VOL. III, NO. 7 HAZELTON, B. C., SATURDAY, OCTOBER 18, 1913 PRICE $2.00 A YEAR

SENTENCED TO HANG DEC. 29

Mulvihill Condemned to Expiate Murder Committed at Burns Lake Last July

TRIED AT CLINTON ASSIZES

Following Prompt Arrest and Committal, Slayer of "Denver Ed" Kelly Found Guilty of Cold-blooded and Treacherous Killing of Victim

A despatch received this morning states that at the Clinton assize court, Jerry Mulvihill was convicted of murder and sentenced to be hanged on December 29.

The crime for which Mulvihill was on trial was the murder of "Denver Ed" Kelly, at Burns Lake, on July 29. A week after the killing, Mulvihill was given a preliminary hearing before T. J. Thorp, J. P., at Aldermere, was committed for trial and taken to New Westminster to await arraignment. The date set for the execution is just five months from the day of the murder.

Back From Groundhog

T. H. Taylor, the provincial government surveyor, with John Ellis, his assistant, returned on Tuesday from the Groundhog district, where their party, in conjunction with that of D. O. Wing, has been engaged in surveying a network of meridian and base lines. While it will take several seasons to complete the work, a good deal has already been accomplished. Mr. Taylor's party ran seventy miles of line, mostly through timber. All work has been tied to the astronomical station established by Astronomer McDiarmid at Sixth Cabin. Mr. Taylor returned to Victoria on Thursday, Mr. Ellis remaining here pending the arrival of the pack train.

Athletics Defeat Giants

New York, Oct. 11:—The Philadelphia Athletics won the baseball championship of the world for 1913 at the Polo grounds today by defeating the New York Gaints, 3 to 1, in the fifth and deciding games of the series. With the score of games standing 3 to 1 in their favor, the American League representatives went in to cinch the series, and before the masterly playing of the Mack men the National Leaguers had no chance.

Progress at Smithers

Although only won from the forest within a few weeks, Smithers has already taken its rightful place as the chief town of the Northern Interior, and the busiest point on the Grand Trunk Pacific western division. Business men of standing have flocked here to join in the building up of a coming city, while trains from east and west are bringing crowds that tax the accommodation of lodging houses and restaurants.—Review.

E. J. Hill is transacting business in Hazelton this week.

Mexico Prepares To Break with U. S.

New York, Oct. 15:—A despatch received from Mexico City today says the relations between Mexico and the United States are rapidly nearing the breaking point. It is believed that President Huerta is drafting a stinging reply to the representations of President Wilson that the United States would look with displeasure on any injury to the deputies who were placed under arrest after the arbitrary dissolution of the Mexican congress by Huerta. The minister of the interior announces that the coup d'etat will not prevent the holding of a general election this month, declaring that the only effect will be to cause the election of new senators and deputies to replace those put out of office by Huerta.

Rich Ore On Skeena

Vancouver, Oct. 16:---Edward Vallee and A. W. Speers have arrived here with reports of the finding of ore assaying $180 in copper, $8 in silver, and $6 in gold in claims on the Skeena, eight miles east of Pitman. They also report a discovery of rich ore on Gold creek, near Kitselas.

First Boat In Canal

Panama, Oct. 15:—The first tug, towing three barges, entered the Canal from the Pacific yesterday and was raised to Miraflores lake.

HOME RULE DISPUTE MAY BE ARRANGED

London, Oct. 13:—The chances are still in favor of a settlement of the home rule difficulty by arrangement between the Unionists and the government. The four Orange counties of Ulster may be excluded from the operation of the act by amendment during the third passage of the measure.

How far Ulster is prepared to go to resist the establishment of a Home Rule Parliament in Dublin, is indicated by the appointment of a Provincial government containing a House of Peers and a Lower Chamber.

The articles of government have been finally approved and completed:

(1)—For repudiating and resisting the decrees of a National Parliament.

(2)—For taking over the government of the Province in trust for the British nation.

The date upon which the Provincial government will become operative, together with the necessary instructions to Unionists, will be made public on the date upon which the Home Rule Bill is placed upon the statute book, or such other day as may be determined on, and when it shall be deemed expedient.

All power as to central authority has been delegated to a standing committee of the Ulster Unionist Council.

Lost, a Collie dog pup, white collar and white feet, three months old. Reward on return to Ruddy & MacKay, Hazelton.

