The Prince Rupert Optimist

DAILY EDITION.

VOL. I, NO. 24 — PRINCE RUPERT, B.C., TUESDAY, MAY 31, 1910. — PRICE, FIVE CENTS

WILL ASK FOR CEMETERY

SIXTY ACRES OF AVAILABLE LAND AT FAIRVIEW.

A By-Law Will Be Introduced in the City Council To-Night to Borrow Money to Run the City for the Next Seven Months.

The aldermen at their meeting last night decided to get after a 60 acre plot of ground at Fairview for cemetery purposes, and at the same time they will hurry along the arrangements for other stretches of land required from the government.

Those present were Mayor Stork and Aldermen Pattullo, Mobley, McIntyre Smith, Lynch, Barrow and Hilditch.

Ald. Pattullo brought up the matter of finances and the payment of accounts until such time as the city can issue its debentures.

It was suggested that the matter be deferred for a week as the local managers of the banks have to write headquarters before making a proposition for advancing money to the city.

Ald. Mobley thought the city should place its accounts with one of the local banks that has authority to advance money at once.

Ald. Pattullo stated that all the banks were prepared to advance enough money to keep the city going, but they were not prepared to say how far they could go.

The matter was finally left over until next meeting which will be held Tuesday evening.

By-laws.

Ald. Pattullo introduced the first by-law, that on procedure, and moved the first reading. He also moved the second reading be at the next meeting.

Ald. Hilditch reported that the standpipes on Hayes Cove were now in good working order.

City Solicitor Manson stated that Mr. Williams had prepared his opinion on the city's position in connection with getting water from Woodworth lake. He was prepared to meet the council and present it.

The matter will be taken up on Wednesday night.

Want A Cemetery.

Ald. McIntyre suggested that the city take steps to get a grant of land for cemetery purposes from the government or G. T. P.. He said that Father Bunoz had applied to get 10 acres for the Catholics. It was at Fairview, near the railway tracks. There are about fifty acres there and seem to be reserved. He thought the city should get after it at once. The property is very suitable for a cemetery, and it is about the only place in the city for such a purpose. He thought it should be a public burying ground.

Ald. Hilditch agreed with the above, and moved that the mayor and Ald. Smith be a committee to look after it. Ald. Pattullo seconded the motion and it carried.

Ald. Mobley suggested that the city consolidate all the grants of land that are wanted from the government and G. T. P. He thought that committees should get busy on the matter at once.

Will Start Road Work.

A communication was received from the Streets committee asking that the city engineer take the grades of a number of streets for the purpose of ascertaining the amount of rock and earth to be removed. The streets were as follows: First avenue and Second avenue, from McBride to Park avenue.

Third avenue the same.

From foot of McBride street to Sixth avenue.

From Seal Cove circle to McBride street, along Sixth avenue.

From McBride street on Sixth avenue down to Fulton and continuing along Fulton street to intersection of Third avenue.

The Streets committee suggested that the council call for competitive plans for the erection of a City Hall for Prince Rupert.

Ald. Hilditch submitted a rough sketch of what he thought would answer for all purposes. It was a two storey building with a cement basement.

Several of the aldermen thought the competetive plan a good one, but the city must place a restriction as to cost and the architect must keep within the estimate.

Ald. Mobley moved that the committees request re competetive plans be adopted—carried.

Ald. Pattullo moved that the Streets committee be authorized to secure the information re grades of the above named streets. Ald. Mobley seconded and it carried.

Barbers By-law.

A communication was received from the barbers asking that the council pass a by-law requiring all barber shops to close at 9 o'clock in the evening, with the exception of Saturday, and that no shop is allowed to remain open on Sunday. The communication was laid on the table for the present.

BOARD OF TRADE COUNCIL

NEW PRESIDENT APPOINTS STANDING COMMITTEES.

Discuss Plans To Secure For The Board a Permanent Home—Joint Arrangement Offered by Prince Rupert Mining Association.

It was the first meeting after the election of officers, that of the Board of Trade council which was held in the court house last night, and A. J. Morris took his seat as President and J. C. Halsey as Secretary. The members present were—W. M. Moore, A. E. McMaster, Victor Wilson, W. E. Williams, D. G. Stewart, J. E. Scott, J. A. Kirkpatrick, H. H. Clarke, L. W. Patmore, A. W. Agnew and J. F. Brandt.

The first business was the appointment of the standing committees and this as completed reads as follows.-

Legislation: Pattullo, Williams and Scott.

Railway and Navigation: Kirkpatrick, Dawson, Agnew.

Freight rates: Brandt, Clark, Stewart.

Trade and Commerce: Stewart, Dawson, Wilson.

Fisheries: Mobley, Brandt, Clarke.

Lumber and Advertising: Clarke,Scott, Law.

Mining: Law, Scott, Kirkpatrick.

Insurance: Naden, Patmore, Brandt.

Port: McMaster, Mobley, Williams.

Finance: Kirkpatrick, Wilson, McMaster.

City affairs: Dunn, Law, Patmore.

