GENERAL STRIKE AT VANCOUVER PROVES A FIZZLE

SEAMAN HURT AT WHARF TERRIBLE BLOW ON HEAD

S. Leussos Felled by a Derrick Boom on S.S. British Columbia at Foley's Wharf This Morning—Was Hurried to the Hospital

Another serious accident was added to Prince Rupert's list this forenoon when S. Leussos, a seaman on the steamship British Columbia, received a terrible blow on the head from the boom of the vessel's derrick which snapped and struck to the deck unconscious. He was hurried to the hospital in the Pony Express Motor Wagon which being hung on good springs is the best substitute for a proper ambulance available, as well as being more speedy than a rig.

Lifting Machinery
 Leussos was under the boom of the crane when it swung up with a load of heavy machinery, and had no time to jump clear when the boom snapped. The heavy beam broke without warning, and crashed down on him hurting his shoulder and the side of his head seriously. On the way to the hospital he lost a good deal of blood chiefly from the

mouth, and was in a pretty bad way when he got there, but he may recover. Dr. Eggert is attending him.

Captain With Him
 The accident happened at Foley, Welch & Stewart's wharf where the British Columbia was unloading this morning. Almost the last of the machinery had been unloaded when the boom broke. The steamer had brought coal also, and shortly after the accident went down to the coal wharf opposite Ross's former camp. The captain accompanied the hurt man to the hospital, and everything possible was done for him.

Ladies Will Be Glad
 A really up-to-date, florists, refreshment and ice cream store has been opened next door to Wallace's store on Fulton street by Mrs. W. Shrubbsall. Cut flowers, and plants in pots are specialties.

GENERAL STRIKE RATHER A FIZZLE

Only About Thirty-five Hundred Men Go Out in Vancouver.

(Canadian Press Despatch)
 Vancouver, June 5.—The strike here is far from being general, only about thirty-five hundred men going out. The street railwaymen are not out, and most of the strikers are confined to the builders, and allied trades. The general belief is that the situation is not as bad as was expected.

Baseball

SIX PERISH BY DROWNING

Sad Accident to Merry Party Out Boating on Utah Lake.

(Canadian Press Despatch)
 Salt Lake City, June 5.—With only one body that of Miss Vera Brown recovered, grapplers have begun dragging the bottom of Utah Lake today for the bodies of five other victims who perished in a squall. There were sixteen in the boat, and ten were rescued. Two of the victims were engaged to be married this week.

Pantorium Pioneer Cleaners, 'Phone 4

TAFT IS NERVOUS FOR RECIPROCITY

Is Said to be Short of Two Votes to Make Original Measure Pass Senate.

Washington, June 5.—Taft himself shows nervousness now about reciprocity, in it being shown that he is two votes shy for the measure to pass without amendments. Today newspaper publishers were before the Senate committee, and they tell a story that the news services were asked to make the best they could of the reciprocity arguments.

This story was indignantly denied by Melville Stone, general manager of the Associated Press.

STRIKE WITNESSES LEFT FOR VICTORIA TO-DAY

The Made the Trip the Occasion For Lot of Fun and Merrymaking—Over Sixty Were Furnished With First Class Tickets

Red ribbons were all the rage this morning around the gangway of the S.S. Prince George as she lay waiting to start for the south. Serried masses of laborers thronged about the wharf and clustered close to the steamer's side bidding farewells to their countrymen who were on the way to take part as witnesses for the defence in the trial of the strikers at Victoria. Fifty-three witnesses for the defence were supplied with first-class passes to Victoria by the George, and by George they intended to have a first class time of it.

Prominent Figures
 Prominent amongst the men on the wharf were A. O. Morse, secretary of the P. R. I. A., and W. H. Montgomery of the Longshoremen's Union. They had a few parting remarks to make here and there and were busy until the boat pulled out. All along the promenade deck the

fifty-three witnesses lined up leaning over the rail as the distance widened between them and the wharf. It was something of a new experience to many who had come north as deck passengers to go south first class and above the thin red line of ribbon badges there floated a blue haze of cigar smoke.

Chief's Witnesses
 Chief Vickers sent down altogether twelve witnesses, the constables and special constables who were present at the Kelly's Cut incident, all except George Leek who is on his way as Earl Grey's Rifleman representing the Corps at the Coronation. Chief Vickers was down seeing those of his men off who left today. One or two left on Friday. Chief Owens was also in attendance. The departure of the witnesses was quite orderly, and there was no attempt at a demonstration of any kind.