GREAT MARINE DISASTER SUSPECTED WORK OF RIVALS

Burning of Volturno in Mid-Atlantic, with Loss of 136 Lives, Believed to Have Been Planned by Competitors ---Steamer Belonged to Canadian Northern Railway

London, Oct. 12:—Not since the Titanic sank has Europe been thrilled as by a wireless message telling of the burning of the steamship Volturno in mid-Atlantic with a loss, so far as known, of 136 lives and the rescue of 521. The survivors were taken aboard a fleet of steamers summoned by the Volturno's call for help.

The Volturno sailed from Rotterdam on October 2 for New York, and, according to the official statement, she carried twenty-two first cabin passengers, 539 steerage and a crew numbering ninety-six.

The rescue ships reached the scene of the disaster in plenty of time to save all, but for hours stood by the blazing vessel, impotent because of the storm to reach the agonized men, women and children crowding the after part of the ship and within a stone's throw of them.

All Thursday night the rescuing boats made desperate efforts to get alongside the doomed ship, but were beaten back by the waves until daylight on Friday, when oil from one of the steamers smoothed the sea sufficiently for the survivors to be taken off.

The Volturno carried enough lifeboats to take 1000 people, but the gale prevented their successful use. Survivors generally agree that all lives that were lost were sacrificed in the endeavor to launch boats. Had the captain known that so many vessels were near, all might have been saved.

Liverpool, Oct. 15:—Owners of the Uranium line, to which the burned Volturno belonged, believe the disaster to their vessel was deliberately planned by German and Dutch immigrant-carrying rival lines. Letters threatening that the vessel would be burned had been received. The fire started in the cargo, which included cottonseed oil.

The chief credit for the rescue is given to the oil-carrying steamer Narragansett, which poured her cargo into the sea, greatly subduing the waves.

Warships have been despatched to destroy the floating hulk of the Volturno, which might become a danger to navigation. The steamer was owned by the Canadian Northern and leased to the Uranium line.

Local and District News Notes

Thanksgiving Day is Monday, Oct. 20.

W. M. McAuley, of Smithers, is spending a few days in town.

Wm. Sammon returned on Thursday from a visit to Smithers.

Pat Regan, who has been visiting the coast, returned on Saturday.

Harry and James Morgan, of Ootsa Lake, were in town during the week.

Judge Young arrived on Wednesday to conduct county court proceedings.

Service will be held in the Presbyterian church rooms tomorrow evening at 7:30.

J. M. Davidson, a placer mining expert, returned on Thursday from a trip to Tom creek.

A. S. Beaton, forest guard for the Groundhog district, returned from the north on Monday.

F. B. Chettleburgh is looking after his firm's extensive machinery business in the Bulkley Valley.

H. E. Bodine returned on Thursday from Tacla lake, having cut nine miles of right-of-way for the road to Tom creek.

Mrs. Ernest Gammon underwent an operation for appendicitis at the Hospital on Saturday night. The condition of the patient is reported to be excellent.

Mrs. Ritchey, of Seattle, is visiting her daughter, Mrs. R. C. Sinclair. She is accompanied by her son, J. C. Ritchey. Mrs. Sinclair, who has been ill for some days, is today able to leave the hospital.

Hazelton's new public school, on Field street, will be finished today, and it is expected that it will be ready for use in a week. The building is quite large enough to accommodate the increased number of pupils. Additional desks and benches have been purchased, so that each scholar will have a separate seat.

On a charge of obtaining money under false pretences, W. J. Klimpel appeared before Magistrate Hoskins on Thursday. It appears that the prisoner had done some building for Isadore Anger, had secured money to pay for labor and material, and had converted the cash to his own use. He was arrested while about to board a train at South Hazelton. For carrying a revolver he was sentented to ten days in jail. On the more serious charge he was committed for trial. Appearing before Judge Young this morning, he elected for a jury trial.

Station for Fort Fraser

Ottawa, Oct. 16:—The railway commissioners have ordered the establishment of a station at Fort Fraser, B. C.

Sulzer Found Guilty

Albany, N. Y., Oct. 16:—The high court holds Governor Sulzer guilty of misappropriation of funds.

