TIGERS BEAT RUPERT TEAM

Hazelton Ballplayers Win Two Saturday Games -- Large Crowds Attend Exhibition

The Tigers went to the coast last week and took the measure of the Rupert balltossers, winning two games out of three in an exhibition series. As noted in our last issue, the first game, on Friday evening, went to Prince Rupert by a score of 7-6. It was a fine exhibition, and was witnessed by a large crowd. Sinclair pitched for Hazelton.

In the second game Graham Rock pitched for the champions, Taylor having arrived to catch. The Tigers' captain held the home team safe throughout the game, allowing but six hits, and striking out nineteen. Hazelton batted out 21 runs, against three for Prince Rupert.

The third game, on Saturday evening, drew the largest crowd of the series, and was a regular slugging match. Doc Rock pitched for Hazelton, and the visitors got a big lead early in the game. The Rupert men put up a game fight, but could not overtake the champions. The score was 17-14. The weather was good and the average attendance was over one thousand.

On Sunday, W. Wright, Bud Corley and Geo. Sweet entertained the visitors on a launch trip around Kaien Island. These and other Rupert people gave the Tigers a good time, and the boys enjoyed the trip to the utmost.

MINING OPERATORS TO BEGIN WORK

Among today's visitor's in Hazelton are A. H. Bromley, of London, England, and Harry Carpenter. Mr. Bromley is the new superintendent of the Hudson Bay Mountain Mining Co., which purchased the Silver Creek group, near Smithers. He will proceed to the property in a day or two, to prepare plans for development.

PREDICTS REBELLION IN BRITISH INDIA

Manila, June 8:—A revolution in India was predicted by G. D. Kumar, who has just returned from Hongkong, if Hindus are excluded from Canada.

Kumar, representing the Kumagaters, an organization of Manila Hindus, made a tour of Asia to investigate the situation, and on his arrival here sent the following cablegram to Premier Asquith, Premier Borden of Canada, and Baron Charles Hardinge, Viceroy of India:

"A revolution will start in India if Hindus are not allowed to land at Vancouver."

The cablegram was signed: "The Hindus of Manila."

Kumar declared he found the Hongkong Hindu regiments and the Singapore Hindu battalions ready to revolt, and asserted that all the Hindus of the Far East were resentful over the proposed exclusion.

Hazelton to Have A Methodist Church

Hazelton is to have a Methodist church. Rev. John R. Hewitt, who arrived on Wednesday, is to have charge, and the old Union Bank premises are to be converted to church uses. Rev. Mr. Hewitt is a graduate of Manitoba University. He hopes to hold the opening services on Sunday, June 21.

New Placer Outfit

Wm. Moore and J. Gordon McLaren, who recently acquired gold placer ground on the Little Omineca river from J. T. Bates and associates, outfitted in Hazelton this week, leaving yesterday for the goldfield, with a drill and supplies, to prospect their ground.

Entrance Exams Here

The Hazelton public school will close for the summer vacation on June 26. For the first time, high school examinations will be held here, on June 22, 23 and 24. The annual school meeting will be held during the second week in July.

STORSTAD HELD BY COURT

Montreal, June 8:—The Norwegian collier Storstad, which rammed and sank the liner Empress of Ireland in the St. Lawrence is still in Montreal, an impatient prisoner of the Admiralty Court of Canada.

Captain Anderson is anxious to get the steamer to a drydock for repairs preparatory to resuming her coal carrying business, but a bailiff is in possession, and the captain must wait till the court accepts a bond for more than \$300,000 in connection with the C. P. R. Company's action against the Storstad's owners for \$2,000,000 damages.

The coroner's jury at Rimouski adjourned for an indefinite period pending the investigation of the Empress disaster by Lord Mersey and his fellow commissioners.

Sixty unidentified bodies at Quebec were placed in the vaults of St. Charles Cemetery. Six of the bodies are those of children, ranging from a six-months-old baby to a girl of eight or nine years of age.

"Jock" Has Disappeared

Vancouver, June 8:—C. J. McQueen, the young bank clerk who was wounded in the first holdup of the Union Bank at New Hazelton, and who has been on the staff of the main office here since leaving the hospital, has not been seen for ten days, and his friends are greatly worried by his disappearance. He was in no difficulties, and no reason is known for his disappearance, unless the robber's bullet, which had not been extracted from his head, affected his mind. His books are in perfect order.

