The Omineca Miner

VOL. II, NO. 52 HAZELTON, B. C. SATURDAY, AUGUST 30, 1913 PRICE $2.00 A YEAR

LABOR DAY CELEBRATION

Big Crowd Going to Terrace by Special Train to Attend Conservative Picnic

HAZELTON VS. RUPERT

Local Baseball and Football Teams Oppose Coast Clubs for Glory and Trophies---Prince Rupert is Sending a Large Crowd.

Labor Day will be a notable occasion in this district. The great feature will be the Conservative picnic at Terrace, to which point Hazelton Conservative Association will run a special train. About 150 Hazeltonians are expected to join the excursion, while Prince Rupert will bring over 400 to the celebration.

An interesting program of speeches, games and sports has been arranged. The principal events will be baseball and football games between Hazelton and Prince Rupent. The coast city has never succeeded in defeating the old town, and may be expected to line up strong teams on Monday, in an attempt to carry off the trophies which are offered for the games.

Captain Sinclair announces the following as the probable line-up of the Tigers in the baseball game: McMillan, ss; Sinclair, 3b; Kelly, lf; Doc Rock, cf; Graham Rock, p; Macdonald, 1b; Finney, c; Bob Rock, 2b; Lynch, Harris and Walker will be held in reserve.

In opposition to the Callies, the Hazelton football club will have the following men on the field:

Middleton
Warne Gammon (Capt.)
Frost Borland Harvey
Brewer Frost "Chet" Munro Johnston
Reserve—Johnson

The number of tickets for the excursion is limited, as the railway company can only furnish three cars for the Hazelton excursionists. Those who have not already procured their tickets should do so at once.

The "Insane" Murderer

Sherbrooke, Que., Aug. 27:—Thaw, the escaped murderer, is still held in jail here. There was a dramatic scene in court today, when the prisoner's lawyers withdrew their habeas corpus proceedings, with the concurrence of Superior Judge Globensky, notwithstanding the opposition of attorneys representing the state of New York, who sought to have Thaw released, that the immigration authorities might take charge of the case and carry out their purpose of deporting the criminal as a rejected immigrant. "Hooray for the British flag! Hooray for Thaw!" shrieked men and women who stood on chairs and waved handkerchiefs, parasols, and hats when the decision was announced. The judge did not rebuke them.

Can't Come to B. C.

London, Aug. 27:—The efforts of Canadian representatives to have next year's meeting of the Imperial defence committee held in Vancouver have failed. The committee will meet, as usual, in London.

Ministers' Movements

Ottawa, Aug. 27:—Hon. Martin Burrell and Hon. W. T. White are on their way home from England. The premier and Hon. George E. Foster are busy with departmental business.

Shushanna Is Rich But Small In Area

Vancouver, Aug. 29:—Dr. Cairnes, of the Canadian geological survey, has returned from an examination of the Shushanna gold field. He states that the gold-bearing area appears to be small but rich. It is the greatest stampede, he says, but not the greatest find since the Klondike rush. Two thousand men are on the ground, and creeks are staked for ten miles, even to the mountain tops. There are five routes; two through Alaska, and three through Canadian territory. The latter are the best.

All good ground was staked by the first two hundred men in the field. The same bedrock conditions prevail on the Canadian side of the line, twenty-five miles distant. It is quite probable that gold will be found in the Yukon section.

Dr. Brock, director of the survey, said the whole country about Shushanna was favorable for prospecting. He would not be surprised if some important discoveries were made in Northern British Columbia and the Yukon within the next two years.

A. Bassett, British Columbia manager of the Hudson's Bay Co., is visiting the company's posts in this district.

NEW DISCOVERIES OF ORE REPORTED

An interesting and probably important find of mineral has been made near the head of Babine lake, where an immense lead of well-mineralized quartz has been uncovered on the Independent group, located by T. E. O'Connor, A. Maurice, and C. Dedrickson. The locaters have seven claims, and have done considerable work. They brought out samples of the ore, which they say averages 35 feet in width and has been traced for approximately 2500 feet. Assays of specimens have given fair returns in gold and silver, and they expect a favorable report from tests which are now being made of average samples. The ore is concentrating.