McNicholl Promoted, Todd Superintendent

With the announcement of the promotion of District Superintendent George A. McNicholl to the position of commissioner of the colonization and industrial department of the G. T. P., comes the news that J. H. Todd, the capable official who has been acting superintendent in the absence of Mr. McNicholl, has been appointed district superintendent, with headquarters at Smithers. Commenting on the appointment one of the papers published in Prince Rupert, where Mr. Todd is popular, says:

"Mr. Todd is well known here where, in the capacity of train despatcher and later acting superintendent, he has been closely identified with the railway line. He has served in the various parts of the continent in the capacity of train despatcher and other offices in the gift of railway companies and is admirably adapted for the position that he now attains. He is a very exact official, as his long training as a despatcher would qualify him to be. The railway is practically his one thought and he is never off duty. His appointment to this position will bring Smithers into a more important position in a railway way. Located there, Mr. Todd will be in a position to look better after the enlarged service that there is on this western part of the system."—Review.

LIBERAL STRONGHOLD CARRIED FOR BORDEN

Ottawa, Oct. 13:—The by-election in Chateauguay, Que., for the house of commons, was held on Saturday, resulting in a notable victory for James Morris, the Conservative candidate, who defeated Hon. Sidney Fisher, Liberal, by 135 majority. This is the first time since Confdeeration that the constituency has returned a Conservative, and, as the naval policy was the issue, the result is taken to mean that even the people of the old Liberal strongholds refuse to support Sir Wilfred Laurier in his opposition to the Borden policy.

The election is regarded as the most significant event in political circles since 1911, and as Sir Wilfred Laurier had made it a personal fight, there are many who believe that his retirement may come shortly.

Ottawa, Oct. 15:—Sir Wilfred Laurier is contemplating the calling of a general Liberal convention, according to current reports. As a result of the Conservative victory in Chateauguay by-election, it is felt that immediate action must be taken to save the Liberal party from disintegration, and it is proposed to draft a new platform.

The Liberals declare their intention of protesting the election.

London, Oct. 15:—England regards the Conservative victory in Chateauguay as an endorsement of the Borden naval policy.

COAL MINERS ENTOMBED

Explosion in Welsh Colliery Results in Death of Over Three Hundred Men

GAS WRECKS WORKINGS

Miles of Damaged Galleries Lie Between Rescuers and Scene of Fatality---Late Report Gives Number of Dead as Three Hundred and Sixty-Eight.

London, Oct. 15:—A terrible mining disaster is reported from Cardiff, Wales, where a gas explosion in the Universal Colliery, at Senghenyd, wrecked the underground workings yesterday. Of 930 miners at work when the explosion occurred, it is estimated that at least three hundred perished. Miles of underground galleries, more or less damaged by the shock, lie between the rescuing parties and the dead or imprisoned miners. Forty thousand people surround the entrance to the fatal pit.

Cardiff, Oct. 17:—Three hundred and sixty-eight miners were entombed in the Universal colliery. No hope of saving their lives is entertained.

Oil-Burning Warship

Portsmouth, Oct. 16:—The first British oil-burning battleship, the Queen Elizabeth, was launched here today.

Dr. Sun In Trouble

Vancouver, Oct. 17:---Dr. Sun Yat Sen is under arrest in Japan, charged with embezzling $160,000 of Chinese funds. He was disguised as a Japanese.

Naval Deal On

London, Oct. 17:---Reports say that, as a result of negotiations now under way, Canada may offer to purchase the three dreadnoughts now building for the British navy.

B. C. First, As Usual

Vancouver, Oct. 16:—British Columbia won the gold medal for natural resources and apples at the first Canadian land and apple show, held in Winnipeg this week. There was keen competition for the prize.

Inter-Provincial Conference

Ottawa, Oct. 17:—The premiers of the Canadian provinces will meet in conference here on Oct. 27.

Three By-Elections

Ottawa, Oct. 17:—By-elections will be held in East Middlesex, South Bruce, and South Lanark before parliament meets in January.

Storm Brought Gold

Nome, Oct. 17:—Miners believe that the recent storm and tidal wave washed up sufficient gold-bearing sand to pay for the damage done to the town.

Will Lead Cavalry

London, Oct. 17:—Prince Alexander of Teck, Queen Mary's brother, will be appointed to the command of the Canadian cavalry brigade.

ADVERTISING RATES: Display, $1.50 per inch per month; Reading Notices, 15 cents per line for first insertion, 10 cents per line for each subsequent insertion. Legal notices inserted at B. C. Gazette rates.

