The Prince Rupert Optimist

DAILY EDITION.

VOL. I, NO. 18 PRINCE RUPERT, B.C., MONDAY, MAY 23, 1910. PRICE, FIVE CENTS

PLOT TO MURDER MANUEL

Was to Be Assassinated at King Edward's Funeral.

London, May 23.—Scotland Yard admits the frustration of a desperate plot which was laid in Portugal by disgruntled politicians, combined with anarchists, to assassinate the young king Manuel during his stay in England to attend the funeral of King Edward. The detectives discovered the presence in London of some of the nobles and others implicated in the death of King Manuel's father and elder brother and by keeping them well under surveillance managed to prove their connection with well known anarchists who have been active both in Lisbon and Barcelona.

Working with extreme care the detectives obtained what is alleged to be substantial evidence against seven well-known anarchists of complicity in a plot to assassinate the young king on English soil, and these seven have been arrested. This information has leaked out, but no information as to the plot itself or the nature of the evidence against the men arrested has yet transpired. Needless to say that, with the discovery of the plot, an extra corps of plain clothes men were detailed to guard King Manuel every moment of his stay in England.

Wholesale Court-Martials.

Manila, May 23.—The calling of no less than five American officers to submit to court martial proceedings has aroused a strong protest against the strict discipline of General Duvall, who is in command, and petitions are being largely signed for the recall of the martinet.

McNEIL WAS INSANE.

Wrote Love Letters To Young Ladies. Has Gone South.

John Alfred McNeil, a young man who was a carpenter by trade, but somewhat of a sentimentalist by profession, has gone to New Westminster asylum for an indefinite period. He went down on the Camosun yesterday with Constable Taylor. McNeil's particular fad was writing love letters to all the young ladies in town he could get the names of. To one young lady in particular, who struck his fancy, he sent an epistle of 47 pages of full size letter paper. His compositions were not bad in the the eyes of the law, but apparently most unwelcome to the favored ones, as a complaint was made to the police. The offender was restrained by officers on Saturday morning, and taken before two doctors who examined him. They pronounced him insane and he was then sent to New Westminster.

Vancouver Defeats Spokane.

Vancouver, May 23.—In the baseball games Saturday, Vancouver defeated Spokane by seven to one and Tacoma won in her contest with Seattle by a score of three to two.

MAKES STRONG PROTEST

Against Regulation Shutting Out British Artisans

London, May 23.—The regulation of the Dominion of Canada by which admission is refused to British workmen other than farm labourers, is raising strong protest among local labor unions. The object of the regulation is apparent, and simply means that the industries of Canada are well supplied with artisans and is in need of labor on the farm.. Also, it is conceded by the more thoughtful that this regulation is of merely a temporary nature, in order that greater transporation facilities may be at the disposal of thelabor element in order to supply Canada's pressing needs in that regard as quickly as possible. Nevertheless there has been entered a strong protest on behalf of the artisans by some of the metropolitan press, and the Star may be said to voice the general sentiment. In this morning's edition, the Star says:

"The real effect of the regulation being enforced by the Canadian government is that no British artisan can find a footing in that country without financial assistance. It is most extraordinary that a British colony, won by British blood, protected by the British government and financed by British capitalists, should be closed to British subjects."

The general feeling is high on the subject; indigant protests are being passed by British workmen everywhere, and the present result is a largely increased emigration to Australia which, once started, is likely to continue for some time.

NEW CITY OFFICIALS

RECOMMENDED TO PROVINCIAL GOVERNMENT FOR APPOINTMENT

Following close upon the first municipal election comes the announcement of the city officials to be appointed by the Provincial government. Here they are:

License Commissioners—V. W. Smith and J. E. Merryfield.

Police Commissioners—Dr. Quinlan and M. M. Stephens or Dr. McIntyre.

Police Magistrate—A. Carss.

The above recommendations were made Saturday and forwarded by William Manson, M. P. P., to Victoria. The official announcement will probably be made soon.

As is now generally known, the city license board is composed of the mayor, as chairman, and two commissioners appointed by the Government, one of whom must be taken from the council. The police commission is similarly made up.

Thus the license board will be composed of Alfred Stork, chairman, V. W. Smith, from the council, and J. E. Merryfield.

The Police Commission membership will be Mayor Stork, chairman, M. M. Stephens as first choice providing he secures the seat, and in the event of his not being in the council the choice falls to Dr. McIntyre. The third member is Doctor Quinlan.

No organization of eihher boards can take place until the recommendation have been accepted at Victoria and the appointments formally made.

