GENERAL STRIKE ON IN PORTUGAL

RAILWAY MEN QUIT WORK AND BUSINESS EMPLOYEES ALSO

The Strike Movement Is Spreading Throughout the Provinces and Empyloyees of Labor Are Greatl Concerned—Railroads Tied Up.

(Special to the Optimist)

Madird, Jan. 13.—A railway strike is general throughout the lines of Portugal and all communication of that character is entirely cut off. Spanish trains are unable to cross the frontier on account of the strike.

The employees of nearly all the commercial houses have followed the example of the railroad men and gone out on strike out of sympathy. This movement is extending to the provinces and a general tie up of trade is imminent. The big business houses are in a great state of consternation at the trend of things and drastic steps are likely to be introduced to checkmate it.

The boys were brought in early today from a lumber camp 22 miles north of the city.

Electric Plant Has Been Installed and Buildings Are in Progress Ready for the Spring Catch of Whales.

(Special to the Optimist)

Massett, Jan. 14.—On one of the bays along the shores of Graham Island seventy-five men are employed in the construction of buildings and wharves for the new whaling station. The whaling company secured a section of land, covering three-quarters of an acre, from Edmonton parties. They then chartered the steamer Henriette, and conveyed the men and material to Virago Sound, where work is being rushed in preparation for the spring catch of whales.

An electric light plant has been installed by Messrs. Hutcheson Bros., of Victoria. A number of houses will be erected and the new steamships of the company will make their headquarters on Naden harbor, which is one of the best sheltered localities on the coast. The Henriette left recently for Swanson Bay and Victoria, to load another consignment of lumber and supplies.

It is stated that the company have purchased the steamer Petriana, and that it is their intention to engage in the cold storage of fish, which teem in the waters of Heacte Srtaits.

(Special to the Optimist)

Vancouver, Jan. 13.—After the hottest fight ever experienced here in municipal elections Mayor Taylor was re-elected over his opponent, Mr. A. Morrison, by the comfortable majority of 1683. The campaign was made noteworthy on account of the number of charges and countercharges made by the supporters of the respective candidates. ROYAL DUKE FOR CANADA

(Special to the Optimist)

Ottawa, Jan. 14—All doubt as to whether or not the Duke of Connaught will be the next Governor-General of Canada was set at rest to-day when word was received from England to the effect that the King's uncle has accepted the office.

It is expected the royal Governor-General of Canada will arrive in this country in September.

WILL OFFER SUBSIDY TO THE PACIFIC-ORIENT LINE

Sir Wilfrid Laurier Makes Welcome Announcement in the House of Commons---Denies Statement in Grain Growers' Guide---Invitation to the Coronation

(Special to the Optimist)

Ottawa, Jan. 13.—Sir Wilfrid Laurier in the House of Commons today repudiated the statement contained in the Grain Growers' Guide to the effect that he promised that the government would erect elevators at Liverpool, England, in order to make sure that the wheat shipped to the old country and Europe would be by the Hudson's Bay route. He stated that he never made any such promise. He admitted perfectly frankly that he had promised the Farmers' Delegation that he would consider the building of the Hudson's Bay line but was opposed altogether to the government operation.

At the same time the Premier took the opportunity of saying that an invitation had been received for a committee of both parties in the House to attend the Coronation festivities of George V.

The Premier also gave intimation that he will move a resolution authorizing the Governor General in Council, on or after the 7th day of April of this year to grant a subsidy to a steamship service between the ports on the Pacific coast of Canada, and China and Japan for such a period of time as may be deemed expedient, but not to exceed $25,000 sterling per annum.

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

Social Notes

Mrs. I. Director with children left last night on the Prince George en route to Chicago where she will visit her mother.

Housekeeping, A University Subject

The present movement of women's clubs for the study of "Scientific Homemaking," is a protest against the old system of education, which did not fit the girls for life, or in any way prepare them to be home-makers. This protest in Ontario took the form of "Women's Institute organizations.

