

The Omineca Miner

VOL. II, NO. 22

HAZELTON, B. C. SATURDAY, FEBRUARY 1, 1913

PRICE \$2.00 A YEAR

DULL WEEK IN HOUSE

Ellison Ill and Bowser Assumes Duties -- Premier Flays Socialist-COal Commission Promised

Victoria, Jan. 30—Hon. Price Ellison, minister of finance, is seriously ill from an acute attack of appendicitis. In his absence Bowser spoke on the Audit bill, explaining its features and the advantages it contains, in detail. Bowser will also make the budget speech, but which will probably not be before next Monday. Lucas, of Yale, has been chosen chairman of the public accounts committee.

On Monday last the report of the commissioners investigating the milk supply of the province was presented. It represents the work of the commission over a period of six months, during which time hearings were held and evidence collected in various parts of the province. The report contains seventy type-written pages and contains many recommendations for sanitary purity. It is urged that all containers of milk be plainly labelled.

On Tuesday the Premier arraigned the Socialists in reply to their criticisms of government policy, particularly those of Parker Williams. McBride said the legislature was called on to listen to much buncombe nonsense from Socialistic members of the house and the sooner the people of the province realized it the better for the country.

Bowser gives notice of an amendment which will prohibit the use of silencers or any contrivance for deadening or muffling the sounds caused by the explosion of fire arms. Similar legislation is being passed in the States; as it is being found that silencers on fire arms in the hands of criminals is an added menace to the public.

Want Coal at Home

Vancouver, Jan. 28—Attorney-General Bowser, in addressing the annual meeting of the Vancouver Conservative Association last evening, announced that a Royal Commission would soon be appointed for an exhaustive inquiry into the price and supply of coal. He scarcely mentioned the growing feeling in British Columbia that local consumers should have the first call on the producing companies, instead of them giving orders for Seattle, San Francisco and other foreign ports the preference.

Court Asked to Intervene

Victoria, Jan 31—The court is being asked by a citizen for an injunction to prevent Beckwith from signing city cheques as mayor, although the county court recount declared him elected by a majority of five.

Ottawa, Jan. 30—Minister of finance White announced that the main estimates for the year will be brought down on Monday or Tuesday next.

Still Guessing

Washington, Jan. 30—President-elect Wilson still maintains a dead silence about the personnel of the new cabinet, although inauguration is scarcely more than a month away. However, it is believed that three places have been filled without a doubt. These are William Jennings Bryan, secretary of state, Mitchell Palmer, of Pennsylvania for secretary of the treasury, and Robert Henry, of Texas, attorney-general.

Colonel Goethals says the first ship will be through Panama before the end of the year.

WRANGLING STOPPED WAR RESUMED

London, Jan. 27—The Balkan plenipotentiaries, who have received full powers from their respective governments, appointed a committee today to draft a note to the Turkish plenipotentiaries explaining why the peace conference must now be considered broken off. It is hoped the draft will be ready for approval by a full board tonight. This action of the allies is part of a series of well considered forms of pressure with which Balkan delegates hope to obtain their object without resuming war.

London, Jan. 30—Representatives of the Balkan allies gave notice to Turkey that war would be resumed in four days. The first engagement will not occur, in all probability, before next Wednesday. However, it is not believed that Turkey will be able to put up as effective resistance as before the armistice. The country is on the verge of a great civil war. Many of the troops refuse to follow the leadership of the Young Turks party. It is generally believed here that the resumption of hostilities will not affect the relations of the powers.

London, Jan. 31—It is believed now that the war in Turkey will be resumed Monday and it is expected that the Bulgarian and Servian troops will attempt to take Adrianople by storm, regardless of the loss of life.

Hazelton Wins Again

Owing to the poor condition of the ice on the New Hazelton rink, the fourth hockey game in the Ross Cup series was played in Hazelton last Saturday evening, an enthusiastic crowd witnessing the most exciting game of the season.

Changes in the visitors' lineup greatly strengthened the team, and although Hazelton won by a score of 3-2, they had little the better of the play. If the white and red team is to maintain its unbroken record of victories the boys will require more practice than they have had.

