PRICE, FIVE CENTS

RAND PRODUCES LIST OF PRICES

Legal Fight Over the Prince Rupert Townsite.

Chief Justice Reserves his Decision—Defence that Agreement left Something to Option of Company and therefore it was No Contract.

(Special to the Optimist)
Vancouver, June 28.—The great damage suit for three millions brought by Moreton Frewen for a breach of agreement as to one thousand lots in Prince Rupert, adjourned from last week, came again before the court yesterday afternoon, but President Hays was not present. It was expected that he would be called to the stand and the attendance at the hearing was therefore large.
Mr. Davis, counsel for the plaintiff, read the testimony given by Frewen, and in his argument thereon hinted that it showed a moral fraud had been perpetrated. The defence of Mr. McPhillips was that the agreement had left some-

thing to be done at the option of the company, and until that was done there could be no contract. He also quoted the evidence of Frewen, showing that the whole arrangement hinged upon the company being able to do certain things, and as it was clearly shown the company had not performed this contingent act there could be no contract.
Mr. C. D. Rand was called to the stand and was forced to give the list of prices of lots at which they were reserved, Mr. Davis pointing out that one point to be determined was whether or not the price was fixed, as this would complete the evidence of the agreement. Frewen, in his evidence, had pointed out that he had bargained to buy before the auction, and not upon what was left after the auction.

Argument was first presented by the defence calling for a nonsuit but the chief justice said both sides had better present all the evidence possible, and then judgment could be reserved upon application. This course was followed and the chief justice finally reserved his decision.

deals with petitions that are received asking for work to be done.

The Finance committee reported recommending the payment of A. Cuthbert \$380 for services as returning officer. The report was adopted and the account was ordered paid.

Ald. Pattullo said the revised city seal, according to the judge's decision had been received. If it was satisfactory he would move that it be accepted and that Messrs. Craig and Potter be each awarded a prize of \$10.

Assessor Wanted

Ald. Lynch considered that the time was near at hand to appoint an assessor for the city. He asked if it was necessary to call for new applications. He added that if the city work was to be done according to a resolution passed some time ago, an assessor would be required pretty soon.

Ald. Mobley said if the frontage tax system was adopted an assessor would be required forthwith.

Ald. Pattullo asked how soon an assessor would be required.

Ald. Lynch replied "in about ten days." The aldermen then moved that applications be advertised for and that the council consider them a week from tonight. Ald. Pattullo seconded the motion and it was carried. Those who have already applied will be notified.

On motion of Ald. Pattullo and Ald. Hilditch the by-law relating to the duties of the city clerk and city treasurer was read a third time and passed and numbered by-law No. 5.

The council then went into committee of the whole and discussed the Local Improvement By-law.

APPEAL TO SHAUGHNESSY

Trainmen Take Action on Award of Conciliation Board

(Special to the Optimist)
Montreal, June 28.—No action was taken by the trainmen's association in regard to the award of the conciliation board beyond apprising the board that the award was not accepted, until this morning. Many plans were proposed and several times a strike has been imminent. But this morning it was decided that a personal appeal be first made to Sir Thomas Shaughnessy direct, and representatives were selected to wait upon and present the case of the men to the popular railway president.

TERRORIZES COURT

Small Man Climbs on Chair and Fells Gigantic Troublemaker

Pittsburg, June 25.—Charles Washington, a seven-foot negro, threatened to clean out a police court during a hearing of some friends who had been arrested. He had court officers and witnesses cowed until Thomas Carroll, who is but five feet and a half, placed a chair behind the negro, climbed upon it and felled him with a black-jack. A squad of police then carried Washington to a cell.

Attempted Assassination.

Havana, June 28.—(Special)—A sensational attempt was made last night to kill Congressman Antonio Samiguel, but the shot went wide. The would-be assassin, Manuel Loes, has been arrested.

Trolley to Constantinople

New York, June 28 (Special)—Tenders are invited for the construction of a trolley line from this city to Constantinople. An application has also been made to the city council for a franchise for the road and terminal in this city.

MORE FIRE PROTECTION NEEDED

Building Operations Are Held Back For That Reason.

