## FINE PROGRAM FOR OPENING

### ST. ANDREW'S BIBLE CLASS GIVES A SOCIAL

President Mitchell Makes Address of Welcome, Pointing Out the Beneficial Results of Good Fellowship.—Musical Features Excellent.

Although the weather last evening was so inclement, many accepted the invitation of the Men's Bible Class and attended a social gathering held in St. Andrew's Church Hall.

The program was opened by the president of the class, Mr. W. H. Mitchell, in a happy speech. With a vein of Irish wit he described his difficulty in preparing his remarks, but, needless to say, the effort did not appear laborious. After speaking of the objects of the class as an organization he reminded those present of the beneficial results of good fellowship.

The absence of Bishop Du Vernet was mentioned by the chairman, and his indefatigable labors as the Diocesan of North British Columbia.

Miss Ward, Miss Ellette and Miss Froude kindly acted as pianists.

The opening selection by Miss Ward was greatly appreciated and received the hearty encore it deserved. The others contributing to the musical part of the program were: Mrs. Archer, Miss Barker, Miss Craig, Mr. Clark, Mr. Mellior and Rev. W. G. James.

Each number was heartily applauded and several encores received.

Mr. J. G. Weston gave an amusing imitation of several members of the barnyard fraternity. The different animals imitated were readily recognized, and aroused considerable merriment and applause.

Mr. S. M. Newton being called upon willingly responded in a well-chosen and apt speech. The Rev. T. C. Des Bowers referred to his first public appearance in the East by the reciting of the "Maple Leaf Forever."

Refreshments were then passed around and the evening ended by the singing of the National Anthem.

The next evening being prepared by the class is a popular lecture.

## LAMP EXPLODED

### Prince Rupert City Telephone Almost Burned Out.

Last evening a large lamp in the city telephone central office caught fire and caused a small conflagration. The alarm raised by the lady operators brought Mr. L. A. Miller, who resides over the exchange, to the rescue. The flames from the oil were spreading rapidly but with blankets Mr. Miller succeeded in extinguishing the flames and saving the hello station.

## BUILDING BY-LAWS

### Will Come Up at Friday's Meeting of Finance Committee

At last night's city council Ald. Hilditch asked if anything had yet been done regarding the Building By-laws, the need for which was causing inconvenience to many architects.

Ald. Pattullo informed him that the matter would be taken up at the next meeting of the Finance committee. It would have been taken up earlier, but in the pressure of other business had got sidetracked. He had, however, been in conversation with the building inspector over the matter that very morning and it would have attention as stated.

## TIDE AIDS WIND GIVING TROUBLE

### BOAT HOUSES WERE LIVELY YESTERDAY

Rover Float Got the Worst of It and Was Stranded on a Ledge, but Is Not Seriously Damaged. Small Boats Go Ashore, Scow Adrift.

The sharp squall which swept the city yesterday afternoon happening as it did just when the tide was highest, has caused a good deal of inconvenience to boat owners along the water front. The Rover boat house, owing to the fact that the tide was high, got swinging too close inshore and as the tide ebbed got perched on the rock ledge along the railway grade, and remained there this morning with a tilt to seaward.

Mr. Robinson was on board the float at the time it grounded, and had the machinery, etc., secured. It was not possible to haul off the float at the time it grounded as a tug was not available. At the next tide at midnight the Rover launch was in attendance but Mr. Robinson thought it advisable to wait for this afternoon's tide which gave a foot more water, and his men in attendance at 2 p.m. to haul the float off. The building was slightly strained but will not require any extensive repairing.

The Davis boat house being attached to piles driven into the sea bed did not drift in shore when the squall was at its height and this morning occupied its usual position. Several small boats were thrown ashore and some were damaged. No serious damage to gasoline launched is reported.

A. Swanson's float drifted in shore a bit also during the squall, and boats there had to be looked after, but no serious damage was done. The Chief-tain met the squall beyond The Slough and made heavy weather of it but reported no mishap.

A scow of lumber in tow of the tug Edith for the Westholme Lumber company broke adrift during the squall, and was not recovered by this morning. Some citizens this morning were saying yesterday's little breeze was the "worst ever." If this is so then there isn't a great deal to worry about, is there?

## Insurance for Aviators

New York, Oct. 17.—Through Lloyds of London, the management of the international aviation meet which will open at Belmont Park next Saturday has arranged for \$500,000 insurance against the possibility of spectators being injured.

## Nearly Four Millions More

New York, Oct. 17.—It was announced that John D. Rockefeller would this afternoon give the Rockefeller Institute for Medical Research an additional \$3,820,000, bringing up his donations to this institution to an aggregate of \$9,000,000.

## MISS SAUNDERS HERE

### Talented Literary Lady Here Gathering Information of the West

Miss Marshall Saunders of Halifax, Nova Scotia, a lady whose animal stories have won her much fame in the literary world, is a visitor in Prince Rupert today together with her brother who is a bank manager in Moose Jaw, Sask. Mr. Marshall has been doing philanthropic work in connection with the associated Boards of Trade. Miss Saunders is picking up local color for

some newspaper and magazine articles on the Canadian West, and some interesting and optimistic reading will doubtless be the result. One of Miss Saunders' most popular books was "Beautiful Joe," being the story of a dog. Over half a million copies of it have been sold. At her home in Halifax Miss Saunders has a household of animal pets and many beautiful birds. She is a great lover of animals and so thoroughly does she understand the beauties, instincts and affection of her pets that her books on animals have been translated into several foreign languages.