STEPHENS OUT, NADEN IN

THE FINAL COUNT OF BALLOTS CHANGES RESULT

Returning Officer Cuthbert Makes Official Announcement---Says It Is the Only Declaration--Stephens Will Probably Fight the Issue.

Is it Alderman Naden, or Alderman Stephens? That is the question that is interesting the politicians and a few others to-day. M. M. Stephens was bulletined as elected last Thursday evening. He got the victor's applause and was mauled around by the boys in their rough and happy appreciation, but to-day Returning Officer Cuthbert says that G. R. Naden is elected and that M. M. Stephens is seven votes behind him. That is the official result of the count made by himself and clerk on Saturday.

This morning returning officer Cuthbert posted the result of his final count and declared Alderman Naden elected.

When asked by the Optimist as to the validity of the count, Mr. Cuthbert pointed out the section of the Act which says the count and the declaration must be made by the returning officer. The bulletin posted Thursday night was only the preliminary count by the deputies. They counted illegal ballots and even tendered ballots, but the official count by himself changed the totals considerably. He claims he was not bound to notify the candidates to be present.

Mr. Stephens, when seen, said he he had heard the announcement and had decided upon his course of action, but he had nothing to say for publication. He intends to fight the issue.

The mayor and aldermen were sworn in this morning with the exception of Alderman Naden, who is out of the city for a couple of weeks.

FINAL COUNT

Votes Cast for Mayor

Stork	557
Manson	453
Spoiled ballots	13
Tendered ballots	2

Votes Cast for Aldermen

Mobley	663
McIntyre	578
Pattullo	549
Lynch	510
Barrow	508
Smith	504
Hilditch	482
Naden	449
Stephens	442
Morrow	418
Clarke	400
Morrisey	358
Quinlan	313
Arnott	279
Douglas	200
Spoiled ballots	23
Tendered ballots	2

Votes Cast for School Trustees

Bennett	688
Stewart,	627
Currie,	555
Clayton,	500
Spoiled Ballots	59
Tendered Ballots,	2

MURDERED HIS MOTHER.

James Gorham, While On A Drunken Spree, Shot His Mother.

Peterborough, Ont. May 21.—Jas. Gorhman, a well known young man, shot his mother this morning and she later died in St. Joseph's hospital. Gorhman was on a drunken spree, as he frequently was, and the usual quarrel resulted when he got home. When sober, Gorhman is a steady worker and a good son, but his mother had a bad temper and several times had the boy before the police magistrate. Gorhman was armed when the police arrived and he resisted arrest for a long time. He is somewhat of a scrapper and a dangerous man when drunk. He was finally taken, however, and placed behind the bars. He will be charged with murder.

Men Win Strike.

New York, May 23.—The international paper strike has suddenly come to a happy termination by the manufacturers' decision to accede to the strikers' demands. All the factories affected were to start up again this morning.

BOMBARDING BLUEFIELDS

Spain Sends a Cruiser Which Sinks a Nicaraguan Gunboat.

Colon 23-It was learned here today by cable dispatches that the minister of war of Spain had sent an order by wireless for the Cruiser Venus to bombard Bluefields, the Nicaraguan port on the Atlantic. Spain is said to have taken this action on, despite of a strong protest against it from the United States government and international complications are therefore likely to follow.

Bluefields 23-It is reported here from Greytown that the Spanish cruiser Venus this morning attacked and sunk the Nicaraguan gunboat Ometepe off Gorda, and that one hundred men of the gunboat were drowned. This report is unofficial but it is very generally credited.

No Paper To-Morrow

Tuesday, May 24, is Victoria Day and The Optimist will not publish a paper. The people have grown to look upon The Optimist as a welcome evening visitor and a lot of eager readers will be disappointed at having to skip a day, but the boys who make the Optimist want to go fishing.

THE OPTIMIST

It's Alive!

AERONAUTS INJURED.

One Falls Two Thousand and The Other Two Hundred Feet.

Elmwood, Ills. May 23.—At an exhibition flight in a dirigible balloon made here yesterday by Oscar Leroy, the balloon started to collapseat a height of two thousand feet, its fall being accelerated as it neared the earth. Leroy got off easily with a broken leg.

Madrid, May 23.—While flying his aeroplane yesterday, Garner met with a serious accident. One of the driving bands snapped and the machine fell from a height of two hundred feet. Garner was seriously injured but will recover.

Bleriot's Feat Duplicated.

Dover, May 23,—Count de Lesseps crossed the English Channel yesterday in an aeroplane, thus duplicating the feat of Bleriot. The ascent was made from the same place as Bleriot at Calais, but de Lesseps had more favourable weather than his predecessor.

Engineers Knowbel and Grant of the G. N. R. went up to Stewart Saturday night to take charge of the survey work for the new railway.

