WORKMEN TAKE BALLOT ON QUESTION OF STRIKE

Held Mass Meeting at Rink Last Night---Ald. Newon Gives Ingenious Explanation of the Councils Resolution Which Seemed to Please Workers ---Will Take Ballot Today.

By a decision arrived at after hours of discussion on the part of the wage-workers in the Rink last night a strike ballot is being taken today in the Industrial Hall. Men payed at the rate of 37 1-2 cents per hour agreed to lay off work while the ballot is being taken. A meeting will be held tonight when the result of the vote will be announced, and the workers will adopt their plan of action accordingly.

Contractors All Refused

Yesterday's ultimatum to the contractors resulted in the flat refusal of the 45 cent rate by five contractors. While a strong non-English speaking section of the workers seemed in favor of declaring a general strike, the probability is that the strike will be confined to the contracts where the 45 cent rate is refused. This, however, involves the complication that men employed by the city to build retaining walls are served with their material by the gangs working for contractors at 37 1-2 cents per hour. If the 45 cent men stay with it while the others get only 37 1-2 cents they are "scab-

G. T. P. PLANS FOR SETTLING SKEENA RIVER DISTRICT

W. P. Hinton Says Active Colonization and Passenger Traffic on a Large Scale will be Undertaken This Summer---Will Open Up a Great Fruit and Agricultural District.

(Special to the Optimist)

Vancouver, March 1.—That colonization on a large scale all through the Skeena district will be carried on this summer, and that passenger trains will be running on regular schedules for 250 miles out of Prince Rupert are statements made here by Mr. W. P. Hinton, general passenger agent here for the G. T. P.

He said the company has its plans all laid to undertake colonization and passenger traffic on a large scale. Before the summer is over he said they will be carrying passengers on a regular schedule as far east as Aldermere, 70 miles beyond Hazelton and 250 miles from Prince Rupert. One of the richest fruit and general agricultural districts in the world will be opened up throughout the Skeena river district, and this will mean a tremendous development for the province.

Already, he said, many settlers have taken up holdings in the district, but during the present summer active an colonization campaign will be started. The line east from the coast will be linked to the line from the Yellow Head Pass inside of two years, is the prediction of Mr. Hinton.

MANITOBA'S BUDGET

Telephones Show a Surplus Revenue of $110,000

(Special to the Optimist)

Winnipeg, March 1.—The Provincial Budget presented today shows a revenue of $3,847,320 with estimated surplus of $612,380. The Provincial Telephone system gave a surplus of $110,000. The revenue from telephones this year is estimated at $1,300,000.

HILDITCH'S LICENSE BY-LAW

Read for the First Time. Discussion Next Council

Alderman Hilditch with the permission of the Acting Mayor, introduced his amended Liquor License By-law at the last council. It was formally read for the first time. Acting Mayor Smith mentioned that the Moral and Social Reform Party in this city had expressed the wish to send a deputation to the council when the by-law comes to the committee of the whole; and it was accordingly agreed that the city clerk shall inform the Moral Reform Party that the By-law will be discussed on Monday next.

NO COLOR LINE FOR BILL TAFT

APPOINTS BOSTON NEGRO TO A HIGH LEGAL POSITION

Mr. W. H. Lewis Made Assistant to the Attorney-General at Salary of $5,000. First Time Negro is Given so Prominent a Position.

(Special to the Optimist)

Washington, March 1.—President Taft announced today the appointment of Mr. William H. Lewis of Boston to be assistant to the attorney-general at the Department of Justice, at a salary of $5,000.

The appointment has created a lot of comment, for Mr. Lewis who belongs to Boston, is a negro. His legal ability is unquestioned, but the fact that he has been selected for a position over the heads of several white men, is taken as an indication that President Taft has decided not to observe the color line in making appointments.

This is the first time that a negro has been appointed to such a prominent position.

VACCINATION IS NOT COMPULSORY

CONSCIENCE CLAUSE IS ADDED TO THE HEALTH ACT

Persons Who Have a Conscientious Belief That Vaccination Is Not for Their Benefit Will be Excused from the Lancet.

(Special to the Optimist)

Victoria, March 1.—In the closing hours of the Legislature an important amendment was added to the Health Act today, by the addition of a "conscience clause" for the benefit of those who are opposed to vaccination. This is a result of the agitation in certain quarters against compulsory vaccination.

The conscience clause is in practice in England, and under it, any who have a conscientious belief that vaccination would be injurious to them, on making a declaration, are excused from the provisions of the Act.

BIG FIRE AT INDIANA

Haynes Auto Factory Destroyed—$700,000 Damage, Two Lives Lost

(Special to the Optimist)

Kokomo, Lnd., March 1.—By a disastrous fire late last night caused loss of $700,000 and two lives when the factory of the Haynes Automobile Company was destroyed.

The business was one of the most important in this section of the state and many men have been thrown out of work.