Saturday's game was a little rough in spots, but was otherwise a good exhibition of hockey. M. H. Laidlaw, as referee, had to punish a number of players for infraction of the rules.

Beattie Nesbitt Dead

Toronto, Jan. 31—Beattie Nesbitt died while waiting trial on charges of theft and forgery in connection with the failure of the Farmers' bank.

PROSPECT TO A MINE

Bear River Claims Rapidly Getting Out of Prospect Stage as Result of Winter's Work Performed

When J. C. Clark, who has spent so many summers in Hazelton and vicinity that he has ceased to be referred to as from Montana, took the bond on the Green Mountain group of claims, on Bear river, some eighteen miles east of Hazelton, it attracted so little attention that the matter was promptly forgotten.

Work has been continued for several months and Mr. Clark now says that he proved the property to be something far different from anything he ever expected. Instead of having a vein four to eight feet wide there is a mineralized zone at least 150 feet wide, carrying more or less ore all the way. The mineral is an arsenical iron, with some galena and a little zinc and antimony. The values are in the gold occurring in the iron, and silver associated with the other minerals. Assays run from \$8. to \$125. a ton.

Only a few days ago a cross-cut tunnel toward the hanging wall was completed, and exposed good ore for the last fifteen feet of its course, and at a depth of 130 feet.

The proposition offers great possibilities for cheap mining; as an adit which will gain almost foot for foot is the most convenient way of opening up the property, and the vertical distance between the lowest outcrop and the summit is nearly four thousand feet. The mineralization is easily followed on the surface for nearly a mile.

The claims were located in 1910 by Pete Neilson, Emil Olsen and others, of Hazelton.

Nearby and across the creek is the well known Buckskin group, which was located by Frank Martin four years ago and owned and worked by himself and associates since that time. Buckskin ore is similar to that of Green Mountain except for the higher gold values which range from \$20 to \$25. a ton.

There are reported to be a number of properties with good showing in that vicinity and the recent developments on the Clark property will stimulate owners to something more than performance of assessment work only.

These claims are all scarcely more than twelve miles from the main line of the G.T.P., with an easy approach along the bank of the Bear river.

Mr. Clark outfitted yesterday for a trip to the property with supplies and men to continue the work for the rest of the winter.

Are Lining Tunnels

Several crews are engaged in placing concrete linings in the tunnels along the Skeena. Within a few days the contractors who have this work in hand will establish a camp for the Ross tunnels, which are also to be lined with concrete.

Lords Run to Form

London, Jan. 31—The House of Lords rejected the home rule bill by 326 to 69 after four days of debate. The home rulers won Thursday's bye-election in Londonderry, Hogg, nationalist, defeating Pakenham, unionist, by a majority of 57. The keenness of the contest was well illustrated by the number of invalid voters carried to the polling booths on stretchers.

London, Jan. 30—It is expected that Churchill will ask authority for five new battleships as the principal item of this year's construction programme.

MINING NEWS FROM ALL DIRECTIONS

Drifting is in progress at the 250 foot level at Silver Standard, one No. 3 Rand drill being in use there.

The teams have been steadily engaged hauling ore from Silver Standard and there is now about 250 tons or ten cars at the siding waiting shipment to the smelter at Trail.

Considerable dissatisfaction was aroused among local mining men when it was found upon actual shipment of the first carload of ore from the Hazelton mines (Harris Mines, Ltd.) that the rate charged by the G.T.P. was \$6.40 a ton or \$162.50 for a twenty-five ton car. As contrasted with this, the C.P.R. took the ore from Prince Rupert to Trail, a distance of 1,000 miles, for \$7. a ton.

In the face of the "Cliff" tunnel there is now five and one half feet of fifteen per cent copper ore, according to Superintendent Cowan. When first encountered the shoot was little more than four feet wide, some fifty feet back from the present face of the heading, but has steadily improved.

The tunnel is nearing a point underneath the shaft sunk in ore last winter and a raise will connect the two workings before spring. The depth at present is upwards of 130 feet.

