THE LEADING WEEKLY NEWSPAPER IN NORTHERN BRITISH COLUMBIA

# The Omineca Miner

VOL. IV, NO. 13 | HAZELTON, B. C., SATURDAY, NOVEMBER 28, 1914 | PRICE $2.00 A YEAR

## LOCAL NEWS PARAGRAPHS

**Brief Items of Interest to the People of Hazelton and District**

The new rink is nearly completed.

A. S. Gray, of Cedarvale, was in town on Saturday.

Dr. Stone was down from Endako during the week.

Arthur Lindquist was down from Kispiox on Monday.

Bob McDonald expects to leave in a few days for Seattle, where he will spend the winter.

H. H. Little, manager of the Union Bank, has returned to duty, after a week's illness.

L. D. Fulton, who has joined the army medical corps, is taking a course of training at Work Point barracks, Victoria.

The school trustees, with the aid of a volunteer crew, erected a tall flagstaff in front of the public school on Monday.

Constable E. M. Browne, who was in charge of the police office here during the absence of Chief Minty, returned to his headquarters at Endako on Saturday.

Rev. J. R. Hewitt goes to Smithers today, to take services there for Rev. C. E. Batzold, and tomorrow's Methodist services will be conducted by Dr. Wrinch.

M. H. Laidlaw, manager of the Burns Lake Trading and Lumber Co., is spending a few days in town, on business. He states that the new hotel at Burns Lake is nearly ready for business.

### ADDITION TO THE PATRIOTIC FUND

The treasurer of the district Patriotic Fund acknowledges the receipt of $9.50 (additional) from Hazelton Hospital staff, and the following subscriptions from Kispiox:

| | |
|---|---|
| N. Nesberg | $ 2.00 |
| F. Griffin | 2.00 |

| S. Burgunder | 1.00 |
| Jas. Swann | .50 |
| Jas. Mathews | 1.50 |
| Peter Nielson | 2.00 |
| Fred Jenze | 1.00 |
| Anna Haggblad | 2.00 |
| H. Guest | 3.00 |
| Tom Emerson | 1.00 |
| Chas Pearce | 5.00 |
| W. C. Sanders | 2.00 |
| Geo. Findlay | 1.00 |
| Geo. Norman | 1.00 |
| Paul Magdal | 1.00 |
| J. D. Stewart | 1.00 |
| Chas. Janze | 1.00 |
| Jas. Hevenor | 1.00 |
| Arthur Lindquist | 1.00 |
| Alex. Olson | 1.00 |
| August Olsson | 1.00 |
| Chas. Lindahl | 1.00 |
| Lars Hagen | 1.00 |
| Ernst Johnson | 1.00 |

### Reward Offered

Chief Constable Minty, of Hazelton police district, offers a reward of $100 for the recovery of the body of Harry Barton, drowned in the Skeena river on August 17th last.

# GERMANS TRAPPED AND ROUTED IN POLAND

## *RUSSIANS SURROUND AND CAPTURE FIFTY THOUSAND*

## *---BRITISH WARSHIPS DESTROY GERMAN NAVAL PORT*

Petrograd, Nov. 28:—Further despatches from Russian Poland indicate the decisive character of the defeat of the German forces under the Crown Prince and General von Hindenberg by the Russian troops. An entire German army corps of fifty thousand was surrounded and surrendered in a body. Another army corps was completely routed, many detachments being captured. An army of Cossacks is in pursuit of the scattered and fleeing enemy.

In the southern zone the Russian forces maintain the offensive with great vigor, attacking the enemy along the Czenstochowa-Cracow line with redoubled intensity.

London, Nov. 28:—Despatches from Amsterdam give further details of the successful British bombardment of Germany's intended naval base at Zeebrugge. The first shell from the warships burst among the fleet of submarines which had been brought in sections by rail from the Baltic, and killed twenty men on their decks. After a score of shells had fallen, the submarines dived, with orders to run the gauntlet and attack the fleet. Several of the craft returned; but the fate of the others is unknown.

The utter destruction of the German naval works at Zeebrugge is confirmed.