Public Works: Agnew, Dunn, Dawson.

Under the head of communications two letters were read offering the board permanent quarters, and upon this a motion was made and carried that th time had arrived when the board should have a home of its own, the communications on the subject being referred to the Finance committee with instructions to investigate and report at the next meeting.

The first offer read was that of the basement of the Helgerson block, the rent asked for which was $40 per month. The second was from F. E. Reid, secretary of the Prince Rupert Mining association, and this suggested that the two institutions might join in the renting of the basement under the Christianson and Brandt store at the corner of Third Avenue and Fifth street. The rental named was $75 per month. Mr. Reid wrote that the two associations need not conflict as the Mining association would only need the rooms from 10.30 to 12.30 in the mornings.

Thw matter was carefully discussed and, as before stated, referred to the finance committee. It was further suggested that if the joint arrangement was entered into the premises leased could also be used by the Publicity Club without charge, "as the expense all comes out of the same purse" observed the President.

ANARCHY AND SEDITION

TWO EUROPEAN KINGS MARKED FOR ASSASSINATION.

Anarchist Plot to Establish a Pan-Latin Republic--Sedition in India Shows a Public Advocacy of the Use of Poisoned Bombs.

(Special to the Optimist)

Rome, May 31.—Cardinal del Val secretary of state to the Vatican, has sent a warning to King Manuel of Portugal and King Alfonso of Spain, giving particulars of plots to assassinate both rulers and to form a Latin republic of the two countries. The conspirators are said to be Masonic anarchists, and that their ambition is to establish a pan-Latin republic that shall embrace all the Spanish republics of South and Central America.

London, May 31.—Sedition is again presenting itself in India in the most hideous and cowardly form. One of the many seditious newspapers published in Bombay, which has a large circulation all over the empire of India, has just reached here, It openly advocates that cocoanut shells shall be filled with poisoned needles and exploded wherever there shall gather a crowd of Europeans. It goes on to argue that the natives should not only kill off at once the European men, but that all women and children of the hated dominant race should be utterly destroyed, in order to free their country from the tyrannical oppressfon of British rule.

ALEPIA BIANCO SHOT HERSELF IN THE NECK AT MIDNIGHT

Double Barrel Shotgun Used For the Awful Deed.

Family Troubles Supposed to Have Been the Cause—Coroner's Jury Viewed the Remains This Afternoon.

Mrs. Victor Bianco, an Italian woman about 30 years of age, shot and killed herself with a shot gun last night about midnight. She was discovered in her room this morning by friends who reported the matter to the police. Chief Wynn immediately put the machinery in motion to ascertain the cause. As a result an inquest was ordered for 2 o'clock this afternoon.

The deceased woman was in a room by herself and the evidence so far points to a case of suicide. There was a man in another room in the house, but he declares that he knows nothing of the affair. The police have been working on the case all day and it is expected that much more will be known after the inquest.

The Bianco home is on Third Avenue next to Clarke and Ives wholesale grocery.

The coroner's jury viewed the remains this afternnoon at two o'clock. The body of Alexia Bianco was reclining half on the bed and half on the floor when the jury arrived. She was in the same position as when she was discovered by her friends. The spectacle presented a most terrible and pitiful sight.

The woman, who it is understood was driven to her rash act by family troubles, still clutched the double barrel shot gun in her hand, with the butt on the floor near her feet. She had evidently pulled the trigger with her foot. The charge of shot entered the front of her throat where there is a gaping wound all smeared and burned from the powder. The shot had plowed its way through and come out in several places. Death was evidently instantenous as there is nothing to indicate any struggle afterward.

When Chief Wynn arrived on the scene this morning he found a pocket book and a watch on the dresser and took charge of them for presentation to the jury at the inquest.

Alexia Bianco was a native of France and had lived here for the past two years. She and her husband conducted a lodging house on Third Avenue near Eighth Street. The suicide was commited at midnight last night. She was 21 years of age.

Coroner McMullen empanelled a jury which met in his office at 1:30. The jurors are Geo. W. Arnott foreman J. J.D. Nicholls, Jas. McRae and F. Bownes.

After visiting the remains the jury adjourned until Thursday night at 8 o'clock in the court house.

NO FISHING SUNDAYS.

Juneau People Must be Getting Very Sanctimonious.

Juneau, Alaska, May 25.—Eight fishermen were brought here today by Fisheries Commissioner Cobb, who had them arrested on a charfe of fishing for salmon on Sunday, which is a closed day under the federal fishing regulations.

The men were caught redhanded in Taku inlet, where the salmon run is now heavy. None of the accused was able to give bail and all are being held in the jail here. It is probable the cannery owners will arrange for their release under bonds.

Canadian in Command.

Melbourne, May 26.—A Canadian, Col. Fitzpatrick, has been appointed inspector-general of the commonwealth forces. He has arrived from India, and the general desire is manifested that his term of office should be a great success. He created an excellent impression during a recent visit.

GOOSE BAY SMELTER.

Half Million Plant Coming Near to Prince Rupert.

