ENGLISH SUFFRAGETTES FOIL CENSUS ENUMERATORS

Hold Three Monster All Night Meetings in London and Thus Evaded the Penalty of the Census Law--Sleepy Eyed But Victorious

(Special to the Optimist)

London, April 3.—Some exciting and amusing scenes occurred last night following the determined threat of the suffragettes to thwart the efforts of the enumerators to take the census unless the women of Great Britain were given the franchise. The night of April 2nd was fixed for taking the census. Every householder under penalty of five pounds has to fill out the census certificate showing the number of persons in their house.

They Stayed Away

No penalty attaches, however, to those householders who are absent from their homes that night, so the suffragettes hit on the idea of staying away from home last night. Three monster demonstrations were held at the Scala theatre, Trafalgar Square and Aldwych Skating Rink. The suffragettes first congregated in Trafalgar Square. From there they went to a number of halls where coffee and sandwiches were served and entertainment provided to wile away the long hours of the night.

Cheered the Fainthearted

Thousands invaded the Aldwych Rink where Mrs. Pankhurst and other leaders encouraged the women to stick out all night and repeat the performance if necessary to cheat the enumerators. The streets early this morning were filled with dilapidated women on their way home for a little rest.

Provincial census returns estimate the population of Austria at 28,567,898, an increase of 2,471,190 in ten years.

SHIPPING REPORTS

From the Dominion Government Wireless Stations

(At Noon)

Triangle reports speaking the steamer Northwestern at 4 a.m. 325 miles west of Cape Flattery northbound.

Ikeda reports steamer Amur southbound at 4 a.m.

Tatoosh reports out schooner Spokane, also barque Albert in tow of tug Tyee at 9.50 a.m., and a three masted schooner in bound out.

Steamer Princess Beatrice passed Point Grey at 10.10 this morning.

MINERS ARE IN GREAT DANGER

ENGINEERS AND FIREMEN WITH STRIKERS, FANS NEGLECTED

Inside Workings are Filling with Noxious Gases that May Kill Those Working There—Engineers May Lose Their Papers for Neglect.

(Special to the Optimist)

Blairmore, Alta., April 3.—At the International Coal Company's Mides at Coleman most of the engineers and firemen have gone on strike with the coal diggers, thus making it very dangerous for pit bosses and others still in the mines. Fans are being neglected and as a result inside workings are becoming filled with noxious gases placing the men inside in a perilous position. The engineers may lose their papers for this neglect.

TO REWARD R. GOSDEN

P. R. I. A. Trying to Raise $250 Compensation for Him

There is nothing new in the strike situation today. Last night the P. R. I. A. held its usual meeting for propoganda and general business. This morning a number of strikers were seen in the neighborhood of Messrs. McInnis & Kelly's contract, but there was no excitement.

A petition is being circulated by the P. R. I. A. for the purpose of raising $250 to be handed to R. Gosden on his release from prison as some compensation for his sufferings on behalf of the strikers. Mention is made of the misunderstanding and martyrdom meted out to many leaders of social reform in the world's history, notably the New Testament.

TALK OF THE TOWN

"Practically all the sceptics of today are masquerading in a second hand suit of doubt which they acquired from somebody else," said Rev. F. W. Kerr, last night when he spoke on "Modern Scepticism." He exemplified the trials and the faith of Job and concluded by making a passionate appeal to his hearers that if they had any faith at all in their make up—faith in anything that was worth while to cultivate it now.

There was joy in the local Chinese quarters on Saturday ove one wanderer that returned. John Jim, a little Chink with a big thirst for adventure mysteriously disappeared about Wednesday forenoon and every pair of almond shaped eyes was called into service to find John Jim. The aid of the police was sought but they knew the philosophy of Bret Harte's lines and though they sought they found not.

The missing Chink returned on Saturday unhurt and very happy avowing that he had "velly good time."

Although over 6,000 coal miners have gone on strike in Alberta the local prices of coal will not be affected as practically all the coal used here comes from Nanaimo and Ladysmith, Vancouver Island.

After being repaired since she was wrecked on a reef off Sentinel Island last August 5, the C. P. R. steamer Princess May will go into active service again tomorrow night. She will leave Vancouver for Skagway at 11 o'clock with a good passenger list and a heavy cargo. She will call at Prince Riupert northbound about four o'clock on Thursday afternoon.

FEDERAL GOVERNMENT IS TO FIGHT THE TRUSTS

Shoe Machine Corporation Falls Foul of the Government Inquiry---Are Trying to Block an Investigation in the Courts---the Governn ent Will Fight It to a Finish

Ottawa, April 2.—For the first time in Canada the Dominion Government will cross swords with the trusts. It will be a fight to the finish, so far as the Government is concerned. It is the determined intention of the representatives of the Canadian people that the "trust evil," as it is known in the United States, shall not obtain any foothold in this Dominion.

In the Commons this afternoon Mr. McLean of Huron drew the attention of the Government to the fact that the United Shoe Machine Corporation, a Montreal branch of the United States concern, had applied to the courts for a writ of prohibition, or injunction, to prevent the Board of Investigation appointed by the Government from proceeding with its inquiry into the corporations' methods. Replying, Hon. Mackenzie King stated that the Chairman of the Board had notified the Government of the service of a writ upon him yesterday, and that argument was to be heard tomorrow morning before one of the Judges of the Superior Court in Montreal. The Minister of Labor had immediately appointed Mr. Aime Geoffrion, K. C., of Montreal to act for the Government in opposing the application, and showing cause why it should not be granted.

The Government has decided to amke a thorough test of the present case. In the event of the non-success on the pending hearing, the case will be carried on to the highest courts if necessary. The Government is determined not to be frustrated at the inception of its combat with the trusts, and to demonstrate that such corporations cannot block official public proceedings for investigating themselves.