In Manitoba the clubs have not yet taken a permanent name, and the same is the case in Saskatchewan. But with or without a name, their purpose is the same, and as a result of the present awakening it seems likely that girls will no longer be expected to have an intuitive knowledge of homemaking.

Kings college, London, now offers two comprehensive courses—one for graduates and one for undergraduates. The post-graduate course is for one year only, and the undergraduate course is for three years. The courses are under a college board of studies.

As the scheme progresses and time and funds allow, opportunity may be given for women doing important voluntary work to attend special lectures in the post-graduate course bearing on those subjects to which they are devoting their lives, and in many cases their fortunes. Under this head would come the lectures on the care of infant life, child psychology, and certain branches of economics.

It is believed that both the existing courses will be valuable to any woman who is likely to be called upon to fill a position in life which will necessitate the management of large household or estate. Either will be particularly useful as part of the equipment of women likely to emigrate to the colonies, and will serve as excellent training for those intending to prepare themselves for posts as matrons of hotels, hospitals, asylums or other large instutitions, and will be a valuable equipment for any who wish to become teachers of such subjects in colleges and universities, secondary or primary schools. The course in its entirty also provides a new training for certain government appointments, especially inspectorships.

It has surprised some people to find the prominence given to the study of economics in the syllabus. Yet a moment's consideration should convince them that one-half of finance is concerned with spending, which in its way is equally important with the art of money making in every branch of domestic and even national life. What else, for instance, are the war office and the admiralty but huge spending departments, whose first and foremost duty is to get the fullest value for the money assigned to them from the public purse for what is literally national housekeeping?

Uncle Walt's Opinion

Recently we have published articles from both sides in the discussion as to whether the tendency of athletics is to make woman's physique more like man's. The latest contributor to the discussion is the ubiquitous Walt Mason who says:

A Harvard professor who seems a bad guesser is claiming that woman's becoming like man; she's dropping her graces and losing all traces of feminine beauty as fast as she dan. Her shoulders are broader, she eats too much fodder, she walks like a pirate, and soon she will shave; s e's bold and athletic and not sympathetic; the old-fashioned woman has gone to her grave! Come off, Harvard teacher! You've studied some creatu e who holds down a job in a Boston musee! For women are fairer and sweeter and rarer than ever they were, in this land of the free! They're better and saner, and ot a whit plainer than damsels who languished and knitted and swooned; the damsel of Cooper—the weeper and drooper—is she the fair lady o'er whom you have mooned? Thank God for the woman, so healthy and bloomin', who carries herself with a jubilant stride! She's far more enchanting than all of the panting and simperi g ladies who languished and died!"

DAILY COOKING RECIPE

Harlequin Sandwiches

Take two slices of white bread and one of whole wheat bread, trim off the crust-spread one slice of white bread with just a little butter, then with cream cheese and mixed with finely chopped olives, then butter the slice of brown bread in the same way and spread with finely chopped pecan nuts mixed with mayonnaise dressing. Simply butter the other slice of white bread, arrange with the slice of brown bread in the centre; press firmly together; cut in small pieces and serve.

Practical Household Hints

A rich puff paste baked in strips about an inch wide and two to three inches long is very good in sandwiches. Guava jelly and whipped cream are used for filling.

Turnips are liked better by many persons if they are parboiled and drained before the final cooking. A little potato added to mashed turnips is a pleasing variety.

When the mayonnaise separates in the making add a little of the white of the egg, and continue adding the other ingredients. In almost every case the separation will be overcome.

The best thing to dust furniture is a arge, soft paint brush which has been dipped in olive oil and squeezed almost dry. This will take up every bit of dust without sending it flying about.

Paint stains may be removed from wollen fabrics by rubbing with turpentine. If the stains are old and do not respond to this treatment, add ammonia to the turpentine.

