GREAT PLANS FOR FUTURE

British Columbia has Recognition in Money Markets of the World.

NEEDS NAVAL PROTECTION

Sir Richard McBride in Speech at Conservative Picnic Praises Borden and Dwells upon the Necessity of Adequate Naval Defence.

(Special to The Miner)

Vancouver, July 12:—In an address delivered at the great Conservative picnic at Ganges Harbor, Sir Richard McBride said:

"We in the government enjoy power simply because we have the confidence and approval of the people. We have been enabled to carry through and inaugerate works of great magnitude and we continue in office because our first consideration is for the land in which we live and not the party for which we stand. But we have even bigger plans for the future in the way of railroad development, and we must make our foundations broad and deep so that when the country comes into its own we may continue to enjoy that reputation for clean and efficient government to which we can lay claim for the last nine years.

"There is not a single part of the British Empire which has better recognition in the money markets of the world than British Columbia. To open up this country we need money and to get that money we must have reputation. British Columbia has that reputation and so has the Dominion. Premier Borden and his colleagues are now in England, and we look forward with great expectations to the result of their visit. I am satisfied as a Canadian and a Conservative that Mr. Borden will not fail us on this occasion. You nay look to him, and not in vain, to come back from London with a progressive policy of naval defence and put Canada in her proper place—side by side with New Zealand and Australia.

"Naval defence is not a political question. Like military defence it must be regarded from a national standpoint. It must be removed from the influence of the hustings. I regret that some Canadians are satisfied to shelter behind the home land. Thank goodness they are only a few, but a few can make a lot of noise.

"In British Columbia, we are, however, practically unanimous on this question. We are satisfied that adequate naval defence is our best insurance. With vast harbor projects occupying our attention the need for naval protection is driven forcibly home. Vancouver is the show window of Western Canada, and Victoria, New Westminster and Nanaimo are also windows and the best method of protecting ourselves is with a strong navy and an efficient militia. Mr. Borden can not do too much in giving Canada a navy worthy of the traditions of the empire."

The Premier referred to his recent visit to England when he was privileged to see the fleet review and to be received by the King on the royal yacht.

"His Majesty is Canadian in every sense of the word." said the Premier, "And he was so interested in this portion of his empire that I asked his permission to avail myself of the first opportunity after my return of informing you of his kindly interest. I was the lucky person upon whom a great honor fell and I wish to say that I appreciate the fact that the honor is a recognition of British Columbia and Western Canada more than personal qualities."

Distinguished Visitors

Sir Richard McBride and Hon. W. J. Bowser will be guests of honor at a public meeting on Tuesday evening, July 16th, at eight o'clock in the auditorium.

American Athletes Again Superior

(Special to The Miner)

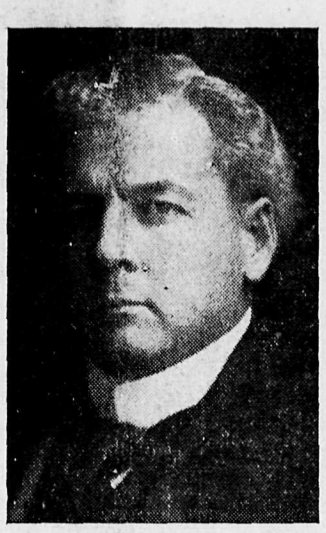
Stockholm, July 12:— The standing of nations at the opening of today's events at the Olympic games was as follows: United States, 80 points, Great Britain 51, Sweden 26, Germany 23, Finland 20, France 19, Denmark 11, Africa 11, Italy nine, Canada six, Australia four, Russia, Greece, Austria, Belgium, three each, and Holland two. In track and field events alone United States leads with fifty points, Finland second with sixteen, and Great Britain third with ten. World's record for broad jump broken by Guterson of Vermont, he making a mark of twenty four feet eleven inches which is five inches better than best previous record.

TYSON SAYS WILL STAND BY REPORT

If People of Hazelton Have Their Way He'll Probably Fall By It

(Special to The Miner)

Vancouver, July 8:—The Miner representative today interviewed H. S. Clements, M. P. and A. Tyson, Indian inspector, in connection with the order for the removal of White residents from the Indian Reserve at Hazelton. Mr. Clements asserted that the order had been passed without any reference to him, and agreed to endorse the request that it be held in abeyance. Inspector Tyson showed the Miner man a copy of his report to the Department, on which the order was based. Its somewhat obscure wording is subject to the construction that he found the occupancy of Indian property by Whites demoralizing to the natives, and it was evidently so construed by the Indian Department. In it he stated that he was strongly opposed to Whites being allowed to live on the Reserve, as such occupancy "invariably caused trouble." He gave prominence to the fact that baseball games are played on the Reserve and told of three men attending a game being arrested and fined for having liquor in their possession on the Reserve. In conclusion, he recommended that White residents be compelled to remove from the reserve. Neither in his report nor in reply to the reporter's questions did he give any specific case of trouble caused by White residents on the Reserve; nor did he give any authority for his statement that such trouble had been caused. He declared his intention of "Standing by" his report.



Sir Richard McBride, K.C.M.G.

who will visit Hazelton on Tuesday, July 16th.

PREMIER BORDEN RECEIVES ROYAL WELCOME IN ENGLAND

Remarkable Display of Enthusiasm On His Arrival In London --- Will Be Leading Figure In Public Affairs.

A special wire today brings news of the enthusiastic reception of Premier Borden and party in England. On arrival at Paddington station they were met by Lord Strathcona, Donald McMaster and a large party of Canadians. The colonial office was represented by Sir Hartman Just and Lionel Earle, the latter being private secretary to Mr. Harcourt. The party proceeded to the Savoy hotel.

Newspapers gave great prominence to Mr. Borden's arrival. Photographs of himself and his colleagues are plentiful. The Royal Colonial Institute has invited a distinguished company for Wednesday when it dines him.

In a great speech delivered before a record breaking gathering including representatives of the entire Empire, Mr. Borden deeply impressed all present. With measured dignity he enunciated Canadian policy. When he pronounced emphatically that Canada and Canadians stood for "One King, One Flag, One Empire and One Navy," cheering was vociferous and enthusiastic. Applause was again renewed when Mr. Borden added that not one jot of Canada's autonomy would be sacrificed and that, as regards both immediate co-operation to meet present emergency and a permanent basis of plans of defense, he would say that the Canadian people came of races that had never failed to realize and act upon their responsibilities.

Public men of long experience who were present agreed that no more remarkable demonstration ever greeted a colonial premier in this country than on the conclusion of this speech. One of the great London dailies, in speaking of Borden says he is now one of the "leading, trusted and inspired figures in the arena of public affairs."

