THE MUSICAL CLAY'S

There was not a vacant seat in the Essington Hall on Thursday evening when Professor Clay gave his musical carnival. The program which lasted about two and a half hours, was admirably rendered. Percy Clay is a musical prodigy and plays with amazing firmness, accuracy and tone for one of his years, which persons much older than he would be pardoned for envying. The piano and banjo duet by the Professor and Mrs. Clay was appreciated very much. We would do Reggie and Harold an injustice were we not to mention them for they performed their parts admirably for such little dots. in fact the Musical members were nicely intersperced and it is a matter for congratulation to Pro. and Mrs. Clay, that all aquitted themselves so creditably. Seldom have music lovers an opportuity to listen to such juvenile talent, and those who missed them certainly missed a very enjoyable evening.

The Clay's are returning here on September 6.

SOCKEYES NOT DUE

There must be some mistake about the report published by your contemporaries this week that the cannery men are beginning to get uneasy because the sockeye run has not started yet," said an old resident of Lulu Island to the World this morning. For twenty years and more this gentleman has been more or less concerned with the salmon fishing industry on the Fraser, and he has watched the coming and going of the fish closely during all those years. "I would not be surprised if they do not show until after the 20th of this month, and I could name you many a year where they have been as late as the 18th, 20th and even the 26th of July before the real run commenced. This has been a late season all round. The spring was late and the spring salmon was nearly a month later than last year. Any time the spring salmon are late in appearing, it is a good sign that the sockeye will be late too, and there is not the least reason for any feeling of uneasiness as yet. I am as sure as I ever was that this will be a good year. Sockeys never appear in the gulf or in the river until the water reaches a certain temperature and it has not reached that point yet."

Reports from Victoria state that there is not as yet any sign of sockeyes entering the straits. The Vancouver Island traps are taking very few fish.–Vancouver World.

LEON LING MAY BE HIDING IN LONDON ENGLAND

Washington, July 18—Ambassador Reid, at London, has cabled the state department that the British government wished to know whether any request would be made for the extradition of Leon Ling, should the Chinaman be apprehended in England. It cannot be ascertained that this request is based on any information as to the whereabouts of Leon.

News to Ship Direct by United Wireless

C. Francis, Opr.

Pittsburg — The Strike in the Schoneville district ended today. An agreement was reached between the miners and operators. No more trouble is expected.

San Francisco—Young Corbett has challenged Battling Nelson to a 20 round fight. Nelson's bad showing in his recent fight is said to be the cause of the challenge Nelson has not been heard from yet,

San Francisco—A. Ruef is planning another vigorous fight for his freedom. He claims he is absolutely innocent of charge of graft.

Connelsville, Pa., July 17—The Connelsville Coal situation is unchanged. No settlement in sight thus far between miners and opertors.

Juneau, July 19—Judge Cushman left Seattle today for Juneau. He had been in Tacoma attending the funeral of his brother, the late Congressman Cushman.

Seattle, July 18 — The attendance at the fair Sunday was 74,85? nearly twice as large as previous week days. The Igorote village has been removed from the grounds. Filipins Student and Soldiers visiting the villiage made strenuous objection on the ground that it served to lower the moral standard of the islands.

There are 130 passengers on board.

"Just before we left Seattle," said the humorous Landlubber, as he placed a nickle in the slot of the automatic piano on the Iroquis, "I heard of a slight mistake of which this music box reminds me. A young womau was troubled with a boil on her knee, which grew so bad that she thought it necessary to call a physician. She had formed a dislike for the family physician, so her father suggested several others, and finally said he would call in the physician with the homoepathic case, who passed the house every day. They kept a sharp lookout for him, and when he came along he was called in. The young lady modestly showed him the disabled member. The little man looked at it and said: "Why that's pretty bad." "Well," she said "What shall I do?" "If I were you," he answered, "I would send for a physician. I am a piano tuner."

