LAURIER SPEAKS AT WINNIPEG

Traveled Over Grand Trunk From Fort William

Eight Thousand Crowd Horse Show Building and Applaud Eloquence—Always Prided Himself on Policy Toward Western Provinces.

(Special to the Optimist)

Winnipeg, July 12.—(Delayed in transmission)—Sir Wilfrid Laurier arrived here this morning and was welcomed by thousands. The occasion was a double fete, Sir Wilfrid and his party traveling on the first passenger train over the Grand Trunk Pacific from Fort William. The Premier appeared to be in excellent health and chatted gaily at his hotel with many personal acquaintances. It was a continuous reception, in fact, for all the time he was in the hotel.

In the afternoon he was escorted around the city and noted with expressions of pleased surprise its growth and prosperity. He spoke of the coming world's fair in his conversation with the mayor and other officials, and said he had no doubt of its success as the hustling men of the west were of a character to command success in all their undertakings.

The revised figures for the elections were handed to nim. These show the return of fourteen Liberals and twenty-seven Conservatives. Sir Wilfrid declined to express any opinion upon the result, smilingly observing that he desired to hear as little as possible of politics upon this western vacation he was taking. He had quite enough of politics at Ottawa.

CONTINUED ON PAGE 5

DON'T HAVE TO PRAY

Here Beneficent Rains Fall Alike Upon the Just and the Unjust

Minneapolis, Minn., July 12.—It is feared today that unless rain falls within the next 72 hours crops in Minnesota and the Dakotas will be damaged to the extent of hundreds of thousands of dollars. In practically every Minneapolis church prayers for rain were offered last night, and similar services were held in other Minnesota cities.

Tacoma Beats Vancouver

Vancouver, July 14.—(Special)—The baseball games of Tuesday and yesterday resulted as follows:

Vancouver one, Tacoma five.
Spokane eleven, Seattle seven.

Vancouver 5, Tacoma 7.
Seattle 4, Spokane 1.

FATAL WRECKS ON RAILROADS

Five Killed and Over One Hundred Injured.

Excursions of Orangemen Crashed Into Construction Train—Interurban Car Smashed By Express Train--Engine Plunges into Canyon

(Special to the Optimist)

Salina, Kas., July 14.—A Southern Pacific special was yesterday wrecked in the mountain somewhere near Metz. The train was passing over the reverse loop at probably a higher speed than the curve warranted, when the engine left the track and plunged into the canyon. The engineer and his assistant were both caught under the engine and killed. Only one of the coaches went over the precipice and its fifteen occupants were all seriously hurt.

Flint, Mich., July 14.—A crowded excursion car bound for the Orange demonstration at Windsor, crashed into a work train near here and was smashed into atoms. One passenger was killed, six were fatally and forty others injured.

Butler, Pa., July 14.—An explosion occurred at the Standard Plate Glass worksyes terday, destroying about one half of the buildings. One man was killed and seventeen were badly injured.

Detroit, July 14.—While a crowded interurban car was crossing the railway tracks at Wilkes an express train came up and crashed into it. One horribly mutilated body was found under the wreck and forty injured have been sent to the hospitals.

BIG AIRSHIP TO CROSS ATLANTIC

DIRIGIBLE BALLOON TO BE A THOUSAND FEET LONG

Now Being Constructed in London—Pioneer of Aerial Fleet Each Capable of Carrying Thirty-Eight Tons Seventy-Two Hours.

London, July 12. — A trip from England to America by airship will be possible next year, and according to Baron Roenne, a Russian and the designer of the craft, which is being built specially for transatlantic travel, the craft will negotiate the distance in seventy-two hours.

The new vessel is at present being constructed about ten miles outside of London, and a group of English financiers are back of the proposition.

The craft will be capable of carrying thirty-eight tons with its own weight. It is to be one thousand feet in length, sixty-five feet in diameter, and will be driven by sixteen propellers.

It is to be a rigid dirigible with an outer cover of an alloy called chronium, the surface of which is to be so prepared as to resemble a mirror.

This is to be the pioneer of a fleet of such British airships. Influential men are considering the formation of a company to promote the building of an aerial navy and the establishment of a passenger and mail service.

Baron Roenne has mapped out routes and charts, and he has drawn up rough time tables for the mail and passenger service.

FAST TRIP TO DAWSON.

Millionaire Schiff Visiting the Guggenheim Placer Properties.