The condition of affairs on the battlefront in Belgium is comparatively calm. The Anglo-French forces, with the Belgians cooperating, are drawing nearer to Ostend, and may seek to retake that city with the aid of warships. The gaps in the line of the Allied armies resulting from the desperate German attacks of the last fortnight have all been filled by fresh troops, and the forces are ready for an advance.

A German officer, taken prisoner and brought to Paris, says the Germans intended to make one more attempt to break through the Allies' line before Sunday, and that if unsuccessful a general retreat would be ordered.

A British and French warship squadron is protecting the Suez Canal and the Egyptian coast. British transports have landed a large force of Indian troops at Suez.

It is now reported that the German cruisers which were in Chilean ports on Nov. 1 have not yet sailed. If they have been interned, no advice has been received by the British government.

Despatches from Constantinople say the Sultan of Turkey has proclaimed a Holy War against Britain, France and Russia, calling upon all Mussulmans to fight with the Germans.

An admiralty enquiry into the destruction of the Bulwark has confirmed the theory that the explosion resulted from the dropping of a 12-inch lyddite shell on the floor of the magazine. There has been considerable speculation on the possibility of the disaster having been caused by a German spy. Lord Haldane, in a speech on the spy question, said the most dangerous spies in Great Britain are British.

Chancellor Lloyd George says the government war loan of a billion and a half has been greatly oversubscribed.

Reports state that the Servian army has been successful in recent operations against the Austrians.

According to Petrograd advices, the Kaiser some months ago proposed to Japan that she should fight against Russia in the war for which Germany was then preparing plans. The Japanese government flatly refused.

Ottawa, Nov. 28:—The Dominion government has given orders for forty armored motor cars of the most approved model, for a motor machine gun battery.

## THE MINER'S TELEGRAPHIC BULLETINS TELL STORY OF GREAT WAR DAY BY DAY

London, Nov. 23:—There is no important change in the position of the opposing armies on the western battle front. Between Arras and Oise the artillery of the Allies yesterday destroyed many lines of German trenches. The Germans bombarded Ypres, destroying the City Hall and many other buildings. Other districts in the zone of conflict in France and Belgium are reported quiet.

In the eastern struggle, the German armies endeavoring to break through to Warsaw are held in check, the great battle which has been in progress between the Vistula and Warta rivers for several days is still without result. The whole eastern campaign of the Germans is said to depend on the outcome of winter conditions, the frozen ground preventing the enemy from entrenching.

The stronghold of Przemysl, beseiged for weeks by the Russians, is believed to be nearly out of ammunition. The garrison offered to surrender if the Austrian soldiers were allowed to join their army. This the Russians refused. Attacks on the fortress have been resumed, and the Russians are confident that it will soon fall into their hands.

There is great uncertainty as to the progress of the operations in Turkey and in the Caucasus, conflicting reports being received from different sources. No news of importance was sent out by Constantinople last night.

In official reports by the Servian military authorities, the Austrian claims of victory over the Serbs are denied.

The government of Chile, which has been enforcing the rules of neutrality, has ordered out her fleet to capture two German supply ships, which left the port of Valparaiso without clearances. They will endeavor to provision the German warships now in the South Pacific.

London, Nov. 24:—The admiralty announces the sinking of a German submarine, off the coast of Scotland. The vessel raised a white flag after the first shot by the British patrol, which rescued the crew.

A despatch from Copenhagen tells of the destruction by the British of a German destroyer. Most of the crew were rescued.

The Russians have taken the city of Gumbinnen, in East Prussia. Petrograd reports say the situation is satisfactory, from a Russian point of view. The position stragetically is of extreme interest. Russians are moving forward on East Prussia on the north and on Cracow on the south, while in the center the Germans are driving the Russian line back on Poland and straining every effort to break through. They have strongly entrenched positions on the Vistula and Warthe, but even their complete success here, the Russians say, cannot avert the hammer stroke the Russian commander is preparing for them.

British aviators on Saturday raided Freiderichshaven, on Lake Constance, 225 miles within the German border, and dropped bombs which destroyed the Zeppelin factory at that point.

German warships have maintained a naval station, where they have provisioned and coaled, out of Valparaiso. Chile is determined to stop the breaches of her neutrality by the Germans, even at the cost of war.

