DAILY EDITION

VOL. I, NO. 81 — PRINCE RUPERT, B.C., MONDAY, AUGUST 8, 1910. — PRICE, FIVE CENTS

ON WEIGHTS AND MEASURES

Ald. Pattullo Said One Scale Was Out 15 Per Cent.

Ald. Hilditch Asked Questions About Civic Matters — Who Purchases City's Supplies—Who Gives Lines and Grades to Builders.

Aside from the discussion on city advertising and printing the session of the council on Saturday night was marked by questions from Ald. Hilditch and explanations from other members. He first wanted to know about the electric light plant and was told that the engineer had not yet reported. Then he wanted to know how the city's supplies were being purchased, and was told that City Clerk Woods purchased all the small supplies and divided the business among all the merchants. Next he asked who was to furnish street lines and grades for prospective builders and this will be decided Monday night.

Ald. Pattullo sprung a little surprise when he said that he got on one scale on the wharf which was used for weighing coal and found that it gave 15 per cent more weight than it should. He asked leave to introduce a by- law regulating weights and measures.

All the members were present.

A couple of petitions for plank roads were received and referred to the Streets Committee.

Boilers Not Suitable

In reference to the B.C. Tie and Timber Co's boilers Ald. Lynch reported that he with the mayor and an engineer had gone out to see the boilers and found that they would not be worth much to the city and they did not deem it advisable to purchase them. They had seen the Sash and Door Factory people and they will make a proposition in a few days.

Electric Light Plant

Under the head of inquiries Ald. Hilditch wanted to know what was being done about his report on the electric light plant. He had gone to a great deal of trouble to gather the data and it was time that something was being done. He asked that the matter be taken up tonight and settled.

The mayor said that all the electric

SUNDAY EXCURSIONS.

Hundreds of Pleasure Seekers Out—Room For Big Steamer.

Sunday was a busy day for the boats. Every kind of craft that would float at all was brought into commission and carried away its quota of pleasure seekers. The Chieftain made two trips to Metlakatla with full cargoes, all the gasoline yachts, fishing boats, canoes, row-boats, punts and rafts took loads to Schwatlans, Metlakatla, up the river, to Tuck's Inlet and various other points. It was a glorious day both on land and water and had boats been available many more would have gone out. The town is now big enough said one man, for a big steamer to run Sunday excursions. The G. T. P. Prince Albert or Bruno lies here on Sundays and it would pay the G. T. P. in more ways than one to carry an excursion out on Sundays.

MUCH TRAVELLED HAT.

Arrived By Dominion Express For J. Y. Rochester.

J. Y. Rochester received a gaily decorated straw hat from some of his friends in the States. The hat came express in bond and although it has travelled many thousands of miles and on many railways and in charge of many express companies, it is still in a good state of preservation. There are some twenty tags on the hat now, and one tag bore instructions to J. Y. to send the hat on North. It is thought that the Eskimos will need it before the summer is over. Mr Rochester sent it on.

EVANGELIST LITCH.

Delivered Three Special Addresses On Sunday.

Yesterday was a busy day for Evangelist Litch. In the morning he spoke to the Sunday School on "Wild Flowers", illustrating the spiritual by comparisons with the flowery world. At the regular morning service he dealt with the subject of the home, showing that the home was a sacred institution and pointing out the means of safeguarding it. In the afternoon Mr Litch gave a strong address to men only on manliness in which false and ideal manhood was described. In the evening to a large audience he spoke on the subject of "Drifting", pointing out from his twenty years experience in the Canadian West dangers peculiar to the western atmosphere. He also described his own conversion from infidelity which took place in the West.

At the services yesterday a large number indicated their desire to lead the christian life. The services will be continued each night this week. Tonight's subject is the "Devil's Fowls."

Women and Children Cared For at Sentinel Island Lighthouse But Suffered Severely From Cold During Long Tow on Lynn Canal.

(Special to the Optimist)

Juneau, August 6.—Pilot Richardson was in charge of the Princess May when she struck the reef off Sentinel island in Lynn canal. The weather was calm at the time but there was a thick haze which prevented anything being seen ahead. All the passengers were taken off without any panic, and the baggage was also taken off and all landed safely on Sentinel island. All the mails were also landed and the express, which continued a large amount of Yukon gold dust and gold bricks.

The passengers were cared for at the S3ntinel island lighthouse and later they made the trip to Juneau in open boats towed by launches. On the trip the women and children suffered severely from cold.

