# The Prince Rupert Optimist

DAILY EDITION

VOL. II, NO. 71 | PRINCE RUPERT, B.C., SATURDAY, APRIL 1, 1911. | PRICE FIVE CENTS

## FIRST VESSEL REGISTERED HERE

### S. PRINCE JOHN LAYS CLAIM TO THIS HONOR

**Baby Vessel of the G. T. P. Fleet Will Arrive in June—Will be Put on Run to Queen Charlotte Island.**

To the Grand Trunk Pacific lies the honor of registering the first steamship in Prince Rupert. This steamer will be the S. S. Prince John, the baby vessel of the G. T. P. fleet. She will arrive from Newcastle, Eng., next June and will then be placed on the run between this city and Queen Charlotte Islands, replacing the Prince Albert now on this run.

Captain Davies, who brought the Prince Rupert across the ocean from the old country, has gone to Newcastle to take command of the Prince John on her voyage round Cape Horn and up the Pacific coast.

The Prince John is a trim little craft of between 800 and 900 tons, of somewhat similar size to the C. P. R. steamship Princess Mary. Her dimensions are: length, 185 feet; beam, 29.6 feet; and moulded depth, 14.6 feet. She will have accommodation for 50 first class passengers and 150 steerage. Her speed is twelve knots. On her schedule on this coast she will carry the mails to every point of population on the Queen Charlotte Islands, including Masset, Naden Harbor, Queen Charlotte City, Ikeda Bay, Rose Harbor, and Pacofi.

## CHILDREN HELD CLEVER CONCERT

### ENTERTAINED LARGE AUDIENCE IN SALVATION HALL

**Bar Bell Drills, Indian Club Swinging and Pleasing Drills Varied an Interesting Musical Programme—Credit to Ensign Johnstone.**

The auditorium of the Salvation Army Citadel was filled last night by an audience which gathered to attend the Children's Entertainment—one of the most interesting of a series of entertainments which Ensign Johnstone has provided during the season.

The Ensign is quite an adept at teaching drills, and for several weeks past has been teaching the children in the "Band of Love" the art of bar bell and club swinging drills, to the great delight and physical profit of the children. How adept they have become was proved last night.

One of the most interesting of the drills was the clock drill, where twelve little boys and girls, each representing an hour of the clock danced round a Maypole and each contributed a pleasing verse. A comic sketch "The census taker," in which several of the elders took part provided a great deal of fun. The children who contributed songs and recitations were Olivia Solum, Eleanor Cowper, Georgie Johnstone, Isabella Kirkpatrick, Beatrice Killen, Johnathan Davidson, Mary and Florence Gray, Ethel Gray, Margery Cowper, Rose Davidson and Johnny Law. They were assisted by Mr. J. E. Davey in two splendid tenor solos, Mr. W. Miller with cornet solos, and by Gray's Orchestra, who played a number of selections during the evening.

## HUNDRED MEXICANS KILLED

**Hard Fighting for Two Days Near El Paso**

(Special to the Optimist)

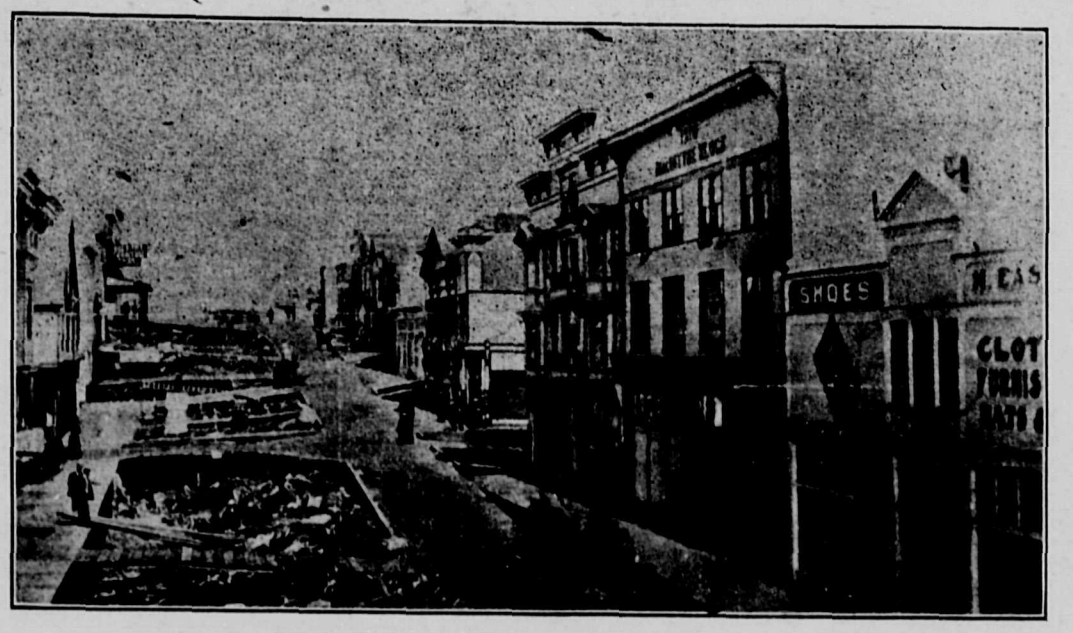
El Paso, April 1.—Over a hundred men were killed during two days stubborn fighting with the Mexican insurrectionists. The battle which is so far the most important fought in the state, began on Monday morning, and lasted until Tuesday night. The list of casualties includes both sides.