BIG NEW STORE FOR WINNIPEG

HUDSON BAY CO. WILL BUILD A MILLION DOLLAR ONE

Company Intend to Build Chain of New Stores Across Canada—Calgary Will Have Million and Half Hollar Shopping Place.

(Special to the Optimist)

Winnibeg, April 3.—It is officially announced that the Hudson's Bay Co. have bought a block on Portage avenue between Vaughan and Colony streets running back to St. Mary's and intend building a departmental store to cost about a million dollars. London, Eng., architects are preparing the plans.

Some time ago the head officials of the company annuunced that a complete change of the business policy would be adopted and a chain of new, up-to-date stores would be erected across Canada. The company are going to build a million and half dollar store in Calgary.

BUSY NOW ON RECIPROCITY

WILL COME UP IN U. S. CONGRESS TOMORROW

Measure Will be Discussed Clause by Clause. Failure of Department of Justice to Prosecute the Steel Trust to be Probed.

(Special to the Optimist)

Washington, April 3.—Tomorrow the special session of Congress opens. The new House of Representatives will have a Democratic majority of fifty. The Democratic programme has been changed and it is now the intention to pass reciprocity and revise the tariff, schedule by schedule.

The failure of the Department of Justice to prosecute the steel trust will be probed, and a full inquiry is promised into the Ballinger-Pinchot fight.

Advices from Tokio today say that Japan will expedite the question of Anglo-American arbitration by agreeing to have the Anglo-Japanese treaty revised, so as to remove any clauses likely to interfere with Great Britain's freedom to become a party to the arbitration pact.

WILL VISIT GALWAY

Colonial Premiers Interested in All-Red Route

(Special to the Optimist)

London, April 3.—Premiers Laurier, Botha and Ward, and Hon. Mr. Fisher have arranged to visit Galway on their way through Ireland, in connection with the All-Red route.

MR. PRUDHOMME WILL FIGHT CASE

WILL CARRY LICENSE APPLICATION TO THE COURTS

Is Dissatisfied With Judgment of the License Board in Rejecting His Application for the Savoy Hotel.

Mr. A. J. Prudhomme, proprietor of the Savoy Hotel, has announced his intention of appealing to the courts against the judgment of the License Board in refusing either to renew his license or grant a new license for his hotel.

The ground for the refusal to grant a new license was stated to be that the hotel is within three hundred feet of the building where the Baptist congregation meets. This is prohibited in the case of any building used exclusively as a place of worship.

The Baptist church is not used exclusively as a place of worship. It is a temporary building, and does service as a domicile part of the time. The commissioners held that as it was the only place of meeting for the Baptists, it was their "exclusive" place of worship.

This, Mr. Prudhomme holds is an absurd straining of the meaning of words to prevent him from getting a license. He has taken advice from some of the most eminent counsel in Vancouver, and an action against the commissioners is on the carpet. The precise form of the action is being kept a secret as ye , but Mr. Prudhomme, who is selling his house, on which he spent $40,000 announces that he will spend every penny he has if necessary to obtain what he believes to be his rights in the matter.

RECIPROCITY WON'T HURT

Martin Burrell Gives a Half-hearted Endorsement at Toronto

(Special to the Optimist)

Toronto, April 3.—"I don't think even if the reciprocity pact goes through that it is going to ruin anybody, because Canadians are made of sterner stuff. At all events we shall survive," said Martin Burrell, M.P., in a speech at Toronto on Saturday night. He qualified the declaration by adding that the pact would discourage Canada's growth.

Lucky Suit Winners

The winners in Sloan's Suit Clubs for Saturday were as follows:

No. 5 Club—Dr. Wm. S. Hall.
No. 6 Club—T. A. McMartin
No. 7 Club—I. R. O. Winston.
No. 8 Club—J. Evans.
No. 9 Club—J. W. Austin.
No. 11 S. H. Watson.
No. 11 Club—Frank A. Ellis.
No. 12 Club—M. E. Rugg.

Number 13 Club now open for signatures.

NEW BEDS FOR THE HOSPITAL

NEW ONES ARE OF SPECIAL MEDICAL DESIGN

Were Invented by Dr. Lawson Tait, the Famous English Surgeon—Twenty-four of Them Arrived Today—Old Ones to be Discarded.

Twenty-four of the famous Lawson Tait bedsteads arrived today from the Whitefield Bedstead Co., of Birmignham, England, for use in the General Nospital here. The bedsteads are being fitted up and will be ready for use in the course of a day or two.

The Lawson Tait bedstead was designed by the famous English surgeon Dr. Lawson Tait and since it was put on the market it has been requisitioned by all the leading hospitals in the world. Its adavantages over the ordinary style of bedstead are that it has a sliding head rest, specially constructed springs, rests on rubber rollers, is perfectly sanitary, being made of steel tubing enamelled white, is high enough to save the nurse from stooping very much when attending to a patient.

The bedsteads that have been doing duty in the hospital will now be discarded and the eighteen patients now in the institution will be transferred as soon as possible into the new and more comfortable inventions.

BUOY TENDERS NEEDED

B. C. Shipmasters' Association Will Will Ask Government for Some

Vancouver, April 3.—The immediate need of a buoy tender on the Northern British Columbia Coast was freely discussed at the weekly meeting of the Shipmasters' Association. With the number of gas buoys in use at the present time in the neighborhood of Prince Rupert some are in darkness at more or less frequent intervals, and it often happens that a week or ten days may elapse before a marine department steamer can be sent north from Victoria. A letter was read from a captain who makes regular trips to Prince Rupert, stating that on his last trip three buoys were dark, one of which, situated at Mark Tree Bluff, Kennedy Island, had been out for two months. Another at Squire Ledge, near Prince Rupert, has been out for two weeks, and one at Barrett Rock has been out for about a week. A resolution was passed that the secretary be instructed to write to Captain Anderson, chief engineer of the Marine and Fisheries Department at Ottawa, advising him of this condition, and strongly recommending that a buoy tender should be located convenient to this locality.