FIFTY MILES OUT

Railway Construction Promising But Has Only Half a Force.

W. C. C. Mehan, general superintendent of the Grand Trunk Pacific, was out on the line yesterday and said this morning that the track laying was finished as far as Fiftymile on Saturday night and everything appeared to be going on nicely.

"Labor, however, is still very scarce, observed Mr. Mehan, this morning. "We have not yet seen any benefit from the change made in the regulations that railway labor should be admitted without certain restrictions. We are still working with about half a gang all the time. We are making good progress but could easily double it if we could only get the men."

Ninety Millions Now

Washington, D. C., August 8.—(Special)—The latest estimate of the population of the United States places the figure at ninety millions when the recent census is finished counting next October.

Just as they were off Ryde pier on the Solent, and sailing in a stiff breeze the mast snapped and crashed to the deck. The ruler of Spain was chatting with his host at the time and had a very narrow escape.

SIR WILFRID IN A COLLISION

Premier and Minister Graham Slightly Injured.

Special Train Met Fast Freight on Same Track.— Premier Slightly Cut and Bruised and Minister Graham Gets Sprained Wrist.

(Special to the Optimist)

Moosejaw, August 6.—The special train upon which Sir Wildfrid Laurier and his party were travelling in a special car came into a head-on collision with a fast freight near Pense this morning. The car was not much damaged but the premier was cut about the face and bruised slightly and Minister Graham sustained a badly sprained wrist.

The crews of both engines managed to jump to safety, but Conductor Cook had several ribs broken and is in a precarious condition.

The special was brought back to Moosejaw, where it was repaired and the party in the afternoon continued the journey to Battleford, where the party will spend Sunday.

It is believed the collision was due to the freight having overrun its orders.

Moosejaw, August 8.—Sir Wilfrid Laurier spent a quiet day yesterday and arose this morning ready to continue his journey none the worse for the collision, except for a few patches of diacodium plaster.

THOUSAND BOXES OF STRAWBERRIES

SHIPPED TO THE SOUTHERN CITIES FROM PRINCE RUPERT

Fruit of the Very Finest Quality Grown in Lakelse and Kitsumkalum Valleys.—Brought Highest Prices in South.

Lakelse and Kitsumkalum strawberries are already developing a reputation that will do much towards settling the beautiful and fertile valleys which lie back of Prince Rupert and which will in a couple of years provide this city with its produce. Last year a few boxes of strawberries were picked and brought down. They were very fine and superior to berries brought up from the south. This year the residents of the two valleys planted more vines and during the past couple of weeks have been making large shipments to Prince Rupert, Seattle and Vancouver. The berries are of finest quality and bring the highest price, making their cultivation very profitable. Last week one thousand boxes were sent south and were in such demand that the price was no object.

The great feature of the Lakelse and Kitsumkalum strawberries is that they are of the very choicest variety and they come in just at the close of the season in California, Washington, and other southern districts, thus making a particularly long season on the coast for fresh fruits. Next season there will easily be a market a hundred per cent greater for them than there was this year, and there is a fortune in their cultivation in the valleys along the Grand Trunk Pacific.

In the Sunday game at Seattle the latter scored nine to Spokane one.

A RECORD TRIP

Steamer Inlander Making Great Time Up and Down the Skeena

Capt. Bucey has made a record trip with the popular river steamer Inlander. He left here on Tuesday last and Port Essington the following morning, with full load of freight and passengers. After making the trip to Hazelton the steamer reached here last evening. She left again this morning for Hazelton with a full passenger list and every pound of freight she could carry. Capt. Bucey is now making a record trip and expects to continue up to the close of navigation.

Morrow and Frizzell's Port Essington docks and warehouses have over 200 tons of freight for up river points by the Inlander.

WET TO THE NECK

Small Excursion Party Took a Dip In the Salt Water

A number of young ladies and a couple of young men got well drenched in the cool salty waters of the harbor on Saturday afternoon. Six ladies and two men were about to start on a little trip from the Rover boat house. They were crossing from the steps to the wharf on the float and of course all eight stood on one side of the float. The float tipped to one side and the entire party went with it. Fortunately they all clung to the railing and no one was in danger, but they all got a good wetting. One young lady went down to her neck and the others only went down to the waist. The float is perfectly safe if the load is at all balanced and in future excursionists will be wise to take warning.

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

ADVERTISING RATES are one price to all—25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

SUBSCRIPTION RATES—DAILY, 50c per month, or $5.00 per year, in advance. WEEKLY, $2.00 per year.