Dawson, Y. T., July 10.—Jacob Schiff, the New York financier, and party, coming north on the steamer Ramona, will take the train at Skagway and reach White Horse tomorrow and catch the steamer Selkirk, leaving White Horse for Dawson.

Eighteen staterooms have been reserved on the Selkirk and ten on the lower river packet Sarah, which sails from here the 9th for St Michael. Ramona reservations are made through the Yukon Gold Company, owned by the Guggenheims, for one entire floor of the Regina hotel.

Yukon Gold Company men are preparing to show the party over the Klondike creeks.

LONDON HORRIFIED OVER INFAMOUS CRIME

Body of Noted Singer Suddenly Comes to Light.

Her American Husband Charged With Murder Makes His Escape—Leading Detectives of Europe and America Hunting for Him.

(Special to the Optimist)

London, July 14.—Not since the infamous Whitechapel murders has London been so aroused and become so worked up as it was yesterday on the discovery of a body, believed to be that of Mrs. Howard Crippen, formerly a noted singer. Mrs. Crippen was lost to sight to her friends and neighbors last February, and upon the disappearance of her husband, who is an American druggist, he was charged with her murder.

The police in the course of their investigation into the mystrey, yesterday discovered two bodies in the dark cellers of an old house at Islington, which had been occupied by Crippen up to the time of his disappearance.

Beneath the cement floor the Islington police came upon a body believed to be that of Mrs. Crippen. Decomposition had set in and the authorities were not able positively to establish identification. Nothing has been discovered as to the other body except it is that of a woman.

Scores of detectives have been detailed on the case and the police of Europe and of all the leading American cities have been requested to arrest Crippen on sight. This action leads to the belief that there is definite information in the possession of the police that Crippen did murder his wife and probably the other woman whose body was found on his premises.

WOMEN WIN SECOND ROUND

SUFFRAGETTE BILL OBTAINS A LARGE MAJORITY

Passed Second Reading With Over Hundred Votes to Spare—Russo-Japan Treaty as to Manchuria Bound to Start Big Rumpus.

(Special to the Optimist)

London, July 14.—The galleries of the house of commons were crowded with women last night, as it was known the Women Suffrage bill would again come up for discussion. There was a long and at times acrid debate upon the leading features of the bill, the premier concisely showing that if women were given votes it must inevitably follow that they would have seats in parliament, and, as they largely outnumbered the male population of the British Isles, the government of the empire must in time come under their complete control.

The vote upon the second reading of the bill was something of a surprise, there being two hundred and ninety-nine for it and but one hundred and ninety against. This was a serious defeat for the government, but it is hoped this result will be changed when the bill comes up for third reading and final passage.

There was a great crowd of suffragettes awaiting outside parliament for the result. They waited quietly and when the vote was announced there were cheers but no disorder.

London, July 14.—The text of the Russo-Japan treaty, which has just been made public, shows that the open door has been shut in Manchuria. England and the United States are likely to make a strong protest. The situation is emphasized by the fact that this morning the British government issued orders to augment the fleet in the Orient by the addition of the battleships Triumph and Swiftwater.

Britain Will Protest

London, July 14.—The British government is to make a strong official protest against the new immigration laws which went into force last May. This is made necessary by the representations of all sorts of organizations and individuals interested in emigration, who claim that the law is too arbitrary and works an injustice that under it Britains are shut out of British territory to which they are entitled to free entry.

SIX HUNDRED ARE DROWNED

TWO LARGE STEAMERS COME INTO COLLISION

Accident Occurred Saturday at the Mouth of the Dneiper, and Official Statement is Now Made of the Number Lost in the Disaster.

(Special to the Optimist)

Odessa, July 14.—An official statement was issued this morning regarding the collision between the steamers Lovki and Wampos at the mouth of the Dneiper It states that the impact was so terrific that one of the boilers of the Lovki exploded, causing the vessel to sink immediately. The accident occurred on Saturday, and the report states that no less than six hundred passengers on the Lovki were drowned.

BLIND PIGS SQUEAL

Were Caught and Now Make Charges Against the Police

A special meeting of the Police commissioners was held this morning for the purpose of discussing a number of charges made by some of the Comox blind pig men against the chief of police and staff. The commissioners believed the charges to be for the most part, of the usual class made by men whose sins have found them out. The blind pigs have been caught and are beginning to squeal. One particular charge will, however, be gone into thoroughly and particulars of it will appear later.

