DAILY EDITION

PRINCE RUPERT, B.C., MONDAY, SEPTEMBER 26, 1910.

PRICE, FIVE CENTS

BAPTISTS HAVE GOOD PREACHER

REV. W. H. McLEOD'S OPENING SERMON IN PRINCE RUPERT

New Pastor is an Eloquent Evangelist and Powerful Preacher With Gift of Illustration Well Developed and Dramatic Power.

The Baptists of Prince Rupert have in their new pastor Rev. W. H. McLeod, a preacher of power, and a pastor of strong and winning personality. Rev. Mr. McLeod preached his post sermon in the Baptist church on Sunday morning, from the words "The Just shall live by Faith" contained in the 16th and 17th verses of Romans Chapter 1. His sermon which was listened to with rapt attention was strongly evangelistic in tone and delivered with telling effect. Rev. Mr. McLeod is a speaker who can sway large audiences. He will have large audiences in Prince Rupert.

"Man shall not live by bread alone". With these words emphasized in the opening sentences of his sermon the pastor dwelt on the all important spiritual side of man's life—the side most responsive to the power of faith. "Faith in Christ Jesus" he declared earnestly "has been the characteristic of the world's greatest men." He went on to give dramatically told instances of the power of faith in great men, told of the work of Martin Luther and the vision of Christ that came to him upon the holy stairway in Jerusalem; and drew vividly the pictures of the life of Saul of Tarsus his early life and his conversion by the vision of Christ upon the road to Damascus.

"And in like manner" went on the preacher, "although the faith of many in the face of persecution, and the faith of great men in the world's history the growth and spread of christianity have been carried on through the ages. From the East where laboured against heavy odds such men as Luther, Wesley and Whitfield, the power of Christ has forced its way westwards over the sea, and across this continent to the Pacific coast. That marvellous power of Christ is here to day in Prince Rupert the baby metropolis of British Columbia, the budding city which is to be the centre yet of a vast commerce to come.

"Already" he went on "the great mass of the people are on Christ's side. Even those who are not openly for Christ will not say anything against him. There never was a time like this twentieth century for the cause of Christ. The just who live by faith in Christ are to be found in this land's legislature, and it is well for the only hope of having laws is to have legislators who are followers of Christ. Men who have faith in Christ will become just men. Thus the world is marching forward for Christ and sinners are being dismayed and baffled on every hand."

Rev. Mr. McLeod has the evangelist's gift of illustration. Very vivid and compelling was his story of an actual experience of his in Chicago when the stock yard strike was raging. Seeking to find out if justice belonged solely to the laborers and their unions, he went out amongst the strikers on the streets. He forced his way into a serried mass of young men ranged round something lying helpless and inert in the centre. "That something" cried the preacher indignantly "was a girl of sixteen being mercifully ill treated because she dared to defy the Union and try to go on working during the strike in the

PREFERENTIAL TRADE

Australian Government Favors Proposition of Manufacturers'

(Special to the Optimist) Sydney, Sept. 26.—Premier Fisher, referring to the proposed preferential trade between Canada and Australia, proposed by the Canadian Manufacturers' association at their conference at Vancouver, says his government is in entire sympathy with the proposal.

PLUNGED INTO CANAL

Whole Party of Five Joy Riders Are Instantly Drownd

New Orleans, Sept. 24.—A party of five just before daylight this morning were in an auto that plunged into the canal. Every one of the party was drowned.

WORKMAN FALLS TWENTY FEET

OFF WALL OF NEW BANK OF MONTREAL BUILDING

Stunned by Fall and Carried to Hospital on a Stretcher—Injuries To Back and Side Which May Be Serious.

An accident occurred this morning to D. C. Yates a workman employed on the construction of the new concrete building on Third avenue near Fulton street in process of erection for the new premises of the Bank of Montreal.

Yates was standing on the top of one of the walls at the rear of the corner of the building facing Fifth street and was engaged in removing lagging from the wall when he overbalanced himself and fell a distance of some fifteen or twenty feet to the ground.

He was stunned by the fall and remained unconscious for some time. Efforts were made to bring him round and he regained consciousness sufficiently to complain of injuries to his back and side. Dr. McNeil was at once summoned and arriving promptly examined Yates who had relapsed into a semi comatose condition. The examination showed to Dr. McNeil that the man's injuries were serious, though it was impossible to judge their extent on the spot. Dr. McNeil accordingly advised Yates' removal to the hospital without delay.

A stretcher was obtained and Yates was conveyed to the hospital. A rumor to the effect that the man's back was broken by the fall is unconfirmed by Dr. McNeil, but there can be no doubt that his injuries are serious.

AUSTRALIAN MUTTON

Full Cargo is Sent From Sydney to Vancouver

(Special to the Optimist) Sydney, Sept 26.—The liner Makura sailed today for Vancouver with a full cargo of frozen mutton. She will pick up the German governor of Samoa at Fiji.