People will not Build until the Risk is Reduced—Insurance Companies' Rates are Prohibited.—Fire Department the only Source of Relief

There is common belief among those who purpose building in Prince Rupert that if the city council could in any way hustle along the fire protection legislation that there would be a great deal more building in the city. At the present time it is practically impossible to secure insurance, even at the outrageous rates that are quoted. As a result a big fire in town would put nearly every man affected out of business entirely. Very little insurance is carried because it cannot be had. Those who have plans for new buildings know the conditions and for that reason many of them are holding back. The only way to secure any reasonable rate from the insurance companies, and they will not reduce until compelled to, though it might almost be called a shame, is to establish a modern and complete fire department. This matter should not be delayed one day. It is extremely serious to every citizen in Prince Rupert. There

is not one person who can afford at this time to be burned out, and since the insurance companies are so backward, the only protection the people can get is from the fire department.

The Fire and Water committee will receive the everlasting appreciation and thanks of the people if they will take the bull by the horns, as it were, and force through orders for proper apparatus and equipment for the fire department. They can decide afterwards whether they will pay for it out of a general fund or charge it up to a frontage tax, or whether they will pay it out of current revenue. The people do not care a snap about that. They want to see permanent chief and brigade, efficient in number and ability, a modern hose wagon, chemical engine, ladder, truck, a sufficient number of hydrants or stand pipes to furnish water. With those things, and the brigade well drilled and alive, the citizens with a little money would not hesitate to take a chance, but would go ahead with building operations.

The views of several citizens who have spoken to the Optimist are expressed above and it is safe to say that everyone will concur in them. The Fire and Water committee have the matter in their own hands and, while they have done something, the citizens do not notice much difference, and they are indeed anxious.

ROBERT TAFT FATALLY HURT

PRESIDENT'S SON RUN DOWN BY AN AUTOMOBILE

No One is Blamed for the Accident—Young Man so Badly Injured that it is Feared He May Not Recover—Injured Internally.

(Special to the Optimist)
Beverly, Mass., June 28.—Robert Taft, son of the president of the United States, was coming out of the gates leading to the president's summer home, when he was struck from behind by an automobile. The driver of the machine, a man named Thistwolla, ditched the machine in attempting to avoid the young man, and no blame is attached to the accident. He was struck and thrown and the auto passed over his chest. He was carried back to the Taft mansion and medical assistance was at once secured. He was found to be injured internally and small hopes are entertained of his recovery.

AN ASSESSOR IN TEN DAYS

CITY WILL HAVE STEADY EMPLOYMENT FOR HIM

That Means the Street Work Will Be Started About That Time—Skeena District Industrial Exhibition Asks for Financial Aid.

The council is now about ready to take up the appointment of a city assessor and new applications have been called for. Most of last night's session was spent in committee of the whole on the by-laws. Ald. Lynch put a new light in the hearts of the aldermen when he stated that they would be ready to use an assessor in about ten days. That means that the street work will be commenced then.

All the members of the council were present with Mayor Stork in the chair. The minutes of the last meeting were read and adopted.

Fall Exhibition

A communication from the Exhibition committee of the Board of Trade asking the council for financial assistance.

Ald. Pattullo thought that this was a matter which the council might well aid financially.

The Mayor proposed that the communication be referred to the Finance committee.

Ald. McIntyre asked why this matter should be referred to the Finance Committee when the council turned down the publicity club and the First of July celebration committee?

The Mayor and Ald. Pattullo replied that they were not bound to give any assistance. They wished to get more light on the subject.

Ald. Barrow thought that as the council was not in a position to give a substantial sum the council had better not give anything.

The matter was referred to the finance committee.

A petition was received from fifty residents in Section 7, asking for a 16 foot plank roadway in section seven—referred to the streets committee.

Ald. Hilditch and Ald. Lynch had a little scrap over the way Ald. Lynch

NO TRAFFICKING IN JUDGESHIP

SIR WILFRID LAURIER DENIES CORRUPTION CHARGES

Canadian Premier Replies only Because Honor of Judiciary is at Stake, and makes Unqualified Denial of Charges.

Ottawa, June 25.—Sir Wilfrid Laurier this morning gave an explicit and dignified denial to the charge handed out to the press by Hon. Robert Rogers charging the federal government with trafficking in judgeships and demanding \$10,000 for the campaign fund as the price of an appointment to the recent vacancy on the Manitoba bench.

Sir Wilfrid says the old cry of rake-off might be set aside without comment, but when the honor of the judiciary is attacked the charge could not go unchallenged.

"I do not believe there is the slightest foundation for the assertion of Mr. Rogers" said the premier. "As far as the government is concerned I give it a most unqualified denial."