A. FREDRICKSON WAS DROWNED

BOAT CAPSIZED IN RIVER AND MAN WAS CARRIED AWAY

Helping Two Other Men to Take Rails to Their Work—Led Boat Down Stream by a Rope—Boat Turned Sideways and Capsized.

A few days ago the Optimist published a dispatch from A. L. McHugh's camp at mile 145, of the drowning of K. Fredrickson. The full particulars, as sent down by the contractor to Foley, Welch and Stewart, here, are given below:

"Re K. Fredrickson the man who we wired you drowned today. Fredrickson was employed by a station gang here and was taking some rails to their work in a boat together with two other men of the same gang. The water was swift and the men were letting the boat down stream with a line attached to shore. Fredrickson was in the boat while his partners were on shore holding the rope. By an account given by the men, they were proceeding in this manner when the boat turned crosswise of the the river and instantly capsized, throwing Fredrickson into the water. He sank and was not seen again. His body has not yet been receovered.

Paris, July 14.—(Special)—A bill has been introduced in the chamber of deputies having for its object the adoption of Greenwich time in France. It is intended for the special convenience of tourists and will undoubtedly be passed, as is everything tending to cater to the immense tourist trade.

FALL OF FIVE THOUSAND FEET

FIVE INTREPID AERONAUTS ARE DASHED TO PIECES

Were Mangled Beyond Recognition—Prince George of Saxony Makes Successful Trip in the Government Dirigible Parseval With Six People.

(Special to the Optimist)

Cologne, July 14.—Carrying five intrepid aeronauts to their death the new new dirigible Erbsloeh started from Dusseldorf this morning, with Pascheid, the constructor of the balloon, two of his friends after whom the dirigible was named and two mechanics in the basket. When at a height of five thousand feet the gas bag burst by expansion and the five men were dashed to destruction. Their bodies were mangled beyond recognition.

Dresden, July 14.—Prince George of Saxony made a successful trip yesterday in the famous government airship Parseval IV. He had six distinguished passengers and they were all safely landed at Bittersfield.

Compulsory Wireless

London, July 14.—(Special)—The bill making wireless telegraphy compulsory on all British ships carrying passengers has passed its first reading.

Wire for Fort George

Fort George will soon have a telephone service to Blackwater, giving the new town connection with the government Yukon telegraph line.

ANTI-BUZZ

A PERFECT MOSQUITO-DISPELLING MIXTURE

Prevents the biting of mosquitos, black flies, sand flies and all summer pests. A few drops applied to the skin will insure freedom from these troublesome pests for some hours, and those who use it occasionally need have no discomfort from this source.

STATEMENT BY THE POSTMASTER

MIDWEEK BOAT WILL MAKE ALL THE DIFFERENCE

Local Postoffice Well Equipped to Handle Mail Promptly on Arrival —With Grand Trunk Steamers Carrying Mail, All Trouble Ends.

So much has been said in depreciation of the mail service of Prince Rupert that a few facts in that regard cannot fail to be of public interest. The principal ground of complaint is as to the delivery of mail at this port, there being no mail steamer from the south between Monday and Friday evening. This, it is believed will shortly be remedied by the Grand Trunk Pacific boats getting a contract to carry mail. One of these boats, the Prince George, will begin the carrying of mail on her first trip, arriving here on the 24th, and with the Prince Rupert and the Prince George added to the mail carrying fleet much will have been done to remedy the present inadequacy of the service. Also, the Canadian Pacific is putting a new steamer on the Prince Rupert run, so very shortly there will be one or more mail steamers in every day unless they unfortunately bunch up occasionally.

As to the local service Postmaster McIntosh thinks it presents few points to kick at. There are eight clerks employed and whenever a mail boat comes in, no matter at what hour of the day or night, they are on deck and the mail is at once distributed. Of course the wickets have tl be closed during that time that the whole force may be engage distributing. It could not be otherwise. It would be foolish to ask at the wicket for a letter until all that mail has been thrown into the boxes, and the opening up of the wickets is the sign that the distribution is complete.

"There is no ground for the kick that while the wickets are closed a few tourists might want to buy stamps," says Mr. McIntosh. "There is a notice put out that in the interim and at all times stamps can be purchased at Little's, just half a block away. Also, the hotels should apply for a license to furnish their guests with stamps. It costs nothing bu t the tiny trouble of filling up a form of application.