C. N. R. Bill Passed

Ottawa, June 10:—The bill to render assistance to the Canadian Northern Railway, in return for which the Dominion is to be safeguarded by concessions on the part of railway has passed in the Senate.

Local and District News Notes

Forester Allen is in Prince Rupert this week, on departmental business.

Rev. C. E. Batzold, of Smithers, was a visitor in Hazelton on Wednesday.

Mr. and Mrs. R. O. Miller, of Smithers, were visitors in Hazelton on Monday.

W. Young, the carpenter, left on Monday for a trip to the prairie provinces.

Walter Borns, who has been visiting his ranch, returned to Hazelton this week.

B. R. Jones returned from Prince Rupert to Skeena Crossing on Wednesday's train.

H. G. Bamford, of Vancouver, representing Bradstreets, was here early in the week.

The Union Bank is removing from its old premises to the larger building on the corner.

Frank Allen, of New Denver, is a guest at the home of his brother, R. E. Allen, the district forester.

Dr. Badgero, the popular dentist, is coming to Hazelton on Tuesday next, and will remain here for a week or two.

Graham Rock, proprietor of the Galena Club, has installed an American billiard table in his poolroom.

Mr. and Mrs. J. McDougall and family arrived from Rock Bay on Wednesday, to make their home in Hazelton.

Louis Knauss commenced work on his Fiddler creek property recently. He is driving a long drift tunnel on the ore.

Joe Miller and Bert Schofield are driving a tunnel on the Brunswick group, which adjoins the Red Rose on Rocher de Boule.

Negotiations are in progress for the holding of the annual picnic of Skeena District Conservatives at Hazelton next month. A committee of the Conservative Association is working in conjunction with the Athletic Association on the preliminary arrangements.

Billy Thompson has a gang of men clearing brush and down timber along Rocher de Boule power plant line on Juniper creek.

Mrs. H. G. Smith, of Smithers, was brought to the Hospital yesterday. Dr. Maclean accompanied the patient from the Valley town.

Several dogs have been poisoned in Hazelton lately. The police have grave suspicions of the culprit, and hope to secure a conviction.

G. H. Fisher, a member of the Bank of Vancouver staff at Fort Fraser, spent a couple of days here this week, on his way to Vancouver.

Miss Vera Peel, who has been visiting here uncle and aunt, Mr. and Mrs. R. S. Sargent, left on Thursday for her home in Grenfell, Sask.

R. G. McConnell and party left this week for the Telkwa district, where they will begin their season's work for the Dominion geological survey.

R. J. Rock, manager of the baseball team, is in communication with the Fort George ballplayers, and hopes to arrange a couple of games with them.

The new plant for the Hospital has been received, with the exception of the X-ray apparatus, which is to be shipped as soon as the generator is installed.

F. W. Glover and party started yesterday for Groundhog, to conduct a reconnaissance survey east from that point, for the Pacific, Peace River & Athabasca Railway.

Robert Marion, the Chicken Lake rancher, who was in Hazelton on Monday, states that crops in the Bulkley Valley never looked better. His apple trees are doing remarkably well.

what I have seen of the minerals of the district, I have formed a high opinion of its mineral resources, and have no doubt the display of your ores which will be made at the fair will result in benefitting the province and district."

Mr. Thomlinson accepts three classes of specimens. For the exposition, he desires typical samples, in size about 6x8x5 inches, or bench samples, which may run from 100 pounds upwards. For the provincial government collection smaller samples will be acceptable. Every sample should be accompanied by full data.

The government will pay freight charges on all samples accepted. Government Agent Hoskins is supplied with shipping cards, and arrangements will also be made for the handling of samples at Smithers. All samples should be brought in within six weeks.

Will Step Down When Peace is Declared

Niagara Falls, Ont., June 6:—No strings are attached to General Huerta's promise to resign the Mexican presidency as soon as his country is "politically pacified." His delegates to the mediation conference took occasion today to say publicly that he does not intend to hide behind any technicalities.

A statement issued by Mr. Rabasa, the ranking member of the Huerta delegation, tonight says of Huerta's offer to withdraw:

"The object in view is peace. The condition is that that object shall have been achieved. If an agreement ensures that end, the condition is as well fulfilled by it as by any other means."

The American delegates met today with the mediators, but consideration was only given to questions that arose before the matter of Constitutional participation became the important issue. It is said that some progress was made.