"On behalf of the government I may add that if it were true that a judge had paid a single dollar to anyone in connection with his appointment, that judge would not be fit to be on the bench, and the charge, if true, would warrant impeachment."

DONATIONS TO THE FAIR.

Winnipeg Exposition Receives Substantial Aid from Railways

(Special to the Optimist)
Toronto, June 28.—The Grand Trunk Pacific has subscribed \$500,000 toward the World's Fair to be held in Winnipeg in 1914. The Canadian Pacific has subscribed an equal amount, and the Dominion government will give five million dollars. The success of the project is therefore secured.

RAIN STOPS THE DIRIGIBLE TRIPS

NOW DECRY UNRELIABILITY OF SKY SERVICE

Thirty-two Passengers, Ten of them Women, Carried on One Trip.—Made over Fifty-six Miles an Hour Going With the Wind.

(Special to the Optimist)
Berlin, June 28.—Storms have unfortunately interfered with the regular sailings of the dirigible balloon Deutschland during the past two days, and now nothing is talked of but the unreliability of the service. This is causing much adverse comment, as hundreds of passengers have purchased tickets and have no chance of using them.

It is forgotten that many of the excursions were in every way a success. The 4-hour excursion of last Friday was much enjoyed. The route was over the industrial cities in the Dusseldorf district, and there were thirty-two passenger including two women, the largest number ever transported by a similar craft. They run with the wind, the dirigible attaining a speed of fifty-six and a half miles an hour.

The airship passed over the great Krupp works at Essen. On the return the Deutschland encountered a rain-storm and had to fight her way against a head wind. But the landing was made without incident and the passengers said they had not experienced one moment of discomfort.

LAURIER COMING WEST

Now Holding First Series of Cabinet Meetings

(Special to the Optimist)
Ottawa, June 28.—Sir Wilfrid Laurier yesterday began the first of a series of cabinet meetings in the hope of clearing up business before he leaves on his trip to the west and to Victoria and Prince Rupert.

DIRIGIBLE EXPLODED

American Machine took the Honors At Montreal

(Special to the Optimist)
Montreal, June 28.—Eight successful flights were made at the aviation meet yesterday, the Wright machines carrying off most of the honors. McCurdy's flight in a Baddeck was not a success. Nixon was in the machine and as it started he saw that something was wrong with it and made a desperate jump to the ground from a height of over twenty feet. The dirigible then suddenly whizzed skyward and when at a height of about three thousand feet exploded.

Putting in Telephones

Seattle, June 28.—(Special)—Work has been begun clearing out the Morse instruments from all the offices of the Great Northern railway preparatory to dispatching all trains between St Paul and Seattle by telephone.

Mr. Henry Cochrane has come to Prince Rupert from the south and will be associated with C. D. Law real estate firm.

LATEST NEWS FROM STEWART.

VALUABLE ORE BODY
International Mines are Turning Out to be Rich in Mineral

Mr. Tenant told the Optimist yesterday that the International Mining Co's properties in the Portland Canal district are progressing very favorably. They are getting splendid ore out and its assays on an average of \$108.50 per ton. On the Mammoth claim the tunnel has been driven 36 feet and on the Dundee claim there are two open cuts. The mines promise to be of great value, and Mr. Tenant is well pleased with them.

RED CLIFF MINE
Development Work Progressing Rapidly and Machinery Working well

Mr. Tenant, one of the principal men in the Red Cliff Mining Co., is in the city today and reports things at the mine in the best of shape. He predicted Red Cliff would turn out to be the greatest mine on the American continent and that in five years the shares would be up to \$25 and that in one year they would be worth \$5. The market price today is \$1.80 and very little if any for sale. On the Red Cliff they have a tunnel 350 feet long and the rock is breaking splendidly. Three weeks ago they made 52 feet 8 inches, two weeks ago 33 feet

9 inches, and for the week ending last Thursday they made 46 feet 8 inches. The electric light plant is now working at the mine and they have over 7000 feet of floor space in the mine. The assayer's office is completed and ready for that official. The machinery at the mine, including the compressor, is all working fine.

GOVERNMENT WHARF
At Stewart will be Proceeded with at Once Says Mr. Templeman

Harry Smith, of Stewart, received a wire, via Port Simpson, on Saturday from Hon. William Templeman, stating that the work on the Government wharf would be started at once and hurried through. The new work will be an extension of the wharf already there and will run up to Fourth street. The benefit of this work can only be appreciated by those who have visited the northern mining town.