ALMOST TWO TRAGEDIES OVER THE WEEK-END

G. W. Fraser, a Young Machinist from Vancouver, Tried to Kill Himself in Fit of Despondency, in an Eighth Ave. Cottage—Mrs. Emanuel Sproule, of Cow Bay, Drank Carboic Acid in a Mistake for Medicine—Both Are in the Hospital.

Two alarming and tragic happenings occurred in the city early on Sunday morning. As a result, G. W. Fraser, a young machinist from Vancouver, is lying on the hospital with a nasty cut in his throat, inflicted upon himself in a moment of temporary madness with a razor, and Mrs. Emmanuel Sproule of Cow Bay is recovering from the effects of swallowing some carboic acid by mistake.

Fraser who lost a lot of blood in his struggles before he was put safely under control at the hospital, is now very weak in consequence. While still in a serious condition, he will recover if inflammation does not set up in the wound. Mrs. Sproule is so far recovered as to be able to leave this afternoon.

Had Arranged Trip
 Fraser, who only came up from Vancouver on Friday night to accompany his brother J. D. Fraser on a trip to California, went

to bed with his brother in their cottage on Eighth avenue near Cotton street. The men were to leave town yesterday morning, and their trunks had been sent away the night before.

At six in the morning they were awakened by Mr. George Mackenzie who was one of the party, and the men started to get ready. When Mr. Mackenzie went into the room a few minutes later, he was horrified to find Fraser kneeling before the mirror with a razor in his hand and blood running from his throat.

Went to the Rescue
 Springing towards the man, he wrested the razor from his grasp. Both are powerful men, though Fraser is much the younger, and for a time, until help arrived, it took hard work to prevent the man from doing himself injury. Dr. Eggert was quickly on the scene, followed by three police officers summoned by telephone,

and the unfortunate man was conveyed to the hospital.

Was Despondent
 Fraser who is well known in the mining camps, was of very reliable habits. He had been quiet on the evening before, and it is supposed was brooding about something, which made him temporarily insane. His friends will wait here until he is recovered.

Mrs. Sproule's Mistake
 In the case of Mrs. Sproule, the taking of the acid was the result of a mistake. She had been unwell, and rising in the night, took hold of the acid bottle in mistake for a medicine bottle. It was not until the stuff was burning her mouth and throat that she realized her terrible mistake. Dr. Kergin who was hastily summoned gave her prompt treatment, and had her conveyed to the hospital. Fortunately little of the stuff had been swallowed.

HON. WM. TEMPLEMAN ON WAY TO RUPERT

Popular Member for This District will Address Meeting of Prince Rupert Citizens in the McIntyre Hall on Wednesday Night

News was received in Prince Rupert this morning that Hon. William Templeman, Minister of Inland Revenue and Mines, and member for Comox-Atlin, is on his way to this city and will arrive here on Wednesday morning. The occasion will be used to have the popular and hardworking Minister-Member address the people of Prince Rupert on the issues of the day. Arrangements for the renting of McIntyre Hall for Wednesday evening were quickly made by the executive of the Liberal Association as soon as the news of Hon. William Templeman's visit was made known.

Stewart and Hazelton
 In his telegram, the Minister intimated his desire to visit the people of Stewart, for whom he has recently been instrumental in securing a handsome public wharf, built at the expense of the Federal Government, and also to visit the townspeople of Hazelton. It is probable that he will also be asked to visit at Kitselas, where a thriving Liberal Association has recently been formed, and where the opportunity to meet with the Minister would be much appreciated.

Will Accompany Him
 It is probable that Dr. Kergin will accompany Mr. Templeman on his visit to Stewart, and Mr. George R. Naden on his visit up the Skeena. The announcement of the visit will be welcome news.

A WELCOME ARRIVAL

Had a Very Troublesome Time Getting to Prince Rupert
 After many trials and troubles, that idea has arrived at last. Although it is not large it is important, being simply—Reilly's Bakery Lunch puts up picnic lunches to order on short notice.

Social Notes
 Mrs. P. I. Palmer will receive tomorrow afternoon for the last time this season.