PROPOSED NEW ALIEN LAW

Ottawa, June 8:—A bill to amend the Immigration Act and which proposes to exclude from Canada all Asiatics south of the fiftieth parallel of latitude was introduced in the House of Commons this morning by H. H. Stevens, member for Vancouver.

The fiftieth parallel of latitude north is nearly the northern boundary of the Chinese Republic, so that Russia in Asia would be excluded from the operation of the proposed amendment. Japan would be exempt, as there is an agreement between Canada and the Island Empire with regard to immigration at the present time. It would mean the total exclusion of immigrants from China, India, the Malay States, Persia and Turkey in Asia. It is understood that the Chinese Government is quite willing to enter into an arrangement similar to that with Japan, and if this amendment were passed it might open the way for negotiations with India along the same lines, thus solving this vexatious problem.

Mr. Stevens, in introducing the bill, pointed out that Canada had had great deal of difficulty for years dealing with the problem of Asiatic immigration. At present there were three methods in vogue. First, there was immigration with Japan, this being controlled by an arrangement between the two countries. Second, there was Chinese immigration. There was a head tax on Chinese of \$500. Third, the Hindu immigration was controlled by means of a clause in the act which declared that immigrants must come by direct route from their native land.

Mr. Stevens said for some time this last method had fairly successfully controlled immigration from India. However, there was much dissatisfaction. It was recognized as a temporary arrangement. There was a strong demand from British Columbia that

SUFFRAGETTE BOMB IN ABBEY

Militants Perpetrate Serious Outrages--General Feeling Of Indignation

London, June 12:—A suffragette bomb exploded in Westminster Abbey today.

London, June 8:—Another demonstration by a militant suffragette in the presence of King George and Queen Mary was carried out at the international horse show at Olympia today. Their Majesties had hardly taken their seats when a young woman rose in the stalls opposite and in a shrill voice screamed denunciations of the forcible feeding of suffragette prisoners. The police pounced upon her immediately, but the woman fought wildly and her ejection from the building was effected only after a fierce struggle.

Later in the day two women at opposite ends of the arena harangued the royal box and made appeals to the King to stop forcible feeding. Angry shouts were raised by the crowd as the suffragettes were ejected.

"No peace for King George or Queen Mary" is the latest order given out by the headquarters staff of the militant suffragettes.

London, June 8:—Recent discourtesies shown by militants to the King, and the burning down of many churches have inflamed public opinion to a remarkable degree. People have been still further incensed by what is regarded as the well-grounded belief that much of the work of destruction is done by hired hands, well paid out of the bulging coffers of the Women's Social and Political union. Cases have been learned of women leaving other employment to join the militants, not from love of the cause, but because the pay is better.

London, June 9:—It is reported the government intends to introduce legislation to indemnify prison authorities against the legal results which follow from letting women die of starvation while in prison.

the government should take some definite and final action. Objections, he said, to exclusion were based on the desire not to offer any offence to the people of other countries. In this sentiment he concurred, but it had recently been demonstrated that it was necessary to choose between the lesser of the two evils. They would have to decide whether they were to cause offence to these people or admit immigrants unrestricted to the shores of Canada. There were, in addition, imperial considerations. Mr. Stevens said he held the opinion that Canada or any of the overseas Dominions should have the right to control immigration to its shores.

VOL. III. SATURDAY, JUNE 13, 1914. No. 41.

Rather than introduce contentious legislation in the closing days of the session, the federal government has postponed action on redistribution until next session. The committee on redistribution, on which the opposition was well represented, had agreed upon plans for all constituencies except one in Eastern Ontario, and many Liberals, realizing that they had been treated more than fairly, made strenuous efforts to have the Liberals on the committee accept the report, but without success. There is no election in immediate prospect, and the delay will do little harm.

The plans for British Columbia provide two constituencies for Vancouver, being Vancouver Center and Burrard; one for Victoria, one for Nanaimo and vicinity, running south to within a few miles of the provincial capital; and one for Alberni and the north end of the island, also including Squamish on the mainland and the settlements along the various inlets north from Squamish as far as Rivers Inlet.

A sixth constituency will be Vancouver south, comprising South Vancouver and Point Grey. A seventh will be New Westminster city, Burnaby and Richmond, with another for Delta, Langley, Surrey, Chilliwack, Maple Ridge and other districts of the Lower Fraser Valley.