VOL. III. SATURDAY, OCTOBER 18, 1913. No. 7.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

The contention of the Conservatives that Canada would gain without sacrifice on her part the concessions sought under the late lamented reciprocity proposals seems to be borne out by the passing of the Democratic tariff measure. British Columbia especially should benefit by our neighbors' new tariff law. Meat and cattle, lumber, fish, coal and wood pulp are among the products of the province favorably affected by the reductions. In the cattle industry especially, the new law should be conducive to development. The conditions in large areas of British Columbia are ideal for stock-raising, and, with a favorable tariff opening the United States markets to our meat and cattle, there is no reason why the industry should not develop to a notable extent in the immediate future. A Dominion government animal inspector who has just made a tour of the province says:

"In this country of yours you have all the natural conditions for the development of a great cattle-breeding industry, and while it may be argued that the competition of the United States has been heavy in this respect, I believe that the time has now come when you will be given a better showing, and it is up to you to take advantage of it. The cattle-breeding industry is a very considerable national asset, and if it could be started in British Columbia I am sure not only that it could be made a tremendous success, but also that other provinces would take up the work and so help to give to Canada an industry that is hers by all the laws of nature."

In our recent resume of the pre-emption laws of the province, the accidental omission of a line made it appear that pre-emptors under the new regulations were required to pay $1 an acre for their land. This, of course, is not the case. Only pre-emptors who took out records before the new act came into operation are required to pay for the land. Those pre-empting lands under the present law have no payments to make except the incidental fees.

THE MINER, $2.00 PER YEAR.

HOSPITAL EQUIPMENT FUND IS GROWING

The call for funds for a power plant and X-ray equipment for the Hazelton Hospital is meeting with a cheerful and generous response throughout the district served by this excellent institution. Following is the list of subscriptions of $5 and over received up to date:

SALE OF MINERAL CLAIMS FOR UNPAID TAXES IN THE OMINECA ASSESSMENT DISTRICT, PROVINCE OF BRITISH COLUMBIA.

I HEREBY GIVE NOTICE that, on Monday the 3rd day of November, A. D. 1913, at the hour of 2 o'clock in the afternoon, at the Courthouse, in the Town of Hazelton. I shall offer for sale by public auction the mineral claims in the list hereinafter set out, for the taxes remaining unpaid by said persons on the 30th June 1913, and for the costs and expenses of said sale, if the total amount due is not sooner paid.

WATER NOTICE

For a License to Take and Use Water

Notice is hereby given that Rocher De Boule Copper Co., of Hazelton, B. C., will apply for a license to take and use 20 cubic feet per second of water out of Juniper creek, which flows in a Westerly direction through Crown Lands, and empties into Kitsequekla near Skeena River. The water will be diverted at the Company's mill site and will be used for Mining and power purposes on the land described as Millsite.

This notice was posted on the ground on the 21st day of Sept., 1913. The application will be filed in the office of the Water Recorder at Hazelton, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

Rocher De Boule Copper Co., (Applicant)
4-7 By John W. Brown, (Agent.

Notice

ALL PERSONS are hereby warned against trespassing upon any property of the Crown in the subdivision of the North-west quarter of Section 30, Township 4, part of Lot 5289, part of Lot 1053, part of the South-west quarter of Section 31, Township 4, and part of the South half of Lot 865, all in Range 5, Coast District, and known as the Townsite of Smithers; also in the Townsite of New Hazelton, or adjoining subdivisions, viz.: Lots 863, 882 and 885, Cassiar District.

Any person disregarding this notice will be prosecuted in accordance with the provisions of Section 134 and following sections of chapter 129 of the Revised Statutes of British Columbia, 1911.

Any person or persons in illegal occupation of Crown property in the said subdivisions will not be permitted to remain in such occupation, and no protection will be given to the claimant of any improvements that may exist upon such property at the time of sale.

WM. R. ROSS,
Minister of Lands.

Department of Lands,
Victoria, B. C. Sept. 22, 1913.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Wharf at Roy's Beach, B. C." will be received at this office until 4.00 p. m., on Thursday, October 9, 1913, for the construction of a Wharf at Roy's Beach, Comox District, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of J. S. MacLachlan, Esq., District Engineer, Victoria, B. C.; C. C. Worsfold, Esq., District Engineer, New Westminster, B. C.; and on application to the Postmaster at Roy's Beach, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and place of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS
Secretary
Department of Public Works

Ottawa, September 5, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.—47187.

LAND NOTICES

Omineca Land District. District of Cassiar

Take notice that James Curtis Watson, of Victoria, B. C., occupation student, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the south-east corner of Lot 1237, District of Cassiar, thence west 60 chains, thence south 20 chains, thence east 60 chains, thence north 20 chains to point of commencement, being ungazetted Lot 1238, District of Cassiar. 5

July 15th, 1913. James Curtis Watson.

