PIERPONT MORGAN, PRINCE OF FINANCE, PASSES AWAY

Anxiety Regarding Money Trust Investigation Thought to Have Hastened Death of Financial Dictator---His Remarkable Career---Left Great Fortune

Rome, March 31:—J. Pierpont Morgan died at noon today. The great financier had come to Rome to consult specialists. His condition failed to improve, however, and he suffered great internal pain. For several hours before his death he was in a state of coma, unable to respond to questions or to recognize those at his bedside. Heart tonics had no effect, and his condition gradually became worse until the end.

The physicians attribute the breakdown to anxiety caused by the money trust investigation in the United States.

After embalming, the body will be taken to the United States for interment.

Contrary to expectation, the death of Mr. Morgan, who was the most prominent figure in the financial world, had little effect on the stock exchanges, only fractional changes in prices of securities being caused by the news.

Mr. Morgan was 76 years of age.

No man of recent times has occupied a more prominent place in American financial history than John Pierpont Morgan. He was in the banking business for more than half a century, and during the latter years of his life he was unquestionably the financial dictator of the United States. When panic seized Wall street in 1901 during the struggle for the control of the Northern Pacific Railroad it was Mr. Morgan who came to the rescue. Again, when in the fall of 1907 the Wall street panic was at its height, the financiers of the country instinctively turned to Mr. Morgan for aid and advice. He heeded the appeal and within forty hours created a pool of $40,000,000 and saved the nation from what seemed to be a panic that would topple over many of the financial pillars of the country.

Aside from these two incidents Mr. Morgan probably will be chiefly remembered for the part he took in floating the United States Steel Corporation.

His control over men and money was the dominant keynote of his life. Others, perhaps, were wealthier than Morgan, but he commanded his wealth and that of others. At the height of his power he is said to have controlled $9,000,000,000.

It is impossible to estimate with any degree of accuracy the size of the Morgan fortune. It has been variously estimated in recent years at from $75,000,000 to $200,000,000. If it is anywhere near the latter figure it is equally true that Mr. Morgan made as much for others.

POWERS WILL COMPEL MONTENEGRO TO OBEY

London, April 3:—Great Britain, France and Austria have agreed to make a naval demonstration immediately, with the object of forcing Montenegro to desist from further attempts to take Scutari. Servia is also likely to be thus compelled to obey the Powers.

The taking of the forts before Scutari was a bloody affair. Two hundred picked men, acting as a forlorn hope, each threw effective bombs, making breaches in the defences before all were slain by the Turkish garrison. The end of the war seems nearer.

London, April 5:—Montenegro is still defiant of the Powers, refusing to abandon the siege of Scutari. There are rumors of serious complications in international relations in consequence.

Want Diaz Back

Havana, March 31:—A delegation of Mexicans en route for Europe to urge Gen. PorfirioDiaz to return to Mexico as soon as possible after peace is re-established, arrived here aboard the steamer Esperanza.

Forty-nine thousand tons of steel rails from the Canadian Soo should reach Vancouver at an early date, for trans-shipment to Prince Rupert.

MRS. PANKHURST GETS LONG TERM IN PRISON

London, April 3:—Mrs. Emmeline Pankhurst, leader of the militant suffragettes, was today sentenced to three years' imprisonment for inciting persons to commit damage to property. The prisoner delivered a bitter tirade against man-made laws, in which she hinted at suicide if her sentence were enforced.

London, April 5:—Militant suffragettes are breathing vengeance over the conviction and imprisonment of Mrs. Pankhurst. They threaten the lives of their enemies, and are preparing to use dynamite. The railways are taking the women's threats seriously enough to take unusual precautions in policing their roads.

This is the last day upon which applications for registration as voters can be received in Hazelton for the May revision. The commissioners have been busy, and it is thought every qualified resident of Hazelton and the immediate vicinity has made application. Some voters living in the outlying districts are likely to remain off the lists until the fall revision, but as there is unlikely to be an election in the meantime, they will hardly lose anything by the delay.