Nevada Mining Man Here

Bob Schaffnit the prominent Goldfield mining man is in the city on his way to Hazelton where he will investigate the Ninemile district. Mr. Schaffnit was in charge of the Lucky Boy property near Hawthorn Nevada, one of the big producers. He intends to purchase properties in the Ninemile neighborhood of his opinion of the district warrants the investment.

EXCITEMENT AT NIAGARA FALLS

GOES THROUGH WHIRLPOOL RAPIDS IN MOTOR BOAT

Foolhardy Trick of Captain Larsen—Only Man Who Has Ever Passed Through Rapids and Lived to Tell the Tale.

Niagara Falls, N. Y., Sept. 23.—Captain Klaus Larsen, in his little motor-boat, the Ferro, late yesterday made a successful trip from the foot of the cataract through the whirlpool rapids to within a mile of Lewiston, a distance of four and one half miles.

He started from Maid of the Mist dock at 4:45 and ran on a rock near the American shore 5:30. Despite the battering of the whirlpool rapids, Larsen went through safely, but his boat was leaking badly at the finish, and throughout the trip, Larsen had intended starting at 2 o'clock, but was delayed by engine trouble. Besides, the authorities threatened to interfere on the ground of attempted suicide.

The Ferro swung under the cantilever bridge, the engine running at top speed, and was caught in the swift drift where the river begins its rush down to the whirlpool rapids. Larsen held to the middle of the channel, and in less than three minutes had made the great pool.

In the trip through the rapids the little boat was lost to sight most of the time, but at Great Wave she shot twenty feet out of the water. The boat landed right and continued to the pool. Larsen kept to the outer edge of the pool and passed out and down without accident. Just as he left the pool the engine stopped working and Larsen was at the mercy of the waters, hardly less violent than those above. The little boat swung stern first and turned completely over. Larsen coming up with it badly battered. Here also his leg was injured.

After that Larsen was a mere plaything for the rapids, unable to hold the course, the boat swinging from one side to the other.

After going through the Devil's Hole the Ferro swung toward the rocks on the American side of the river, rolled over one boulder and became wedged between two others.

There Larsen stayed for five minutes, forty feet from shore, working desperately to release the craft. Getting free he was hit by a comber and went careening towards the middle. At the bend, with the Leadstone bridge in sight, the boat drifted toward the American side again and was then caught in the shore eddy. The Ferro grounded this time near enough shore to be caught by Roy Rockwell, of this city, who waded into the water and caught a rope thrown by Larsen.

Larsen wanted to keep on the trip, but having accomplished the worst part of the journey he was persuaded to board a trolley to Lewiston, letting the boat adrift.

Except the old Maid of the Mist, sent through in 1864 to avoid seizure, Larsen's is the only engine propelled craft that has gone through the rapids. Peter Nissen, of Chicago, in 1900, and C. A. Percy, in 1887 and 1909, went through the rapids safely in barrels. No one else has ever passed through the rapids and lived.

Buy case eggs for political meetings but don't eat them. Red C. stamped Eggs are the only ones fit to eat.

WAS A GREAT VICTORY.

New Westminsters Beat the Nationals by Eleven to One

New Westminster, Sept. 26.—The local team proved the victors in the struggle for the Minto Cup on Saturday, beating the Nationals of Montreal by a score of eleven to one. It was uphill work for the local champions at the beginning, taking seven and a half minutes to score the first goal. The visitors scored one and that was all that could be done in the first quarter.

But early in the succeeding quarter the Westminsters scored again, and from that time on seemed to have the game all their own way, their opponents failing to score at all.

There was great rejoicing over the result, as this gives the local holders of the cup two straight games.

FIRE FIGHTERS' NEW APPLIANCES

WHERE THE TWO NEW HOSE REELS WILL BE STATIONED.

Fire Chief McInnis Chooses Positions and Will Advise Committee Still Waiting For the Larger Fire Extinguisher.

The two new hose reels which have arrived at the fire station are awaiting the result of Fire Chief McInnis' report to the Fire and Water committee of the city council regarding the best positions for them so as to safeguard the congested districts of Section one.

Each hose reel is constructed to accommodate 500 feet of hose. Fire Chief McInnis has a full supply of hose in hand for the both reels with 900 feet for the present hose waggon, and some 500 or 600 feet to spare.

At present the congested portions of Section one are protected by lengths of hose kept ready for instant action at the corner of Sixth street and Second avenue, and at Sixth street and Third avenue, and Fire Chief McInnis proposes to recommend that one of the new hose reels be stationed at the corner of Sixth street and Second avenue as this is an important centre and as the water pressure there is good.

"The position on Sixth street and Third avenue is not quite so good," says the Fire chief, "as the water pressure is lower there."

The station to be recommended by Mr. McInnis for the second hose reel is at the junction of Eighth street and Second avenue. This position will be an advantageous one the Fire Chief thinks.

Ald. Mobley says that the Fire and Water committee will be guided largely in their decision regarding the placing of these reels by the advice of Fire Chief McInnis.

