

## LORDS' VETO BILL PASSES HOUSE OF COMMONS

### WILL RECOMMEND THAT DRILL HALL BE BUILT

Col. Wadmore, Commanding Military District of British Columbia Makes Welcome Announcement—Congratulates Earl Grey's Rifles on Their Efficiency and Showing

"It goes without saying that as commanding officer of this district I shall do all in my power to persuade the Dominion Government to build a good armory and drill hall in Prince Rupert. Such a building is badly needed here and must come quickly if any degree of military efficiency is to be attained by Earl Grey's Rifles," said Colonel Wadmore, district officer commanding Military district No. 11, which covers the whole of British Columbia, who arrived here yesterday for the purpose of making an official inspection of Earl Grey's Rifles.

Colonel Wadmore inspected the regiment last night in the drill hall, saw the men put through all the various drills and then gave them a talk on military matters.

He urged particularly the necessity of discipline and the value to a soldier of a knowledge of skirmishing. Realizing the conditions under which the regiment is working the colonel considered there is not much room for complaint. He congratulated Captain Stork on having a body of men of such fine physique under his command.

At the conclusion of the parade Captain Stork addressed his men advising them to heed what the colonel had said and pointing out that to attain the efficiency rested with the rank and file not with the officers alone. He expressed, on behalf of himself and the regiment, the pleasure felt through the visit of the officer of the district. Last night's parade closes the drills for the season.

This morning Colonel Wadmore inspected the arms and equipment of the regiment and also of the Rifle Association in company with Captain Stork and Lieutenant Mc-Mordie and Agnew.

The colonel was much interested in Color Sergeant George Leek

and they spent a little time together talking military matters. This afternoon the visitor inspected the rifle ranges across the harbor in company with the officers of Earl Grey's Rifles.

### AUSTRALIA IS ALARMED

Danger of Oriental Invasion Seriously Feared

NAVY NONE TOO SOON

Hon. Frank Wilson, Premier of Western Australia, Makes a Statement at Vancouver on His Way to Coronation.

(Canadian Press Dispatch)  
Vancouver, May 4.—Australia certainly fears the possibility of an Oriental invasion. The fact was clearly expressed by Hon. Frank Wilson, Premier of Western Australia, who arrived here last night on the S. S. Zealandia on his way to the Coronation.

"Unless we people Australia, we shall lose it," he remarked. "The defence movement towards the construction of an Australian Navy has not begun a day too soon. It is a very necessary movement. So also, is the movement on foot now to have compulsory military service in Australia."

### "HANDS OFF"

(Canadian Press Dispatch)  
Baltimore, May 4.—The United States is adopting a policy of "Hands off" and will not seek to extend its domains or acquire foreign territory. This statement was made by President Taft in his speech today on the opening of the Third National Peace Congress.

### FOR BENEFIT OF SETTLERS WILL EXPLORE INTERIOR

Messrs. Weir and White, Two Agricultural and Horticultural Experts, Engaged by B. C. Government to Gather Valuable Information—A Long Journey

By boat to Hazelton from here, then from there on horse back loaded down with provisions, tents, maps and charts to ride through hundreds of square miles of the interior country as representatives of the Provincial Government of British Columbia for the purpose of acquiring every particle of reliable information on the agricultural and horticultural possibilities of the country through which they will travel E. A. Weir and E. W. White, two young experts from the Ontario Agricultural College, at Guelph, will leave here early next week. They arrived here yesterday.

On arrival at Hazelton, Government Agent Ellison will have horses ready for the experts to start on their journey that will not be completed until next fall, when they will emerge from the wilderness with several months' growth of beard, hearts longing to get back to civilization and

### Where They Will Go

Their itinerary will take them up to the Kispiox Valley into the districts of several lakes in the vast hinterland, down through the Bulkley Valley and up and down and across the stretch of rich country each side of the G. T. P. main line. Soils and subsoils will be tested, wild flowers and trees will be noted, plants and undergrowth will be examined, settlers will be interviewed to learn of the climatic conditions of the district. What crops can be grown on the soil will be found out from the Indians who have lived here for years in log huts in the wild uncultivated hinterland. In short, everything that

### TO VETO THE PEER'S POWER

Bill Passes Committee of the British House

OPPOSITION VANISHED

Even Mr. Balfour Offered no Opposition to the Preamble—Its Adoption by the House Is Almost Certainty.