## REX VS. ROSNAG APPEAL CASE

### IS ADJOURNED TILL MONDAY. LEGAL POINTS ARGUED

### Alex. Manson and L. Patmore Sharpened Their Wits on Each Other This Morning Each Sticking Firmly to His Own View of the Case.

Judge Young presided over the county court this morning when a number of cases came up for consideration. Of these that of Rex vs. Morrison has been allowed to stand over by consent as a witness is out of town whose affidavit is to be obtained. The case of Rex vs. Astoria has been adjourned till the next sittings as a witness is absent from the country. The case of Panvini vs. Christensen & Brandt has been settled mutually.

The appeal case of Rex vs. Rosang came up for hearing, Alex. Manson for the crown. L. Patmore for the appellant. The hearing for this morning was taken up with arguments between Messrs. Manson and Patmore over the question of whether or not the appellant had just cause of appeal.

Mr. Manson agreed that the sole object of the appeal was to enable Mr. Patmore to bring in witnesses who had not been produced at the trial of the case before Magistrate McMullin, and declared that according to his reading of the authorities on the subject this was inadmissible after counsel had closed his case as Mr. Patmore had done.

Mr. Patmore insisted that he was entirely within his rights in producing these new witnesses. He said that the case had been decided on the evidence of a man who admitted he was drunk, against that of a perfectly sober woman, and further called the court's attention to the fact that the court was entitled to admit fresh witnesses at discretion in appeal cases according to legal enactment. "Otherwise," he said, "what would be the use of the clause relating to the new witness, and what would be the sense in calling a fresh trial in cases of appeal?"

Mr. Manson said the court should be very careful indeed about admitting fresh witnesses after counsel had distinctly said his case was closed.

The question of the correct serving of notices of appeal to the Magistrates and others concerned was also argued minutely, and Judge Young gave the whole matter careful consideration.

Alex. Manson held his ground firmly on all points wherein he differed from L. Patmore and Mr. Patmore waxed hot in argument ending by saying to Mr. Manson: "The city is not here to burke justice as you will find."

The case of Rex vs. Rosang has been adjourned until Monday owing to the legal points in dispute about it, and after Judge Young had retired Messrs. Manson and Patmore were still actively arguing.

## THAT FAR OUT GRADING AGAIN

### ALD. HILDITCH ASKS ABOUT S. H. WATSON'S CONTRACT

### Enquires What Council Has Done Regarding the Matter and States Views He Has Heard Contractor Express That Affair Is Off.

Under the head of enquiries at last night's city council meeting Ald. Hilditch introduced a subject which came in for a good deal of discussion at a former meeting of the council, but which has not been mentioned of late, namely, the question of S. H. Watson's contract for grading the section of Second avenue beyond the junction, and the proposal that he should be approached regarding transferring his work to a section of Third avenue grading instead.

"I met Mr. Watson the other day," said Ald. Hilditch, "and in conversation about this proposal discovered that Watson understands that the matter is all off. He said he had heard that the council considered it unnecessary now to change the contracts and did not want it done. I asked him whom he had heard say this, but he would not state any name."

With this conversation in view Ald. Hilditch asked if the council had gone any further into this matter of changing the contracts and negotiating with Watson on the subject.

Ald. Pattullo understood that Watson was to tender for a Third avenue section anyway, but Ald. Lynch said he believed this was not so.

Ald. Pattullo then suggested that if Watson were not to offer for Third avenue grading he might still be transferred from the far out part of second avenue to a section of First avenue where important buildings were going up.

The Mayor explained that he was satisfied that things were going as he had predicted at first, that all the money necessary for all the grading proposed in Section One would be forthcoming, and that he did not therefore think it advisable to start up a new First avenue contract meanwhile when it would probably come up quite shortly in course. The transfer would probably only resolve itself eventually into their having to put Watson back on to finish Second avenue. The only thing the Mayor thought might be advisable still was to stop the work on Watson's contract at its present stage, and ascertain what remuneration the contractor required for the work already done.

Ald. Barrow said that two avenues plugged up with grading contracts was enough at a time considering the traffic.

After a little more general discussion on the subject Ald. Pattullo remarked that he thought by the time the council had got through debating the question the job would be completed.

At which there was a smile all round and the matter was allowed to drop for the time being.

## Church Work in Canada

London, Oct. 15.—According to the Society for the Propagation of the Gospel, 34,500 pounds has been received for funds in aid of church work in Western Canada.

## Ladies' Auxiliary

The regular monthly meeting of the Ladies' Auxiliary of the Hospital will be held on Tuesday, October 25th, at 3.30 p.m., at the Board of Trade Rooms.

## ALASKA COAL LAND FRAUDS

### PROMINENT SEATTLE MEN ARE UNDER ARREST

### Warrants Issued for Others—Alleged Conspiracy to Defraud Government of Property Estimated to Be Worth Two Hundred Million.

Seattle, Oct. 15.—Messrs. Charles F. Munday, George Simmonds and Cornelius Christopher, all prominent Seattle men were arrested here late today on indictments returned by the Tacoma grand jury charging conspiracy to defraud the government in the Alaska coal cases. The accused were taken before the United States commissioner by whom they were released under bonds of \$2,500 each.

Warrants have also been issued for the arrest of Mr. Algernon H. Stacey, an Englishman, whose whereabouts are unknown, but who is believed to be in Alaska, and Messrs. Archie W. Shields and Earl S. Sigley. Mr. Sigley was private secretary to Mr. M. J. Henry, the contractor who was building the Copper River and Northwestern railway in Alaska for the Guggenheim company.

The accused men are charged with having conspired to defraud the government by fictitious entries in what are known as the Christopher group of seventy-four claims and the English group of eighty-two claims. Both groups are situated in the Behring river district, near the famous Cunningham claims.