The McKenzie & Mann wharf is now under way and the construction is being rushed. Sol Cameron, the contractor, who will do the grading on the short line of railway will also get his work under way the end of this week.

S. Harrison & Co's office has received a report on the latest assay of the gold ore found on the new strike. It averages \$8.80 per ton in gold and confirms the previous assay.

ENTHUSIASTIC WORKERS MEET

CELEBRATION TO BE BANNER ONE OF PRINCE RUPERT

Money Coming in like a Neep Tide—Committees make their Reports on Floats and Aquatic and Land Sports.

The committees of the Empire Day celebration met on Saturday evening in the city hall, and all the members showed great enthusiasm in the work to which they have been assigned. In the absence of Dr. McIntyre, who was attending the council meeting, F. T. Dawson took the chair. All the chairmen of the committees appointed were present and a number of the members. All reported except that on prizes to be awarded. This is to report today and the prizes will tomorrow be on view in the window of Orme's drug store.

The sports committee made a lengthy report and the list of events was definitely decided upon. It will embrace some novel features. An outline was given of the parade, which will be found in another column.

The amount subscribed has reached nearly twelve hundred dollars.

LUXURIOUS AIR TRAVEL

Saloons of New Passenger Airships Being Built in Germany

London, June 28.—The German Aerial Navigation company is trying to ensure the comfort of the passengers who will travel in its airships. The passengers' cabin for the L. Z. V. 11, the first Zeppelin liner, has just been fitted to the balloon now nearing completion at Friedrichshafen.

The cabin, which was made at Stuttgart, is paneled in mahogany inlaid with rosewood and mother-of-pearl. The entire cabin, which is thirty feet in width, is divided into five smaller cabins, each of those affording seating accommodation for four people. The seats are wicker armchairs screwed to the floor, but made to revolve. There are a small anteroom and a lavatory.

The windows are planned very spaciouly to allow a good view, and are fitted with glass in the forepart of the cabin. The walls are of thin mahogany, while doors, covered with sailcloth, lead forward and aft and to the gondola of the vessel.

MARTIN COMING BACK

Fighting Jow Returns to his Old Stumping Ground.

Following up his letter to the London Times, in which he informed the British nation that he had lost faith in the members of the Liberal government, to whose party he belonged, and that he washes his hands of any idea of compromise with the Conservative party over the constitution issue, Mr. Martin has started for his native land, for Vancouver, and his old friends—more or less. Not that he has pulled out of British politics in disgust—he would not thus forsake his duty of saving the old country in spite of itself—but there is a little matter of real estate that requires his presence in Vancouver. When this deal has been safely negotiated, he will return to his imperial obligations at St. Stephens and will continue to maintain his reputation of "Fighting Joe." His impressions of Mr. Asquith should be worth listening to.

STEAMER PRINCE RUPERT.

What Staff Correspondent of Victoria Times Says.

The service just instituted by the G. T. P. marks a new era in the history of the northland. Travel is now robbed of all its disadvantages and the effect is bound to be apparent in a great accession of traffic. The new vessel will be one of the most popular on the run. She is fast, commodious and beautifully appointed, and on her maiden voyage north gave evidence of all those qualities claimed for her by her builders. She is very steady in a sea, free from vibration and the service throughout excellent.

Choral Association

Ladies and gentlemen interested in choral music are invited to communicate with Mr. B. R. Harrison, Box 34 with the object of immediately forming a Choral Association in Prince Rupert.

School Closing

The school will close on Thursday at noon and will remain closed until Monday August 29th. It is expected that the new school will be occupied at the opening of the fall term.

MAYOR STORK TALKS

What He Said to Reporter of Victoria Times.

Among the arrivals south from Prince Rupert on the steamer Prince Rupert was Mayor Stork, of the Grand Trunk Terminal City. He was elected a month ago over William Manson, M. P. P. When seen this morning Mr. Stork said: "I am down on official business for the purpose of interviewing the government in regard to the work we have in hand during the present year. We have a great deal to do, putting in permanent streets, waterworks, sewers, telephones and electric light. All these are to be done as purely municipal undertakings, in this respect the city having decided to commence right.