## COLONEL TISDALE DIES

**Veteran Militia Minister and M. P. Passes at Simcoe**

(Special to the Optimist)

Simcoe, Ont., April 1.—Colonel T. Tisdale ex M. P. for South Norfolk died here tonight aged 76. Colonel Tisdale was formerly Minister of Militia under Charles Tupper.



PREPARING FOR BUSINESS ON THIRD AVE.

## *THE GATEWAY TO THE INTERIOR*

You know what a transcontinental railway does for a country. It makes the price of land soar up. It is the means of creating new industries. It brings the markets of the world to the farmer where he secures top-notch prices. And in a province like British Columbia the farmer is a man to be reckoned with. *He does not have to sell his produce, the other fellow comes to him.* And why? Because the numerous industries in the province, the mines, the timber, and the fisheries, etc., create local markets which have to be supplied.

### Prince Rupert the Hub of the District

Prince Rupert has sprung into its vigorous existence of today as a result of the coming of the Transcontinental Railway, the same great creative influence which is making a thriving and populous agricultural and mining district of the wide and wealthy territory tributary to Prince Rupert. Prince Rupert is the hub of that great district, the starting off place for the thousands who are pouring in to settle in its rich valleys each year, and yet it is hardly sufficiently well realized, especially by those thousands, that Prince Rupert is the natural, and the best outfitting and supply point for the whole vast territory of which it is the doorway. How many incoming settlers have lost time and money, and put themselves to much greater inconvenience through outfitting at the southern centres under the mistaken notion that equipment and supplies are much more costly in Prince Rupert, or perhaps even thinking that supplies cannot be obtained here at all. Often after all their inconvenience and outlay for transportation such incomers have realized that much of their equipment is unsuitable, while the right supplies could have been purchased readily and reasonably in Prince Rupert.

*As a matter of fact—and the fact cannot be too emphatically impressed upon all incomers—every* possible item required for the thorough equipment of settler, prospector, miner, surveyor or enterprising pioneer business builder bound for the upspringing interior towns along the Grand Trunk Railway, can be bought, and bought to the very best advantage, right here in Prince Rupert.

### Prince Rupert Merchants Are Progressive

Enterprising merchants who have got beyond the pioneer stage by very long and very up-to-date strides, have made this possible. They have paved the way for the pioneers of the interior well knowing that their return will come richly and generously to them with the development by these pioneers of the rich natural resources of that interior. Prince Rupert expects much of the superb territory tributary to it as terminus of the Great Transcontinental. And Prince Rupert is doing much for the development of that territory by furnishing through her merchants easily, efficiently, and inexpensively, the materials and equipment necessary for the men who are helping on the development of farm, mine or fishery.

### Big Wholesale Houses to Meet The Needs

All that is requised in the way of foodstuffs, clothing, tools, conveyances and camp equipment, can be readily obtained at the various stores in the city. The fact that there exists close by the waterfront three huge five-storey warehouses of Messrs. Stewart & Mobley, *selling foodstuffs and dry goods*, Messrs. J. Piercy Morris & Co., selling dry goods, and the Kelly-Douglas Co., selling supplies of all kinds wholesale, to the many stores in the city and district is evidence of the truth that goods are brought into Prince Rupert in such large quantities as to make it easily possible for Prince Rupert merchants to retail them at prices very often below the cost of *the same goods in the southern cities certainly* not above that cost, and most certainly far below that cost plus freight charges. Therefore it pays the would-be settler to outfit at Prince Rupert rather than at points several hundred miles farther south.

### Local Merchants Understand the Conditions

One of the important facts in regard to outfitting in Prince Rupert is that here you get the advantage of the experience of merchants who know the requirements of the district thoroughly, men who have been over the ground themselves, who have equipped hundreds of pioneer parties already and who are supplying settlers continually. In touch regularly with the men who use the goods, these merchants of ours on the spot at Prince Rupert can save the incoming settler many and many a dollar besides much less worry and vexation.

### Getting the Goods Through "On Time"

Conditions of transportation of supplies for up-river points are at certain seasons irregular, and over and over the settler who has unwisely purchased his supplies "down below" has suffered through the delaying of his consignment simply because the "down below" merchant does not know the best way to

(Continued on the next page)

## G.T.P. BOATS ALTER TIMES

### NEW SCHEDULE COMES IN FORCE ON MONDAY

**Prince Rupert Will Go to Stewart Thursdays and Leave Here Friday Mornings for Vancouver — Two Boats on Run Soon.**

April 2nd sees the new time-table in force for the G. T. P. boats beginning with the Prince Rupert. The Rupert now leaves Prince Rupert southbound at 8 a.m. Fridays instead of in the evening on Thursdays as formerly, and that accordingly she reaches Vancouver at 10 p.m. Saturdays, Victoria 7 a.m. Sundays, and Seattle 4 p.m. same day. Coming North the Rupert leaves Seattle midnight Sundays, and Vancouver at midnight Mondays for Prince Rupert. On Thursdays the Prince Rupert takes up her Stewart run again leaving at 8 a.m. and getting back to Prince Rupert again on Friday in time for her 8 a.m. start for the South. On April 19th the Prince George begins her runs again leaving Seattke at midnight Wednesdays, reaching Rupert Saturday mornings, and leaving for the South Mondays at 8 a.m. The Prince George does not begin her Stewart run until June 11th. The Island service of boats will be arranged to suit the new Seattle-Rupert Steamer Time-table.