"When a steamer brings in four days of accumulated mail there is an average of eighty-five sacks of it, and this takes some time to distribute. The weekly mail is about 175 sacks in and 150 sacks out.

"In the office there is now good accommodation for the handling of the mail matter. It has been improved and enlarged recently but of course will need further extension to keep pace with Prince Rupert's rapid growth. Last week there was put in a new mail rack, which will accommodate seventy sacks for those many different destinations. The former mail rack had only accommodation for twenty eight sacks. This is now used in the registered letter department. New sorting boxes for local mail have also to be added, and there is much to show that the postoffice department is at last waking up to the fact that Prince Rupert is quite a place, and now on it is likely to accede at once to all reasonable requests for the improvement of the service."

Awakening of China

Nanking, the old capital city of the Chinese Ming dynasty, on the Yangtsze River, is this summer inviting the nations to the inique spectacle of a Chinese world's fair. The exposition opened on June 1 and will remain open for six months. This first "White City" in China will be a creditable imitation, though on a smaller scale, of the well-known expositions of Europe. Nanking has a larger inclosed area than even Peking, the walled circumference being twenty-five miles, says the American Review of Reviews.

The exposition will occupy a space of 500 by 400 yards, and will be situated about half way between the outer wall and the center of the city, near the Sanpailo station of the Nanking City Railroad. The entire enterpirse has been generously conceived on modern lines, both in regard to architectural design and landscape features.

REVENUE WILL BE INCREASED

NADEN WOULD NOT STAND FOR CUTTING LICENSE BY-LAW.

By His Persuasive Powers He Had Practically Every Clause in His By-law Retained Although the Council Cut the Majority of Them

Ald. Naden drew attention of the council last night to the fact that the license by-law which he had introduced had been cut to pieces in his absence and as it stood now he refused to father it. He said that it was not right to his mind to allow practically every business man in the city to go scot free. He asked that the by-law be again taken up and gone over for he thought that a large number of items had been cut off which he thought the aldermen did not really wish struck out. The aldermen were not averse to re-considering the by-law so the council went into committee of the whole and considered the by-law clause by clause.

The road tax of $2 00 will stay on the by-law. All the house holders would be struck off the voters list if it was not in.

In reference to the dog tax it was decided to have the city solicitor put a clause in the by-law providing a fine for the owner of a bitch which runs at large.

The wholesaler will have to pay $25 per six months.

Wholesale and retail or traders will pay $25 per six months.

Retail merchant will pay $10 per six months.

Hawkers and peddlers of fish, fruit, farm produce, not of his own production must pay $10 per six months.

Other hawkers and peddlers not included in the above will pay $50 per six months.

Another clause will be included in the by-law placing a license of $50 every six months for wholesale agents who handle goods spasmodically.

On motion of Mayor Stork the theatre license was raised to the maximum of $200. He said that as about $8000 was cut off by refusing to grant liquor licenses, we have to make up the revenue some other way.

Public wash houses and laundries will pay $5 per every six months.

Rigs for hire will pay $250 per rig per six months.

Livery stables will pay $10 every six months.

The difference between the rare old thing and a respectable new one is sometimes in favor of respectability.

. June 29. Beverly W. Browne, agent.

Furnished Rooms May Be Rented Profitably.

Just to have "furnished rooms to rent" is no great feat—or novelty. The number of people whose homes are in furnished rooms—"homes within homes"—is very large.

And among the people who live in "one room homes" are an increasing number who like to have things a little better THAN USUAL. They like to have a pleasant room, and they like to have it fitted up DISTINCTIVELY, with taste.

They will cheerfully, eagerly, pay for SOMETHING BETTER in the way of a furnished room. Fix yours up to please the particular tenants, and ADVERTISE ACCORDINGLY, and you'll get back your investment with profit in a very brief time.

The Prince Rupert Optimist

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

ADVERTISING RATES are one price to all—25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

SUBSCRIPTION RATES—DAILY, 50c per month, or $5.00 per year, in advance. WEEKLY, $2.00 per year.

DAILY EDITION. UNION LABEL THURSDAY, JULY 14

The Provincial Government has sent in an inspector of fruits, but according to local comment there should also be an inspector of other food stuffs.

The replacing of business licenses in the city by-law is getting away from t single-tax idea. With high rents, short profits, a fifteen mill rate and now a busines tax the merchant is being somewhat harassed with Prince Rupert 's growing tune.