THE PRINCE JOHN IS A MUCH-ADMIRRED VESSEL

British Journal of Commerce Devotes an Article to Her Description.—Is Handsomely Fitted for the Trade Between Here and Islands

The new steamer Prince John which is on her way out for service to the Queen Charlottes under the Grand Trunk Pacific's flag, has won great admiration in British shipping circles. The Liverpool Journal of Commerce in an article on the vessel, published May 11, says of the new craft:

Just the Vessel
 The railway company have got just the steamer for the trade which she is intended, and all praise is due to Captain Mackenzie, who has been responsible for finding a suitable ship for converting. The principal particulars of the steamer are as follows: Length, b.p., 185 ft.; breadth, 29 ft. 6 in.; depth, moulded to quarter deck, 17 ft. 3 in.; having a gross tonnage of 904, with a net registered tonnage of 539, and a deadweight carrying capacity of 800 tons.

Handsomely Fitted
 The steamer has been fitted with a large deck-house about 70 feet long, having accommodation for 52 first-class passengers in

two-berth staterooms. The central part of the deck-house is fitted up as a lounge, with an observation room at the fore end handsomely furnished and decorated in white and gold, with large plate-glass windows in front. The dining saloon extends the full width of the steamer on the main deck, and provides ample accommodation for dining all the passengers at once.

Has Wireless Outfit
 A deck-house has been fitted on the deck aft, with accommodation for a few first-class passengers with room at fore end having a complete installation of wireless telegraphy. This room also provides sleeping accommodation for the operator. An after 'tween deck has been fitted for the accommodation of about 200 steerage passengers with entrance from main deck. The passengers' and crews' accommodation throughout is heated with steam radiators. The steamer has a complete installation of electric light fitted in the ac-

commodation, also for navigating the ship and cargo clusters for discharging. A powerful searchlight is fitted on the top of the wheelhouse.

Makes Eleven Knots
 Upon her trial trip, which lasted several hours, she behaved splendidly in every way, and upon the speed trial upon the measured mile she developed well over 11 knots. Under the command of Captain Davis she will leave for Vancouver this week-end.

BROKE HIS RIBS ON SIDEWALK

Accident to Hugh Campbell, Fireman on the Steamer Lillooet.

Hugh Campbell a fireman on the Customs steamer Lillooet, fractured two ribs on Saturday night by falling on the sidewalk near Orme's drug store. He was carried into the store, and Dr. Tremayne called in. The doctor attended to the man's injuries and ordered him to the hospital.

Indoor Baseball
 Printers vs. the Crescents tonight at the Auditorium. Game called at 8.30 sharp. Admission 25c.

COURT OF REVISION IS HEARING APPEALS TODAY

Grand Trunk Railway and Development Co's Appeal is at Foot of List—G. R. Naden Alone Amongst Appellants Gains "Consideration"

All the Grand Trunk appeals against their assessment which they claim to be "grossly excessive" are now shifted forward to the foot of the list under consideration by the Court of Revision now in session. They will await the arrival of C. M. Hays and party. L. W. Patmore handled the matter regarding them this morning.

G. R. Naden Scores

Until one p.m. today only about eight appeals had been considered. Of these the set put forward by G. R. Naden are the only ones which may be said to have gained any suggestion of abatement of assessment. They are set aside for further consideration. The property concerned consists of Lots 82 to 90 inclusive in Block 39, Section 8, also Lots 11 and 12, Block 40, Section 8.

Other Appellants
 Up to one o'clock no other appeals had been entertained, the assessment of those heard being

NICK GURVITCH IS FINED ON A BLIND PIG CHARGE

Has Allowed Foreigners Stopping at His House to Club Together to Lay in Quantities of Liquor—\$100 and Costs or Sixty Days

"SIR WILFRID L.L.D."
Scottish University Honors Canada's Premier
 Glasgow, June 3.—Glasgow University has conferred the degree of L.L.D. on Sir Wilfrid Laurier and other Colonial representatives.

Come This Time
 Tonight at nine o'clock all those who are interested in forming a tennis club are invited to attend a meeting in the old Presbyterian church.

Nick Gurvitch was today fined \$100 and costs for having allowed the sale of liquor on his premises under the system practised for so long by the foreigners of clubbing together and buying the liquor to be distributed afterwards amongst themselves.

Let Him Off Easy
 Magistrate Carss declared that this method of doing business must stop in the city. He imposed the minimum fine on Gurvitch because he believed accused was ignorant of the law, and under the impression that he was all right as long as he was not actually selling the stuff himself. But there was evidence given that some actual sales had happened in the house, though Gurvitch said he knew nothing about them.

