AN EDITOR'S CRASS IGNORANCE

False Statements Made and Reflections Cast.

Editor of Empire Out With the Hammer—Aldermen Resent the Attack—Ignorance was the Cause of it all—Mayor Stork is Sorry.

A sensation was sprung on the council on Saturday night when Ald. Pattullo drew attention to an editorial published in the Empire which he very strongly objected to and stated that the writer was guilty of crass ignorance. The article was on the telephone question and cast slurs and insinuations upon the council and particularly upon some of the council. It criticised the action of the council on the manner the telephone question was being handled and made statements contrary to the fact. Ald. Pattullo was the one who brought the article to the attention of the mayor and aldermen. He did so by first reading aloud the statements and then said in part the following:—

"It is very unfair and malicious and I do not know why the newspaper, pretending to place facts before the people, could be so crassly ignorant, for that article displays nothing but ignorance. Some of the statements are also a reflection upon some members of this council." Ald. Pattullo for one resented them and did not hesitate in saying so. He said that some time ago he took this telephone question up with the editor of the Empire and during that conversation he found that the editor was ignorant of the whole matter. He is the same yet, and judging from the tone of his writings he is even more so. The alderman intimated also that he knew

some of the reasons why that newspaper had assumed the attitude it had and he for one was prepared to fight the thing. He considered it, however, a newspaper which wilfully deviated to the end of its tether and he believed it would be so in this case.

It was most lamentable that a paper should publish such articles.

Mayor Stork expressed sorrow at the article thus referred to. Ald. Mobley thought there must be some misunderstanding as all the papers in their news columns had published the facts and how such stuff as referred to could be presented he did not understand.

Ald. Lynch also criticized the article. He thought that if the editor had a little more knowledge on the subject it would be better for all concerned.

Ald. Pattullo then asked the city solicitor if there was any other way to handle the telephone question than by a petition from the people.

The solicitor replied most emphatically in the negative. The council cannot act at least unless ten per cent of the property owners request them to do so by petition.

That settles the matter. It is fairly up to the people, as has been stated in these columns on several occasions. If the people want a municipal telephone they will have to sign a petition. If they want a private corporation to own and operate the telephone then leave the petition alone. The thing is plain enough and there is no excuse for any misunderstanding. Petitions may be found in the city hall, at McCaffery & Gibbons office at Lynch Bros store and President Morris of the Board of Trade will be around to see those who have not signed and are unable to find one of the other lists.

HOMING BIRD IS CAPTURED

GOT TIRED AND HUNGRY NEAR BABINE LAKE

Had Tag on Leg with Initials of Owner and Number of Cote.—Flew Southward after its Mate When Released.

(Special to Optimist.)
Hazelton, B. C., June 25.—The "Interior News", published at Aldermere, in this morning's issue, publishes the following:
"This paper received by to-day's mail, the following message from J. Mac Kendrick at Babine Lake, June 15th. Today there landed here two carrier pigeons. They seemed very tired and were exceptionally hungry. On one leg of each bird was noticed a small aluminum ring. By means of some grain we captured one, but the other at once flew away in a southerly direction. Inscribed on the ring of the captured bird was engraved V. H. C. 957:- 1907. On the bird being released it at once started off in the direction of its mate.—W. Wrathall."

Charlton is Insane

New York, June 27.—(Special)—Alienist Arlitz, after a two hours examination of Charlton, held for the murder of his wife at Como, Italy, has delivered the opinion that the man is undoubtedly insane.

FIERCE FIGHT WITH ROBBERS

TRAIN HANDS MADE A DESPERATE RESISTANCE

Overcame the Crew, Robbed all the Passengers and got away with all the Cash Contained in Wells-Fargo Safe.