SQUABBLE WITH BRITAIN

British Sealers Taking Otter Dur- Closed Season

Victoria 23--It is extremely probable that international complications will ensue upon the news that British sealers have been taking otter within American waters during the close season. The very slight technicality rests upon the question whether otter are included in the international agreement between the United States, Japan, Russia and Great Britain on the subject of pelagic hunting in the Pacific.

Heavy Snow in Denver.

Denver 23-All the traffic in the city and for some miles outside has been totally disorganized by a blizzard and heavy snow storms.

Two persons are reported to have perished in the storm, which is still raging and is tying up incoming trains. No trains have left here this morning owing large drifts having formed along the rail way tracks.

Died in Hospital.

Nanaimo 23-Charles Ford, who was brought to the hospital suffering from injuries received while out hunting, died this morning.

KILLED BY A BLAST

William Salvus Killed by a Blast at Mile 148

It will be learned with general regret that William Salvus was killed by a blast at Salvus' camp, mile 148, on Saturday night. Word was received in the city about noon yesterday, although meager details accompanied it. Another man,. or men, were also injured. The remains of the dead man will arrive on the steamer Omineca to-day, as also will the injured men. The boat was on her way down and was held at Kitselas until the party from the camp arrived.

William Salvus was a brother of P. J. Salvus, who had the contract for that section where the accident occurred. He was a young fellow, being only about 30 years of age, and was well known in the city. He was a fine young man and his many friends will deeply regret to hear of his tragic death.

The deceased came here from Spokane when his brother took the contract and he had the position of time-keeper, although all last winter he was in full charge of the camp during his brother's absence.

LOCAL.

A couple of young fellows were successful in capturing a good sized Alaska eagle across the harbour yesterday. They shot it in the wing and brought it home to have it stuffed.

A great many young people and some who were not so young took advantage of the beautiful weather yesterday, and spent the day and evening on the water. Every canoe, skiff and motor boat was out and many happy parties had a pleasant day among the islands and up the river.

It has been asked several times why the officers of the canoe club do not get busy and stir up a little enthusiasm A lot of ideal weather has already been lost and further delay in getting the members together would be regrettable. A lot of interest is being taken in boating and the club could bemade to flourish.

Hotel and restaurant ware always on hand at Simon's Fair.

AS OTHERS SEE US

An Impression of the Northern Metropolis.

"Opportunities" a new magazine publication which is issued in Vancouver, has in its last issue the following to say of Prince Rupert, the northern metropolis.

There are two things that progress steadily at Prince Rupert. They are railroad construction and land values. If any resident is asked the reason for this, the reply is simply that the railroad is being built and the town is now on a solid business basis. Both of which are absolutely correct. The railroad IS being pushed through the broad Dominion into the western terminus and and the town IS founded on solid business and the values are not inflated. And those two things form the topic of conversation at street corners and in hotels and other public places. Not that there is nothing else to talk about but they are at present of paramount importance.

The railway is entering the new city from the south, resting for a moment at the foot of Mount Oldfield, whose ramparts form the guard for the city on the south-eastern shore, where it sweeps a snow-crowned summit into the northern sky and slopes majestically into the sea. All through that portion ofthe country the roadbed is rock-ballasted and ready for the steel rails that wlli carry the great mountain engines from far to the east through hills and over plains. Just now there is one locomotive at the town, and it was taken up from Vancouver on a scow not long ago, but it will soon be lost in the multitude that will help shape the destiny of Prince Rupert, when, very shortly, trains are running in from the East and opening a new era of railway development in Canada.

British Columbia has many new towns. This must be one of the first things to strike the newcomer in our great western province. And one can easily get an opinion, or even a description of any of those towns from the man on the street in Vancouver, Victoria, New Westminster, Nelson or any of the larger centres, whether the narrator has ever been in the city or not. But one must go to Prince Rupert to notice how heartily she is extending her hand in welcome to the future, and making the bid for progress that she is and has always. There are many stories concerning her abroad upon the ocean of common thought, but few are headed for the right port, as the city itself is. One has a good deal of respect for Prince Rupert after having had a look at it, and the longer one stays there the longer one thinks of it. The opportunities and possibilities are obvious.

For one thing it has a splendid harbor. Behind and beside it rise tier upon tier of mountains whose eternal snow mingles with the clouds. In front, islands that effectually shut out the heavy ocean rollers and keep the north Pacific from creating an unruly time in the dockage room or the stream, as that dark mass of water would delight in doing.