FAMINE SCENES DEFY NARRATION

THREE THOUSAND PEOPLE ARE DYING DAILY IN CHINA

People Are Pulling Down Their Houses and Examining the Debris for Scraps to Eat. A Missionary's Thrilling Tale.

(Special to the Optimist)

Shanghai, March 1.—Thrilling stories of the awful scenes in the famine district are being told by a missionary who reached here this morning. He says the horror of the scenes defy language to tell. He has been in the thick of the work in the danger zone engaged in relief work.

He says 3000 persons are dying daily; that 350,000 more are wholly dependent on the work of the foreign famine committee. In many places dogs and cats are being killed for food, and houses are being pulled down by the occupants and the debris examined for anything that can be eaten.

Songs by Miss Nyland at the Phenix.

PRINCE GEORGE EARLY TODAY

Berthed at 10 a.m. After Fine Voyage in Superb Weather

By the steamer Prince George this morning there arrived 115 passengers, and 205 tons of freight were landed. A swift run in glorious weather is reported. Among the passengers for Prince Rupert were Colonel Davis, G. M. Clayton of the Atlin Construction Co., Mr. Tom Dunn and Miss Helen Dunn, J. H. Bacon, Messrs. C. C. and J. D. Westenhaver, C. B. Wark and A. J. Prudhomme. Fifteen passengers are for the Islands and Stewart, including Mr. Percy Goodenrath of Stewart.

FERNIE DENIES RUMOR

Says There Is no Strike of Miners at Frank

(Special to the Optimist)

Fernie, March 1.—There is no truth in the rumor that there is a strike of coal miners either here or at Frank. A previous report emanating from Winnipeg is incorrect. There are local grievances here only and these have been adjusted, and the mines are all working as usual.

LEGISLATURE ENDS WORK AMID HISSING AND JEERS

Big Delegation From Vancouver Threatened With Expulsion From the House---Return Home Indignant with the Treatment They Have Received---Angry with the Premier

(Special to the Optimist)

Vancouver, March 1.—Stirring scenes were witnessed in the Legislature yesterday afternoon, when the South Vancouver and Vancouver delegates swarmed into the galleries and heard Premier McBride announce definitely that the Government would not under any circumstances reconsider its decision on the South Vancouver Annexation Bill.

At one time the disorder grew so violent that the Speaker Eberts had to threaten to clear the galleries. The delegation are returning to their homes filled with dissatisfaction at the manner in which they have been treated by the Government.

When Mr. H. H. Watson, member for Vancouver, after the Premier's address, rose on a question of privilege to deny that he, as reported in a Vancouver paper, was opposed to the Government's course re annexation he was hissed from the gallery which was crowded with the South Vancouver and Vancouver delegates. Continuing he said that when he was in accord with the Government he would resign. He was again interrupted from the gallery amid cries of "Do it."

The Speaker called for order and threatened to clear the gallery unless order was restored. The Companies Act passed its third reading. The House will probably prorogue today.

$40,000 ROBBERY REPORTED ON THE PRINCESS BEATRICE

Gold Dust, Registered Mail and Currency was Missing When the Vessel Got Into Vancouver From Last Northern Trip---Police are Busy on Mysterious Case.

(Special to the Optimist)

Vancouver, March 1.—That gold dust, registered mail and currency to the value of $40,000 was stolen from the strongroom of the Princess Beatrice on her last journey from the north is the sensational story that is reported here to the authorities. The greatest secrecy is being observed about the matter, and the authorities decline to make any statement as to the exact amount and nature of the stolen property. It is known, however, that the Beatrice took on board at Skagway a large quantity of gold dust for transportation to the south.

The authorities profess to have no clue to the perpetrators, though the extent of their real knowledge is not of course made public. The first intimation of the robbery is said to have been given by the discovery that the registered mail sacks had been looted. The police and detectives are busy on the case, and sensational developments are looked for in some quarters.

City Hall Paragraphs

Vaccination lymph has arrived, and in accordance with the law the city will provide a place for citizens desirous of being vaccinated by the Health Officer to attend at for the operation. Probably Dr. Reddie's own office will be used.

SPRING and House Cleaning Will Soon Be Here

and this suggests some of the following articles :

Old Dutch Cleanser.....10c	C. & B. Potted Meats..20c
Sanatine Cleanser.....10c	Bruce's Potted Meats..15c
Lye, per tin.....10c	Van Camp's Macaroni and Cheese 15c
Chloride of Lime, tin...10c	An excellent soup may be made from a jar of Armour's French Potage 20c
Lux, just the soap for those fine flannels....10c	A tin of condensed clams or Campbell's soups at 15c will serve same purpose.
Speaking of house cleaning reminds us that during those trying days the culinary arrangements are somewhat disorganized and a quick and tasty lunch is often desirable, for this we recommend :	In cheese we have choice Canadian, Swiss, Holland, Vaset, also the celebrated Edelweiss from the German Alps.

Do not forged that in conjunction with our complete stock of staple and fancy groceries we have lately received a shipment of choice Yakima potatoes which are selling ac 2 3-4c per lb.