"The railway building is getting along well, the principal delay being in the bridge across the Zanardi rapids, between Kaien Island and the mainland. At the present time a ferry is operated across the rapids and in October next it is expected that the trains will be running over the first hundred miles of the railway. This will give a great impetus to business and allow the company to continue its work throughout the winter. It will also open up a good deal of country and the result will be that it will increase the amount of business to be done in the city.

"Already there is a large amount of rolling stock on the ground, eight or ten engines being already in Prince Rupert. As soon as they get the line running the machine shops will be in operation and there will be other work which will enliven the town.

"At the present time the government is building a wharf at the foot of McBride street. Stewart is bringing us a good deal of business, and the success of that town will be a great aid to us. Everything points to a prosperous time up there. We have between four and five thousand people already, and this number will soon be doubled."

PRINCE RUPERT'S SPEED

Good for Twenty-five Knots in Case of Emergency

The maiden voyage of the Grand Trunk Pacific company's new steamer, Prince Rupert, demonstrated the fact that she can show her heels to any vessel on the Pacific Coast. She made a trip from Vancouver to this northern terminus in the record time of a little over 31 hours, having only one double and one single boiler working, and averaging 17 1-2 knots during the voyage. It is estimated that with her four boilers going at full blast she could easily make 25 knots.

To give an idea of the Prince Rupert's speed she left Victoria at 10:50 and was docked at the Johnson wharf, Vancouver, by 3 o'clock, covering the distance in about four hours and not pushing herself.

The speed of this magnificent craft has been kept very much in the dark, the company featuring safety and comfort.

INDIAN PARDONED

Was serving Sentence for Complicity in Murder in Alaska

Tacoma, Wash., June 20.—Slowly dying of consumption, "Juck" Klane, an Alaska Indian, serving a 22-year term at McNeil's Island Federal prison for complicity in the murder of a newly married couple at Skagway in 1899, has been pardoned by President Taft and presented with a return ticket to Alaska. He will leave for his old home at once.

Klane for the past eleven years has been "trusty" boatman on McNeil's Island.

He was a party to one of the most sensational murders in Alaskan history. In the spring of 1899 a young couple were married at Skagway, and for a honeymoon went on a camping trip on Lynn canal. A few weeks later their bodies were found by chance passers.

In March, 1900, Jim Hanson, one of the biggest Indian chiefs in the north was converted by the Salvation Army at Haines. He immediately confessed that he was the leader of the three men that committed the murder.

Hanson died of tuberculosis in the penitentiary a year after his commitment. Kish Too, the second Indian, died of the same disease in 1905.

Ties with Spokane

Vancouver, June 28—(Special)—There was a large attendance at the baseball grounds yesterday afternoon and the fans supported the home team with much noisy enthusiasm. It was a hard fought game Vancouver eventually winning it by a score of 2 to 1. Spokane and Vancouver are now even at the head of the list of league games, with good chances for the home team taking the pennant. At Seattle a poor game was played, the home team winning by a score of 7 to 1.

Fire on a Steamer

Vancouver, June 28.—(Special)—Fire broke out on the steamer Oanfa yesterday while she was in port here. The flames were extinguished before any great amount of damage was done.

The Panitorium will call for your clothes and put them in shape for Dominion Day. 47-49

To the Board of License Commissioners for the Municipality of Prince Rupert, B. C.:

Take notice that I, V. D. Casley, of Prince Rupert, intend to apply to the Prince Rupert Board of License Commissioners for a Hotel License to sell intoxicating liquor for all the premises to be known as the Yukon Hotel, situated on lots 19 and 20, block 23, section 1, in the townsite of Prince Rupert, to commence from the 15th day of July, A. D. 1910.

Dated at Prince Rupert, B. C., this 6th day of June 28, 1910. V. D. CASLEY.

Assessor Wanted

Applications will be received by the undersigned, up to Monday noon, July 4th, 1910, for the position of ASSESSOR and COLLECTOR for the City of Prince Rupert. State salary and qualifications. 47-52

IN SERIOUS TRAINING

Betting now Favors Jeffries by Five to One.

(Special to the Optimist)
Reno, June 28.—The time for the great fight has been changed. The men are to shake hands promptly at half past one, instead of three o'clock as previously arranged. Jeffries is not loafing as he declared he would be during this week. He is strenuously training. So is Johnson but his course is being kept as secret as possible while the Jeffries camp is still open to visitors thought few are permitted to see and talk with the champion. There is little betting here at present, but what is done shows Jeffries to be the favorite.