A ship may drop anchor in twenty fathoms or come along side the dock as safely as she might in Sydney or Rio de Janiero. She may sail in between huge, solemn, pine covered mountains to the new city, and feel that here is a port that is good, not only in a storm, but that has before it a harbor in the peaceful pursuits of commerce. There is plenty of water, plenty of room and every opportunity to establish docks. Already the railway and steamship companies recognize this, and already there are steamers from a good many points on the American continent. What has been done in the past is nothing compared with the development in the next five years.

Some of those Titans, or Jove, of gigantic memory should have taken one of the mountains around the City and rolled it over the main streets. Then those hills, right in the townsite, would not now be in such evidence. Failing this delicate attention from the gods, the Grand Trunk Pacific Railway, itself something of a worker in thunderbolts, is going to cut down the hills—to hew its tortuous way through the city, 40 or 80 feet of solid rock, and leave in its path a series of level roads that will make the city much better, and incidentally be a monument to the enterprise and ability of the railway officials. Just at present, the front, or main street, runs up from the wharf until it becomes a little too steep for comfort, when it calmly branches off and goes around the hill that stays its peaceful progress.. The The Company will not remove that hill—at least not for a time. But it will [and is actually working upon it] construct a new main street, which shall be more convenient, and upon which only sores and business blocks of a certain standard are being erected. There are several fine structures going up now, and the plans for others are filed.

A striking thing about Prince Rupert is the fact that there is not a great deal of earth anywhere around it. All is rock, rock, rock. And above the granite is a layer of muskeg, from 18 inches to 15 feet in depth. Therefore, as the pedestrian in the northern metropolis does not like wearing out shoe-leather on sharp rock any more than the rest, over eight miles of plank roadway, mounted on piles has been constructed since a year ago. All the stores on the main street are situated similarly and the houses are as well, unless they happen to be on a hilltop near the roadway. And, speaking of houses, there are a great many new roofs to be seen in Prince Rupert these days., evidence unmistakable of the progress in building in the new city. But this seeking favorable spots gives the place a rathered scattered appearance, for many of the places are on the tops of hills, many more are in snug little hollows, and others again are on the sides of the hills themselves.

Prince Rupert's weather has been the subject of much adverse comment in the past year. Why this should be is not very clear. Possibly jealous rivals, old and new, have expended energy in gathering and circulating such reports. Possibly the rumors started and grew, and spread, no one knows how or why. But, be that as it may, Prince Rupert has a very good climate. The rainfall is heavy. No attempt is made to deny that. But there is no heavy winter weather, owing to some peculiarity in geographical situation. And Vancouver and Victoria both have a very fair share of rain, yet they seem to be assuming large proportions. So Prince Rupert, with not a great deal more than either, is not handicapped in this way. The air in the northern port is very bracing, and there are no extremes of heat and cold, as often mar a city. A good spring and summer, without a cold winter, should not count climatically against the city's chances of growing, and they are swept aside by the rush of improvement and development in the north these days. No one pays any attention to such rumors. Prince Rupert has magnificent possibilities, and when, in the history of Canada, did people every worry about anything else?

Yes, behind the baby port of the Dominion, are millions of acres of fertile country and millions of prosperous people who are smiling their approval and sending their best of brawn and brain to the city. They wait for that future which the place is assured of, confident that it must come with the evolution of events, and they are optimistic, full of faith, and able to see real worth and value it accordingly. And they are not mistaken.

Heard But Not Seen

'Have you seen any crows?' asked the man with the gun.

'No I ain't,' replied the farmer's boy, 'but I've heard some.'

'From what direction?' cried the eager hunter.

'From the direction of the chicken house,' said the boy, and his statement was immediately verified by the clarion calls of two Plymouth Rock roosters.

Goods must be bought in the right markets to get the prices. Ben Davis Apples, $2.50 box. Select Fresh Eggs, $8.75 per case; 3 dozen for $1.00. At Morrow's Markets.

INDIANS THROWN OUT.

Local Tradesmen May Suffer By Decision of Fishery Dispute.

Some of the tradesmen of Prince Rupert are liable to lose considerable money by the decision rendered by the provincial government in the matter of the fishing licenses on the Skeena and Naas rivers and Rivers Inlet, as by it seven hundred fishermen, the majority Indians, are thrown out of employment this season. As is customary these men obtained credit to carry them through the winter, the debts to be met from the work of the summer months.

This is the result of an agitation started by a number of Skeena fishermen headed by Jim Fleuin, known as "Slim Jim" and Robert Nelson. Representations were made to the Provincial Department of Fisheries that the fishermen signing had secured federal licenses and they demanded that provincial licenses be issued to them.. Licenses were not refused to them directly, but the department held that they cou.d only be issued with the proviso that the licensee should not sell his catch, or any part of it, directly or indirectly, to the canneries of the district.