## THE PREMIER IS COMING

### HON. McBRIDE TO BE HERE ON WEDNESDAY

**Is Coming With Captain Nicholson of the G. T. P. and Others—What Is the Purpose of the Visit?**

Premier McBride, Captain Nicholson of the G. T. P. Steamship Co., and a party of influential men will arrive in Prince Rupert next Wednesday on the steamer Prince Rupert. What the real object of the Premier's visit is cannot be learned at this end. Some say that it is to rally his followers together in this district, while others assert that it is in connection with the G. T. P. assessment.

## YOUNG LOGGER ARRESTED

**Charged With Embezzlement of $3000 While Bank Clerk**

(Special to the Optimist)

Vancouver, April 1.—Last night a young man named Hodson was arrested at one of the Hasting Saw Mill Co.'s logging camps by the Provincial police. Hodson is charged with having embezzled $3000 from the Bank of Commerce at Weyburn, Saskatchewan, while employed as a clerk there.

## WHERE RUPERT LEADS

**Vancouver May Tax Employment Agencies Too**

Members of the Vancouver Trades and Labor Council have noticed with approval the fact that at Prince Rupert a licence fee of $500 is levied from Employment Agencies while the fee these agencies may charge is limited to 25 cents. Vancouver, thinks the Council mentioned, might do well to follow Prince Rupert's lead in this. Empyolment agencies are little liked throughout the Province, and greater control of them everywhere in B. C. is recommended.

### Building Permits

The following building permits have been applied for during the past week:

P. J. Farrell, house on Nayes Cove avenue to cost $200.

Edith Clifford, house on Lot 8, Block 43, Section 5, to cost $1,300.

Fred Shaw, three cottages on Ninth avenue, to cost $1,800.

Douglas Attson, store on Seventh avenue to cost $450.

For causing a disturbance in the local inferno district and then assualting Special Constable Craeagh, J. Rockford and J. Bradburn, were charged in Police court this morning. Rockford was fined $10 and costs while Bradburn was assessed half that amount.

# The Gateway to the Interior

Continued from Page One

catch the quick method of getting the goods delivered. Prince Rupert merchants on the other hand, know the ropes thoroughly and goods ordered from their stores have a knack of getting there on time. With the very best of intentions the merchant, hundreds of miles south, cannot give the same service.

## A Wrinkle from the Old Pioneer

Another point is that in the event of a settler in the interior requiring a repeat order, or new stock of any sort of supplies the fact of his having purchased in Prince Rupert just splits his waiting time for the new supply in two. And he will find that his dealings with the Prince Rupert merchant has been so much more personal and intimate than are possible down below; that his second order is filled a hundred-fold more intelligently and satisfactorily, with a real knowledge of his need. Advantages such as these are never sniffed at by the settler of experience. Your practised pioneer knows too well how vexatious it is to wait weeks for a necessary only to be disappointed by receiving a useless substitute for it after all. The purchaser at Prince Rupert who is going up country has the advantage of dealing personally with merchants who know the settler's needs to a nicety.

### A Centre Of Wealth

More and more as the months pass each bringing Prince Rupert a stride nearer to her own place amongst the cities of the world, the merchants of Prince Rupert are realising the importance to themselves of the trade with the wide country tributary to their city. Merely to mention the principal districts in that country without enlarging upon the resources of those districts is to convince the far-seeing reader of Prince Rupert's undoubted position as outfitting and supply centre.

### Prince Rupert the Gateway

Here is Prince Rupert centrally situated between the Skeena and Naas River Valleys, and the natural gateway to the Lakelse, Kitsumkalum, and far-famed Bulkeley Valleys, all of which are surely destined for greater and agricultural development with each spring, summer, and fall. Up the Skeena lies Hazelton and its rich mining tracts of mountain country. Northward there is Stewart; Mining flourishes there and is growing year by year. Prince Rupert supplies Stewart and the whole Stewart mining district. As far as the farthest populous centres of Alaska too extends the range of the city's supply trade. All Atlin and the Yukon depend on Prince Rupert stores for necessaries, and people visiting all these places are getting wise to the fact that they can best outfit at Prince Rupert. Nor must it be overlooked that the Islands of the Queen Charlotte Group are being rapidly occupied by settlers whose most convenient outfitting and supply base is Prince Rupert.