(Special to the Optimist)
Salt Lake City, June 27.—A fierce fight took place on a train on the Oregon Short Line this morning, between three masked robbers and the crew of the train. One of the robbers was a passenger on the train and donning a mask on the rear platform crept over the tender and holding a revolver to the head of the engineer commanded him to stop. When this was done two other masked robbers jumped aboard and presented their revolvers. Among the crew were only two revolvers and these were soon emptied. But they put up a desperate fight with the robbers for a short time, when they were shut up in the baggage car with one man as guard.

The other two robbers "went through" the passengers, taking all the valuables with only one man on guard over the passengers the other blew open the Wells Fargo safe and took all the cash. Then he blew a whistle and the three jumped off.

The hold-up took place at two o'clock this morning, six miles north of Oregon.

G. C. Edridge of S. Harrison & Co., has gone up to the mining town.

STEWART MAY BE AMONG THE LOST

PARTY OF PROSPECTORS PERHAPS SWEEP AWAY

Founder of Stewart, City One of Party of Seven Reported Missing Since Terrific Storm Swept over Cook Inlet.

(Special to the Optimist)
Seward, Alaska, June 27.—It is reported here that seven men were lost in the recent heavy storm, and that F. R. Stewart, the founder of Stewart City, is among the missing. A most terrific storm was raging along the coast and sweeping over Cook Inlet from Friday morning until yesterday, and the party of seven had left here to prospect along the coast. It was at first thought possible they might have taken refuge at Fire Island, but a rescue party touched there and reports that so far the search has been of no avail. The only hope now is that they may have been picked up by some passing vessel, but there is little ground to base this upon.

LEADERS OF LEAGUE

Spokane and Vancouver have come To be Top-Notchers.

(Special to the Optimist)
Vancouver, June 27.—The games yesterday ended in Vancouver 2, Tacoma nil. Eleven innings were played and Breen was seen at his best in a triple play. Seattle beat Spokane by a score of one to nothing. In Saturday's games the scores were:- Vancouver nil, Tacoma 3, Spokane 4, Seattle 1.
Spokane plays Vancouver today. The two are now the leaders of the league, with Vancouver one game behind Spokane.

BIG STEAMER ON FIRE

Had One Thousand Passengers Aboard at Time of Explosion.

(Special to the Optimist)
Lacrosse, Wis. June 27.—The large excursion steamer "J. S.", with one thousand passengers aboard on a Sunday excursion, blew out a cylinder head and caught fire on the Wisconsin river. The captain immediately beached his vessel on an island and threw out a gangplank for the passengers to land. In the meantime, however, many women had thrown their children into the water and had jumped in after them. They were rescued with difficulty. No lines were lost but the vessel burned to the water's edge.

Cannery Destroyed

Vancouver, June 27.—(Special)—The Eagle cannery, near Point Atkinson, was totally destroyed by fire last night.

ODDS BEING LAID ON JEFFRIES

Colored Man's Superstition the Alleged Cause.

Governor Assures Rickard Big Fight Will not be Interfered with—Langford-Ketchell Go Will Take Place in Morning.

Reno, June 27.—The betting is now ten to six on Jeffries. The evident trepidation into which the superstitious colored man was thrown by being stalled in Tunnel Thirteen, on his way here, having had its reflex action.

Another assurance has been received from Governor Dickerson that no interference with the fight will be made by the state authorities and the building of the arena is therefore being rushed to completion.

The site of the huge building is a rocky field in East Reno, about a mile and a half from the heart of the city. It is familiar in ring history as the scene of the

Hart and Root contest on July 4th 1906. On the one side it is flanked by the tracks of the Southern Pacific railway, which is putting in a large passenger platform for the occasion, and the other by a trolley line from the city.

Tex Rickard is building the arena with some idea of permanency. The building is about 300 feet square, modelled along the lines of the structure begun in San Francisco for the big fight. No change will be made in the original plan of seats.

Jack Johnson whose manager, Tom Flanagan, looked over several sites, finally settled on a roadhouse three miles southwest of Reno, known as Rick's resort, and his training quarters are settled there. Jeffries is stationed at Maona Springs, three miles south of Reno.