(Canadian Press Dispatch)  
London, May 4.—The Parliament Bill—the bill to veto the power of the House of Lords—was passed by a committee of the whole of the House of Commons today. The refusal of Mr. Balfour to vote against the preamble removed any danger that might have been apprehended from a revolt of the Laborites against the preamble. Unionist opposition seems to have faded away completely. The adoption of the Bill by the House is practically certain.

### Glad Tidings

Alderman Hilditch was strong enough to sit up in bed yesterday. He will be placed on the convalescent list in a few days.

### A NEW MODERATOR

(Canadian Press Dispatch)  
Vancouver, May 4.—At the opening of the synod of the Presbyterian church here last night Rev. J. S. Henderson of New Westminster was unanimously chosen as moderator of British Columbia

### BASEBALL SCORES

All Games Off on Account of Rain

(Canadian Press Dispatch)  
All baseball games were postponed yesterday on account of rain.—North Western League Special.

### National League

Boston 4, Philadelphia 3.  
Chicago 8, Cincinnati 2.  
New York 3, Brooklyn 0.  
Pittsburg 8, St. Louis 4.

### American League

Cleveland 8, Chicago 7.  
Philadelphia 13, New York 4.  
Detroit 5, St. Louis 2.

### Pacific Coast League

Sacramento 1, Oakland 9.  
Los Angeles 9, Frisco 4.

### BY LEAPS AND BOUNDS

Population of Coast Cities Keeps Increasing

VANCOUVER 145,000 NOW

Twenty Thousand Better Than Last Year's Increase According to Directory Co.'s Enumerators. Good Omen for Prince Rupert.

(Canadian Press Dispatch)

Vancouver, May 4.—According to the directory companies' enumerators the population of Vancouver is now 145,000 an increase of twenty thousand over last year's figures. Indications are in favor of a still greater increase this season, which will be partly shown by the census figures when they are published.

### UNIONIST RETURNED

(Canadian Press Dispatch)  
London, May 4.—L. O. Amery, Unionist, was returned unopposed for South Birmingham today. The seat previously was held by Viscount Morpeth, a Unionist.

### SEATTLE FOLK ARE SORE WITH ENGINEER THOMSON

It is All Over His Prince Rupert Trip—Sunday Times Accuses Him of Going to "Foreign Countries" to Pick "Easy Money"—Came Without Leave of Absence

There appears to be some sore feeling down in Seattle about the visit to Prince Rupert of Mr. R. H. Thomson, city engineer of Seattle, to consult with Colonel Davis on the waterworks plans. The Seattle Times of last Sunday has two big seven column headlines across the top of the front page which read: "Thomson Again Picks Easy Money" and "City Engineer Doing Work For Other Cities."

The apparent vitriolic article in the Times reads as follows:

Reginald H. Thomson, city engineer, drawing a salary of \$7,000 a year, will return to Seattle next Wednesday with \$2,500 paid to him by the city of Prince Rupert for three days' work in reviewing plans already prepared by the local engineer for a new water system in that city. For a period of nearly two weeks Seattle has been without the services of an engineer other than can be provided by assistants, and not in many instances satisfactory for the reason that Thomson holds the master key in many districts where people insist that there should be immediate action on improvements where delays have been frequent and of long standing.

Thomson is supposed to have gone to British Columbia on a leave-of-absence granted by Mayor George W. Dilling and authorized by the street committee of the city council, of which Councilman J. A. Goddard is chairman. Yesterday afternoon Goddard denied all knowledge of the alleged leave-of-absence; declared that his committee had not authorized it, and that if Thomson has remained away from Seattle for ten days it was without any authority coming from any member of the council or from any committee.

This leaves Mayor Dilling responsible for the leave, and Goddard

insists that he should bear the burden rather than the committee of which he is the head.

Denying the report that Thomson had been given authority or even sanction for a leave by the street and sewer committee, Goddard said:

"Ten days ago when members of the council went to the Cedar River watershed on a tour of inspection, Thomson talked to me on the way up on the train. He explained to me that he had been invited to go to Prince Rupert to pass on plans for the installation of a water system, including a new dam, and that he would be paid \$2,500 for the trip. He explained that he needed the money for the reason that he had been required of late to pay heavy regrade and other assessments.