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

Social Notes

Major Gibson was the host at a very pleasant dance last evening at his residence on S cond avenue, in honor of the Misses Rochester who are leaving shortly for Vancouver.

Mrs. P. I. Palmer will receive for the first time on Thursday afternoon at her residence, Fourth avenue and Hays Cove Circle.

Danger in Your Shoes

The elusive germ discovered in everything conceivable has been caught hiding in another stronghold by British scientists recently and the humble instrument of his propagation proves to be nothing more than an old shoe.

The shoe dealer and the cobbler are to be subjected to medical inspection if the health officers of Manchester carry out their threats, because, they declare, millions of germs are conveyed from one person to another by the common practice of trying on shoes and also by the transfer of germs from one shoe to another while in the cobbler's hands.

In cases of tetanus, scarlet fever, eczema or erysipelas, every one is extremely careful to burn or disinfect the clothing but often the shoes are overlooked and these diseases are readily conveyed by the wearer to his neighbors, especially in the case of scarlet fever.

The germ hunter is ever active, and it seems to the man who is in love with the good old times when we all drank out of the same rusty tin cup at the spring that we are not going to be permitted to breathe in the same room with another after a time, but will each wear our own little breath purifier. A man in Ohio recently went the limit when he insisted upon carrying his own car strap, so that when he had to "hang" he would not be forced to use the device which had been besmirched by the grimy hands of his fellow travelers. and yet the precautions which we take and which our fathers never heard of are doubtless the only reason why we can live in our congested, overpopulated quarters and contrive to keep alive at all. So look out for your shoes.

High Price for a Husband

Emilio de Gogorza, the operatic baritone is just about the highest-priced husband you could find in a tour around the world.

According to rumors from Europe, Emma Eames, the famous prima donna, who is known as de Gogorza'a "musical affinity," has coughed up $100,000 to get the big baritone as her hubby.

Before Madame de Gogorza allowed her husband to get a divorce she insisted that he make ample provision for her. Her price was $100,000. De Gogorza hadn't the money. Emma Eames had. She put it up. They are to wed when the flowers bloom in the spring.

Girls and Their Hair

Athletic girls should make a point of being so trigly put together that they do not fall to pieces in the stress of play or feel afraid that they may do so. Men sometimes scornfully say that girls cannot play games with an undivided mind because half of their gray matter is taken up with anxiety lest their hair is falling down, an anxiety so keen that their hands are forever going hairward to adjust slipping pins. Now, that is an aspersion which all athletic girls should resent, and they should make such comment impossible by arranging unruly locks in such a way that no further thought of them is necessary.

After Dinner Coffee

Cafe noir is a strong decoction of black coffee which is served in small cups and is often partaken of unsweetened or merely flavored with a teaspoonful of brandy, or it may be sweetened with a spoonful of stiffly whipped cream on top of each cup.

To produce Turkish coffee the coffee is put into a little metal pot in the proportion of two large tablespoonfuls of coffee, two lumps of sugar and half a pint of boiling water. Allow it to boil and bring it to a boil three times, after which pou it off into hot cups. This coffee should be served without milk or cream.

OUR DAILY RECIPE

Macaroni Croquettes

Break one-quarter of a pound of macaroni into half-inch pieces and boil rapidly in plenty of boiling salted water for about twenty-five minutes; throw in cold water for about five minutes to blanch, then drain. Scald one cupful of milk; rub one large teaspoonful of butter and two rounding tablespoonfuls of flour together until smooth, then stir this into scalded milk. Stir continually until it thickens; add the yolk of one egg, heat for half a minute over the fire; add the macaroni, one tablespoonful of Parmesan cheese, salt and pepper to taste. Mix well, cool and form into croquettes; roll in egg and bread crumbs and fry in smoking hot fat. Serve with cream sauce.

GOT THE MARRYING HABIT

Swis Couple Aged 19 on hei Second Honemoo

Geneva, Feb. 26.—A young couple of Zurich, Herr and Frau Horgen, each aged 19 years, have just set up a matrimonial record.

They were married when 18, and soon after the honeymoon the girl wife became homesick and ran away to her parents. A divorce followed, then a reconciliation, and a few days ago they were re-married at Zurich, and are now on their second honeymoon.

Within the space of a year the Horgens have been married twice, have been divorced, and have had two honeymoons.

The Swiss divorce laws are lenient, prompt and very cheap. A decree, which is ab olute as soon as it is pronounced, may be obtained within a month, and the costs may be anything from $20 to $100 in ordinary cases.

PRETTY PILLOW CASE DANCE

Kaien Island Athletic Club Organise Charming Function

In the gymnasium of the Kaien Island Club Monday night, a successful Pillow Case Dance was held under the auspices of the Kaien Island Ladies' Athletic Association. There was a large attendance of Prince Rupert's prettiest dancers and most popular young men, and the function proved from start to finish a delightful function. Gray's Orchestra was in attendance, and to the best of music the fun was kept going till the small hours.