CIVIC DISCRIMINATION

A communication from the local Typographical Union to the city council informing that august body that The Optimist is not to have any more city printing or advertising, was discussed at the council meeting on Saturday evening with the result that the ban was placed on this paper. The Optimist no longer carries the T. U. label.

The publishers of this paper have no desire to force the petty annoyances of its business upon the public but this incident shows up rather a peculiar conditions of civic affairs. By way of explanation it should be said that the Optimist has the largest investment in printing plant in the city; it employs union printers; it has the largest pay-roll in the trade; it is doing the largest printing business; it has the highest paid printers on its staff; it turns out the best quality of product—printing that cannot be discounted anywhere in the province; its employees have the same hours, and conditions equally good or better than those existing in other shops in the city, yet this paper is refused a share or any part of the civic work—work to be paid for by your money. The city council refuses to accept the highest grade of work, or give employment to the most skilled and best paid printer.

Incidentally it should also be said that The Optimist is working under exactly the same conditions to-day as it has for some months past when it was known as a label shop. It is not now a label shop because the union organization did not come through with their part of the agreement.

Thus The Optimist which has been "boosting" Prince Rupert since long before the council or typographical union existed has been excommunicated from civic rights because the members of the city council were weak enough to pledge themselves to the dictation of a lodge about which they practically know nothing. The aldermen have decided to represent an organization which last election possessed half a dozen votes to the distinct disadvantage of the ratepayers of the city. If the council's judgment in the various branches of business involved in their duties is no better than is their conception of the printing and advertising conditions in the city then the ratepayers will have something to harass their peace of mind.

Ald. Mobley says he believes in using the daily papers for advertising but he prefers to be stubborn. That is surely a condition that defies argument.

The printers' devil says that the pecuniary loss which the Optimist is likely to sustain by being refused civic printing and advertising is not likely to effect the overdraft at the bank..

The city council has not yet accepted any of the free advertising offers made in Saturday's Optimist. Apparently the boys cannot even start an advertising campaign.

If any alderman realized the real difference between a label printing shop and a non-label shop he would laugh at himself.

The name of King Jack Miller on the Laurier reception committee is conspicuous by its absence. Will King Jack submit quietly to this oversight?

ON WEIGHTS AND MEASURES

CONTINUED FROM PAGE 1

light plant data had been handed to the engineer and in a very short time he will have a report ready. Personally the mayor said he was in favor of having an electric light plant put in here pretty quick. "We cannot let the streets go dark this winter."

Purchasing Supplies

Ald. Hilditch also asked how the city supplies were being purchased and if it was done by tender or how it was done.

The mayor said that the city clerk was purchasing all small supplies and he was dividing it among all the merchants.

Scales Were Wrong

Ald. Pattullo moved for leave to introduce a by-law regulating the weighting of coal and adulterating of food stuffs. He said that the other day he stepped on a coal scales and found he weighed 250 pounds. As a matter of fact he only weighed 175 pounds. A difference of 15 per cent was a pretty good profit and it was time that steps were taken to stop it.

The weights and measures by-law was read a first time and passed.

The sewer by-law was then read a second time and the council went into committee of the whole to consider it.

Street Grades and Lines

Ald. Hilditch asked who it was who gave the proposed street lines to those who are about to erect buildings and who was responsible for such lines. He had tried to get grades and street lines and he understood that the city engineer had told his assistant that it was not within the city's province to give street lines to builders. The speaker claimed that it was the duty of the city to furnish those street lines and to accept the responsibility.

The mayor said that the G. T. P. grades were to stand good. He would not like to see the city assume such responsibility. If they did it would put the land surveyors out of business. It would also put the city in a position for heavy damage suits in case of a mistake of any kind.

Ald. Hilditch again said the city should assume the responsibility.

Ald. Pattullo said that the bench marks were already placed and if any were wrong or misplaced the city would put them right. After that the provincial land surveyors should be allowed to do the work.

Ald. Barrow said that land surveyors should do the work, but if the city were to take it over it would not affect the surveyors now here as they are the only ones who know anything about the work here. A new surveyor could not come in and do anything. But for many years it will remain in the hands of those who laid the city out. Still if the city took the matter over and had all the information on file it would be very valuable and prospective builders would be willing to pay handsomely for the information.

The matter was referred to the city engineer to report on at Monday night's meeting when the question will come again.

She had quite a crowd of passengers and took on here: J. A. Paul, Marie Lewis, A. Miller, J. M. Stewart, Mrs. Johnson, S. P. Dunlevy, P. H. Haberer and fifteen second class.