A Rotterdam despatch says no civilians are allowed within two miles of Zeebruge. It is known that big engineering works are in progress. The entire coast from Knocke to Nieuport bristles with gun positions. The German artillery is regarded as of sufficient caliber and range to be effective against warships attempting to bombard the littoral. This is said to be the first step in the Geaman scheme of fortification preparatory to an attack on England.

The Turks have reached a point on the Suez Canal.

Placards calling for peace are reported to have appeared on the walls of Berlin.

Growing dissensions between the German and Austrian officers are reported, in Dutch despatches.

Ottawa has issued orders to officers commanding military districts throughout Canada to prepare for recruiting on a much larger scale. Canada's contribution to the army at the front will be increased to 108,000 men. The forces under arms in Canada will be brought up to a strength of 58,000.

Five prisoners of war were killed and twelve wounded in a detention camp on the Isle of Man, as a result of a desperate effort to escape and seize ships, in which they expected to reach the continent.

London, Nov. 25:—The great battle between the Vistula and Warthe rivers has apparently turned in favor of the Czar's forces. Official statements from Petrograd say that Von Hindenburg's army is retreating. The German forces engaged numbered 400,000. These are now reported separated and thousands have been surrounded snd taken prisoners. In cases, the fleeing enemy abandoned their guns. Even the German official reports suggest that Von Hindenburg's second thrust against Warsaw has been checked.

The battle of Lodz is still in progress, although the Russians, after yesterday's successes, have the ascendancy.

A report of Sunday's battle in Russian Armenia has been received. The Turks were defeated, over six thousand being captured by the Russians.

On the Czenstochowa-Cracow front the battle is developing successfully for the Russians. The enemy's attempted counter-attacks have been repulsed.

Reinforced by the arrival of the fourth contingent of fresh troops, the Germans have resumed the offensive in Flanders, between Arras and the sea. Yesterday was relatively quiet along the battle front, with intermittent cannonading at Ypres, Soissons and Rheims. As yet the Germans have not attempted a renewal of the concentrated attempt to break through the Allies' line. It is reported that the stage is being set for another desperate attack on the Franco-British front, and that a supreme effort to break

(Continued on Page Four)

## FOR A PERMANENT BRIDGE

**Meeting Tonight to Discuss Important Question of River Crossing.**

The winter bridge at the ferry crossing was damaged on Wednesday by unusually high water. A mudslide up the river backed the water up for a time, and when released the flood carried out several bents. The incident has caused a renewal of the agitation for a permanent bridge at this point and strong representations will be made to the provincial government, in the effort to secure a good bridge.

The business men of Hazelton have called a public meeting of citizens for tonight, to discuss the question of a bridge across the Bulkley river, at the site of the present ferry. The meeting will be held in the public schoolhouse at eight, and it is hoped all townspeople will attend.

### Hospital Sunday, Dec. 5

In accordance with custom, the first Sunday in December will be Hospital Sunday in Hazelton, and the Churches will all unite in the special services at St. Peter's Church. The collections will be devoted to the aid of Hazelton Hospital.

### County Court Postponed

The sitting of the county court in Hazelton, which was to have opened on Nov. 30, has been postponed, owing to the illness of Judge Young.

### Trains Delayed

Mudslides disarranged the train service on this section during the week. The colder weather of the last day or two has tightened up the gumbo, and no further trouble is anticipated in the near future.

### P. G. E. GRADING FINISHED SOON

Vancouver, Nov. 26:—President J. W. Stewart of the P. G. E. has returned from Fort George and states that all grading to that point will be completed by the end of the year. Six thousand men are at work. The Peace river extension has already been surveyed. This line will eventually join the Edmonton & Dunvegan, and will link up with Canadian Northern branches in Alberta.

### W. A.

The annual W. A. sale of work is to be held on Dec. 10. The ladies hope that the Sale this year, as formerly, will be a great success. The proceeds will be given to the Patriotic Fund.

The sewing meeting for the war fund will be held at the Mission House on Thursday, Dec. 3, at a quarter past three in the afternoon.