A double fight will be Reno's offering for July 4th, the Langford-Ketchell fight taking place in the new arena in the morning and the big battle in the afternoon. Reno is already filling up with sports. Over one hundred newspaper correspondents came in Saturday and yesterday.

METLAKATLA WAS INVADED

STR. CHIEFTAIN TOOK FULL LIST OF PASSENGERS.

Excursion Yesterday was well Patronized—Rupert People Delighted with the Place and would like to Secure Lots there.

About a hundred people took in the excursion yesterday to the pretty Indian village across the harbor and among the islands. The Str. Chieftain left the G. T. P. wharf at 1:30 p.m. and made a good trip to Metlakatla. The passengers went ashore and walked about the gravel paths, the green grass and the beautiful flower gardens that are now in full bloom. The berry bushes and small fruit trees are showing great promise of a bountiful crop while the rose bushes are filled with buds that are well advanced. Metlakatla is a natural beauty spot.

It is milder than Prince Rupert, which is caused by the Japan currents in the Pacific running up from the Queen Charlotte islands. The weather is also more favorable and the village site is an ideal one for residential purposes. For nearly two miles straight ahead could be built at small expense a beautiful boulevard and driveway with a row of residences on the opposite side. The soil is almost perfect for growing flowers of all kinds, small fruits, vegetables and garden grass. The day is not far distant when Metlakatla will be a source of negotiations between Prince Rupert and the Dominion Government, is the prediction of many who have visited the village.

The Chieftain remained at the wharf for a couple of hours and returned to Prince Rupert, with nearly all the passengers carrying a bouquet of flowers.

The Princess Royal arrived from Vancouver, with a number of mining engineers and operators bound for Stewart. Among them were A. D. Tennant, director of the Red Cliff, G. Alvensleben, and Cecil M. Rryant.

The Inlander got through the Kitselas cañon this morning and reports good steamboat water. The captain wires that it looks as though the high water was over for the season.

WATER RECORD TO BE GRANTED

MAYOR STORK HAS CONFIDENCE IN CITY'S APPLICATION

Deputation was Received by a Committee which will Report to Cabinet—Decision is Expected this Week after the Cabinet Meeting.

Mayor Stork, Ald. Barrow, City Solicitor Manson, and Engineer Agnew arrived home Saturday afternoon on the Beatrice after spending a week or ten days at Victoria and Vancouver. They went down in connection with the hearing of the city's application for a water record, Mayor Stork reported to the council on Saturday night that the deputation was met by a committee of the cabinet and treated in a courteous manner. Those present were Attorney-General Bowser and Provincial Secretary Young. The Mayor was well pleased with the reception and although no decision was given, and will not be until a full meeting of the cabinet is held, he believed that the city's water record would be granted. A cabinet meeting will be held this week and the decision is expected before July 1st.

When seen by the Optimist this morning the mayor said that there was nothing else to report. Asked if the deputation did anything about the several pieces of property the city requires from the government, the mayor replied that they merely presented a memoranda to the ministers who will bring it before the cabinet.

While in Vancouver the deputation were able to secure copies of some four by-laws from that city and these will be used in framing the Prince Rupert by-laws.

Along the waterfront near where Peter Black lands his coal is a barge of lumber bottom side up. It was towed there from the Georgetown mills by the tug McCullough, and contains some forty or fifty thousand feet of building timber consigned to the Sash and Door company.

J. Von Alvensleben a real estate man from Vancouver, is in the city and will return tonight to the south.

CANADA PROSPEROUS

Not Affected By Depression in United States

Vancouver, June 22.—Thomas C. Irving, general manager of the Bradstreet agencies for Western Canada, is in Vancouver on business connected with the agency here. Mr. Irving's position is such as to give him an opportunity to learn the financial changes of the country as rapidly as they occur, and speaking of the situation, particularly of the western portion, he is, to say the least, optimistic.