Advertise South Hazelton

A booklet of some sixty pages, with illustrations and maps, has been issued by W. J. Sanders, advertising the advantages of South Hazelton and the valleys of the Skeena and Bulkley rivers. By far the larger part of the matter contained is devoted to the resources of the surrounding country and backed up by actual photographs, reproduced. It is the best thing in its line that has ever been attempted for this district. It is moderate in statement and all of the facts as to what has been done and what is being done in the development of our local resources are susceptible of proof.

Hudson's Bay Co. Expands

Vancouver, Jan. 30—The contract has been awarded for a huge ten storey addition to the Hudson's Bay Co's department store here that will cost two and one half millions, and be one of the finest on the continent.

BOOSTS OUR MINERALS

Frank A. Brown, Known As "Jumbo Brown" Tells of Our Great Silver-Lead Discoveries

Frank A. Brown had the following to say in the Butte Miner of January 19. It is reprinted because of its own worth as a statement from a man in a position to know the facts, and to show that the district is getting the publicity of the right kind that must precede a more active development in mining.

Frank A. Brown, an old resident of Montana and well known among the old timers, is in the city after an absence of twenty-three years, and tells wonderful stories of northwest British Columbia, where he is now operating. Mr. Brown is better known among the old timers throughout Idaho and Montana as "Jumbo" Brown.

Mr. Brown is now located on and near the Grand Trunk Pacific railway, British Columbia and has extensive interests in mineral locations in the section known as the Omineca mining district. This section of the country is located from 200 to 300 miles east of Prince Rupert which is the western terminal of the Grand Trunk Pacific.

When asked how the country looked for prospective investments, he said, "The greatest surface showing I have ever seen in lead, silver, copper and zinc. We have a belt now explored 100 by 150 miles that has good mineral the entire length and breadth. Up to date there has been very little money expended in developing, but now that the railroad is laying track through this section of the country, investors are coming in and taking hold of mines, lands and other industries. Development work so far has shown the best results.

There are now in operation in a small way, several different properties, among which is the Rocher de Boule, which is largely owned in Butte. Mr. Brown had charge of this property from the time it was bonded to John F. Cowan, of Salt Lake, also an old resident of Butte, until Sept. 1, of last year. This property has a phenomenal surface showing, and there is at present enough copper ore blocked out to more than pay expenses and the price of property, being a large vein of almost solid calcopyrite copper running from 17 to 27 per cent. There is an enormous tonnage in sight and they have not yet reached the 150 foot level.

"The Highland Boy group of claims, adjoining the Rocher de Boule property on the east end, were originally located by Slavin, Mackay, Sargent and others, and were bonded last year to P. J. Jennings, who has since that time turned this mining property over to a Butte syndicate, which

has formed a company known as the Butte & Rocher de Boule Copper Company. This property consists of five claims showing high grade ore on several different veins on the property, and I think with very little more development work will show as large a body of ore as the Rocher de Boule Copper Company has at the present time. I have taken samples from this property myself, running as high as 34 per cent in copper.

"The Great Ohio group of mineral claims are located south and adjoining Rocher de Boule and Butte and Rocher de Boule properties. There are six claims in this group and the ore is of a different character from the above properties, consisting of a dry silver ore. There is one vein on the property that is from three to ten feet wide and can be very rapidly traced a distance of 3,000 feet. There has been very little development work done on this property up to the present time, but it has shown very good values wherever it has been opened up. There are also numerous cross veins on this property, some of them carrying very good values in gold running as high as \$90. This property is owned by Sargent and Munro, the original locators of the Rocher de Boule property, and was the first discovery made in the district. The owners are now preparing for extensive development work this coming season.

"The Standard mine is owned (Continued on Page Seven)

New Firm Organized

F. B. Chettleburgh and R. C. Sinclair have purchased the machinery department from Aldous & Murray, and under the style of Chettleburgh & Sinclair are ready to supply the wants of farmers, freighters or anyone using farm implements or vehicles. Their office will be located in the building occupied by the B. C. Brokerage Co. and now owned by Mr. Chettleburgh. They can be found temporarily at the office of Aldous & Murray. They intend to largely increase the present stock on hand, and be able to supply anything in their line at a moment's notice.

Both of the partners are well known locally. Mr. Chettleburgh having been identified with the development of the coal measures on Copper river and at Groundhog for the past three years; Mr. Sinclair has been office manager for Aldous & Murray for nearly a year. Both are deservedly popular and it is not entering the realm of romance to say they are starting off with the best wishes of the whole community.