With the south end of the present constituency of Comox-Atlin forming a separate riding, the north end is to be made a distinct electoral district as well. It will be called Rupert, and will include Prince Rupert, Hazelton, Bulkley Valley, Stewart, Atlin and other districts of the north.

Yale-Cariboo will be divided by an east-and-west line running south of Kamloops, but north of Vernon. This will place Kamloops, Ashcroft, Lillooet, Clinton, Fort George and the Cariboo and Peace River districts in the new federal riding of Cariboo, leaving the Nicola, Similkameen and most of the Okanagan in Yale, this constituency also including the district near Hope, Yale and Lytton.

Kootenay will be divided by a north-and-south line into East and West Kootenay, the division being probably near Kootenay Lake, leaving such points as Nelson and Revelstoke in West Kootenay and Cranbrook, Golden and Fernie in East Kootenay.

The redistribution, it will be remembered, is to provide thirteen seats for British Columbia, as against seven at present.

ROCHER DE BOULE MINES

Roughly speaking, the Rocher de Boule mining district comprises a horseshoe form of mountains surrounding Juniper creek, which flows into the Skeena river at Skeena Crossing, on the line of the Grand Trunk Pacific Railway, 164 miles easterly from its terminus at Prince Rupert. The railroad after passing through Skeena Crossing skirts the outside edge of this horseshoe, passing Hazelton and New Hazelton 16 and 20 miles further east.

Into the center of this horseshoe the government of British Columbia has constructed, at heavy expense, a wagon road following the grade of Juniper creek for a distance of nine miles, which road passes through a district heavily timbered in spots with spruce, balsam, hemlock, cedar and some cottonwood, tapping enroute about 30 prospects and at least six properties which are now undergoing active development.

The formation of the Rocher de Boule district is what is known as a dioritic granite overlaid in spots with a shallow coating of quartzite. The veins of the district are typical fissures, noted for their persistence with strike, one vein in particular being traceable for a distance of three miles.

The main mine of the district is that of the Rocher de Boule Copper Company, which has been opened up with over 1200 feet of underground workings, disclosing at least four definite pay shoots on one vein, the average values in gold and silver running from \$3 to \$8, the copper contents running from 8 per cent to 30 per cent. The average

shipping ore will run about \$4.50 in gold and silver and 15 per cent copper. There has been opened up in the neighborhood of a million dollars worth of ore in this one vein alone.

The surface cropping of this vein, with one exception, was a typical brown oxidized gossan, which in less than 50 feet of depth changed to a clean chalcocopyrite ore with values as before mentioned. This vein is opened up with open cuts on the surface, and by tunnels, both crosscut and drift, and shafts and winzes at depth. This vein runs with the mountain on its side and dips into the mountain at an angle of approximately 60 degrees.

Below this vein are three other veins which have only been partially opened up on the surface and at depth. The lowest vein consists in reality of two veins laid down at separate intervals of time, the one being a quartz vein carrying an average copper content of approximately 5 per cent copper for a width of about 6 feet, and the other vein being a galena and grey copper vein, width 1½ feet, and in places running as high as 40 per cent lead, 220 ounces silver and 25 per cent copper.

These two lower veins have been opened up from the surface by open cuts and drift and winze, and at a depth by a crosscut tunnel 185 feet in length, with short drifts on the vein from the end of this tunnel.

The upper vein of this property is at present under lease to the Continental Development Company, of Butte, Montana, who are installing a 300 h.p. hydro-electric plant on Juniper Creek, power line to power plant

at the base of the hill, surface tram to workings and surface, and aerial trams for transportation from the main working tunnel over the hill of the horseshoe direct to the railroad at Carnaby, which point is six miles east of Skeena Crossing.

This immense undertaking will probably be completed by July 15th, 1914, and will cost the Continental Company approximately \$90,000.00. The capacity of the tramway will be about 300 tons daily. Chalcocopyrite.

Prince Rupert Exhibition

Prince Rupert, June 8:—The Northern British Columbia Agricultural and Industrial Association is making great preparations for this year's exhibition, which will be held at Prince Rupert on September 30, October 1 and 2.

Plans for a magnificent building 200 feet long by 100 feet wide have been got out by Mr. J. Gilmore, an architect who has lately taken up his residence in Prince Rupert. This building is to have 10,000 feet of floor space available for this year's exhibition, in addition to the balconies.

The directors are at the present time in negotiation with a New York firm for the engagement of experts to give flying displays on the newest form of aeroplane.