Chicago, June 28.—(Special)—Betting now favors Jeffries by five to one.

SWANSON BAY PULP

Company Floats Large Bond Issue in London Market

(Special to the Optimist)
London, June 28.—The Swanson's Pulp and Lumber Company floated bonds here today to the amount of \$750,000. The above company is the old Canadian Pacific Pulp Co., with mills at Swanson Bay and head office at Vancouver. The company has recently been re-organized and in future the operations will be on a more extensive scale.

PREPARING FOR THE FAIR

Board of Trade Adds Outside Member to Fair Committee

The special committee of the board of trade appointed to make arrangements for holding an exposition in Prince Rupert this Fall, met last night in the new rooms of the board, Mining Association Exchange. President A. J. Morris took the chair and G. W. Nickerson acted as secretary. There was a full discussion of many of the proposed features of the exhibition and a desire expressed that it should not only cover the whole district but tributary to Prince Rupert but be of sufficient importance to attract visitors from the coast cities. The secretary was instructed to write the secretaries of the Victoria and New Westminster annual exhibitions for catalogues and other information to serve as a basis in planning the one to be held here. Also to add more names to the committee from the outside districts, particularly of transportation men.

NEW BAPTIST PASTOR

His Sermons Morning and Evening in McIntyre Hall.

Good audiences greeted the Rev. Willard Litch on Sunday at his first services in the Baptist church in the McIntyre Hall. Mr. Litch's morning subject was "How a church may do things". A conviction that God has given good news for all men suited to all times and conditions was the first necessity when by individual and combined effort the need and supply together. The church was God's hand, to grip and hold the city for God and Good. The thumb as the postage the fingers were the members. Let there be no stiff fingers. In the evening Mr. Litch's subject was "Can we see God? God can be seen in the words and teachings of Jesus Christ, his miracles and teachings. Whilst God is seen in nature, his garment, and in history the foundation of knowledge that God Love is in the coming of Christ to us. God may be seen in the present personality of living Christ. Christ working through Paul was stronger than Nero. He still works and a glorious anthem rises from earth to heaven, the accompaniment the falling shakles of slaves: here is the sweet soprano of womanhood singing of deliverance from drudgery and a debased delight to queen in the house, there is the sweeter voice of childhood proclaiming death destroyed and rights received and recognized; whilst the deep strong base voices of men

tell that his gentleness has been their stay. Mr. Litch closed with an appeal that each might see God by a personal experience of his indwelling in their own hearts.

ASSASSIN HANGED TODAY

Precautions taken Against Uprising Of Egyptian People

(Special to the Optimist)
Cairo, June 28.—Wardani, the assassin of the late premier, was hanged this morning. Extreme precautions were taken to prevent any demonstrations, and wherever the Nationalists gathered they were quickly dispersed by the soldiers or the police. "I die for the cause of Egyptian liberty" were the last words uttered by Wardani as the black cap was pulled over his face.

FELL DOWN THE SHAFT.

Five Men Dropped Sixty-five Feet Without being Injured.

(Special to the Optimist)
Cobalt, June 28.—At the top of one of the shafts of a mine here the cage, in which five men were about to descend, dropped to the bottom. It was expected all the men would be killed but all escaped without serious injury. The cage fell sixty-five feet.

It is urgently requested that all entries in the Street Parade Dominion Day be in the hands of the committee before noon Wednesday.

School Board Room

The Prince Rupert School Board has decided to have an office and board room in the temporary city hall. The mayor and aldermen have granted their permission and the board will move in at once.

Council Meeting

The aldermen will meet tonight when they will take a tumble or two out of the building by-law. This legal article covers many pages of paper and is easily the largest and most troublesome of all the by-laws taken up yet. It will mean several nights work to go over it and it is a good thing that the cushions for the chairs were delivered today.

HYPOCRISY IN THE HOME

Madame Harriet Labadie Entertains A Large Audience.

The Methodist church was well filled last night, the attraction being the talented Madame Labadie in one of her clever monologues. She choose from her repertoire "The Servant in the House" and in the several dialogues showed great skill in defining by a gesture of an intonation the individual speaking. The domestic drama centers around the Bishop of Lancaster and his two brother, one of whom is a bad egg and the other the Bishop of Benares. The last named bishop comes home in disguise and as "the servant in the house" witnesses many scenes of rank hypocrisy which he exposes and tries to remedy. Its recital was amusing as well as carrying a moral.