Suffragettes Declare War

London, Jan. 30—On Tuesday suffragettes who were prepared to hazard their lives for votes, were out with hatchets, and twenty women were arrested for window breaking. Mrs. Despard sister of the cavalry general, Sir John French, refused to pay a fine and was sent to jail for ten days.

The Omineca Miner

PUBLISHED EVERY SATURDAY AT HAZELTON, THE CENTER OF THE GREAT OMINECA DISTRICT OF BRITISH COLUMBIA.

Macdonald & Rauk, Publishers and Proprietors.

SUBSCRIPTION RATES: Canada and British Possessions, Two Dollars a year; Foreign, Three Dollars a year.

ADVERTISING RATES: Display, \$1.50 per inch per month; Reading Notices, 15 cents per line for first insertion, 10 cents per line for each subsequent insertion. Legal notices inserted at B. C. Gazette rates.

VOL. II. SATURDAY, FEBRUARY 1, 1913. No. 22.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

The people of the Omineca district may confidently expect a notable forward movement in the mining industry during the present year. Heretofore our camps have remained in the prospective stage and no matter how promising prospective mines may be, they are unlikely to attract the big capital which is necessary for the development of a mining field. The season which will soon open, will, however, tell another story. We have now several proven mines to show, with a large number of partially developed properties giving promise of an early addition to the shipping list. The mines in the immediate vicinity of Hazelton are, naturally, in a more forward condition as regards development than those of other parts of the district; but on Hudson Bay mountain, on the Telkwa, in the Babine range and in other and newer sections of the district are mineral showings which only require development to make them profitable. The capitalists and operators who are turning their attention to our mines will have plenty of opportunities for the use of their money and energy in the opening of our known mineral deposits, while the unprospected areas of this great mineral district should prove attractive and profitable fields for the hundreds of prospectors who will spend the summer in the hills.

With the railroad in full operation into the heart of the district as it will be with the opening of the season, the question of transportation will be satisfactorily disposed of, and the cost of supplies will no longer be so high as to retard development.

Nineteen-Thirteen should be a great year for Hazelton and Omineca district.

Will Aid Agriculture

Ottawa, Jan. 27—The big feature of Friday evening's session of the House of Commons was a speech by Hon. Martin Burrell, introducing his bill to provide for the expenditure during the next ten years of \$10,000,000 as an aid to agriculture. The interest is by educational effort to create conditions which will result in increasing the rural population and the productiveness of the land. During the first year \$700,000 will be spent and the amount will be increased each year until in 1917 the sum of \$1,100,000 will be granted. The money is to be divided among the provinces practically on the basis of the population.

Reciprocity's Ghost Stalks

Ottawa, Jan. 29—The ghost of Reciprocity stalked through the house in the debate on the second reading of Foster's bill to ratify the trade agreement with the West Indies. Clark, of Red Deer, made a free trade speech, Foster replying.

Alberta Railways Busy

Edmonton, Jan. 29—Vice-president King, of the Alberta, Peace River Eastern railway, announces that the road will commence construction early in the spring on the first section, from Edmonton to Peace River Crossing. It is intended ultimately to build to the Pacific coast and to Hudson's Bay.

Debs Arrested Again

Indianapolis, Jan. 29—Eugene Debs, Socialist candidate for president in the last election, was arrested, charged with obstructing justice by influencing witnesses, in the case of the state of Kansas against him, to leave the jurisdiction of the court.

Farmers All For Peace

Ca'gary, Jan. 29—The "United Farmers" held a meeting here to demand a referendum on the naval proposals. They say Canada should work for universal peace.

NOTICE.

"LIQUOR LICENSE ACT"

(Section 34)
Notice is hereby given that, on the 15th day of February, A. D. 1913, next, application will be made to the Superintendent of Provincial Police for the grant of a Licence for the sale of liquor by retail in and upon the premises known as Northern Hotel, situate at the Townsite of South Hazelton, B. C., upon the lands described as Lots 10, 11, 12, 13, 14, in Block 16, or Lots 15, 16, 17, 18, 19, in Block 30.
Dated this 19th day of December, A. D., 1912.