Building Up South Hazelton

At South Hazelton progress is being made with building operations. Chettleburgh & Sinclair have taken possession of their new premises, which are practically completed. R. S. Sargent has begun the construction of a building 30x45, to which additions will be made as required. J. C. K. Sealy is making preparations for the erection of a hotel building, the material for which is already on the ground. It is understood that R. Cunningham & Son have decided upon the construction of a ware house as the first step in their building program. Stephenson & Crun, contractors, are busy with plans and estimates for new buildings.

DEVELOPMENT PLANS FOR DIVISIONAL POINT

The first definite news regarding the plans for the development of Smithers, the Bulkley Valley divisional point on the Grand Trunk Pacific, was brought by R. E. Williams, the well-known Telkwa man, who returned from Vancouver on Saturday evening. Speaking to the Miner, Mr. Williams said that the Williams-Carr Lumber & Investment Co., a new organization in which he is associated with T. L. Carr, another pioneer operator of this district, has contracted with Aldous & Murray, fiscal agents for the G. T. P. townsite of Smithers, to care for the local interests of the firm in connection with the divisional point.

"Our firm" said Mr. Williams, "will immediately open an office Smithers. Later, when steel reaches the townsite, a complete stock of coast lumber will be laid down.

"In connection with Smithers," he continued, "I am authorized to say that the townsite will be laid out according to plans now being prepared by expert landscape engineers, and will be planned on the most modern lines. The survey will start immediately, and must be completed before July first. Lots, with the exception of those owned by the provincial government, will not be sold at auction, while prices will be kept low enough to allow purchasers to make a profit. Increases in the prices of lots will be made from time to time, as the development of the town warrants, previous notice being given.

"Smithers will be a permanent passenger and freight division. Of this intending investors will have ample assurance in an announcement to be made by President Chamberlin or Vice-President Donaldson before the lots are placed on the market.

"After the preliminary work of surveying, and as soon as it is decided in what manner the contracts for the work shall be let, the railroad yards, all of the business district, and the main streets will be cleared.

"There is no doubt that, in accordance with railway practice, all train crews will change at Smithers as soon as steel reaches the station.

"A very large sum has been appropriated for advertising the town and district. The resulting publicity cannot fail to be of

(Continued on Page Six)

NEW FISHERIES POLICY IS PROVING SUCCESSFUL

(Special to The Miner)

Vancouver, April 2:—The successful inauguration of the new fisheries policy of the provincial government was the subject of a vigorous speech delivered by the attorney-general last night, the occasion being the opening of the new quarters of Vancouver Conservative club. Mr. Bowser declared that the new fisheries license system would not only result in replacing orientals with white fishermen of the best class, but would establish in the latter a nucleus for the Canadian navy promised under the Borden plan. On the Skeena last year there were 49 white fishermen, all fishing with cannery gear. This year the government reserved 170 licenses on the river, and 127 of these were taken up by white men. The result of the new system in Rivers Inlet, on the Naas, and elsewhere was also gratifying. "This year", said Mr. Bowser, "in this number two district, there will be 270 whites owning their own boats and gear, where last year there was not one owning his own boat and net. Last year 264 whites fished with cannery boats and gear. The same number is likely to return this year, so we expect a total of over 500 white fishermen in this one district."

The attorney-general concluded with a rap at Laurier and his Japanese fishermen, and vigorous criticism of the Liberal attitude on the naval question.

Blockade Will Continue

Ottawa, April 5:—The debate on the naval bill will be resumed on Monday. The Liberals will continue their blockade. The Japanese treaty is nearly ready for passage. It will provide further restrictions on Orientals.

London, April 3:—Hon. Winston Churchill stated in the house of commons today that the three dreadnoughts promised by Canada were so vitally needed that if not contributed by the Dominion, or if long delayed, they must be built by Britain herself, to fill in the gap in the program planned. Canada's contribution will be part of a great Imperial squadron, playing a real part in the defence of the Empire.