A thin coat of potash left on the sink overnight once a week will remove the ugly yellow stains that will not yield to kerosene. It should be applied with care, as it is poisonous.

"True, my dear fellow," replied his tormentor, tranquilly. "Nor did I ever lay an egg, but I do hope I know a bad one when I tast it."

Sir Wilfrid's Announcement

The news announced in our columns today that Sil Wilfrid Laurier has promised to bring in a resolution at an early date subsidising a steamboat service between British Columbia ports and China and Japan, is one which will cause satisfaction in Prince Rupert. It is one more evidence of the Federal Government's good intention to us, and of their awakened sense of the importance of prompt action to ensure activity in shipping enterprise.

As the terminal port of the shortest and best route to China, Japan and the far East, the promise is one which directly concerns our future welfare.

Where Is Our Member?

On Friday last the Legislative Assembly at Victoria opened. All the members save one were there for the occasion. Since then all the members save one have been present in the House, taking part in the debates, and theorctically at least looking after their constituents.

The one unrepresented constituency is Skeena. Though, theoretically at least, pledged to look after his constituents' interests, the member for Skeena is away from his job. By this act, the member for Skeena is disfranchising his constituency. He is looking after another job, this member who cannot look after even one properly.

The member for Skeena should be ordered out of town to attend to his duties, Hawthornwaite, the labor champion, whose eight hour bill the member for Skeena voted down at last session, has already announced his intention to bring in a bill to amend the Workmen's Compensation Act. Unless the member for Skeena is there, the bill may go through, and the workers profit thereby.

What use is a member if he is not on the job while the job lasts? Why should we be disfranchised, merely to suit the job-hunting proclivities of the member for Skeena? The electors of Skeena should insist that he attend to his duties.

Or is it that his value in the House is similar to Alderman Hilditch's appraisal of his value in the city council, when he said, "Mr. Manson could go away for two months and not be missed."

IMMENSE HERD OF SHEEP AND GOATS

THIRTY THOUSAND TO BE PLACED ON GRAHAM ISLAND

Oregon Syndicate Charters Steamer Henriette to Carry Over Immense Flocks to West Side Massett Inlet—Will Erect Packing Houses.

(Special to the Optimist)

Massett, Jan. 14.—A few days ago a contract was signed with the Grand Trunk Pacific company for the transfer of thirty thousand sheep and goats from the ranges of Oregon to Virago Sound, on the west side of Massett Inlet. The steamer Henriette will carry the animals from Seattle, taking about one thousand each trip. It is understood that immense packing houses will be erected on the island, where operations will be carried on during the whole year.

The mildness of the climate, and the fact that few animals have in the past grazed over the ranges, induced the syndicate to select Graham Island for the purpose of raising and sending out to the world a supply of animal food.

For many years a band of wild cattle have roamed between Skidegate and Massett, on the east coast of the island, living the year round without other food than the wild grass growing along the shores and inland. Each summer the settlers, and survey parties, have obtained fresh beef from this herd; still they appear to thrive and increase.

Norwegian Captain Missing

Anxious inquiries have been received by the Chief of Police regarding a Norwegian sea captain named Olaf Jentoft Lauritzen. He is believed to have come to Prince Rupert in 1907 in charge of a vessel from Vancouver. Since then he was rumoured to have Zeen engaged in some mine where Japanese and Chinese labor was employed. C. B. Stahlschwidt enquires about him.

BREAKS THE LAW IN ANY CASE

PECULIAR POSITION OF A. J. PRUDHOMME

License Is Retail not Wholesale—Cannot Sell Stock by Time Stipulated Without Breaking Law—Can't Retain It Either.

The action of the Board of License Commissioners in failing to renew the license of Mr. A. J. Prudhomme, proprietor of the Savoy Hotel, has placed that gentleman in a rather peculiar position in relation to the execution of the law. According to the edict of the commissioners he must get rid of his stock by Monday. His stock amounts to something like $1000 worth of liquors of all kinds. His license is a retail one, not a wholesale one, and the terms of if provide that he shall not sell more than one imperial quart at a time. Yet if he fails to get rid of his stock by the time stipulated he will be liable to prosecution.