Regarding the new combined chemical fire extinguishing apparatus and motor hose reel, both Fire Chief McInnis and Ald. Mobley are still in the expectation stage. "The new appliance was ordered quite two months ago" says Ald. Mobley "but there is the usual delay in delivery from which business men and civic communities alike suffer. However we may expect the machine any day now."

Freight Engineer Killed

Terre Haute, Sept. 24.—(Special)—The northbound passenger train on the Southern Indiana line this morning collided with a fast freight. The freight freight engineer was killed and four other men were seriously injured.

PRINCE RUPERT'S WATER SUPPLY

EXCELLENT PRECAUTIONS FOR FIRE PROTECTION

While Supply For Domestic Purposes Will Continue Ample Even in Dry Weather Thanks to City Engineer.

The city water supply is at present in a very satisfactory condition both as regards domestic supply and supply for fire protection. This condition of things the citizens owe very largely to the foresight and exertions of the city engineer who has planned and carried out the compensation supply and fire reserve system for periods of dry weather or when the sources are partly frost bound.

"The present condition of things regarding the water supply is this," said the city engineer this morning: "With the unaugmented sources alone to depend on, a week of dry weather reduces the quantity of water so much that there is not sufficient to supply consumers. The pumping system is then set going and draws its supply from the upper part of Hays Creek where a dam has been constructed. This pumped supply compensates the city reservoir for the shortage due to drought.

"Meanwhile as long as the pumped supply continues we shut off the supply to the city reservoir from three small reservoirs on the mountain side, and reserve the water that accumulates in these for fire protection, as the pressure is ample from that source. There is abundance of water for domestic purposes since the Hays Creek supply gives over 300 gallons per minute even in dry weather which is considerably more than the capacity of the pump. But the pumps would not furnish sufficient pressure for fire protection, and on this account it is depended on only to supply consumers, while the water stored on the mountain side is what we depend on for fire protection."

The new pressure reducing valve to be fitted to prevent leakage in the pipe system in certain districts is on order but has not yet arrived. As soon as it does arrive it will be fitted.

SIMILAR TO CRIPPEN CASE

BODY OF GIRL BURIED IN CEMENT CELLAR

Believed to Be That of Pretty Stenographer Who Disappeared in January—Death the Result of Operation Which Scared Doctor.

(Special to the Optimist)

San Francisco, Sept. 24.—A body found under a new cement floor, to which the police were directed by a man named Gordon, has unearthed a murder that is similar in many respects to the Crippen case. Gordon declares that the girl died on an operating table, and the doctor operating becoming frightened disposed of it by the use of nitric acid. A man named Sachs is alleged to have aided the doctor to dispose of the remains.

The police are endeavoring to identify the remains as those of a pretty stenographer named Eva Swan, of Pasa Robles, who disappeared in San Francisco last January.

EXPERTS AT HAZELTON

Mr. Steele Thinks Country Too Rich For Cursory Investigation

While R. G. Steele, the famous mining expert, was lounging about the hotel at Hazelton another expert arrived there. He immediately hunted up Mr. Steele and told him he was commissioned by certain capitalists to look into all the mining propositions in the district and immediately report upon them. To save time would Mr. Steele kindly advise him how to go about it?

"Yes," slowly replied Mr. Steele. "I'll give you the best steer I can."

"Thanks, awfully."

"The first and most important thing to do is to stay around here and mix in. Do this all winter and you will gain much information. Then go into the hills and verify the information you have collected."

"Thanks, but that will take time, Mr. Steele."

"I was just going to remark when you interrupted me that by following this plan you would be able to give a partial report in about three years' time. But, mind you, that would be only a beginning."

Fire at Nanaimo Canneries

Nanaimo, Sept. 24.—(Special)—At 4 o'clock this morning a fire broke out in the herring canneries and before it could be controlled had destroyed three large salteries.

DISCREDIT GIRL'S STORY

Coroner's Jury Place Murder Blame on Unknown Person

Newkirk, Okla., Sept. 22.—The coroner's jury that has been hearing evidence regarding the murder of J. W. Shephard and his brother, Taylor Shephard, at the former's home here last Friday, returned a verdict that the two men came to their deaths by blows on their heads by some blunt instrument delivered by an unknown party or by unknown persons. Walter Cassidy, a young man who had been held in connection with the crime, was exonerated and released.

The jury did not consider the statement of Ebby Shephard, the daughter of J. W. Shephard, who said she killed her father.

FINE NEW BUNGALOW

Now Building For City Clerk Woods At a Cost of \$4000.

The fine residence now in process of construction for City Clerk Woods on Fifth avenue at the corner of Borden and Taylor streets is now making rapid progress towards completion. Mr. Woods expects to be in occupancy by the second of November. The walls are complete and work is now in progress on the roof.

The residence which is in Californian bungalow style and consists of basement, first storey and upper storey is a commodious and comfortable one, and one of the finest in this style yet erected in Prince Rupert. It occupies a fine site with splendid views, and has a 68 foot frontage.

