VOL. II, NO. 12 HAZELTON, B. C. SATURDAY, NOVEMBER 23, 1912 PRICE $2.00 A YEAR

SULTAN REJECTS TERMS OF PEACE--APPEALS TO POWERS

War in Balkans Resumed --- Forty Thousand Slain in Siege and Capture of Monastir by Servians---Pestilence Claims Many Victims in War-Scourged Country

London, Nov. 21:—The Turks having finally rejected the terms of peace proposed by Bulgaria, hostilities have been renewed in the Balkans. The Sultan of Turkey is appealing to the Powers to intervene and make peace. The allies declare that nothing but the complete annihilation of Turkish rule in Europe will be accepted by them.

Bulgaria's terms of peace to Turkey, as reported at Vienna and sent from that city by the correspondent of The Daily Telegraph, consist of seven stipulations, as follows:

1. Surrender of the Tchatalja lines and Turkish army, and its withdrawal guarded by Bulgarians.
2. Evacuation by the Turks of Adrianople, Scutari, Monastir and Janina.
3. Payment of war indemnity,
4. Surrender of the conquered territory.
5. Internationalization of Constantinople.
6. Opening of the Dardenelles.
7. Making of Saloniki a free port.

Forty thousand lives were lost in the engagements preceding the capture of Monastir by the Servians. A majority of the Turkish soldiers who survived the battle fled to the south.

A thousand are dying daily of cholera in the camps of the Turks. Deserters from the army are placed with the plague-infected as a punishment, in the effort to check the fast-spreading disaffection in the Ottoman forces.

In addition to the plague of cholera, many are starving to death. No attempt is made to dispose of the bodies of the dead. Conditions generally are appalling.

KILLED AND MAIMED BY AUTO

Prince Rupert's Motor Fire Engine Upsets---Official Dead, Chief and Fireman Injured

(Special to The Miner)

Prince Rupert, Nov. 23:—While engaged in a practice run early on Tuesday morning, the fire department's combination hose and chemical auto skidded on a steep grade on Eighth avenue and got beyond control of the driver. The heavy machine toppled over the edge of the plank roadway and fell to the ground beneath, turning completely upside down.

Alfred Thomas, of the waterworks department, who was riding on the machine, was crushed to instant death. Fire Chief McDonald sustained a broken arm, and Fireman Morrison was thrown under the car and seriously hurt about the legs. The auto itself was badly damaged,

Thomas was the father-in-law of Alderman Geo. Kerr.

Coal Strike Serious
(Special to The Miner)

Victoria, Nov. 21:—The strike of coal miners at Cumberland has assumed a serious phase and disorder is feared. In consequence of the threatening aspect of affairs, Attorney-general Bowser has ordered one hundred constables to the scene. The town, as well as the mines, will be thoroughly policed.

Castaways Rescued
(Special to The Miner)

Vancouver, Nov. 20:— The lumber-laden American schooner F. K. Wood was wrecked in a storm off the west coast of Vancouver Island. The crew of nine was rescued today by the Canadian fisheries cutter William Joliffe from the small boat in which they had passed five days and nights battling with the storm, without sleep and with but little food.

To Fly Over Atlantic

London, Nov. 20:— Claude Grahame-White, the English aviator, announces that he will attempt to fly across the Atlantic next year.

Big Omineca Assays

Writing from San Diego, Dr. Ben F. Stanwood informs The Miner that highly satisfactory assays have been received on ores taken from the quartz veins on the various galena claims in the Omineca river district in which he is associated with Mr. Greene and others. None of the returns were less than $100 a ton, which must be considered very good for surface ore. The Doctor is more than ever convinced that the district is a good one, for quartz as well as for placer mining. All that is needed, he says, is better means of transportation, which will soon be provided, as the government can now be assured of the value of the mineral deposits.

Dr. Stanwood and his associates are planning a considerable amount of development work on their properties during next season, and intend to have a party leave Hazelton in February, taking tools and supplies over the toboggan trail.