It is charged that the alleged conspirators contrived to defraud the government out of coal lands valued at \$200,000,000.

Munday, who is a prominent Seattle attorney, and Stacey and Shields are implicated in the English group. Christopher and Simmonds are in the Christopher group. Simmonds is a prominent Seattle lawyer and Christopher, a veteran of the civil war, is president of the mining company.

It is declared that the action taken by the government today is but the beginning of general proceedings against alleged fraudulent claimants in nearly all of the numerous groups of coal claims in Alaska.

## TELEPHONE MAN BURNED

### Accident to Employee on Sixth Street This Afternoon

About three o'clock this afternoon while two of the workmen employed in making telephone wire connections on the pole line on Sixth street were aloft in the slung stage with some paraffin wax melting in a pot beside them for insulation purposes, the paraffin took fire and blazing up burned one of the men pretty severely on the hand. He made a hurried descent from the stage by means of a rope and some excitement was caused among the passers-by by the incident. It is understood that the man's injuries are not serious enough to keep him off the work or to necessitate the services of a doctor, but had he not acted promptly the flareup of the paraffin might have done more harm.

A. Davidson formerly travelling freight agent for the C. P. R. Steamship lines, and now G. T. P. city freight agent at Vancouver has been here for a brief business visit. He has been the round of Queen Charlotte Islands, Stewart and Port Simpson and returns to Vancouver by the steamer Prince Rupert tonight.

## ALASKA VOLCANO IN ERUPTION

FAMOUS BOGOSLOV EXCEEDING PREVIOUS EFFORTS

Flames Again Bursting From Crater and Boulders Being Thrown in Air—Birds All Killed—Lake of Boiling Water.

Seward, Alaska, Oct. 15.—The famous volcano Bogoslov, in the Aleutian Islands, is in more violent eruption than ever before according to a report brought from the West by the revenue cutter Tahoma, which has arrived here. Smoke and ashes are rising a mile and a half above the crater, according to triangulations made by the Tahoma's officers. Flames are bursting from the cone, lava is flowing down the sides, and huge boulders are being thrown high into the air. A lake in the center of one of the Bogoslov islands is boiling, and dense clouds of steam rise from the caldron.

The island was formerly a rendezvous for thousands of sea birds, all of which probably have been killed. Not a live bird was visible from the Tahoma, but great numbers of dead ones floated in the sea. The Tahoma anchored ten miles from the volcano, not daring to approach nearer, the cutter's decks being covered with hot ashes even where she lay. The officers spent a whole day in viewing the magnificent spectacle of the troubled mountain, and in making photographs.

While bound to Attu island early in September the Tahoma's officers noted recent and remarkable changes in the topography of the Bogoslov group, a new island having lifted its head where deep water formerly had been, and other islands having diminished. A party of volunteers asked to be permitted to land on the islands and make observations until the cutter's southward trip in October, but Chief Engineer Bryan, who knows the freaks of Bogoslov, warned them of their terrible undertaking, and the proposed expedition was abandoned. If the explorers had remained on the islands they must have perished, for when the Tahoma returned the chief peak was ablaze, and the other islands in commotion.

### ON NORTHERN BOUNDARY

Canadian Surveyor Did Not See Mountain Reported by Riggs

A Dominion Government survey party in charge of Mr. J. D. Craig of Ottawa, working north of the Yukon river, succeeded in delimiting the international boundary line along the 141st meridian at a point within one hundred miles of the Arctic ocean. The remainder of the work will be completed next year.

Work was started this season forty miles north of the Yukon and owing to the favorable character of the country 190 miles of the boundary was covered. Sixty miles of this distance was marked by monuments. The season's work was not characterized by any noteworthy experience. Members of the party state that they did not see the big mountain reported by Mr. Riggs, the American representative, as surpassing Mount McKinley in height.

### EXPECT BIG REWARD

Informant Who Denounced New York Art Dealers to Officials

New York, Oct. 16.—An anonymous note sent to Mr. William Loeb, Jr., collector of the port of New York, precipitated the sensational raid yesterday on the Fifth avenue establishment of Duveen Brothers, art dealers, and the arrest of two members of the firm, Benjamin J. and Henry J. Duveen, charged with conspiracy to defraud the government of more than \$1,000,000 by under valuation of imports.

Mr. Loeb made this announcement tonight: "In the event of fines being

imposed or duties recovered from the firm or its members, the informant will be in line for the reward given by the government for evidence resulting in such conviction.

"If the alleged frauds prove extensive, as the customs officials have stated, this reward will probably be between \$100,000 and \$500,000."

### MISSING BENEFACTOR

Broker Who Promised Thirty Per Cent Without Possible Loss

Despatches state that Mr. Sheldon, a peculiar kind of Montreal stock broker, has gone away, leaving many sorrowful people who had placed money in his hands. Mr. Sheldon obtained a great reputation by promising that people who made investments through his office would make thirty or forty per cent. per month and never lose anything. He charged no commissions but paid himself by retaining one quarter of the profits. Not only did he promise them large profits but he paid them. All the newspapers, and all the financial people warned the public that he must be a deceiver since no one could make such profits honestly, but there was not a single one of his customers who was not satisfied. One man accepted the challenge so far as to ask Sheldon's clients to write to him. Twenty or thirty did so and not one of them had been disappointed in his returns from Mr. Sheldon's office. The Montreal Star attacked Sheldon, and one of the investors wrote to the Star to say that he had entrusted many sums of money, \$3,000 in all, to Sheldon. He had received in cash profits \$11,000 and still had \$7,000 at his credit.