The plans provide for spacious living rooms, dining room, kitchen, pantry, bedrooms and bathroom, besides the roomy basement, and a spacious apartment in the upper story. The house will be heated throughout by the hot air system, and a feature among its many conveniences will be the sliding draft proof doors between the rooms.

The cost of the residence when completed will run to a matter of \$4000. The architects are Messrs. Munro and Lailey, and the contractor is Mr. John Hilditch. Mr. Woods expresses himself thoroughly satisfied with the progress of his residence up to the present.

ALL LEAVING DAWSON

Another Batch of Yukon Officials Who Have Been Let Out

There came on the Princess Beatrice yesterday several officials of Yukon territory, notably Mr. and Mrs. J. Sutherland McKay and Mr. and Mrs. Aime Dugas. The latter is the only son of Judge Dugas, senior judge of the territorial court. He went to the Yukon in company with his father in 1898 and has ever since been in government employ, latterly as chief clerk in the gold office.

Mc. McKay was one of the intrepid ones who bulled it through from Edmonton at the great stampede, and was one of the few who reached their destination. He was mining for the first year and on the establishment of the territorial court became assistant clerk, which position he has held until recently.

On last week's steamer from Skagway there passed through here S. A. D. Bertrand, who for about ten years had been superintendent of public works and roads in the Yukon. Mr. Bertrand said while here that he would possibly return to politics.

Next Lieutenant-Governor

Ottawa, Sept. 24.—(Special)—Premier Scott's presence here is stated to be in connection with the appointment of Mr. Brown, the defeated Liberal candidate, as lieutenant-governor of Saskatchewan.

Buy case eggs for political meetings but don't eat them. Red C. stamped Eggs are the only ones fit to eat.

MONDAY, SEPT. 26

CANADA'S INLAND SEA

Canadians of the older provinces and the world at large are gradually awakening to the fact that Canada's frozen north is the richest prospect and most fertile country in the whole world. The next few years are going to be great ones of the Dominion and judging from the newspaper report quoted below one of the possibilities of the near future is a trip from Prince Rupert across Canada to Europe without touching Ontario or Quebec:

"A wireless message received by the Secretary of State from the steamer Grey via Fame Point, on September 3, announced the complete success of the Governor-General's expedition through the Hudson Bay country. The object of the trip was perhaps best expressed in Earl Grey's own words: "To explode the theory of the Frozen North." When York Factory, on the western shore of Hudson Bay, was reached, August 19, the weather was hot enough to make swimming delightful, and the nights were made glorious by Northern Lights. "The run to Churchill," according to the wireless message, "was most enjoyable, no wraps being required while sitting on deck. At eleven o'clock in the evening we were on deck without coats or hats. Summer sailing on the Mediterranean of Canada we found as pleasant as it could have been on the Mediterranean of the Old World. At Churchill's Harbor, the next morning, we were on deck at six o'clock in pajamas for coffee." On the run from Churchill to Hudson Strait "the weather was fine, and wraps were superfluous. No ice was seen—not even enough to cool a glass of champagne." On the 26th, coasting down the shore of Baffin Land, several icebergs were seen drifting in from Davis Strait, but the trip, as a whole, through the bay and the strait "was as pleasant as a summer sail upon the Atlantic. Certainly had we not known we never would have guessed that we were on what has been popularly regarded as a Polar Sea. We constantly spoke of it as the Mediterranean. For one hundred and seventy-eight years the Hudson's Bay company's ships have come in without missing a year, save once."

Having vilified and cursed us with all the language at his command without soiling the purity of our escutcheon, the Alf editor now seeks genuine revenge by suggesting that he might become a member of the Optimist staff. Police!

No dead advertisements! No city hall pap! No agreement or corporation pull! The Optimist, it's alive!

BAPTISTS HAVE GOOD PREACHER

CONTINUED FROM PAGE 1

effort to support her sick mother and infant sister." The labor unions do not stand for this" said Rev. McLeod. "They seek what is just. The reason for that injustice was because there was not enough of the spirit of Jesus Christ in the homes of these strikers."

With other dramatic stories told in true evangelistic manner the pastor carried home to his hearers the message of the power of Christ in the homes right here in Prince Rupert. "I pray" he said "that the homes of this new city of Prince Rupert may become the happiest homes in all Canada—yes, and in all the world, because of the spirit of Christ in them; and that this young Baptist church here may with the other churches and agencies doing battle for Christ in this city, be greatly blessed in the championship of this cause."

Camosun Has An Accident

Through an accident to her machinery the Camosun was delayed on her way from Stewart to this port and did not arrive until one o'clock this morning. She left for Vancouver with fifteen first class and twenty-five second class passengers from here.

Inlander Reaches Hazelton

Notwithstanding the heavy rain the Inlander had to battle with low water on her way up the river but, it is learned by telegraph, she reached Hazelton all right this morning.