H. B. Rochester is up from Prince Rupert.

GOING RIGHT AHEAD AT SOUTH HAZELTON

No time has been lost in making preparations for the development of the South Hazelton townsite. O'Neill & Larocque have already arranged accommodation for the large crews which will be engaged in clearing additional streets and blocks and stumping and grading the principal streets. The actual work will begin on Monday and will continue throughout the winter.

Business Men Secure Lots

Practically every business concern in Hazelton has confirmed or made reservations of lots in the new business center, Omineca street having been decided upon as the thoroughfare on which they will locate. There are demands in Vancouver for business lots, but these have been held in abeyance pending the location of the merchants of the present town.

Purchasers Well Satisfied

The provincial government and the G. T. P. have extended the deferred payments on lots already purchased for practically a year, making a further offer of a return of the first payments to any who are not satisfied. The purchasers appear to be well content with their bargains, as none of them have taken advantage of the offer.

Train Service Arranged

On and after next Wednesday all passenger and freight trains are expected to make South Hazelton the end of their run. The station agent, who has had his quarters a mile below South Hazelton, will remove to the station site, and adequate facilities for the handling of all traffic will be provided. Aldous & Murray have received the following telegram from Superintendent Meehan:

"Official order of Railway Commissioners received yesterday, authorizing train service to South Hazelton. Will have temporary accommodation arranged there within a few days, to serve during construction of permanent station and other facilities found necessary."

Payments Extended
(Special to The Miner)

Victoria, Nov. 19: — The government's position in the matter of South Hazelton lots was today announced by Hon. W. R. Ross, who said:

"Concerning the joint sales by the government and the G. T. P. held in Victoria and Vancouver last December, I have decided, in view of the developments since the sales, to give all purchasers of lots the privilege of withdrawing from their agreements or proceeding with the agreements, as they may elect. Each purchaser will have twenty days from the 22nd instant within which to withdraw and surrender his agreement and receive a refund of money paid. Failing to receive such application within the period allowed, it will be assumed that the purchaser desires to proceed, and he will be required to complete title in accordance with the terms of agreement or forfeit the payments made. To purchasers who elect to proceed the government will rebate all interest on unpaid balances to date, so that such interest will be payable only from November 22 to the date of final payment.

The time for second payments under these agreements will be extended to one year from the 22nd instant and for third and final payments two and three years from that date."

Assizes in Rupert
(Special to The Miner)

Prince Rupert, Nov. 23:—Chief Justice Hunter is presiding at the first assize court held in Prince Rupert.

Better Terms Commission

Vancouver, November 19:—Sir Richard McBride is now in New York. He will return, via San Francisco, in a few days.

Hon. Mr. Bowser today made the importont announcement that as a result of the Ottawa conference, the question of better terms for British Columbia would be referred to three commissioners. One of these will be appointed by the province, one by the Dominion government, and the third by the Imperial government. The attorney-general is confident that the result of the investigation by this commission will be the triumph of the province in its endeavor to secure better terms.

The federal government has also given the province more than two hundred acres of naval reserve at Point Grey, in order that the provincial university may have a larger site. In addition to this, the Ottawa authorities will build a separate drill hall for the university.

The province has also secured a grant of the foreshore rights opposite the provincial government blocks at Prince Rupert.

Lloyd George May Quit

London, Nov. 20:—Although the redrafted financial clauses of the Home Rule bill passed the house of commons in committee by a majority of over a hundred, the trouble in the Liberal ranks is far from healed. The disaffection amongst the supporters of the Asquith government is becoming more apparent, the latest report to be given credence alleging that Lloyd-George, chancellor of the exchequer, intends to resign his portfolio.