Samples of nice-looking galena ore from claims located on the Skeena, twenty miles above Hazelton, have been brought in by J. P. Thorkildson, who states that a big dike. in which stringers of solid ore occur, has been uncovered.

A. E. Phillips came up from Hardscrabble to spend a few days in town. He reports excellent showings of gray copper on St. Croix and Leggett creeks, where big leads have been uncovered.

Pleased With Mines

Seattle, Aug. 25:—Phil. Gillis and Dr. J. R. E. Sievers of Butte, Mont., relate tales of the mineral wealth in the vicinity of Hazelton that remind the old timers of Bonanza days.

Mr. Gillis and Dr. Sievers are old timers in the mining game. Together with Dan J. Williams they inspected the Rocher de Boule mine, not far from Hazelton. Naturally reticent, Gillis was loth to dicuss the Rocher de Boule property.

"We have great faith in the country and the samples have convinced the best engineers we have been able to engage that the mine is worth while," said he.

Local and District News Notes

B. M. Rogers has gone to Nebraska for a visit.

S. N. Long, of Francois Lake, came in yesterday.

Graham Rock is spending a few days in the Bulkley Valley.

George A. Ohren, representing the Ingersoll-Rand Co., was in Hazelton this week.

At North Francois Lake a daughter has been born to Mr. and Mrs. L. O. Forde.

G. O. Graham returned on Wednesday from Vancouver, where he spent his vacation.

Frank A. Jackson, with Mrs. Jackson, is expected to arrive from Groundhog tonight.

Mrs. (Dr.) Shewan, of Vancouver, is visiting her parents, Mr. and Mrs. Dan Harris.

L. R. Walker and P. B. Carr returned today from a trip to the Bulkley Valley.

B. M. Rogers, who has been engaged in laying out new roads in the Bulkley, has gone east for a vacation trip.

James O'Shea and C. J. McQueen have returned from their holiday trip to the Bulkley Valley and Copper river.

Rev. W. F. Rushbrook conducted the services in St. Peter's Church on Sunday. He returned to Prince Rupert on Thursday.

Miss Gladys Fulton, of Victoria, arrived on Wednesday's train, to visit her brother, L. D. Fulton, manager of the Up-to-Date drug-store.

W. W. Wrathall rode in from the Diamond D ranch on his motorcyle in seven hours—the quickest time ever made over the distance.

The Hazelton public school reopened on Monday, with an attendance of twenty-seven. The school is now in charge of H. C. Lambert, who comes from Victoria.

Two large pack trains left yesterday for Manson and Germansen creeks, carrying supplies for the Kildare Mines, Ltd., and the Royal Standard.

Dr. P. F. Scharschmidt returned on Thursday from a trip through the Bulkley Valley. He reports everything in good condition throughout the districts he visited.

W. W. Wrathall spent a few days in the Valley, taking photographs of various scenes between Smithers and the Diamond D ranch. He returned to Hazelton on Monday.

F. B. Chettleburgh and Merrick Harvey came in today from Copper river, to join the football team for the match with Prince Rupert on Monday.

W. J. Sweeney and F. A. Brewer came in on Wednesday from the Groundhog district. The latter has been in the northern coalfield for over a year.

Mrs. Reid, mother of Manager Chas. Reid of the Bank of Vancouver, spent a few days in Hazelton, leaving on Thursday to return to her home in Edinburgh, Scotland.

A. H. Wyllie, a popular member of the local government office staff, will leave tomorrow for Victoria. It is understood his appointment to a position at the capital will be gazetted shortly.

There are rumors of a placer strike on the Kemano watershed, across the divide from Morice river. Several local men are on their way to that section, and it is expected the details of the discovery will soon be available.

The railway steel has reached Pleasant Valley.

W. Ellis, the Vancouver lumberman, is in town.

A. C. Aldous returned to Smithers on Tuesday.

F. W. Graham has returned to his ranch near Smithers.

George Scott has returned from a three-months' visit to eastern Canada and Manitoba.

The new ferry is in operation and working well. The approaches are being extended.