The London Times, in reviewing Borden's speech says "Canadian people could undertake no permanent share in defence without voice in policy which shapes issues of peace and war. It is a nation with a nation's rights, a great part of a greater whole, and if it is to take its share in imperial defence it must have its proper voice in relations of empire with foreign powers."

The Standard uses such phrases as "Tumultuous welcome," "Splendid speech which delighted hearers to last ditch of enthusiasm."

On Admiralty Board

London, July 10:—The Daily Mail says it may be regarded as certain that the Canadian government will seek to be represented on the admiralty board and the imperial defence committee.

A request of this kind, accompanied as it would be with definite naval proposals could not be denied.

The presence of Canadian experts in these departments of imperial defence would be of the greatest advantage to every part of the empire.

Rt. Hon. R. L. Borden is spending the week end with Mr. Donald McMaster, member for Chertsey in the House of Commons. Mrs. Borden says they are only able to accept one in ten of the invitations showered upon them.

Earthquake Rocks Fairbanks

(Special to The Miner)

Fairbanks, Alaska, July 12—The most violent earthquake ever known here took place at 10 o'clock last night, the earth rocking continuously for forty seconds. Less violent shocks occured throughout the night.

Louis Anderson, foreman of a mine on Dome creek, was killed as a result of the earthquake. He was suffocated beneath a huge slab of earth which the quake loosened from the roof of the mine.

Royalists Attempt to Restore Monarchy

(Special to The Miner)

Madrid, July 12:—Renewed reports have been received here of an impending attempt to restore the monarchy in Portugal. From the northern provinces of that country many families are fleeing across the border to Spain, as they fear uprisings. The authorities today seized a motor car near Monforte, bound for Vigo loaded with one hundred rifles and twenty thousand cartridges destined for the use of the monarchists.

The town of Cabeceirae is now being held by the Royalists and the Republican government is rushing troops to the scene. The battleship Vasco de Gama has been ordered to quell disorder in the towns in the northern provinces.

HEAT WAVE CAUSES NUMEROUS DEATHS

East's Annual Hot Spell Claiming its Usual Number of Victims

(Special to The Miner)

Montreal, July 12:—The heat wave which is prevalent has caused the deaths of 92 children under the age of five during the last few days. The present hot wave is the worst for many years. The water supply is running short.

New York, July 12:—Four deaths were recorded here from heat today. The weather bureau states that today is the warmest July 10 since 1876. At Boston three deaths and twenty-five prostrations were reported. At Philadelphia eleven deaths are reported due to heat and many prostrations.

Chicago, July 12:—Ten deaths from the heat and twenty-two prostrations were reported today. Heat crazed dogs bit fifteen persons. Three hundred thousand men, women and children left the city to escape from the heat. Thousands sought relief at first by sleeping, or trying to sleep, in the open air in parks, on roofs and on the lake shores. There were many cases of erratic behavior on the part of persons driven semi-insane by the intense heat and humidity. The police force and ambulance corps were kept busy all day and night.

The strain on the sick, of the heat-wave, was severe, and apart from the death roll directly attributable to the effects of heat on the otherwise healthy, there might be listed the deaths of scores of invalids and persons newly stricken or barely recovering from various illnesses, who succumbed in homes and hospitals to the effects of the aggravation of their complaints by the heat.

The railway and other transportation companies were taxed to the utmost to convey the escaping thousands who streamed out of the heat beseiged city.

Chicago, July 13:—Damage aggregating $150,000 was caused by an electrical storm which beat upon Chicago last night, when 5 inches of rain fell. The storm brought relief from the heat wave. Lightning struck a tenement in West Lake street and twenty families were made homeless by the fire which followed.

NEW PARTY TO BE LAUNCHED

Will Be Known As the "National Progressive" Party--- Roosevelt At Head

CONVENTION AUGUST 5TH

Immediate Revision of the Tariff Downward Will Be One of the Prominent Planks of the Platform---Prominent Newspaper Men To Give Support

New York, July 11:—A call to the people of the United States who are in sympathy with the National Progressive party, to elect delegates to a convention, which is to be held August 5th in Chicago, was given out today by United States Senator Joseph M. Dixon, of Montana, Theodore Roosevelt's campaign manager. The call is signed by members of the committee chosen at a meeting held in Chicago, and also bears signatures of Roosevelt followers in forty states.

The text of the call is:

"To the people of the United States, without regard to past differences, who, through repeated betrayals, realize that today the power of the crooked political bosses and of the privileged classes behind them is so strong in the two old party organizations, that no help in the real interests of our country can come out of either.

"Who believe that the time has come for a national progressive movement—a nation wide movement—on non-sectional lines so that the people may be served in sincerity and truth by an organization, unfettered by obligations to conflicting interests.

"Who believe in the right and capacity of the people to rule themselves and effectively to control all the agencies of their government and who hold that only through social and individual justice, thus secured, can honest property find permanent protection.

"Who believe that government by the few tends to become and has, in fact, become government by the sordid influences that control the few.

"Who believe that only through the movement proposed can we obtain in the nation and the several states the legislation demanded by the modern industrial evolution; legislation which shall favor honest business and yet control the great agencies of modern business so as to insure their being used in the interest of the whole people; legislation which shall promote prosperity and at the same time secure the better and more equitable diffusion of prosperity; legislation which shall promote the economic well being of the honest farmer, wage worker, professional man and business man alike, but which shall at the same time strike—in efficient fashion, and not pretend to strike—at the roots of privilege in the world of industry no less than in the world of politics.

(Continued on Page Ten)

Duke May Visit Us

Ottawa: The Duke of Gonnaught will visit British Columbia in Septemter, extending his tour to Prince Rupert, which he will visit on September 23, and possibly to Hazelton.

VOL. I. SATURDAY, JULY 13, 1912. No. 46.

Sir Richard McBride, Premier of British Columbia, accompanied by Attorney-General Bowser, will pay Hazelton a brief visit on Tuesday next. The Premier comes as the head of a representative government and, as is fitting, his reception will be devoid of any partisan features. The ministers have expressed a desire to meet the public bodies of the town and district and the citizens generally, to learn at first hand of the needs and desires of Hazelton and Omineca. While their time in Hazelton will, unfortunately, be too short to allow them to see much of the development of which the citizens are justifiably proud, they cannot fail to be impressed with the potential greatness of this part of the great interior, and will be in a better position to appreciate the requirements of the district as such are brought to their attention from time to time.