New York, April 4:—E. T. Stotesbury, manager of the Philadelphia house of Morgan & Co., is likely to succeed the late J. Pierpont Morgan as head of the firm.

LOSS OF LIFE IN FLOODS IS LESS THAN FIRST ESTIMATE

Lower Ohio River Now in Flood---Dayton Still Endangered By Rising Waters---Half a Million People Suffering in State of Ohio---Great Loss of Property

Chicago, April 4:—Conditions at Dayton are such that a second flood is feared.

While the facts are not yet available, it is certain that the loss of life has been much below the first estimates.

Floods on the lower Ohio are causing anxiety, the river having reached unusual height between Marietta and its mouth. There has been no further loss of life.

Columbus, Ohio, April 2:—Half a million flood sufferers in Ohio will require relief for at least three weeks. The property loss to date has amounted to about $350,000,000.

Exaggeration of the hardships which 500,000 persons in the area swept by the flood of last week have endured is impossible. Large numbers of them have lost their homes and are without money. They are being sheltered in churches, halls and in the homes of the fortunate who were not in the paths of the floods.

The cities that suffered were no more considered in the flood zone than Omaha was thought to be in the tornado belt. The inundation came from no broken reservoirs or dams, but from the skies. Two weeks of wet weather, that soaked the soil almost to the point of saturation, followed by a precipation of seven inches in two days was the cause of the floods.

Floods in Manitoba

Vancouver, April 4:—Winnipeg despatches state that heavy floods are occurring north and west of that point. Thousands of people are marooned by the rising waters and much damage has been done. So far there has been no loss of life.

Sentenced For Life

Vancouver, April 4:—Wilson, the footpad who was captured by an intended victim, Sinclair, was today sentenced to imprisonment for life, being found guilty of the attempted murder of his captor, who received two bullet wounds from the bandit's revolver.

Stampeders Disappointed

Vancouver, April 4:—A despatch received today from Nahlin, the nearest point to the scene of the Teslin stampede, says disappointment is general among the prospectors in the new district, and many are ready to to leave the Silver creek camp.

To Fly Across Atlantic

London, April 3:—There are already four entries for the Daily Mail's prize of fifty thousand dollars, offered for the first hydro-æroplane flight across the Atlantic.

GOVERNMENT SENDING LECTURERS TO VALLEY

(Special to The Miner)

Aldermere, April 5:—In response to the request of the Bulkley Valley agricultural association and farmers' institute, the provincial government has arranged for a series of lectures on agricultural subjects, to be given here. H. E. Upton will lecture on poultry keeping and egg production, and A. E. Keffer on soil conditions and general farming, including the cultivatiou of small fruits. May 5 and 6 are fixed as the dates of the lectures, and a large attendance is assured, the farmers of the district taking a great interest.

Vancouver, April 4:—The Canadian Pacific has adopted plans for a fifteen-story hotel in Vancouver. The design of the structure is original and effective.

Board of Trade Meeting

The postponed quarterly meeting of the board of trade will be held in the Wrinch building on Tuesday evening next. One item of business will be the election of a president, in succession to R. DeB. Hovell, whose removal from Hazelton leaves the chair vacant.

Rock slides in the vicinity of 85 have delayed the trains during the last week.

DONALDSON EXPECTS EARLY COMPLETION

Vancouver, April 3:—Morley Donaldson, general manager of the Grand Trunk Pacific, returned east today, after spending several days in Vancouver and Victoria. He spoke enthusiastically of his visit to Prince Rupert, Hazelton and the railhead. The steel is expected to reach Smithers by June. If there are no unforeseen delays, Mr. Donaldson says, the last spike of the G. T. P. main line will be driven at some point west of Fort George in the autumn of 1914. It is the company's intention to inaugurate a through train service from the Atlantic to the Pacific early in 1915. Trains from the east may reach Fort George late this year.