The Prince George is late this trip and is not expected to leave before eight o'clock this evening. Among those who are going south on her from here are A. E. Clendenan, J. D. PRINTERS UNION TAKES A HAND

IN ADVISING THE COUNCIL HOW TO CONDUCT ITS BUSINESS

Recommends that the Optimist Gets No Advertising or Printing Until It Gets the Lable Again—Aldermen Pass a Motion to Acknowledge The Union's Letter.

A whole lot of time of the city council was occupied on Saturday night by another diccussion on the city advertising and printing. and also a criticism of the press. This time the Optimist was the particular press knocked. The discussion was brought about by a communication from the Typographical Union the particulars of which are given below.

A communication was read from the Secretary of the Prince Rupert Typographical Union stating that the Union Label had been withdrawn from the Optimist owing to that office not being able to come to an arrangement with the union, and recommended that no advertising or printing be placed with the Optimist until such condition is altered.

Ald. Barrow said he did not think that the time of the council should be taken up with such matters as there was a resolution on the minute book calling for the union lable on all printing.

Ald. Hilditch said that all city printing must carry the union lable. He would not stand for anything else.

Ald. McIntyre and Mayor Stork said they would stand by their pre-election pledges for union lable.

Ald. Pattullo said that all the aldermen were not pledged to the union lable, although most of them were. He for one was not.

Then the question of advertising got mixed up in the debate and this prolonged the talk somewhat.

Ald. Hilditch said that because the Journal was selected for legal advertising it was not right to advertise for tenders for public works in a bye-weekly paper. In private business we do not advertise in the paper with the smallest circulation. Advertisements for tenders, positions, etc should be placed in at least one daily paper.

Ald. Pattullo said that Ald. Hilditch argument was about as weak an argument as could be brought out. He said that the editor of the bye-weekly paper told him that if other papers got advertising from the city at 10cents a line he would charge 10 cents a line, and he would be justified in doing so.

Ald. Mobley pointed out that the city advertised in a semi-weekly and not a bye-weekly as Ald. Hilditch said. He would be glad to use the other papers for purposes that required wide circulation. But he was a stubborn fellow and any time any one tried to force him to do anything as the daily papers were trying he would stay here until the end of his time and not give any advertising to any other paper.

So far as the Union's letter in reference to the union trouble at the Optimist was concerned, he said that he presumed it was only temporary and would be fixed up in due time. In the meantime the resolution on the minute book would regulate all cases of that nature.

Ald. Pattullo said that so far as he was concerned the advertising question had better be settled now and forever. Personally he would stay with their contract and grant no advertising to any other paper.

Mayor Stork asked if the semiweekly paper had signed a contract for advertising.

City Clerk Woods replied "No" "You had better have one drawn up at once and get it signed," said the mayor.

A motion was then passed that the the Typagraphical Union letter be acknowledged.

Call up No. 4 and the Pantorium will send for your clothes. 81-87

NO LONGER TO BE DOMINATED

CANADIAN UNIONS TO ASSERT THEIR INDEPENDENCE

Weary of the Superior Airs of American Federation.—Trade and Labor Council of Opinion Time Has Arrived to Break Away.

(Special to the Optimist)

Ottawa, August 8.—At the meeting of the Trades and Labor council last night a number of speeches were made upon the subject of the domination of the American Federations in the labor matters of this country. It was pointed out on the one side that the American union strength was something to be relied upon in times of emergency; on the other hand that it was humiliating to have to rely upon such support. Several speakers were of opinion that the unions of Canada did not have to rely upon such support, coupled, as it was, with an implied control by the unions of another country, and this opinion was well supported.

It was the sense of the meeting that the time had now arrived for the Canadian unions to break away from the dominations of the American federation, and as a result a motion will probably be carried to this effect at the next meeting of the council.

Even the armless man would like to take things into his own hands.

The C. P. R. has under contemplation the erection lf a large tourist hotel at Canterbury Point, in the Windemere country.

You are Liable

To be accidentally killed, crippled, blinded, disabled or taken ill at any time, and the value of your time (which is money to you) may be destroyed in a moment.

No reasonable man goes without protection against loss from the destruction of his property.

Did it ever occur to you that your time has as distinct a value as your property, or that your life may be the property of your family?

This protection is a duty you owe yourself and those who may be dependent upon you.

How dare you ignore this danger and go without adequate protection for yourself or family, against Loss of Time, Total Disablement or Death?