C. N. P. IMMIGRATION AGENT HAS A DELICATE MISSION

Hopes to Make Life Interesting for Some of the Bachelor Farmers of British Columbia and Alberta very Soon.

Winnipeg, Feb. 27.—Few Canadian officials have visited England with a more delicate mission than has Thomas Howell, the general immigration agent of the Canadian Northern, whose duty it is to find five thousand wives for bachelor farmers in British Columbia and Alberta. In Western Canada there are no fewer than 30,000 young farmers who attend to all the housework for themselves besides looking after their farms. It is for this reason that Mr. Howell is visiting the old country with the purpose of finding five thousand young girls who will come out and share their lot with them.

Mr Howell only arrived in England at the beginning of the month-but already he has received innumerable communications from interested lassies. Mr. Howell will be assisted in the work which he has undertaken by six ladies and ten lecturers who will make a tour of the country going through the towns and villages in order to get in touch with the right kind of girls.

Offices have been opened in the provinces. The girl will be brought across the Atlantic under the supervision of a matron and great care will be taken to see that everything is perfectly satisfactory regarding the marriage contract.

FILLING UP OF BAYS

Matter of G. T. P. Line Around Prince Rupert Waterfront

The Hon. William Templeman has written to the city council stating that he has instructed Messrs. Pringle & Guthrie to watch the matter of the filling up of the small bays around Prince Rupert waterfront by the G, T. P. which is now before the Minister of Railways.

The firm have informed the council that they have discussed the matter at length with the minister, who reserved judgment. In spite of the resistance of the G. T. P. through Mr. D'Arcy Tate, the question will be brought before the Board of Railway Commissioners. Meanwhile Messrs. Pringle & Guthrie are attending to the case, and will keep the council posted. They ask that the strongest possible proof of the value of these small bays to navigation be brought forward by the city, and state that they cannot immediately give an estimate of the probable amount of their account for services in the matter.

HAS CONFIDENCE IN RUPERT

Captain Allcock Decides to Retain His Investments

Captain Allcock, the harbor master who is leaving the city for the south to retire from active life, has decided not to relinquish any of his real estate holdings here. Prince Rupert looks better to him every day and he is convinced that the city has a future of great magnitude.

It is this sanguine confidence of the men of experience that should give the prospective investor a strong lead.

"Ted" Morrison's New Quarters

Drop in tonight and see your old friend "Ted" Morrison in his fine new premises on Second avenue opposite the Kaien Island Club. Nothing small about this. Big airy pool room and bowling alley. Everything you may want in the way of cigars, tobaccos, etc. An enjoyable evening is assured at "Ted's."

GEORGE GOULD YIELDS CONTROL

GIVES MISSOURI PACIFIC RAILWAY TO ROCKFELLER

Did not Strike a Blow—Had Probably Lost Confidence in His Ability to Handle a Railroad Campaign.

George G. Gould has lost what is probably his last railway fight, and he has lost it before entering the ring. A fighter by nature he has surrendered control of the Missouri Pacific, the finest railroad property which his father, Jay Gould left him, without striking a blow. In the past he has fought desperate battles in the face of overwhelming odds, and lost them, notably in the case of his fruitless struggle with the Pennsylvania, but time has taught him discretion, and he has yielded control of this great line to the Kuhn, Loeb & Co., and Rockfeller interests without a show of resistance.

These powerful American interests also had behind them the Deutsche Bank of Berlin, which represented the majority of the foreign shareholders in Missouri Pacific, and this combination of foes was practically irresistible. It is almost a year since the attacking party began the collection of proxies, and the gathering of their forces. This was carried out so secretly that Gould's attention was not awakened, and when the lawyers of his opponents demanded the books and lists of shareholders of the company a short time ago, the old railroad president knew that he had lost the fight before he had begun it, and that he had no choice left but a wise retreat. It was more family tradition than belief in his ability as a great railroad president that had led him to retain control of the inherited properties for so long, and it will be more as a family than a financial loss that he will feel his recent defeat.

SQUAWS FIGHT TO THE DEATH

EXCITING COMBAT TAKES PLACE IN NEVADA

Posse Pursuing Indian Murderers Killed Women and Children in Their Fight With the Tribe.

(Special to the Optimist)

Winnemucca, Nev., Feb. 28.—Eight Indians, including two squaws and two children, together with one white man were killed in a running fight here yesterday when a pursuing posse of twenty-one men came upon a band of twelve Shoshones charged with the murder of four wealthy Nevada stockmen last January. The squaws were armed only with bows and arrows but they fought stubbornly by the side of their braves until the band were silenced by the guns of the pursuing party. The remainder of the Indians were captured and will be placed on trail.