Omineca Land District. District of Cassiar

Take notice that I, Lambert O. Paterson, of Victoria, B. C., occupation retired, intend to apply for permission to purchase the following described lands:

Commencing at a post planted twenty chains south from the north-east corner of Lot 2115, District of Cassiar, thence south 60 chains, thence east 62 chains, thence north 37 chains, thence west 62 chains, thence north 20 chains, thence west 3 chains to point of commencement, being ungazetted Lot 1585.

Lambert Osborne Paterson.

July 14th, 1913. 5

OPPORTUNITY

Opportunity for all is to be found in the famous Bulkley Valley, with its vast areas of Splendid Agricultural Land; its remarkable Mineral Resources, great Coal Measures, Timber, Waterpowers and other potential sources of wealth awaiting development.

If you are interested in the best new district in British Columbia, subscribe for The Smithers Review, and keep posted on the development of

Smithers and the Bulkley Valley

Our subscription rate is Two Dollars a year, in advance---U.S. and foreign, Three Dollars.

The Smithers Review

Smithers, Bulkley Valley, B. C.

BULLETIN NO. 23

Bulletin No. 23, issued by the Provincial Bureau of Information, is a handbook on British Columbia. It is the last publication compiled by the late Frank I. Clarke, of whose work in this class we have so often spoken in terms of commendation. It contains fifty-two pages and a number of illustrations. It gives "the latest information concerning the resources and industries of the Province." We find on the first page the following interesting statement, namely, that "all the great rivers flowing into the Pacific, except the Colorado, have their sources within the boundaries of British Columbia." Doubtless, few people have ever realized this, a geographical fact of very considerable importance, because it has much to do with determining the physical character of the Province and the climatic conditions of Alberta. We also read that the lake area of the Province aggregates 1,560,000 acres. The following resume of its resources is very excellent:

With the exception of nickel (which has not yet been discovered in quantity), all that the other provinces of Canada boast of possessing in the way of raw material is here in abundance. British Columbia's coal measures are sufficient to supply the world for centuries; it possesses the greatest compact area of merchantable timber in North America; the mines have produced over $400,000,000, and may be said to be only in the early stages of development; the fisheries produce an average annual value of over $10,000,000, and, apart from salmon fishing, their importance is only beginning to be realized. There are immense deposits of magnetic and hematite iron of the finest quality, which still remain undeveloped. The agricultural and fruit lands produced approximately $21,000,000 in 1912, and less than one-tenth of the available land is settled upon, much less cultivated. The Province has millions of acres of pulp wood as yet unexploited; petroleum deposits, but recently discovered, are among the most extensive in the world, and much of the territory is unexplored, its potential value being unknown. With all this undeveloped wealth within its borders, can it be wondered at that British Columbians are sanguine of the future? Bestowed by prodigal Nature with all the essentials for the foundation and maintenance of an Empire, blessed with a healthful, temperate climate, a commanding position on the shores of the Pacific, and encompassed with inspiring grandeur and beauty, British Columbia is destined to occupy a position second to none in the world's commerce and industry.—Colonist.

Beds and bedding at Sargent's.

"K" boots at Sargent's.

There will be a regular business business meeting of St. Andrew's Society in their hall on Friday evening, October 24.

FOR SALE—Thoroughbred Rhode Island Red cockerels, pedigreed, at $1.50 each. Apply to E. H. Hicks Beach, Hazelton.

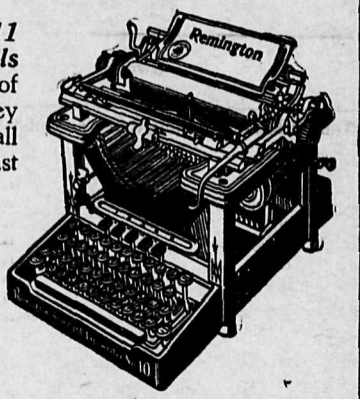
A. F. & A. M.

Brethren residing in the district are requested to send their names and addresses to the Secretary, Omineca Masonic Club, Hazelton.

THE

Remington

Typewriter is the Perpetual Pioneer



The *No. 10 and No. 11 Visible Remington Models* are the latest expressions of Remington leadership. They represent the sum total of all typewriter achievement—past and present.

They contain every merit that the Remington has always had and every merit that any writing machine has ever had.