After a Long Quest
 Chief Vickers has been endeavoring to secure a conviction of this kind for some time, and today's decision was come to under Section 79 of the 1900 Amendment to the Liquor License Act, which places responsibility upon the occupant of any house where any traffic in liquor is proved to have taken place.

In default of payment of his fine Gurvitch will have to do sixty days, but he said he would pay.

Careless Blasting
 M. K. Perich was to have appeared this morning in the police court charged with having allowed careless blasting. As he is required at Victoria in connection with the strike trial an adjournment of his case was called. The blasting was being done near the Continental Trust Company's new building.

Repentant
 Mabel Forster went south this morning escorted by an officer of the city police force. Her fare was paid by the city. She has been a denizen of the restricted district, but said she would turn over a new leaf.

"The newspaper, with the law, should assume the accused innocent until proven guilty; should be the friend, not the enemy of the general public; the defender, not the invader of private life and the assailant of personal character. It should be, as it were, a keeper of the public conscience."—Henry Watterson.

DAILY EDITION.

MONDAY, JUNE 5

THE GRAND TRUNK ASSESSMENT

Owing to the near approach of the time when the citizens will be called upon to vote on the above question to bind the city to an agreement covering a long period of years, and owing also to the evident reluctance shown in certain quarters to discuss the question with the citizens, the Daily News will print a series of editorial articles dealing with the various aspects of the question.

In so doing, there is no desire to sway the minds of the electors either for or against the proposed settlement. The aim will be to state the case fairly, without prejudice, without exaggeration, and without rhetorical appeal, letting the issues be clearly seen, and allowing the facts to make their own appeal to the individual mind. Our chief concern is not which way the electors will vote, but that the electors may know what it is they are voting for or against.

ERRATA.—In Saturday's article of this series showing how the proposed assessment agreement will affect the borrowing power of the city, by an error of vision we misread Clause 68 of the Municipal Clauses Act, limiting the borrowings of municipalities, as being placed at 80 per cent of the assessed values of lands within the municipality. The correct figure is 20 per cent. This means that the shrinkage in the city's borrowing power under the proposed settlement will be \$1,255,300, not \$5,021,200 as stated.

But this makes the matter even more serious, for the loss of \$1,255,300 on a twenty per cent ratio, is much more serious than the loss of \$5,021,200 on an eighty per cent ratio, on the principle, easily perceived, that a man on his way to buy a \$20 suit of clothes with twenty dollars in his pocket, suffers a more severe loss by losing five dollars, than he would if he lost twenty dollars from a wad of eighty dollars.

ARTICLE No. 5—HOW THE PUBLIC ENTERPRISES ARE AFFECTED

In the last article it was shown how the proposed settlement with the Grand Trunk Pacific of the disputed assessment would react upon the city's borrowing power, reducing its power to borrow by at least \$1,255,300. The importance of this upon the future welfare of the city is apparent. Cities, like other corporations, are limited in their enterprises by the extent of their capital. The difference of \$1,255,300 in the city's capital may make all the difference between a city of progressive people owning all their own public utilities, and a corporation-racked city. A great deal could be said on this aspect of the case, which space does not permit.

Owing to its physiography, Prince Rupert has far more than ordinary needs for capital. Usually, cities grow up on sites originally selected for their natural physical advantages—easy level slopes giving natural drainage, natural grades, and easy access to a water supply.

In the case of Prince Rupert, the site was selected by the transportation company, primarily for its physical advantages as a railway and transshipment point. Consequently, the expense of street grading, sewerage and water supply is more than ordinarily heavy, and consequently the civic corporation has more than ordinary requirements for large borrowing power. And—it seems too obvious to add—therefore, it needs to be more than ordinarily careful about granting large exemptions which will make great inroads on the borrowing powers of the city.

Not until after the Court of Revision has closed its books will it be possible to say what the borrowing power of the city is, for innumerable protests have to be heard from the railway company, the development company and from private citizens about their assessment. It is probable that the figure quoted by the assessor as the total taxable values, \$12,920,960, will be much cut down.

There must be considered the view which the financial houses will take of an assessment based on speculation values, next the reluctance of banks to float or the public to accept flotations to the extreme limit of a city's borrowing power, next the fact that bond issues are sold much below par (most recent B.C. issue that of \$958,000 4 1-2 per cent forty year debentures offered by the town of Burnaby brought 96.73) and finally the percentage to the financial house which undertakes the flotation.