Inspector Tyson, of the Indian Department, declares that in recommending the immediate removal of white residents from the Indian reserve he had no wish to put those affected to any inconvenience. As against this declaimer we have the evidence of his report to the Department, in which he recommends that the Indian Agent be ordered to enforce the vacation of the reserve by all whites, alleging, inter alia, that the occupancy of Indian lands by whites invariably causes trouble. When pinned down to the question, the Inspector could not give any instance in which the tenancy of whites had caused any kind of trouble in Hazelton. In no manner can Tyson's report be justified. It stamps him as an official of remarkable incompetence and one whom the authorities should remove, for the good of the service. It is unthinkable that the Indian Department, when cognizant of the facts, will enforce the order issued on the Inspector's recommendation. Steps have already been taken to inform the head of the Department of the true state of the case, and we feel justified in predicting that the order will be held in abeyance. In the meantime, the attention of the authorities will be called to Tyson's lack of qualification for the office to which he was appointed.

His Royal Highness, the Duke of Connaught, Governor-General of Canada, is to make a tour of British Columbia in September and October of this year. Needless to say, the son of Queen Victoria and brother of King Edward will be welcomed and acclaimed at every point he visits. The program of the tour, as set forth in the official notice, provides for the arrival of the Royal party in Prince Rupert on September 23. Contemplating the possibility of a visit to Hazelton, the itinerary has been arranged to allow departure from the coast city to be delayed until the evening of September 25. In the circumstances, it would seem that the people of Hazelton will have no one but themselves to blame if the Prince and his party do not come here.

As a point of importance at present and of enormous possibilities for the future, Hazelton is well worthy of a visit from the distinguished traveler. His Royal Highness would doubtless appreciate the magnificent scenery of the Skeena, the picturesque features of the town and its surroundings, and the evidences of potential wealth to be seen on every hand. The people of the town and district would be glad to see in person the Governor-General whose kingly lineage, high attainments and pleasing personality have made him popular the world over. A visit by the Duke of Connaught would, we are confident, bring Hazelton before the public eye in a manner gratifying to all who are proud of this district.

We have no doubt that the Board of Trade will immediately take steps to secure the honor of a visit from the Duke, and would suggest that proper representations be made through Sir Richard McBride, whose visit next Tuesday will afford an opportunity for a conference on the subject. The Premier has always proved friendly to Hazelton and Omineca district, and will undoubtedly do his utmost to further the desires of the people of the town in this, as in other matters.

The Disaster at Regina.

The heartfelt sympathy of the whole Canadian people will go out to the citizens of Regina as a consequence of the calamity to which they have been subjected. At such a time, however, it is not words, but action, which tell and there is no doubt that if anything can be done to relieve the distress or diminish the suffering created by this visitation the outside public will be prompt to offer their aid. It is to be hoped that when the full extent of the disaster becomes known it will be found to be less great than at first supposed, although, undoubtedly, the lives lost and the property destroyed must in any event be regarded in the light of a national catastrophe.

The history of the Canadian middle west is fortunately very free from disastrous visitations of this kind. In fact, the occurrence at Regina on Sunday is so unusual that it cannot be imputed to any defect of climate. It is true that the Dakotas, immediately south of the international boundary line, have been more or less subjected to cyclonic conditions, but such conditions have hardly been known at all in the Canadian territories. In fact, the Canadian middle west has been as free, practically, from trouble of this kind as Ontario or British Columbia, the provinces east and west of the prairie country, whose climatic conditions are exceptionally reliable. That even Ontario has had experience of cyclones shows that no part of the continent is entirely exempt. Some sixteen or seventeen years ago, as it will be remembered, one of these destructive agencies passed over the city of St. Catherines and nearly demolished the village of Merritton, shattering several buildings of the paper company which operates there and killing a number of people.

The Hudson Bay Railway

Ottawa, July 10;— That the Hudson Bay railway when completed will pay not only expenses but dividends, is a prediction ventured in a report issued by the commission of conservation. The prediction is based upon the belief that great mineral wealth would be developed along this line of railway. In this connection the report states:

It is perhaps not common knowledge that the northern part Keewatin is rich in mineral, especially copper. It has even been stated that in all there is practically two hundred square miles of such prospects on the mainland southwest of Baffin Island. Further at the present time New York copper magnates have men at work in these very regions, staking up everything that may prove capable of producing copper. To make mining possible, a means of shipping ore to smelters must be secured. At present the only outlet is by way of Hudson Strait and this is available for only four months in the year. Here is where the Hudson Bay line should secure much of its returning freight traffic. It is a long haul, but it is not as great a problem as was the development of the route to Dawson.

That such a class of freight would pay, there need be no doubt. The wealthiest railroad companies in the United States are large carriers of mineral ores. Over sixty-six per cent. of the traffic carried by the Pennsylvania railroad, the largest freight carrying railroad in the world, is made up of mineral. Thus the new grain outlet for the west, the Hudson Bay railway, may be made not only to pay expenses but dividends.

A Severe Test

Geneva, Switzerland, July 10;—Emil Fisher, a young mechanic of Chur, the capital of the Canton of Grisons, an ardent Socialist and treasurer of the trades at Chur, has inherited $130,000 from an uncle who died recently in New York state. His comrades think Fisher will divide the fortune in accordance with his beliefs, but Fisher is silent on the subject.

Two Thousand New Settlers

Quebec, July 12:— Two thousand six hundred passengers arrived in two steamers from Liverpool this afternoon. The Allen steamer Corsican brought 1,103 passengers and the Empress of Ireland, 1,500. The Empress had one passenger added to her passenger list on the voyage, a baby girl born to Mr. and Mrs. Thomas of the second cabin.

NOTICE

His Honor, the Lieutenant-Governor has received a dispatch from the Military Secretary to His Royal Highness the Duke of Connaught, Governor-General of Canada, setting forth the program of the tour of His Royal Highness in British Columbia during September and October next. The following places will be visited:

KAMLOOPS—3 p. m. to 6:15 p. m. on the 17th September.
VANCOUVER—3 p. m. on the 18th September to evening of 20th.
NEW WESTMINSTER—On 21st Sept.
PRINCE RUPERT—11 a. m. on 23rd September to evening of 25th (including a possible visit to Hazelton.)
NANAIMO—11 a. m. to 1 p. m., on the 27th September.
VICTORIA—Evening 27th September to 3rd October.
VERNON—Morning 4th October to 11 a. m. on same day.
PENTICTON—4 p. m. on 4th October to 5 p. m. on 5th.
ROBSON via ARROWHEAD—7 p. m. to 9 p. m. on 6th October.
NELSON—Morning of 7th October till noon on same day.
KOOTENAY LANDING—6 p. m. on 7th, leaving early next day.

Provincial Secretary's Office,
Victoria, 5th July, 1912.

Commencing at a post planted 3 miles west of lot 479; thence south 80 chains, west 40 chains, north 80 chains east 40 chains to point of commencment, containing 320 acres more or less.

