chicks.

A year ago last summer I noticed that as soon as I gave the chickens free range they would seek the field and spend hours among the growing alfalfa, particularly when it was in blossom ready for cutting.

By close observation I found that they ate the tender tops and purple buds ravenously, and certainly thrived on the food.

I tried sowing some seed in my nursery pen, and it was wonderful to see how the chicks enjoyed it—wee, fluffy fellows just from the incubator. This set me to thinking.

When last winter came on I housed 100 pure Buff Cochin pullets in a fairly roomy and comfortable house. The large hay barn was stored to the roof with alfalfa and millet hay. From the former the leaves and dried blossoms, still green in hue, fell in masses in fine fragrant litter, useless to the cattle and horses, which only ate the hulkier stems.

All winter long I used this alfalfa chaff for litter in my houses, bedding the floor deep every day. The hens scratched in it for their grain and ate every available bit they could pick up.

By night the floor would be bare and a fresh supply would be thrown in ready for the morning meal.

My hens have always done well as winter layers, but last season they outdid themselves and made a record which is the wonder and envy of all my neighbors.

I give the credit to alfalfa, especially since some close neighbors with warm houses—one of them heated—who bought protein and blood meal in large quantities, and who provided oyster shells, mica grit and cut clover got next to no eggs at all. In fact, the one who has the heated chicken house did not average three eggs a week, and the other barely got enough for family use. One has a flock of 500 Brown Leghorns and the other 250 pure Barred Rocks.

In past winters eggs from my old hens were few and far between. It was the pullets that laid the eggs. But not only did the hens lay last winter, but wanted to sit, just as if it were summer weather.

I broke up as many as a dozen broody hens last January. In the face of facts like these I naturally give the credit to alfalfa.

This was the sole addition to their feed, and the only grain they had was corn and an occasional feed of boiled oats, for we did not sow wheat last year.

At the present writing I have over 600 thrifty, growing chicks, scratching in alfalfa litter for their grain.

I have become an enthusiast on the subject of alfalfa, and I say to all breeders of chickens: Sow alfalfa in the pens, and also store it as a winter egg producer.

HARRIS MINES, LIMITED

(NON-PERSONAL LIABILITY)

25,000 Shares of the Treasury Stock are offered at the same old price of

Twenty-Five Cents a Share

The proceeds of this sale will be used to carry on work at the mine. This stock is the next to advance in price. Ore shipments cannot be commenced before fall on account of extra expense, but high grade ore is being hoisted, sorted and sacked every day.

Look up our circulars announcing sale. Be sure to come early.

SALE STARTS ON TUESDAY, JUNE 25th

Goods marked in plain figures. Fixtures will be sold as soon as the stock will be sold.

Acme Clothing House

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

DO YOU KNOW?

Do You Know That the greatest wave of progress and prosperity on earth today is in British Columbia. The point that seems to be the centre and the one to have the most sensational values established in a short time is New Hazelton.

Do You Know That British Columbia money, Canadian money, United States money and money from all directions is pouring into New Hazelton District for investment and development and everyone feels confident that sensational profits will be sure.

Do You Know That the Grand Trunk Pacific rails are now laid to Skeena Crossing and will have steel laid into New Hazelton early in July.

Do You Know That New Hazelton is a good substantial town now. That the merchants (about 60 in number) are located around the corner of Thirteenth Avenue and Pugsley Street.

Do You Know That 12 mining companies are working within 9 miles of New Hazelton, and will be shipping ore from New Hazelton in July or August.

Do You Know That the business done in the Hazelton district this summer will be transacted mostly at New Hazelton.

Do You Know That the B.C. Government are spending $2000.00 on street improvement in the vicinity of Pugsley Street and Thirteenth Avenue.

DO YOU KNOW?

Do You Know That the owners of New Hazelton are spending a vast amount of money on improvements in New Hazelton.

Do You Know That thousands of people are coming to New Hazelton this summer.

Do You Know New Hazelton will have 3000 to 5000 people in 1912 having about 2000 people altogether in the Hazelton District now.

Do You Know That lots in the merchantile section New Hazelton will soon be selling for thousands of dollars for each lot. They are now selling for a few hundred.

Do You Know That thousands of men will soon be working in the mines in New Hazelton district, producing millions in value for the fortunate owners.

Do You Know That thousands of farmers will develop the vast area of agricultural land in the Skeena, Kispiox and Bulkley Valleys and that they all will be rich in a few years.

Do You Know That New Hazelton will have thousands of visitors this year. Some will locate, and others will invest, all will boost—can't help it.

Do You Know That New Hazelton minerals, coal, timber, together with rail and water transportation guarantees big smelters, big industries of all kinds, all of which will make a City of world wide importance.

Do You Know That you should not wait until the many big things are announced and the prices of lots go soaring.

Do You Know Get in now at the starting prices and on easy terms.

Do You Know That you should get in now.

WATER NOTICE

Notice is hereby given that Arthur Michal, of Lorne Creek, B. C., will apply for a licence to take and use 2 cubic feet per second of water out of Michal Creek, which flows in a southerly direction through pre-emption 1199 and empties into Skeena river, near and opposite Fiddlers Creek. The water will be diverted to the n.-e. corner of pre-emption record 1199 and will be used for irrigation purposes on the land described as pre-em-tion record 1199.

This notice was posted on the ground on the 10th day of June, 1912. The application will be filed in the office of the Water Recorder at Hazelton, B.C. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights Parliament Buildings, Victoria, B.C.

Arthur Michal, Applicant

PERSONAL AND LOCAL

Duncan Ross and Mrs. Ross were among the visitors in town on Monday.

Mrs. A. R. Holtby and Miss Laura Holtby of Prince Rupert, are camping at Skeena Crossing for the summer.

V. W. Smith and Mrs. Smith, New Hazelton, were on town on Monday and took in the ball game in the afternoon.

Mr. Guttstein, of the Acme Clothing Co., secured a beautiful silver fox skin from an Indian this week. The hide is a very valuable one and it has created quite a lot of interest in town.

Sam Eby has decided to move to Telkwa where he will open up a painting and decorating establishment. He sent his goods out the latter part of last week. He has some big orders booked now if they can get a supply of lumber.

It will be learned with general regret that Ernest Price has handed in his resignation as postmaster of the Hazelton office to take effect the 15th of this month. Mr. Price has been a hero in the service of the post office department and he will be greatly missed. He will also be missed in social circles as he has always been a general favorite.

CITIZENS MEET THE VISITORS

Committee Went Down on the Inlander to the Bridge—Guests of the Steamer

On Saturday afternoon Harry Rochester, manager of the steamer Inlander, took several citizens down to the bridge when the boat went down to meet the Prince Rupert ball team. Those who went down were L. L. De Voin, president of the Athletic Association and Mrs. De Voin, H. H. Little, Board of Trade, and the editor of the Omineca Herald.

A Big Surplus

As a result of the Dominion Day celebration the Hazelton Athletic Association has a surplus in the treasury of nearly $300. This sum is due largely to the big gate receipts on both days, and the money will be very useful in carrying on the sports during the balance of the season.

Challenge from Telkwa

The local ball team have received a challenge from the Telkwa boys for a game there on Saturday of next week. They offer to pay all expenses and also a prize. It is likely that the Hazelton boys will accept.