While it is difficult to make any confident estimate of what a city is likely to find in the limit of its borrowing capacity on a bond issue it is not unfair to suggest that the usual experience that men meet with when they try to borrow a couple of dollars on their last winter's overcoat, or a couple of thousand dollars on a house and lot, namely, that the lender always accepts his own valuation of the security, and not the borrower's valuation, holds good in the realm of larger borrowings and loanings.

Assuming that the Development Company and the more flagrantly over-assessed private citizens have \$1,000,000 stricken off the assessment and that the proposal to compromise with the railway company on a basis of \$15,000 a year (thus reducing their assessment to the equivalent of \$1,000,000 at 15 mills) is accepted, that makes a total reduction of the present assessment for borrowing purposes of \$2,918,500 and brings the assessment down to \$10,101,460 as a basis of borrowing.

Theoretically, the city would then have a power to borrow up to the limit of approximately \$2,020,000. What percentage of this sum could be raised, is another question. Assuming however, that an issue of \$2,000,000 was hazarded, that an allowance of five per cent covered the cost of advertising, discount and flotation, and that the

whole of the bond issue was taken up, that would give the city a sum of \$1,900,000. How far will that amount go?

There is a sum of \$500,000 to be raised to pay for the Section One grading. There is an issue authorized of \$40,000 for the telephone plant and \$66,000 for the electric light plant, neither of which will provide for extensions which time will make necessary. A sum of \$119,000 is still owing to the Provincial Government for the old waterworks system, and other pre-incorporation expenses. \$80,000 is needed for the plankways in the outlying sections. A sum of over \$500,000 is to be asked for in connection with the waterworks scheme. No contractors' estimates have been obtained for this latter work, which it is understood is to be carried through by day labor. And there is no assurance that \$500,910 will carry the work through.

Thus with a borrowing power hardly capable under the most roseate conditions of supplying more than \$1,900,000 capital, the city is confronted with engagements which call for the payment of over \$1,300,000 in outstanding works. With less than \$600,000 potential capital left, what has the city to face?

In the first place it has to face the need for a permanent City Hall. Under building conditions which will obtain here for several years to come, a large appropriation is needed if a permanent stone, or brick, or steel and concrete Municipal Building is to be erected.

Next there is the demand for sewers, both in the business and the residential sections. The scheme for a permanent sewer system to cover about one-third of Section One, which the City Engineer recently laid before the council called for an outlay of \$180,000. The remaining two-thirds would cost at least pro rata. It is unlikely that a permanent sewer system to cover the whole of Section One could be put in for less than \$600,000. A cheap semi-temporary system to cover the most urgent portions of the business and residential districts would cost as much—and a permanent system would have to be installed later on.

Then there is the question of finishing the street work in the business section, by constructing macadam or other road surfaces, and concrete sidewalks. This has been roughly estimated at least \$500,000. And there are other sections in the city too.

If roadmaking is impossible, there still remains the work of replanking Section One and putting in wooden sidewalks. A sum of \$200,000 would be required for this.

Then there remains the hope that Prince Rupert will be able to own its own gas plant, power plant and street railway.

It would seem as if Prince Rupert has need of every cent of capital it can raise. This work of city-building in which the citizens and the Grand Trunk Pacific are engaged in, is an expensive one. It costs when a city has to be furrowed through rock and piled over muskeg. The proposal to reduce the railway company's tax bill to \$15,000 a year, carrying with it a reduction of over \$1,250,000 in the city's capital, is a serious one. The duty of explaining this consequence of the agreement, is a responsibility which should not be shirked by those who are submitting it to the people for their vote.

The next article will be on "How the Agreement Affects the Waterfront and Trade Development of Prince Rupert."

A GENERAL MEETING OF THE

Prince Rupert Liberal Association

Will be Held in the McIntyre Hall

Wednesday, June 7

—At 8.30 p.m.—

LAND PURCHASE NOTICE

Skeena Land District—District of Coast Range

Take notice that I, William John Corley of Prince Rupert, B. C., occupation rancher, intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of Lot 3058, Range 5, Coast District, thence south 20 chains, thence east 40 chains, thence north 20 chains, thence west 40 chains to point of commencement, containing 80 acres more or less.

Dated April 8, 1911. WILLIAM JOHN CORLEY Pub. April 29.