R. J. McDonell returned from the coast this week. He was accompanied by his grandson.

E. J. Hill, who has been at Smithers for some weeks, returned to Hazelton on Monday.

Kispiox Notes

Haying in the Valley is finished, with the exception of oats and barley, which are now ripening fast and will be ready to harvest in a few days time.

The potato crop of this Valley will be larger than in previous seasons. Garden truck does exceedingly well, and at the ranch of Hugh Taylor can be seen corn which at the present time is almost ripe, squash, beans, etc., showing that these vegetables can be grown with success.

Jas. McCulley returned this week from a trip to the head of the Valley, where he went in his capacity as fire warden. He reports that things are in a flourishing condition and the Valley free from fires.

Mrs. Thos. Emmerson and child arrived from Victoria last week to join her husband, who has taken up a ranch in the Poplar Park section of the Valley. Mrs. Emmerson is the guest of Miss Wessel while their home is being completed.

H. E. Thompson, another new settler in the Poplar Park section, returned from Hazelton this week, bringing with him a fine team of horses and milch cow which he had shipped from the coast. Mrs. Thompson and son are en route from England to join Mr. Thompson.

This season many new locations have been made, and the Valley is becoming settled rapidly. One drawback is delay in building of the roads.

H. W. Sharpe is kept busy attending to the wants of the settlers, who find his store a great convenience.

An agricultural society is badly needed in this section, and steps are being taken for the formation of one at an early date.

J. E. Dean is erecting a handsome dwelling on his ranch.

Messrs. Thompson, Emmerson and Glassey have completed a four-mile wagon road to their ranches. The building of this road will open up to a large extent the southern part of the Poplar Park section of the Valley.

Murderer Hanged

Nanaimo, Aug. 28: — Henry Wagner, known as "Flying Dutchman," was hanged here today for the murder of Constable Westaway, whom he killed at Union Bay in April, when the officer attempted to arrest him for burglary.

Progress Club Excursion

Vancouver, Aug. 29:—A party of thirty business men will leave here on September 8, under the auspices of the Progress club, for a visit to Hazelton and Smithers.

Tigers Still Lead In Baseball League

"Some ball game" was the unanimous verdict on the last contest between the Hazelton Tigers and the New Hazelton team. The local men won by a score of 7-3, but they had to play great ball to get the verdict. The visitors introduced Johnnie Jennings, late of the Twilight league, as their slab artist, and depended on their battery to win the game. The new pitcher lived up to his reputation, fanning nineteen of the local sluggers, but the team work of the Tigers, who were greatly strengthened by the return of Graham Rock, more than offset the excellent work of the new twirler. Starting off with three runs in the first innings, the Hazelton men held the visitors safe throughout the game, although they did not make many hits.

Aside from the pitching of Jennings, the feature of the game was the great work of Graham Rock, whose generalship behind the bat was admirable, while his steal home in the sixth was the sensation of the game.

Ellis pitched right up to form, allowing only seven hits.

Charlie O'Neill umpired in his usual acceptable manner. He was greatly taken with Jennings' pitching.

RESIGNATION OF HUERTA DEMANDED

Washington, Aug. 27:—In congress today President Wilson personally read his long-delayed message on the Mexican situation. It is three columns in length, and in effect says that the rule of Huerta in Mexico must end. The position taken by the United States government is that there shall be no armed intervention, and that strict neutrality shall be observed. The exportation of arms to Mexico will be forbidden, and under no circumstances will Americans be partizans of either faction in Mexico or umpire between the contestants.

The president desires congress to urge all Americans to leave Mexico at once, and suggests that assistance be given to those who require it. Those who cannot leave the republic will be watched by the Washington authorities, and Mexicans responsible for any suffering or loss to Americans will be held to a definite and certain reckoning.

The United States will require the immediate cessation of fighting, the arrangement of a definite armistice, and an early and free election. Huerta must bind himself not to be a candidate for the presidency. The friendly offices of the Washington authorities will be open to resumption at any time.

Accompanying the president's address was the Huerta government's reply rejecting the American proposals.

A Postal Innovation

Ottawa, Aug. 27:—Postmaster-general Pelletier has decided that in future Canada is to have bilingual postcards, printed in English and French. This is a new departure in postal policy.