Pantorium Pioneer Cleaners, 'Phone 4

WEEK END AT STEWART

PRINCE GEORGE WILL MAKE WEEK END TRIPS

Will Leave Prince Rupert on Sunday Mornings and Return Monday Morning—May Give Reduced Rates

An admirable opportunity for the people of Prince Rupert to spend a week-end up the Portland Canal and enjoy the unexcelled scenery along the route will be presented this coming summer when the steamer Prince George, the flagship of the G. T. P. fleet, commences her run to Stewart, on June 11.

She will leave here every Sunday morning and be back early Monday morning. There is some talk that overtures will be made to get the G. T. P. to put in force a special rate for the benefit of Rupert citizens—a rate that will be within the limits of the limited purse.

GROWTH SHOWS IN THE CUSTOMS

NEARLY $250 INCREASE LAST MONTH OVER MARCH 1910

Officials Regard the Increased Receipts as Very Satisfactory for March When Shipping is Dull Along the B. C .Coast.

There was an increase of $237.89 in the customs receipts during the month of March 1911, compared with the same month of 1910. Here are the figures:

March 1911	$5,844.41
March 1910	5,606.52
Increase	$237.89

These figures can be taken as a sign that Prince Rupert's trade is growing for March is a very dull month in shipping circles along the coast of this Province.

NEW TEACHER COMING

Miss Marion Johnstone of Vancouver Has Accepted Position

Miss Marion B. Johnstone, of Vancouver, who was nominated by the School Board last week for the position of teacher at the public school here, wired to Mr. D. G. Stewart, chairman of the board this morning that she would accept the position and would leave at once for Prince Ruprt. Miss Johnstone is the daughter of the city treasurer of Vancouver and comes very highly recommended. She has been teaching in the Lord Roberts school in her home city for some time past.

THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

WHY "THIMBLE;"

Something New About an Old Friend of Yours, Girls

The thimble is a Dutch invention, and was first brought to England by one John Lofting, who began its manufacture at Islington in 1695.

Its name was derived from the words "thumb" and "bell" Originally it was called "thumbell," then "thumble," and finally "thimble." It is recorded that thimbles were first worn on the thumb; but we can scarcely conceive how they could be of much service so used.

Formerly thimbles were made of brass and iron only, but now they are shown in gold, silver, steel, horn, ivory and even glass.

There is a thimble owned by the Queen of Siam that is shaped like a lotus bud, the royal flower. It is of gold, thickly studded with diamonds, and is held to be the most costly article of the kind in the world.

In Naples very pretty thimbles, composed of lava from Mount Vesuvius, are occasionally sold, but rather as curiosities than as an article of real utility, being by reason of the extreme brittleness of the lava, very easily broken.

Blouses for Costumes

For costume blouses the chiffon and marquisette veiled effects are still liked, although there seems to be a slight tendency among the French designers to break away from this long popular idea, and to experiment with the soft crepes, satins, etc., without veiling. There are a few very good looking French blouses in the new foulards, very simple affairs, redeemed by extremely chic and original notes in cravat or collar. The exaggeratedly large white dots distributed not too closely on a colored ground, which promise to be among the popular things in foulard, though they certainly will not be universally becoming, were the design used for some of these blouses, shown in one of the fashionable shops.

AFTERNOON TEA CAKES

Delicious and Novel Recipes—Regular Guest Pleasers

The hostess who likes novel little cakes for afternoon tea will find these palatable. A sort of sweet biscuit, shaped like a ladyfinger is made from the well-beaten whites of three eggs, into which is beaten almost half a pound of confectioner's sugar. Add four ounces of melted butter, and stir in quickly at the last four ounces of pastry flour.

Put this paste into a pastry bag and force through a tube on well-buttered baking sheets. Form finger shapes not too close together, as they spread, and bake in a moderate oven until a delicate brown.

For an almond cake, heat to a cream three ounces of butter and half a pound of soft A sugar, then add gradually half a pint of milk and enough flour to make a light dough. Stir in a quarter of a pound of blanched and minced almonds, lightly floured. Put on a floured board, roll about a quarter of an inch thick and cut into diamonds and squares.

Almond macaroons are made by beating the whites of three eggs to a stiff froth, then stirring in half a pound of confectioner's sugar and the strained juice of half a lemon, and last half a pound of ground almonds. Put paper on a flat baking sheet, drop the mixture on by teaspoonfuls and bake in a quick oven until light brown.

HOME

Eight rooms and bath, a cellar, too, a
little patch of mother earth,
Above it just a stretch of blue; it makes
no difference what it's worth,
It's home to me and more and more, I
grow to love it every day,
And when at night I pass the door, it's
there I always want to stay.

The furniture perhaps is not so fine as
other folks possess,
But it's a mighty cosy spot, and shelters
in our happiness;
The pictures on the walls aren't much,
our tapestries aren't extra fine,
But everything I see or touch holds joy
for me because it's mine.

Within these unpretentious walls are love
and laughter finely blent;
Rich men may have their marble halls,
they cannot shut out discontent.
And were this house a mansion grand I
could not any happier be
For here I have at my command all that
the world can give to me.

HATS THIS SPRING

Dainty Designs for Feminine Fancy That Come with the Daffodils

Judging by the hat designs from the fashion centres this spring, willow plumes and ostrich mounts are very popular. Hats and mounts suggest the helmet shape, and more than everything else, flowers are the trimming of the season. Veiled effects are popular, as in a pattern hat of white panama, the crown and facing of the broad brim veiled with blue chiffon, a wreath of shaded pink roses with grasses completing a very smart effect.