The contractors have 6,500 men working on construction in this province.

Architect Rattenbury, who is now in Victoria, has completed plans for the company's new hotel at Prince Rupert. There will be a total expenditure of $2,000,000 by the railway at that point, and work will be started this summer.

The G. T. P. has a site for a big hotel at Victoria, but no arrangements have as yet been made for building there or in Vancouver.

VOL. II. SATURDAY, APRIL 5, 1913. No. 31.

The Omineca Miner has the largest bona fide circulation of any newspaper in the Northern Interior of British Columbia.

That the forthcoming opening of the Panama Canal will change the whole aspect of affairs in British Columbia, is not to be doubted. There is no part of this province but will feel the increased impetus which will be given to the commerce of the Pacific Northwest through the opening of new trade routes resulting from the completion of the great undertaking. That British Columbia will be prepared to take full advantage of the new trade is not probable. In the way of harbor improvements and terminal facilities much will be done before 1915, but students of affairs appear to hold the opinion that even with the work which has been projected, the ports of British Columbia will be unable to afford accommodation for the increased traffic. That better provision has not been made is largely due to the seeming inability of the East to appreciate the importance of this province in the scheme of things Canadian. As an exchange says:

"The West is under some disadvantage from the fact that the East does not begin to realize what the future has in store for this part of Canada. Indeed we might say without injustice that the East does not appreciate the place which the Western Coast occupies, and much less what it will occupy in the development of the Dominion. One very well informed gentleman, whose business has frequently taken him to Ottawa, says that when any public expenditure is proposed to be made in this part of the country, it is always spoken of as "doing something for British Columbia." The East appears to think that it is being called upon from time to help us out of its great bounty. It has not yet learned that the Dominion fronts on two oceans. A new route to the ocean, the deepening of the St. Lawrence, the enlargement of the canals, the construction of great docks on the Atlantic seaboard are looked upon as works for the benefit of Canada; but everything that is proposed for this part of the Dominion is treated as something for British Columbia. It is time for a new outlook at Ottawa. We are not writing in any spirit of complaint; it would be foolish to blame others for not appreciating what we have only just began to appreciate at all adequately ourselves. We are only stating facts as they exist, and the only conclusion we propose to draw from them is that our duty lies in making an supreme effort to bring the East to appreciate the new outlook before the West."

In view of the approaching visit to Vancouver of the International Geological Congress, on the completion of its tour of Canada, the Chamber of Mines is making a special effort to secure permanent quarters, in order that a representative exhibit of British Columbia minerals may be displayed. It is hoped that the showing of ores will eclipse anything the members of the Congress may see elsewhere on their tour. To further the purpose of the Chamber, which is composed of mining men located throughout the province, it is desired to increase the membership. All who are interested in the development of our mineral resources should join the organization. The membership fee of five dollars may be sent to F. S. Pilling, secretary, 437 Hastings St., W., Vancouver, or to this office.

The British Columbia Gazette records the appointment of Stephen H. Hoskins, of the city of Nelson, to be government agent at Hazelton; gold commissioner; registrar under the marriage act; district registrar of births, deaths and marriages, and official administrator for the Omineca mining district; commissioner of lands for the Hazelton and Fort Fraser land divisions; court of revision and appeal and collector for the Omineca assessment district; water recorder for the Hazelton and Peace River water districts; coroner for the province; and stipendiary magistrate under the small debts court act for that portion of the Skeena electoral district not within the limits of the city of Prince Rupert and a radius of 40 miles therefrom.

The appointment of William Allison as auditor-general; the transfer of S. S. Jarvis from Hazelton to the office of mining recorder, etc., at Nelson, and the transfer of Geo. Milburn from Fort Fraser to Hazelton are also gazetted.