Paying Canada's Debts

Ottawa, Aug. 28:—The government loan of $80,000,000 which matures on October 1 will be paid off. This loan bears four per cent. interest, being the last one at that rate.

RIOTERS SENT UP FOR TRIAL

J. T. Place, Socialist M. L. A., Among Those Committed at Nanaimo---Others Held

HEAVY LOSS TO STRIKERS

Flooding of Mines Likely to Result in Prolonged Closing of Coal Mines on Vancouver Island---No Further Disturbances in Mining Towns

Nanaimo, Aug. 27:—Twenty-five prisoners charged with participating in the recent disturbances have been committed for trial on a charge of rioting. They will be held in Victoria jail to await arraignment at the assizes. Seven cases have been withdrawn by the prosecution, leaving J. T. Place, M. L. A., and a large number of others awaiting their preliminary hearings. On the long march from the jail to the courthouse, friends of the prisoners threw fruit and cigars over the bayonets of the soldiers to the accused men. The court announced that a repetition of this would not be permitted.

Nanaimo, Aug. 29:—Among the prisoners committed for trial yesterday was J. T. W. Place, the socialist member of the legislature for Nanaimo. He is charged with having in his possession a revolver stolen from a police constable. The weapon was found in Place's house. He stated it had been given to him and that he kept it, intending to show it to the attorney-general as an example of the arms brought into the district.

The situation continues peaceful.

Nanaimo, Aug. 25:—The Western Fuel Company's mine, to which the city has owed much of its prosperity, is being flooded to extinguish the fire which has been raging in the workings, and which could not be checked because of the strike. It is estimated that the mine cannot be reopened for work within two years, if the flooding is completed. The miners, it is said, are losing a quarter of a million a month as a consequence of the closing of the various coal mines.

Kildare's New Charter

A Dominion charter has been granted to the Kildare Mines, Ltd., which owns the noted Kildare property on Slate creek, in the Manson camp, and which recently purchased the adjoining leases of the Otterson-Huderle company. The company has a capitalization of $1,000,000, and is granted all the usual powers given to a mining corporation. The directors of the company, which has its head office in Ottawa, are: W. G. Bronson, lumberman; W. J. Woods and Ernest Linton, manufacturers; T. C. Bate, merchant; J. D. Courtenay, physician. All are well-known residents of the capital. George W. Otterson, the hydraulic mining engineer, who has been so prominently identified with the renewal of activity in the Manson district, is general manager. A force of miners is engaged in the development of the company's properties, which promise rich returns.

A Rumor Denied

London, Aug. 27:—It has been reported that Prince Arthur of Connaught would succeed his father as governor-general of Canada. This is officially denied.

The Omineca Miner

PUBLISHED EVERY SATURDAY AT HAZELTON, THE CENTER OF THE GREAT OMINECA DISTRICT OF BRITISH COLUMBIA.

Macdonald & Rauk, Publishers and Proprietors.

SUBSCRIPTION RATES: Canada and British Possessions, Two Dollars a year; Foreign, Three Dollars a year.

ADVERTISING RATES: Display, $1.50 per inch per month; Reading Notices, 15 cents per line for first insertion, 10 cents per line for each subsequent insertion. Legal notices inserted at B. C. Gazette rates.

VOL. II. SATURDAY, AUGUST 30, 1913. No. 52.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

But a short time remains for the preparation of the ore exhibit which is to be sent from Hazelton district to Prince Rupert exhibition, and it behooves the mining men to see that every property is represented in the display. The Hazelton board of trade is working in conjunction with the newly-formed mineowners' association, and their efforts, backed by those most concerned, will result in the exhibition at Prince Rupert of a display of ore which will easily carry off the chief awards.

It is probable that the exhibit, after the close of the Prince Rupert fair, will be placed in the permanent exhibition of the Progress Club, in Vancouver. The board of trade has engaged space for a large display of ores and other products of this district, and it appears to be the general desire that the exhibit now in course of preparation should be included.

Every miner and prospector who has good ore should see that specimens are included in the Prince Rupert display, not only for the prizes his ore may win, but also to give visitors to the fair an adequate idea of the immense mineral resources of this district.