April 15 1912. Wesley Paul
Bernard J. McMahon. Agt.

Cassiar Land District. District of Cassiar

Take notice that James R. Piggot of Vancouver, clerk, intends to apply for permission to purchase the following described lands;

Commencing at a post planted 1 mile west of lot 479, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains to point of commencement containing 640 acres more or less.

April 15 1912. James R. Piggott.
Bernard J. McMahon Agent.

Hazelton Land District. District of Coast, Range 5.

Take notice that William James Eakin of Hazelton, farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of lot 738, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains to point of commencement, containing 640 acres, more or less. William James Eakin.
June 10, 1912. 53

Hazelton Land District. District of Coast, Range 5.

Take notice that William Eakin, of Hazelton, farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted 80 chains west from the northeast corner of lot 737, thence south 40 chains, west 40 chains, north 40 chains, east 40 chains to point of commencement, containing 160 acres, more or less.
June 11, 1912. 53 William Eakin.

Hazelton Land District. District of Coast, Range 5.

Take notice that Ernest Lofquist, of Hazelton, clerk, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southeast corner of lot 718, thence north 80 chains, east 40 chains, south 80 chains, west 40 chains to point of commencement, containing 320 acres, more or less. Ernest Lofquist.
June 11, 1912. 53

Hazelton Land District. District of Coast, Range 5.

Take notice that Margaret B. Frew, of Quebec, P. Q., spinster, intends to apply for permission to purchase the following described lands:

Commencing at a post planted 40 chains south and 40 chains west of the southeast corner of lot 738, thence south 40 chains, west 40 chains, north 40 chains, east 40 chains to point of commencement, containing 160 acres, more or less. Margaret B. Frew.
June 10, 1912. 53

Hazelton Land District. District of Coast, Range 5.

Take notice that Joseph H. Reycraft of Vancouver, broker, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southeast corner of lot 718, thence south 80 chains, east 40 chains, north 80 chains, west 40 chains to point of commencement, containing 320 acres, more or less. Joseph H. Reycraft.
June 11, 1912. 53

Hazelton Land District. District of Coast, Range 5.

Take notice that Robert McDonald of Hazelton, prospector, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of lot 738, thence north 40 cnaihs, west 40 chains, north 40 chains, west 40 chains, south 80 chains, east 80 chains to point of commencement, containing 480 acres, more or less. Robert McDonald.
June 10, 1912. 53

Hazelton Land District. District of Coast, Range 5.

Take notice that William Gosnell of Vancouver, butcher, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about 40 chains west of the northeast corner of lot 730, thence north 80 chains, west 40 chains, south 80 chains, east 40 chains to point of commencement, containing 320 acres more or less.
June 10, 1912. 53 William Gosnell.

Hazelton Land District. District of Coast, Range 5.

Take notice that Allison E. Fawcett, of Hazelton, clerk, intends to apply for permission to purchase the following described lands:

Commencing at a post planted 80 chains west of the northeast corner of lot 737, thence north 80 chains, east 40 chains, south 80 chains, west 40 chains to point of commencement, containing 320 acres, more or less.
June 11, 1912. 53 Allison E. Fawcett.

Omineca Land District. District of Cassiar.

Take notice that Elmer Cameron, of Hazelton, occupation painter, intends to apply for permission to purchase the following described lands:

Commencing at a post planted 80 chains south from the southeast corner of lot 1967, Cassiar, and being on the west bank of Kitwancool Lake, thence south 80 chains, more or less, meandering the lake, thence west 40 chains, more or less, thence north 80 chains, more or less, thence east 40 chains, more or less to point of commencement, containing 320 acres more or less.
June 14, 1912. 53 Elmer Cameron.

WOODROW WILSON WILL LEAD DEMOCRATIC PARTY

Platform Approved by Bryan Adopted and Harmony Prevails among Party Leaders

For president—Governor Woodrow Wilson, of New Jersey.

For vice-president— Governor Thos. R. Marshall, of Indiana.

This was the ticket completed by the Democratic national convention at Baltimore last week.

Governor Woodrow Wilson was nominated for president on the forty-sixth ballot. He received 990 votes to 84 for Champ Clark. The Missouri delegation, which remained to Clark to the end, then moved that the nomination be made unaminous. There was a great chorus of approval and the long fight was over.

The nomination of Governor Marshall for vice-president came as something of a surprise, for when the balloting for vice-president began it seemed that the Bryan-Wilson contingent in the convention had definitely settled upon Governor Joseph E. Burke, of North Dakota.

There was not much of a fight, however, and when two ballots disclosed Marshall easily in the lead, Governor Burke's name was withdrawn and Marshall was proclaimed the nominee by acclamation. A minute later the convention had adjourned sine die.

The platform hewed out in committee several days ago, and warmly praised by Mr. Bryan, was adopted with a whoop.

The Canadian Pacific Steamer "Princess Royal" leaves Prince Rupert for Vancouver at 9 p. m. every Sunday, one hour after arrival of G. T. P. train from Skeena Crossing, arriving Vancouver 8.30 a. m. Tuesday. 47

Kaizer and Czar Confer

Berlin, July 12;—Germans wait with the keenest interest interest and the liveliest anticipations the results of the visit between the Kaiser and the Czar. The meeting came to an end on Saturday when the Czar, at the special request of the Kasier, went aboard the battleship cruiser Moltke to make a through insqection of this pride of the German navey.

It has been asserted that the object of the meeting was merely to cement the already cordial relations between the German and Russian empires. It has been specifically denied that either monarch cherished the idea of taking steps to end the Turkish-Italian war and Germany in particular has disavowed any intention of trying to undermine Russian allegiance to either the French alliance or the triple entente. These assertions have, however, convinced only the uninitiated.

The imposing entourage wherewith the two Emperors surrounded themselves, prime ministers, foreign secretaries, ambassadors, admirals and generals is evident enough that weighty affairs in the political, military and naval spheres were topics of discussion.

A number of suggestive editorial references during the week have let the cat out of the bag with regard to what Germany wants of Russia. That is nothing more nor less than a friendly understanding to the effect that Russia will decline to fall on Germany's rear if the day should ever come when Germany and Austria find themselves in a death grapple with Great Britain and France. Nobody in authority will ever admit thatthis is the goal of German diplomatic ambitions in respect to Russia, but it is thoroughly well understood to be the case, just the same.