The wireless came in useful to the Provincial police this morning. A telegram had been received from Prince Rupert that Peter Rankin, for whom a warrant was out for forgery committed at Port Essington, had left the latter port for Vancouver. The boat he had sailed on was not mentioned, but the fact that the Princess May was on her way south was known and communication with her by United Wireless was established and it was ascertained that Rankin was on board. The boat was accordingly met and Rankin arrested.—Vancouver World

MISSION SHIP SUNK

A desastrous accident befell the Methodist Mission Ship "Uda!" in in the Portland Channel on the 12th inst. The little craft which was propelled by a 40 horse power engine left Port Essington on the 5th on her mission to the cosmopolitan toilers at the salmon canneries. After a few days work along the Pacific coast she reached Port Simpson safely and from thence proceeded to the Naas River and Portland Channel at which latter place she was caught by a strong tide and dashed against a hugh rock, the force of contact made a large hole in her bow and in seven minutes all that was to be seen in the water where she had stood was a circle of foam caused by her disappearance to the bottom of the sea. Captain Oliver and a Missionary were the only persons on board at the time, they got safely away in a row boat which was launched immediately after the collision. Friends of Methodism will be grieved to hear of this loss, which will be keenly felt. She is the gift of Captain Oliver to the Methodist Church, was built by him and launched only last year at New Westminister, since when she has plied between ports in the New Westminstet district, Queen Charlotte Islands and the Alaskan coast, supplying the homes of lonely settlers, lighthouses, and construction and other camps with literature, and fulfilling her Christian mission in numerous different ways, one of which being the removal of persons in need of medical assistance to places of refuge and treatment. It is reported that she will be raised again in the near future.

NEW CLUE IN SIGEL MURDER

New York, July 19—Two women are under arrest today as the result of renewed efforts by the police to find the slayer of Elsie Sigel, the American missionary whose dead body was found in a trunk in the room of Leon Ling, a Chinese who has never been seen since the tragedy,

Sadie Brodie and Fanny Miller, 19 year old white girls, were found hiding in Chinatown today and arrested, They were taken into custody at the direction of a Chinese spy, who learned that they were aquaintances of Young Yow a Chinese laundryman who was found dead in one of his tubs a few days ago. He had been strangled with a silken cord.

The police immediately suspected that the murder was in some way connected with the Sigel tragedy, and have been runniug down clues in the hope of confirming their theory. When it was learned that the Bropie and Miller girls had received presents from Yow they were sought for by officers. Nothing could be found of them until today.

When arrested the girls admitted that Yow had aften given them valuable presents, and said that they had hidden themselves because they wanted to avoid notoriety in connection with the death of their Chinese friend.

Detectives are sweating the girls in an effort to learn something that will clear the mystery which surrounds both the Sigel and Yow murders.

U. S. A. FISHERIES AND BAIT QESTION

Seattle, July 19— A protest, now in preparation, is to be sent to the sate department at Washington against the decision of the Canadian government to refuse to permit American halibut fishing vessels to purchase bait at British Columbia port. This action, which is taken as most unfriendly. is similar to that which caused a controversy on the Atlantic coast some time ago. American fishing vessels were prohibited from procuring their bait in Newfoundland ports, a privilege they had enjoyed for years. The matter was finally settled after prolonged negociaiions between the Washing government and Great Britain.

There are 15 steamers and schooners, owned in Seattle and operated from here, which depend on Nanaimo, B. C. for their supply of herring, which is used as halibut bait. In addition there is a large fleet of from twenty to thirty small schooners which spend the winter in the neighborhood of Petersburg. Nearly all of them are owned here, and they too depend on British Columbia for bait. The new rule will work a great hardship.

American fishermen claim to have been persecuted by the Canadian authorities for many months. Repeatedly they have been driven out to sea when they have sought shelter from storms in British waters.

NORTHERN INDIANS VOICE THEIR CLAIMS

[Vancouver World]

Hazelton, July 15—Indian Commissioner Stewart of Ottawa, who came here accompanied by Superintendent of Indian Affairs Vowell of Victoria and Chief Constable O'Connell of the Dominion force, to inquire into the grievances of the local Indians arising out of the settlement by whites settlers of crown land outside the Indian reserves, which the Indians had been using for themselves for generations, completed the hearing of the trouble last night after a two days' session. The proceedings were confined to a hearing of the Indians' grievances and their demands for redress. Each tribe was represented by a spokesman who presented each tribe's troubles and demands in turn, each spokesman practically repeating what the first one set forth. Basing their conditions on the assumption that all the land belonged to them by heredity and that the whites had taken it without conquest or remuneration they practically asked that the whole country be surrendered to them.