Nothing could be more "fetching" as a frame for a young girl's fresh face than one pattern hat, a poke with leghorn crown and a brim of lace an quillings of black velvet, with black velvet tie under the chin. Another little bonnet affair to be worn with an empire gown is of corded pink chiffon, with dainty edging of open tuscan braid and soft pink willow plumes topping it off.

Shaded feathers, large wings and mounts, and brims which roll from the front and side of the face are striking features of this season's hats. Coarse braids and draped crowns distinguish the tailored hats, with a use of the bandeau in fancy designs and beaded effects.

A very stylish hat of the large variety, which would need to be worn by the right person who had both style and height, was one of blue Tagel braid, in drooping effect and wide irregular brim, the sole trimmimg being a half dozen American beauty roses in deep reds and pinks.

Black and white in both braids, ribbons, and mounts are much worn this spring, and also combinations of black and coral and black and cerise. A striking example of this combination is a Kurzman hat in fine black straw, turned up at the front and right side, but wide and drooping at the left. A coral hued, double wing in helmet shape gave a dashing line at just the fashionable angle. White satin draped with black lace, which softens the line of the brim, is the combination in a dress hat with wide brim.

What Baby Will Need

For baby's outfit are needed 2 bands or binders, 6 inches wide, of soft firm flannel. Many people do not use these after the first month or so, 3 soft woolen knitted shirts; 4 dozen flannellette napkins of the loosest wenve, as they thicken up; 4 pinning blankets, which answer the purpose of the barrowcoat and are more easily removed if soiled. For these hem a square on three sides and make a box pleat on the fourth side. This side is pinned on around the baby's waist and folded up over the feet so that bootees are not needed. 4 or 5 flannel skirts with flannel waists combined, about 27 incehs long; 6 white nainsook or lawn under skirts sewed into a waist of same material 27 inches long; 8 white dresses 27 inches long; 3 flannellette night gowns; a flannellette kimono is often useful; a silk handkerchief to throw over the head; an eiderdown cicrular cloak.

A HAREM SCAREM RHYME

Maud Muller on a winter's day
Left home to attend the matinee.

The latest harem skirt she wore,
And people "rubbered" by the score.

The Judge whom she was soon to wed
Caught sight of her and shook his head.

"If I am any judge," said he,
"Maud Muller's not the wife for me."

He wrote her, breaking off the match—
He whom she thought so good a catch.

And now she sighs in lonely pain,
"I'll never wear that skirt again."

Moral

Girls who have beaux such garments doff,
Or see the harem scare 'em off.

BRITISH NEWS

The Coronation festivities will commence on June 19th and last until the end of the month.

Dr. Wilfrid Grenfell, the medical missionary hero of Laborador, has been received in audience by the King at Buckingham Palace.

To a deputation of Welsh M. P.'s Mr. Asquith has stated that the Welsh Disestablishment Bill will be in a position to over-ride the Lords' Veto next session if the parliament bill carries this session.

London has been wrestling with a serious smallpox outbreak during which nearly a hundred cases were reported within a week.

Two firemen were killed at a fire which destroyed Cohen's Rag and Paper store at Bankside, Southwark, the other day.

Traffic on both up and down lines between Darlington and Nartlepool had to be stopped while the giant rudder and sternpost of the new White Star liner Titanic were being transported. The casting is the largest ever made.

The new railway from Cardiff to Rhydyfelm is now open.

Though the annual receipts of the British postal telegraph and telephone system amount to five million pounds stg. ($25,000,000) the system has not paid since 1891 and the loss for the year ending March 31 was nearly nine hundred thousand pounds.

A bevy of English domestic servants are on the way to Victoria from Liverpool.

UNITED STATES

The crusade against long hat pins in Providence, R. I., gained a strong supporter today in Representative John B. Leclerc of Woonsocket, who after being wounded by one of the so-called "dangerous weapons," announced that he would introduce a bill in the legislature limiting the length of this feminine accessory.

Mr. Leclerc was accidentally stabbed in the nose by a protuding hat pin.

A harem skirt worn in the streets of the down town section of Traverse City, Mich., recently by Miss Marie Schmaltz, a saleswoman, created n furor among passersby, and the girl had to appeal to the police headquarters for permission to wear the garment unmolested. She was given police license to wear the skirt. The permit was like a license to parade. Thereafter she went about under police protection.

Charles Clusker, the oldest Elk in the world, started today his 102 year in his home in San Diego, Cal., but the members of his lodge here, No. 836, celebrated his birthday loyally. Clusker was initiated in 1903.

Louis and James Duveen, millionaire members of the New York importing firm of Duveen Bros., were arraigned recently in New York before United States Judge Martin, pleaded guilty to having undervalued imported goods and were fined $15,000 each.

The birth of her nineteenth child was recorded recently in the Chicago health department by Mrs. John Adducir, wife of a laborer. The mother is only 39 years old, and of the nineteen children, all of whom were born singly, sixteen are still living.

DAILY EDITION. MONDAY, APRIL 3

About The Harem Skirt

After all the rest of the world had given its opinion about the harem skirt, someone suggests that the Optimist should settle the question, by pronouncing upon it. One by one the staff have been begged and bullied to handle the subject, but they all decline. The Booster declares he is too busy to attend to anything but business just yet, while Mack who knows as much about feminine fashions as any man living says he will "wait and see."

It is not enough to snigger and say that the harem shirt is dividing the attention of the world; some bona fide opinions on the matter are required. The harem skirt is too serious a subject to joke about. Not jesting but a little common sense is needed on the subject.

So far everybody has overlooked the fact that it is the present wide skirt that is the real "harem skirt." It is a matter of history that the Eastern potentates were wont to distinguish between the virtuous women and the inhabitants of their harems by dressing the latter up in skirts. The wide skirt was the uniform of the harem; the trouser skirt the garb of the modest women. The crowds of chivalrous Parisian and Spanish gentlemen who mobbed wearers of trousers skirts on the streets of Paris and Madrid recently in the belief that they were defending morality were just a little out in their historical sense. So too, was the Spanish officer who committed suicide from shame when he learned that his two daughters had appeared thus garbed upon the streets.