HOUSE OF COMMONS OPENS ---DEFENCE CHIEF BUSINESS

Redistribution and Tariff Question Will Give Place to Emergency Naval Legislation, Indicated by Speech from the Throne---Canada Recognizes Duty to the Empire

(Special to The Miner)

Ottawa, Nov. 21:—With the customary elaborate ceremony and display, the Canadian parliament formally began its session today. In the speech from the throne, the governor-general indicated the more important legislation which will be introduced, making special reference to the ministerial conference with the British admiralty and the prospective measure providing for Canadian participation in naval defence. His Royal Highness added that the government was convinced that it was the duty of Canada to afford necessary and reasonable aid in Imperial defence and that a bill would be introduced for that purpose.

There was no mention of the appointment of a tariff commission or of redistribution. This omission is taken to mean that neither question will be considered before the regular session some two months hence.

The governor-general commented favorably on Western Canada and the incidents of his recent trip, alluding in flattering terms to the prosperity and industry of the people of the west.

More Western Senators
(Special to The Miner)

Ottawa, Nov. 22:—British Columbia and the other western provinces will each be given three additional senators, making six for each province. The new members of the senate have not yet been named.

New Senators for Nova Scotia
(Special to The Miner)

Ottawa, Nov. 22:—Nathaniel Curry, a Nova Scotia manufacturer, and William Dennis, proprietor of the Halifax Herald, have been appointed senators.

CONSERVATIVES' NEW OFFICERS

Local Organization Has Had Very Successful Year---Borden and McBride Are Endorsed

The close of the most successful year in the history of the Hazelton Conservative Association was marked by a record attendance at the annual meeting, held in the schoolhouse last night. The building was crowded by members who received with enthusiasm the reports of the officers and executive board.

The retiring president, A. R. Macdonald, briefly outlined the business of the year, reporting an effective membership of 116.

Secretary Walter Noel presented a report showing the association to be in very satisfactory financial condition.

Resolutions expressing confidence in the Conservative governments at Ottawa and Victoria were unanimously passed, as was a vote approving the course of Wm. Manson, M. L. A.

The question of erecting Omineca into a provincial constituency was again urged upon the attention of the government and other resolutions dealing with the needs of the interior were dealt with.

Officers for the ensuing year were chosen as follows: Hon. President, Sir Richard McBride; Hon. Vice-president, Wm. Manson; President, E. H. Hicks Beach; Vice-president, Wm. H. Larmer; Corresponding Secretary, Walter Noel; Recording Secretary, Chas. Hicks Beach; Executive Board, E. C. Stephenson, A. R. Macdonald, G. O. Graham, J. S. Cline, A. V. Johnstone, F. Field, J. A. Macdonald, R. DeB. Hovell, R. S. Sargent.

R. G. Was Host

On Saturday evening R. G. Cunningham, who retains the kindliest feelings for the surviving pioneers of the Omineca, gave a dinner at the Omineca hotel, to which the oldest old-timers were invited. The affair was also a send-off to J. L. Christie, head bookkeeper for Cunningham & Son, on the eve of his return to headquarters at Port Essington. One of the guests of honor was the veteran Angus McIntosh, who exchanged with the host many reminiscences of the early days. James May, the well known pioneer of the placer mines, was unfortunately ill and unable to attend. Other guests were J. L. Christie, J. M. MacCormick and W. Allison.

C. N. R. Terminus
(Special to The Miner)

Victoria, Nov. 22:—Hon. Thos. Taylor, minister of railways, has approved the route map of the Canadian Northern, placing the terminus of the road at a point 270 miles from Victoria, on Nootka Sound.

Good Price for Bonds

London, Nov. 22:—Ten million dollars worth of Canadian Northern debentures have been floated here at six per cent. premium. This price is considered excellent, in view of the state of the market.

The next meeting of the Hazelton branch of the Women's Auxiliary will be held in Mrs. Hicks Beach's house on Thursday next, Nov. 28th, at 3:15. p.m.

VOL. II. SATURDAY, NOVEMBER 23, 1912. No. 12.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

The important subject of agricultural co-operation is discussed in this issue by our contributor Elstree, who calls attention to the great growth and evident prosperity of farmers' co-operative societies in other countries, and suggests that the attention of our legislators should be drawn to the subject.