"Following this explanation he told me that Prince Rupert officials had proposed an entirely new dam construction that might give him an opportunity to learn details of value to Seattle. Along these lines he explained that he would take enough Seattle work along to keep him busy on the four days required to reach Prince Rupert and the four days on the return, with the suggestion that he would, while in that city, obtain copies of the proposed plans for the waterworks system which might be of value to the city of Seattle in its plan for extensions. I did not agree to the plan; just listened, and when Mayor Dilling makes the statement that the street committee agreed to the leave for the engineer he is making an assertion that is not true.

"I did listen to Thomson, gave no indication of what attitude the committee would take in granting a leave to go to a foreign country, and the statement that my committee had agreed to it was entirely wrong."

## WILL BUILD BIG SMELTER AND EMPLOY A THOUSAND

President J. P. Graves of Granby Smelting Co., With Party of Officials Arrived in the City Yesterday to Look Over the Ground—Interested in Hidden Creek Mine and Want a Location

To look for a site for a two thousand ton smelter to employ a thousand men, and have a weekly payroll of \$42,000—that is one of the things that a party of prominent mining men are now looking for in this district. It is quite possible, that Prince Rupert itself may be selected as the site, if coking facilities can be arranged. The party is headed by Mr. J. P. Graves, president of the Granby Consolidated Mining and Power Company of Phoenix and Grand Forks, B. C., and is visiting the Hidden Creek Mine on Goose Bay. The Granby Company holds an option on this valuable low-grade copper-gold property covering about 80 per cent of the property and representing nearly half a million dollars. The present visit is one of investigation with a view to regarding the taking over of the property and its extensive development to handle a large out-put.

### Highly Qualified Men

Accompanying Mr. Graves are Mr. F. M. Silvester, assistant manager, Mr. W. A. Williams, smelter superintendent, Mr. W. I. Williams, consulting engineer, and Mr. O. B. Smith, Jr., mining superintendent of the Granby Co., also Mr. B. Lawrence, mining engineer, New York, and Mr. M. K. Rogers the well-known mining man of this coast, who retains his interest in the Hidden Creek property which he purchased along with Mr. Hodgins from the original locators of the mine-prospect. Mr. Rogers has a vast experience of mining matters in these districts, having operated on the Alaska Coast for years, and his advice regarding this property is valuable.

### Thorough Investigation

The party of experts will thor-

oughly investigate the mine and the whole conditions of the district with a view to large development. Already development on a less extensive scale is being carried on, but the intention is to prepare for the getting out of enough ore to keep a smelting plant going, handling at least two thousand tons per day.

A most important question to be settled is the location of the smelter. For this purpose Mr. W. A. Williams accompanies the party. He will consider the merits of various places along the coast with a view to the establishment of the plant, and also the merits of the mine with the other members of the party.

### Prince Rupert's Position

Possibly Prince Rupert may have the smelter. In an interview specially granted to the Daily News, Mr. J. P. Graves stated definitely that Prince Rupert was being considered with this in view. In establishing a smelter much depends upon the supply of coke, and the coal prospects about Prince Rupert are being therefore considered.

"In the event of our deciding to establish our plant in Prince Rupert," remarked Mr. Graves, "we should aim at handling not only the output of ore from our own Hidden Creek mine, but also copper, gold, and silver ores from other properties throughout the district. We should handle probably four thousand tons a day at least. On this basis the smelting of low-grade ore pays best as we have found at Grand Forks.

### Two Thousand Employees

"About a thousand men are required to handle a two thousand ton smelter, and correspondingly more for a plant of double that

capacity. At an average wage rate of \$3.50 per man per day, the pay-roll would come to \$7000 per day or \$42,000 per week.

"You must understand of course, that the present visit is one of investigation for the purpose of reporting to the Granby Company's offices at New York. A scheme of development involving such a large outlay must of course be well considered.

### Prince Rupert Looks Good

"But I may say that I am immensely impressed with the wonderful waterways leading to Prince Rupert, and am seriously considering the advantages of Prince Rupert as a terminus of the Grand Trunk Transcontinental line, with a view to the shipping of ore and smelter-product right through to Boston and New York. I understand that by the Grand Trunk Pacific it will take only five days to transfer the consignment from sea to sea. This is exactly what it takes via Seattle, therefore the time taken in shipping to Seattle is saved by the Prince Rupert route. This in view of economies in insurance, etc., is an important consideration, and one which very materially affects all plans for the development on a large scale of this Hidden Creek property."