"While there is growing stringency at the present time in financial circles in the United States," he said, "Canada is enjoying an easy money market. This may be accounted for partially through the fact that millions of dollars are coming here from the States monthly, being brought by the great tide of immigrants seeking homes and investment. They are an energetic, thrifty, intelligent, desirable class of people and readily realize the great opportunities afforded here to acquire rich lands and business properties which will soon double the investments made.

"It does not require great foresight to predict the future of this western country," he continued, "its great lumber forests packed up by the most fertile agricultural and horticultural sections can find but one definition—stride forward.

"Financial conditions in Canada were never better. At the present time our credit, both in Britain and the States is without limit. There is the strongest evidence supporting this conclusion, particularly in railroad construction, for which British capital can be had in almost any quantity.

"This will prove a most prosperous year in railroad development and the building of new lines all over the west. Branch lines are now reaching out in all directions and none too rapidly to meet the increasing demands for transportation facilities."

TELEPHONE PETITION.

Municipal ownership has long been fought for by the Optimist. The telephone system was one of the main utilities this paper advocated for municipal ownership. The citizens or at least a number of them, joined hands with the Optimist in preserving this plum for the people, and shutting out the B. C. Telephone Co., or any other corporation. The time has now come for all the people to show their colors. Are you for municipal ownership, or are you not? Your answer will be known by your action. Sign the petition and say nothing. The council must have a petition because the law says so. The petition must come from the people, unsolicited by the council, because the law says so. When the law of the province "says so" there is nothing else to it. Any individual or any newspaper which argues, or pretends to believe, otherwise, is guilty of gross ignorance, or of malice. The first named arouses pity, the second, contempt.

There is only one way to secure a municipally operated and owned telephone system and that is by petitioning the City Council to take over the assets and liabilities of the company which has been at work for some weeks past. To complete the work and have the system installed and working will not take much longer. The council has its hands tied. It is up to the people to untie them. The only alternative is to grant a franchise to a private corporation.

ANOTHER NEW STEAMER HERE

BOSCOWITZ VESSEL CONSTRUCTED FOR THIS TRADE

Venture got in Saturday After Her Long Trip Around the Cape from the Famous Shipbuilding Yards on the Clyde, Scotland.

Captain Goulding received a warm welcome back when he put into port Saturday in command of the new Boscowitz steamer Venture. For the captain is an old favorite, although so young-looking a man for his varied deep sea experiences. He has been with the Boscowitz company for eighteen years, and was captain of the St Denis before Prince Rupert was and up to lately. He was smiling over this in an chat in his cosy cabin yesterday, and of those old times he said:

"It is hard to make an old coastwise navigator believe there is such a deep water and well protected harbor as this is anywhere along the coast. Many's the time I've gone past here and never suspected it. When we came up this way we always kept close to the Kinnahan Islands, as we thought this bay was full of rocks and extremely dangerous."

Clarence Arthur, who was chief engineer on the St Denis, holds the same position on the new boat. He was specially commissioned to go to the old Kirkpatrick shipyards on the Clyde and superintend the construction of the engines for the new boat, and that he succeeded thoroughly can be attested by any of the passengers who came up Saturday, for they all declare there was not the slightest vibration of the new boat, but that it moved so smoothly they could only tell when they were going by looking out of the window.

The Venture had about thirty passengers and only about half a cargo of freight, it being thought wise not to load the boat heavily on her first trip. But she handled about three hundred steeage passengers on her way up. Among these were a bunch of two hundred Indians from Alert Nay for the canneries on Rivers Inlet. The captain is immensely pleased with the new boat. He says she handles herself as easily as a yacht, and has the speed.