That was a week ago. Now the despatches say that Sheldon is gone, and all the money he had on deposit has gone also. But the man who got eleven thousand for eight need not complain.

### WINE FAMINE FEARED

Bad Weather and Poor Grape Crop to Place Prices High

London, Oct. 16.—A wine famine faces the world, and the lover of the lighter French and German wines will have to pay considerably more for them within the next week or so. There is always great anxiety at this period as to the vintage of France and Germany. Of those of Portugal and Spain the vintages are generally pretty sure, but in the case of the more northerly countries there is always considerable doubt as to whether the grapes will ripen.

Last year, for example, even so late in the season, it was believed and said that there would be no Bordeaux wines, but by something like a miracle in the last fortnight of September there was a period of brilliant sun shine and warmth, the grapes, about which there had been so much anxiety, ripened, and some very high-class wines that are now making good prices were produced.

The Germans were cute enough to secure the bulk of this vintage, offering such inflated prices that the English wine merchants were beaten out of the field. This year, however, German cuteness and enterprise will be of no avail. There are no grapes to ripen.

As reports received recently from the wine fields have indicated, the incessant rains and cold winds have spread disease among the grapes, weakened as the vines have been by a succession of bad summers, and nearly the entire crop is ruined. The position is as bad as this: From the Bordeaux country we shall have less than half the usual supply of clarets, as the wines here produced can be broadly described; from lower Burgundy there will be practically none at all; of the famous Chablis, beloved of the oyster epicure, there is only about 100 hog-heads to supply the whole world. Of what may be described as the grand, classical Burgundies, we only have an eighth of the usual supply.

### Some Facts About Portugal

The area of Portugal is 35,400 square miles, about half the size of Manitoba, with a population of 5,423,132. In trade Portugal does not compare with Canada, the total exports and imports being less than 100,000,000 milreis, a milreis being slightly more than a dollar, while Canada's trade amounts to \$600,000,000. The population is almost exclusively Roman, there being only 4491 Protestants and 481 Jews. Lisbon the capital, has a population of 358,000.

### THE VILLAGE SAGES

All day we sat and fussed and wrangled about the cost of living; our voices rose, like sweet bells jangled, severe and unforgiving. "Our kids," we cried, "must live on crusts, and wail like thunder, because the blamed immoral trusts are out for plunder. "We gave the tariff law a jolt that made it shrivel, each orator unloosed his bolts in terms uncivil. "If I," said one, "the skill could boast of some great rhymers, in burning stanzas I would roast the Morganheim-er!" "I have no credit in the town,"

said Colonel Seller, "and all because I'm trampled down by Rockefeller!" "I've been evicted from my home—chased out by high rents, and I am doomed in want to roam, by haughty tyrants!" And then the man who owned the store where we'd been talking, remarked: "You fellows make me sore—you'd best be walking! Your arguments are thin as foam, and weak and spindling; and while you yawp, your wives at home are splitting kindling. The plutocrat may hold his sway, with pomp and bunting, but he is better than the jay who's always grunting!"—Wall Mason.

# The Prince Rupert Optimist

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

ADVERTISING RATES are one price to all—25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

SUBSCRIPTION RATES—DAILY, 50c per month, or \$5.00 per year, in advance. WEEKLY, \$2.00 per year. OUTSIDE CANADA—Daily, \$8.00 per year; Weekly, \$2.50 per year, strictly in advance.

DAILY EDITION.

THURSDAY, OCT. 20

## THE DAY OF SPECIALISTS

This is the day of the specialist. The time was not many years ago when a jack-knife carpenter built a home complete; when the physician cured ills and pulled the family teeth; the storekeeper was probably barber, postmaster and grocer combined; while the newspaper man had to be a reporter, printer, pressman, politician and the sympathetic recipient of all men's woes. Yesterday one man tried to know it all; today each man tries to know one thing better than anyone else. The result is specialists, and the world is better for it. Today if a man builds a house he employs a dozen different kinds of artisans; there is a different doctor for every kind of disease, the only added privilege being that of pulling the patient's leg; merchants carry only one line of foods or have specialists in charge of each department; while the newspaper shop, which is the pivotal point of this paragraph, has specialists from the editor's chair to the devil's pay envelope. A modern large daily has at least twenty departments, the employees in any one of which may be totally ignorant of the work in any of the others, yet they give better results and draw more pay than the all-round printer-journalists of yesteryear. Smaller dailies, like the Optimist and its print shop, have to be more modest in their organization. Yet the Optimist is made up on modern principles and has its staff of specialists. You do not have to visit the shop to see it—a glance at the paper or an order placed with the job department will do it. In old style printing shops a customer's copy is handed a printer who slaps it through with the imprint of one man's cleverness, or carelessness, as chance may have it. In the modern shop three or four experts will be in consultation on your job—even though it be just a bit of stationery. Maybe a line is changed, maybe it is just the difference of a little spacing, perhaps a color is altered or the job may be reset, but the finished product presented the customer contains experience and brains. It may cost a trifle more but the world today recognizes the value of quality. The successful man is he who gets the highest attainment either in that which he produces or that which he purchases. That is why the world is producing specialists.

## TRUTH IS PROFITABLE

Peeping Sam, the editor who claims to get his inspirations from the ash barrel, yesterday spread a little more of his ignorance of material things in the hash column of our four-page contemporary. He purports to announce the private business matters of the Optimist in giving his views of the late ownership, the present ownership and the future policy of this paper, whereas he is fortunate indeed if he possesses that information about his own paper. Instead of passing up the ill intent of the article the Optimist will be magnanimous and offer a gratuitous suggestion gathered from profitable experience in the business. If the envious editor will discover himself, whence he came and whither he goeth, and then steer a straight and sane course he may gain some prestige and profit. In the meantime the Optimist will continue to publish facts, honest criticism and do the bulk of Prince Rupert's advertising and job printing.