STILL NO FIRE ENGINE

Ald. Newton Once More Gently Reminds the Council Of It

Probably the quiet manner in which Alderman Newton on Monday night asked the Acting Mayor whether he had heard anything yet of the famous fire engine on order, had more effect than if the redoubtable alderman had "fulminated thunder" about it. He called attention to the fire risk the city ran every day the fire engine delayed, and asked whether one or two smaller chemicals might not be ordered in case the machine broke down when it did arrive.

Information regarding the far-off fire engine was not forthcoming but enquiries will be made by the city clerk for the fire committee.

The Prince Rupert Optimist

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

SUBSCRIPTION RATES—DAILY, 50c per month, or $5.00 per year, in advance. WEEKLY, $2.00 per year. OUTSIDE CANADA—Daily, $8.00 per year; Weekly, $2.50 per year, strictly in advance.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

ADVERTISING RATES are one price to all—25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract. Transient advertising will be charged at 10c. per line.

DAILY EDITION. WEDNESDAY, MARCH 1

A Message to the Workers

Since the demand of the Industrial Workers was sent to a committee for investigation, the Optimist has purposely refrained from discussing the pros and cons of the men's request. That was in fairness to the committee. The question was *sub judice*, and comment while the matter was before the tribunal, would have been improper.

Upon the decision of the committee, the Optimist thinks it better to make no comment. Public opinion is already sufficiently heated, and many are ready to lose their judgments. Comment on the matter may only still further inflame the men's passions. And nothing that could now be said can reverse the judgment of the city council.

But before the men commit themselves to a decision to strike, we would urge them to cool reflection. With the rights and wrongs of the question, it is idle now for either side to waste words on. That has already been made the subject of a decision. With the rights or wrongs of the case, the result of a strike is but little concerned. Strikes are won or lost by economic pressure, not by rights or wrongs.

The question for the men to decide first, is whether they are strong enough to win, whether a victory would be worth the price, and whether their surest route is not by more peaceable paths. The elements in the present conflict are so different to those in most labor disputes, we would in all friendliness—and at the risk of being misunderstood—urge the workers to a careful weighing of their chances before precipitating a strike.

In ordinary labor disputes affecting railroads or industrial corporations, the workers' chance lies in arresting the flow of dividends to share-holders. In the present case that element is absent. The citizens are accustomed to using the plankways, and a tie-up of the grading operations would probably not inconvenience them enough to bring pressure on the council. The real estate men would suffer owing to the tie-up in the market, but on the other hand, most of the real estate men are known to be opposed to the 45 cent increase, and it is probable they would rather suffer for several months than ask the council to guarantee the increase to the contractors.

The contractors have no shareholders clamoring for dividends to worry them into submission. They claim that while the men are working on the line for $3 for 10 hours, they will have no difficulty in getting laborers at $3 for 8 hours.

The workmen would do well to consider in face of the certainty that a strike would be a long one, whether they would not do better to accept the sops offered by their friends on the council and wait until another council comes into power. Some of the aldermen have already expressed their readiness to retire if they can do so without incurring legal penalties. The workers have received a lesson in politicians' promises which may be very valuable to them in days to come.

Notes and Comments

Is the faction fight in the council spreading? Last night, Alderman Newton told the Industrial Workers that "only one member of the council had funked the issue and gone away." It is high time little Willie returned and squared himself with the electors.

The decision of the Industrial Workers last night not to consider a "sabotage" strike, reflects credit on them. Let us all when we work, work fair, and when we fight, fight fair. The Industrial Workers have the spirit of the West.

FELL OUT OVER LIGHT PLANT

ALD. HILDITCH CRITICISES AND ALD. CLAYTON RETALIATES

Light Department in the Dark Hints Hilditch. Streets Department Is Worst Managed and Costliest in the City, Says Ald. Clayton.

A little tiff between Alderman Clayton and Alderman Hilditch took place at Monday's council meeting. Alderman Hilditch expressed the opinion that as the summer comes on and the output of the light plant will decrease, the salary of $200 per month fixed for E. Love as manager of both the 'phone and light plants seems high.

Alderman Clayton came in saying that the two departments in the city which are recognised as the most efficient are the telephone and light departments. "When Alderman Hilditch's department is as efficient it will be time for him to talk," said Alderman Clayton. "He has all along been promising to do great things in the way of improvements and cutting down expenses, but there is nothing to be seen yet. When his own department is in as good condition, it will be time enough for him to criticise men who are doing their best to get something really done in this direction."

Alderman Hilditch denied that the light plant was as efficient as Alderman Clayton made out. The saving in coal consumption he said was really due to the fact that only one boiler was being used. The light plant was not lighting all the area it had been expected to light.

"It seems," said Alderman Clayton, "that Alderman Hilditch's information on this subject is the same as it is on many other subjects. He knows very little about it. We are not using two boilers because we do not need two boilers, and the saving in coal comes to about $25 a week."

Alderman Hilditch asked the chairman of the light committee the direct question: "Are we getting out of the light plant the result we expected?" Acting Mayor Smith replied that the plant was not doing all that was expected of it yet.