Skeena Land District—District of Queen Charlotte

Take notice that George W. Arnott of Prince Rupert, B. C., occupation real estate broker, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about seven miles and one-half mile west and one mile south from the mouth of Stanley Creek, Naden Harbor, thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains.

Dated March 17, 1911. GEO. W. ARNOTT Pub. April 29.

Coast Range 5 Land District

Take notice that I, John Hepburn of Kitumkalum, occupation farmer, intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the northeast corner of Lot 3058, Range 5, Coast District, thence south 40 chains, thence west 20 chains, thence north 40 chains to point of commencement.

Dated March 18, 1911. JOHN HEPBURN Pub. April 15.

Skeena Land District—District of Coast Range 5

Take notice that Henry Macartney of Prince Rupert, B. C., occupation miner, intends to apply for permission to purchase the following described lands:

Commencing at a post planted on the south side of Exchumiska River, about 2 1-2 miles from its confluence with the Skeena River and about 1-2 miles west from Exchumiska rapids, thence 30 chains north, thence 40 chains east, thence 30 chains south, thence 40 chains west to point of commencement, containing 320 acres more or less. Post marked "H.M. S.V. Co."

Dated April 22, 1911. HENRY MACARTNEY Pub. April 29.

Skeena Land District—District of Cassiar

Take notice that I, Mary Gail Stewart, B. C., occupation married woman, intend to apply for permission to purchase the following described lands:

Commencing at a post planted about two miles south and two miles west of the forks of White and Flat rivers, thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains east.

= THE COSY CORNER =
DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

FRENCH MODEL IN FOULARD

One can tell at a glance that this model was designed by a French modiste, and it is exactly suited for a tall, slim figure. The skirt is plain blue satin foulard and the tunic and shortwaisted bodice is same shade, dotted with small black squares. The joining of bodice and tunic is made under an upstanding frill of black satin, which is also used on bottom of tunic and around skirt at hem depth. Sleeves and round neck are finished with a band of cream lace insertion.

A FORGOTTEN AIR

'Tis the ecstasy of repose,
'Tis love when tired lids close,
'Tis the wood's long shuddering
In the embrace of the wind,
'Tis, where gray boughs are thinned
Little voices that sing.

TOO HEAVY

Those who are too heavy in spite of the fact that only a moderate amount of food is taken, must turn their attention to methods that will insure a more perfect oxidation. Exercise in the open air is first and best. Long walks at a fairly rapid pace, beginning with a mile and increasing to five or more each day, are within the reach of, and are safe for, almost all corpulent people. Golf, for those for whom it is a possibility is one of the most enjoyable cures imaginable, necessitating, as it does, walking, deep breathing, and mental activity, all nicely compounded with the spirit of play. Tennis might do for those young enough to enjoy its rather violent virtues. It is only practicable for those "inclined to be stout." It may be considered an excellent preventive treatment. The game is obviously impossible for the truly obese. Indoor bodily activity has

Simple Way of Weight Reduction

Those who are too heavy in spite of the fact that only a moderate amount of food is taken, must turn their attention to methods that will insure a more perfect oxidation. Exercise in the open air is first and best. Long walks at a fairly rapid pace, beginning with a mile and increasing to five or more each day, are within the reach of, and are safe for, almost all corpulent people. Golf, for those for whom it is a possibility is one of the most enjoyable cures imaginable, necessitating, as it does, walking, deep breathing, and mental activity, all nicely compounded with the spirit of play. Tennis might do for those young enough to enjoy its rather violent virtues. It is only practicable for those "inclined to be stout." It may be considered an excellent preventive treatment. The game is obviously impossible for the truly obese. Indoor bodily activity has

real value in these cases; anything in fact, that will tempt from idle ease is to be encouraged; hence bowling, a game full of interest, can be made to serve as a remarkably agreeable reducing agent. Any good system of physical culture followed faithfully, not as a substitute for, but in addition to, sufficient outdoor exercise, will prove valuable.

Baked Onions

Parboil Bermuda onions ten minutes. When cold remove centre and fill with mixture of bread crumbs and chopped centres, seasoning highly and adding a generous amount of butter. Sprinkle with buttered crumbs, cover and bake an hour in a pan containing a little water. Uncover and brown lightly.

HOME HINTS

Every One a Trouble Saver

For afternoon tea, toast seems to be better liked than most anything else. It is thin and cut into round or diamond-shaped pieces.

When creaming butter for cake-making try pouring it through an ordinary potato masher and see how much time and labor you can save.