Colin Campbell Fraser,
Applicant.

WATER NOTICE

For A Licence To Store or Pen Back Water.

Notice is hereby given that Peter Daniel Carr, of Telkwa, B. C., will apply for a licence to store or pen back 10 cubic feet per second of water from Canyon creek, a stream flowing in a northwesterly direction and emptying into the Bulkley River on N.W. 1/4 section 7, Tp. 2a. The water will be stored in a reservoir of 4,500,000 gallons capacity to be built at S. 1/4 lot 1196 and will be used for industrial purposes under a notice of application for a licence to take and use water, posted herewith, on the land described as North 1/4 of Lot 1197, Tp. 2a, Range 5, Coast District.

This notice was posted on the ground on the 2nd day of January 1913. The application will be filed in the office of the Water Recorder at Hazelton. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
P. D. Carr. (Applicant).
22

WATER NOTICE

For a License to Take and Use Water

Notice is hereby given that Peter Daniel Carr, of Telkwa, B. C., will apply for a licence to take and use 10 cubic feet per second of water out of Canyon Creek, which flows in a northwesterly direction through Tp. 2A and 4 and empties into Bulkley river on N.W. 1/4, Sec. 7, Tp. 2A. The water will be diverted at 300 ft. below Gov't bridge on Canyon creek and will be used for industrial purposes on the land described as north 1/4 of Lot 1197, Tp. 2A, Range 5, Coast District.

This notice was posted on the ground on the 2nd day of January, 1913. The application will be filed in the office of the Water Recorder at Hazelton. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

The wireless station at Nauen, Germany, is reported to have had communication with a New York station, sending the first wireless message between Germany and America.

Speaking in Boston, Henri Bourassa, the Quebec Nationalist leader declared that the feel-

ing between Canada and England today is much similar to what the feeling was between England and the thirteen colonies of 1775 and it will ultimately result in absolute freedom for Canada.

Three hundred and fifty Mohammedan pilgrims from India to Mecca were drowned during a flood which overwhelmed the entire caravan at its encampment midway between the sacred city of Medina, Arabia, and the port of Yembo, on the Red Sea.

Commercial Printing—The Miner Print Shop, Hazelton.

SKEENA DISTRICT

FERRY, FRANCOIS LAKE

IN accordance with chapter 85, R. S. B. C. 1911, "Ferry Act," the Government of British Columbia invite applications for a charter for a ferry to ply across the Francois Lake.

Applications will be received by the Honourable Minister of Public Works up to 12 o'clock noon of Monday, the 17th February, 1913.

The limits of the ferry shall extend from half a mile west of Macdonald's Landing to half a mile east of Keefe's Landing.

The charter will cover a period expiring on 31st March, 1914.

Applicants shall give a description of the vessel it is proposed to use, the method of operation, and the vessel must conform in all respects to the requirements of the "Canada Shipping Act" and amending Act.

Applicants shall state the tolls they propose to ask for—
Foot passengers (adults), each.
Foot passengers, children under thirteen years.
Passenger with saddle-horse.
Passenger with horse and buggy.
Driver with two horses and wagon, loaded or unloaded.
Driver with four horses and wagon, loaded or unloaded.
Cattle and horses, per head.
Sheep, per head.
Hogs, per head.
Calves and colts under one year old, per head.
Freight, perishable, per 100 lb.
Freight, unperishable, per 100 lb.

The Government of British Columbia is not necessarily bound to accept any application submitted.

J. E. GRIFFITH,
Public Works Engineer,
Department of Public Works,
Victoria, B. C., 7th January, 1913

ANSWERS THE CHALLENGE OF THE NEW NORTH

SOUTH HAZELTON is the coming metropolis of the Northern Interior of British Columbia. It is the official G. T. P. Townsite and will be the distributing center for the extensive agricultural lands and mines of this district, and for the coal fields of Groundhog Mountain.

What Has Been Done

The station site has been approved and a station has been established.

Fifty acres have been cleared.

Business streets and others have been graded.

More than 40 lots have been secured by merchants of Hazelton.

Contracts for several permanent buildings have been let.