It is pleasant to record that there has been a great change in steamboating in these northern waters since the early days to which Captain Goulding refers. When the great stampede first drew attention to this northern country the

steamer boneyards all along the coast were ramsacked for any old hulk that could be made to float because it was believed there was no permanency in the business. Now, everybody has faith in the permanency of Prince Rupert, and the Venture is the second steamer within the last two weeks we have been called upon to welcome, both built at large expense and brought all around the cape, for this particular trade.

The new steamer named after the Venture which was lost by fire on the Skeena, is about the same length as the Vadso with four feet more beam. Passenger accommodation is provided for 56 saloon passengers and many steeage. The dining saloon will seat 50 and every modern convenience is provided. The vessel has been constructed with bulkheads and double bottom.

Her engines with twin screws will give an average speed of twelve knots. The first class accommodation is contained in a deckhouse on the awning deck and has 28 staterooms, each with double lower and single upper berth, folding lavatories and upholstered settees.

The after end of the saloon contains the ladies' sitting room and has large lookout windows at the stern. The forward end of the saloon is a general lounge, and also has observation windows. The dining saloon is on the main deck, right aft, and has seating accommodation for 50 people.

The smoking room and bar are right aft on the boat deck and are reached by a companion way from the main saloon. On this deck also are the captain's and officers' rooms and above these the chart and wheel house and flying bridge.

The between decks are fitted with 140 berths for steeage passengers which are portable, so that this space can when necessity arises, be used for cargo.

Below the main deck are the cargo holds, which are two in number, the main forward hold having a large capacity. An unique feature of the after hold is that the double bottom tank tops are level with the tips or the tunnels which are below for this purpose, and by this means give an unbroken space for carriage of cargo. The ship is provided throughout with double bottom and watertight bulkheads and is of modern construction in every particular. She is fitted with the latest type of quick cargo hoists and has a special derrick for handling lifts up to fifteen tons.

CUSHIONS FOR ALDERMEN

Chairs are too Hard and Sessions too Long

Nightly sessions, long hours, and hard chairs has had a bad effect on the aldermen in one way and another. During the past week an order was placed with a local furniture firm to have cushions made for each of the chairs used by the aldermen, the mayor, city clerk and city solicitor. Whether or not any were ordered for the chairs occupied by the press is not known, but if not the aldermen are requested to take into consideration the hardness of the reporters' chairs. They are also reminded that the press is suffering from the same trouble as themselves. A cushion and an arm chair would be appreciated.

NEW MINISTER

In Methodist Church made a Favorable Impression

Rev. Chas. R. Sing preached his first sermon in the Prince Rupert Methodist church yesterday and there was a large attendance of the congregation. The new pastor made a very favorable impression by two splendid sermons. At night he preached from the text "And each man helped his neighbor." The chief feature of the address was work. He pointed out the necessity of work and how everyone in Prince Rupert must work and also help his neighbor. That is the only road to success.

POLICE COURT.

Frank Lark was brought down from Kitselas on Saturday to appear before Judge Young for election. He was committed for trial in Kitselas on a charge of having hit a man over the head with a pitch fork.

Blanche Hart was in the police court Saturday charged with being drunk and disorderly. She was fined \$10 and \$2 costs. She settled.

A number of Indian sailors deserted their ship at Port Simpson on Saturday. The provincial police got busy and the deserters are at work again.

Frank Plant appeared before Judge Young this morning and elected for a speedy trial. It will come at the next sitting of the county court which is set for July 11th.

PERSONAL

V. F. G. Gamble and A. T. Saunders of Stewart, are in the city for a few days. Mr. Saunders has opened a barrister's office in the northern town.

City Clerk Woods received word last week from Rev. C. F. Connor, former pastor of the Methodist church here, stating that a young son had arrived at their house on June 17th. The many friends in Prince Rupert will extend congratulations to Mr. and Mrs. Connor.

**DOMINION DAY CELEBRATION
TURNED DOWN**

Council Refuses to Grant Financial Assistance—City Needs the Money—Other Civic Business Considered—Cows Running at Large.