It is the new thing that is always looked upon as being improper. The man who carried the first umbrella shared the fate of the wearers of the first trouser skirts. Dr. Jenners' house was mobbed because he declared that the blood circulated through the body. The bicycle and its inventor were denounced in church as "an abortion of Nature, and an insult to the great Creator who endowed man with legs."

So far all the reason seems to be on the side of the new fashion. From the standpoint of hygiene it is a capital innovation. For walking it gives greater freedom, and there is no possibility of dragging while going down steps. How many women have suffered annoyance, and how many men mortification, by the latter treading on their trailing skirts while walking down stairs.

Some of the doctors have pointed out that the wearer of the trouser skirt would escape the collection of germs, dust and mud that gathers round the ordinary skirt. Also on wet days the ankles are protected from the chill caused by damp skirts rubbing against them. "If all women adopted the harem skirt, we believe they would be much healthier," is the opinion of a committee of women doctors in New York who have just reported on the subject.

But the fact that common sense is on the side of the trouser skirt is no guarantee that it will win in the struggle for existence. In fashions it is not always the fittest that survive.

Notes and Comments

McGill students did no credit to themselves and did not help the cause of reciprocity by overturning Mr. Sifton's carriage. Overturning arguments is a more fitting occupation for intellectuals.

Up in Cordova they have got it pretty sensibly figured out that a person who owns a home there is more apt to become a patriotic booster for the town than one who just pays rent and knocks the community every time the collector calls, so they have organized a home builders' association and will sell homes on the same terms that others charge rent for. In that way they hope to get the workers interested in local affairs and keep many families there the year around that will ultimately supplant the transient workers who only stay long enough to annex a grub stake.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Examining Warehouse, Vancouver, B.C.," will be received until 4.00 p.m. on Monday, April 24th, 1911, for the construction of an Examining Warehouse, Vancouver, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Mr J. E. Cyr, Superintendent of Public Buildings for Manitoba, Post Office Building, Winnipeg, Man., Mr. Wm. Henderson, Resident Architect, Victoria, B.C., at the Post Office, Vancouver and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary

Department of Public Works.
Ottawa, March 22nd, 1911.

MINERAL WEALTH OF BITTER CREEK

BITTER CREEK TOWNSITE IS THE PIVOTAL POINT OF THE WEALTHIEST MINERAL DISTRICT IN BRITISH COLUMBIA.

The mineral wealth of the district surrounding the Bitter Creek Townsite cannot be estimated for the reason that no adequate measure can be taken of the undeveloped mineral resources. It is generally conceded by mining experts that the area surrounding Bitter Creek Townsite is the richest in metals of all the areas of Canada's mineral Province.

British Columbia is the mineral producing province of the Dominion and Government figures—those of 1908—show that over 69 per cent of all the minerals and coal produced in Canada was taken out of the mines of British Columbia, in the face of the fact that many of the richest deposits of ore in the Province are still untouched.

For several years prospecting has been carried on in the Portland Canal district, but not until recently has even a partial measure been taken of the vast mineral wealth that lies buried among its mountains. Bitter Creek Townsite occupies a pivotal position in this remarkably rich mining section. It is closer to the rich deposits than Stewart. It is surrounded by claims that will ultimately pay millions of dollars to their owners. To the north east are Bitter Creek Star Mines, the Bitte Creek holdings, the Roosevelt, the Big Boulder, the Big Reef, the Ben Bolt and the June, Julia and Jessie group. To the north and north west are the Red Cliff, the Bear River Canyon, Dreadnought, International and the Copper Queen. Directly west is the Portland Star and Premier, and to the south are the great mining properties of the Portland Canal Mining Co. and the Stewart Mining & Development Co. And all these properties, unlike the claims in the Yukon, are within reach of civilization—almost rubbing shoulders with it.

Usually arid plains and mountain fastnesses stand in the way of man in his search for nature's treasures, and the weak give way to the strong and only the FEW win. But without undergoing any of the fatigues of a frozen trail or the perils of the plains, the wealth of the Portland Canal district is within reach of anyone who has in his make-up a little ambition and a little grit. Bitter Creek is so near the fortunes that lie in the mountains that undoubtedly thousands who would brave the dnagers of the White Pass will swarm into the Bear River valley this spring. Bitter Creek makes the exploitation of the mineral resources of the Portland Canal district an easy task. Railroad facilities are at hand, cheap water transportation is available, timber for all purposes is also available, there is an unlimited supply of water power; and it has been predicted that near Bitter Creek there is enough coal, when once uncovered, to supply every city on the coast from Stewart to San Francisco, for years to come.

Gold, silver, copper, lead, iron—these are some of the metals that lie buried in this remarkable district. And it is only partly explored. Its development has just begun.

Bitter Creek Townsite is locatedOOO

Bitter Creek Townsite is located in the exact center of this the richest mining district in the Province, and investors can make no mistake in making further inquiries into this remarkable district. For further information write or see F. G. Dawson, Prince Rupert.

INSERT YOUR LAND PURCHASE NOTICES IN THE OPTIMIST

NEWS FROM ALL OVER CANADA

Two hundred and fifty settlers arrive early this week at Montreal for Alberta each with $2000 capital. They sailed from Liverpool by the Empress of Ireland.

The first Grand Trunk train to leave Toronto for Edmonton via Chicago will leave April 4.

Eight miles north of Edmonton a new coal mine is being opened. Hard fine quality coal can be turned out when development is complete, at the rate of 1000 tons a day.

Settlers from all parts of the world are now pouring into Western Canada. It is expected that fully half a million people will settle west of Winnipeg this year.