Without adopting a wholesale method it will be absolutely impossible for him to ge rid of his stock. He therefore finds himself between two fires. He cannot get rid of his stock without breaking the law and he cannot retain his stock without breaking the law. And in the event of a prosecution for not being rid of it in time, he will be compelled to plead guilty for the stock will be there in evidence against him.

As a private individual he could only retain a very small portion. The only remedy that suggests itself is that he make a present of it to his friends on the License Comm ssion.

To Water Consumers

The cold weather has practically stopped the supply of water on the mountain. Since the 10th inst. water has been supplied to consumers by pumping, this supply is at present sufficient for all necessary purposes, but on account of numerous taps being left wide open, the pump cannot keep up the necessary pressure to supply the higher points in the city.

The chairman of the Water Works Committee hopes the consumers will assist the Water Works Department by curtailing the waste of water and avoid the necessity for cutting off the supply at night.

F. H. MOBLEY,
Chairman Water Works Committee.

GAMING HOUSE CHARGE

E. O'Shaughnessy, "Dago Jim," and the Dutchman in the Case

Ed. O'Shaughnessy appeared in the police court today to answer to the charge of having kept a common gaming house. He pleaded not guilty. W. E. Fisher appeared for the defence, and A. Manson conducted the prosecution. Delmont Zarelli, "Dago Jim," gave evidence to the effect that accused had charge of the Terminal City Club in the rooms above the Exchange Grill, that it was known as "O'Shaughnessy's Club," that poker and Black Jack had been played here, that drinks were to be had there, but liquor was never sold. Witness was not positive that O'Shaughnessy ran the place. Another man known as "Dutch" was with O'Shaughnessy. This man's evidence was desired by the prosecution and he was sent for, but the court has reserved judgment as to whether his evidence is admissable. The case stands adjourned until Monday.

ADVERTISE IN THE OPTIMIST

MAYOR MANSON WEARS A SMILE

SAYS THE RESULT WAS JUST AS HE EXPECTED

Thinks G. T. P. Assessment Did Not Figure in the Result at All—Is Suffering From Abcess on His Left Arm.

Mayor Manson had a smile of real and cordial welcome for the Optimist reporter this morning who called on him for a brief statement as to his impressions of the result of Thursday's poll. After acknowledging the congratulations tendered, he said: "Things turned out practically as I anticipated I never believed that Alderman Pattullo would fall but I was not sure which of my own henchmen would be displaced by his inclusion. It was a great victory, don't you think?

"Do you think the G. T. P. question had any effect upon the result? asked the reporter. "No," replied the Mayor, "I do not think so. I do not think it cut much figure at all.

Mayor Manson is in the best of spirits over his victory despite the fact that he is suffering from an abcess on the left arm which he had to have lanced yesterday.

NO FORMAL CEREMONIES

New City Council Convenes Monday in Usual Manner

On Monday evening the new council will convene for the first time. Its members will be sworn in before they take their seats at the council board There will be no ceremony of any kind in the way of a formal handing over of the reins of office. The business proceeds automatically. The old council has cleaned up everything, and held its last meeting. The city clerk has charge of those technical matters that remain for the new council to take up and as soon as the new committees ar formed, the business of the city will resume according to the methods proposed by the new council.

CITY WATER SUPPLY

Mains and Fire Hydrants Are Not Frozen

During the frost it has frequently been stated that the city mains have been either frozen or shut off. This is not the case, says Colonel Davis, city engineer. Not a single main has been frozen or shut off, and the pressure has been kept up all the time in spite of the fact that householders everywhere have been leaving taps running to prevent the frost gripping pipes which should have been properly covered.