Big Salmon Year

As nearly as can be ascertained the salmon canners of British Columbia have prepared this year for an expected pack of 1,040,000 cases. There are one or two canneries to hear from definitely but this can be taken as approximately correct The allocation is as follows:

Fraser River, 600,000 cases; Skeena river, 140,000; Naas Inlet, 50,000; Rivers Inlet 120,000; outlying, 130,000.

What is commonly called the "big run" is scheduled for this year. In the last big run year, 1909, the pack was 967,920 cases.

Mongolian Dispute

London, March 31:— Relations between China and Russia are still strained on the subject of Mongolia, and though action by the new republic in Mongolia has been described as absurd, there are indications that the president of the republic is not inclined to permit the sequestration of that enormous Province without resistance.

Pyjamas and Night Gowns at Sargent's store.

London, April 3:—It is reported that the Prince of Wales will visit Canada this summer.

LAND NOTICES

Hazelton Land District. District of Coast, Range V.

Take notice that J. D. Wells of Kitselas, miner, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at northeast corner of L. 1435, marked "J. D.W.'s N.W. cor." thence south 20 chains, east 20 chains, north 20 chains, west 20 chains to point of commencement and containing 40 acres,

Jan. 23, 1913. 31 J. D. Wells.

Omineca Land District. District of Cassiar.

Take notice that Donald Clacher of Kitsumkalum, B.C., occupation farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southeast corner of lot 833, thence 40 chains west, 20 chains south, 40 chains east, 20 chains north, to point of commencement, containing 80 acres more or less. Donald Clacher.

February 12, 1913. 35

Hazelton Land District District of Coast, Range 5.

Take notice that Donald A. McNeill of Kitselas, saw mill manager, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the northeast corner of lot 1433, thence 20 chains south, 20 chains east, 20 chains north, 20 chains west back to point of commencement and containing 40 acres.

Jan. 10, 1913. Donald A. McNeill.

The World's Doings in Brief

News Notes from Many Sources

All British warships built in future will be oil-burners.

Sir Charles Tupper has gone to England, where he will reside in future.

The Duke and Duchess of Connaught reached London on Sunday last.

The Pope's health, which has been causing anxiety, is reported improved.

Navigation on Lake Superior has open earlier than for a number of years.

Nearly 2500 Russian immigrants are en route from Halifax to Western Canada.

A steamer with 400 Mexican soldiers aboard is reported sunk by an explosion off Guaymas.

Walter H. Page, editor of The World's Work, has been appointed American ambassador to Great Britain.

There is still occasional fighting in Tripoli. Last week the Italian forces defeated a band of Arabs, with considerable loss.

The provincial government has arranged to supply farmers' institutes with pure-bred sires at cost, on deferred payments.

The new city of Port Moody will hold its first civic election next Monday. Perry D. Roe was elected mayor by acclamation.

The bill providing for adhesion to the new Japanese treaty keeps control of immigration under the Government and Parliament of Canada.

Some of the rebel factions in the Mexican state of Sonora are seeking annexation to the United States, according to American despatches.

Dominion reports show the cost of living in 1912 to have been higher than before. Wholesale prices were 6.5 per cent. higher than in 1911.

Germany has made public its plans for an aerial fleet to cooperate with the navy. It will be entirely apart from the army aerial corps.

Vancouver police have captured two men who have been "raising" one dollar bills to tens. They had passed many of the bills on foreigners.

The Empress of Russia, largest of C. P. R. steamers, sailed from Liverpool on Tuesday on her maiden vovage, which comprises a cruise around the world.

The Standard Oil Co. has offered a loan of $35,000,000 in gold to China, in return for the sole right to the exploitation of petroleum in China for a term of years.

D. B. Hanna predicts that freight trains will run to the Coast over Canadian Northern a year from now, and that passenger trains will run through in June, 1914.

London courts have ordered the compulsory winding up of the Peruvian Amazon Company, the rubber concern which was responsible for many of the Putumayo atrocities.