With the principle of co-operation among farmers The Miner is entirely in accord, believing that the general adoption of such a policy would bring a solution of many problems which now vex the agriculturists of Canada. We are compelled, however, to take issue with Elstree when he opines that the question of government loans to farmers is of minor importance. Those who take up lands in new districts are almost invariably men of small means, who find it difficult to obtain the capital which is necessary for the improvement of their lands. Some such policy of government loans as has been outlined in these columns would enable settlers to develop their holdings and become producers, in which capacity they might well turn to co-operation.

Until the settlers of a new district have something to sell, no system of co-operation will provide a solution for the problems which confront them. To attain the position of producers, they must have a certain amount of capital, which they obtain under present conditions by leaving their pre-emptions to work for wages, or by borrowing at a high rate of interest. If some of the government money which is now drawing mere bank interest were used as a loaning fund, the farmer would obtain needed capital at a reasonable rate of interest and on easy terms of payment; the government would receive a higher rate of interest on its funds; the agricultural industry throughout the newer districts of British Columbia would receive great impetus, and the development of the Northern Interior would be remarkably advanced.

Agricultural Co-operation

By Elstree

While the subject of Land Banks and loans by government to farmers for the encouragement of land settlement may not improperly receive attention at the hands of our legislators, the much greater and more worthy subject of agricultural co-operation may also well receive attention.

In Germany and Austria such co-operative societies have been very numerous — in Germany there are 26,000 agricultural societies, formed for every conceivable purpose. In the United States the Farmers' Co-operative Union has two million members and possesses 1628 warehouses, a large number of elevators for the handling of grain, 245 packing houses, dozens of newspapers, coal mines, several banks, an implement factory, dozens of other factories and exchanges too numerous to mention.

In Italy agricultural co-operators have advanced to such an extent as successfully and economically to manufacture their own super-phosphates, thus breaking up a manufacturers' ring.

In Switzerland agricultural co-operation very successfully supplies its members not only with agricultural, but also with domestic requisites, to the considerable saving of their pockets. And also, on the other hand, it enables the small peasantry to dispose of their young beasts as pedigreed stock at five times the prices the peasants used to get.

All these figures and results are to be found stated in Henry W. Wolff's new book on Co-operation agriculture (price 6s nett).

Those of us who were at Hazelton on 16th July last and attended the Premier's meeting in the Assembly hall, can remember the speech of Mr. Hayward, member for Cowichan, who asked for attention to co-operation among ranchers, and who was able to tell of the success of the Cowichan Creamery, now getting top prices for cream, milk, butter, eggs (formerly sold by the producers at the lowest figures), and now supplying those producers with grain from the Prairies, bought by the carload, at cost (and formerly only obtained by the same producers at far higher cost.)

It is probable that in organized co-operation may lie a counterpoise to that danger which is so enervating to life in new lands; namely, undue dependence on government aid; and may supply a corrective tonic to the feeble policy of running to the local member, to the bewilderment of those who might otherwise expect him to be able to give his attention to more appropriate subjects in the necessary politics a new and rich province and Dominion.

What Forestry Means

The true meaning of forestry, as it is intended to apply that science in the province of British Columbia, was admirably expressed by Hon. W. R. Ross at the recent convention of the Canadian Forestry Association held at Victoria. He said: "Forestry, as we practise it, means the scientific management of the government's immense timber business so that the citizen who would otherwise have to pay $15 in taxes has only to pay $10; so that in years to come the citizen will have to pay still less; so that, while producing these effects on revenue, the system of forest finance will be so adjusted as to offer the maximum of encouragement to the growth of the lumber industry; and, above all other considerations, so that our forest capital, the source of our forest prosperity, may be preserved intact."