### Party Now at Mine

Mr. Graves and his party arrived by the Prince Rupert yesterday, and left last night by steamer for Naas Harbor to proceed thence by launch or tug boat to Goose Bay and the Hidden Creek. Mr. Graves will remain there for three or four days, and the others of the party for longer periods. Their reports when prepared will be forwarded to New York, and development work will speedily follow their approval by the principals of the Granby Co.

## HOUSE MAY ADJOURN TILL AFTER THE CORONATION

Sir Wilfrid Laurier and Hon. Mr. Borden in Close Conference All This Morning—Rumored That An Arrangement to Adjourn Till Fall Will be Made

(Canadian Press Dispatch)

Ottawa, May 4.—The air is thick with rumors this morning, about prorogation being arranged for the 18th of May, with an extra session to be called in September to complete the work of the House.

It is learned that no such agreement has been made, though only such an agreement can break the present dead-lock. Sir Wilfrid Laurier and Hon. Mr. Borden were in conference all the morning, and will submit the results of their labors to their respective caucuses later in the day. The proposition it is understood relates to a proposed adjournment, not to a prorogation. The feeling of the rank and file on both sides is against an adjournment, though both favor prorogation.

It is stated that the Premier

intends to sail on May 12th to attend the Coronation, even at the risk of postponing the reciprocity agreement for another session.

### LOST WITH ALL HANDS

No Survivors Traced of Steamer Yongala

(Canadian Press Dispatch)

Vancouver, May 4.—No trace has been found of any survivor of the steamer Yongala which went down in a gale off the Queensland coast recently. There were 141 passengers and crew on board. Wreckage was found indicating that a disaster had taken place, but advices brought by the S. S. Zealandia last night state that not a single survivor has been found though search has been made.

## THE NEEDS OF PORCHER ISLAND

Twenty miles away from Prince Rupert lies Porcher Island, the vegetable garden for the Tsimpsan Peninsula, and the nearest large piece of arable land to Prince Rupert. Its settlement is of vital interest to the people of Northern British Columbia in general and of the vegetable dealers and vegetable eaters of Prince Rupert in particular. That settlement would be much helped by the giving of a better mail and steamboat service to the Island.

On the north, Refuge Bay is now in receipt of a mail service, and is a regular port of call for the vessels on the Graham Island run. The dwellers at Refuge Bay have no cause for complaint. Further south however, at Spillar River a large settlement has sprung up, which is isolated from the world so far as mail service and boat service is concerned. There are forty-five men within a radius of two miles at Spillar River, and settlement would be much helped if they were brought closer into touch with the world. There are only three families there, said to relate, for as some of the settlers say, "It isn't fair to take a woman into a place where there's no means of communication."

The irony of it is that the settlers there see almost daily some vessel or another passing the settlement on its way to or from Prince Rupert. The place is on the route of the northern run, only a mile or so from the steamboat track. If the boats took the channel on the west side of Kennedy Island instead of the east channel they would be even nearer. The channel is buoyed and charted, and the settlers claim there is deep water up to within sixty feet of the shore. The harbor at Spillar River is a safe one. Indeed in heavy weather it is a favorite resort for storm bound steamers. There would be no navigation difficulties about making a call with mail and freight once a week.

At present the settlers have to row ten miles to Claxton on the mainland for supplies. Their mail they trust to receiving when one or other of their number makes a visit in a sailboat to Prince Rupert. This is a matter which the mail and steamboat authorities might do well to look into. It would prove a general benefit if Spillar River and any other of the settlements could be made a port of call.

The settlers claim that owing to the lack of steamboat transportation last fall hundreds of heads of celery and a lot of potatoes were left to rot in the ground. This was a loss both to them and to us. Sixteen mineral claims are being worked for copper and iron by George Keyes and his partner, but they cannot ship ore or put on gangs until transportation is arranged. Six free milling claims on Lewis Island, opposite the mouth of the river have just changed hands, and a crusher is on its way to the Island, and much more in the way of development could be done if facilities were granted.

We all live by trade and production; that is a truth that requires no argument. For our own interest, it would be a good thing to help the development of Porcher Island, and make possible a mutual interchange of trade and products.