Will Prevent Railway Accidents

London, July 10;—Two trains without engine drivers, approaching each other with high speed on the same line of rails, automatically stopped when a collision seemed inevitable at a demonstration given at Watchet, Somerset, today by A. R. Angus of Sydney, New South Wales, of a new electrical device he has invented to prevent accidents. The experiment was witnessed by the chief representatives of British and French railways. The sections of the railway used for the demonstration were marked by steel rams on inclined planes between the rails. A shoe, which is fitted on the engine, touches the rails with a slight impact, and the driver is warned if the section is not clear by means of a disc or whistle. The driver may himself stop the train, but if he fails to do so, an electrical apparatus with which the engine is fitted, automatically shuts off steam, applies the brakes and brings the train to a standstill.

This device was shown to work with perfect success. It was also demonstrated that the driver of a train thus automatically stopped, can telephone the nearest station to get any obstruction on the line removed, or any defect remedied, and he can not move the engine until this is done.

Chinese Diplomacy

Hong Kong, July 12;—The recent attempt on the life of Sir Francis Henry May, Governor of Hong Kong, proves to have been political.

A Chinese has been arrested at Kow Loon with documents in his possession addressed to a wealthy and powerful secret society in Canton, regretting the failure of the attack. It is believed that Manchus are the leaders in a plot to bring about intervention by a foreign nation, and it is declared that several prominent men have been condemned to death.

It is also believed that the British consul at Canton is a marked man, whose turn was to have come second.

WHAT PANAMA CANAL MEANS TO SHIPPING

Rough Seas Avoided and a Distance of 6,200 Miles Saved Between Vancouver and Europe.

Forecasts of the changes likely to be effected in existing steamship routes by the opening of the Panama canal make interesting reading now that the great waterway is rapidly nearing completion. Steamers en route from European ports to Vancouver will take the Panama route, thus saving 6,200 sea miles, as compared with the route via the Straits of Magellan. Steamships from Montreal to Sydney will also use the canal, thus saving a distance of some 2,738 miles.

It is uncertain whether freighters from Europe to Valparaiso will take the canal route, which would save only 2,100 miles, but passenger steamers will doubtless prefer the shorter route, and will serve the east coast of South America by means of auxilliary ships sailing from West Indian ports.

Between Europe and Japan the route via the Suez canal will still be preferred, as at present. since the Panama route would be 1000 miles longer, but between New York and Shanghai the Panama route will be chosen, saving 1400 miles.

Between Europe and Australia the present route is only 800 miles longer than will be that via Panama, possibly not enough to cause the abandonment of the former.

Aside from the consideration of distance, the journey via Panama obviates the usually rough and stormy rounding of Cape Horn, and this fact will considerably affect the passenger routes. Steps are already being taken to prepare for redistribution of the coal trade that will result from the change of route above referred to.

British firms are reported to be negotiating for coal stations at Nukulofa, the capital of the Friendly Islands and also of Pitcairn and Fanning Islands.

Uniting the Country

Up to the present time Eastern and Western Canada have been tied together in a business way by a single line of rails along the route of the Canadian Pacific. This line is to be duplicated immediately, and in the course of two years at the most the National Transcontinental Railway and the Canadian Northern will have their steel laid across that great region north of the Greet Lakes, which seemed like a wedge separating the older from the newer part of the Dominion. When we have four lines of rails the union will be closer, and the settlement of Northern Ontario, which now seems likely to proceed apace, will further promote the realization of that desirable consummation when there shall be no break in Canadian continuity in respect to population and development from one ocean to the other.

This prospect is frought with great satisfaction. Time was when the most patriotic Canadians did not feel any too sure that a united Dominion would be physically possible, and critics of the country used to tell us that nature had divided Canada into three parts, the eastern provinces, the prairies and the Pacific coast, the unoccupied lands of Northern Ontario and the Rocky mountains presenting barriers to a complete union that could never be overcome. We know better than this now and the knowledge should make us prouder than ever of our country and more confident of its future.

Passenger—"Why are we so late?"

Guard—"Well, sir, the train in front was behind, and this train was behind before besides."

BEST PART OF CITY OF REGINA DESTROYED

Will be Year Before Regina Completely Recovers from Effects of Great Storm.

"Nobody who has not actually seen the city since it was struck by the cyclone can form anything like an adequate idea of what has happened. Between $5,000,000 and $6,000,000 damage has been done, and it will be years before Regina resumes its wonted spic and span appearance. The best part of the city has been devastated."

This is a statement made by Inspector Burnett of the R. N. W. M. P., of Regina, one of the first outsiders to enter the stricken district and aid in the work of rescue. Continuing, Inspector Burnett said:

"You have to see it for yourself, and even then it is hard to realize that so much could be done in a few minutes."

According to Inspector Burnett, the police barracks, about two miles from the stricken area, was first notified of the cyclone at about 5:30 p. m., and immediately the force turned out to a man to aid in the work of rescue and guard the property of the citizens.

"We had a heavy rain and wind at the barracks and after it had passed I went to the office to telephone to town and see how things had been there," said Inspector Burnett. "I could not raise the town office, but shortly afterwards one of our men who had been on town duty galloped in with a report of what had happened and we were at once turned out to take part in the work of rescue."

Inspector Burnett says that everybody behaved splendidly. "Every man aided in the rescue work," he said. "There was no panic at all. It was all over so suddenly and by the time we got there gangs of men were already at work clearing out the wreckage and looking for the victims. We assisted and some of our men are still on guard, but it will take some considerable time for Regina to look like itself again. The best portion of the town is wiped out.,"

The Lieutenant Governor has received a message from King George conveying to the citizens his sympathy over the loss of life and property in the recent storm. The death list has reached 68. Many of those who were in the hospitals were unable to survive their injuries. The Duke of Connaught has contributed $500 to the relief fund, which now stands at $150,000.

The Dominion Government's contribution to the Regina cyclone sufferers is $30,000. A governor-general's warrant calling for that amount has been prepared for signature of His Royal Highness, Duke of Connaught, and as soon as it is signed money will be transferred to Regina. Another waraant providing for $10,000 for fire sufferers of Chicoutimi has been prepared for signature of Duke.

Goose Bay Activity

Mr. W. A. Williams and Mr. O. B. Smith, Jr., general superintendent of smelting and general superintendent of mining operations respectively, of the Granby Consolidated Company, reached Vancouver this week from a trip of inspection of the company's mining properties at Goose Bay, Portland Canal district. They are greatly pleased with the progress of development work. The pay roll at the mine comprises about 250 men and will be increased shortly.

Mr. Williams stated that contracts for substantial docks at Goose Bay have been awarded. The grading of the site of the proposed 2000-ton smelter and a two-mile steam railroad from the mine to tide-water is now being rushed. Mr. Williams added that this fall would see the completion of the smelter foundation and retaining wall. Construction of the big plant will be started early next year.

The mine is being developed by a series of tunnels, the most elevated one being 530 feet and the lowest 385 feet above tidewater. In the lower workings a crosscut had recently demonstrated the ore body to have a width of 120 feet, averaging about two and a half per cent. copper, besides the gold and silver values. With the completion of the smelter, an enormous ore tonnage will be available.