The Canal Rates

Washington, D. C., Nov. 18:—President Taft has issued a proclamation announcing the rates to be charged foreign ships passing through the Panama Canal, which will be as follows: merchant ships carrying passengers or cargo, $1.20 net vessel ton, each 100 feet of actual carrying capacity. (2) Vessels travelling in ballast only, without either passengers or cargo, 40 per cent. less than toll rates of vessels with either passengers or cargo. (8) Naval vessels other than transports, colliers, hospital ships, supply ships, $1.20 a ton. American coastwise vessels exempt from payment of tolls by act of congress. It is this provision of the act that Great Britain diplomatically protested, but no reference to this fact was mentioned in the president's proclamation.

Congress In April

President-elect Wilson has gone to Bermuda for a vacation, and will return December 16. To set at rest speculation as to what he would do with regard to tariff revision he issued the following statement:

"I shall convene congress together in an extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be removed as soon as possible."

A consignment of the finest cranberries just received at Larkworthy's store.

The mother of the next president of the United States was a Canadian, daughter of Rev. Thomas Woodrow, after whom Mr. Wilson was named.

The Bulgarians have lost fifty thousand men from wounds and disease during the brief hostilities. This is one out of every forty of the male population.

The Albert medal has been awarded by the Royal Society of Arts to Lord Strathcona, for his services in developing the resources and commerce of Canada.

Amoy, China, is placarded with posters announcing the beginning of a boycott against Japanese goods. This is in protest against Japanese aggression in Manchuria.

A light metal shield, claimed to be capable of rendering infantry practically impenetrable against bullets, is said to have been invented by a German engineer.

It is said that the Standard Oil Company intends to stop the sale of fuel oil after December 1st, because it is found more profitable to refine the oil than to sell it as fuel.

The provincial government has appointed two new commissions. One of these bodies will enquire into conditions affecting labor in British Columbia and the other into agricultural matters.

It is expected that the C. N. R. steamer Royal George, which went on the rocks in the St. Lawrence last week, will be floated into deep water with the high tides on November 25.

There are more than a 1000 cholera cases daily in and around Constantinople, and the death rate has reached fifty per cent. The authorities are powerless to cope with the situation.

France has revived the Channel tunnel project, as a consequence of the entente cordiale with England and the progress of aviation. It is believed the plan will now meet with approval in Britain.

A detatchment of 1,000 bluejackets has been loaned by the British cruiser Weymouth to the United States to guard her embassy at Constantinople as the American station ship Scorpion has been allotted to duty on the Upper Bosphorus and the American cruisers are not expected until the latter part of the month.

During the seven months ending Nov. 1 of the current year, 300,841 immigrants arrived in Canada. Of this number, 200,701 arrived at the ocean ports, and 100,140 from tne United States. These figures show an increase of 13 per cent. as compared with the number of arrivals for the corresponding seven months last year.

Commercial Printing—The Miner Print Shop.

James Breen Dead

The death occurred recently at Anaconda, Mont., of Mr. James Breen, a millionaire mine-owner and smelterman for many years identified with the early development of Rossland. The late Mr. Breen built the Trail smelter for Mr. F. Augustus Heinze, a Butte mining operator now resident in New York. He subsequently built the Northport smelter and later sold out his quarter interest in the enterprise for $600,000.

Mr. Breen a few years later started a smelter enterprise at Crofton, Vancouver Island, in conjunction with other capitalists.

Canada Should Protest

That the government and parliament should send a protest to the British Colonial Office against the manner in which the United States proposed to discriminate against Canadian coasting vessels using the Panama canal and in favor of their own was the opinion expressed by Sir George Ross in his address to the Canadian Club at Toronto. Sir George considered the proposal to charge tolls against coasting ships using the canal and to rebate the amounts paid to United States boats constituted a violation of the Hay-Pauncefote Treaty guaranteeing that the waterway should be free and open to vessels of all nations on terms of entire equality. He suggested that Canada should not resort to retaliation, a mean sort of warfare. She should make her remonstrance to the colonial office, and if that proved ineffectual should carry an appeal to The Hague tribunal. The intimation that the United States might not consent to a reference to The Hague he considered an indication that the country recognized that it was in the wrong.