### Successful School Social

Last night's basket social and dance, in aid of the public school fund, drew a good crowd to Assembly Hall, and the affair proved most enjoyable to all. The net proceeds were $118.00. The trustees desire to thank all who assisted in the entertainment.

# The Omineca Miner

VOL. IV. SATURDAY, NOVEMBER 28, 1914. NO. 13

Those who realize that the great basic industry of mining is going to prove the greatest factor in the development and prosperity of British Columbia will be gratified to learn that Dr. Brock, lately chief of the Dominion Geological Survey, and now dean of the faculty of applied science in the British Columbia University, has accepted the presidency of the Vancouver Chamber of Mines. This organization, while it bears the name of Vancouver, is composed of mining men operating in every district of the province, and will undoubtedly meet with a considerable measure of success in its efforts to advance the mining industry. We regard the connection now established between the Chamber of Mines and the provincial university as a most encouraging sign of the times. In the person of Professor Brock, the Chamber has a president of wide experience and great ability, as well qualified for the office he has now accepted as for the high position he occupies in the university.

We hope to see mining courses of extended scope included in the curriculum of our new seat of learning, and particularly short, winter courses, similar to those which have proved so popular in the college of mines of the University of Washington. There are many men, engaged in prospecting and mining in this province, who would gladly take advantage of a three-months' session of lectures and demonstrations on mining subjeets. Such a course, designed to meet the needs of men who desire to know more of the technical side of prospecting, mining, and assaying, would be of untold benefit to the industry. There is no reason why such a program should not be adopted. As in the American university, short course students should have no fees or charges to pay except for materials actually used.

It would be well for those interested in this subject to bring it to the attention of the provincial authorities, who may be expected to look with favor upon a proposal so evidently practical and beneficial to the mining industry.

## THE BEST MINING INVESTMENTS

It is almost impossible to get a real money-making investment in a profit producing mine. The shares cost so much that the dividend rarely amounts to more than good interest on the money paid for the shares.

It follows, then, that the most favourable time to invest in a mining property is when the development work has been carried so far that values are known to be sufficiently great to make the investment profitable and where the only chance is in the values of the land that has not yet been developed, As money was needed to develop the project, so money is needed for mining machinery when the prospect has been developed.

The shrewd mining investor will seek such opportunities and take advantage of as many of them as his financial resources will warrant. It is in such investments that money is made in *mining*. Such are ideal investment opportunities, in that they combine safety and large profits as practically assured facts.

There is no better investment, all things considered, no more exciting, honorable, important undertaking or enterprise than the mining of gold, silver, copper, etc. The world needs these metals, must have them. And as long as the world stands men will struggle, sacrifice and persist in the hunt for them. Mining is honorable, in that it injures no man, but makes an initial contribution to the world's wealth from which all men derive benefit; whereas, if your store succeeds other stores must lose some trade to you. But if you find gold, it is not what Blackstone called "treasure trove," the recovery of old values, but the discovery of uew.

When an honest, clean-cut straight-out, bona fide mining offer comes your way, and you can prove it to be all that is claimed for it to makeit good, or you can see into it by means of the unmistakable evidences of truth which mark its very face as an honest thing—take some of it if you have the money; for if you get in right on the right kind of a mine before they open it up and the whole world knows the story of the millions that are in it, and everybody comes tumbling over everybody else to grab everything in sight, you'll get rich.—Exchange.

### Copper in B. C.

In concluding a very comprehensive and able contribution to the British Columbia Magazine, entitled "British Columbia's Coastal Copper Deposits," Ronald C. Campbell-Johnston, M. E., says:

"There can be no doubt concerning the presence here of abundant copper ores along the great length of B. C. in frequent deposits of immense tonnage contained in wide, extensive contact fissured zones. Now that most of the probable contingencies likely to be encountered are familiar and a thorough knowledge of whatalready has been accomplished is complete, therequisite values established to be only above one per cent ore, or less than $3.00, as paying its way commercially at the present day, and prospects most encouraging in being further able to yet successfully treat ores of less than one per cent tenor in copper, it behoves mining capital to take hold of these splendid industrials, with steady, lasting profits in sight, but now lying dormant, only waiting for a repetition of more successes throughout the coast range of British Columbia."