High level bridge has been guaranteed.

Hotel license has been applied for.

What Will Be Done

Permanent station is now being built.

High level bridge will be built.

More clearing and grading will be done.

Electric light and water plant will be built.

Hotel will be built immediately. Several other hotels to be completed before spring.

Leading merchants will build permanent stores and warehouses and start business before spring.

And everything will be done to make South Hazelton the leading city of the Northern Interior.

There are a few inside lots still to be had in the business district. Lots 33 x 120 feet on Omineca, an 86 ft. street.

TERMS: One quarter cash; bal. 1, 2 and 3 years.

Plans at our office --- better see them at once --- delay means loss of opportunity.

BOOSTS OUR MINERALS

(Continued from Page One)

by Stewart, McHugh and others. This property, which is situated conveniently to the Grand Trunk Pacific, has been developed to a depth of 250 feet. The character of the ore is a lead silver and gray copper, carrying a high value in silver. In sinking the shaft they have taken out over \$100,000 worth of ore without drifts or stopes.

"The American Boy property, owned by Harris Mines, Ltd., is situated on the slope of Nine Mile mountain, about seven miles from the new town of Hazelton. This mine also is a lead and silver property and has some 1,200 or 1,500 feet of development work done on four different veins and has a very nice showing. They are shipping ore steadily from this property and the ore will average \$100 per ton. On up the mountain from this property there is the Silver Cup property, owned by the Silver Cup company. This property also has two different veins carrying shipping ore. On, or near the Silver Cup is the Sunrise property, which is also owned by local people. This property has a surface showing of from two to three feet of high grade lead-silver ore, and they have now considerable ore sacked and ready for shipping. Adjoining the Sunrise property on the east is what is known as the Lead King group. This property is owned by the Hazelton Nine Mile Mining company, incorporated in 1910. This property has four or five rich lead and silver veins, but has not been in active operation for some time on account of lack of transportation. This

property made a small shipment to the Trail smelter, which showed a net profit in silver and lead values of \$76. They were allowed nothing for their zinc, which amounted 25 per cent. I have only mentioned a few properties on this mountain, as there are a dozen others that have a chance to make mines, in and near this vicinity.

"In leaving Hazelton and going south there is what is known as Hudson Bay mountain. Here is located the Wood and Shoffer property. This property is under bond to an English syndicate managed by Colonel Steele. They have done some 300 or 400 feet of development work this last season. On this property they have four or five large veins running from \$20 to as high as \$800 in gold, silver and copper values. Just above this property and adjoining is located what is known as the Martin-Hankin & Allen property. This is what is known as The Free Silver. Some of their ore runs high as 60 per cent pure silver. The Bonanza group of claims, which are under bond to a Toronto syndicate, has some very rich copper glance ore, some of it running as high as 70 per cent. On the western slope of Hudson Bay mountain is located the Coronada group, owned by McDonell & Halley. This is one of the best lead and silver showings I have ever seen on top of the ground, as I have taken pieces of solid galena ore from this property weighing from 500 to 800 pounds that would run from 300 to 500 ounces in silver and 60 per cent lead. This property is now under development by the owners and will be shipping by July next.

"The Victor group, owned by Donald Simpson, is a parallel property to the McDonell property and also shows big strong veins of lead and silver ore."

When Mr. Brown was asked what he was doing, in a mining way, for himself, he said: "I have now a property under bond situated about eighteen miles from the townsite of Houston on the Grand Trunk Pacific, which I consider is the makings of one of the largest properties in the country. This property shows big, strong veins in porphyry, carrying lead, silver, gold and zinc values. I have an immense tonnage on this property and am here now for the purpose of investigating the new processes for extracting zinc.

"The climatic conditions are exceptionally good, considering the latitude, as we never have any severe winters, not more snow than enough for good sleighing. Our summers are almost perfect and the country produces all vegetables, hay, grain and small fruits in abundance. All the valleys between ranges are very fertile and are being taken up and developed very fast. We expect the Grand Trunk Pacific railway to be completed in the summer of 1914 from ocean to ocean, and we will then be in a position to compete with the balance of the world in mining and agricultural ways.