The City Council this year are not in a frame of mind to assist any organizations with entertainments, celebrations and such things. The Publicity Club was turned down a few nights ago and last night the First of July demonstration committee requesting assistance for the celebration on Dominion Day was turned down, although those interested will have the moral support and sympathy of the council and the individual aldermen and the mayor will contribute to the parade. The grounds taken for refusing to grant that as the celebration was one of patriotism it should be undertaken by the citizens themselves.

Those present were Mayor Stork, Ald. McIntyre, Mobley, Hilditch, Pattullo, Naden, Barrow.

The minutes of the last meeting were read and adopted. A communication was read from Mrs. A. Helman complaining about the cows roaming at large and destroying her flower gardens, etc.—referred to Health and Relief committee. A petition was received from residents of Ninth avenue asking for water service from Tatlow street—referred to Light and Water committee.

Ald. Mobley reported that as he had been instructed to engage a stenographer for the city, he had engaged one in Toronto by wire and he would be here in a few days.

Dominion Day

Ald. McIntyre reported to the council at the meeting held recently in connection with the First of July celebration that he had been asked to ascertain what financial aid the council would be prepared to give to the matter.

Ald. Pattullo said that as the day was one of patriotism and as subscriptions were being taken up and as the value of the prizes are small and the city has not much money to spare, it would be well not to grant any financial assistance.

This seemed to be the feeling of the council and the mayor said that he believed the individual members would generally support the movement.

The by-law relating to the duties of the clerk and treasurer passed its second reading.

The council then went into committee to the whole to discuss the local improvement by-law, Ald. Naden in the chair.

**ATTRACTIONS IN
THE BIG PARADE**

**COMMITTEE SPARES NO EXPENSE
IN GETTING THE BEST**

Merchants will have Floats and Displays—Beattyossimus, Nadenifunt Dawsonopus and Dunniraffe, Among the 300 Exhibits.

Excellent progress is reported in the work undertaken by the parade committee for the Dominion Day celebration, their efforts to make this feature one of the crowning events of the holiday surely pointing to success. The merchants along with the transfer companies have displayed a becoming patriotic spirit by agreeing to heartily and substantially contribute in the way of floats and displays for a fitting demonstration in the parade. The novel and attractive exhibits promised are certainly new and interesting. While the committee are loath to give more detailed information it has been learned that in the zoological division in particular great expense has been entailed in bringing to Prince Rupert rare specimens from the most remote parts of the world. The Beattyossimus for instance, is an almost extinct specimen, in fact the one to be exhibited in this parade is said to be the only one extant. In competition with Bungling's and Baham and Barley's circus the committee was the successful bidder for this exhibit and are able after tremendous outlay to present it before the people for the first time anywhere on Dominion Day. The Nadenifunt is an extremely interesting and romantic monstrosity, captured in the wilds of Buzzululand, by a committee of the Board of Trade of Prince Rupert. The high jinks by this exhibit will be among the most humorous stunts of the day. To reassure the public we are compelled to mention Dawsonopus. Contrary to the implication of its name, this is a perfectly harmless, subdued variety and the people need have no anxiety in witnessing in an open cage the marvelous antics by this high priced exhibition. The Crippenaroo is a wonderful two legged singing bird with an almost humane voice and intellect, it always comes when called. This variety has never been known to touch the earth, living entirely in midair. The credit of this 1910 discovery is due to adventurous aviators sailing in the north.

The Dunniraffe has been a prize winner wherever shown. This specimen was privately exhibited during the municipal election and carried off the medal with \$100 cash. Many are anxious to observe and catch the fine points of the work of this number if possible.

The Westonovine is as yet untamed. After a few more trials outdoors his comic stunts are expected to be perhaps more peaceful and it is the hope of the committee that they will have sufficiently tamed him to permit his appearance in the parade.

These curious and original sights will surely be the principal objects of interest but it is safe to say many additional monstrosities will be seen. The committee are certainly showing some speed leaving no doubt in the minds of the public as to the successful outcome of their work.