### Liquor License Application Notice

Notice is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for a renewal of the license for the sale of liquors by wholesale in and upon the premises known as the Hudson's Bay Company's store, situate at Hazelton, B. C., upon the lands described as lots 6 and 7, Hazelton townsite. 11

Dated this 15th day of October, 1914.

# The World's Doings in Brief

**News Notes from Many Sources**

The state of Arkansas is ablaze with forest fires.

Robert J. Burdette, a noted humorist and preacher, is dead at Pasadena, Cal.

A million-dollar fire destroyed a Southern Pacific elevator at Galveston, Texas.

Between Aug. 15 and Nov. 1, vessels using the Panama canal paid $735,182 in tolls.

The Alaska steamer Dirigo foundered off Cape Spencer. The crew was saved.

The New York stock exchange, closed since the beginning of the war, reopened today.

Four men were injured in a fire which destroyed the Savoy Hotel at Portland on Thursday.

Hon. Robert Jaffray is likely to succeed the late D. R. Wilkie as president of the Imperial Bank.

A number of lives were lost in wrecks during a terrific storm in the Gulf of St. Lawrence this week.

Washington rumors say W. J. Bryan, secretary of state, will retire from the Wilson cabinet in March.

Six Dublin newspapers have published pro-German articles, with the object of stopping Irish recruiting.

After a hearing on the ground, the railway commission ordered the building of a G. T. P. station at Prince George.

After an occupation of seven months, the American troops on Monday began the evacuation of Vera Cruz, Mexico.

Tin mines and mills in Wales are affected by the prohibition of the export of tin to Denmark, Holland and Sweden.

Forty-one of the crew of the steamer Hanalei, wrecked near San Francisco, were rescued. Fifteen are dead and five missing.

The government railway station at Levis, Que., was burned on Thursday. The cause of the fire is unknown. The loss is $60,000.

Prof. Brock, dean of the faculty of applied science at the University of B. C., has been elected president of the Vancouver Chamber of Mines.

Friends in England and Canada are urging the appointment of Sir Thomas Shaughnessy as high commissioner for Canada and his elevation to the peerage.

Following the discovery of a plot to restore the Manchu dynasty in China, many conspirators were arrested. Twenty were executed on Monday.

Eminent scientists believe that not a single microbe exists in mountain air above the height of two thousand feet.

## Mining and Business

The New York Herald some time ago had this to say of the mining industry:

"It is undeniable that the most influential men in the business world have turned their attention to mining, tue source of nearly all wealth. Those persons who have been enslaved to the idea that the only safe proposition is a five per cent or six per cent security now realize that many millions of interest have been lost to them through heeding the advice of those who are interested in cheap money. Further, the richest men in the world are mining kings, many of whom have grown powerful through the proper application of originally a moderate capital, and it is proved that while millions of dollars have been lost in railroads, farm mortgages, eastern industrials and building associations, the American mining industry has steadily advanced, making enormors profits for its supporters, building great states and cities, and pointing with pride to the American possessions of 253 mines that have paid in dividends over $625,000,000."

## The Psychological Moment

Now is the time to buy and develop mining claims. In a short time the greatest mining boom in the history of the world will occur. Take the frost off your feet and get ready for it.—Lowery's Ledge.

Recently compiled official figures place the gold production of Alaska to the close of last year at $228,392,540.

Roofing and building paper at Sargent's.

LAND NOTICES

Peace River Land District. District of Omineca.

Take notice that D. D. McKinnon, of Vancouver, restaurant keeper, intends to apply for permission to purchase the following described lands:

Aug. 10, 1914. Henrietta Plumbe.

## THE MINER'S WAR BULLETINS

(Continued from Page One)

through will be made about Dec. 10. The enemy intends to reach Calais at any cost.

The Paris official communique states that in the last five day's fighting in the region of Ypres, the infantry lost no positions and in places gained ground, destroying German guns. On Nov. 19-20 the French Zouaves, in hand-to-hand fighting, captured trenches filled with German dead.