Will Clear Next Monday

The discharging of the huge cargo of railway steel brought by the large freighter Bannockburn is going smoothly on, three runs with donkey engines being employed in the work. If all continues to go well the unloading will be completed by next Monday morning.

Increased Business at Wharf

From the fifteenth of this month to the same date in August there has been received at this port over two thousand tons of miscellaneous freight, outside of the large shipments for the railway contractors. About the same amount was received the previous month, which is one hundred per cent. increase over the corresponding months of last year.

The Guggenheims in Klondike

Advices from New York state that at the beginning of this month the Yukon Gold company, operating on the Klondike river, Dawson, declared the regular quarterly dividend of two per cent, payable on October 1st.

Ald. Smith Takes Vacation

Alderman Smith leaves on the Prince George this evening for his large ranch at Camrose, Alberta, which he has not visited for two years. He is there raising horses and cattle and has reports that the crops have been good. After attending to the ranch business he expects to find time for a little duck shooting and to be back here in three or four weeks.

Stanley Long Delayed

F. Stanley Long, who is coming from Dawson to take the position of manager of the Bank of British North America, is delayed at Skagway. He neglected to wire from Dawson to reserve a berth on the Princess Beatrice and when he reached Skagway found all the berths taken. He will come on by the next steamer from Skagway.

To Presbyterian Ladies

Rev. F. W. Kerr regrets that he did not receive until Monday morning a letter from Mr. Cuthbert, secretary of the General Hospital Association, which contained the announcement regarding the Ladies' meeting Tuesday afternoon at 4 p.m. in the Board of Trade rooms. Mr. Kerr heartily commends this meeting to the ladies of his congregation.

PRINCE RUPERT

ROGERS' ADDITION

Ellison Townsite is Now on the Market in Small Blocks

Another great opportunity is presented to those who have faith in the Skeena River district and the future success of the Grand Trunk Pacific Railway. On another page in this issue will be found the announcement of the sale of lots in Rogers' addition to Ellison townsite. This property consists of some forty acres divided in 500 town lots. The surveying of streets, lanes, etc.,

is all done and conforms to the plan of the townsite of Ellison. The land lies alongside of Ellison and only seven blocks from the proposed site of the G. T. P. depot and railway yard. This townsite will be a railway town and a commercial centre for the wonderfully rich valleys known as Bulkley, Kispiox, and Skeena River. The railway will be running between Ellison and Prince Rupert by spring and there is a great opportunity for big returns from a very small investment. Corner lots are offered at \$100 and \$125 at very reasonable terms. Christiansen and Brandt are the

sole agents for Prince Rupert and the district north. Full information can be obtained from them.

CITY FATHER'S WOULD

But Couldn't Shoot Venison on Account of Weather

His Worship the mayor and Ald. Mobley accompanied city engineer Davies to the city camp near Woodworth Lake one day last week. The object was to see how A. W. Agnew and his staff of chain men, etc., were getting along

with the surveys for the city water works. The trio arrived in the late afternoon and after a hearty supper of venison steak and other good things the city chef is noted for providing a quiet evening was spent under canvas. They slept on plank beds and were lost to the world for several hours. They did not hear the rain and were greatly disappointed in the morning to find everything soaked, and the heavy dew still falling. The city fathers decided to stay in camp, but the engineer went out and examined the work and then came home. The other two laid around in

their fireless tent all morning, and in a neighboring tent, where there was a fire, all afternoon. They figured on doing some shooting the following day and rather enjoyed the long day and night listening to Alex's string of yarns. Next day however it was still pouring up on the mountains and the would be venison hunters got disgusted and started for home, arriving here with a wet skin and an empty stomach.

See the flickerless motion pictures—the silent drama—at the Phoenix theatre.

ROGERS' Addition to

ELLISON

The future commercial centre and distributing point of the Bulkley, Kispiox and Skeena River Valleys, is now platted and lots offered to the investor on the most liberal terms.

Roger's Addition to this new G. T. P. Town of Ellison is located on high level land only seven blocks from the proposed station and depot grounds.

The G. T. P. Railway Company expects to reach this town early next summer with the rails, and property will then advance by leaps and bounds.

There is no investment like Real Estate; it is safe, certain and profitable. We have all had this experience in the past and have but recently experienced the marvellous increase made on investments here in Prince Rupert.

Another opportunity is now before you. Do not fail to take

advantage of this; get in on the ground floor and reap the benefit of advance.

A limited number of these lots are now offered at the low price of, for corner lots

\$100.00 to \$125.00

TERMS:--Cash \$10.00, Bal. easy Payments

Size of lots are 33 by 120 feet, street alleys and blocks all conform to the Main Townsite of Ellison.

SPECTACULAR DEATH

**Man Walks Off Dock and Refuses
Lifeline Flung to Him**

Seattle, Sept. 23.—Walking off the
end of the Coleman dock, in view of
hundreds of people who were await-
ing boats, a man early last evening
plunged into Elliott Bay and refused
to grasp the lifeline flung to him. Be-
fore a boat could be manned and sent
to the scene he had disappeared. His
body was recovered. Search by Depu-
ty Coroner Hill revealed nothing to
establish his identity.