The provincial department has already announced that it will only issue licenses to fish in connection with the operating licenses granted to canneries. The determination on the part of the government was reached in order that the boat rating allowed the various northern canneries might not be jeopardized. The ratings would be nullified in their effect were fishing licenses to be issued indiscriminately as it would then be possible for canneries operating to the limit of their ratings to secure additional fish from fishermen not attached to any cannery. Only the total number of boats—some 850—allotted to the canneries on the Skeena river will be permitted to fish. Men attempting to operate boats under federal licenses and in defiance of the provincial regulations will be placed under arrest. This ultimatum has been issued by the Provincial Government.

The twelve canneries operating in the district contracted for about twelve hundred crews, and their limit being cut down to eight hundred and fifty will throw out of employment about seven hundred men. This will affect the Indians more particularly, as the Japs had already made their contracts. If the decision had been made last fall it would have been the Japs and not the native Indians who would have been thrown out. The tradesmen will suffer too as thousands of dollars had been advanced to these Indians. The decision may lead to further trouble this season as the canneries must have Indian women to work in the cznning, and there is talk of all the Indians moving to another district.

PRODUCTION OF PROVINCE.

In the production of sawn lumber British Columbia comes third with 647,977,000 feet board measure, which is valued at $9,107,186. Ontario leads and Quebec is second.

In the production of shingles British Columbia leads the Dominion, having produced 724,652,000 of the value of $1,391,306.

British Columbia has manufactured 86,862,000 laths at a value of $208,255.

Prince Rupert Coal Fields.

Montreal capital has secured the controlling interest in 30,000 acres of bituminous and semi-anthracite coal land on the Morrice River, in Northern British Columbia, ownership being vested in Prince Rupert Coal Fields, Limited with an authorized capital of $5,000,000. Although Montreal interests are in control, the principal officers are American citizens, to comply with certain regulations in the United States in connection with the transfer of control. The board is composed of the following: President, Mr. Thomas E. Jefferson, Butte, Montana; General Manager, Mr. F. Dockrill, Vancouver; Directors, Col. John McCook, of the law firm of Messrs. Alexander & Green, New York; Mr. Hugo Blumenthal, of Hallgarten & Co., bankers, New York; and Mr. John P. McGinnis, of Butte.

Dunsmuir Collieries Bonds.

A London cable states that the underwriters have been compelled to take 95 per cent of the Dunsmuir Collieries issue of 2,054,800 pounds sterling five per cent. mortgage bonds. The market there seems unfavorable for new issues.

Pioneer's Sudden Death.

Herbert Armstrong come down on the Princess May, with the body of his mining partner, W. H. Ketchum, who died suddenly on the 16th at the Red Elliott camp near Ketchikan. Ketchum was forty-eight years of age and unmarried. He was a native of Vancouver and will be buried there.

Fort George Railway.

Quesnel is looking forward to the construction of the British Columbia-Alaska Railway line from Lytton to Fort George with keen interest, for it will mean rail transportation for the Quesnel district.

Date April 11, 1910. Grace Alice Flexman.
Pub. May 21. Daniel Oscar Wing, Agent.

CHARITY or BUSINESS — Which?

THE germ of both Life and Fire Insurance had its rise in the custom of taking up a collection for the stricken family. We all chipped in in the hope and expectation that if we were snuffed out by either sickness or accident, the neighbors would do as much for us. Life insurance avoids the uncertainty of leaving things to neighbors. It is a business plan, founded on laws of mathematics and sound economy, to provide for those dependent on us in case of death.

Life insurance is no longer a charity, or quasialtruism, any more than fire insurance is. Life insurance is a duty and a privilege. To eliminate the distressing results of death, through insurance, payable to business partners, wife, or children, seems but common prudence.

Lord Nelson in his will left his wife and daughter "to the tender care of the British Nation, to which I have given my life." And the wife and daughter—gravitated to the Poor House; for what is everybody's business is nobody's business.

Don't leave your loved ones to the care of the public or the neighbors. The neighbors may have troubles of their own.

Cut out the risk and worry by insuring in the

Sun Life of Canada

The cost is nominal; the results phenomenal.

Let us talk the matter over with you.

The Prince Rupert Optimist

DAILY EDITION. MONDAY, MAY 23

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

ADVERTISING RATES are one price to all--25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

SUBSCRIPTION RATES—DAILY, 50c per month, or $5.00 per year, in advance. WEEKLY, $2.00 per year.

WORK FOR THE POLICE.