An estimate of the coal reserves of the world is given in the summary of the mammoth three-volume report presented at the Geologists' Congress at Toronto by Secretary R. W. Brock and the special committee appointed to study the resouces of the world's coal supply.

The report shows that America has the most coal of any of the five continents. Of the dwindling visible supply of hard anthracite, however, Asia has far the largest supply. Following is a table showing at a glance just how the world at large stands for coal in the second decade of the twentieth century. These figures include totals for the three classes of coal, figures for each of which are given in the report, the three classes comprising anthracite, bituminous and sub-bituminous, brown coals and lignites. The figures represent the number of million tons:

	Anthracite	Total
America -	22,542	5,105,528
Europe -	54,346	784,190
Asia - -	407,637	1,279,586
Africa - -	11,542	57,839
Oceanic -	659	170,410
Total -	496,846	7,397,553

The report also gives interesting figures concerning the coal production covering the period since 1865 to 1910. Coal mining figures were not available, however, for Australia, New Zealand, South Africa, or Canada until 1895. The United States is the greatest coal mining country, producing over 445,810,000 tons. Canada in 1910 produced 14,010,000 tons, about three times as much as in 1895.

Great Britain produced 264,500,000 tons, and Germany, the next producer, mined 221,980,000. The next coal producing country is France, with only 38,570,000 tons in 1910.

China has the bulk of the remaining hard coal, being credited with 387,464,000,000 tons in reserve, and 607,523,000,000 of bituminous.

Of the American continent's reserve Canada has 2,158,000,000 tons of anthracite, or 1,234,769,000,000 of all three classes; the United States has 19,684,000,000 tons of anthracite, or 3,838,657,000,000 altogether; Newfoundland with no anthracite, has 500 million tons of bituminous, and Central Africa five million tons altogether.

In the analysis of the American supply, actual and probable, Nova Scotia, Alberta, and British Columbia are credited with the main supply for Canada. The total "actual," "probable" and "possible" coal reserves of all qualities for the entire world is set down at 7,397,553. Of this estimate, 5,105,528 millions are credited to America, including both North and South continents, to Asia 1,270,586 million, Europe 784,190 million, Oceania 179,410 million, Africa 57,839 million.

The Canadian Government is said to have paid out $50,000 on new surveys for information to be incorporated in this report. Russia sent enough original information to fill a separate volume, as did Japan. These reports were furnished at great expense by the governments concerned.

The co-operation of the different governments of the world with the Geological Congress alone made the monumental report authoritative and possible. The total cost of its preparation would amount to half a million dollars. The maps alone cost nearly $20,000 to publish, while the publication of the report it is said will approximate $15,000 for 3,000 sets.

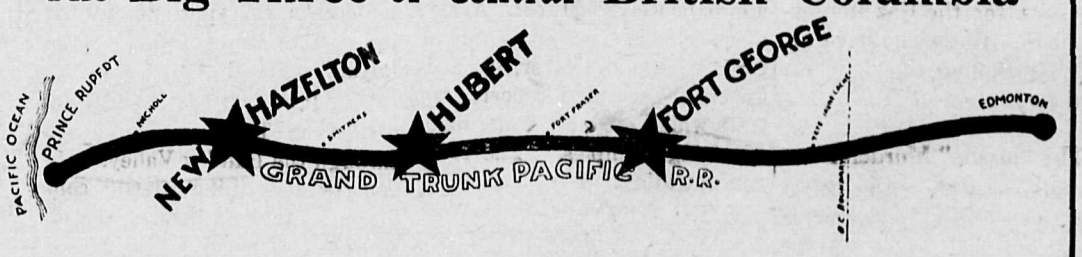
Watch for the Big Opening Announcement

HUBERT

The Big Three of Central British Columbia



YEARS ago, when the main line of the Grand Trunk Pacific was first located through central British Columbia, we made a most careful and systematic survey and investigation of this new territory. Aided by engineers, surveyors and the immense amount of data assembled, we were able to locate the sites of the future large cities and trade centers of this wonderful new country---Fort George, Hubert and New Hazelton. Fort George, the first of these new cities promoted and developed by us, needs no introduction---it is known throughout the civilized world. Its success has been record-breaking---it is sure to develop into one of the big cities of British Columbia.