SWAPS BABY FOR PIG

**Twins Too Many For Father So
Swapped One Off**

Winnipeg, Sept. 23.—A Russian wo-
man living a few miles north of the
city gave birth to twins in April. The
husband was greatly offended at the
dual arrival, and, without the consent
of his wife, traded one of them off with
a neighbor for a young pig. A police
constable then stepped into the game
and called the trade off, making the
father of the twins return the pig and
take back the baby. It is understood
that the family will be deported.

LUMBER INDUSTRY DULL

**Financial Authority Suggests Im-
position of Import Duty**

It is less than a month since a de-
putation of lumbermen memorialized Sir
Wilfrid Laurier in favor of a duty on
lumber coming into Canada. Now three
is direct evidence of the dumping of
lumber into the Canadian market from
Washington and Ogeron. Times in the
Western States are not of the best, and
with the falling off of demand for lumber
there, the mills in Washington are
shipping in large quantities into the
middle Canadian West, and selling at
cut prices. The result is a depression
in British Columbia.

Up to early summer, the domestic
market was good. With the rumor of
adverse crop conditions it fell off, and
only the local trade has saved the situ-
ation. The price of logs has dropped
to from \$7.50 to \$8.50, which is low. In
shingles, to put it literally, nothing is
doing. Just before harvest is the dull
season, and the little that would be
offering would be saved to Canadians
if the one industry that is afforded no
protection got the moiety that is due.

The added consideration has been
advanced, that it will help conserve the
timber, for when odd lengths are offered,
the retailers in the North-West, they
could not then threaten that they would
buy in the United States unless they got
them for nothing to sell at regular rates.
British Columbia, in its growing time,
asks for a square deal.—*Monetary Times.*

NOT SCARED YET

Tho' winter's slyly lurking
And waiting for its chance,

BOURASSA HAS BECOME MENACE

QUEBEC POLITICS NOW CAUSE OF GREAT ALARM

Certain That Bourassa Party Will Have Twelve to Fifteen Members In Next House and Therefore Hold Balance of Power.

Ottawa, Sept. 23.—The political situation in Quebec is causing consternation in government circles at Ottawa.

As an instance, a Roman Catholic Liberal senator from the province of Quebec stated today without mincing matters that the career of the present government there was drawing to a close. He showed that the present Bourassa-Monk campaign was simply history repeating itself.

In 1886, the Conservatives and Liberals of Quebec joined hands and put Mercier in power, and in 1896 the province was handed over to Sir Wilfrid Laurier.

It was unquestionably the case, said the senator, that Mr. Bourassa intended to effect a junction with the federal Conservatives at an early date.

It was admitted that the prestige of Sir Wilfrid Laurier might carry the majority of the province at the next election, but it was certain that the Bourassa party would have twelve or fifteen members in the next parliament so that they would have the balance of power and could drive the government from power, whether it was Conservative or Liberal, any moment they wanted to.

The strength developed by Mr. Bourassa's Nationalist movement in Quebec is giving the government concern. It is acknowledged that Sir Wilfrid Laurier's retreat at Arthabaskaville was not any more designed to give the prime minister rest than to enable him to analyze the political situation at close range.

Liberals who have already sized up the position in Quebec are confident that Sir Wilfrid will, in the interval of his rest at Arthabaskaville, have sufficiently diagnosed the conditions to convince him that Mr. Bourassa and his policy have taken a serious hold in Quebec. That he will devise something to avert a decided split in the party they are willing to believe, but the practical politicians of the party trust that he will find a solution in a protracted delay in awarding contracts for construction of ships such as will enable the party to side over the forthcoming general election.

Cancellation of Reserve

Notice is hereby given that the Reserve existing in Crown Lands in the vicinity of Babine Lake, and situate in Cassiar District, notices of which were published in the British Columbia Gazette dated June 30th, 1908, is hereby cancelled.

ROBERT A. RENWICK,
Deputy Commissioner of Lands.
Victoria, B. C., June 16th, 1910. 45-8m

Cancellation of Reserve

Notice is hereby given that the reserve existing in Crown lands in the vicinity of Babine Lake, and situate in range 5, Coast District, notices of which were published in the British Columbia Gazette dated December 17th, 1908, is cancelled in so far as lots numbered 1519, 1518; 1517, 1516, 1515, 1510, 1507, 1516, 1506a, 1508, 1501, 1502, 1512, 1511, 1505, 1504, 1513, 1514, 1509, 1508; 1503, 1527, 1528, 1529, 1531, 1532, 1533, 1534, 1535, 1537, 1539, 1536, 1538, 1540, 1541, 1544, 1543, 1545, 1546, 1542, 1547, 1548, 1549, 1550, 1520, 1521, 1522, 1523, 1524, 1525, 1526 and 1551.