B. C. Copper Dividend

Phoenix, July 9:—British Columbia copper directors have declared a quarterly dividend of 15 cents a share. They announce that the company now has a sufficient surplus to continue payments at this rate for a year. The last previous dividend, 12 1-2 cents, was paid by the company in June, 1911, and disbursements had to be discontinued because of the strike of the coal miners in the Canadian northwest, which made it necessary for the company to purchase its coke in Pennsylvania, the increased cost of fuel for a time wiping out its operating profits. Current earnings are at the rate of $60,000 a month, or $1.22 per share annually. Including the dividend just declared, British Columbia Copper has disbursed since organization a total of 80 cents per share, or $436,681. If the Voight property, now held under option, is purchased, it will probably be financed by the sale of treasury stock of convertible bonds.

Plot to Kill Lord Kitchener

London, July 12:—A special dispatch to the Daily Mail from Cairo states that the British advisor to the minister of the interior, the public prosecutor and the commandent of the Cairo police conferred with Lord Kitchener today and it is understood that the conference was connected with the alleged discovery of a conspiracy to assassinate Abdul Hamid Pasha Sid, president of the council, Lord Kitchener and the Khedive. Four persons have been arrested in London as suspects and the investigation is continuing.

Carries Same Cargo Both Ways

Montreal, July 10:—When the Ascania of the Cunard Line docked the other morning she brought back with her nearly a full cargo of grain which she had taken from here five weeks ago. Owing to the strike in London it was impossible to unload the grain and after a delay of seven days she returned to Montreal, picking up a big passenger list at Southampton.

COAL NOTICES

Cassiar Land District
District of Cassiar

Take notice that Thos W. Brewer of Hazelton, miner, intends to apply for a licence to prospect for coal and petroleum over the following described lands:

Commencing at a post planted about 25 miles north and 9 miles west of the northeast corner of lot 130, and joins the western boundary of Ethel McCumber's coal claim No 1, thence south 80 chains, east 80 chains, north 80 chains, west 80 chains to point of commencement, known as claim 70.
April 19, 1912. Thomas W. Brewer.

Casslar Land District. District of Cassiar.

Take notice that Thomas W. Brewer of Hazelton, miner, intends to apply for a licence to prospect for coal and petroleum over the following described lands.

Commencing at a post planted about 23 miles north and 9 miles west of the northeast corner of lot 130, and adjoining the western boundary of Walter Skelhorne's Coal Claim No. 102. thence north eighty chains, east eighty chains, south eighty chains, west eighty chains to point of commencement, known as claim No. 71.
April 19 1912. Thomas W. Brewer.

Cassiar Land District
District of Cassiar

Take notice that Thos W. Brewer of Hazelton, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted about 23 miles north and 9 miles west of the northeast corner of lot 130, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains, to point of commencement, known as claim No 72.
April 19, 1912. Thomas W. Brewer.

COAL NOTICES

Cassiar Land District. District of Cassiar

Take notice that Thomas W. Brewer of Hazelton, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted about 31 miles north and 13 miles west of the northeast corner of lot 130, and joining the eastern boundary of Arthur Skelhorne's Coal Claim No. 109, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, known as claim No. 62.
April 18, 1912. Thomas W. Brewer.

Cassiar Land District. District of Cassiar

Take notice that Thomas W. Brewer of Hazelton, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands;

Commencing at a post planted about 28 miles north and 11 miles west of the northeast corner of lot 130, and joining the western boundary of Ethel McCumber's Coal Claim No. 29, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, known as claim 63.
April 19, 1912. Thomas W. Brewer.

Cassiar Land District. District of Cassiar.

Take notice that Thos W. Brewer of Hazelton, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands.

Commencing at a post planted about 28 miles north and 11 miles west of the northeast corner of lot 130, thence south 80 chains, west 80 chains, north 80 chains, east 80 chains to point of commencement, known as claim No. 64.

Choicest of Wines, Liquors and Cigars always on hand.

ASHES, LIKE SNOW, COVER KODIAK ISLAND

Are Piled in Drifts in Some Places to the Depth of Four Feet.

Kodiak Island, under a mantle of gray ash, which varies from a few inches on roofs to a foot and a half in sheltered nooks and to four feet deep where the wind has piled it in drifts, was the curious sight see by passengers on the steamship Admiral Sampson of the Alaska-Pacific Steamship fleet, which arrived at Seattle this week.

"The people of Kodiak are undergoing a plague of ashes and grit," said Purser C. Strout. "For three days after the eruption the ashes were blowing and still falling from the skies and so thick was the weather that it was impossible to live ashore in any comfort.

"For a time the entire population took to the revenue cutter Manning to escape this rain of ashes from Mount Katmai and the cutter was put out to sea.

"The northern end of Kodiak Island received the worst of the ash fall the wind carrying it there. At Uyak we saw but little ash and we were told the southern end of the island received only a couple of inches of fall. In the Cook Inlet country there is an inch and a half of ash over everything.

"Kodiak is a curious sight under this mantle of ash which has the appearance of thin snow. It is so powdery that it becomes very aggravating with the slightest wind to stir it. So thick was the ash on the roof of Blodgett's cannery that when rain fell and soaked it the roof gave way under the accumulated weight.

"The ash has not injured growing things and the eruption did no damage to fisheries."

Canadians are Energetic

London, July 10:—That the increased efficiency, due to climatic conditions, of the transplanted Brittisher will make Canada the central point of the British Empire, is the statement with which Professor Willis Moore, chief of the United States Weather Bureau, has startled Londoners.

Professor Moore declares it can be scientifically demonstrated that the climate of the North American continent is producing a race which in mental and physical energy promises to be distinctly more efficient than any past nation of the Northern Aryan race. He bases his theory on the fact that the northwest winds of the American continent blowing with great velocity from an extreme altitude of vast electrical potentiality release more ozone in the proper state for human breathing than in any other place in the world. Consequently the American weather expert maintains that the Canadian can no more control that nervous energy which is the marvel of Europe than he can stop his own breathing.

Alaska Indians Dying Off

San Francisco, July 12;—Drunkenness, disease and debauchery are decimating the Indian population of Alaska, and unless steps are taken by the government to bring about an amelioration of their condition, the native tribes will become extinct, according to the statement that has been issued by Rev. Dr. Peter S. Rowe, bishop of Alaska. The bishop has appealed to the women of California to aid him in securing governmental action.