### All Supplies On The Spot

In proof of the assertion that it is possible for the incomer to supply himself with everything he may want in this city it is only necessary to mention one or two of the old-established firms doing supply and outfitting business in Prince Rupert. No newcomer to Prince Rupert can fail to notice the huge wholesale warehouses of the well-known firms of Kelly-Douglas, Piercy Morris, and Stewart & Mobley already mentioned. These big buildings are situated on First avenue right at the water-front. They are served with elevators and all their five spacious storeys are crammed with goods sent up from the wharves and steamers' holds and ready to be distributed again by rail or sea as conveniently situated for the incomer. First to meet the eye of the new arrival would be the outfitting store of Messrs. C. B. Schreiber & Co., Ltd. Here every article of wearing apparel most suitable for wear in the bush or on the trail as well as the latest in fashionable attire may be obtained of the very best quality and at Montreal prices. Martin O'Reilly on Third avenue handles the very best makes of clothing and a complete high-class line of furnishings. Messrs. Sloan & Co, on Sixth street do a high-class tailoring trade at "down below" prices. There is the Acme Clothing & Outfitting store on Second avenue near Sixth street; and other good stores such as Director Cohen Co., Messrs. Rudnick & Sweder; Jabour Brothers and The Mechanics Clothing Store. Clothing suitable for all purposes and at prices to suit all pockets can be had from these firms.

### A Good Department Store

Away along Second avenue is the department store of Lynch Bros., where everything in the way of groceries, outfitting supplies, blankets, leather goods, rubber boots, even sash and doors and lumber is obtainable. As an old time pioneer and contractors "Bill Lynch" has a reputation for knowing the needs of outfitting parties in northern B. C. Among the other leading houses which specialize in one line or another are those of Stalker & Wells, who do a big business in high-class groceries; Scott, Froud & Co., the leading boot and shoe dealers; H. H. Morton, wholesale produce and fruit and McRae Brothers, the up-to-date dealers in stationery, books, office supplies and mathamatical instruments.

### Good Hardware Stores

Hardware supplies are obtainable from the Prince Rupert Hardware and Supply Store, Third Ave., the Thompson Hardware Co., and Fred Stork's Hardware Store, Second Avenue. Furniture substantial and suitable for the country's needs is supplied by George Tite's Store on Third Avenue, F. W. Hart on Second Avenue, and Haynor Bros. on Third Avenue.

### For the Ladies' Needs

Needs of the feminine population are catered for in up-to-date manner by the department store of the H. S. Wallace Co., Mrs. Frizzell, Mrs. Demers, and the Misses Barbeau, so the incoming settler who is bringing with him that much prized possession out west—a wife, may reassure her on the score of the fashions and furbelows dear to the feminine fancy all the world over.

### "Everything in Canvas"

Of special importance to the prospector, pioneer, settler, or surveyor is the interesting stock of the Prince Rupert Tent & Awning Co. This firm, managed by Mr. L. Lofquist, assisted by E. Hellman, does everything in the way of canvas and camp gear except the heavier hardware. Tents of all sizes, camp beds, and every requirement for packing over the trails can be had from this firm. They will even make you a canvas collapsible boat if you need one. Dealing here, you have the advantage of buying from men who have used and known the points good and bad of every article or device used by the camp-dweller in these parts. Strength, lightness, convenience, lasting quality—all these important matters are carefully seen to.

### Lessons of Experience

Bush work on the Northern B. C. coast and away up the rivers and over the mountains and glaciers is exacting on equipment as well as on men. It pays to purchase the right gear, pays a thousand-fold in saved worry and anxiety, in saved time and saved labor, as well as in saved money. Therefore the wise incomer to Prince Rupert on his way to reap the rich rewards of enterprise in the interior districts, the mining and agricultural tracts tributary to the transcontinental terminus saves his money for his outfit until he reaches the last best outfitting point of his journey. That point is Prince Rupert.

# COLONEL DAVIS SUBMITS A WATERWORKS SCHEME

## Will Bring Water from Woodworth Lake Enough for 60,000 Population at Cost of $480,000---Supply Main Alone Will Cost $330,000

"In designing a system of water works for the city of Prince Rupert it is necessary to provide for a population which will probably reach 20,000 in five years, and the foundation of a distribution system which can be expanded to serve a population of 60,000 in the future."

With these words City Engineer Davis commences his full report on the Woodworth Lake water supply scheme. The total cost of the scheme amounts to just over $480,000 of which $330,000 are for the supply main between Woodworth Lake and the city.

Woodworth Lake is situated on the mainland about seven miles north east of Acropolis Nill. The lake is 336 feet above low tide. It is from 150 to 200 feet deep, covers about 454 acres, and contains an abundance of the purest water from a watershed of nearly ten square miles of mountain country with snowy summits which you see from the townsite.