If any man breaths a sigh of relief upon the announcement of the new council taking up business, it will be chief Wynn of the Provincial Police. He is doubtless sick of a thankless job in which he has not the support from the Department at his back, and is constantly beseiged by public criticism in front. The police commission cannot take up the appointment and organization of the police force too quickly. The city is sadly in need of a strong policy and a strong arm to clean out the degenerates who make free to defy the law and who disturb the peace.

Last Friday, the British Empire mourned its beloved sovereign, King Edward the Peacemaker. The day was one of world wide mourning—business was suspended, traffic ceased, the very ships on the sea lay idle a space to revere the memory of the dead king. In Prince Rupert all loyal British subjects and the alien citizens within joined in the solemnity and respect of the occasion. Yet the blind pigs were open and drunks reeled out by the dozen. It was a sight of abhorrence to decent people—a sight common enough and shocking enough on ordinary days, but one to stir up resentment on a day of national mourning.

The city will look to the new police commission to make this cleaning up job their first duty. Mayor Stork, the chairman, has promised to do the job in 24 hours. It was a bold statement and he should have the assistance of every respectable citizen to make it good. A decent respect of the law is necessary for good government and there are a lot of people here who should be taught that respect or made to move on.

OFF THE CHOPPING BLOCK.

"We must take exception to the statement that Mr. Morrow is a decidedly brainy man, for if he were, he would never have announced the increase in the prices of meat on the very eve of an election. He would, on the contrary, have deferred that action until the day following the contest."—Empire.

It is meat that the editorial butcher should dispute the statement of anyone being brainy in Prince Rupert. If Morrow has a monopoly in purveying dressed meats then someone else should be entitled to the monopoly of all the gray-matter for the city.

Taking another view of it—Supposing the increase in the price of meat had been made two days *after* the election instead of two days *before*? Morrow would then have been a political trickster and a coward. This is the editorial stiletto that had a point on each end.

STOVES FOR THE WEST.

Clare Bros. of Preston Have Perfected New Design For Soft Coal.

Clare Bros., of Preston, Ontario, have perfected a new design in the line of stoves which will minimize the inconvenience and discomforts of burning soft coal. They have now a stove ready for the western market that promises to do away with all the soot that gathers on the inside of the stove and pipes and keep it as clean as though hard coal was burned Clare Bros., have been working on this design for a long time in order to meet the requirements of the west. Their efforts have been awarded with success.

Clare Brothers have an immense western business and have large warehouses in Winnipeg, Edmonton, Calgary and Vancouver, and they are negotiating with a real estate firm here for property on which to erect a warehouse. The firm realizes that Prince Rupert is the real gateway to the north, and also the natural distributing point for a considerable distance to the east along the G. T. P., and they do not intend to let this trade go by default.

A stove warehouse would be welcomed in Prince Rupert and especially one that that can put on the market a stove that will make the burning of soft coal superior to hard coal.

BELL INN WAS SOLD.

Will Be A Grill Room For A New Forty Roomed Hotel.

The Bell inn was sold out last week to a Seattle man, and Mr. Bell served his last man on Saturday night. Mr. Bert, the new owner will close the place for a few days and make some alterations, and will then reopen it as a grill room. It is Mr. Bert's intention to erect a forty roomed hotel on the property at the corner of Sixth street and Fraser street. He will begin operations as soon as possible, and in the meantime he will cater to the public in the premises he has just acquired. Mr. Bert has recently come from Seattle where he was connected with a hotel. He is an experienced hotel man having been associated with the Hotel Ritz in London and the Grand Hotel in Rome. The Bell inn was opened last fall by Mr. Bell and during the short time he has been in the city he has worked up a splendid trade. His many patrons and friends will regret that he is giving up the business. He and Mrs. Bell intend going to Vancouver for a while, but will return to Prince Rupert again in the near future.

FIRST COUNCIL MEETING

Held at Noon To-day and Adjourned Until To-night.

Justice of Peace L. W. Patmore took the declarations of office from the mayor and aldermen and immediately afterward His Worship called the council together for the first meeting. Those present were:- Mayor Stork, Aldermen Mobley, Smith, McIntyre, Lynch, Hilditch, Pattullo and Barrow. Alderman Naden was out of town and will attend council after he takes his oath of office.

The meeting was formally opened and an adjournment was made until 8 o'clock this evening.

His Worship stated that in accordance with the act the first meeting takes place at noon, The first thing to do is to appoint a secretary.

Ald. O. W. Smith was appointed to that office.

His Worship took the opportunity to congratulate all the aldermen on being elected to the first council of Prince Rupert and to be at the first meeting of the council. He knew that from now on all would work for the advancement of the city.

All the aldermen assured His Worship they would assist him to the best of their ability.