Captain Eddie, F. R. A. S., of Ottawa, has been ordered to Victoria, B. C., to investigate the circumstances of the Sechelt disaster, the boat wrecked on Saturday, March 25th.

An English syndicate wants to build a 16-storey, millon dollar skyscraper at Winnipeg.

The C. P R. will open the following hotels at the places and on the dates mentioned: Algonquin Notel, St. Andrew's, N. B., June 20; the Ian, St. Andrew's .N B., July 1; Banff Springs Hotel, May 15; Chateau Lake Louise, June 10; Emerald Lake Chalet, June 15; Glacier House, May 1.

Chief John Mattson, head of Amprior, Ont., police force and tax collector, has confessed that he is short $11,246 in his accounts with the town.

It is again stated here that the subject of emigration will engage the attention of the Imperial Conference, and it is possible that the matter will be given very wide scope. For the first time Canadians will be appointed to the managing committee of the emigrants' information office—the English government bureau.

Montreal had a snowfall last week eight feet deep.

Over 5,000 miles of wire will be used by the Canadian Pacific this year in building new fences along their lines in the prairie provinces.

Over one million's worth of property was sold in Winnipeg last week.

CHIPS FROM THE HUMORISTS

Tom—They say that every woman is beautiful in someone's eyes. Do you believe it.

Jack—Certainly. If you include her own.

"Doesn't it make you sad," exclaimed the member of the Audubon Society, "to see women wearing on their hats the feathers of the poor little birds?"

"It isn't the feathers that make me sad," replied the married man. "It's the bills."

Little Girl—Mother, is Uncle John deaf?

Mother—No, dear. Why?

Little Girl—Every time he gives me five cents he says, "What do you say?" and I'm never saying a word.

In a certain small English village there were two butchers living in the same street. One placarded his sausages at one shilling a pound, and the rival very promptly placed eightpence on his card.

No. 1 then placed a notice in his window saying that sausage under one shilling could not be guaranteed.

No. 2's response to this was the announcement:

"I have supplied sausages to the King."

In the opposite window the following morning appeared an extra large card bearing the words:

"God save the King."

Talk of the Town

After a visit to his home in New Zealand, Mr. Charles Woodward, steward of the steamer Operator, of the Skeena River fleet, returned to the city yesterday He will take up his duties on the Operator as soon as she sails, which will be in the course of a week or two.

With 95 passengers, most of whom were bound for northern points and a heavy load of mail, the steamer Camosun, of the U. S. S. line, arrived here late last night. She left this morning at six o'clock for Stewart. She will leave here for the south tomorrow morning at nine o'clock.

What looked like a ship on fire out in the open sea was seen by the Government telegraph operator at Port Simpson about 9.30 last night. Efforts were made to get in touch with ships equipped with wireless telegraphy but without avail. The operator said the blaze was about 30 miles out to sea near Dundas Island.

The captains of the Princess Beatrice and the Amur, two boats which arrived from the north last night and this morning, said they knew nothing of the matter. The captain of the Amur said there was a very lurid sunset last night and thought the reflection of this might have looked like a fire.

One of the chief matters of business that will come up for discussion at the meeting of the city council on Monday night will be the report of the fire and water committee on the plans of the proposed new waterworks prepared by Colonel Davis, the city engineer.

GOOD FOR GOOSE BAY

To Have Smelter There on Transfer of Hidden Creek Claims

The erection of a smelter at Goose Bay is an important feature in the prospective transfer of the Hidden Creek copper-gold claims on Observatory Inlet, Portland Canal group, to the Granby Consolidated Co. The properties are bonded to the Granby Co. for the sum of $400,000 a large payment on this being due in June. Before closing the deal the Granby Co. are to have a report by an expert on the property. O. B. Smith, Jr., of the Granby Co. who has just been visiting the claims says that Boyle Bros. of Spokane have made very good showings during their work there this winter with twenty men and three diamond drills cross-cutting and drifting.

BABY BOY ARRIVES

"Dick" Parkin, Well Known Old Timer, Has Son and Heir

A son arrived at the home of Mr. and Mrs. A. T. Parkin yesterday. Mother and baby are both doing well; and congratulations are pouring in upon "Dick" Parkin who is a well known and popular old-timer here and founder of the firm of A. T. Parkin & Co. Electricians and Lighting Specialists.

ADVERTISE IN THE OPTIMIST

Water Notice

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Skeena Division of Skeena District.

(d) The quantity of water applied for (in cubic feet per second) 1000.

(e) The character of the proposed works, dam, flume, pipe-line, power engines, plant, etc.

(f) The premises on which the water is to be used (describe same) at or near mouth Ain River, Masset Inlet.

(g) The purposes for which the water is to be used is for power development and mill operations.

(h) If for irrigation, describe the land to be irrigated, giving acreage.

(i) If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. At or near mouth of Ain River, about 150 feet below lake level.

(j) Area of Crown land intended to be occupied by the proposed works.....

(k) This notice was posted on the first day of March, 1911, and application will be made to the Commissioner on the fifth day of April, 1911.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. None.

GEORGE YOUNG,
H. Edenshaw, Agent

P.O. Box 285, Prince Rupert, B.C.

NOTE—One cubic foot per second is equivalent to 35.71 miner's inches.

Pub. March 16, 1911.