They contain, in addition, new and fundamental improvements that no typewriter has ever had; among them the *First Column Selector*, the *First Built-in Tabulator* and the *First Key-Set Tabulator*. The Model 11 with Wahl Mechanism is also the *First Adding and Subtracting Typewriter*. These improvements are the latest contributions to typewriter progress, and they are Remington contributions—every one.

The Remington, the original pioneer in the typewriter field, is the present day pioneer in all new developments of the writing machine.

Remington Typewriter Company
(Incorporated)

PEABODYS OVERALLS

PUT THEM TO THE TEST SHOWN HERE

THEY WILL STAND IT-BECAUSE THEY ARE MADE TO WEAR

NOBODY BUYS OVERALLS TO PLAY TRICKS WITH THEM SUCH AS IS SHOWN IN THE PICTURE ABOVE. IN WHICH FOUR MEN EXERTED ALL THEIR STRENGTH IN THE EFFORT TO RIP A PAIR OF PEABODYS' OVERALLS.

BUT IF THEY WILL STAND THIS-THEY WONT RIP UNDER THE HARDEST KIND OF LEGITIMATE WEAR.

WE ARE THE AGENTS OF PEABODYS' GUARANTEED OVERALLS.

SHERWIN WILLIAMS PAINTS & VARNISHES

An appeal to the pride of the owner of a home

Everyone who owns a home is anxious that that home shall make the best appearance possible. Two things are necessary to produce satisfactory results in painting and varnishing a home:

First—A satisfactory color scheme.

Second—Paints, varnishes, stains and enamels of such good quality that they not only give the exact color effect required, but are sufficiently durable to keep up the attractive appearance of the house in spite of the wear and tear of living in it.

These are offered by the *Sherwin-Williams Paints and Varnishes*. The Sherwin-Williams Co. not only make every kind of paint and varnish used for a house and the best quality of that kind, but they make suggestions for the selection of colors, varnishes, stains and enamels, so that any given idea can be carried out, and carried out with the best materials.

You should see to it that when you buy paints and varnishes for your house, or any part of it, or when you give an order to your painter for any painting and varnishing you want done, that Sherwin-Williams Paints and Varnishes are purchased.

In large work it is always best to have a practical painter; but there are many little things about the house that you can readily finish yourself by using Sherwin-Williams ready-to-apply paints.

Come in and have a little paint talk with us. Now is the time to "brighten up" your home for the long winter months. We can tell you the best product to use for any purpose you may have in mind and secure complete finishing specifications for you from The Sherwin-Williams Co., if you desire them, for special work. Our line of Sherwin-Williams Products is complete and we are in a position to take the best care of your paint and varnish requirements.

The World's Doings in Brief

News Notes from Many Sources

Germany will send a warship to Mexican waters.

Two aviators were killed on Tuesday—one at Berlin and one near New York.

Vancouver board of trade seeks legislation to prevent prolonged race meetings near the city.

A number of missionaries, captured by Chinese rebels in Tsao Yang, are held for ransom.

Amundsen is reported to be preparing for an Arctic dash by æroplane on his forthcoming expedition.

General Porfirio Diaz, ex-president of Mexico, will return to that country about the end of October.

The latest gold strike is reported on Wilson creek, running into a Yukon slough 200 miles above St. Michael.

Gold ore assaying $50,000 a ton has been found in a new lead on the Crackerjack group, Texada Island, B. C.

Twenty-three cases, five of which are murder charges, are on the docket at Vancouver assizes this week.

It is stated that Colombia, backed by foreign capital, will build a canal to compete with the Panama enterprise.

The vigilant watch kept by Dominion fisheries cruisers has practically done away with fish poaching off the British Columbia coast.

It is expected the White Pass and Yukon railway will operate a line of steamers from Seattle and Vancouver to Skagway next year.

Russian naval officers have discovered a new uninhabited mountainous land, possibly as large as Greenland, 500 miles north of Asia. Authorities say the discovery will prove to be the last great discovery of lands.

Jack Johnson, the notorious negro pugilist, who forfeited $30,000 bonds in a white slavery case, has become a citizen of France.

The Wilson administration will ask congress in December for three new battleships and a proportionate number of torpedo boat destroyers.

It is expected that Sir Rufus Isaacs will be appointed lord chief justice of England, in succession to Lord Alverstone, who is about to retire.

On Saturday, at the pressing of a button in Washington by President Wilson, the Gamboa dike, the last barrier in the Panama Canal, was destroyed.