The wireless telegraph service was put in as a supplementary service to the Government Telegraph line but up to date it has been decidedly a failure. Yesterday the telegraph line was down all day and the wireless was dead—for lack of an operator. In the meantime the G. T. P. steamer Prince Rupert was laid up with a damaged engine and the city waited without news of her.

Premier Laurier and party will visit Prince Rupert in about a month. It is time some arrangements were being made for the reception of Canada's greatest son. Heretofore the duty of receiving guests has fallen to the lot of the Prince Rupert Publicity Club or the Board of Trade. The reception to the Premier should be under the auspices of the city council, and it should be as whole-souled and general as the city is capable of making it. Every citizen will be glad to welcome the Premier, irrespective of party alliance.

PORTLAND HAS ANOTHER FIRE

FAMOUS MULTNOMAH CLUB ONE OF BUILDINGS DESTROYED

Number of Handsome Residences And Four Uptown Hotels Burned—Five Men Dead and Six Missing Believed to be Dead.

(Special to the Optimist)

Portland, Ore., July 14.—An immense conflagration somehow broke out in the old buildings last night and cleared them off entirely. There was a strong breeze blowing and the attention of the fire brigade was entirely directed to the preservation of adjoining property. This seemed to be a success but sparks were carried to a distance from the big blaze and the fire jumped three streets, breaking out unexpectedly in the residence portion of the city.

The famous Multnomah club house was one of the first buildings to be destroyed; then followed a number of handsome residences which were either burned down or gutted, and no less than four of the big uptown hotels were completely put out of business.

The suddenness with which the fire spread can be gathered from the fact that two bodies have been found and six other men are missing and believed to be dead also.

The property loss is estimated at half a million.

ONE EFFECT OF OUR RAILROAD

GRAND TRUNK PACIFIC OPENING LAND FOR SETTLERS

"In great measure this record influx is due to increased interest being taken by the transcontinental railways. The appearance of the Grand Trunk Pacific on the scene, opening up a large and fertile new area and offering inducements to settlers to locate, has had the effect of stirring the Canadian authorities, and between them these two huge corporations are working in friendly rivalry to enrich Canada with a quality of population that will prove desirable in the way of citizenship."

The Sunday School of the Church of England held their annual picnic to Metlakatla today going over this morning in a launch.

EXPORT TRADE OF THIS PORT

CHANCE TO SUPPLY AUSTRALIA WITH SKEENA SALMON

Sockeye Grown So Valuable That United States Firms Are Attempting to Gobble All the Trade—Decision Against Them.

Ottawa, July 12.—News has reached the department of trade and commerce from Mr. D. H. Ross, trade commissioner at Melbourne, of a decision by the government of the Commonwealth which is of importance to the salmon packers of British Columbia.

For years past Canadian salmon have beein gaining a footing in Australia, especially what is known as the sockeye salmon. Their reputation was so good that, certain United States companies, operating in Alaskan waters, put up a brand of northern salmon and labelled it "Sockeye." There has been controversy of experts over the question. Dr. Starr Jordan contending on behalf of the United States that the Alaskan sockeye were of the same family as Fraser river sockeye, while Prof. Prince, Canadian superintendent of fisheries, has claimed that the two belong to different fish families. The controversy has been ended so far as the commercial results are concerned by the decision of the Australian government, which is that the term sockeye shall be allowed only to salmon imported from British waters and waters of the Puget sound adjacent there to.

Feeder For this Railway.

Fort George citizens have marked with lively interest the application at Ottawa for approval of the plans of the Pie Pass Railway, which shows the location of a line from Edmonton to Fort George by way of the Peace river lading, up the Peace river to the Pine river, then up the Pine to the headwaters in Pine Pass and over the Rockies to the Fraser river and down to Fort George. The G. T. P. are supposed to be hehind this projected railway which will make Fort George the railway hub of the northern interior.

Mr. McMaster has been advised that the sister ship to the Prince Rupert, the Prince George, arrived at Victoria on Tuesday and that she will be placed in commission as soon as possible after her long journey.