If the sewing machine band is too loose drop a little castor oil in the groove of the wheel and turn the wheel very fast for a few moments.

To secure the threads in machine sewing so that they will not rip, nor need to be tied, turn the goods round and stitch backwards for half an inch.

When making cream of onion some use half a bay leaf, a bit of minced parsley and a bit of mace for seasoning. It will be found exceedingly tasty.

Use thumb tacks for fastening the ironing sheet to the board. They will hold it more firmly than pins and are more easily removed than ordinary tacks.

WHY OWN

WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER?

Because it is a NEW CREATION, covering every field of the world's thought, action and culture. The only new unabridged dictionary in many years.

Because it defines over 400,000 Words; more than ever before appeared between two covers. 3700 Pages. 6000 Illustrations.

Because it is the only dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopaedia in a single volume.

Because it is accepted by the Courts, Schools and Prom as the one supreme authority.

Because he who knows Wins Success. Let us tell you about this new work.

UMBRELLA TIP

You Can Wash Your Thunderstick Any Time

In case your umbrella falls into the mud and the dirt cannot be brushed off, wash it with soap and lather. First grease the inside wires to prevent them from rusting, then proceed to wash the cover, scrubbing the soil-spots with a soft brush. Next rinse it with cold water, inside and out, and hang in the sun to dry. It is best to keep the umbrella open all the time, and it will look like new when the washing is completed.

Hazelton Hotel Host

By the Prince George this morning there arrived R. J. McDonnell, the successful and popular Hazelton hotelkeeper. He is staying at the Premier Hotel here, and will go up river by the first boat.

Baked Eggs

To make baked eggs, separate the yolks and whites of as many eggs as are required. Beat the white of each one stiff, place upon a thin square of buttered toast; lift the yolk, whole, into the centre of the mound of beaten white, sprinkle the whole with salt and pepper, and brown delicately in the oven.

Uncle Jerry's Trip

In his fine launch Ka Yex Mr. J. H. Kugler has been having a trip to the head of Tuck's Inlet where he spent a couple of days. Fishing was good there, and Uncle Jerry landed lots of flounders.

Gold Shades

The combination of gold shades with black and white is one of the spring productions and is distinctly handsome. Despite protest, black and white are still in favor, although in many cases dull silver and gold is used, added for the sake of novelty.

Uncle Jerry's Trip

In his fine launch Ka Yex Mr. J. H. Kugler has been having a trip to the head of Tuck's Inlet where he spent a couple of days. Fishing was good there, and Uncle Jerry landed lots of flounders.

CLEARED

Lt. Col. Munro Not Implicated in Farmers' Bank Fraud

(Canadian Press Despatch)

Toronto, June 3.—Lieut. Col. Munro, former President of the Farmers' Bank, has been declared innocent of the charges of making false returns to the Government concerning the affairs of the bank.

Hazelton Hotel Host

By the Prince George this morning there arrived R. J. McDonnell, the successful and popular Hazelton hotelkeeper. He is staying at the Premier Hotel here, and will go up river by the first boat.

ITEMS OF SPORT

Frank Parks, five times heavyweight champion of England, was beaten the other day by W. Shengler of New York, the metropolitan champion in this class.

Davidson has made three home runs in three consecutive days. Bues has not made one in the same length of time, but he has delivered hits that were much harder and would have carried farther in a large park.

Speaking of hitters, do not overlook that fellow Goodman, who is playing third for Victoria. He has corralled seven in the last three games, and all of them have sounded good. He handles the bat well, meeting the ball squarely on the seam.

Chicago, Detroit and St. Louis are the leading bidders for Third Baseman Arthur Bues. Manager Tighe has not decided which team will get the prize, but the deal will probably be closed within a week or so. Big money is usually paid for pitchers, but Bues is worth a big chunk of dough to any major league club that is not well fortified at third.

Joe Custer of Brooklyn has just administered a severe beating to Frankie Conley of Kenosha, Wis., in a 20-round bout at New Orleans. Three judges were unanimous in awarding the Brooklyn boy the honors and he is now slated to meet Abe Attell for the featherweight championship. Conley was a favorite with the crowd. Both boys appeared in excellent condition. They weighed 122 pounds.

The name of the new umpire who has been signed to take the place of Ralph Terry is Nagel and he hails from Montana.

Umpire Baumgarten is not so bad. He is at all events an awful relief after what has been heard of these Northwestern League umpers.