## SUMMED UP BY AYLESWORTH

### MINISTER OF JUSTICE ON FISHERIES DECISION

Result of Hague Tribunal a Greatly Increased Cordality in Relations Between United States and Canada—Credit for Canada's Success.

Ottawa, Oct. 17.—How greatly Canadian-American relations have increased in cordiality was manifested here on Saturday when Hon. A. B. Aylesworth, Canadian minister of justice, addressed the Canadian Club on the subject of the recent fisheries arbitration at The Hague. Not only did his cordial references to the ability of his Canadian and British colleagues in the case arouse enthusiasm, but the audience, which included Sir Wilfrid Laurier, the Prime Minister; Sir Charles Fitzpatrick, chief justice of Canada, and many other eminent officials, warmly applauded his mention of the satisfaction which the verdict had given to both Canada and the United States.

Canada's success Mr. Aylesworth attributed first to the excellence of the Canadian case and to the thoroughness if its preparation. For this he gives primary credit to Mr. John S. Ewart, K. C., who went to London before the arbitration began and devoted his time exclusively to the case. He paid also a high tribute to Sir William Robson and Sir Robert Findley, designated as counsel by the British Government to outline the various points of the case. He paid a com-

pliment to the consummate ability of the American counsel in arguing the American claim to immunity from local regulations in fisheries.

The result of the case he declared could not fail to strengthen the feeling of devotion of Canada to the motherland.

Sir Charles Fitzpatrick, who sat as one of the judges in the case, declared that if the verdict was satisfactory it was certainly in a large measure due to the aid given the court by counsel on both sides. He paid an especially high tribute to the personality of his colleague on the bench in the case, Judge George Gray of Delaware.

### CITY CLERK IS BETTER

But Will Be Confined to the House For Some Days Yet

City Clerk Woods is a little better today, and it was thought this morning that he might be able to attend to his duties as usual at the City Hall during the forenoon. In view of the state of the weather, however, and the fact that he is still suffering a little and feeling below par, Mr. Woods will keep within doors until perhaps Friday. He has been working today preparing matters for the city council meeting tonight at which his assistant, Mr. McMaster will take his place. In the meantime Mr. Woods is anxious to be back at his post as soon as possible as the work is accumulating considerably in his enforced absence.

Some diseases are less fatal to the patient than to the people who have to live with him.

**OUTLAYS BY CITY**

**Report of Finance Committee Regarding Various Charges Passed**

A report from the Finance committee of the city council last night recommending payment of a number of city accounts. The following items are the principal ones, the majority being charges well under \$500:

Telephone Pay Roll.....	\$1823.69
C. T. Dodds.....	207.25
Collector of Customs.....	407.45
Canadian Rubber Co.....	550.00
P. Burns & Co.....	210.30
Water Works Pay Roll.....	1425.42
Fire Dept. Pay Roll.....	476.65
Chief of Police.....	54.00

The report was adopted without discussion, and the accounts recommended to be passed for payment.

**Try the Savoy Hotel Dinner.**

**Bargains For Ladies**

Mrs. Frizzell desires to reduce her present stock to make room for her new goods that are coming in. On Friday and Saturday she will give 15 per cent off on all goods except fancy work. This is the ladies' opportunity.

**Opening of Legislature**

Victoria, Oct. 17.—The opening of the Provincial Legislature, which was announced for Wednesday, January 11, has been changed to Thursday, January 12, in accordance with the usual custom of opening on Thursday.

The address in reply to the speech from the throne will be debated on Friday and adjournment then taken until the following Monday.

**New Deputy Attorney-General**

Victoria, Oct. 15.—John P. McLeod formerly of the editorial staff of the Times this city and latterly engaged in the attorney-general's department, has been appointed deputy attorney-general to succeed H. A. McLean who recently resigned.

**PRINCE RUPERT LIST**

**Those Who Have Already Booked Their Berths for the South**

Among those who up to noon today had reserved accommodation on the Prince Rupert for her trip south this evening are the following: F. M. Prall, Mrs. Bugler, F. S. Webster, J. B. Pattullo, H. B. Wilson, W. A. Wadhams, R. McLinden, S. Means, Miss Collison, Mrs. McDonald, W. F. Robertson, R. George, H. Nation, K. C. McCallum, M. Harger, W. J. Elmendorf, C. Dietrich, C. C. Worsfold, Mr. Davidson, B. A. Yandell, D. H. Dick, Miss Hendrix, Mr. and Mrs. Wallace, Mrs. D. W. Morrey, F. C. Folley, W. J. Hartley, D. D. McTavish.

**FAVORABLE REPORT**

**Engineer Pemberton Thinks Very Highly of Four Mile Propositions**

W. P. M. Pemberton, a prominent mining engineer of Victoria, B. C., is in the city en route to Stewart. Mr. Pemberton has just returned from Hazelton where he went over the Lead King, the Kinman Four Mile properties and adjacent ground in the interest of Victoria capital. He expresses himself as greatly pleased with the vicinity and his report at Victoria will be a very favorable one.

It is a wise man who wants only what he can get, and a lucky one who gets only what he wants.

Never shirk responsibility for mistakes that are yours.

Last years profits should not double this years expenses.

Notes may be rebowed, but wages should be paid when due.

Though you bide your time, cease not to labor while you wait.

If you want something to turn up, Mr. Micawber, get busy.