Fort George conclusively demonstrated the accuracy of our judgment. Hubert, the second of these new cities, will soon be placed on the market. Back of the development and promotion of this new city will be the same organization, the same management and the same careful and systematic development, and a like amount of liberal advertising that placed Fort George in the front rank of the new cities of Western Canada.

FACTS ABOUT THE NEW CITY OF **Hubert**

HUBERT

The new city of Hubert is located in the heart of the Bulkley Valley at its widest part. It is on the main line of the Grand Trunk Pacific Railway, and is the center of a large and proved agricultural district, surrounded by an enormous field of bituminous coal, a delightful climate and sure market for all products; three miles east of Aldermere; townsite now being cleared and roadways opened. It will have a substantial population from the start. Watch for the big opening announcements. A few tracts of acreage adjoining townsite, suitable for subdivisional purposes, for sale.

Two railway employees were killed and one seriously injured by the explosion of an engine at Moberly, B. C.

In an effort to force a settlement of the Adrianople question, the Turks continue the war against Bulgaria. They have taken several towns.

Public prayers for rain are being offered in Kansas and Missouri, where drought has prevailed for three weeks.

The exploring ship Karluk, with the Stefansson expedition on board, was damaged by being crushed in the ice off Point Barrow. She may have to be unloaded.

Lord Strathcona will resign the position of high commissioner for Canada next year, when he will be ninety-four years old. Clifford Sifton may be his successor.

Martin H. Glynn, lieutenant-governor of New York, has been officially recognised as governor, in place of Sulzer, the impeached governor. The latter refuses to vacate the executive chambers.

A mob of fifty Doukhobors at Grand Forks attacked provincial police who attempted to arrest one of them on suspicion of murder. The officers were compelled to abandon the suspect.

Great damage was done by an electrical storm in St. Paul and Minneapolis.

Bandits fired ineffective shots at King Charles and Queen Elizabeth of Roumania.

Vancouver merchants are organizing to secure the Shushanna business.

Fifty miners were killed in the Mysore gold mine, at Bangalore, through the falling of a cage.

It is alleged an attempt was made to blow up the office of Mayor Gaynor, of New York.

Mrs. Evelyn Roberts, an Englishwoman, is cycling across Canada, from Nova Scotia to Vancouver.

Under the hall where Ladysmith strikers held their meetings, the militia found 24,000 rounds of ammunition.

A seismograph station is to be established at Prince Rupert by the Dominion government, to record earthquake shocks.

Three hundred dollars a day to the man is the reported yield of gold from the discovery claim at Shushanna.

The C. P. R. has placed an order with Scottish shipbuilders for two large steamers for the Pacific coast service. They will will be the largest coasters on the Pacific.

Canadian trade reached its high water mark last month, when the returns were slightly over one hundred million dollars. This was nine millions of an increase over July of last year.

The Indian forces are to be augmented by the organization of a flying corps, It is believed aeroplanes will prove of the greatest value in checking raids and incursions by border tribesmen.

Because of the reckless and improvident methods of American fishermen, resulting in the depletion of international waters, Hon. J. D. Hazen has intimated that Canada will withdraw from the fisheries treaty with the United States, unless congress passes the recommendations of the international commission next session.

Sir Francis Fox, the noted English engineer, speaking of the project for a tunnel under the English Channel, said that such an undertaking would be an incalculable boon to both France and Great Britain commercially and presented no dangers from a military standpoint that could appeal to an intelligent man at this day. From the engineering aspect it promised no difficulties, and there was every reason to suppose it would be profitable commercially.