Owing to the climatic conditions fo the coast the run-off from the lake varies from 7.7 cubic feet per second in dry seasons to 571 cubic feet per second after heavy rains. By building a rock and timber dam at the outlet of the lake the surface can be raised 30 feet. Later on as the city grows wealthier, a concrete dam can be constructed and the head of water increased if need be. The supply pipe line comes through a rock tunnel at Woodworth Lake along the mountain side till just above the east end of Lake Shawatlans. Here it descends the shore of Lake Shawatlans which it follows for about one and a half miles thence crossing a low neck of land to tide-water and over Shawatlans passage a distance of 800 feet, to the townsite where it delivers into Acropolis Nill Reservoir.

A supply main 24 inches in diameter with a dam of the proposed height at Woodworth Lake will supply at Acropolis Hill four and a half million gallons per day. As this amount of water will not be required for a number of years it is proposed for the sake of saving to reduce this size to 16 inches at Eleventh avenue after passing Montreal Hill. This will mean a delivery of two million gallons per day which is sufficient for a population of 50,000. As the city grows the supply can be easily increased, and with a distributing reservoir on Montreal Hill enough for a population of 60,000 can be provided.

Fire protection has been the primary object in view in planning the distribution system. A million gallons of water stored in the Acropolis Hill reservoir would keep sixteen ordinary fire hose streams going at full pressure for over six hours, and the whole supply from Woodworth Lake would remain available for domestic use. It is imperative that any parts of the proposed work which will improve the present fire protection of the city should be undertaken at the earliest possible moment recommends the City Engineer. This would mean the completion of the Acropolis Hill Reservoir and the laying of the mains covering the present oppulous sections. The reservoir could be filled from the existing water supply and the million gallons held in reserve for use in case of fire.

The works proposed are substantial and lasting, says the City Engineer, and the cost of operation and maintenance will be as low as possible for any system.

On Thursday night the city council in committee of the whole with the City Engineer present, made a preliminary consideration of the Water Works Scheme. Owing to the size and importance of the undertaking and its cost it has been decided by the council to have the opinion of a waterworks engineer from the outside. Mayor Manson and Alderman Smith, Chairman of the Fire and Water Committee, are to arrange for the outside advice upon the recommednations of the City Engineer. The motion to this effect was made by Alderman Newton and seconded by Alderman Morrissey. There is no lack of confidence implied in the efficiency of the City Engineer, but the council felt that a scheme of such magnitude and importance should not be launched without the assistance and advice of another reliable engineer.

## MODEL FOR THE WORLD

### Proposed Arbitration Treaty Between Britain and U. S. A. Discussed

(Special to the Optimist)

Washington, April 1—James Bryce, the British Ambassador here, is holding a conference with Secretary Knox regarding the proposed arbitration treaty between the United States and Great Britain. Negotiations are at present, of course, in an early stage, and details are not forthcoming, but it is known that so far no hitch has been encountered and none is anticipated. This treaty if concluded will be the fore-runner of its kind, and a model to the world in measures for the blessening of strife among nations.

## ESQUIMALT MURDER TRIAL

### Conviction of Allan Quashed by Supreme Court

(Special to the Optimist)

Ottawa, April 1.—By decision of the Supreme Court today the conviction of the man Allan convicted of murdering Captain Ellison at Esquimalt Barracks has been quashed, and a new trial ordered. Allan's appeal to the Supreme Court was allowed, and the decision come to on the ground that important evidence put in at the first trial by the crown was inadmissable, and may have influenced the jury causing the accused considerable harm.

DAILY EDITION. SATURDAY, APRIL 1

## A SPRING GREETING

After a week devoted to the strenuous task of moving our machinery and equipment to its permanent home in the new Optimist building, our paper is able to make a new appearance. No better augury could be found than that we reappear on the first day of spring, with the opportunity and intention to enter upon a new lease of life.

Until after these words are done into type it will be impossible to determine the precise character of our first appearance, but great things are planned, so that within a very little while the whole character of the paper will undergo a rapid metamorphosis. Perhaps not only the type, make-up, size and quality of our newspaper will undergo change, but even the name. It is intended to give the public of Prince Rupert, and the outside world who are interested in Prince Rupert, the very best paper that it is possible for money and brains to produce. It will be a bright, breezy newspaper for the local reader, and a publicity agent, giving the outside world reliable information about northern British Columbia.

A number of new features have been arranged which will show themselves in a few days, additions to the plant and staff are being made, an expert advertising service is being laid at the disposal of our rdvertisers, and the Optimist will lead the way in the new campaign of publicity development and prosperity for the Prince Rupert district.

## NOTES AND COMMENTS

The folk who were up early this morning were well rewarded. The rays of the warm sun streaming over Montreal Hill, chasing away the suspicion of sharpness in the air, and lighting up the fir-covered hilltops across the harbor made a picture to be chronicled. Where was the Optimist artist then?

On learning that four ladies will hold up the Queen's train at the coronation the Montreal Herald somewhat irreverently remarks that they might get some pointers from Bill Miner.

The authorities did well to show that law must be observed in all labor disputes. Any man or number of men have a perfect right to decline to go to work whether offered 37 cents or 37 dollars an hour. That is their right. But they have no right under the law that they helped to create, to prevent any other man or men from working at a rate of pay that looks good to them.