Bishop Rowe has been in Alaska for sixteen years and has had the welfare of the Indian and white men alike at heart. He says that the sources of the natives' food supply are being appropriated by the canneries companies and others, so that actual want is common among them. Illicit peddling of liquor prevails and as a result demoralization has followed upon drunkenness and debauchery. Sixty-two per cent. of the natives are diseased.

As a remedy the bishop suggests that reservations be established before available land has been taken by the whites; that the natives be compelled, therefore, to live in family groups, each group to be as far removed from the other as possible and that when it is necessary to have a tribal council that it be held on the reservation.

Canada's Crop

A bulletin of the Census and Statistics office issued reports that throughout the greater part of Canada the spring this year has been cold, wet and backward. Continuous rains, especially in Nova Scotia, New Brunswick and Quebec, have greatly interfered with the spring seeding, and at the end of May large areas in these three provinces, particularly on low lying lands, were still unseeded. It is impossible therefore, to base upon the data at present available complete estimates of the areas sown to this year's principal field crops, and the following are consequently preliminary figures subject to revision at the end of July, when fresh returns will be made by correspondents of the office. The area under fall wheat, deducting that which was winter killed in Ontario and Alberta, is placed at 781,000 acres. Spring wheat occupies 9,145,000 acres, and the total wheat area amounts therefore to 9,926,000 acres; oats show an area of 9,486,000 acres, and barley 1,429,000 acres; rye, peas and mixed grains have a total acreage of 894,000, and the area of hay and clover is 7,904,000 acres; alfalfa is sown to 112,000 acres. Conditions at the end of May, as measured against a standard of 100 represemting the promise of a full crop, is high for all the products reported on except fall wheat, the per cent. condition of which, viz., 71.46, is lower than that of any of the three previous years at the same date. This crop suffered from the exceptionally severe winter in Ontario and from the lack of sufficient snow protection in Alberta, whilst the cold, wet spring has been adverse to recovery and good growth. The condition of spring wheat is 94.21 against 96.69 last year; oats. 91.67 against 94.76; barley, 91.08 against 93.49; rye 87.24 against 90.26; peas 83.85 against 92.15; mixed grains, 87.72 against 93.84. The condition of hay and clover is 96.10 compared with 74.63 at the end of April and 91,45 at the end of May, 1911. Allalfa, where grown, shows this year an average condition of 90.65. For the three northwest provinces the areas are, as estimated at May 31, wheat, 9,122,000 acres; oats, 5,097,000 acres, and barley 837,000 acres.

The condition of these cereals in the northwest provinces is over 95 per cent. of the standard. except for fall wheat in Alberta where it is 76.62 per cent. In Saskatchewan the area under fall wheat is estimated at 53,000 acres, and its per cent. condition on May 31 was 93.28.

LABOR SHOULD KNOW NO CREED OR COLOR

Whites Ask Chinese and Hindu Support in Strike at Victoria.

Victoria, July 10:—A new development in industrial disputes has occurred in this city, the Chinese and Hindu workers in the mills having been asked to support the strike inaugurated two days ago by the white men.

A thousand dodgers were printed yesterday in Chinese, setting forth that labor, like capital should not know any race, creed or color, and asking the Chinese to stand for a shorter day and 5 cents more per hour. A similar appeal has been made to the Hindus. When the representative of a newspaper asked the Chinese printer for a copy of the dodger, the reply was, "You bossman; no get it."

A copy of this curiosity was finally obtained through the good offices of a member of the Amalgamated Society of Carpenters. Neither Chinese nor Hindus have yet made any response to the appeal. There are said to be, at present, only fifteen white benchmen at work in the mills of the city.

Settlement of Labor Disputes

(Special to The Miner)

Vancouver, July 8;—Hon. T. W. Crothers, federal minister of labor, today stated that the government was considering the advisability of extending the application of the Lemieux Act which now only provides for the settlement of industrial disputes affecting public utilities.

The minister further said: "It is just a question whether the Dominion Government should not appoint a permanent board composed of first-class men at good salaries to deal with all labor disputes. I may add that the matter is now receiving official consideration," he continued the announcement creating no little surprise.

"I always insist on both sides recognizing the means provided by the Lemieux act for effecting a peaceful settlement of industrial disputes. The duties of both parties is to accept the award. I recently spoke that way to the head of a great railway. I am going to insist on it and wherever we can bring pressure to bear we will do so.

"Disputes not affecting public utilities do not dislocate commerce of a whole, as they are really private affairs and, although the inclusion of them in the scope of the act has been considered, it is deemed that the time for doing so has not yet arrived. My own idea, however, is that this might well be done. However, there is a question as to the jurisdiction of Parliament.

Back from Stikine

The Hudson's Bay Company's steamer Port Simpson arrived at Hazelton on Thursday morning and left yesterday morning for Gitwangak, from which point she will carry freight to Hazelton. The Port Simpson is on the Skeena again after making four trips on the Stikine river to Telegraph Creek.

She had a number of passengers from Prince Rupert and a large cargo of freight to distribute along the river. Ritchie & Agnew, surveyors, came up to go into the Lekelse country and Mr. Doyen, of the Cassiar Hydraulic Co., on Gold creek, accompanied by his wife, got off at Kitselas.

If business warrants, the Port Simpson will go on a regular run between Gitwangak and Hazelton and will also take passengers to and from Skeena Crossing.

The Canadian Pacific Steamer "Princess Royal" leaves Prince Rupert for Vancouver at 9 p. m. every Sunday, one hour after arrival of G. T. P. train from Skeena Crossing, arriving Vancouver 8.30 a. m. Tuesday. 47

Captain Watt Drowns

An accident occured on the Skeena river off Port Essington last week which resulted in the drowning of Captain Watt of Port Essington, who had been engaged for some time past in the carrying of mail by launch from Port Essington to Haysport.

Captain Watt was an unmarried man who was well known on the Skeena, where he served on gasoline launches. He had been in charge of the Ka Yex at one time, and was a first class launch man. For some time past he has been operating the craft that carried the mail between Port Essington and Haysport.

While engaged aboard the vessel he slipped overboard and before assistance could be given him he drowned. His assistant on the launch put out in a dory as soon as he realized that his companion had fallen overboard and was being carried down stream, but it was too late to save his life.

B. C. Building in London

Victoria, July 12:—Negotiations for the purchase of a site for the proposed British Columbia building in London have been entered upon by Hon. J. H. Turner, the provincial agent-general. The site which the province desires to purchase belongs to the London County Council and occupies the corner near the Gaiety Theater, with a frontage of fifty-six feet. It is the government's intention that the new structure shall provide not only ample office space, but also room for an adequate display of British Columbia's resources and a library and reading-room for the use of visitors.