**INSURANCE OF WORKERS**

**On City Grading Contracts. Proposal By Large Insurance Firm**

The city solicitors in a letter to the council read last night called the attention of the Mayor and aldermen to a proposal by a large insurance firm through the Mack Realty and Insurance company of this city. The proposal is to the effect that the city should arrange for the insurance of the employees engaged in the forthcoming grading operations under the Employers' Liability Act, by a large general scheme instead of having each contractor insure his own set of men. The present system is one of individual contractors, and the new proposal is stated by those putting it forward to be considerably more satisfactory as it would work automatically and become effective immediately each contract is signed. The policy would be based upon the amount of wages paid out to the workers as the various contracts were put in hand.

The proposal was referred to the Streets, Works and Property committee for consideration and report, Ald. Hilditch wanting to be sure, however, that it would come up for discussion in council later.

**CITY SEWER SYSTEM**

**Preliminary Consideration of Matter By Streets Committee**

The question of the city sewerage system is still pending discussion by the city council. After a little informal mention of the matter and a reference to the proposal that the Streets, Works and Property committee should report on the matter, Ald. Lynch said that they would need to hear the city engineer's views of the matter before bringing in a report from the Streets committee. He also remarked that it was largely a matter of the financing of the work.

The Mayor agreed that it was so to a certain extent, but there were other considerations as well, and Ald. Pattullo mentioned that the method of undertaking the work would also need to be considered.

The Mayor thought the matter had better be left to the Streets, Works and Property committee in the first case to bring in a report on the question after consultation with the city engineer, and this proposal was agreed to.

**Should Conserve Oxygen**

Scientists express the opinion that the world's supply of oxygen is rapidly diminishing. This is shown, points out the *Province*, by the fact that the early aeronauts could ascend to a zone unattainable by their modern confreres because of a lack of oxygen. This brings up the question of the conservation of oxygen. In order not to exhaust the supply deep breathing should be restricted, and campaign spieters and platform orators limited to a given number of cubic feet. Extravagant inhalation should be penalized and the oxygen consumer instructed to breathe only when absolutely necessary.

**Ten Years and Lashes**

Vancouver, B. C., Oct. 15.—Ten years and ten lashes was the sentence imposed by Judge McInnes this afternoon on Herbert Helliwell of Tacoma, a young man charged with assaulting 9-year-old Glenn Waters. It was stipulated that the lashes were to be given during the first 30 days of imprisonment.

**Petitions to Council**

A petition from the Westholme Lumber company for permission to construct dry masonry walls at a point on Second avenue was presented to the city council last night, and referred to the Streets, Works and Property committee for report. W. J. Humble also petitioned for permission to construct a plankway at his own expense, and his petition was also referred to the Streets committee.

**SECOND MONTHLY BALL**

**Kaien Island Club's Great Function Is Tomorrow Evening**

What makes all the dressmakers and ladies' furnishing stores so busy just now is the great preparation being made for the second of the monthly dances to be given by the Kaien Island club. The last was an enjoyable affair in every way, but that was a first attempt on the part of the club, the building was new, and so was the whole machinery for entertaining. Many suggested improvements have since been made of a minor character and tomorrow night's function is to be a big stride toward perfection.

Gray's orchestra has been engaged and an innovation has been made to the music in the addition of the snare drum, calculated not only to better mark the time but to add vivacity to the movement.

**PORT MANN BOOMING**

**Martin O'Reilly Finds That Conservative Victoria Is Waking Up**

Martin O'Reilly, the merchant tailor, returned yesterday from a business trip to Vancouver, Victoria and Seattle. In the latter city he saw no signs of the great depression of which so much has been read in the newspapers. He found that business was fairly good in the Sound city.

Port Mann, he said, was attracting great attention. He believed this was only the beginning of a great boom at that point that would for a time put Vancouver real estate speculation in the shade. He also found an unprecedented liveliness in Victoria, and thinks the time is coming when the capital city will have a boom that will be heard of.

**Vancouver Editors Squabble**

Vancouver, Oct. 15.—Mayor Taylor, proprietor of the Daily World, has instituted a writ to be issued for \$50,000 damages against W. C. Nichol, proprietor of the Daily Province. The action is brought because of an alleged libelous statement in the editorial columns of the latter publication in which a charge of graft is intimated against the plaintiff.

**City Clerk Was Absent**

City Clerk Woods' indisposition prevented him from occupying his usual place at the Mayor's right hand at the council table last night. Mr. Woods' assistant and stenographer, Mr. J. McMaster, undertook his duties for the evening very efficiently.

**Only Seemed Different**

"This doesn't smell like the last gasoline I had," said the man who recently bought an automobile. "It's all right, sir," said the garage man. "You're getting used to it."—*Yonkers Statesman*.

**Surest Thing You Know**

City Editor (Metropolitan Daily)—Go down and interview J. Pierpont Morgan on the financial question—talk right up to him—don't be afraid of him—capital is timid!—*Puck*.

**March of Progress**

"We are thinking of putting an electric sign over the church."  
"It might be a good idea."  
"But there are factions. We can't decide whether to feature the minister or the soprano of the choir."—*Pittsburg Post*.

A fault is never so offensive as when it is somebody else's.

**HIGHEST TIDE ON RECORD**

**At Prince Rupert's Wharf Yesterday Afternoon**

Yesterday's was a record breaking tide, and coming as it did in the height of a nasty squall of wind the rise of the water caused quite a little excitement at the wharves and warehouses on the waterfront.

The workers and officials at Messrs. Foley, Welch & Stewart's warehouses were really wondering when the phenomenal rise of the sea was going to stop. There were moments, some say, when the whole place seemed likely to float off its base. The buildings seemed at times to rock as if already afloat when the wind swooped down on them.