Vancouver, May 30.—Mr. Rogers, of Nickle Plate fame, is here with the plans for a smelter that he is to erect at Goose Bay, Observatory Inlet., at a cost of half a million dollars. New York capital is behind the project and the work of construction is to start early this summer.

Vancouver, May 30.—(Special)—The missing launch party has been sighted at Pender harbor, with all on board safe.

"DOG-IN-MANGER" POLICY.

London Journal Criticises Canadian Immigration Law.

London, May 28.—The Daily Graphic hopes that Canada will modify her immigration regulations, and says the Dominion possesses such boundless resources that the government should do nothing to suggest a "dog-in-the-manger policy."

Mr. French of the Hudson's Bay Co., returned to the city yesterday on his way south. He had been up the river for a couple of weeks looking after the construction of the new freight sheds at the Canyon. . Mr. French was also as far up as Hazelton in the interests of the company. The freight sheds are both well under way now and will soon be completed.

ALASKA CONVENTION.

Mayor Strong Withdraws and Falcon Joslin is Favored.

Juneau, May 25.—In the Alaska Democratic convention, which met today, much sentiment has appeared for the indorsement of James Wickersham, Republican, for re-election as delegate to congress.

With fifteen delegates present and most of the precints represented by proxy, the convention organized with H. P. Crowther, a pro-Wickersham man, permanent chairman, and Jay Bell, secretary.

After the appointment of committees the convention adjourned, and the nomination will probably be made tomorrow.

A letter was received from Major J. F. A. Strong, of Cordova, now in Seattle, stating he would not be a candidate. In the convention there is a belief that Falcon Joslin, of Fairbanks, if nominated, would accept. Mr. Joslin is in Seattle.

Beavers in the Lead.

Vancouver, May 30---(Special)—Saturday's baseball games resulted as Vancouver 1, Seattle 5. Spokane 8, Tacoma nil. Sunday's games resulted-Seattle 2, Vancouver nil. Tacoma lost a double header. The Beavers now lead the league.

Rainy Day for Lacrosse.

Vancouver, May 30.---(Special)—The lacrosse match between this city and New Westminster ended in favor of the local team by a score of 9 to 4. Great interest was taken in the game and five thousand people stood in a downpour of rain watching every play.

Toronto, May 30.---(Special)—Hon. Benjamin Rogers has been appointed lieutenant-governor of Prince Edward Island.

POWERFUL WIRELESS.

Steamer Prince Rupert's Two Thousand Mile Machine.

The Steamship Prince Rupert, owned by the the Grand Trunk Pacific railroad, will be equipped with United Wireless telegraph instruments on her arrival here from England. The Prince will be given a 5-kilowatt set, with auxiliary storage battery apparatus in addition for use in case of emergency. Should any accident happen to the power plant of the ship the storage batteries would be called into play and communication easily established with some land station or vessel.

This outfit will give the vessel a working radius, under all conditions, of at least 2,000 miles, and under favorable conditions at night, of twice this distance.

All interference will be cut off effectually by the use of the new patented wireless company's tuner, which is now claimed by wireless experts in all parts of the world to be the only successful device so far perfected that will cut out interferences from other sources.

Canada Getting Compensation.

The United States immigration service reports show that in the year ending with March 31, 1910, people from the United States to the number of 103,789 emigrated to Canada, while Canadians to the number of 57,930 entered the United States to make that country their home. This shows a balance of 45,859 in this country's favor. The exodus has not stopped, and will not stop, but Canada is getting compensation in full measure now.—Montreal Gazette.

A few paper clips are invaluable in the sewing basket, for they may hold together scraps, pieces of pattern and bits of lace.

If a spoon with which a cereal is served is first dipped into the cream pitcher the cereal slips from it easily without sticking.

LAND PURCHASE NOTICE

Queen Charlotte Island Land District. —District of Skeena.—Take notice that I, James Madden Cristy, of Prince Rupert, occupation bank manager, intend to apply for permission to purchase the following described land:

Commencing at a post planted three miles N., then one mile west from the N.W. corner of timber limit No. 39762, being the N.W. corner of the land applied for; thence 80 chains east; thence 80 chains S.; thence 80 chains W.; thence 80 chains to point of commencement; containing 640 acres, more or less.

CANADA NOW A NATION.

Traffic Manager of Grand Trunk Talks in London.

Fred. C. Salter, European manager of Canada's Grand Trunk railway system, on resuming his duties in London after six month' visit to Canada and the United States, was interviewed by the Standard:

"I visited the principal industrial and agricultural districts of Canada, from Montreal to Prince Rupert, the new Pacific coast city of Canada and the terminal of Canada's Grand Trunk Pacific railway. I made an extensive tour of the Western and Pacific coast states of the United States, with a view to comparing the development and industrial activity of the two countries," said Mr. Salter.