Redistribution Not Urgent

Ottawa, Nov. 18:—That no redistribution bill will be introduced by the government this sessionis the statement made by the Citizen.

"There has been much speculation in political circles for months," said the Citizen, "as to whether the ensuing session would embrace a parliamentary redistribution based on the census announced last year. The result of the measure will be to materially change existing conditions and give the west more members, while the east will lose proportionately.

"There is no particular urgency in the matter, inasmuch as the new delimitation of constituencies and change of representation could not take effect until after the next general election, and that is not an imminent contingency. To the heavy list of legislation for the next session such a bill is not likely to be added."

Commercial Printing—The Miner Print Shop.

Four Tracks for C. P. R.

Winnipeg, Nov. 18:—Chief Engineer Sullivan, of the C. P. R., announced at the railmay commission meeting that the C. P. R. would begin shortly the construction of two more tracks between Brandon and Fort William, making a four-track road for 600 miles.

Mr. G. J. Bury, vice-president, said the company at the same time would begin double-tracking its road from Montreal to Fort William.

W. J. McMillan & Co., Ltd., the Prince Rupert wholesale grocers, have a new representative in the Hazelton district. The popular Jack Edwards, who is about to take an extended vacation in California, is introducing to the firm's many friends Wm. McLennan, who will attend to the growing interests of the concern in the interior.

A. B. Shubert, the prominent Chicago dealer in raw furs, informs The Miner that during the coming winter extremely high prices will be brought by raw furs. There are small stocks in the primary markets, both in North America and Europe, and present conditions point to a very strong demand. Fashion continues to demand the wearing of furs, even in the milder climates, and the trapper will be one of the gainers.

For sale: Blacksmith and carpenter shop, with title to ground it stands on. Convenient location. Enquire E. H. Hicks Beach, Hazelton. tf.

C. P. R. Steamer "Princess Beatrice" sails from Prince Rupert for Vancouver at 8 P. M. on the following dates: November 24th, December 8th, and 22ud, or every alternate Sunday. Through connection made on these days with train from Hazelton.

Strayed or Stolen

From vicinity of 26-Mile House, in September last, black horse, about seven years of age, branded 10 on left hip, white star. Reward for information leading to recovery. Miner Office. tf

Local News Notes

A. L. McHugh was in town on Thursday.

This morning's rain was general as far north as Ninth Cabin.

Mrs. Boyd and children are visiting Vancouver and Victoria.

A heated car for perishable goods is being placed on the Rupert-Hazelton run.

W. P. Murray and P. B. Carr left on wednesday for a visit to the Bulkley Valley towns.

J. L. Christie, head bookkeeper R. Cunningham & Son, returned to Port Essington on Sunday.

Captain Bonser has been seriously ill at Vancouver, Wash., but is now recovering after an operation.

Frank Brown has returned from Owen lake, where he has been developing the Owen Lake group of silver-lead claims.

A large party went to the lake yesterday, to enjoy the first skating of the season. The rink downtown will be completed in a few days.

The Bulkley Valley Agricultural Association and Farmers' Institute has been gazetted and is now officially recognized by the government.

The bridge contractors are now engaged in placing the steel superstructure of the Mud creek bridge. The work will require several weeks time.

S. B. Slinger returned on Wednesday from Duncan, where he has spent the last month. He says the climate on Vancouver Island is nearly as good as that of Hazelton.

Ernest A. Price, the popular assistant postmaster, has been appointed railroad mail clerk on the Prince Rupert-Hazelton run, and will leave in a few days to assume his duties.

W. J. McAfee, of the Ingineca hotel, returned from Vancouver on Wednesday. He has purchased a Winton Six motor car, which will arrive in a few days. A garage is being fitted up for the car.

Notice to Creditors

Robert McClean deceased:—

Notice is hereby given that all persons having any claims or demands against the late Robert McClean, of Hazelton, British Columbia, teamster, who died at the Hazelton Hospital on 4th October, 1912, are required to send particulars to the undersigned the duly appointed Executors.