The tide register gives 26 feet 24 inches for yesterday's maximum water level. The day before was 25 feet, and today's tide stands at 26 feet at high water so that today's tide is also a big one. As there is not such a breeze today the occasion is not so marked.

**Prof. Hoyle**

In the Empress theatre next Friday and Saturday the most interesting entertainment of the year. This is an opportunity to see the renowned master who keeps his audience spellbound the whole evening with his wonderful demonstration of magic, hypnotism, mind reading and legerdemain. Watch the program for next Friday.

**The Hospital Services**

A communication was read at last night's city council meeting in reference to John W. Phelps who is at present in the hospital stating that a cheque covering the charge for attendance on this patient might be expected shortly from the Boscowitch Steamship company who had been approached on the subject.

**Estate of John H. McGraw**

Seattle, Oct. 15.—John H. McGraw, former governor of Washington and a pioneer of the northwest, who died last summer, left an estate valued at \$225,000 according to the report of the appraisers filed today.

**Chinese Consul-General**

Ottawa, Oct. 15.—The new Chinese consul-general for Canada, Wang Seyoun, former district magistrate in China, arrived in Ottawa today. Hon. Mr. Kung, former consul-general, left immediately for Vancouver.

**The Wind**

I am the Wind! Make way!  
I have rushed through the dark back places  
Where the dust of ages lay,  
I have breathed into weary faces  
With a breath from the Heart of Day.  
I have whispered of unknown graces  
To the dwellers in Earth's dark places,  
I am the Wind! Make way!

I am the Wind Stand by!  
I must toss and hustle and hurry  
Where the leaves of the forest lie,  
I must fetch and bustle and carry  
From the ground to the roof of the sky,  
I may never have time to tarry,  
There are numberless things to carry,  
I am the Wind! Stand by!

I am the Wind! Ah me!  
I have sobbed with the children's crying,  
I have laughed at the height of their glee,  
I have lived with the sad and the dying,

I have rocked in the arms of the sea.  
And I know there is reason for sighing,  
For I thrill with the children's crying,  
I am the Wind! Ah, me!  
—*Constance Morgan in Westminster Gazette*.

B. L. Tingley, Agent

**LEVINE GOT BAIL**

**Prince Rupert Contractor Now Under Trial at Vancouver**

A. S. Levine, a contractor, from Prince Rupert, came up for speedy trial before Judge McInnes in Vancouver on a charge of false pretences. It was alleged that he had obtained \$1800 from the Stewart Merchandise company of the town of that name, by representing that he was the owner of certain horses and other property, which it is now alleged that he does not possess.

In the course of the proceedings it was found that an essential witness as to the ownership of the horses was now in Fernie, and at the request of Mr. McKay, the crown contractor, the further hearing was adjourned till October 22 in order that the witness might be brought here. Mr. D. Donaghy, who appeared for Levine, objected strongly, as his client had been bailed out for \$2000 by citizens of Prince Rupert, and as the bail would not hold good here it would mean that Levine would have to go to goal for a week.

Judge McInnes agreed that if bail for the same amount could be secured here he would be glad to recognize it. The bail was afterwards secured.

**RAILWAY EXTENSION**

**Government Not Likely to Submit New Propositions**

Notice already given is indicative that one of the principal features of the railway legislation of the new session will be the bill for the enlargement and extension of the powers of the Portland Canal Short Line railway, to permit of the carrying forward of the larger schemes of its proprietors, looking to an extension from Portland Canal by way of the upper Naas, the Omineca, and Pine river pass, to a connection with other lines at Edmonton, this new line opening up extensive areas of agricultural land, wide tracts of timber, and new coal measures reputed to be equal to those of Crow's Nest pass. It is improbable, however, that any extensive proposals for the assistance of new railways by bond guarantees or otherwise will be submitted at the present juncture by the government.

Try the Savoy Hotel Dinner.

**Walter Wellman, the Attempter**

It will be interesting to read what the Seattle Times has to say of this latest attempt of Walter Wellman, as of the last attempt before this to keep in the limelight, that of flying from Spitzbergen to the North Pole and back, that newspaper spoke out so plainly that Wellman attempted an action for libel claiming a large amount of damages. Even that attempt was a failure, as was the one of crossing the Atlantic he attempted this week.

Certainly one has the right to question whether Mr. Wellman is entirely in earnest in his surprising undertakings; earnest, that is, in the possibility of carrying them out. For two seasons he had a large balloon at Spitzbergen and he did not do it. The first time the season was too far advanced; the second season the balloon came down after a short flight and was badly damaged.

The attempt the other day seems to have deserved to fail just as that did. From all accounts there were many features of his machine that had never been tested. The machine was designed by Mr. Vanniman, and it embodied several new devices and would seem to have been a most foolhardy thing to attempt to cross the Atlantic without even a test of these new devices. Wellman can never make good as long as he neglects ordinary precautions.

## POLICE SEARCH FOR DYNAMITE

TRYING TO LOCATE WOMAN IN CONSPIRACY

Story of Plot to Blow up Los Angeles Times and Part Mysterious Woman Seems to Have Played in the Matter—The Mutual Friend.

San Francisco, Cal., Oct. 16.—Seeking a mysterious woman believed to have been the mutual friend of the so-called J. B. Bryce and the "squint-eyed man" called Morris, suspected of the destruction of the Los Angeles Times plant by dynamite, detectives are making a systematic search of San Francisco. They believe they are close to the possession of facts that will lead to the arrest of the dynamiters.