URIER SPEAKS AT WINNIPEG

CONTINUED FROM PAGE 1

innipeg, July 13.—(Delayed)—Eight sand people crowded into the ampitre of the Horse Show building, and y sentence of the premier's able ch was punctuated by applause. began by a reference to the crop re- s and said that their opponents declaring the Liberals claimed to the party of Providence—another e for Providence. They might be that the province had made the by bountiful crops but the governt could at least take credit for iding transportation facilities for e bounteous crops, and what would profit by such crops if such faci- had not been at hand. He switched or a moment to state how he had yed the trip from Fort William over new railway built to assist the farmers pointed out that recent additions transportation facilities had re- d the price of moving the crops to farmer by thirty-seven per cent. he government, he said, had been ged with being unfair to the west- provinces, but if they took the trouble lance carefully over the record they ld find the contrary to be the case. himself had always prided himself n having tried to be fair to these vinces, and his policy all through been one of harmony and conciliaThe past of the Dominion had been ious; its present was glorious. But were merely on the fringe of the tness that was to come. Year by Canada was coming more perently to the front, and would soon the greatest nation of the British pire.

NEW STYLE IN VOGUE

w to Shake Hands According to The Latest Vogue

New York, July 5.—The stoop and high-hand shake of greeting and ewell that has been stamped as the per caper in society for the last e seasons must go. For the future, ou would conform to Newport, Naransett and Tuxedo deportment, you not lean nonchalantly forward and your hand at an altitude that sugts that you intend to nab the tiara of your hostess' hair. You will nd up straight and jab your hand ectly out from the waist line. And is not to be lingering, lackadaisical ndshake either, but a quick grip and hort shake.

The new method has the stamp of apval of Newport. the waist line ndshake is at the Casino, and up in at resort of fashion the high shake s in a few weeks become almost obete.

The new, standup, low down, brisk ethod of greeting was started by Mrs. onard M. Thomas, formerly Miss anche Oelrichs. All the younger set e for it, though some of the dowers and the old beaux effect to beve that it is awkward and another gn of the habit of modern times that eats with impatience the elaborate urtesy affected in past generations.

Insurance Man Here

Mr. Wright. of Vancouver, one of the ading insurance men of the province, ame in on the Prince Rupert this orning and is looking around the town the interests of his companies. He aid to the Optimist that he was greatly mpressed with the appearance of the own and the progress that has been ade. It is the first time he has been ere and he was greatly surprised.

The Prince Rupert Hardware Co. eceived on the Prince Rupert today eight hundred rounds of blank artridges and two barrels of redfire o be used by Jesse James at the Empress Theatre on Saturday night.

There is one advantage about an aviation meet. It cannot be called off on account of wet grounds.

Public Reception

His Worship Mayor Stork will call a public meeting in the near future to take up the matter of a public reception to Sir Wilfrid Laurier upon the occasion of his first visit to Prince Rupert.

Fire Equipment

Fire Chief Neil McInnes requested the Fire and Water committee to purchase nine pair of rubber boots, rubber belts and lanterns for the department. The committee thought well of it and last night secured permission from the council to purchase them.

Narrow Escape

J. G. Watson had two teams drawing lumber up from the planing mills yesterday morning. The team in the lead slipped on the wet pavement and went down on their knees. The wagon started backing up and the second team had to pull up and they too went down. Both wagons backed up and went over the side of the road and dropped about 16 feet to the ground. Fortunately none of the horses were injured.

Sailings.

Cottage City will go south Saturday night.

Camosun is due Friday night.

Princess Beatrice is due here from Vancouver Friday night

The Amur will arrive from Victoria Saturday night

Princess May will leave Saturday night for Stewart.

Princess Royal leaves here Saturday afternoon for Vancouver.

Date June 6th, 1910. Chas. Collyer.
Pub. June 18.

HUNDREDS OF MILLIONS NOW

IMMENSE SUMS INVESTED IN CANADA BY AMERICANS

In Consequence of Uncle Sam's High Tariff Millions Are Being Poured Into the Dominion—Ready for Reciprocity.

Detroit, July 12.—"The investment of United States capital in the Canadian provinces last year exceeded by $60,000,000 the bonded business between Canada and Great Britain," said James Simpson, president of the Board of Education of Toronto, who has been appointed a member of the Dominion Government Commission which will tour the world for a year seeking information to better Canada industrially.

Mr. Simpson is representing the Toronto Star, with a delegation of fifteen city officials, investigating Detroit paving and the Detroit boulevard construction.