Fred Luderus, the former Maroon star who has been playing in such form for the Philadelphia Nationals this season, is tenth in the batting averages of the league with the splendid figures of .317.

The Winnipeg North End Amateur Athletic club created a wonderful record in the Victoria Day sports, capturing nearly everything in sight. The club was organized in November, 1907, and since that time has been steadily growing into what promises to be one of the strongest athletic combinations on the continent.

According to unofficial batting averages of the Western Canada Baseball league Eddie Taylor of the Maroons is leading the league with an average of .410. Donovan is fourth with .276, while the name of Van Dine, the heavy hitter of the team, is not mentioned at all.

OPERATOR IS BADLY DAMAGED

Tall Tree Crashes Down on Her Stern from High Bank

Saturday night a sensation in the city was the arrival from up river of the steamer Operator of Messrs. Foley, Welch & Stewart's fleet with her stern-wheel and deck aft considerably smashed by the fall of a tall tree which crashed down from the bank of the river above her at Mile 71. No one was hurt by the falling timber or the splinters below deck, but the boat was partially disabled, and had to return to Prince Rupert for repairs.

It was impossible to continue the journey up stream owing to the state of the engine-room, but the Operator after temporary repairs managed the down stream trip safely and limped into Rupert. She was taken over to the ways at Digby Island this morning, where she will be repaired. The job will take several days. Besides the smashing of timbers on deck, considerable damage was done to steam pipes and connections in the engine room, and the services of A. T. Parkin of the Parkin Ward Co., were requisitioned this morning to assist the engineers.

The tree which struck the steamer was loosened by a slide, and it was fortunate that it did not fall a moment or two sooner otherwise most likely several persons might have been injured, and lives might have been lost.

BEFORE G. T. P. IS THROUGH

Will be Rush of Prosperity for Rupert

BY BULKLEY RAILWAY

Fresh Impression of Prince Rupert's Prospects Expressed by T. D. Pattullo this Morning after Business Visit from Victoria.

After a short business visit to Prince Rupert in the interests of clients in Victoria and the south, T. D. Pattullo returned to Victoria by the Prince George this morning. Mr. Pattullo has always been a believer in the axiom that Prince Rupert's prospects can be appreciated even more after a spell away from the city; and fresh from the older cities down below, he is more than ever convinced of the coming prosperity of Prince Rupert. In parting chat this morning he remarked: "I am well pleased with the outlook in Prince Rupert.

"While development will move more slowly until the railroad is completed than had we a road already, yet I think that as soon as the road runs a regular service tapping the Bulkley valley district, local trade conditions will be greatly stimulated and population will increase.

"Prince Rupert will in a few

years hold a record as a rapid moneymaker.

"A number of western places have already gone forward so quickly that it is not to be expected that this same furious speed can be continued indefinitely. Prince Rupert is at the beginning of her career and will by reason of more felicitous conditions move forward much more quickly than other cities have experienced in the same time.

"Coincident with the completion of the railroad will undoubtedly be a great rush of people to Northern B. C. Meantime this city should enjoy a well seasoned measure of prosperity."

KILLED HIS WIFE AND ESCAPED

Tragedy Shocks the People of New Westminster—Mrs. Jones the Victim.

(Canadian Press Despatch) Vancouver, June 5.—No trace can be found of William Jones who shot and killed his wife at New Westminster on Saturday. It was thought that he took a car to Vancouver, but now it is believed that he must have made his way to the boundary, and is now in the United States.

Uncle Jerry's New List

Carpenters are getting busy on residences all over town but even with this building activity it will be some time before the demand for dwelling houses and apartments can be supplied if it ever is, because of the number of new people arriving with the object of making homes here. My correspondence upon this subject with parties now on the outside is constantly increasing so I make an especial appeal to those having apartments and houses to rent or for sale to immediately list them with Uncle Jerry.

"ASK UNCLE JERRY"
We have also a hotel proposition worthy of consideration, several business opportunities, stores to rent, boats for sale and so forth.
There has been a surprising demand recently for farm lands up the Skeena and in the Bulkley valley. We have a large amount of acreage, carefully selected, all the way from Kitseles to Francis Lake, with full descriptions of the character of the soil and so forth. The price at present is low, running from \$10 an acre up. Some of the land is partly cleared and has farm buildings on it. You should certainly look into this.

Jeremiah H. Kugler