Flour, Hay, Oats and Bran at Sargents.

C. P. R. Steamer "Princess Beatrice" sails from Prince Rupert for Vancouver at 8 p. m. on the following dates, January 19, February 2, 16, and March 2, 16 and 30, or every alternate Sunday. Through connection made on these days with train from Hazelton.

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Packing Supplies," will be received until 4 P. M., on Monday, March 3, 1913, for the packing of material and supplies for points along the Yukon Telegraph line between Quesnelle and Atlin, in the course of the seasons of 1913, 1914 and 1915. Forms of tender and specification may be obtained and form of contract seen on application to Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnelle, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and place of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender for one year's packing, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS
Secretary
Department of Public Works
Ottawa, January 4, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.—31853.

Local News Notes

R. E. Paget, contractor, left Sunday for Toronto.

J. W. Morrison returned on Wednesday's train.

Ed. Simpson, of Chicken Lake, was here early in the week.

Roy Moseley went to Prince Rupert last Sunday, on business.

W. P. Murray returned on Saturday from an extended vacation trip.

Arthur and William Leverett returned from Victoria on Wednesday.

E. H. Hicks Beach is leaving for Vancouver tomorrow on a business trip.

Wm. McLennan, of W. J. McMillan & Co., was in town during the week.

A most enjoyable time was reported at the Cinderella club last evening.

Dr. and Mrs. H. C. Wrinch are leaving next week for a holiday trip to California.

Major and Mrs. R. F. Leslie are leaving next week for their new home in Vancouver.

Mr. and Mrs. W. R. Smith, of Vancouver, were among the week's visitors in Hazelton.

Geoffrey Macdonell, of the Tel-

kwa sawmill, is spending a few days in Vancouver, on business

A. C. Aldous and Mrs. Aldous returned Wednesday from their honeymoon trip to California and coast cities, which was prolonged by Mrs. Aldous' illness, from which she is now happily recovered.

Charlie Willet, of Cunningham's store, left Thursday to spend his holidays in the coast cities.

The fifth hockey game of the series for the Ross cup will be played tonight at New Hazelton at eight o'clock.

Jack Brown has been at Sealey all week packing up the stock in Larkworthy's store, preparatory to its removal to Decker Lake.

F. B. Chettleburgh is leaving shortly for Copper river by way of Telkwa, on a trip of inspection to the coal mines.

The executive committee of the Hall Association has reduced the rental price of the hall for dances and entertainments.

J. Asher Cowan, Superintendent of the Rocher de Boule mine, returned to the works Thursday, after a few days in town.

The Miners are scheduled to play a hockey match with the town team tomorrow afternoon at three o'clock, weather permitting.

Thomas Telfer Aitken and Eleanor Kate Booth, both of North Bulkley, were married Wednesday, at St. Peter's church, Rev. John Field performing the ceremony.

A. C. Aldous was operated on today at one o'clock, for appendicitis, at the hospital. Latest reports were to the effect that the operation was successful and the patient doing as well as could be expected.

Jim Bates is escorting a couple of strangers into the Manson Creek country and rumor is busy connecting their trip with the transfer, to new owners, of one of the largest placer propositions in that part of the country.

J. W. Campbell, of the Hudson's Bay Co's staff, returned from a visit to the coast on Saturday's train, and H. B. Blake was a passenger down river by the mid-week train, to be gone a month or more.

Saw Mill at Burns Lake
H. M. Laidlaw, of Burns Lake, is on his way to that point with freight for the Burns Lake Trading & Lumber Co., in which he is associated with Messrs. Sealy and Gerow. A mill with a capacity of 12,000 feet is to be installed by the company, and is expected to be in operation by April 1st.

One-third off on all Suits and Overcoats at Noel and Rock's.

Aluminum

Is fast winning its way as a friend of the kitchen. The utensils are very easy to handle on account of their extreme lightness, and their silvery white, highly polished finish is always clean and pleasant to the critical eye, appealing especially to women of refinement.

This then is to call special attention to our stock which embraces nearly every article used in the kitchen. Our prices are specially attractive.

Lipped Sauce Pans, three sizes, at	65c	75c	\$1.00
Biscuit Pans	two " "	75c	90c