New Record For Drilling

(Special to The Miner)

Tonopah, Nevada, July 10—Averaging sixty-two blows to the minute for fifteen minutes the team of Page & Pickens set a new world's record yesterday for driving a miner's drill into granite. Their distance was 45 7-16 inches, four inches better than Lundquist & Dahlen, of Victor, Colo., their nearest competitors. Porter & Goddard of Oatman, Ariz., were third with 38 7-17 inches.

Mining News of the Week

P. J. Jennings returned on Wednesday from a trip to the Rocher de Boule mine.

"Dutch" Cline left on Wednesday for Nine Mile mountain to do some assessment work on his claims.

Work on the Beatrice group of claims on Rocher de Boule has just been completed by Denny Comeau.

W. J. Bowen, who is interested in placer mining at Lost Creek and Skeleton Gulch, in the Omineca, returned on Tuesday from a three weeks trip into that district. He has been supervising preliminary work, building a reservoir and clearing ground preparatory to the installing of a hydraulic plant which is on its way. After spending a few days in town, Mr. Bowen left for his home in Seattle.

J. S. Hicks returned to Hazelton yesterday from the Babines. He has been doing assessment work on some claims.

Joe Sheady came in from Hudson Bay mountain on Tuesday having met with a slight accident while rigging up a set of bellows.

C. W. Calhoun returned Wednesday from Goose Bay, and reports that a lead stack will be installed with the erection of the new smelters.

A petition has been circulated by some of the miners and prospectors of the Omineca district, asking government aid in the extending of the Valleau trail some 30 miles. This will bring the end of the trail to the headwaters of the Peace river and allow access to the good feeding ground in that district.

Local and Personal

H. H. McVittie came up from Victoria this week.

R. DeB. Hovell, is enjoying a pleasure trip to Skagway.

Chas. Barret, of the Diamond D. ranch is spending a few days in town.

Miss Edna Blake of Victoria is spending a week with her brother in Hazelton.

Theodore Jennings returned from Lorne Creek on the Inlander Wednesday night.

James C. Loutet left yesterday for Babine to join the staff of the Hudson's Bay Co.

Miss Bertha Peterson arrived Monday from Prince Rupert to accept a position at the bakery.

Superintendent Sheppard, of F. W. & S., recieved a handsome team of bay drivers this week.

George Wall representing the McClary Mfg. Co. of Vancouver is registered at the Ingenica Hotel.

Murdock Hay, night clerk at the Omineca Hotel, is leaving on Wednesday for his ranch at Francois Lake.

Miss May Hogan arrived from Masset this week to join the staff of Hazelton Hospital as Lady Superintendant.

Hickey & Bain, of Prince Rupert, building contractors, arrived on Wednesday's Inlander to look over the local situation.

Miss Bertha Kohse left last Sunday for Prince Rupert en route to Victoria where she will visit relatives and friends.

R. S. Donaldson, First Officer of the Inlander, who has been ill in the Hospital for the past ten days, has resumed his duties.

Mrs. Calhoun, of the Riverside Rooms, who was taken sick last Tuesday and removed to the hospital, is reported to be improving rapidly.

An Indian pack train of over 100 horses are camped at two mile and will leave Monday with freight for the Hudson Bay Post at Babine.

Word has been received that G. T. P. Land Commissioner G. U. Ryley is in a hospital at Winnipeg undergoing an operation for appendicites.

J. R. Barker, who has been operator for the past three years at Sixth Cabin, left on the Inlander last Sunday for the coast where he will spend a two months' vacation.

J. Mason Adams, proprietor "The Kodak Drug Store" announces that he has just received a large shipment of the famous Eastman kodaks and films and that his line is now complete.

R. O. Jennings was in town for a few days, leaving yesterday for Rupert.

Harold Price, who has been attending the hearing of the Board of Railway Commissioners at Ottawa, arrived in town on Wednesday. He will leave in a few days for a trip to Winnipeg.

The Port Simpson is building a slip at Gitwangak and by Tuesday will be ready to handle all freight offered. A definite announcement regarding meeting passenger trains will be made next week.

Work is about completed at Camp 24, and a few days will see the grading done at Camp 26. About sixty horses that have been on that piece of work have been turned in to Kerr's freighting camp at Sealey.

Rev. R. W. Lee. of Kispiox, preached the sermon in the Town Hall on Sunday evening last and in spite of the fact that a great many of the Hazelton people were down river on the excursion, a good crowd was present.

A. C. McNab, formerly manager in Hazelton of the Hudson Bay Co., is now in charge of Moose Factory district, including fourteen posts and steamers on Hudson's Bay and James Bay, a district larger than British Columbia.

Mr. L. Laing arrived on the Simpson to take charge of the Babine post of the Hudson's Bay Co., vacated by J. McPherson who has resigned. Mr. Laing has been with the H. B, Co. at Fort Churchill and York Factory on Hudson's Bay for a number of years,

About one hundred Hazeltonites took advantage of the Inlander excursion last Sunday to visit Skeena Crossing. It was a very pleasant outing. With great satisfaction all noted that the bridge was about completed and that steel had already reached this side of the river.

Flames at Tonopah

Tonopah, Nev., July 10;—Two blocks in the business district of Tonopah were destroyed by fire. The town was aroused, and scores of volunteers joined in the fight against the flames, which were fanned by a rising wind. Several office buildings were destroyed.

Election at Regina

(Special to The Miner)

Regina, July 11:—The result of today's ballot shows thirty eight liberals and seven conservatives elected. Premier Scott and all colleagues have been returned to office.

Ottawa, July 13:—According to a report just issued from the government office it is estimated that the value of Canada's crop for 1912 will be in the neighborhood of five hundred and fifty eight million dollars.

NEW PARTY IS LAUNCHED

(Continued from Page One)

"Who believe that wholesome party government can come only if there is wholesome party management in a spirit delivered at Sinia, 'Thou Shalt Not Steal,' applies to politics as well as to business.

"To all in accord with these views a call is hereby issued by provisional committee, under the resolution of the mass meeting held in Chicago on June 22 last to each state to send a number of delegates whose votes in the convention shall count for as many votes as the state shall have senators and representatives in congress, to meet in convention in Chicago on the fifth day of August, 1912, for the purpose of nominating candidates to be supported for the positions of president and vice-president of the U. S."

Among the well known newspaper owners and editors who will support the new party are: W. R. Nelson, owner of the Kansas City Star; Chester H. Rowell, owner of the Fresno Republican; Henry J. Allen, of the Wichita Beacon: L. J. McMahan, editor of a newspaper in Salem, Oregon; E. A. Van Valkenburg, of the Philadelphia North American: Henry L. Stoddard, editor of the New York Mail.

New York, July 12:—That immediate revision of the tariff downwards will be one of the demands of the new party, was announced by Roosevelt today.