Furnished Rooms May Be Rented Profitably.

Just to have "furnished rooms to rent" is no great feat—or novelty. The number of people whose homes are in furnished rooms—"homes within homes"—is very large.

And among the people who live in "one room homes" are an increasing number who like to have things a little better THAN USUAL. They like to have a pleasant room, and they like to have it fitted up DISTINCTIVELY, with taste.

They will cheerfully, eagerly, pay for SOMETHING BETTER in the way of a furnished room. Fix yours up to please the particular tenants, and ADVERTISE ACCORDINGLY, and you'll get back your investment with profit in a very brief time.

BUSBY ON TOUR OF INSPECTION

COLLECTOR OF CUSTOMS ON HIS WAY TO STEWART

New Customs Station on the Stickine, that of Glenora, Being Removed to Near the International Boundary—Other Boundary Offices.

E. S. Busby, collector of customs for this province, was a passenger from Vancouver on the Princess Beatrice on a tour of inspection of the various coast ports. He goes from here to Stewart, which has been made an outport customs station and William Miller has been appointed sub-collector. Miller is also to be the provincial game warden and mining recorder, so that men landing may get their licenses on the dock and also record their locations. This is a great convenience to supply which the federal and provincial governments have worked together.

From Stewart Mr. Busby goes to the Stickine. There the out-port station has been removed from Glenora to a point near to where the international boundary crosses, so as to cover more thoroughly the district to which the Stickine gives access. Mr. Tervo has been appointed sub-collector there, and he also is game warden and mining recorder.

From there the collector of customs goes to Skagway and the new boundary station at Pleasant Camp, where Captain Alcock is the sub-collector. Near there Captain Walter S. Brown, late of the United States army, is the manager of the Brown Alaska Mining company and is going to begin mining operations on a large scale there this season. The provincial government has put in a good road from these mines to the international boundary.

After this Mr. Busby will visit Dawson and Fortymile, calling to inspect the Whitehorse customs office on his way back.

Letters to the Editor

Emerson Place, June 25.

Editor of Optimist.—Last night's mail brought the sad news of the death of Lieutenant Boyd Alexander, late of South Rifle Brigade, one of the greatest explorers the British Empire ever produced. The tale was told in a brief message sent by Jose Lopez, Lieut. Alexander's faithful coloured servant to Mr. Herbert Alexander, the well known artist and member of the Royal Water-colour Society, the explorer's brother.

The message received at the British Port of Maidugwi and telegraphed from there to England, simply stated that Jose's master has been murdered on April 3rd near Abeshr in the Wadai region of the French Sudan.

What a tragic end to a great career! Though poor Alexander achieved so much in the way of exploration and discovery, he will be best remembered by the public as the leader of the Alexander-Gosling expedition "from the Niger to the Nile" so fully described in his splendid book of that name. It will be remembered how that expedition which started in 1904, wound its way in spite of overwhelming obstacles and trials through the very heart of unexplored Africa. How the bold and tireless leader pressed on in spite of the fact that his brother Capt. Claud Alexander, of the Guards, and Cap. Gosling, his only white companions, both died on that awful journey.

Months elapsed in the attempt to cross the swamp lands around Lake Chad. I have seen photographs, in which his negro bodyguard were seen struggling through mud up to their shoulders, pulling the boats in which his specimens and instruments were kept. This went on for days and days under a scorching sun.

And this toiling party of semi-savages worked on, out of sheer love and respect for the solitary white man, pushing his way through a strange land, whose goal was the opposite shores of the continent and to whom the greater privations and difficulties were as part of the day's work. It is well known how he came out into the Nile nearly three years after he started, with only a shirt and torn pants, with no water or no food, yet some miles in advance of the strongest of his native followers.

This was a man, and yet a casual observer meeting him would never have guessed what power of mind and body, what vitality, what determination and lofty ambition lay beneath the quiet calm interior of this gentle, reserved Englishman. His character lacked those traits which force a man into the lime light of public notice. Though he would undoubtedly have received the social honors which come to great men, had he returned from this last expedition; he would never have sought them. The dominant feature of his make up was—to be, rather than to seem a man.

He came of an old English family who have a beautiful country seat in Kent.