"The investment of American capital in Canada last year was $226,000,000," he said. "It is just one indication of what Canada is doing to place herself alongside the leading nations of the world industrially. Our trip around the world is to the same end. We will investigate educational matters primarily, but with a view to bettering the vocational features of our educational system with special regard to the industries of specific provinces.

"In Canada now the government has no direct control over the school system and the provincial schools are away behind other countries in the practical training which they give. It is by special request of the provincial school authorities that this commission has been appointed. There are eight men on the commission and we are given a little more than a year for investigation before making our report.

"The investment of American capital in Canada in past years has been largely in branch factories of the large American corporations, but last year a big increase was due to the Cobablt development. The American money invested in Canada last year is due to the American tariff. Canada has profited largely by the retaliatory duty, but Canada now is ready to tear down the barriers on both sides for free competition. The tendency on both sides seems to be a better trade relation reached by a reduction of duty."

There is nothing like the oil of good temper to keep things from getting into knots and for making them run smoothly.

NOTICE

Proposed Street Improvements

Take notice that the Council of the Municipal Corporation of the City of Prince Rupert intends to make the following local improvements:
A 16-foot plank road on 11th Street between 2nd Ave. and Beach Place; on Beach Place between 11th Street and 10th Street; and on 10th Street between Beach Place and Water Street.
And to assess the final cost thereof upon the property abutting thereon, or to be benefitted thereby, and that a statement and diagram showing the lands proposed to be so especially assessed for the said improvements or work is now filed in the office of the City Clerk, and is open for inspection during office hours.
The estimated cost of the work is $3586.00.
Dated at Prince Rupert this 8th day of July, 1910.
55-61 ERNEST A. WOODS, City Clerk.

GOOD MINE ON FOUR-MILE HILL

DEVELOPMENT WORK NOW UNDER FULL SWING.

Kinman's Bonded Property Shows High Grade In Prospect Shaft—Prospectors Who Are Doing Their Assessment Work on Hill Claims.

With the summer's development work on Fourmile hill now under full swing an immense improvement is being shown on the prospects that had a little work done last year, and some fine ore is being found on claims on which the first assessment is now being worked.

The Herald man went over a part of the hill one day this week and inspected some of the showings. On the Attridge property, under bond to E. L. Kinman, of Vancouver, a prospect shaft is being sunk and the high grade streak of ore is widening with every shot. The vein is about four feet wide with well defined walls.

The claims owned by Jas. Dyer of Rossland and Tom Stevenson are looking well. On one of them, an extension of the Attridge claim, a shaft is being put down. The vein is about the same width as on the latter property and the ore is much the same in appearance. On another claim, on the north side of the hill, they have a good showing of galena ore, but no work has been done beyond surface stripping.

D. L. Purvis is finding fine-looking galena, but hasn't enough work done to indicate the value of the property.

Other prospectors are performing assessment work, Jas. Smith of Rossland among the number. Their claims were not visited but they were reported to be engaged in surface work.

With the exception of the bluffs facing Bulkley valley, the whole hill is covered with earth from two to eight feet deep, and a great deal of work is required in tracing the leads. It is only about fourteen months since the first claim was staked and but little work was done last season, consequently the greater part of the hill is practically untouched.

Fourmile hill lies close to the railway line. From the top of the hill the partially completed grade appears to be not much more than a mile distant. The elevation is from 1200 to 1500 feet above the Bulkley river.—*Omineca Herald.*

No Council Meeting

The council will not meet tonight. The aldermen will all attend the agricultural fair organization meeting, or at least they were asked to.

PORTLAND CANAL RAILWAY WORK

GRANT HAS A TALK OVER PROJECT WITH MR. MANN.

Confident Now That Fifteen Mile Road Will Be in Operation Before Next Fall—Belle of Scotland Coming With Rails.

Vancouver, July 13.—Mr. W. H. Grant, manager of construction of the Portland Canal Short Line Railway now under construction between Stewart and the various mining camps, is at the Hotel Vancouver. He has just returned from Toronto where he has been confering with Mr. Donald D. Mann, the principal promoter of the enterprise. Mr. Grant will leave for the North tonight.

Mr. Grant feels confident that the fifteen-mile railway will be completed before next fall, enabling the various companies to get in supplies for the winter season, thus ensuring mining operations being carried on throughout the winter months. The Belle of Scotland a steamer laden with rails for the Grand Trunk Pacific and the Portland Canal road, is expected to reach Prince Rupert this week. There she will unload a portion of her cargo before proceeding to Stewart. The vessel sailed from Sydney, Cape Breton, several months ago, voyaging via Cape Horn.