Information was furnished by Mrs. E. R. Ingersoll, who told the police that Bryce was brought to her home at 3656 Twentieth street, two weeks before the Times explosion, by a woman acquaintance. Bryce engaged a room and shortly was joined by the "squint-eyed" man. One day she overheard them talking of dynamite, of possible police interference and of Los Angeles. Shortly before the night of the Times explosion, Bryce left this city, but Norris remained.

Mrs. Ingersoll declared that she feared for her life and did not summon up courage to tell the police until now.

She denied yesterday that she had told the police and said that the tale had been concocted by newspaper men. Detective Burns admitted yesterday afternoon that the woman's story of the plot was true and that she had been instructed to deny until the detectives could take advantage of her information without being hampered by amateur sleuths.

The woman who brought Bryce to the Ingersoll home is being sought. She undoubtedly will lead to the men wanted, provided Mrs. Ingersoll's suspicions are correct.

It was learned that J. B. Bryce occupied a room at Mrs. Ingersoll's from September 4 to September 14. He was visited by a man giving the name of William Morris, who was also known as "Perry" and "Smithy." They claim to have been printers in Chicago. In the course of these visits Mrs. Ingersoll learned of the alleged plot. Bryce appeared to be the man in charge and received messages daily by telephone from men and women. Some of these messages were overheard by Mrs. Ingersoll and are said to have related to the purchase and shipment of dynamite at the Giant plant.

Mrs. Ingersoll is believed to have given the detectives clues regarding the method of transporting the explosive to Los Angeles, also regarding the preparation of bombs. She is said to have directed the officers to a warehouse where the men's effects were stored.

Mrs. Ingersoll's description of the men and their acquaintances tally accurately.

R. George Says Portland City Seems to Be Short of Ready Money

R. George came down on the Prince Albert from Stewart, and says that little burg is still active but a quiet time is expected this winter. The railway wharf is practically completed and the wharf laid on it but the government wharf is proceeding slowly.

Portland City, on the American side, did not appear to him to be doing much. There were no more houses or places of business there and nothing was being done with the incompleting wharf. In his opinion they were short of money with which to finish the wharf.

See the flickerless motion pictures—the silent drama—at the Phenix theatre.

**THE ALDERMAN GOT HIS DUCK**

**VERNOR W. SMITH RETURNED FROM VACATION**

**Says Port Mann Is Booming—Had Offer for His Property There but Declined It—Glad to Hear Helgerson Made Successful Plunge.**

Alderman Vernor W. Smith returned on the Prince Rupert yesterday from his three week's vacation, and was at his desk in the office of Foley, Welch & Stewart this morning. He chatted about his trip but harked back the conversation continually to "the ranch." This means his ranch near Camrose, on the Pokehasset branch of the Canadian Pacific. He had not seen it for two years, and said with the enthusiasm of a boy that he found everything looking fine. Crops were good, stock healthy and multiplying, and wild duck and prairie chicken plentiful. The ideal of his vacation was to have some duck shooting, and this he enjoyed to his fill.

He was glad to get away from his desk routine and council worries, he said, and try to forget Prince Rupert for a brief spell. But it was brought back to him even in his home town. He went with a party to Miquelon Lake, fourteen miles north of Camrose, which is one of the best shooting lakes in Alberta. It is a great resort for the Edmonton and Alberta sportsmen. In his party was the mayor and two councillors of the city of Camrose. That town is wrestling with the putting in of electric light and with a sewerage system just as is Prince Rupert, so that in the evenings, at the fine clubhouse they have at the lake, the conversation naturally turned to those municipal problems once in a way. The mayor had a gasoline launch on the lake, so that this part of the trip was altogether enjoyable.

Returning to the coast he found Vancouver very lively. Mrs. Smith met him there and after doing some shopping they went over to Seattle. They found Seattle quiet by comparison with Vancouver, but without any great signs of depression.

"When we returned we made a trip to Port Mann," said Mr. Smith, "and certainly things are coming there at a great rate. I was glad to hear my friend Olgy Helgerson got in there. I was very glad to learn that he took a plunge and believe he will clean up a lot of money.

"No, I did not speculate, for the reason that I had some property there already. While Mrs. Smith and I were in Vancouver we were made a good offer—an offer of \$1000 an acre for what

we paid \$260 an acre a few months ago. But we did not sell. They have let a contract for cleaning up the townsite of Port Mann, a thousand acres, and things are looking very bright there."

**DEMAND FOR DWELLINGS In Prince Rupert Is on the Increase States H. F. McRae Company**

H. F. McRae & Co., real estate agents, have recently had a large number of calls of inquiry regarding houses for rent, and have rented a number of houses to clients coming to settle in the city from the North and East. They find the demand for good class dwelling houses a steady and increasing one.

The same firm disposed the other day of a couple of lots on Beach Place which realized a couple of thousand dollars, and are having a number of enquiries.

H. F. McRae has been absent this week on a visit to the Lakelse district with a party by gasoline launch. He is expected to return on Monday. On

Wednesday evening Mr. McRae is announced to deliver an address on "The New Thought" to the Presbyterian Church-Young Men's Club.

**Masonic Meeting**  
A meeting of Tsimpsean Lodge No. 58 A. F. and A. M., will be held this evening at 8 p.m.

**MONTREAL SLUMS BAD Henry Vivian, M. P., Says People Live in "Hideous Jumble"**

London, Oct. 17.—Henry Vivian, M. P., who has been addressing town-planning meetings in Canada, writing on the need of action in Montreal, says that the population of that town grows 30,000 to 40,000 a year. These persons dump themselves down practically as they like and the result is a hideous jumble. Mr. Vivian does not think there is anything quite so bad in England as the worst districts of Montreal.