The estimate of the trade and commerce department places the yield of wheat in the west at 188,488,000 bushels, six millions bushels more than last year at this time.

In a speech at Vancouver, Hon. W. J. Bowser declared the McBride administration had the support and confidence of the people of British Colnmbia, and had not the slightest intention of calling a general election.

The storm that wrecked Nome wiped the mining town of Solomon entirely off the map. Not one building of any sort in the settlement, which had a population of 300, remained standing after the gale. It is reported all the inhabitants escaped with their lives.

Naval authorities deny Sir Wilfred Laurier's statement, in a political speech, that the British navy, "collected in home waters at the time Mr. Borden brought in his naval bill, has now scattered to the ends of the Empire." The ex-premier used the statement as an argument against the existence of an emergency.

Despite the recent roundup of Italians suspected of complicity in recent bomb outrages in New York, the east side was disturbed on Monday by one of the most terrific bomb explosions in recent years. An entire block was shaken, and although no one was seriously injured, 250 persons were driven from their homes.

Vancouver is making plans for the 1915 convention of the American Mining Congress, and in connection with it a great mining exhibition at Hastings park during three months of that year is being discussed. This will be a splendid advertisement of British Columbia's mining resources. Mining experts on the continent would be shown every mineral from salt to platinum, all produced in this province.

The Royal Wedding

London, Oct, 15:—The wedding of Prince Arthur of Connaught and the Duchess of Fife, which was solemnized today, occasioned the greatest gathering of notables since the King's coronation. Militant suffragettes followed the procession and threw literature into the Royal carriage. The women were hissed by the crowd. Several were arrested.

The Duke and Duchess of Connaught will sail for Canada on Saturday. It is the general belief that Prince Arthur will soon be his father's successor as governor-general of Canada.

Fire at Treadwell

Juneau, Oct. 11:—The shaft house of the Treadwell mine was destroyed by fire today and the loss is estimated at $40,000. The blaze was discovered at 3 o'clock in the morning, and it was an hour before the firemen, working with eleven streams of water under a pressure of 200 pounds, were able to get the fire under control.

Their efforts confined the blaze to the shaft house and saved much valuable machinery housed in adjoining buildings.

The company announced today it would not rebuild the burned structure. The fire has not affected the stamp mills, as rock is being delivered to them through another shaft.

Shipyards for B. C.

London, Oct. 15:—Sir Richard McBride and Laurence McRae, his secretary, sailed for Canada on the Olympic today. A passenger on the same steamer is Yarrow, the noted constructor of torpedo destroyers, who contemplates establishing shipbuilding works at Vancouver and Esquimalt. He believes the Borden naval policy will be carried, and that as a consequence many smaller war vessels will be built in Canada.

Men's and ladies' sweater coats adapted for life at Sargent's.

Minister of Justice

Vancouver, Oct. 9:—Hon. C. J. Doherty, who is visiting Vancouver and Victoria, will be unable to visit the northern part of the province.

Millions for Warships

Vienna, October 13:—Austria's naval estimates, made public, include $45,000,000 for new battleships to be constructed or already building.

Besides four dreadnoughts already laid down, it is planned to build two super-dreadnoughts at a cost of $15,000,000 each.

Fresh New Zealand butter at Sargent's.

Genuine "Gendrons" penetangs at Sargent's.

TAX SALE

Omineca Assessment District

I HEREBY GIVE NOTICE, that on Saturday, the 11th day of October, A. D. 1913, at the hour of Two o'clock in the afternoon, at the Courthouse, in the town of Hazelton, I shall offer for sale, at public auction, the lands of the persons hereinafter set out, for the delinquent taxes remaining unpaid on the 31st day of December, A. D. 1912, and for interest, costs and expenses, including the cost of advertising said sale, if the amount due is not sooner paid.