INTERIOR ORE FOR PRINCE RUPERT FAIR

Prince Rupert, Aug. 25:—Every assurance is being given by the management of the Prince Rupert Exhibition that the display of agricultural and horticultural products of the new north will be on a worthy scale, and that there will be active competition from several districts to land the handsome sterling silver challenge cup donated by M. M. Stephens for the grand district display of fruits, vegetables, grains and other products of the field and orchard. This handsome trophy stands fourteen inches high and is in the nature of a loving cup with artistic stag-horn handles. It is to become the property of the district winning the first prize two years in succession, or at any three fairs. To this prize is also added another magnificent silver challenge cup, 18 inches high, presented by L. Bullock-Webster, the hard-working secretary of the Northern British Columbia Agricultural and Industrial Association, under whose auspices the fair is to be held. The second cup is offered for the best district collection of vegetables and is to be competed for on similar lines to Mr. Stephen's cup. These two trophies, together with hundreds of dollars of cash prizes, will doubtless stimulate Farmers' Institutes to put forward their best efforts to properly present the resources of their respective localities.

A BIG EXHIBIT FOR PRINCE RUPERT FAIR

It has been found advisable to to forego the Bulkley Valley fair this season. The large crops have kept the farmers of the district busy, while other citizens who took an active part in the promotion of last year's successful exhibition are all engaged in furthering the development of Smithers and the district generally. It has therefore been decided that all exhibition efforts for this year shall be concentrated on a large and representative display of agricultural products and ores for the Prince Rupert fair, which takes place September 24 to 26.

A representative exhibit from this district at the Rupert show will undoubtedly attract a great deal of favorable attention, and should prove a means of bringing many new settlers to join those who are flocking into the Bulkley Valley.—Review

Premier in London

London, Aug. 28,—Sir Richard McBride, premier of British Columbia, is now in London. He is giving his first attention to the arrangements for the building of the new offices for the western province, on a fine site in Regent street. Interviewed by a number of journals, he said that British Columbia was behind the Borden naval policy, as were Canadians generally, and that it would be carried through.

Geologists on the Way

Vancouver, Aug. 29:—A party of fifty geologists, from the international conference at Toronto, sailed north at midnight. Many, if not all of the party, will visit Hazelton, to see the interesting geological and mineralogical features of that big distrct.

Big Steamer Damaged

New York, Aug. 28:—The Imperator, the world's largest ship, was damaged by fire while in dock here today. Panic ruled among a thousand steerage passengers. One officer was burned to death and another seriously injured. The steamer will sail on Saturday, as scheduled, and will make repairs at sea.

Toronto, Aug. 25:—From the way Rt. Hon. R. L. Borden spoke of this approaching session of the Commons this morning there is every likelihood of the Dominion Parliament being called between October 15 and November 1. "I can't say," was his laconic reply to a question as to the probability of an early session.

One Big Navy

Auckland, Aug. 23:—Welcomed on his return from Great Britain, Sir Joseph Ward was assured that even his opponents had come round to discredit the idea of a small "baby" navy for New Zealand. In his speech he said he hoped that the question of the defense of the Empire would be kept clear of party politics. In his opinion the vast majority of the people believed that the solidarity of the Empire meant the solidarity of the British Navy. There was only one thing that could keep us secure, and that was a navy so strong that no combination would attempt to attack it.

BULKLEY VALLEY FARM LANDS FOR SALE
THESE LANDS are located close to the main line of the Grand Trunk Pacific Railway, which is being constructed through the heart of the Bulkley Valley, one of the best farming districts in British Columbia. Steel is now laid through Telkwa, and trains will soon be running from Prince Rupert to this point. There are good roads to all parts of the Bulkley Valley from Telkwa.
The Bulkley Valley is an ideal dairying and mixed farming district, with a market for all kinds of farm produce.
We own all the land we offer for sale, and can give a guaranteed title. Our lands were all very carefully selected several years ago by experts in the land business. We sell in tracts of 160 acres or more.
Our prices are reasonsonale and terms are easy. Write for full information to

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Jetty and Dredging at the North Arm of the Fraser River, B. C.," will be received at this office until 4.00 p. m., on Tuesday, September 30, 1913, for the construction of Jetty and Dredging at the North Arm of the Fraser River, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B. C.; W. Z. Earle, Esq., District Engineer, Winnipeg, Man.; J. S. MacLachlan, Esq., District Engineer, Victoria, B. C.; J. L. Michaud, Esq., District Engineer Post Office Building, Montreal, P. Q.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and place of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to five per cent (5 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS
Secretary
Department of Public Works
Ottawa, August 18, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.—45074.