"Then," said Alderman Hilditch, "I still say that the department is not the credit it may seem in some citizens' eyes."

As to extension work Alderman Hilditch was apprehensive. "It has cost about $42,000 instead of $22,000 to put in the plant we have," he said. "We cannot supply light at the promised rate of 15 cents per k.w. hour with the plant at its present cost. If we extend at the same rate as we built it will not be a profit earning concern."

"It seems," said Alderman Clayton, 'that Alderman Hilditch is bound to get off on the wrong foot. He wants us, and the public, to believe that because the first 100 k.w. cost $42,000, the second 100 k.w. is to cost at the same rate. This is not so. The initial cost of installing this plant was heavy but the engine is powerful enough. As far as criticism goes, the department of which Alderman Hilditch is chairman is the worst managed and the most expensive in the city."

With the wings of an angel of peace Alderman Newton entered the discussion. He pointed out that even if the light output was lessened in summer, the plant might be turning out power. Then Mr. Love's salary would be justified.

MAYOR MANSON IS NEEDED

Auditor's Report of City Finances Puzzles the Aldermen

As an expert accountant, Mayor Manson is going to prove of great assistance to the city council when he gets back from Victoria. On Monday the aldermen began to consider the auditors' report on the city finances. They sat in committee of the whole, but after a little discussion they all quit, agreeing that it will be ever so much better to let Mayor Manson stay with the job for a day or two when he comes back so that he can unravel the mysteries of the figures and explain them to the council.

PRINCE RUPERT OPPORTUNITIES

FRIENDLY MESSAGES NO. 7

Had a letter from Vancouver today and heard some tall knocking there about Prince Rupert. Good sign. That means Vancouver is commencing to sit up and take notice. And it will from now on if I and the other boosters of Prince Rupert are on the job and help the natural development of this wonderful city and harbor.

That brings me to the possibilities of Prince Rupert's future. Don't believe that Prince Rupert will never become a first class city. It will. We have the geographical location; we have the finest harbor on the Pacific in Canada, and we will have a cracker-jack railroad in a few years, maybe more than one. That all means progress and growth and expansion.

And that also means that we have the opportunities.

Prince Rupert Opportunities are my line.

If you have money to invest, see me.
If you have property to sell, see me.
If you need money, see me.
See me anyway.

FIFTH STREET EXTENSION

Ald. Morrissey's Favorite Scheme in Council Again

Strong pressure, says Alderman Morrissey, is to be brought to bear upon the council in order that the grade of Fraser street may be altered so that Fifth street can be run right through to join Fulton street.

Fraser street owners want the street raised 15 feet. Formerly they petitioned the council for 10 feet and the city engineer found that only 8 feet could be given on account of the effect the raise of grade would have on property at the Fraser street end of Sixth street. These now anxious for the 15-ft. grade raise declare that these objections are now removed. They also state that the carrying through of Fifth street will greatly benefit the city, making a fine street from the proposed Depot to the top of Fulton street. A right of way would be needed through the reserve beyond Fraser. The whole matter is to be looked into by the streets committee.

TON OPPOSED TO RECIPROCITY

TS TO SEE TARIFF WALLS MAINTAINED

ot Follow His Old Leader on e Question. Thinks Change Is t in Accordance With Constitutional Government.

(Special to the Optimist)

awa, March 1.—As was expected, the deabte on the reciprocity ment was resumed in the House morning, Hon. Clifford Sifton op- any alterations in the present system, and criticised the agree-

said he had come to the conclusion he could not follow his old political whom he had followed so many , and this ought to convince the e he considered the proposed ment a most important one. He ed the House had been unfairly with, it not being supplied with sufficient information. He was surprised at the surrender of Canada's part, made in the agreement. He claimed the tariff policy adopted in 1898 was a good one, and he was inclined to take that view.

It was a great shock to the people of Canada when four or five members of the Government, of their own motion should decide to radically readjust the long established policy of the country. Such was not in accordance with constitutional government, and he could not approve the policy.

Horse traffic will no longer be allowed on the Enchange Block sidewalk. This sidewalk was put in at private expense, and it has been damaged by recent vehicular traffic there.

Making No Excuses

Even the enemies of Colonel Roosevelt must give him credit for one thing. In his contest with the New York politicians he has not yet advanced the claim that he was drugged.—St. Louis Globe-Democrat.

TRAIN HELD UP NEAR ST. LOUIS

MASKED MEN MAKE A BOLD AND DARING ROBBERY

Held up Express Car Within the City Limits, and Made Away With Express Packages and Money Box.—Gagged the Messenger

(Special to the Optimist)

St. Louis, March 1.—One of the most daring train robberies in history occurred late last night within the city limits. The Iron Mountain train was on its way in, when a number of masked and heavily armed men boarded the train, and proceeded to the express car. The messenger who was taken quite by surprise, made small resistance. He was bound and gagged, and the men after going through the packages, made off, taking with them certain packages which they selected and the money box from the express car.