In London it is stated that a process has been discovered for converting iron ore of any grade, even sands now quite useless, (of which hundreds of millions of tons exist ready for working) into steel of excellent quality without the aid of a blast furnace, the steel being produced direct in a single operation. Tests have already been made of the steel so produced and the results obtained are remarkable.

Large assortment of Leather Gloves from 50c up, at Sargent's.

As showing the tendency of mining to eclipse all other pursuits, William Walsh, State Inspector for Mines in Montana, points out that during the last half century the agriculture of the world has only doubled; the products of manufacturers have only quadrupled, while the output of mines has increased more than thirteen-fold.

Boy's "College" Caps at Sargent's store.

Local and Personal

R. DeB. Hovell left for Victoria on Sunday.

Chas. Petten, of Chicken Lake, was here on Wednesday.

James E. Shaw, of Burns Lake, was in town during the week.

S. Perrin, of Vancouver, registered at the Ingineca on Monday.

James Pierce, of Prince Rupert, was a visitor in Hazelton on Tuesday.

Hugh McKay, better known as "Sourdough", has gone to Vancouver for a brief stay.

Lyster Mulvany, who now claims Pleasant Valley as his home, is a guest at the Hazelton.

George Bierness has gone to Vancouver, on business connected with his Groundhog coal lands.

Lloyd Affleck, with a party of Green Bros., Burden & Co., surveyors, is engaged in the vicinity of Carnaby and Skeena Crossing.

W. Brewington and H. Wilson, of Port Alberni, came in on Wednesday to take a look over the district.

F. G. G. Bolitho and T. N. Bolitho, of Victoria, arrived on Wednesday. They will visit the Bulkley Valley before returning to the capital city.

Mrs. J. E. Bostrom and children have gone to North Vancouver for the summer. Mr. Bostrom accompanied them to Prince Rupert on Thursday.

A. L. Eaton, of Vancouver; R. H. Bacon, Spokane; W. Ferrier, Victoria; and J. C. Knight, Prince Rupert, were among the hotel arrivals of the week.

H. Neville Wright, of the government office staff, left on Thursday for Victoria, where he will take a position in the auditor-general's department, under Mr. Allison.

S. S. Jarvis, senior clerk in the government office here, left on Thursday for Nelson, to take the position of mining recorder, vacated by the promotion of S. H. Hoskins.

Fresh Ranch Eggs at Sargent's.

Shel Robinson returned yesterday from the upper Kispiox. He declares that district has a great future.

F. B. Chettleburgh is the new fire chief, with R. S. Sargent as deputy. E. H. Hicks Beach was elected president of the association.

Development work will be resumed on Monday on the Hummingbird group, on Four-Mile hill, below the Erie. The owners are Thomas King, Martin Cain and Fred Glendinning, all Hazelton men.

S. H. Hoskins, the new government agent at Hazelton, is already in harness. He expresses pleasure with what he has seen of the district. Being a Kootenay man of many years' standing, Mr. Hoskins is meeting quite a number of old friends in Hazelton.

News of Charles Turner is sought by his sister, Mrs. Gracia Houston, 661 E. Oregon St., Portland, Ore. Turner formerly cooked for a small crew, and when last heard from had just been discharged from the hospital, where he had been treated for a cut hand. He has light hair and blue eyes and walks with a slight limp.

Development Plans for Divisional Point

(Continued from Page One)

great value to the Bulkley Valley as a whole.

From time to time improvements will be carried out in connection with the townsite. These will include an electric lighting plant and water supply system, both of the most modern character.

"A point of interest to the pioneers of the district is that we have arranged with Aldous & Murray for the exclusive sale of lots for a period of thirty days prior to the placing of lots on the open market by themselves. This is to give the people now in the district an opportunity to select desirable lots for business and residential purposes.

"With the plans which have been prepared, nothing is required but a united effort on the part of the people locally interested to make Smithers the best town in the Northern Interior."

Mr. Williams left on Monday for Telkwa, to set in train the necessary preparations for his firm's part in the development of the divisional point.