"Unquestionably Canada is developing with unprecedented activity. Canada is doing to-day what the United States did during the latter part of the last century. The experience of the United States is a guide to her, and Canada has the advantage of wiser and more benevolent laws, which are adequately and impartially administered in all parts of the country. The marvellous fertility of the soil of Western Canada is now generally recognized and admitted. But the British public do not seem to realize that the climate of this section of Canada is one of the most desirable in the world. It closely resembles that of the middle, Western and Pacific coast sections of the United States in which the greatest development has taken place, and from which that country draws her greatest strength It is not an ideal climate for growing grain—it is the kind of climate that develops men and makes a strong nation.

"There is one point which I earnestly desire to impress upon the people at home. Canada can no longer be looked upon as merely an overseas colony of the Empire. She has cast off her colonial shroud, and to-day Canada is a nation possessed of vast territory, with a rapidly increasing population, with boundless resources, and with the aspirations and ambitions which every strong young nation should have. The slumbering, semi-dependent condition which retarded her progress during the nineteenth contury has gone for ever. Canadians are doing their very utmost to take full advantage of their heritage of natural resources. They are endeavoring not only to win success but to deserve it. They are striving to fit their country to take its proper place amongst the nations. This is the true Canadian national attitude, and I regret that it is not better and more fully understood by the British press, the British parliament and the British people."

SOLDIER OF FORTUNE.

Kaid Belton, Who Commanded in Morocco, Seeks Commission.

In Ottawa today is the only man alive who put one monarch off a throne and another, his half-brother, on one.

This man is Andrew Belton—known throughout the world as Kaid Belton (Kaid in the Moroccan army being equivalent to commander-in-chief). This intrepid young Englishman is now staying at the Russel house, O tawa. H has seen Earl Grey, Colonel Fiset, deputy minister of militia, and others here and is seeking a position in the Canadian military forces.

He is the man who put Mulai Hafid on the throne of Morocco—this achievement gaining for him the title of "kingmaker."

He left his home in England at the age of seventeen, and from then until now—he is twenty-eight years old—his has seen an active military career. He received a commission in an English yeomanry regiment when only 19 and a captaincy a few years later in the Zululand campaign.

Kaid Belton was through several of the engagements in the South African war, and fought at the battle of Fabers Putts alongside the Canadians, who were there under Colonel Sam Hughes, M. P. This was on May 31, 1900—and speaks highly of the work of the colonel and his Canadian soldiers.

Then in 1906 he was through several battles in the Zululand campaign.

In 1910 he went from South Africa to London, England, on six months leave of absence, and just as he got there the trouble broke out in Morocco between the Sultan Abdul Aziz and his half-brother, Mulai Hafid. The latter claimed the throne, and the young English officer, hurrying back to Morocco, offered his services to Hafid.

They were accepted, and then his exceptional career really began.

The young Englishman has eight decorations of the very highest order. These include the Queen's South African medal, the King's South African medal, the Zululand medal, for service there in 1906, and the Order of Moghrebia(Land of the West), and that of Mulai Idrees (patron saint of Fez) given him by the present Sultan of Morocco.

CUTTING OFF THE LABOUR SUPPLY.

No subject of more consequence and importance to the immediate future of Prince Rupert has come up recently than the one to be found in the new immigration regulations received a few days ago. The amended act goes into effect at once, and within a week its effects will be shown in a greatly diminished influx of alien labour. This cannot fail to retard the construction work of the Grand Trunk Pacific Railway, on the early completion of which all our hopes of prosperity are based both now and in the future. The particular clause which is calculated to work this great detriment to the city reads as follows:

"From and after the date hereof the landing in Canada shall be and the same is hereby prohibited, of any immigrants who have come to Canada otherwise than by continuous journey from the country of which they are natives or citizens, and upon tickets purchased in that country or purchased or prepaid in Canada."

This is an order-in-council passed on the ninth of this month. It does not differ materially from the old regulation with the important exception that it leaves no discretion to the landing officer, or immigration officer, in regard to such aliens. It takes no heed of local conditions that might be served if more elasticity were given to the enforcement of the clause, and this is the very point at which the Optimist takes issue with the Minister of Marine. The men at work on railroad construction here run into the thousands, with probably a large majority of them aliens. But very few of these have come here "by continuous journey from the country of which they are natives or citizens," and therefore are by this regulation shut out. Under the old regulation the immigration officer was authorized to use his discretion. He could take into consideration local conditions, and if there was a dearth of labour, if there was work for the alien to go to immediately, and no fear that he would become a public charge, the agent could admit him. It is not so now, and the result is easy to be foreseen.

The great bulk of the immigration to this continent is landed at New York harbour, and it is there they seek information as to the direction in which they shall seek work. They may be directed to the great railroad enterprise of the Grand Trunk Pacific, and the need of the company for all the men they can get and the good wages offered. But, unless they take out their naturalization papers before starting, they will be turned back at the Canadian boundary. Why this particular restriction should be placed upon the influx of labor into this country when the Government is employing agents abroad and assisting immigration at so large an expenditure, it is difficult for us to understand as it is for the Minister of Marine to understand local conditions which make such a restriction particularly disadvantageous to the growth of this very important part of the Dominion. Prince Rupert has not yet felt the retarding results of this law for the reason that it is only just promulgated, but in the course of the next two weeks a greatly decreased influx of labour to this port is certain to be shown, as the immigration agents below will be turning aliens back and thus restricting the supply of the urgently needed labour.