The daring nature of the hold up has aroused public opinion.

NEW PASSENGER OFFICES

Grand Trunk Staff Installed in More Commodious Premises Now

Mr. McMaster is just getting things shipshape in the new Passenger and Freight Offices of the Grand Trunk Pacific at the wharf on Centre street. The building formerly occupied by Gen. Supt. Mehan and his staff is now devoted entirely to Mr.McMaster and staff.

In the rear portion of the building with door opening on Centre street passengers will find the booking office and a small waiting room. Towards the wharf are the frieht office and Mr. McMaster's private office. All the offices are roomy and conveniently arranged, and will be more suitable for the rapidly increasing business now being done by the G. T. P. steamers.

Gen. Supt. Mehan has removed with his staff to the offices immediately behind his former offices, the white building lately occupied by the Drafting and Engineering Staff.

TO REPRESENT RUPERT'S REGIMENT

Delegate for Coronation Contingent from Eearl Gry's Rifles

From the District Officer commanding at Victoria a message has just been received by F. Stork that a delegate from Earl Grey's Rifles will represent the corps at Coronation, the contingent to sail in June.

The District Officer requests that the members of the corps nominate a delegate, and F. Stork, the Commanding Officer, desires that all members of Earl Grey's Rifles who can conveniently get away in June shall send in their names immediately to him. The question will be voted upon at the smoker to be held by the Company on Friday night.

Amur in Today With Lumber

The steamer Amur arrived today via the Queen Charlottes, with general cargo, 105 tons for Rupert, and 30,000 feet of lumber for the Westholme Lumber Co. After discharging her deckload of lumber at the Westholme Co.'s wharf the Amur discharged general cargo at the Centre street wharf, and leaves tonight for Port Simpson and the Naas.

The Vancouver Theatre By-law is being considered by the licensing committee, with a view to reporting on the proposed reduction of theatre licenses in Prince Rupert.

CHIPS FROM THE HUMORISTS

"Now she's dead; I see that Jenkins is trying to break his wife's will."

"He could never do it while she was living."

Beggar—Please help me to recover my child.

Lady—Is your child lost?

Beggar—No, mum, but his clothes are worn out.

Uncle—My dear boy, it's a fact that the bacilli on paper money have caused many a death before now.

Nephew—Well, uncle, you might let me have a few notes. I'm very tired of life.

"So you are in favor of dress reform for women, eh?" remarked the bachelor.

"Sure," replied the married man, "if it does away with the buttons down the back."

"What sort of a speech did he make at the banquet?"

"Not bad. He was allowed only three minutes to talk, you know."

"Say, I don't know just how to take Miss Cutting's comment on my singing."

"What did she say?"

"She said Caruso's voice was excellent but mine was better still."

BEFORE SEDAN

This touching little poem was written by Austin Dobson, an English writer born in 1840. He was an officer in the British civil service, and has written many fine poems, some humorous, others marked by the delicate and tender pathos apparent in these verses. The poem has reference to the bloody victory gained by the Germans over the French on the battlefield of Sedan, in France, September 1-2, 1870.

Here, in this leafy place,
Quiet he lies;
Cold, with his sightless face
Turned to the skies;
'Tis but another dead;
All you can say is said.

Carry his body hence,—
Kings must have slaves;
Kings climb to eminence
O'er men's graves;
So this man's eye is dim,—
Throw the earth over him.

What was the white you touched
There, at his side?
Paper his hand had clutched
Tight ere he died;
Message or wish, may be;
Smooth the folds out, and see.

Hardly the worst of us
Here could have smiled
Only the tremulous
Words of a child—
Prattle, that has for stops
Just a few ruddy drops.

Look. She is sad to miss,
Morning and night,
His—her dear father's—kiss;
Tries to be bright,
Good to mamma, and sweet.
That is all. "Marguerite."
Ah, if beside the dead
Slumbered the pain
Ah, if the hearts that bled
Slept with the slain
If the grief died,—but, no,—
Death will not have it so.

The Wonderful Railroad

The railroads, as we know, make nothing by hauling f ei ht. There is n money in the c mmutat on t affic, nd th Pullman c mpany is los ng money every day. What is the fa cination about railroading that keeps men in it?—Chicago Tribune.

WORKMEN TAKE STRIKE BALLOT

CONTINUED FROM PAGE 1

bing" on the contract men. And if the contract men go on working at the low rate, they are "scabbing" on the city men who have gained the 45 cent rate. This so complicates the situation that there is some chance yet that a general strike may be declared. The difficulty along with a dispute as to the manner of strike adopted, kept the workers up late last night at their meeting. From half past seven p.m. last night until one a.m. this morning they debated the labor situation in the Skating Rink. The seated section of the rink was densely packed, a continuous stream of men having poured into the building from the opening. From eight hundred to a thousand workers must have been there. W. Fraser presided. His post was an onerous one.