Pedestrians and team owners are warned of the danger of approaching too closely to these exhibits.

Furnished Rooms May Be Rented Profitably.

Just to have "furnished rooms to rent" is no great feat—or novelty. The number of people whose homes are in furnished rooms—"homes within homes"—is very large.

And among the people who live in "one room homes" are an increasing number who like to have things a little better THAN USUAL. They like to have a pleasant room, and they like to have it fitted up DISTINCTIVELY, with taste.

They will cheerfully, eagerly, pay for SOMETHING BETTER in the way of a furnished room. Fix yours up to please the particular tenants, and ADVERTISE ACCORDINGLY, and you'll get back your investment with profit in a very brief time.

Prince Rupert Take Notice

An anti-fly campaign has been inaugurated in Victoria. The house-fly is a pest that ought to be exterminated. The Ladies' Home Journal says that it has been largely driven out of England, because its breeding places have been destroyed. The house-fly breeds in stables, in neglected places where household refuse is thrown, in garbage cans that are left open and not properly cleansed, and so on. Keep such places clean and the house-fly will become to a great extent a thing of the past. Here is a case in which an ounce of prevention is worth several pounds of cure.

Will Double the Output

Mr. William Mackenzie told a Winnipeg reporter that his coal company intended to double the output of the collieries lately sold by the firm of R. Dunsmuir & Sons. The new concern will be a tremendous power in the Pacific Northwest.

Hays Busy Denying Rumors

Vancouver, June 24.—Chas. M. Hays president of the Grand Trunk Pacific arrived here from the north this morning on the Princess Royal. In an interview Mr. Hays declared that he had no negotiations on foot for the purchase of the Hastings mill site, and has so far bought no waterfrontage in Vancouver. He also denies the Winnipeg interview which made him say he would build an hotel here.

Ginger an Intoxicant

It will be illegal hereafter to sell Jamaica ginger to British Columbia Indians, the courts having declared the essence (which contains 9 per cent alcohol) clearly an intoxicant in the view of the law.

THE LAW ON THEFT OF ORE

FOR INFORMATION OF OPERATORS HAVING RICH DEPOSITS

Following is the Text of the Amendment to the Criminal Code Assented to on May 4th—It relates to the Stealing of Ores:—

His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The Criminal Code, chapter 146 of the Revised Statutes, 1906, is amended by inserting the following section immediately after section 424:—

"424a. Everyone is guilty of an indictable offence and liable to two years' imprisonment who, having in his possession, or upon his premises, with his knowledge, any rock, ore, mineral, stone, or quartz of a value of not less than twenty-five cents per pound, or in the case of mica of a value not less than seven cents per pound, or any partly melted, partly treated or partly manufactured gold or silver which there is reasonable ground to suspect has been dealt with contrary to the provisions of paragraph (b) or (c) of section 424, is unable or refuses to account satisfactorily for or prove his right to the possession of the same.

"2. If any proceeding under this section any question arises as to the value of any rock, ore, mineral, stone or quartz, the judge, magistrate, justice or other officer before whom the proceeding is pending may order such assay or assays, test or tests, to be made as may be deemed requisite for determining such value.

"3. No action or prosecution for a violation of this section shall be commenced or undertaken in any part of Canada unless or until an order has been passed by the Governor in Council declaring this section to be in force in such part of Canada. Any such order may be amended, revoked or renewed from time to time in whole or in part by any subsequent order in council.

"4. No prosecution shall be had under this section unless it had been initiated on the information or complaint of a manager or director of a mining company or on the information or complaint of some one thereunto authorized by a mining company or a manager or director thereof, or by or with the authority of the attorney-general of the province in which the offence is alleged to have been committed, or by the owner or part owner of a mine who deposes under oath that he believes that rock, ore, or other

substance similar to some of those mentioned in this section has been stolen or wrongfully taken from the mine."