Of course the aim of the department is to fence out the undesirable and raise the calibre of the aliens admitted. and everything that tends to this end is good. At the same time there are exceptions to every rule, and the minister, should, under the circumstances, make the port of Prince Rupert an exception. We trust that the matter will be put strongly before him by the immigration officer of Prince Rupert, by the Grand Trunk officials here, by the city council, the board of trade and other representative bodies, to the end that he may see the necessity of granting an easement of the regulation in our special case. But those memorials to effect this should go forward at once, as every day's delay means much more than a day's delay in the completion of the railway.

NATURAL BEAUTIES OF RUPERT.

Prince Rupert is not the Garden of Eden, and no claim is advanced to such pretensions. Yet Rupert is one of Nature's flower gardens. At every point of view will be found growing wild all varieties of flowers and ferns from the pretty pink blossoms of the huckleberry, the purple violets and the snow white valley lillies. These spring up, flourish and fade away along every street, on top of every hill, in the valleys and on the flats. Turn where you will and you are greeted by beauty and purity. The world has learned much about the few minor disadvantages of the new metropolis through the efforts of jealous rivals and grouchy visitors, but little has been learned in comparison of the natural beauties, the ideal sunshine and the glorious sunsets, the invigorating atmosphere. All these things are enjoyed here to a degree that rouses the ire of commercial rivals and are therefore religiously unspoken of. They turn these pleasing pictures to the wall, and only the alleged disadvantages of our port are brought forward and sent broadcast over the world. Prince Rupert is one of Nature's playgrounds, nevertheless. It is only a matter of a short time when the world will realize this and tourists and pleasure seekers will flock to the Gateway of the North as they have been wont to migrate to the south in the past.

It is well, however, that here as in other places the beauties of Nature should be taken advantage of, directed and improved by the cultured ability of man. Up to now our people have seemed too much in a hurry to give attention to more than the strictly utilitarian, leaving the point of mingling beauty with their efforts away in the background. But even in a sordid commercial aspect attempts at beautifying are an important adjunct, and the cultivation of flower plots about the homes of the city would prove a powerful allurement and advertisement. Begin the good work right now.

FAIRBANK'S CLEANUP.

Eight Hundred Thousand in Dust on Way Out.

Seattle May 28,—Eight hundred thousand dollars worth of gold has been shipped from Fairbanks to Seattle, marking the beginning of the movement of the season's output of precious metal. A cablegram from Fairbanks to the Washington Trust Company of Seattle stated $700,00 worth of gold bullion had been shipped to this bank. The National Bank of Commerce also received a message from Fairbanks that $100,000 was en route to it. The gold is expected to reach Seattle between June 10 and 15.

FRONTAGE TAX ON ROADS

ALD. LYNCH SPRINGS HIS PET SCHEME ON THE COUNCIL.

He Says He Will Vote Against Everything Except the Fontage Tax, and That That Is the Only Fair System.

Ald. W. P. Lynch , chairman of the Streets, Works and Property committee entertained the aldermen last night to a half hour lecture on road work and frontage tax. This has long been a hobby of Ald. Lynch and now he vows he will fight the thing to a finish. If the frontage system is not adopted he will vote against everything else. In part, the chairman of the Streets committee stated that he believed only in giving a road to those property holders who were willing to pay for it. If they are willing to pay they will petition the council, and as soon as the council receives a petition they can go ahead with the work without getting any money, thus doing away with the delay of issuing debentures, submitting a by-law to the people or waiting on the banking institutions.

The alderman proposed taking a certain number of blocks on one street and get the owners of 50 per cent. of this property to sign a petition. Then work could start at once to bring that street down to grade. Every person who wanted the road in front of their property brought to grade would only have to express their willingness to pay for it and send a petition to the council and it would be done. Those who would not agree to pay the shot could not get their road improved.

Ald. Lynch said he was interested in some property and they, the owners, wanted a 16 foot plank road and a two plank sidewalk built through it. That was all they wanted and they were willing to pay for it. They did not want any permanent work done on it.

Ald. Lynch very largely had his own way last night. The other aldermen had very little to say on the subject as they had not yet given it much thought. It was quite evident, however, that two or three of them were a little amused at the extreme earnestness of the frontage tax advocate and it is not likely that the city will get tangled up in that system without a scrap.

Shortly after Ald. Lynch's recital, the question of sewers was introduced and on looking up the proposed bye-law re Council Procedure it was found that Ald. Lynch's committee would also have to deal with that question. This cooled the chairman of the Streets committee down somewhat. He realized he would have other work to do than fighting for the frontage tax system system for building roads. Nothing was done with either question.

BUILDING IS DELAYED.