BULKLEY VALLEY FARM LANDS FOR SALE
THESE LANDS are located close to the main line of the Grand Trunk Pacific Railway, which is being constructed through the heart of the Bulkley Valley, one of the best farming districts in British Columbia. Steel is now laid through Telkwa, and trains will soon be running from Prince Rupert to this point. There are good roads to all parts of the Bulkley Valley from Telkwa.
The Bulkley Valley is an ideal dairying and mixed farming district, with a market for all kinds of farm produce.
We own all the land we offer for sale, and can give a guaranteed title. Our lands were all very carefully selected several years ago by experts in the land business. We sell in tracts of 160 acres or more.
Our prices are reasonsonale and terms are easy. Write for full information to

Agent for Glen Vowel Sawmill

James Cronin Here

James Cronin, the well-known mining man, spent a few days at his ranch near Smithers, leaving this morning for Spokane. Chas. Chapman, manager of the ranch, showed Mr. Cronin the big crops of the season, and the latter was more than ever pleased with his property and with the Valley in general. It is understood that mining will be resumed on the Dibble group, the big silver-lead property in the Babine range owned by Mr. Cronin, as soon as supplies can be taken in next spring. The completion of the railway to Smithers gives the owner an opportunity to develop this promising property at much less cost than formerly.— Smithers Review.

Large assortment of rubbers at Sargent's.

LOST—One bay horse. "10" brand on left hip and brand on left flank. Weight about 1,300 lbs. Reward for return of this horse to Roy Ridsdale. 5 4t

Smithers Notes

(From Thursday's Reveiw)

King's survey party has moved camp to Seymour lake.

Jack McNeil, of Aldermere, returned yestereday from a trip to Seattle.

The Oyster Bay cafe opened this week and is doing good business.

Although not yet completed, James Girling's big rooming house is full every night.

C. E. Bailey, inspector of preemptions, returned this morning from a trip to the railhead.

Angus McDonald, of Cunningham's Hazelton staff, was an interested visitor in Smithers this week.

Jack Goodwill came from Aldermere yesterday to meet Mrs. Goodwill, who has been visiting the coast.

Dr. Stone passed through today, on his way to Hazelton, after an inspection of the camps on this section.

The Review is having a temporary office built, for use during the construction of its large quarters at Main and First.

A. M. Tod, the electrician, is engaged in wiring new buildings. He is having a store and dwelling erected at Second and King.

Road Superintendent Williscroft was here last evening, to meet Mrs. Williscroft, who returned from a visit to Victoria.

F. D. Eason has let a contract for a large store building on Main, near Third. He is also building a bungalow on one of his lots.

On the Hudson Bay ranch, near Smithers, R. J. McDonell has harvested one hundred tons of fine potatoes from ten acres of land.

C. W. Teetzel, the Singer sewing machine man, interviewed the ladies of the town during the week and sold a number of machines.

Smithers poolroom, on Alfred street, is a favorite resort with townspeople and visitors. The proprietors are installing three first-class tables.

Additional temporary buildings have been erected for station purposes. Work on the big station is expected to begin within a few days.

A. Chisholm, the hardware merchant, is making all possible speed in building his Main street store, carrying on business in the meantime in a large tent.

The mill of the Seymour Lake Lumber Co., near the railway yard, is turning out ten thousand feet of lumber every day, and is selling every foot of its product.

F. G. Heal and family returned last evening from an extended tour. Mr. Heal is one of the pioneer ranchers of the Valley and has prospered in this district.

R. H. Gerow, who is engaged in the lumber and transportation business at Burns lake, came down yesterday. He reports business good in his part of the district.

Chris Peterson, one of the progressive ranchers of the adjacent district, has brought in a car of fine cattle, including a thoroughbred Jersey bull of the highest class, and fourteen Holstein cows. Chris is going into the dairying business in earnest.

Rev. F. L. Stephenson of Ladysmith, the popular clergyman who for some years represented the Anglican church in the Bulkley Valley, was here this week, visiting his Valley land and renewing his acquaintances. He left for the west this morning.

Fifty buildings are in course of erection, while contracts for others are being let daily. It is only six weeks since building operations began, and finishing material has only begun to arrive since the inauguration of the regular train service two weeks ago, so that it has not been possible to complete any of the permanent buildings. Many of these are far enough advanced, however, to show that the business men who are locating in Smithers have perfect confidence in the stability of the town. Large and handsome structures will be the general rule on Main street.

Not content to await the completion of their buildings, many merchants and other business men have begun operations in their uncompleted premises or in tents, and there is little that cannot be obtained in Smithers today. Within a few days the sidewalks will be completed and the streets placed in better condition, which will much facilitate building and general business.

The first store building erected on Main street was that of R. S. Sargent. The store proper is a two-story building, 24x53, which will later be moved to the rear of the lots, while a much larger building will take its place. The store fixtures are not yet in place, and J. A. Macdonald, local manager of the business, is using the large warehouse in the rear as a temporary store. Freight for the establishment is arriving on every train, and a complete stock of general merchandise will be in place as soon as the carpenters are through.