Since last Tuesday the water supply for the city has been drawn entirely from the Hays Creek source above Comox avenue by the pumps. Five hundred thousand gallons of water are being held in reserve on the mountain for fire protection. Very little water is coming from the mountain source now as the spring is almost frozen up, but so far the supply at the top of the mountain is all right.

Owing to the heavy drain on the city's supply due to the citizen's leaving pipes running the pumps have been taxed to the utmost to keep up the pressure, and the citizens are warned to have their water pipes properly protected so that they need not be left running. It has been necessary to keep the pipes running night and day to cope with the wastage during this frost, and an extra man has been engaged to attend to the pumping station at night.

It may be mentioned that the fire hydrants being practically air tight and well earthed do not freeze, unless they have been opened for use. Once opened the hydrants must be kept running a little in time of severe frost.

Have to Climb Down Fire Escapes in Their Night Dresses When the Mercury Is 35 Below—Many Suffered From Frost Bite.

(Special to the Optimist)

Winnipeg, Jan. 13.—The Parish Block apartment building, one of the architectural features of the city was threatened with annihilation last night by fire. The outbreak occurred during the night. The alarm was raised immediately and by the time the fire ladders arrived the inmates were in a state of panic.

As the fire originated in the basement it was impossible for the inmates to get out by the ordinary egress and many of them had to climb down the fire escapes in their night clothes. At the time the mercury was recording 35 below so that while escaping from one element they were at the mercy of another. Many of them were severely frost bitten. The firemen succeeded in saving the building although the damage was considerable.

CHIPS FROM THE HUMORISTS

Giles (who has just cashed a check)—I don't think this money's right.

The Cashier—Would you mind count- i g it ag in, sir; I think you'll find it correct.

Giles (having done so)—Yes, but you be careful, young man; it's only just right.

Senator Root, at a dinner in New York complained of certain false charges that had been made against a company he formerly represented.

"The spirit in which some of these cha ges were brought," he said, makes me think of th blackmailer who declared:

"'Yes, knowledge is power—if you know it about the right person.'"

"Your husband might have a little solid food directly he begins to mend," said the doctor.

"But how am I to tell?" inquired the anxious wife.

"The convalescent stages of influenza," replied the doctor, "are marked by a slight irritability."

The next day he called, and, and found his patient's wife radiant.

"When I refused to ord r him steak and onions," she exclaimed, "he came into the kitchen and smashed fourteen soup plates and a dinner service; so, of course, I sent out for steak at once."

PEARY'S CLAIM IS SUSTAINED

HAD PASSED WITHIN A MILE OF THE POLE

Expert Evidence shows that the Observations Recorded by the Explorer Could Not Have Been Faked—House Committee Satisfied.

(Special to the Optimist)

Washington, Jan. 13.—Peary's claim to have reached the north pole has been substantiated in part by the House committee before which he placed his evidence for investigation.

The expert evidence of Mitchell, the geodetic surveyor, pointed out that the explorer passed within a mile and a sixteenth of the pole. The observation as recorded by Dr. Peary could not be faked, he says.

PRESENTATION LAST NIGHT

Secretary S. D. Macdonald Honored by St. Andrew's Society

Important business was in hand at the meeting last night of the St. Andrew's Society. There was a great attendance of the members. The principal event of the evening was the presentation to Mr. S. D. Macdonald of a handsome silver cutlery cabinet in appreciation of his services as secretary. The presentation was made by Mr. G. W. Kerr, president of the society, who well expressed the society's feeling that the unsparing work of Mr. Macdonald should have acknowledgment. Mr. Macdonald who was elected for the third time secretary, replied, appreciating the honor done him and assuring the members of his continued interest in the society.

Arrangements are being made by the St. Andrew's Society to hold a Burn's Night Banquet in the Central Hotel. Mr. Peter Black who is second vice-president of the society, will see that the arrangements are of the best, and a big rally of the members will be there.

Last night also a committee was appointed to look into the matter of the purchase of a couple of lots with a view to the building by the society of a permanent hall.