HERE WE ARE

Back in the old space again after an absence of three weeks. We couldn't stay out, because, no matter what it costs, we must talk to you about our business—must get and hold your interest. We are enthusiastic about our business. Ever notice that when anyone is interested in any subject or concern that he just HAS to talk about it? That's our attitude about our business, we simply must talk about it (of course in season and in reason) and we feel, too, that we have something worth talking about — some message from time to time that is bound to be of interest to the shoppers of Prince Rupert, particularly to the ladies. The ladies, as you know, (bless 'em) do the shopping—the largest part of it—of the world, and they have to know where to buy and buy "right," when the different goods that the changing seasons demand have arrived at the stores, and so on, and it is the mission of the advertiser to keep them posted along these lines. Whether you buy from us to-day or to-morrow or whenever you DO buy, we want to tell you and convince you that we are the people to buy from. No use hiding our light under a bushel on the chance that you'll discover it for yourself when we have the light of this space to throw on the screen of your mind and create therein the association of ideas which means that when you think of Dry Goods, Ready-to-wear for Women and Children, Chinaware, Crockeryware, Fancy Goods, Etc., you think of "Wallace's" and you go to "Wallaces" when you want anything in these lines—and find there a good store of goods and good service always at your command. We have received many new things for the spring business lately, and we'll tell you more about them in a day or so.

H. S. Wallace Co., Ltd.

. . ITEMS OF . . SPORT

TIPS OFF THE GUTTED STICK

New Westminster Lacrosse team will likely play two exhibition games in Montreal on May 24 and 27. Joe Gattarinich, manager of the Nationals in the pea soup burg has guaranteed $5000 for the appearance of the champion aggregation.

Other games will be played in Toronto, Ottawa, Winnipeg, Regina and Calgary. These extra games would pick up a nice little piece of change besides the guaranteed expense money. It is figured that the $5000 will just about cover the expenses of the team and managers.

The team remains the same as last year.

GOING TO GREECE

That the Vancouver Athletic Lacrosse Club will be one of the teams to participate in the Olympic Games to be held in 1912 in Stockholm, Sweden, was predicted at the annual meeting of the nnnual meeting of the club. predicted by Mr. James Findlay at the He stated that the V. A. C. lacrosse team may make the trip to Sweden, and from there travel through France, Germany and Spain to illustrate lacrosse, an unknown game over there. Mr. Findlay stated further that he has had assurances that the King and Queen of Spain will witness the game to be played in their country.

BASEBALL HITS

The Lethbridge baseball grounds have been handed over to the football league of that city. From remembrances of the lovely diamond, it would be as good investment for the cement combine.

Frank Gray, president of the Edmonton Baseball club, is on a visit to the coast and will take the opportunity to visit the Northwestern league parks and get some up-to-date ideas on a new press box for the Diamond Park.

Alas, poor Lethbridge. The Miners will this year play an amauetr league along with Macleod and some of the other live wire towns in the vicinity. The fans will not be able to awaken much enthusiasm over that league. But they couldn't enthuse, even when they had good pro. ball.

Joe Kelly, the old pilot of the Toronto nine, says great things may safely be expected from his outfit this year. The Leaps are in training at Macon, Ga.

Your optimist is all right Kelly, but it's about time your Leaps began to get some syrup in them.

AT LAST THEY'LL LOCK

Gotch and Hackenschmidt to Wrestle in Chicago

A Gotch-Hackenschmidt match is in sight at last.

The champion laid down the terms, and they have been accepted by the Russian Lion, who may now postpone his proposed tour of Europe until he has got Gotch's signature to a contract.

The Iowa farmer has consented to meet the Russian Lion in a finisn match before the Empire Athletic Club of Chicago within the next six months. Ne has been guaranteed $20,000 as his end by the Windy City club, and is said to have already laid down plans for a cuurse of hard training in preparation for the match.

The Danish foreign office has sent a letter to the peace bureau at Berne, Switzerland, saying that Denmark will accept the American government's invitation to appoint a commission on the lines authorized by congress to promote arbitration among nations and for the limitation of armaments.

"SINK OUR DIFFERENCES AND BOOST PRINCE RUPERT"

Interesting Letter from Ald. Pattullo, Brimful of News and Good Suggestions---Has Been Trying to Bring British Capitalists North to See the Liverpool of the Pacific

The following interesting letter was received by the Optimist from Alderman Pattullo during the week. It is so full of news picked up by the alderman during his visit to Victoria—all of it good news too—that we reproduce it in full for the benefit of our readers:

March 20, 1911

Dear Sir,—Your readers will be glad to hear reiterated that the Blue Funnel and Harrison lines both contemplate running to Prince Rupert at an early date.

There seems also to be every indication of a heavy traffic to Northern B. C. this summer. Every time I come South I realize anew the great possibilities of Prince Rupert and the northern country.

Vancouver real estate is quiet, though business generally is good. Victoria realty is very active.

I tried to induce Sir Oliver Tennant and party of capitalists to visit Prince Rupert but the party broke up here, some going to Frisco and some back East. It occurs to me that it would be a good idea for the Board of Trade to make arrangements with some responsible man in Montreal to interivew capitalists at that point with a view to getting them to include Prince Rupert in their itinerary. By the time they reach Vancouver or Victoria their plans are all made and it is too late.

A short time South makes Rupert "look good." The situation here will be duplicated in Rupert. There is in my opinion no surer buy on the coast than Prince Rupert real estate, not only from the standpoint of absolute security but also from the standpoint of percentage of profit. The man who owns real estate in Prince Rupert, more particularly inside property, and can hold it would be a very foolish man to sell. It would take too long to enumerate reasons but as surely as the sun rises and sets, the nearer approach of the railroad will legitimately justify increased prices.

Your readers will be pleased to know that the Grand Trunk is pledged to call for tenders on the last 400 miles of road within six weeks. The London Times contains an advertisement of a three million debenture now with an assurance of the balance of the road being put under way almost immediately.

The future looks bright for Rupert. It remains for those now controlling her destinies to get in and boost. The business men had better get together and cut out peanut politics. It is working now to her injury. We know that there are some great big men who think more of party advantages than they do of Prince Rupert, but it is time that those of us who are Prince Rupertites first should get together and eliminate cliques and factions. Personally, I like a scrap but the time wasted in scrapping ought to be spent in our harmonious effort for Rupert.