### LAND LEASE NOTICE

**Skeena Land District—District of Coast Range 5**  
Take notice that I, Severin A. Tallander of Porcher Island, occupation ship master, intend to apply for permission to lease the following described lands:  
Commencing at a post planted at the N.W. corner of Lot 1302, thence west to low water mark, thence south and low water mark 25 chains, more or less, thence east to S.W. corner of Lot 1302, thence north along high water mark (being the westerly boundary of Lot 1302) 25 chains more or less to point of commencement and containing all foreshore in front of Lot 1302.  
Dated March 19, 1911.  
Pub. March 18.

## DON'T WANT DAY'S LABOR

Seventh Ave. Residents Make a Protest to Council

### PREFER CONTRACT PLAN

Do Not Want to Let the New Public Works Department Experiment on Them—Are Circulating a Petition.

Residents of Seventh avenue petitioned the city council at last meeting to have a plankway put in on Seventh avenue. They mentioned especially in their petition that they did not want the work done by day's labor, but by contract. When the council moved in favor of granting the petition, day's labor was the method adopted. This has not met with the approval of a number of the residents and a second petition is now being got up against the doing of the work by day's labor on the ground that it will be far too dear. So far quite a number of names have been signed to the second petition though the residents of that district are really anxious to have the plankway in. Several who do not at all favor the day's labor proposition are however, unwilling to sign against the work lest it should not go on at all.

## CROW'S NEST LABOR WAR

Will be a Stubborn Struggle and Long Continued

### SHUT DOWN PLANTS

J. P. Graves of Granby Mine and Smelter Co. Says They Will Cease Work in Thirty Days, and Other Plants Must Follow Suit.

"I do not think there is any prospect of a speedy settlement of the miners' strike in the Crow's Nest Pass district," said Mr. J. P. Graves, managing director of the Granby Consolidated Mining and Smelter Co. of Phoenix, last night. "As stockholders the Granby Co. is interested in the Crow's Nest Coal and Coke Co. at Fernie. Coke is an important item in smelter work, and since the strike was declared we have been drawing on our coke reserve. We have lately been able to keep only six out of eight furnaces going, and even thus reduced, our operations can only be continued for about thirty or forty days longer. We shall have to close down then. The strike seems likely to be a stubborn one and long continued, and it will have the effect of closing down all plants using Crow's Nest coal and coke in a short time."

## Yes; Some Good Printing Costs Too Much, Too

It's the same as with other good things. The temptation to charge "stiff prices" for high class things, or high class service, is always natural. But it's not always justifiable—not even usually. For in all artisanship nowadays the standard is higher—the doom of the commonplace is pronounced. So that, as to printing, high grade work is not apt to cost you more than its worth; still, you can pay more for it at some places than at others—and this shop is one of the "others."

thence west 80 chains to point of commencement,  
containing 640 acres.

Dated Feb. 8, 1911. HUGH D. GILLIS  
Joseph Belway, Agent  
Pub. Mar. 10.

## = THE COSY CORNER =

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

## BELTS AND SASHES

Will Be Popular Dress Items  
This Season

Belts and sashes play an all-im-  
portant part in dress this season,  
and women are paying much at-  
tention to them. The high waist  
line is for the time being accepted  
as fashionable, but that does not  
prevent the wearing of girdles and  
sashes. On the contrary, it fur-  
nishes even greater opportunity  
for so doing. The folded girdle  
or belt of velvet, satin or soft  
finish taffeta is extremely smart,  
and can be of medium width or  
quite wide, it can be finished with  
rosettes or with one soft knit end  
and two long ends finished with  
fringe.

Black is used with every color,  
but a shade deeper than the ma-  
terial of the gown is also in style,  
and sometimes a charming effect  
is obtained by several modes com-  
bined. Then there are most ex-  
quisite fancy ribbons that are  
made into girdles, belts and sashes,  
and these are most effective with  
the plain materials, serving as  
trimming. The fashion is practical  
and economical if there is no  
foolish extravagance in buying  
too many ribbons and at too high  
prices, for with a variety to choose  
from the one black or white  
gown can be so changed as to do  
duty for many different occasions.  
Then the fresh girdle will quite  
renovate a shabby old gown and  
make it look like new.