### Honored Their Leaders

The Prince Rupert Choral Society had an enjoyable social on Thursday evening in the K. P. Hall when Mr. Denholm on behalf of the members presented Miss Froud with a bracelet and Mr. Davey with a mounted baton in appreciation of their indefatigable services to the Society.

There was a large attendance of members and friends and a very pleasant evening was spent.

# ALBERTA MINERS STRIKE OVER SIX THOUSAND IDLE

## Men Flung Down Picks and Shovels When Agreement Expired---Thousand Ton Output Per Day is Stopped---Business Not Yet Affected

Special to Optimist

Fernie, B.C., April 1—Six thousand five hundred miners laid down their picks and shovels and walked out of the mines today in the district governed by the agreement regarding wages and other regulations affecting miners and operators respectively. The time limit of this agreement expired today, and as has been expected for some time the men immediately struck work.

**Over Six Thousand Out**

Six thousand and fifty of the strikers are members of the United Mine Workers of America. The others are non-union men who had been working along with the others. Two thousand four hundred are employees of the Crow's Nest Pass Company.

**Only One Mine Working.**

The men of Hosmer, Coleman, Blairmore, Frank, Lille, Bellevue, Maple Leaf, Passburg, Hillcrest, Burmis, Lethbridge, Diamond City, the Royal Collieries, Canmore, and Bankhead are all idle. Only one mine in the district is working. That is Corbin, where the agreement does not expire until May. The mines closed down were producing a thousand tons a day.

Business in the district is not immediately affected as the long drawn out negotiations has rather discounted the effect of the strike.

# NAMES OF DEAD PASSENGERS ILL-FATED STEAMER SECHELT

## Death Roll is Now Fifteen, Nine Passengers and Six of Crew----Several Other Passengers' Names Are Unknown and They May Never be Traced

Special to the Optimist

Victoria, B. C., April 1st—From the latest information that can be gathered the death roll of the illfated Sechelt is now put at fifteen. Today the names of four men who took passage by the doomed steamer were discovered.

**Four of the Victims**

These are:

**James Williams**
**T. Costello**
**Pete Peary**
**H. Jones**

These men were laborers and are known to have been on the way to Sooke to look for work on the railway construction there.

**Were Fifteen on Board**

As far as can be ascertained there were nine passengers by the Sechelt, but the names of them all cannot be traced. The crew numbered six.

**No Trace of Bodies**

Efforts are still being made to discover the identity of all the drowned and enquiries for missing men who were supposed to have been on board come in. No other bodies have drifted ashore and there is little or no wreckage that could afford any clue to the unidentified missing.

# IS REPRESENTING BRITISH AND U. S. CAPITALISTS

## Leading British Financial Journal is Sending Its Representative to Prince Rupert---Representative of Iowa Capitalists is in Town Today

What will undoubtedly be the means of inducing British capitalists to invest money in Prince Rupert will be the sequel to the visit here of Mr. W. Leonard Palmer, special representative of the Financial News, the largest and most influential newspaper in financial circles in London, Eng.

Mr. C. M. Wilson, the real estate man, received a letter from the paper in question yesterday, stating that Mr. Palmer is now in Canada looking over the country on behalf of the Empire Section of the "News." This section gives advice to moneyed men in the old land as to the best places in Canada for investment.

**Bull's Eye of the West**

Prince Rupert has been represented to The Financial News as the bull's eye of the last great west, and as a result of this representation Mr. Palmer has been instructed to come here. He will probably arrive some time next week.

An extract from the letter reads: "In view of the wide influence of the Financial News amongst every class of investor and the prominent part it is taking in furthering the financial relations between Great Britain and the Dominion, the visit of our special representative will be of particular importance, and there is little doubt that the result will be seen in an appreciable addition to the already large flow of British capital to Canada."

**Iowa Representative Here**

In addition to the above interesting news comes more evidence that Prince Rupert and surrounding country is attracting people from all points of the compass. Representing a large number of influential farmers and business men from Iowa and the Western states, Mr. J. N. Balcom, of Griswold, Iowa, is in the city investigating the possibilities of the city and district.

**Will Report on Farming Lands**

He will return and report on the city and the farming lands in the tributary country around here. Mr. Balcom will visit the Bulkey Valley up the Skeena River before he leaves for his home.

During the coming summer a party of prominent Iowans have arranged for a special car from Des Moines to Vancouver. After visiting Vancouver the party will spend a few days in Prince Rupert.

# Flannel Shirts

The appointments and service are equal to any hotel on the coast.

Rates: $1 to $3.50 per day.

G. A. Sweet, Manager.

# OUR MOTOR FIRE ENGINE WINS PRAISE OF CRITICS

## Had a Trial Test on Toronto Streets in Presence of Ontario Fire Chiefs---Is Now on Its Way to Prince Rupert---Description of the New Engine

Prince Rupert's famous fire-fighting auto, after many delays is now completed and on its way hither, to do duty. In the East it has attracted a great deal of attention, the fire chiefs of the principal Ontario cities journeying to Toronto ten days ago, to attend a grand public performance of the auto on the streets of the Ontario capital.