Gov. Agent McMullen offered the use of the court house for the council meetings until such time as their own building is ready. The mayor extended the thanks of the council to Mr. McMullin.

The council then adjourned until 8 o'clock to-night.

Contra ct Signed.

The contract for the excavation and concrete work for the new General Hospital was signed by S. H. Watson & Co. to-day and twenty men will be started to work in the morning. The contract has to be finished inside of two months.

No Smallpox.

In spite of a rumour to the contrary there is no smallpox at Stewart and never has been, or any other contageous disease. A gentleman from that town asked the Optimist to deny the report.

SWEDE KILLED BY ROCK

Head Badly Crushed—He Did Not Get Out of the Way.

Frans Emil Anderson, a Swede, was instantly killed by a rock yesterday morning about 10 o'clock. Anderson was employed on station work and with five other men were blasting at about mile 20. The other five men ran for cover when the alarm was given but Anderson either lost his head or considered he was safe for he did not move. One of the large rocks dislodged by the dynamite struck the deceased on the head and crushed it badly.

Word was sent immediately to the city and Undertaker Hart and Dr. Ewing went up in the launches. The remains were brought down to Hart's undertaking ware rooms and prepared for burial. The funeral will take place to-morrow at one o'clock and interment will take place on Garden Island unless other instructions are received in the meantime.

PRINCE RUPERT AERIE.

The Banner Lodge In Canada With 150 Members.

Fred Lynch, Deputy Grand Worthy President for Canada, for the Fraternal Order of Eagles, left last week on his way for Winnipeg. While here he instituted the Prince Rupert Aerie, which is now the banner lodge in Canada, having for its first regular meeting over a hundred and fifty members. The first meeting will be held about three weeks from Wednesday, or as soon as the paraphernalia and charter arrives. Social evenings are held weekly in Dr. McIntyre's hall on Third avenue in the meantime.

A complete list of the officers is as follows:

Past Worthy President—C. I. Gillingham.
W. President—W. J. McCutcheon.
Vice President—J. McLeod.
W. Chaplain—G. W. Arnott.
Secretary—Harry McLeod.
Treasurer—George Tite.
N. S. G.—J. W. Potter
O. S. G.—J. J. McCarvell.
Trustees—Robert Cameron, R. C. Boters, B. W. McPherson.
Conductor—Frank Hudson.

Wireless Completed.

The connection of the wireless telegraph station on Digby Island with the government telegraph office here was completed on Saturday. The wires have all been strung from the sub-marine cable to the office and the connection was made by Mr. Dowling. That gentleman stated that he had talked with the operator at the station on Saturday and that the wires were working all right. At the station they have heard from Ketchikan, Triangle Island and Ikeda Bay on Queen Charlotte Island.

Automobile for Hire. To be found at hack stand in front of Empress Theatre. Seven passenger car.

A. W. AGNEW MISSING.

Out in a Gasoline Boat—Last Report was nearly Two Weeks Ago.

Two weeks ago A. W. Agnew, the well known engineer, together with an assistant from his staff went in a gasoline launch to Stewart. He finished his work in Stewart and started back. He has not arrived nor have any tidings been received. The report is that the two left Stewart ten days ago. They may be prospecting on the way down but no intention of this was mentioned and it is feared some accident may have befallen them.

On Saturday another boat and stock of provisions was sent out in search of the missing ones. A telegram from Simpson said no tidings had been discovered.

To-morrow it is expected the Government boat will be sent to aid in the search.

SMITH GOT THE MONEY

For Building Roads and Sewers at Stewart.

Harry Smith, postmaster, general merchant and leading citizen of Stewart returned to his home on Saturday on board the Camosun and he received a great welcome from the townspeople. Harry had been on a tour to Victoria in quest of government funds for building plank roads and sewers in Stewart. He asked for $30,000. and he got it. $20,00. for sewers and $10,000. for roads and when he arrived in Stewart he had the necessary authority. Therefore the work will progress at once and a big gang of men will be put to work as both the roads and sewers are badly needed.

Have the auto car take you to the dance Tuesday evening. Charges reasonable.

The dining room and cafe of the New Knox Hotel was opened on Saturday When finished the dining room will be one of the nicest in the city. It is well patronized.

The Stewart hospital will now be proceeded with at an early date. Sufficient funds have been subscribed.

There will be a field day of sports for the children to-morrow. For program see posters. Mayor Stork and Aldermen will be patrons. The committee are: W. H. Vickers, C. D. Newton and F. G. Dawson.

LATEST FROM IDITAROD.

Thousands of People Likely to Rush By this Route.