## SPRING ARITHMETIC

It was the busy hour of four,  
When from a city hardware store  
Emerged a gentleman who bore

1 hoe,  
1 spade,  
1 wheelbarrow.

From thence our hero promptly  
went

Into a seed establishment  
And for these things his money  
spent:

1 peck of bulbs,  
1 job lot of shrubs,  
1 quart of assorted seeds.

He has a garden under way  
And if he's fairly lucky, say,  
He'll have about the last of May

1 squash vine,  
1 egg plant,  
1 radish.

—Washington Herald

## SIX HINTS

Try Five. Forget One if You  
Like

Few people seem to know when  
preparing dried peaches, that the  
skins can be easily peeled off if  
the peaches are allowed to stand  
in cold water for several hours.

Milk is much better for wiping  
off linoleum than water.

Meat soaked in crude oil is said  
to be excellent bait for rodents.

To mend an umbrella take a  
small piece of black sticking plas-  
ter and soak it in water until quite  
soft. Place this carefully under  
the hole inside and let dry.

If there are stains from machine  
oil on a white garment, rub the  
spots well with a cloth wet in  
ammonia before washing with soap,  
and they will disappear.

Brass can be cleaned by being  
moistened with kerosene, then rub-  
bed with a paste of powdered chalk  
and lemon juice, and polished with  
oil.

## CANDIED ORANGE PEEL

With a Little Care You Can  
Make Your Own

Orange skins (generally consid-  
ered utterly useless) can be used  
in two ways that will give much

pleasure. Any girl who wants to  
have something out of the common  
for a luncheon party or who wants  
to make a very small gift, but one  
that shows some real work of her  
own, can accomplish either object  
by making candied orange peel.  
Not by buying it at the confec-  
tioner's, where plenty of it is sold  
but by doing it herself. The  
candied orange peel is made at  
home and used while fresh is so far  
superior to that one can buy that  
it seems like quite another thing.

It can be made of the skin of an  
orange that has been peeled and  
used in any way, but rather a  
smooth skin should be chosen  
and it must be used before it be-  
comes at all hard and dry. The  
first thing to do is to scrape off  
with a knife as much as possible  
of the white inner skin. Keep on  
scraping until the skin is quite  
thin and the back shows the  
yellow. Then cut the pieces of  
skin into strips one quarter of an  
inch wide and from one and a half  
to two inches long.

Now comes the cooking, which  
is done in the following manner:  
In a small saucepan full of water,  
dissolve three tablespoonfuls  
of sugar and put in your strips of  
orange peel. Boil them until the  
water boils away, leaving a thick  
syrup. During the latter part of  
this process it must be carefully  
watched and stirred to prevent  
burning. Next take the peel from  
the saucepan and roll it in powder-  
ed sugar; then put the pieces on  
plates to dry, not piled up, but in  
single layers. The orange peel is  
best in the first or second day  
after it is made and it must be  
used within a week or it will grow  
too hard. A dainty box filled  
with this orange peel makes a very  
attractive gift or, if one is sending  
some really handsome box (a sil-  
ver one or an enamel or carved  
one), an added pleasure will be  
given by filling it with candied  
orange peel made by the giver.

The marriage was quietly cele-  
brated in Christ Church on Satur-  
day morning of Mr. Horace Du  
Vernet, son of Bishop Du Vernet  
of Prince Rupert, and Miss Beatrice  
Bradt of Toronto, who arrived  
in the city from the East on  
Friday. The ceremony was per-  
formed by Bishop Du Vernet,  
assisted by Rev. C. C. Owen. The  
bride wore her travelling costume,  
a grey tailored suit, with a smart  
black toque, and carried a lovely  
shower bouquet of bride's roses.  
She was attended by Miss Sey-  
mour, who carried a sheaf of beau-  
tiful pink roses, and Mr. James  
Hartney was best man. After the  
ceremony the couple drove to  
the wharf and took the boat to  
Victoria, from which point they  
will go to Prince Rupert, where  
they will make a short stay before  
going on to their home in the  
Upper Skeena District.—Vancouver  
Province.

## The Bishop Came Back

Bishop DuVernet returned to  
the city yesterday from Van-  
couver where he went to attend  
the marriage of his son.

## Brought 350

Three hundred and fifty pas-  
sengers came in yesterday on the  
S. S. Prince Rupert. This is the  
largest number of passengers that  
has come into the city on one boat.  
A large consignment of freight  
and mail was also brought up. In-  
cidentally a few Rupert young  
men returned with brides.