R. S. Hyde Cannot Build Until Street Is Brought To Grade.

R. S. Hyde left the city last night and returned to Spokane where he will spend the next few weeks. Mr. Hyde has plans prepared for a concrete block at the corner of Third avenue and Seventh street, but in order to build to the grade of the street as made by the G. T. P. engineers they will have to remove about thirteen feet of rock, not only on their own property, but also off the road. The man who wishes to build a large hotel on the opposite corner also has to make that cut. Mr. Hyde has, therefore, decided to delay building for a month to allow the council to get straightened out and get some plan of action in reference to street grading laid out. Mr. Hyde is perfectly willing to go ahead himself and remove the rock, both on his property and the road, if the council will give him any assurance that he will be re-imbursed some time in the future. Unless the street is brought to grade his building would be worthless.

SCHOOL REQUIREMENTS

TRUSTEES ASK FOR $9010 FOR BALANCE OF YEAR.

First Report From That Body Gives An Outline Of The Course They Propose to Pursue In The Future.

The school board requires the sum of $9,010 to carry on the work of the schools until the 31st December. This information was secured from the following report submitted to the council by the school trustees last night.

To the Mayor and Aldermen of the the City of Prince Rupert:

Gentlemen: We beg to submit to you herewith our estimate of the amount required for school purposes for the term from 1st July to 31st Decemb

Salaries of teachers	$3 720.00
Janitor	600.00
Fuel	540.00
Secretary	90.00
Light	60.00
School supplies, models stationery,etc.	300.00
Scavenging	150.00
Fitting up basement as gymnasium preparing playground.	1,500.00
Chemical Apparatus	50.00
Furnishing four rooms in new school building	1,500.00
Incidentals	500.00
	$9,010.00

The superintendent of education is advised that the Provincial government will pay the salaries of the teachers and incidental expenses up to the end of June next when the whole charge will have to be borne by the city. We hope that the Government will also furnish at least part of the new school building, but as we have no assurance to that effect we have included in our estimates a sum sufficient to furnish and equip four rooms, which we consider will be sufficient to accommodation until the end of the year, along with the accommodation already existing. At our request, Mr. William Manson M. P. P. is taking the matter ip with the Government.

It is the opinion of the Board that it will be advisable to engage as secretary one who is not connected with the Board. If, as we expect, we are able to secure a person who already has an office or place of business in the City convenient alike for the Board, the teachers and the public generally, the additional expense will not be great. We propose to pay $15.00 per month for the present.

We have inserted an item of $1500.00 for equipping the basement of the new building as a playground and gymnasium, and also for levelling and putting in shape recreation purposes part of the present grounds. It has not yet been decided how this will be done, but we hope to have separate playgrounds for the boys and girls.

We wish to engage the services of a reliable man as janitor, as, in addition to his usual duties as such, he will be expected to exercise supervision over the schoo! building and grounds at all times, and especially during the noon period when the teachers are necessarily absent. We do not care to put a young and inexperienced person into this position, and therefore propose to pay $100.00 per month for a reliable and trustworthy person.

We have made provision for increasing the teaching staff and also for slight increases in the salaries of the Principal and the teachers of the two lower grades, including the kindergarten.

All of which is respectfully submitted.

C. V. Bennett
D. G. Stewart
John Currie
Board of School Trustees.

Body Found in Celler.

Louisville, May 30.---(Special)—The body of eight-year-old Alma Kellner, heiress, who was abducted six months ago and for whose recovery a ransom of two thousand dollars was offered, has been found in a cellar hidden under a heap of rubbish.

LICENSE BY-LAW NEXT.

Ald. Smith Will Introduce Bye-law Regulating Liquor Traffic.

At to-morrow night's meeting of the council, Ald. Smith will introduce a by-law regulating the liquor traffic in the city. The license commissioners will meet the second Wednesday in June, and Ald. Smith advised the council that it would be better to have their by-law ready to submit to the license board at its first meeting. This was adopted and Ald. Smith formally gave notice of motion that he endeavor to get the by-law ready.

This brought up the question of stenographers and the large amount of work the city solicitors have for that class of labor. The aldermen thought that the more Stenographers there were the quicker the work would be turned out. The mayor was then authorized to engage a stenogrpaher and buy a typewriter.

Ald. Pattullo gave notice that he would introduce a by-law providing for the borrowing of money for the city to carry along the work until the taxes came in.

THAT SUGAR REFINERY.

Turned Basement Of Church Into Warm Storage Warehouse.

Two or three of the members of the board of trade council, at the meeting last night, were asking what about that sugar refinery it was proposed to establish at Prince Rupert. The matter had been brought to the attention of the city council on Saturday night by Alderman Pattullo, and all the information the board had to go upon was found in the report of the meeting which appeared in the Optimist. President Morris said Mr. Pattullo was also to bring the matter before the board but was engaged at the city council meeting.

Mr. Kirkpatrick asked if this was a matter that fell within the province of the board of trade to take up, and whether it was not for the city council to handle.