This would involve the dispensing with the present system of reserve, the establishment of their ancient tribal laws and customs for the government of the territory and the forfeiture of all rights, claims and interests of the whites, etc., practically the establishing of the conditions existing before the white man came among them. While the claims were made separately for the surrender of each tribal chief's "land of his fore-fathers," collectively it would involve the entire country. In support of their contentions that they have not been justly dealt with in the land question, they cited promises made to them of large land concessions involving hundreds of thousands of acres lying along the main valley of the Skeena and Bulkley rivers, by former commissioners, who have been sent to them in connection with the affairs in early days. They asked the commissioner for his decision in the matter and on being assured that nothing could be done till he had submitted his report to the government at Ottawa, they wanted him to issue an order forbidding any further location of land by the whites until such time as their claims were settled.

Some of them, on being told this was beyond the power of the commissioner, grew somewhat hostile and declared that they would have to prevent further location if the government would not. This sentiment was disapproved, however, by the cooler heads and the matter dropped. A few days will be put in visiting the villages of the tribes along the Skeena and the party will then return to Victoria and Ottawa and submit their report for the government's action.

WOMAN! KNOW THYSELF

"Oh! woman in thy hours of ease;
Uncertain, coy and hard to please!"

At the beginning of time, Twashtri, the vulcan of the Hindoo mythology, created the world. But when he wished to create a woman he found that he had employed all his materials in the creation of man. There did not remain one solid element. Then Twashtri, perplexed, fell into a profound meditation. He roused himself as follows:

He took the roundness of the moon, the undulation of the serpent, the entwining of climbing plants, the trembling of the grass, the slenderness of the rose-vine, the velvet of the flower, the lightness of the leaf, and the glance of the fawn, the gaiety of the sun's rays and tears of the mist, the inconstancy of the wind, and the timidity of the hare, the vanity of the peacock, and the softness of the down of the throat of a swollow, the hardness of the diamond, the sweet flavor of honey, the cruelty of the tiger, the warmth of the fire, the chill of the snow, the chatter of the jay, and the cooing of the turtle-dove. He united all these and formed a woman. Then he made a present of her to a man.

Eight days later the man came to Twashtri and said:

"My lord, the creature you gave to me poisons my existence. She chatters without rest, she takes all my time, she laments for nothing at all, and is always ill."

And Twashtri received the woman again.

But eight days later the man came again to the god and said:

"My lord, my life is very solitary since I returned this creature. I remember how she danced before me, singing. I recall how she glanced at me from the corner of her eye, she played with me, and clung to me."

And Twashtri returned the woman to him.

Three days only passed and he saw the man coming to him again. "My lord, said he, I do not understand exactly how, but I am sure the woman causes more annoyance than pleasure. I beg of you to relieve me of her."

Twashtri cried "Go your way and do your best."

The man cried "I cannot live with her."

"Neither can you live without her," replied Twashtri.

And the man was sorrowful, murmuring: "Woe is me! I can neither live with her nor without her."

GRAECO-TURKISH WAR VERY NEAR

Berlin, July 15—Only continued occupation of the island of Crete by four powers, England, Germany, France and Italy, can prevent the declaration of war between Greece and Turkey early in August, according to inside information obtained from the German Foreign office today.

This information is to the effect that private advices have been received from Constantinople, Athens and Canea that the four powers, under whose guidance and protection the island's government has been administered for the past 12 years, are the only hope of preventing a clash, and as they have determined to withdraw their troops from Crete this month war seems inevitable.

The Turks feel, on one side that the surrender of their suzerainty over Crete would endanger the stability of the present government; in Greece, on the other hand, feeling is so strong that, if Crete's demand for a union with the Hellenes is disregarded, the fall of King George's dynasty is almost a certainty.

Indications are today that the fighting will begin on the mainland over the pretext of the driving of Greek bands off the Turkish frontier, but it is expected that it will extend to the island before hostilities cease. Both Turkey and Greece have been concentrating troops for several weeks on the Thesalian border, and both are ready for the immediate transportation of formidable forces to the disputed island.