## Back With a Wife

Mr. Horace DuVernet, son of  
Bishop DuVernet, arrived from  
Vancouver yesterday on the S. S.  
Prince Rupert with his bride. Mr.  
DuVernet will leave shortly with  
his wife for Shandilla, up the  
Skeena River, where he has some  
farm land. An account of the  
wedding appears in the social  
column.

## If You Are Even Half-ready

To Buy Property, Study

The Real Estate Ads!

As soon as the property-  
owning purpose gets a foothold  
with you—begin to read and  
answer and investigate the  
real estate ads!

And by the time you are  
half ready to buy a home,  
learn all that the ads can  
teach you of property-values  
—all that ad-answering can  
teach you of desirable places  
to live.

Your interest in real estate  
advertisements may be re-  
sponsible for your securing a  
a better home than you can  
imagine you can afford—and  
for your securing it sooner  
than you had hoped to do.

THE IROQUOIS  
POOL

English and American Billiards

Twelve Tables SECOND AVE.

ITEMS OF  
SPORT

"Battling" Nelson and Eddie  
Santry, each one-time holders of  
championships in their class, have  
been matched to meet in a six-  
round contest before a Fond du  
Lac Athletic Club on May 9.

Early this month Richard Arns  
will meet Harry Pearce, of Aus-  
tralia, the former being the present  
world's champion, who not long  
ago defeated William Webb, ex-  
former champion. This race will  
take place on the Paramatta River,  
where most of the big races held  
in Australia take place.

The state of Illinois is framing  
up a rule which will tend to make  
automobilists more careful when  
driving. When a motor car strikes  
a pedestrian or a vehicle, the driver  
of the car will be compelled to  
leave his car with the victim even  
should the latter be killed.

New York, May 3.—Franko  
Giongo, an Italian runner, who  
defeated the holder of the American  
record for the 400 metres by 80  
yards, has decided to come to  
America and has applied for ad-  
mission into the British-America  
Athletic club. He is considered a  
well-known and fast runner in  
Italy.

Robert W. Brennan, a Colorado  
cowboy of thirty years' experience  
started out last week from Okla-  
homa City, Okla., in an attempt  
to ride an Oklahoma mule to New  
York in twenty-five days.

## FANNINGS

Mike Donlin is playing semi-  
professional baseball around Brook-  
lyn.

Scout Billy Hamilton of the  
Boston Nationals has picked up a  
youngster named Neeley, a big  
pitcher from Memphis.

"Mysterious" Mitchell, the pit-  
cher who created a furore in the  
San Francisco team last year until  
he exploded, is said to be Eugene,  
Ore., coaching a buch league team.  
He was certainly a wonder while  
he lasted, but he did not last long  
enough.

The St. Louis Nationals are  
getting a nice collection of ties,  
three of their games having been  
resultless.

Detroit is now the only major  
league team without a defeat, and  
Jennings is e-eyahing harder than  
ever.

## MADE RECORD TRIP

S. S. Hazelton Returned From  
the North Yesterday

After making what might be  
considered a very remarkable trip  
for this time of the year the S. S.  
Hazelton, of the Hudson Bay  
Company's fleet returned from  
Kitselas yesterday with about 20  
passengers from the interior.

She left here on Sunday morning  
and soon overtook all the other  
boats but one and that was the  
Operator which left here eight days  
ago in company with the Con-  
veyor. She had only left Kitselas  
for Hazelton an hour and a half  
before the Hazelton got to Kit-  
selas on Wednesday morning. She  
arrived back here yesterday after-  
noon and will leave again for the  
Skeena tonight.

The Skeena River is rising fast,  
say members of the crew of the  
Hazelton. Good sized chunks of  
ice are coming down the river but  
will soon be gone. The  
arrival of the boats to points  
along the river was welcomed as  
the people there were running  
very short of supplies, especially  
fresh meat. Things all along the  
route are booming. So great is  
the rush to the interior that all  
reservations were booked on the  
Hazelton several days ago.

Mr. P. Mullen, late head bar-  
keeper of the Royal Hotel, has  
accepted a similar position at the  
Central Hotel (Mr. Peter Black).  
Pete will be pleased to have all  
his old friends call on him there.