Great interest is taken locally in the work of a young citizen (Mr. F. Bruland), who intends to fly in a machine made by himself. It will be remembered that last year Mr. Bruland was awarded first prize in class 27, section 10, for the model of an aeroplane built by himself.

The question of engaging a lady parachute performer, for a balloon ascension is also under consideration.

Amongst the other attractions the directors are hoping to secure Boyd & Ogle's circus company, which includes 150 performing animals. The best known turn in this performance is King Pharaoh, "the human-brained pony."

Arrangements are being made with the railway and steamship companies for the convenience of those coming from distant points.

A large silver cup is being offered for the winning baseball team, and another for the best football team. Both of these events are open to all comers from northern British Columbia.

There are to be rifle shooting contests and also trap shooting at clay pigeons.

Traces of Andre

Stockholm, June 8:—What is believed to be the remains of the balloon in which Prof. Andre ascended from Dane's Island, near Spitzbergen, July 11, 1897, in an attempt to reach the North Pole, have been found in a forest in Eastern Siberia, according to a telegram received from Yakutz. Investigation of the reported discovery has been ordered by the government.

Andre and two companions, Messrs Strindberg and Fraenkel, started from Dane's Island in the hope of being carried by trade winds to the North Pole. The explorer believed the steady current would take him into the polar regions in a week, carry him over the pole and land him in North America. Five buoys from the balloon have been picked up.

Many searching expeditions have returned unsuccessful.

Oranges and bananas at Sargent's.

LAND NOTICE

Hazelton Land District. District of Cassiar.
Take notice that I, Charles A. Loney, of Prince Rupert, B. C., occupation engineer, intend to apply for permission to purchase the following described lands:
Commencing at a post planted 40 chains west of south-east corner of Lot 833, Cassiar District, thence west 20 chains, south 40 chains, east 20 chains, north 40 chains, to point of commencement, containing 80 acres more or less. Dated, March 11, 1914.
M-37 Charles Arthur Loney.

BULKLEY VALLEY FARM LANDS FOR SALE

THESE LANDS are located close to the main line of the Grand Trunk Pacific Railway, which is being constructed through the heart of the Bulkley Valley, one of the best farming districts in British Columbia. Steel is now laid through Telkwa, and trains will soon be running from Prince Rupert to this point. There are good roads to all parts of the Bulkley Valley from Telkwa. The Bulkley Valley is an ideal dairying and mixed farming district, with a market for all kinds of farm produce. We own all the land we offer for sale, and can give a guaranteed title. Our lands were all very carefully selected several years ago by experts in the land business. We sell in tracts of 160 acres or more. Our prices are reasonable and terms are easy. Write for full information to

The World's Doings in Brief
News Notes from Many Sources

Tampico port is blockaded by Huerta's gunboats.

Helena, a town in Ohio, was destroyed by a tornado.

Nome roadstead is now free of ice and steamers are making calls there.

The hotel at Sechelt, a summer resort thirty miles from Vancouver, was burned last week.

The steamer Alliance, 4000 tons, has passed through the Gatun locks of the Panama Canal.

The schooner Emma E. Thompson was burned on Georgian Bay. The crew of twelve escaped.

It is claimed that French naval officers have perfected wireless telephony, talking over 150 miles.

British Columbia's fruit crop this season is expected to exceed that of last year by 25 per cent.

Two schooners were wrecked and nine fishermen drowned in a storm off the New Brunswick coast.

The historic church of St. Mary's, three miles from Henley, England, was burned by suffragettes.

Transatlantic steamers are being forced out of their course by large ice floes north of the Grand Banks.

Both houses of parliament have passed the bill providing for additional bond guarantees for the G. T. P.

The value of silver and cross foxes exported from Saskatchewan this season is estimated at \$170,000.

Striking workers in Sicilian sulphur mines destroyed considerable property. Troops have been sent to quell the riots.

The Palace hotel in South Fort George was burned on Friday of last week. Two men lost their lives and others narrowly escaped.

The government investigation into the wreck of the Empress of Ireland will begin on June 16, with Lord Mersey as chairman.

A suffragette attired in court dress passed the police guard and attended court at Buckingham palace, causing a sensation by addressing the King.

A loan of \$25,000,000, at four per cent, has been underwritten in London by the Dominion government. The proceeds are for public works and railways.

Rene Viviani, former minister of public instruction, is the new premier of France. He has included seven members of the Domergue government in his cabinet.