Important developments are looked for in the immediate future, the entry of Portugal, which has definitely decided to take the part of the Allies, is likely to be followed by the participation of Italy and the Balkan states. Portuguese troops are now mobilizing.

Semi-official reports say the Scandinavian nations will form a defensive alliance against all the belligerent powers.

The Turkish government, according to Greek advices, has forbidden all subjects of the Allied powers, with the exception of women, and children under 18, to leave Turkish territory.

In Constantinople, the British embassy was ransacked, the Russian hospital was pillaged, and many foreigners were abused. Internal disorder is rife throughout the Ottoman empire.

Reports of Turkish successes at Suez were German fabrications. British operations on the Persian Gulf have been even more rapid and successful than anticipated. The Turks were signally defeated, leaving guns and wounded in the hands of the British. The port of Bacra was occupied on Saturday.

A Danish steamer collided with a German destroyer. The latter sank with all on board.

The German arrested in West Africa for an attempt to blow up the gunboat Dwarf with an infernal machine, proved to be a missionary. He declared he was a soldier first and a missionary afterwards.

It has been proved that the Germans violated the neutrality of Chile, their cruisers staying several days at Juan Fernandez Islands, where they captured neutral ships and seized coal and provisions. Chile is considering forcible action.

There is brisk speculation at Lloyd's on the war ending by March.

It has transpired that hostile cruisers cut the Jamaica cable on the morning of Aug. 3, before the declaration of war.

The Canadian automobile machine gun battery has gone to Glasgow for technical training.

---

London, Ont., Nov. 24:—The city police have arrested three Turks, who are said to have plotted the assassination of General Hughes, minister of militia, who is to arrive here tomorrow.

---

Victoria, Nov. 25:—Sir Richard McBride, in an interview, spoke of the confidence in England as to the ultimate result of the war. All who visited Salisbury Plains were proud of the soldierly appearance of Canada's troops.

A son of Col. McKay, of Vernon, has been killed in action.

---

London, Nov. 26:—A serious blow to the Germans was dealt by a British naval squadron, which steamed close to Zeebrugge, which the enemy had selected as a naval base, and in a three-hours' bombardment, destroyed a number of German submarines, which had been brought overland in sections. The city is reported afire. The Allies' ships destroyed large quantities of stores and war material, which the enemy had been collecting for weeks, in preparation for an attack on England.

Between Ypres and the sea there have been infantry attacks of some importance. The Allies gained territory between Langmarcke and Zonnebecke. In the vicinity of La Bassee, the trenches which were lost on Tuesday were retaken, three officers, 100 men and a motor machine gun battery being taken from the enemy. At Belincourt, northwest of Verdun, a German attack was repulsed. Suspension of hostilities was requested by the enemy, but refused.

The Russians are now pressing the Germans back from Lodz, where a battle has been raging for several days. Petrograd also reports success against the Austrians in Galicia and the Turks in the passes of the Carpathian mountains. The Czar's forces captured another Austrian general, with forty officers and 4000 troops. Russians have occupied the Hungarian city of Homonni.

A pitched battle between German and Austrian troops in the streets of Przemysl is reported to have followed the action of the Germans in hanging the Austrian commander of the fortress because he had planned its surrender to the Russians.

Although the danger of invasion is not generally regarded as grave, England is fully prepared to repel any attempts on the part of the enemy.

Odds of ten to six are given at Lloyd's that the war will end before the close of March.

Remarkable work on the part of the Indian troops is reported from the front.

Chilean warships have sailed to intercept German vessels. The American steamer, Sacramento, formerly the German Alexandria, from San Francisco with coal and provisions, ostensibly for Valparaiso, transshipped her cargo to German warships in the territorial waters of Chile. Knowledge of this has caused strong feeling in Chile.

Two steamers, which intended to sail from San Francisco, with cargoes similar to that of the Sacramento, have been refused clearance, under instructions of the treasury department.

British and French warships have attacked the Austrian fleet, in the Adriatic. The result has not yet transpired.

---

Petrograd, Nov. 26:—The prolonged battle of Lodz, in Russian Poland, has been decided. The Russian army routed the entire German force today. The enemy's army is estimated to have numbered half a million men, comprised in eleven army corps. The Germans suffered enormous losses. It is estimated that the Russians captured 50,000 prisoners.