A large portion of the equipment for the mineral railway, including two engines, has reached Vancouver. It will be shipped north as soon as a few miles of track shall have been laid.

Mr. Grant arrived at this city on the Prince Rupert this morning and corroborated the above dispatch. He continued his journey to Stewart, where he will remain all summer in active charge of the construction of the road.

PERSONAL

G. A. McNicholl arrived in the city this morning on the Prince Rupert and is arranging to open up his office here.

W. M. German, M. P. for Welland Ont., and Mrs. German, arrived on the Prince Rupert this morning and will spend a couple of days here.

Mr. and Mrs. C. D. Newton have returned from Harrison Springs where they spent a couple of weeks for the benefit of Mr. Newton's health. Mr. Newton states that they had a fine time and that he is feeling much better as a result. Charley also brought back several new stories.

LOST TRYING TO SAVE HIS WIFE

SEATTLE CONTRACTOR DROWNED IN JERVIS INLET.

Were on Pleasure Tour in Launch—Small Boat Caught in Whirlpool By Tide—Parties Now Searching For the Husband's Remains.

(Special to the Optimist)

Vancouver, July 14.—W. S. Wiley, one of the leading contractors of Seattle, and his wife, were drowned Monday in Jervis Inlet, where they had been on a pleasure tour in a launch. Nothing was heard of the occurrence until yesterday when the launch being overdue enquiries were instituted. Itt ranspires that the two had left the launch, and in the small boat had gone up a creek to fish. While they were absorbed in the sport the tide crept up and the boat was caught in a whirlpool caused by the rising tide. It swirled them around and was in a few moments capsized.

Wiley seized his wife and the two were carried down stream. The body of the woman was found washed up on the bank and it is assumed she was carried near there by Mr. Wiley who at the time was exhausted and drowned. Search is now being made for his body; that of Mrs. Wiley was brought here last night and their family in Seattle notified.

Mr. Wiley was head of a firm which is one of the largest of the country in the line of municipal improvements and similar work. It has now nearly completed the immense work of removing Denny Hill and regrading it. The firm also has under way the remaking of the ground used for the World's fair at Portland, Oregon, which embraces the tearing down of a mountain and the filling in of a lake that is eight miles long. Mr. Wiley was a man of about 40, in the full vigor of robust manhood, and took a deep interest in public and church affairs.

Caterpillars Kill Grass

The fine grass plot in front of the Government buildings, the pride of Prince Rupert, is being eaten away by a plague of caterpillers. Thus the pests of civilization and urban worries are all coming to the new city.

The Amateur Contest at the Empress Theatre on Friday night promises to be a hummer.

The person who is between the devil and the deep blue sea is due to give his Satanic majesty some exercise.

"DAVID HARUM" TO-NIGHT.

Bill of Brandon's Players in the Empress Theatre

Brandon's Players made the biggest hit during their stay at the Empress theatre last night in "Cousin Kate." "Kate" and "Polly Primrose" are undoubtedly the parts in which Miss Russell excels. While there were only six in the cast of "Cousin Kate" they succeeded in producing more laughs than any other play by far.

Tonight another big treat is promised, namely 'David Harum,' wilth Carl Caldwell, who followed William H. Crane in in the title role.

The novel 'David Harum' is from the pen of Owen Wister, author of 'The Virginian.' It is a typical rural comedy of York state folks, and the character of 'David Harum' the banker and horse trader is the most homely ever pictured. He is the kind who would rather make ten dollars on a horse trade than one hundred dollars in his bank, but his quiet humor and big generous heart makes him a most loaveable character.

The dramatization has followed the book very closely and it will be given an excellent sceenic production by the Brandons.

Another production which the lovers of melodrama are looking forward to is "Jesse James" on Saturday night, when a drama founded on incidents in the life of the greatest of all outlaws will be given.

"Do unto other people the way they would like to do to you and do it first." "DAVID HARUM"

"RUBEROID" ROOFING

A ROOF THAT WILL NOT LEAK
This is what every builder in Prince Rupert has been looking for.

Red "Ruberoid"

Roofing is absolutely fire resisting. Sold ready to put on. Will outwear the building. The only permanent roofing with a permanent color. High in quality and low in price.

A full stock of "Ruberoid" flooring, roofing and building paper carried by