Judging by the accounts in the Toronto papers, the engine made a great impression on the fire experts and on the Toronto public, and proved an excellent advertisement for Prince Rupert. The following is the account of the apparatus, which together with a picture of the engine appeared on the front page of the Toronto World of March 22.

### Description of the Engine

An auto chemical hose wagon similar to the three which Chief Thompson has asked the city to provide for the purchase of in the estimates of the fire department, at about $8000 each, this year, arrived in the city yesterday and received a try-out. It has been constructed for the use of the fire department in the new western city of Prince Rupert, and it has been demonstrated for the benefits of the heads of the fire departments of a number of Ontario cities. This afternoon it will start on its way to the growing city of the west.

Chief Thompson, in company with the representative of the manufacturers, took the mayor and board of control for a spin yesterday noon, and they made a record trip from the city hall along Queen street to University avenue, up the avenue to the parliament buildings, and back to the city hall by College and Yonge streets. The trip only took 15 minutes.

### Massive, but Speedy

The truck is a massive affair of steel build throughout, making 7 tons of dead weight that require an 80-horse-power engine to propel. The engine is a 6-cylinder and capable of driving the big bulk of fire-fighting apparatus along a level stretch at 40 miles an hour This high power also gives the machine the ability to climb hills in a manner calculated to make a healthy horse look sick.

Combined with this high speed is a friction brake that instantly binds the double back wheels and stops the truck while the team would be thinking about it. These and many other advantages are pointed out by the chiefs, who are all enthusiastic about the metal monster. They claim that with the advent of these machines there will be no more tired horses; that every man will be available at a fire, no man needing to stay and watch frisky horses, no horses will have to be hitched, and no smell of the equines will annoy the fastidious around the fire halls.

### An All-Round Equipment

As well as 1200 feet of hose, the truck carries a 4-gallon chemical tank, two Babcock extinguishers, a 12 foot ladder, and a 24 foot extension ladder, thus making it fully equipped to deal singlehanded with small fires. About ten men will be required to handle it. It is estimated that it will last from 20 to 30 years, as the daily run would not average over 4 miles, and everything in a fire hall is kept in perfect order. It looks as if Toronto will have to "pony up" the price if she would keep up with the times.

## CHIPS FROM THE HUMORISTS

Clerk—Can't you raise my salary to the same as Boggs'? I do as much work as he does. I think it's unjust.

Boss—Well, I'll reduce Boggs' salary to the same as yours.

"People tell me," said the casual acquaintance to the busy business husband of the popular society hostess, "that your wife converses charmingly."

"Yes, I've been told the same thing myself," answered the other.

"Oh, sir, will you please come at once? There is three brutes jumping on a poor organ grinder."

"Is he a big organ grinder?" queried the old gentleman calmly.

"No, no, sir; quite a little man. Oh, come at once or it will be too late"

"I don't see why I should interfere," replied the old gentleman. "If he's a small man the three men don't need any help."

### Talk of the Town

Rev. F. W. Kerr will preach on "The Man and the Mob" in the Empress Theatre on Sunday morning and "The Orthodox Sceptic" is the subject for the address he will give in the evening. Mr. Kerr is now preparing a series of sermons on Socialism. He will give the first of these series in the course of a few weeks and, he says they will be very interesting.

There were 77 passengers left on the steamer Prince Rupert on Thursday night for Vancouver.

The work the G. T. P. are doing at the wharf such as repairing the piles, etc., is likely to last some time. It is the intention of the company to fix things up there in a substantial way.

Mr. O'Neil, a fully qualified chemist, has joined the staff of C. H. Orme, Pioneer Druggist of the city.

P. O. Box 436 Prince Rupert

# HERE WE ARE

Back in the old space again after an absence of three weeks. We couldn't stay out, because, no matter what it costs, we must talk to you about our business—must get and hold your interest. We afe enthusiastic about our business. Ever notice that when anyone is interested in any subject or concern that he just HAS to talk about it? That's our attitude about our business, we simply must talk about it (of course in season and in reason) and we feel, too, that we have something worth talking about — some message from time to time that is bound to be of interest to the shoppers of Prince Rupert, particularly to the ladies. The ladies, as yon know, (bless 'em) do the shopping—the largest part of it—of the world, and they have to know where to buy and buy "right," when the different goods that the changing seasons demand have arrived at the stores, and so on, and it is the mission of the advertiser to keep them posted along these lines. Whether you buy from us to-day or to-morrow or whenever you DO buy, we want to tell you and convince you that we are the people to buy from. No use hiding our light under a bushel on the chance that you'll discover it for yourself when we have the light of this space to throw on the screen of your mind and create therin the association of ideas which means that when you think of Dry Goods, Ready-to-wear for Women and Children, Chinaware, Crockeryware, Fancy Goods, Etc., you think of "Wallace's" ana you go to "Wallaces" when you want anything in these lines—and find there a good store of goods and good service always at your command. We have received many new things for the spring business lately, and we'll tell oou more about them in a day or so.

While some of the young men of the Kaien Island Club were sporting in the gymnasium the other evening Jimmy Oriol, a Siwash youth, rifled the pockets of some of the clothes in the dressing room and netted $16. For his cleverness Magistrate Carss gave the lad a month in the local lock-up.