Ald. Newton Explains

To begin with in response to an invitation by the P. R. I. A., Alderman Newton gave his understanding of the exact intention of the city council as regards the 45 cent increase. Alderman Kerr, and Alderman Hilditch were also expected to be there, but Alderman Hilditch had not received his invitation, and Alderman Kerr was detained elsewhere. The burden of explanation fell on Alderman Newton.

Alderman Newton said that the situation had been much complicated by the legal difficulty involved. Had it not been for that the men would have had the increase right away. But the idea of the method taken was to avoid landing the city in entanglements. "That," said Alderman Newton, "is why we thought it prudent to get around the matter in a way to reach the end that we thought advisable. I do not think that any citizen will find that he receives much less money than that asked for."

The chairman asked Mr. Newton if he would kindly outline the scheme by which the council were going to give the increase. What men were to get it and what men were not to get it?

Want a "Legal" Minimum

"Every individual on the city staff will receive consideration," said the Alderman. "Do you understand that without its being put out in its bald way? Every citizen worker with the one exception of those doing light work such as snow-shovelling, etc., will receive favorable consideration as I understand the intention of the council. Some may say 'Why ask a man to work for 37 1-2 cents at all?' The idea is to have some minimum scale. There are legal entanglements, and it was felt that there should be the minimum rate of 37 1-2 cents somehow so as to show in court if necessary that such a thing exists."

The Chairman—"That is satisfactory."

In reply to other questions Mr. Newton said that the reason the P. R. I. A. was not notified of the council's decision was because the committee was "Frankly, a regular bear-garden," and formalities were overlooked. He held that he had adhered to his election stand and promises. He had all along intended "citizen workers," but by citizens he meant men of any nationality who were really trying to make their homes in Prince Rupert. The council would estimate the merits of citizenship claims of this kind according to length of time of residence in the city.

A motion thanking Alderman Newton was cordially carried, and the meeting also carried a motion accepting the council's decision on the wage increase.

Wants Destructive Strike

Then began the trouble. The question of what to do about the contractors was opened. W. Casey came forward with a resolution plainly advocating a strike on the French "Sabotage" plan, that is the workers to remain on the job, but to do as little work and as badly as possible, and in such a way as to damage the tools and machinery as if by accident. Men would be fired, of course, but others taking their places would always develop the same studied and destructive incompetence.

It required a lot of explanation in various languages to get this idea clear, and then the mass of the meeting was not in favor of it. The word "sabotage" worried them, and Casey altered the expression to "Irritation Strike." Still the idea seemed too far advanced for some of the principal speakers, and was not approved by most.

While some vigorous speakers both in English and other tongues advocated a straight strike, either general, or confined to the contractors who refused the 45 cent rate, there were also more moderate speakers. Mr. Shaw in particular appealed for delay. A motion that a cessation of work for one week be called was lost. Another motion that an Irritation Strike be called was also lost. The chairman, as the hour grew later, urged on the meeting the need for a motion straight for or against a strike.

Favored a Strike

A motion was accordingly framed to the effect that all workers in receipt of 45 cents per hour should work and all in receipt of less should strike.

This was put to the meeting, and looked like being carried by a show of hands, and loud cheering, but Mr. Casey called the chairman's attention to the terms of the P. R. I. A. Constitution which calls for a secret ballot on a strike question. The hour was too late for a ballot to be taken then, so the motion that the ballot be taken today was put through instead.

Letters to the Editor

Is After Ald. Morrissey

Dear Sir,—I notice in this Evening's Empire, Mr. Morrissey's remarks regarding the alteration of grade and extension of Fifth street. May I ask if Mr. Morrissey has given the cost of such an alteration the least serious consideration, also has he come to any conclusion as to who should pay for these alterations?

Fifth street at present according to the map is only 56 feet wide, while our main streets are 94 feet wide, the difference is almost the size of two lots. If these lots were purchased all along the line from Second avenue to Sixth avenue for street widening purposes, one can imagine what nice round compensative prices the ratepayers would have to pay for them. Perhaps the alderman or some close friend owns two such lots, or have inside property that by such an alteration would be converted into corner lots. Did Mr. Morrissey go on the council with the sole object of pushing extravagant expenditure on the junction of Fulton street, Fifth avenue, and Fifth street? We never hear of him in connection with anything else. He never mentioned that such a necessity was so important while electioneering.

What is further, for the last two years Fulton street has been established as a main artery through the city, and many people have invested their money on that basis, if Fulton street, between Fifth street and Third avenue were converted into a side street I should think they would be entitled to compensation.

Taking into consideration all these expenditures, which would be necessary if the proposed alterations were made, and this alteration would only affect about 1,000 feet of street, for the same amount of money we could have every street and avenue in any of sections 6, 7, or 8 put in a habitable condition which at the present time many streets are not, while in section 5 around Fulton and Fifth streets and Fifth avenue are well provided for.

Is Mr. Morrissey already going back on his word, was he not elected while supposed to be supporting a strictly economical platform?

I am, yours truly,

"Sceptical Ratepayer"