Come ladies and gentlemen, forget the smallness of pettiness and the pettiness of smallness, let us start a campaign to show outsiders our great advantages and the unity of purpose with which we are building up our city.

Why not form a citizens league including both the men and the women with the motto "Everybody Boost?"

It seems a pity that a city with such truly remarkable advantages should be injured as she is under existing circumstances.

Sincerely yours,
T. D. PATTULLO

EUROPEAN NEWS

Premier Stolypin, who last Monday sent his resignation, has decided to remain in office, and the cabinet crisis therefore is at an end.

Signor Bissolati, leader of the Socialists party in the Italian parliament at Rome, declined a cabinet position because, while he said he was in sympathy with the proposed policy of the new government, he could not bring himself to adopt the outward forms required of cabinet ministers, such as wearing uniforms on public occasions.

Aviator Loridan of Paris, France, is preparing to purchase a new aeroplane following the loss of a new machine which was taken piecemeal by countryfolk as souvenirs of his visit.

Loridan alighted in the fields several miles from Paris. He went to a nearby farm house for food and when he returned he found only the motor and steel skeleton of his machine intact.

Miss Rogstad, the first woman to represent a constituency in the Norwegian parliament, made her maiden speech before that body on March 17. Miss Rogstad is a school teacher and represents a constituency in Norway's capital city.

The oldest man in Norway is at present Abel Gravdal, a fisherman of Buksnes, Lofoten, who lately celebrated his 115th birthday. The old man is still healthy and quite active and enjoys a splendid appetite. He has been married three times; the last time at the age of 97.

The profits to investors in Town lots in all Grand Trunk Divisional and Terminal Points will astound the world. Buy now. Ask Uncle Jerry for price lists and full information.

LAST YEAR

REAL ESTATE OWNERS IN

Western Canada

MADE

$100,000,000

From the most accurate figures obtainable, over One Hundred Million Dollars was made by real estate owners in growing cities and towns of Western Canada last year. This vast wealth was exclusive of improvements and represented actual increase in land values alone.

Original records gathered by the Winnipeg Free Press prove that in eight western Canadian Cities the value of land alone—not counting improvements—increased 562 per cent. for the last five years—an annual increase of 112 per cent. for each city during the last five years. These figures indicate that investments in live, growing cities in Western Canada are as safe and sure as an investment can be, and that 100 per cent. profit each year is almost a certainty.

THIS YEAR

THEY WILL UNDOUBTEDLY MAKE $100,000,000 MORE

You have an opportunity now to participate in these immense profits by being one of the original purchasers of town lots in the Grand Trunk Pacific addition to the fast growing Western Canadian cities, otherwise known as

Grand Trunk Pacific Railway Division Points

WATROUS, MELVILLE, WAINWRIGHT, BIGGAR

The Grand Trunk Pacific offers in these splendidly located, fast growing Division Points and in the townsite of Tofield an opportunity for the investor to share in the large profits that are sure to accrue as a result of the rapid and substantial growth that characterizes Grand Trunk Pacific Division Points and well located cities and towns in Western Canada.

The Grand Trunk Pacific does not offer townsites or additions so located as to make investments in them of questionable value. The object in selling these lots at the low prices at which they are offered is to encourage the upbuilding of these cities from which the Grand Trunk Pacific will derive vastly more benefit than from the sale of lots.

Now is the time to buy. Choice lots range from $100 upwards on easy payments of 10 per cent. cash and 10 per cent. a month. You make your purchase direct and secure title from the Grand Trunk Pacific Railway Company. Write for literature and make your selection while the prices are extremely low and the possibilities unlimited. Address

Land Commissioner
Grand Trunk Pacific Railway Co.

Jeremiah H. Kugler, "Uncle Jerry," Agent for Grand Trunk Pacific Lots on Main Line. Prices are fixed by the Land Commissioner and our best services are at your command.—Ask Uncle Jerry, P.O. Box 906, Prince Rupert.

DAILY MESSAGES FROM

"UNCLE JERRY"

No. 24

If you happen to be dissatisfied with Prince Rupert, feel that you have not had the opportunity, feel sore on the city and everybody in it—don't stay here. You will be happier if you leave and then you can dam Prince Rupert to your heart's content. Prince Rupert is no place for the dissatisfied ones. It needs hustlers, boosters and doers. A has-been may become a doer, but a knocker never can be anything but a knocker. I know that every man has an opportunity in our city. The opportunities, in fact, never were so prolific as they are now. They are staring at you. It is men we need, not opportunities, for the last we have in plenty. We need men and women to develop this glorious country. This is God's country. So is Vancouver, for that matter, only there the owner has been dispossessed. Let each one of us do our share in bringing one new family here.

By the way, if anyone asks you about the general conditions of Prince Rupert do you know enough about the important points of our city to talk about them. If you are in doubt or are not sure come and get my book of Questions and Answers on Prince Rupert. That tells the whole story. It is yours for the asking, or if you will give me the name of a friend I'll gladly send him the book free without any obligation either to you or to him. Do it today.

On January 15th and 22nd, Eastern papers on Jan. 15th, Western papers on Jan. 22nd, our Prince Rupert Opportunity advertisement appeared in papers in New York, Boston, Providence, Kansas City, Denver, San Francisco, Los Angeles, St. Paul and 37 Sunday issues of big U.S. daily newspapers in all. On Feb. 25th our Prince Rupert advertisement appeared in 26 Canadian daily newspapers.

"NOW" YOU PRINCE RUPERT PROPERTY OWNERS

please take notice and list your property with a good live broker, if from the above you think our equipment should produce the best results, you should come in at once.

We advise everyone to get in the market this spring and summer. Sell when you have a profit; buy again. That's the way to make money. You can make many times as much money if you will buy and sell and not hold on so long to property. All of you put your shoulder to the wheel and boost—keep on boosting—that's the way we will make a big city.