The Mohammedan inhabitants of Crete, numbering about 30,000 out of a total population of 300,000, say they are in momentary danger of massacre, and have appealed to the powers for protection.

LEAVE COUNTRY FEAR BIG WAR

LA PAZ, Bolivia, July 14—Fearing a war with Peru, many citizens of that country are leaving, the Peruvian government paying their expenses. Residents of this city are purchasing provisions to provide against the shortage that will inevitably prevail in case of hostilities.

The cabinet ministers are said to be devided of the question of the acceptance or rejection of the arbitration award of the disputed territory, which is the cause of the strained relations between Bolivia and Peru. Argentine is said to deeply resent Bolivia's attitude and in the event of war, she is expected to join issues with Peru.

The position of the Bolivian cabinet is a different one, the rejection of the arbitration award being tantamount to a declaration of war against it's neighboring governments, while the acceptance of the document is certain to provoke the popu.ace to rioting. There is no disorder today, but the people are in an excited frame of mind.

TRAP CHAMPIONSHIP

Winnipeg, July 17—In the trap shooting tournament the other day J. Houghton won the Canadian championship.

JEFFRIES WILL MEET JOHNSON

Toronto, July 12—"I have never faked the public and I am not ready to begin doing it now," vehemently declared James Jeffries today, when he reiterated his denial that he intended to remain out of the ring, refusing to fight Jack Johnson.

"I am going to New York in two weeks, at the end of which time my theatrical contract will expire, and while there I will post a forfeit for my fight with Johnson. I agreed with my theatrical managers at the time I went on the stage, that I would not sign up for a fight before I terminated my engagement with them aud therefore I cannot negociate with Johnson now. If it were not for that I would post my forfeit today and go after the big smoke without a moment's delay.

"It surprises me that so many sporting men, claiming to be my friends, were willing to believe the rumor that I had decided not to reenter the ring. They ought to know me better than that."

SCULLING HANDICAP

It is practically certain that Arnst, the holder of the world's sculling championship, will shortly visit both Canada and England where he will row matches on this side with Durnan and in the old country against Barry. The next big sculling event will be the world's sculling handicap to take place over the championship course on Thursday, Friday and Saturday of next week on the Thames. E. Barry, the English champion, is at scratch; William Fogwell, of New South Wales receives 12 seconds and the limit is one hundred seconds start.

NOTED RUNNERS TO RUN AT VANCOUVER

Mr. G. A. Parker, the football and athletic enthusiast, and one of the trustees of the People's Shield is in Vancouver and promises to champion teams a great welcome at the People's Shield tournament to be held at Calgary on August 23, 24 and 25. The point yet to be decided is whether the best team between Ladysmith, Nanaimo and the Celtics shall compete or whether two or three teams shall be invited to take part.

Mr. Parker has received a letter from Reggie Walker the World's sprinting champion, who so handsomely beat Bobby Kerr of Cartwell in London a few days ago, stating that he intends to tour Canada in the fall and Bobby Kerr has also expressed his desire for a similar trip. A race between these two cracks at 100 and 220 yards would arouse tremendous interest and a great reception would be accorded them.

Alfred Shrubb the world's distance champion has also completed his plans for a trip to the coast and will run in Vancouver sometime next month, when no doubt, all the aspirants for the 15 mile professional championship will meet to give Shrubb the run of his life. Longboat, Meadows, Sellan, Marsh and Ccoorte are all anxious to have a crack at the little wonder, but it is doubtful if any of them can take his measure at anything from 1 to 15 miles.

FOR ENGLISH TITLE

A battle will be fought in London tonight which will decide who is the legitimate lightweight champion of England. Freddie Welsh the clever English boxer, who defeated a good many lightweights on this side of the atlantic during his long stay in America, is to meet "Young Josephs," the present holder of the title, for twenty rounds for a purse of $2,750 and a side bet of $1,000. So confident are the officials of the National Sporting Club London that Welsh will win that they have signed him to fight Johnny Summers for the lightweight title. Lord Lonsdale will offer a gold and silver belt to the winner, which will be the property of the winner for good if he defends his title successfully in four fights.