Admiral Scott, of the British navy, declares that in future there will be little use for battleships, submarines and aeroplanes having entirely revolutionized naval warfare.

On the ground that the defunct Farmer's Bank should not have been permitted by the late government to do business, parliament passed a bill providing \$1,200,000 to reimburse depositors. The senate killed the bill.

It is officially stated that the appointment of a high commissioner for Canada will not be made until after the return of

Hon. G. H. Perley, who has sailed for England to discuss Canadian affairs with the Imperial authorities.

A London report says Sir Edward Grey has notified President Wilson that if General Villa should become president of Mexico, the British government would demand and exact satisfaction for the murder of William Benton, a British subject killed last February by the Constitutionalists.

To Help Prospectors

(J. S. B. in The Chalcopyrite)

It takes money to buy assay certificates, and if there is any one thing more than another which the prospector lacks, it is cash. If he be fortunate enough to have a steady job during the winter, he can, by economy save enough money to provide himself with food, clothing, tools, transportation and other equipment necessary for his summer's work, but that is about his limit. If he be diligent and observing he will while exploring a new district, encounter many forms of mineral of more or less value, and it is reasonable to assume that during his season's operations he will have picked up forty to fifty samples of mineralized material which invite investigation, the greater number of which he regretfully throws aside, because unable to meet the cost of assaying.

Fifty samples tested at the going rates in this part of the world would cost him at least one hundred and possibly two hundred dollars, thus entailing an expense which he cannot meet, and accordingly he gives serious consideration only to the few commoner forms of ore with which he is familiar, and passes up many of far greater importance and value. The only remedy for this great handicap to the miner and through him to the mining industry as a whole, is a government assay office, which will test ore samples free of charge or at a nominal cost.

Take notice that Charles Hicks Beach, of Hazelton, B. C., occupation general agent, intends to apply for permission to purchase the following described lands:
Commencing at a post planted at the northwest corner of Lot 349, Range 5, Coast District, and being the northeast corner of the land applied for, thence west 20 chains, south 40 chains, east 20 chains, north 40 chains, to point of commencement, and containing 80 acres more or less.
Charles Hicks Beach.
April 24, 1914.

Smithers Notes

(From Thursday's Review)

The Hotel Bulkley received its license yesterday.

A. W. Monroe left for Prince Rupert this week.

Trains are now running to Decker Lake siding.

R. Sheehan left for Fort Fraser early in the week.

James Kerr came in from New Hazelton last evening.

C. W. Nolan, of Prince George, is here for a few days.

Constable Russell came down from Priestly on Monday.

Mrs. Kitt, of Topley, spent a few days in town this week.

Mrs. McInnes left on Sunday for her home at North Bulkley.

Mrs. Wallace arrived from Telkwa on Tuesday, for a brief visit.

Jennings Bros.' new launch is now in commission on Chicken Lake.

I. Anger, of New Hazelton, spent Monday and Tuesday in town.

R. O. Miller went to Hazelton on Monday for a brief business visit.

Bob Marion, of Chicken Lake, was a visitor in Hazelton this week.

Mr. and Mrs. LaBrache left this week for a visit to the coast cities.

R. A. Grant, of P. Burns & Co., is in town, en route to Prince George.

George A. Kerr went to Hazelton on Tuesday, on forest branch business.

H. G. Bamford and W. S. Rothwell, of Vancouver, are looking over the district.

Pete Talbot, of the G. T. P. engineering staff, came in from Rose Lake yesterday.

F. Spriggs and A. McDonald, of Vancouver, left for Prince George on Sunday's train.

W. Young came up from Hazelton on Monday, and will probably spend some time here.

Dr. Badgero will leave for Hazelton on Tuesday, and expects to spend a week or two in the Skeena town.

Walter Smith, with a party of four men, on their way overland to Quesnel, spent a couple of days here this week.

Stewart and Dunlop will shortly resume development work on the Silver Cup Extension group, on Nine-mile mountain.

Rev. C. E. Batzold left for Hazelton this morning, accompanying Rev. John R. Hewitt, who will have charge of the Methodist church in that town.

Constable Fairbairn has been transferred from the lake district to Aldermere, to succeed Senior Constable MacAulay, who is on his way to Scotland.

Chas. E. Mink, a noted marksman with rifle and shotgun, is spending the week in Smithers and Telkwa, in the interests of the Dominion Cartridge Co.