ROBERT A. RENWICK,
Deputy Commissioner of Lands.
Victoria, B. C., June 16th, 1910. 45-8m

License to an Extra Provincial Company

COMPANIES ACT.

July 1, 1910.

CANADA:
Province of British Columbia.
No. A (1910)

THIS IS TO CERTIFY that "THE SWANSON BAY FORESTS, WOOD PULP AND LUMBER MILLS, LIMITED" is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Ottawa, in the Province of Ontario.

The head office of the Company in this Province is situate at Swanson Bay, and James Wood, Manager, whose address is Swanson Bay aforesaid, is the attorney for the Company.

The amount of the capital of the Company is one million five hundred thousand dollars divided into three hundred thousand shares.

GIVEN under my hand and Seal of Office at Victoria, Province of British Columbia, this twenty-eighth day of July, one thousand nine hundred and ten.

J. P. McLEOD
Acting Registrar of Joint-Stock Companies.

The objects for which this Company has been established and licensed are:

58A, 1910.

To buy, take on lease or otherwise acquire estates and agricultural lands or other lands or the rights to cut timber or cultivate, develop or use any such estates or lands, and to carry on business as pulp, paper, timber and lumber merchants, saw mill proprietors, and timber growers, in all their branches, and to buy, grow, cut, prepare for market or otherwise manipulate, import, export, sell and deal in timber and wood of all kinds, and to manufacture and deal in pulp and articles of all kinds in the manufacture of which timber or wood is used, and so far as may be deemed expedient to carry on the business of general merchants, importers and exporters;

To acquire by purchase or any other lawful means, water and water power, water records, and water privileges;

To apply and distribute water and water power by erecting dams, increasing the head in any existing body of water or extending the area thereof, diverting the water of any stream, pond or lake into any other channel or channels, laying and erecting any flume, pipe or weir, constructing any raceway, reservoir, aqueduct, weir, wheel, building or any other erection or work which may be required in connection with the use of water or water power, and altering, renewing, extending, improving, maintaining and repairing any such works or any part thereof, subject to local and municipal regulations in that behalf;

To use water and water power for all milling manufacturing, industrial, mechanical and mining purposes and also for general irrigation purposes or for producing any form of power, and for producing and generating electricity for the purposes of light, heat and power, or any of such purposes;

To construct, operate and maintain electric works, power houses, generating plant, and such other appliances and conveniences as are necessary or proper for generating electricity or any other form of developed power, and for transmitting the same to be used by the Company, or by persons or corporations contracting with the Company therefor, as a motive power for all the purposes for which water, water power, electricity, or electric power derived from water may be applied, used or required. Provided, however, that any sale, distribution or transmission of electric, hydraulic or other power or force beyond the lands of the Company shall be subject to local and municipal regulations in that behalf;

To buy, sell, catch and deal in fish of all kinds, to prepare for use and canning or otherwise packing all kinds of fish, meats, milk, fruits, vegetables and other food stuffs, and to buy or otherwise produce, sell and deal in the same or the products thereof, to manufacture oils, fertilizers and to buy, sell and deal in the same, to make, sell and deal in all kinds of cans, boxes or other receptacles used in connection with or for any of the above purposes;

To carry on the business of farmers, graziers, cattle dealers, fruit growers, planters, fishermen, miners, quarry owners, brick makers, builders contractors, ship builders, railway and other carriage builders, mechanical and general engineers and general store keepers and general dealers;

To carry on the business of general carriers of passengers or goods by land or water, and the business of a dock, pier or harbour company;

To purchase, take upon lease, hire or otherwise acquire any timber or other lands, buildings, ships, boats, carriages, rolling stock, machinery, plant or other property (real or personal), or any estates or interests therein, and any rights, easements, privileges, licenses concessions letters patent of invention, trade marks which may be considered necessary or expedient for the purposes of the undertaking or business of the Company, and to erect, construct, lay down, fit up and maintain any houses, saw mills, factories, buildings, roads, piers, harbours, wharves, docks, watercourses, reservoirs, electric works or other works which may be thought necessary or expedient for such purposes for the improvement or development of any property of the Company;

To aid, encourage, and promote immigration into any lands or property acquired or controlled by the Company, and to colonize the same, and for such purposes to lend or grant any sum or sums of money for any purposes which may be considered to be for the advantage of the Company;

To carry out, establish, construct, maintain, improve, manage, work, control, and superintend any roads, ways, bridges, reservoirs, watercourses, wharves, embankments, saw mills, pulp mills, paper mills, smelting and other works, furnaces, factories, warehouses, stands, stores, shops, stations and other works and conveniences for the working and development of any concessions, rights or property of the Company, and to contribute to, or assist in, or contract for the carrying out, establishment, construction, maintenance, improvement, management, working, control or superintendence of the same;

To construct, maintain and manage on lands owned or controlled by the Company, tramways, telegraphs and telephones;