President Morris said it was well the city had now a municipal council, with power to act, but at the same time it was for this board to act and stimulate the city council. It was for the board to assist all in its power in these industrial matters, as the city would have all its time taken up with strictly municipal affairs, and be kept very busy at that. There was no doubt the Grand Trunk would be glad to encourage bringing in a sugar refinery, or any industry seeking establishment in this city, and it was for all to work together in getting as many factory chimneys erected here as possible. Payrolls were powerful factors in building up a place.

Two or three members sought information as to who Dr. Grant the applicant was, and whether he was of sufficient substance to carry forward such a large enterprise as a sugar refinery. Two or three other members as eagerly answered that he was well known to Ald. Pattullo, that he had been a Presbyterian minister in Dawson and that he certainly had the "dough." It was mentioned, to show the business instincts of the reverend gentleman, that one winter he turned the basement of his church into a warm storage for canned cream.

The matter was then referred to the committee on trade and commerce.

When making button holes always select a thread twenty numbers larger than the one you should use for sewing the same material.

LAND PURCHASE NOTICES

Queen Charlotte Island Land District.—District of Skeena.—Take notice that I, George Mathew Maddon, of Vancouver, occupation lumber merchant, intend to apply for permission to purchase the following described land:

Commencing at a post planted three miles N., then one mile W. from the N.W. corner of timber limit No. 39762, being the S.E. corner of the land applied for; thence 80 chains W.; thence 80 chains N.; thence 80 chains E.; thence 80 chains to point of commencement; containing 640 acres, more or less.

Notice to Contractors.

Sealed tenders, superscribed "Tender for Lock-up, Stewart, B. C.," will be received by the Hon. the Minister of Public Works up to noon of Monday, the 13th of June, 1910, for the erection and completion of a Lock-up, with Courtroom and officer's quarters, at Stewart, Portland, Canal, B. C.

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 23rd day of May, 1910, at the offices of the Government Agent Prince Rupert; of the Chief Constable, Stewart Portland Canal; and at the Public Works Department, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of $1,500, which shall be forfeited if the party tendering decline to enter unto contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily

Two Rest Days a Week.

The Curtis Publishing company of Philadelphia is trying an interesting experiment. It has decided not to run its establishment on Saturday, and of course it will be closed on Sunday. The employees will work the same number of hours during each week, increasing the hours on the other days of the week. The rate per day is unchanged. The employees think that two days rest in succession would be much better than one, and they are ready to try the experiment of longer hours on the working days. The plan seems a reasonable one, for after all nine and a half hours of work is not an unreasonably long time. In a large city there can be no special advantage in short hours. In a place like Victoria there is such an advantage, for men can easily get out of town, or if they have homes of their own, with gardens, they can engage in very interesting and profitable work for themselves. Even here it is an open question if men would not prefer to work five days a week for nine and a half hours daily rather then six than six for eight hours daily. The only serious difficulty in such an arrangement is that it would be impossible to make it universal.

LAND PURCHASE NOTICE

Skeena Land District—District of Coast.
Take notice that Ellen Dobson of Vancouver, B. C. occupation Widow, intends to apply for permission to purchase the following described lands:-
Commencing at a post planted on the east side of Prescott Island, at the S. E. corner of lot 7280 and marked Ellen Dobson's N. CHARITY or BUSINESS — Which?

THE germ of both Life and Fire Insurance had its rise in the custom of taking up a collection for the stricken family. We all chipped in in the hope and expectation that if we were snuffed out by either sickness or accident, the neighbors would do as much for us. Life insurance avoids the uncertainty of leaving things to neighbors. It is a business plan, founded on laws of mathematics and sound economy, to provide for those dependent on us in case of death.

Life insurance is no longer a charity, or quasialtruism, any more than fire insurance is. Life insurance is a duty and a privilege. To eliminate the distressing results of death, through insurance, payable to business partners, wife, or children, seems but common prudence.

Lord Nelson in his will left his wife and daughter "to the tender care of the British Nation, to which I have given my life." And the wife and daughter—gravitated to the Poor House; for what is everybody's business is nobody's business.

Don't leave your loved ones to the care of the public or the neighbors. The neighbors may have troubles of their own.

Cut out the risk and worry by insuring in the

NO DERBY BETS CABLED

WOULD BE CONTRAVENTION OF MILLER ACT.

Almost Useless Trying To Make Bets When One Cannot Obtain Odds Offered In London—Great Race Is To-morrow.

Winnipeg, May 26.—Next Wednesday the Epsom Derby is run. It is a great annual sporting event, followed all over the world with the keenest interest, and nowhere more so than in Western Canada. Its prospects are canvassed for months before the race is run and that by thousands who never had a dollar on the race.

In England there are regular quotations, the Derby book opening in the winter, and prices fluctuating right up to the fall of the flag. From time to time, as interest warranted, this Derby betting has been secured by Winnipeg and Western Canadian papers through the Canadian Associated Press, which supplies direct cable service from London. Today, however, in reply to a request for the Derby betting, the Canadian Associated Press wired as follows: "Sorry, but we cannot transmit betting information any more. Contrary to Miller Act."