The latest reports from the Iditarod country are so favorable from Fairbanks that the transportation companies plan handling thousands of people from the outside says a late dispatch from Dawson. This route expects a heavy movement to come this way before the mouth of the Yukon is open. Supt. W. Fairbanks of the Northern Navigation Company, says that he will operate a bigger fleet than last year, and has a number of steamers in reserve available.

Frank M. Davis, of the Seattle Cracker company, arrived on the Humboldt says the Juneau Record. Mr. Davis lately came out of Fairbanks and told what the people of the interior think of the new strike in the Iditarod country. E. W. Griffin, head of a large mercantile company that operates in Fairbanks and Chena, according to Mr. Davis, sent a special representative to the new country a short time ago to make investigations.of the reported strike. The representative remained on the ground sixty days closelyobserving the work and at the end of that time sent a message to his employer saying that the Iditarod is bound to become the greatest camp that was ever struck in the interior of Alaska and will probably equal Dawson. He advised Mr. Griffin to ship building material and a general stock immediately.

'Such report is only one of the many which poured into Fairbanks from conservative men.'The clean-up at Fairbanks will probably equal that of last year, although the rush for the Iditarod threatens to leave Fairbanks short of labor this summer.'

Stewart's American Rival.

The plat of the Portland townsite on the American side of the Canal is completed now by the engineers, Messrs. Ryus and Barber, and contains over nine hundred lots. Lumber is all that is needed to make things look like a booming camp.
—Ketchikan Miner.

Sale of Jap Steamers.

The government realized the sum of $26,530 from the sale of the equipment and spoils of Japanese seal poachers taken April 8 last, at Unalaska. The Kinsel Maru and equipment was sold for $4,600 and the Sakai Maru brought $150. Fred Shroder bought both. Six hundred and sixty seal skins were sold to Ike Rosenberg for $38.00 each.
—Ketchikan Miner.

Sailings for the Week.

From the South:

City of Seattle on Friday, Camosun from Vancouver on Friday, Humboldt from Seattle on Sunday.

For the South.

Humboldt leaves for Seattle on Tuesday, Camosun for Vancouver on Sunday.

'I hear that Jones' four daughters are married.' Is that so? I suppose he's glad he's got them off his hands.' 'Not exactly, he now has to keep four husbands on their feet.'

Now is your opportunity to buy in a stock of goods at prices never heard of in Prince Rupert

Sale Commences Wed. Morning, May 25

Kelly-Carruthers Company, Ltd.

W. M. LAW, Trustee

THOMAS DUNN'S DIVE.

Off The Stern Of A Launch—The Sensation Of The Day.

Among those who were out yesterday enjoying the summer weather were Thomas Dunn and party and Mayor Stork and party. Each had their own motor boat, although they went together on a little picnic.. Everything went lovely until they were approaching Shawatlans. Mr. Dunn's boat was in the lead and that gentleman, always doing something for the ladies and children, stood on the stem of his launch and endeavoureed to throw an orange to Mrs. Stork. Thomas, however, lost his balance and fell into the chilly waters, with his Sunday clothes on too. He just came up in time to make a leap for the new mayor's craft as she chuck-chucked past. He caught it and pulled himself aboard, apparently none the worse for the wetting, except that his enthusiasm was somewhat cooled, and much of the days pleasure was spoiled.

POLICE COURT.

An unfortunate, who had imbibed too freely spent a quiet day as a guest of the government yesterday. He was just drunk, and apparently had no other place to sleep.

John Ninok was accompanied to the police station by one of the constables about midnight Saturday, and he spent the Sabbath in the shade of the government building. His offence was having a loaded revolver in his possession, and he appeared before the magistrate for a hearing this morning.

C. H. Preston, the old man who made such a disturbance at Mr. Kerr's home on Thursday night, was charged with being drunk and disorderly. After hearing the evidence, Magistrate McMullen sent him to New Westminster for two months. He was taken down on the Camosun Sunday morning by Constable Taylor and his loss will be a good thing for the city.

When furnishing your home, see "Simon's Fair" for kitchenware.

CANOE WAS UPSET.

Two Young Men Had a Close Call In The Harbor.

A canoe in the hands of two young men one an inexperienced paddler, was capsized in the harbour last evening just as it was starting out. Murphy and Woodhouse secured the canoe at Davis' boat house and started out for a paddle One of them had never been in a canoe before and they got into the swells of the G. T. P. launch and upset. The young fellows were dropped into the briny deep and had a small chance of escape. But, Mr. McMaster of the G. T. P., saw the accident and he threw them a line, and after considerable difficulty drew them on board. A couple of small boats also went out to the resuce. The boys were well soaked and badly scared, but nothing more serious resulted.