To develop the resources of and turn to account any lands and any rights over or connected with timber or other lands belonging to, or in which the Company is interested, and in particular by laying out town sites, and to construct, maintain, and alter roads, streets, houses, factories, warehouses, shops, buildings and works and stores, and to contribute to the cost of making, providing and carrying out and working the same, and by preparing the same for building, letting on building lease or agreement, advancing money to, or entering into contracts with builders, tenants and others, clearing, draining, fencing, planting, cultivating, building, improving, farming and irrigating;

To form all subsidiary companies necessary or convenient for carrying out any object of the Company, to act as agents for others in any business and for any purpose whatsoever;

To carry on and to do any other business or things which usually are and can be conveniently carried on or done by persons carrying on such business or undertaking as aforesaid or calculated directly or indirectly to enhance the value of or render profitable any of this Company's property or rights;

To acquire and undertake the whole or any part of the business property and liabilities of any person, firm or Company carrying on any business with this Company is authorized to carry on, or possessed of property suitable for the

purposes of this Company, and as consideration for the same to pay cash or to issue any shares, stocks, or obligations of this Company whether wholly or partly paid up;

To sell, demise, let, dispose of, or otherwise deal with the whole or any part of the property and undertaking of this Company, upon such terms and for any considerations, and to promote any other company for the purpose of acquiring the whole or any part of the property, undertaking and liabilities of this Company, or to amalgamate with any company having objects altogether or in part similar to those of this Company;

To accept in payment, whether wholly or in part for any property sold, demised or disposed of, and to purchase, or otherwise acquire and hold, issue, place, sell or otherwise deal in stocks, shares, obligations, bonds, debentures or securities of any other company, notwithstanding the provisions of Section 44 of the said Act, and to give any guarantee or security in relation thereto, or in conjunction therewith, and upon a distribution of assets or divisions of profits to distribute any such shares, stocks, obligations or securities amongst the members of this Company in such manner as the directors of this Company may think fit;

To remunerate any person or company for services rendered in placing or assisting to place, or guaranteeing the placing of any of the shares of this Company's capital, or any debentures of other securities of this Company, or in or about the promotion of the Company or the conduct of its business, or in placing or assisting to place or guaranteeing the placing of any of the debentures or shares issued by any other company in which

this company may have an interest, and to pay the costs and expenses of, and incidental to, the registration and formation of this Company or of any company in which this Company may have an interest;

To establish and support or aid in the establishment and support of associations, institutions, funds, trusts and clubs calculated to benefit employees and ex-employees of this Company or the dependents or connections of such persons, and to grant pensions, and allowances and make payments towards insurance, and to subscribe and guarantee money for charitable or benevolent purposes or objects, or for any exhibition or for any public, general or useful purpose or object;

To carry out all or any of the foregoing objects as principals or agents and by and through trustees, agents or otherwise, and alone or jointly with any other company, association, firm or person, and in any part of the world;

To enter into any partnership or into any arrangements for sharing profits, union of interest, co-operation, joint adventure, reciprocal concession or otherwise, with any person or company carrying on, or engaged in or about to carry on, or engage in any business or transaction which this Company is authorized to carry on, or to engage in any business or transaction capable of being conducted so as directly or indirectly to benefit this Company;

To do all such other things as are incidental or conducive to the attainment of the foregoing objects or any of them.

CITY CONTRACT LABOR DISPUTE

Situation Remains Unchanged, McMordie and Men Remain Firm.

The situation regarding the labor dispute on S. P. McMordie's contract on Second avenue remains unaltered today. Mr. McMordie after paying off thirty men on Saturday at 3 p.m. finds that with the men he engaged to carry on the work on Saturday morning, he has sufficient labor to meet the requirements of the contract in its present stage.

"I had more labor offered than I have use for" he said this morning.

The city engineer states that Mr. McMordie is conducting the work according to the contract conditions, and that there will be no interference regarding the difference between labor and contractor on the part of the city.

A number of the workmen who were paid off on Saturday have started on

other jobs the unloading of the steel steamer affording employment for several; and several have been offered work on the G. T. P. construction contracts.

MINING ON STREET

Port Arthur Lucky Enough to Walk on Silver

Port Arthur, Sept. 23.—Work commenced today on the development of the silver vein discovered in the early spring within the southerly city limits of Port Arthur. The property was purchased by Cyrus W. Baker of Denver, Colo., and on the agreement pays Stewart & Hewitson \$50,000 and will spend \$20,000 at least in developments. The vein was uncovered in quarrying operations and assays of the ore ran from \$500 to \$800 a ton. The first work will be the sinking of a 100-foot double shaft.

Silver Cup

We unqualifiedly recommend the immediate purchase of SILVER CUP MINING shares at 12 1-2 cents per share. The Treasury fund is fast growing into proportions that will enable the company to proceed on a scale that is calculated to add great value to the shares. After this treasury issue is disposed of and as development proceeds, there will be a lot of people wanting SILVER CUP stock, and to secure it they will be obliged to offer a sufficient profit to the early purchaser to induce him to sell.

Why not be one of the early purchasers and thereby secure the stock at a price that will give you the maximum of profit.