William Allison,
Gov't. Agent, Hazelton.
H. C. Wrinch,
Hazelton Hospital.

Dated 1st November, 1912.

LAND NOTICES

Omineca Land District. District of Coast, Range V.

Take notice that Robert J. Cooney of Victoria, B, C., axeman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted on left bank of Skeena river on south boundary of Gerald Bate Aldous' application to purchase and about 15 chains east of the S.E. corner of L. 917, Coast Range 5, thence east 60 chains, south 80 chains, west 60 chains more or less to Skeena river, thence northerly following Skeena river to point of commencement and containing 480 acres more or less.

Oct. 22, 1912. Robert J. Cooney.
19

Omineca Land District. District of Coast, Range V.

Take notice that Elizabeth Murray of St. Paul, Minn., married woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at southeast corner L. 4116, thence north 46 chains and 14 links, east 20 chains, south about 60 chains to Little Oliver Creek, thence westerly along creek to point of commencement and containing about 120 acres more or less.

Oct. 22, 1912. Elizabeth Murray.

Omineca Land District, District of Coast, Range V

Take notice that Fenton C. Murray of St. Paul, Minn., merchant, intends to apply for permission to purchase the following described lands;

Commencing at a post planted on the south bank of Little Oliver Creek and about forty chains east of the southwest corner of lot 4116, thence south 20 chains, west 20 chains, north 20 chains to the bank of little Oliver Creek, thence easterly along creek to point of commencement, containing about 40 acres. Fenton C. Murray.

Oct. 22, 1912. 19

D. K. Treffry, of Telkwa, is a visitor in town.

The Ferry Syndicate has decided to extend the ferry approaches as the Bulkley water lowers, and will maintain communication with South Hazelton until the completion of the high level bridge, even though a temporary bridge proves necessary.

The well-known launch Strongheart caught fire and burned to the water's edge a few days ago. The mishap occurred in the Skeena, the vessel drifting to a point opposite Essington, where she sank. "Tiny" Alexander and Tom Hanson, who were on board, escaped in the dinghy.

E. J. Tate, who, with Mrs. Tate, is sojourning in Vancouver, writes to The Miner that there are many people from this district in the Terminal City at present, and that a great deal of interest is being taken in the recent developments which have brought South Hazelton so prominently before the public.

Dr. C. G. McLean, assistant superintendent of the Hazelton hospital, returned on Saturday evening, from a vacation trip to the coast cities, The Prince Rupert, on which he sailed from Vancouver, was delayed by a heavy storm, reaching Prince Rupert several hours late, an unprecedented occurrence for this speedy boat.

M. C. Wanlich, the pioneer prospector of the Seven Sisters mountains, returned to town on Wednesday. On the Seven Sisters group, he says, a good deal of surface work has been done, with encouraging results. A tunnel on the vein has been started and everything is in train for active development work as soon as next season opens.

Montreal, Nov. 22:—Much interest is taken throughout Canada in the appointment at Washington of a federal grand jury to investigate the relations of the Grand Trunk with the New Haven road.

Asked the reason for the cessation of work on the Grand Trunk's Boston-Providence extensions, President Chamberlin said the stringency of the money market due to the Balkan war was responsible. The president of the New Haven road said the stoppage of work was the result of negotiations between his road and the Grand Trunk for a traffic agreement.

Washington is acting on the theory that the agreement is a violation of the restraint-of-trade section of the Sherman anti-trust law.

(Special to The Miner)

Victoria, Nov. 21:— A new branch of the lands department, to compile for the use of intending settlers and others general statistics in connection with the lands of the province, has been instituted. J. Gordon Smith, a former member of the Colonist staff, is in charge.