The cases of "Cap" Hall and August Johnson, against whom serious wounding and assault charges are made, will be tried at Prince Rupert assizes, which open on Monday.

Another Working Property

(From The Chalcopyrite)

A lease was taken by Rod McCrimmon on the Black Prince Group adjoining the Silver Standard, on Glen mountain, and work commenced on the old Black Prince tunnel last Monday. Mr. McCrimmon was formerly in charge of the work on this tunnel for the Silver Standard people when they first started to open up their property from the Black Prince or Two-mile side of the hill and has always thought well of the chances for opening up a good body of ore through this tunnel. Ore in small stringers or fractures was encountered in this tunnel before it was abandoned in favor of the shafts on the Standard, and altogether it looked very promising. The terms of the lease are not given at present. With the miners now being put on by Mr. McCrimmon and the increased force at the Standard, Glen mountain will be a pretty busy little hill during the summer. The wagon road is about completed from the Two-mile creek side, connecting with the wagon road to the Harris Mines, which will give them a short haul over a fine grade.

Chas. E. Mink, a noted performer with rifle and shotgun, gave an exhibition of marksmanship in Hazelton on Monday afternoon, to demonstrate the merits of Dominion cartridges. A large crowd saw him perform a number of unusual feats.

Card of Thanks

Mr. W. H. Sharpe and family wish to tender their most sincere thanks to all those who, by their prompt and kind assistance, prevented what otherwise might have been a disastrous fire, when the roof of their cabin caught fire on Tuesday morning.

Notice

The following horses, left at J. H. Snodgrass's ranch, Francois Lake, by M. Stich, will be sold by public auction, at Hazelton, on July 6, 1914, under the provisions of Chap. 29, R. S. B. C., for wintering charges and expenses, unless same are paid before that date:

One roan mare, branded HU on left shoulder; docked tail.
One three-year-old roan filly, unbranded.
m41-4 W. W. KERR.

SKEENA DISTRICT

FERRY, BABINE LAKE

IN accordance with chapter 85, R. S. B. C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply on the Babine Lake.
Applications, endorsed "Tender for Ferry, Babine Lake," will be received by the Honourable Minister of Public Works, up to 12 o'clock noon of Tuesday, the 23rd June, 1914.
The limits of the ferry shall extend for a distance of two miles above and two miles below said point.
The charter will cover a period expiring on 31st March, 1915.
Applicants shall give an outline of the schedule on which they propose to operate this ferry.
Applicants shall give a description of the vessel it is proposed to use and the method of operation. The vessel must conform in all respects to the requirements of the "Canada Shipping Act" and amending Act.
All children who are travelling to and from school shall be carried free of charge.
Applicants shall state the tolls they propose to ask for—
Foot passengers (adults), each.
Foot passengers, children under thirteen years.
Automobiles with driver and passengers.
Passenger with saddle-horse.
Passenger with horse and buggy.
Driver with two horses and wagon, loaded or unloaded.
Driver with four horses and wagon, loaded or unloaded.
Automobile, loaded.
Automobile, unloaded.
Cattle and horses, per head.
Sheep, per head.
Hogs, per head.
Calves and colts under one year old, per head.
Freight, perishable, per 100 lb.
Freight, unperishable, per 100 lb.
Each applicant shall state the amount of grant he requires for the operation of this ferry.
The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.
J. E. GRIFFITH,
m40-1-2 Deputy Minister and
Public Works Engineer,
Department of Public Works,
Victoria, B. C., 27th May, 1914.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 24th day of July, 1914, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, once per week each way, between Hazelton and Kispiox, from the 1st day of October next.

Printed notices containing further information as to the conditions of the proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Hazelton, Kispiox and New Hazelton, and at the office of the undersigned.

Post Office Inspector's Office, Victoria, B. C., 15th May, 1914.

STYLE

A matter not generally known or fully appreciated with regard to commercial printing is the fact that style, display (by which is meant typographical arrangement) and type-faces are subject to change, as in the case of clothing and other fashions. Modern printing shows a marked tendency towards the neat and plain in display with a liberal use of margin, as opposed to the old-style methods of coarse, overcrowded and over-ornamental composition. Not every printer can give you the better class of work. It is, therefore, to your interest to see that your printing is done at the most fully equipped commercial printing plant in the Northern Interior, carrying a large and high-grade stock of stationery, and employing workmen of experience and ability. The Quality Mark Printshop is