Lieut. Alexander had done much else besides his three years march. At the age of twenty-five he traversed the Zambesi territories and in 1900 bore his part in the fighting that led up to the relief of Kumasi. He obtained the first perfect skin of the Okapi, an animal only recently heard of and which till his discovery had never been seen by a white man. He travelled 5,000 miles through Africa and shot every variety of big game.

In the dark tropical forest lands which Stanley found so serious an obstacle, Alexander wandered as if a native. There he saw and obtained specimens of "huge vampire bats with teeth like sharks" and "sweet faced phalayers, with eyes like saucers and as clear as amber," and "gigantic forest rats with white bellies, two feet from head to tail." He was harassed by cannibal tribes who hunt for white men as we would deer, but by constant tact and watchfulness he came out unscathed.

The heavy expenses of these expeditions were a great drain on his resources. He would not seek or accept donations towards these expenses. Two stories

which will illustrate his general mode of life I can tell from personal experience. Before the 1904 expedition he got together a large quantity of goods which he thought suitable for presents to the native chiefs whom he would meet on the journey. He walked quietly into Harrod's store in London and asked the price of cotton material. They showed him various colors and qualities and he decided on a certain kind. When asked how much he would like the quiet answer "Oh! about 20,000 yards" nearly staggered the attendant, who fled for help to a superior who in turn went off for advice. They thought this was some sort of a practical joke.

I met poor Alexander a few days before he left on this last ill fated trip and asked him to write his name in my copy of his book. He said he would rather do it when he returned as it might then be of more value than it could be now.

He was of a very retiring disposition. Though he had been a member of the Junior Constitutional Club for about fourteen years he once told me that he only knew three or four members.

This wretched murder by some treacherous native has cut off in its prime a great career. Gen. Gordon said that "the Empire was made by her adventurers." Alexander will rank with Drake, Froisher, Livingstone and Stanley.

Another name has been added to the long list of British heroes. A great man has passed away. Requiescat in pace

Yours truly,

L. BULLOCK WEBSTER.

FEMALE HELP WANTED

HAZELTON'S ONE VAGRANT

Prefers Labor in Provincial Jail to Work outside it

That a man should be adjudged guilty of vagrancy in such a sparsely settled community as Hazelton, at the head of navigation on the Skeena River, is something of a novelty, but the vagrant arrived in Vancouver this morning en route to New Westminster. The man is Hugh Milligan and he would rather spend six months at work in the provincial jail than soil his hands with labor outside the high fence. His specialty in the vicinity of Hazelton is declared by the police to have been the preying upon the miners and men in the country to look at land.

Provincial Constable Graham, who brought Milligan south, also had with him George Holman, committed for trial by Judge Young at Hazelton on a charge of wounding Holman is a Norwegian and it is charged that while in a fight with a compatriot he badly slashed him about the body and arms. —Vancouver Province.

NEW STEAMER PRAISED

Staff Correspondent of Vancouver World on First Trip.

Of the steamer Prince Rupert, nothing more need be said than that she more than comes up to the detailed description published in these columns some time ago. In the furnishing and equipment trimness, comfort and elegance rather than luxuriousness, seems to have been aimed at. Equipped with wireless telegraphy, she carried the operator who joined her before the voyage from the old country. The Prince Rupert is without doubt one of the best designed craft on the coast. Her four crank triples work smoothly and evenly, without vibration.

The fact that the vessel arrived in Vancouver one day, and took up her work the next may reasonably be regarded as strong evidence of the statement that, from the point of view of the engine-room, the Prince Rupert is a triumph of modern marine engineering.

Chief Engineer Drysdale installed the engines for the builders, and he is now running them for company. A shrewd, kindly, experienced, far-traveled Scot, he has represented this firm of builders in all parts of the world. He is a clever linguist, and he is only less at home in Grand Opera than in engineering. Head of a family of engineers, all his praise is for his staff. "They are picked men, all of them," said he, Bill Adams-wise, and proudly. Mr. Drysdale is confident that his engines will be driving the Prince Rupert at a speed of 20 knots before the week is over.

Quartz Mining at Dawson

Postmaster Hartman, of Dawson, was in the city last night, shaking hands with a number of old friends. He is on his way north and said the Dome Development company, of which he is president, was still driving the big tunnel. They now had a working tunnel two thousand feet long, which passed through several ledges assaying high, and all these would be crosscut for a couple of hundred feet before mill operations were attempted.