(Special to The Miner)

Vancouver, Nov. 21:— Hon. Thomas Taylor, minister of public works, states that over five million dollars has been expended during the year in the construction and improvement of roads, trails and bridges throughout the province. Of this amount half a million was devoted to the improvement of transportation facilities in the north. The minister expects that a greater amount will be devoted to roads and bridges next year.

From our new stock received this week we make special mention of a shipment of LINOLEUMS of special values, and attractive new patterns never offered here before. Special at 50 and 62 1-2 cents a yard.

Ladies' and Gents' Skating Boots, all sizes.

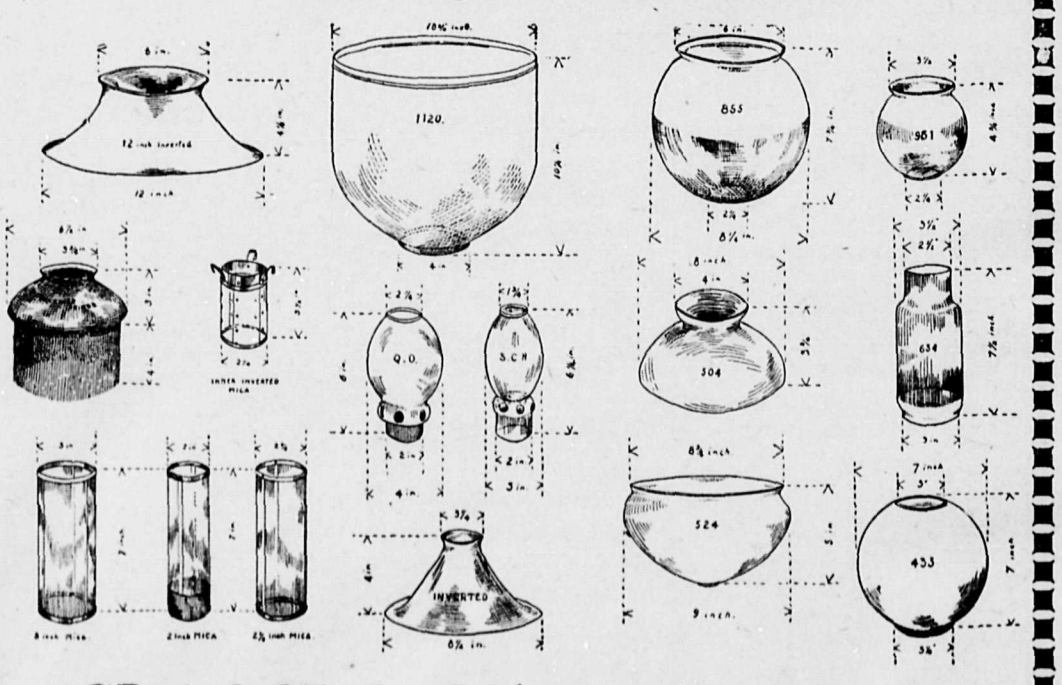
Ladies' and Gents' Hockey Skates, all sizes.

Get your skates early and be ready for the skating.

Beaver Board

BEAVER BOARD isn't boards shaped like a beaver's tail, rough of surface to take plaster---as one reader thought---but is made from pure wood reduced to fibrous form, specially treated, pressed into panels, three sixteenths of an inch thick, and in convenient lengths and widths to meet every condition of use. It is cream-white with a pebbled mat surface that is remarkably susceptible to artistic decoration. It stands a steady pressure of 440 pounds on 16-inch studding and will not crack or deteriorate. It withstands strain and vibration; it is a fire-retarder, a sound deadener, a non-conductor of heat or cold. Kleartone Oil Stain in its various tints will allow of any color arrangement. Ask to see Beaver Board display cards when next in our stores.

Moore Light Accessories



GLASSWARE AND MICAS.

Another large shipment including Tanks, Pumps, Mantles and Globes is to hand.

Harness Accessories

Our stock of Harness Findings is most complete and our prices most reasonable.

We have exceptional values in Black and Russet Halters.

R. Cunningham & Son, Ltd.