---

London, Nov. 27:—Lord Kitchener annouces the defeat of the German army in Poland, with the heaviest losses yet suffered by any forces in the war. The German-Austrian rout in Russian Poland is complete. The enemy was enticed into a skilfully laid trap by the strategists of the Russian army.

Forty-eight trains have been despatched from Warsaw to bring in the prisoners and wounded from the Lodz battlefield.

The defeat of the German right wing will compel the left, which held positions on the Vistula, to retreat.

Dixmude has again been taken by the Allies,

The British battleship Bulwark was accidentally blown up while loading ammunition, She was anchored in the naval port of Sheerness when the disaster occurred. Only twelve of her complement of 750 were saved. The Bulwark was built fifteen years ago, and was of 15,000 tons displacement.

Lord Kitchener, in the house of lords, referred to the German advance toward Dunkirk and the attempted dash for Calais. He said a British cavalry force extending over seven miles of trenches, threw back overwhelming numbers of the enemy in two days' fighting. When reinforcements of Indian troops arrived the march towards Calais was stopped.

Near Erzeroum, Russian forces continue the pursuit of the Turks. They have taken many prisoners and quantities of ammunition and stores. The roads are said to be strewn with the frozen bodies of Turks.

A strong force, under command of General Botha, is pressing De Wet's rebels in South Africa. Their surrender is believed to be imminent.

The Allies are bombarding Arnaville, eleven miles south of Metz.

A German aeroplane captured by the Allies was carrying circulars intended for the Hindu troops, calling upon them to desert. Two other German planes were brought down in an aerial fight.

## LOCAL NEWS PARAGRAPHS

A son was born to Mr. and Mrs. L. O. Forde, of Ardara farm, Francois lake, on Nov. 21.

---

It is probable that the town hockey league for this season will include four teams, instead of the three that played last winter. The contests between the rival aggregations should prove interesting.

---

H. A. DuHamel, of the O. K. barber shop, left on Thursday for Pasadena, Cal., where he will spend the winter. C. E. Burns, a capable barber who comes from Fort George, will conduct the shop during the winter.

---

In the expectation that the first contingent will not go to the front until after Christmas, the Canadians at Salisbury Plain organized a star hockey team. Jack Aldous, captain of last year's Smithers team, is rover.

---

### Murder Trial at Rupert

Over a score of witnesses will leave for Prince Rupert on Tuesday, to give evidence in the trial of John May, the young Indian charged with the murder of Albert Taylor. Sam Morris, the negro charged with attempted murder, will also be tried at the assizes, which open on Wednesday.

---

### Murderer Captured

Vancouver, Nov. 23:—The Italian slayer of Detective Lewis, who was killed in this city while attempting the criminal's arrest, has been captured in St. Louis.

---

### Drowned at Coquitlam

Vancouver, Nov. 23: — Four well-known athletes were drowned yesterday, when an auto in which they were riding ran off a wharf into the Pitt river, at Coquitlam. The victims were Struther Gunn, noted as a lacrosse player, Matthew Nivens, Alex. Burnett and Horace Skuce. Four others, who were in the car, escaped death, being rescued from the river.

---

Big assortment of stoveboards at Sargent's.

---

A general strike of seamen in British ports was called on Thursday. Sixty thousand men involved. The government will attempt to arrange a settlement.

---

During 1913, 10,721 men were employed in the mines of B. C.

## DEVELOPMENT ON PORTLAND CANAL

The Portland Canal Tunnels, Ltd., is continuing the work of developing at depth the group of mineral claims, situated four or five miles from Stewart, at the head of the Portland canal, on which it has been working for about two years. The main crosscut adit is now in about 3600 ft. Other work in progress is that of making a raise from the Lucky Boy drift to the surface. For fully 1200 ft. the main crosscut has been passing through an ore zone. Ore of pay grade has been found within the "fissure zone" upon every mining claim from the Lucky Seven on the south to the Sunbeam on the north. This covers a distance of nearly 15,000 ft.—Alaska and North West Mining Journal.