WILL BUILD A WHARF.

On The Site Of The Electric Light Plant in Short Time.

Mayor Stork reported to the council that he and Ald. Pattullo had gone out to the water frontand looked at the proposed site for the wharf for landing the electric light plant which had been ordered and will be along almost anytime now. They were well pleased with the site and thought something should be done at once to get that property from the government..

He suggested that the engineer be authorized to prepare a sketch of the property and send it on to the government. This was adopted, provided the electric light company had taken no such steps yet.

Ald. Barrow said in connection with the site for the electric plant there were several plans in possession of the G. T. P. which the city should have access to. He suggested that the engineer be asked to make a list of these plans and confer with the G.T .P.,and secure the necessary authority. This idea was adopted by motion.

RUPERT TO HAVE A FAIR

MAY BE PLANNED FOR SIR WILFRID TO OPEN.

Board of Trade Enthusiastic on Subject of an Exibition of the Mineral and Agricultural Resources of District Tributary to City.

Among the several interesting and important questions that came before the board of trade council last night was that of holding a big fair this summer or in the early autumn, and showing to visitors in this way the immense mineral and agricultural resources of the country tributary to Prince Rupert at the present time, when we are relying altogether on water transportation. The subject was no sooner introduced than several members were eager to speak in its support.

It was brought forward by the new president, A. J. Morris, who said the same subject had been before the board last year but the holding of an exhibition then was abandoned because it was felt that they had started the project too late. If preparations for such an affair were started now there would be plenty of time to arrange for an exibition that would be a credit to the city.

H. H. Clarke thought it would be an excellent idea and the sooner they went to work at it the better. The wide advertising of such a fair would bring visitors from all parts, many of whom would probably never think of coming were not some such special occassion presented.

President Morris observed that his idea was that the main object of such an enterprise would not a be a money making affair but simply to advertise the city and what she already possesses in the way of resources. It would bring about a fine collection of samples or ores and minerals generally which should afterwards be made a permanent exibition. There was a great deal of interest manifested by mining men in Canada and the States in the discoveries made in the districts tributary to Prince Rupert, and to see such a collection of samples mining men would come a long way.

J. C. Halsey suggested that it might be a good idea to time the proposed fair, so that it might be opened by Sir Wilfrid Laurier during his visit here. This met with immediate approval and further enthusiastic suggestions were made by J. A. Kirkpatrick, H. H. Clarke, R. G. Stewart, A. E. McMaster, Victor Wilson, L. W. Patmore and others. The President proposed that the matter be referred to the fisheries, lumber, and mining committees, with power to add to their number, but it was held that for a subject of such importance there should be a special committee appointed and this was carried nem. con. It was also understood that the men who had worked so hard and collected so much information when the matter was last discussed be invited to be members of this special committee.

POWER PLANTS NEXT.

Question Fully Discussed By The Board of Trade Council.

Mr. Law drew the attention of the board of trade council last night to the urgent need of providing power for sale if it was hoped to get factories to be established here, as the first things that investors in this line would enquire into was the supply of cheap power and then a water supply. No doubt the city council could offer some inducement in regard to water, but as to power that was another thing.

President Morris said there was a company trying to get a charter a short time ago, but he did not know whether it succeeded or not.

Mr. Agnew said there was more than one company in the field, but there was one good company ready to deliver power if it could get proper terms.

The president observed that when in Montreal, he was invited to the offices of a very large company formed for the purpose of generating and selling power This was the Canadian-Mexican Power company. They showed him photographs of a number of places to which they supplied power, both in this country and Mexico, and said they were desirous of coming to Prince Rupert. He had reason to know that the Company still had its eyes in this direction from a letter recently received. He had informed the Company there were several water rights for sale, and that if it meant business here it should first secure the necessary water. The company was one of the largest capitalization in the Dominion.

The committee on trade and commerce was instructed to get into communication with the company at once, and to furnish it with all the information on the subject obtainable.

TO ADVERTISE CITY.

Board of Trade Joins the Two Other Associations.

The board of trade council at its meeting last night approved the contract for advertising the city offered by the Kennedy Advertising company of Seattle. This is a joint arrangement the board of trade, the Real Estate association, and the Publicity Club sharing in the cost.

The Kennedy Company offers to furnish five thousand copies of an illustrated folder, giving points along the coast, transportation lines, townsites and general descriptive matter for the sum of $2000, and will further furnish thirty-five thousand copies for $3000 morb- Of the $2000 contracted for the board is to pay $500. the real estate association $1000. and the Publicity Club $500.

H. H. Clarke moved that the agreement be approved, subject to an assurance from the company that the folder be copyrighted, and the motion carried.

The president said that in regard to the $100. per month the board had decided at the last meeting to spend in advertising, he thought the board had better place it in the hands of its advertising committee with instructions to go ahead and also with power to get more money for the purpose if they can. It was so ordered.

Cider vinegar, which poses in the stores as "apple vinegar," is the best for all salads. It should be clear and very pale in color.