# *Letters to the Editor*

**Chief McCarvell's Denial**

The following letter which has come to hand during the week explains itself. In justice to Ex-Chief McCarvell, we might add that the information about the Rainbow incident was not supplied by any present or past official but was obtained in the ordinary course of news-gathering.—Ed.

Dear Sir,—In reference to an article appearing in your paper, dated March the 14th, which has just come to my notice, reporting a speech made by Alderman Newton in the Council Chamber on the night preceding, re sending for H. M. S. "Rainbow" or militia to quell the imaginary labor difficulty in the city. He is reported as having stated that the secret meeting was called by the ex-Chief of Police asking that Red Coats or the militia be requisitioned for. This statement is absolutely untrue as I never did ask for, or even suggest, anything of this kind, also that after resigning my position as Chief of Police in your city I immediately gave this information to the "Optimist". This is also another of Newton's fabrications and is in my opinion, done for the purpose of clearing his own skirts. This matter was never divulged by me to the "Optimist" or its representatives, or to any other person until after reading the malicious statements made by Alderman Newton.

Furthermore, in view of these deliberate falsehoods made by him, I feel in justice to myself that this matter should be placed in its true light before the Association, and if they should wish to know exactly what position this

# LAST YEAR

REAL ESTATE OWNERS IN

## Western Canada

MADE

## $100,000,000

From the most accurate figures obtainable, over One Hundred Million Dollars was made by real estate owners in growing cities and towns of Western Canada last year. This vast wealth was exclusive of improvements and represented actual increase in land values alone.

Original records gathered by the Winnipeg Free Press prove that in eight western Canadian Cities the value of land alone—not counting improvements—increased 562 per cent. for the last five years—an annual increase of 112 per cent. for each city during the last five years. These figures indicate that investments in live, growing cities in Western Canada are as safe and sure as an investment can be, and that 100 per cent. profit each year is almost a certainty.

# THIS YEAR

THEY WILL UNDOUBTEDLY MAKE $100,000,000 MORE

You have an opportunity now to participate in these immense profits by being one of the original purchasers of town lots in the Grand Trunk Pacific addition to the fast growing Western Canadian cities, otherwise known as

**Grand Trunk Pacific Railway Division Points** No. 23

WATROUS, MELVILLE, WAINWRIGHT, BIGGAR

The Grand Trunk Pacific offers in these splendidly located, fast growing Division Points and in the townsite of Tofield an opportunity for the investor to share in the large profits that are sure to accrue as a result of the rapid and substantial growth that characterizes Grand Trunk Pacific Division Points and well located cities and towns in Western Canada.

The Grand Trunk Pacific does not offer townsites or additions so located as to make investments in them of questionable value. The object in selling these lots at the low prices at which they are offered is to encourage the upbuilding of these cities from which the Grand Trunk Pacific will derive vastly more benefit than from the sale of lots.

Now is the time to buy. Choice lots range from $100 upwards on easy payments of 10 per cent. cash and 10 per cent. a month. You make your purchase direct and secure title from the Grand Trunk Pacific Railway Company. Write for literature and make your selection while the prices are extremely low and the possibilities unlimited. Address

## DAILY MESSAGES FROM "UNCLE JERRY"

Number twenty-three is sometimes facetiously called the 'skidoo' number. Some of my friends may ask why I don't take the hint and stop these talks. Well, if they could come to my office and see the increased business my office is doing since the Prince Rupert people are better acquainted with me, they would use my methods themselves.

A friend asked Dr. Parkhurst, the famous preacher of New York, why he wrote for the New York American, 'that rotten sheet,' he called it. Dr. Parkhurst said that the sheet isn't half as rotten when he writes for it as it would be if he did not.

My method of direct advertising tells you clearly about my methods and plans. I am not strong on frills and pictures. Advertising space is too valuable to be wasted. Incidentally I may add I know what good advertising is and that is the reason I am using it.

How about boosting Prince Rupert? Now, altogether, let's say a kind word about our wonderful city to at least one friend who is deprived of the pleasure of being here in person. There is one thing worse than knocking and that is to be silent.

Let's shout so that everybody hears: "Prince Rupert—the San Francisco of Canada."

On January 15th and 22nd, Eastern papers on Jan. 15th, Western papers on Jan. 22nd, our Prince Rupert Opportunity advertisement appeared in papers in New York, Boston, Providence, Kansas City, Denver, San Francisco, Los Angeles, St. Paul and 37 Sunday issues of big U.S. daily newspapers in all. On Feb. 25th our Prince Rupert advertisement appeared in 26 Canadian daily newspapers.

## "NOW" YOU PRINCE RUPERT PROPERTY OWNERS

please take notice and list your property with a good live broker, if from the above you think our equipment should produce the best results, you should come in at once.

We advise everyone to get in the market this spring and summer. Sell when you have a profit; buy again. That's the way to make money. You can make many times as much money if you will buy and sell and not hold on so long to property. All of you put your shoulder to the wheel and boost—keep on boosting—that's the way we will make a big city.
