

The Prince Rupert Optimist

DAILY EDITION

VOL. I, NO. 165

PRINCE RUPERT, B.C., FRIDAY, NOVEMBER 18, 1910.

PRICE, FIVE CENTS

PARLIAMENT OPENS IN OTTAWA

Earl Grey Reads Speech From Throne Foreshadowing Legislation To Be Attempted During Session.---Many Distinguished Visitors.---Usual Brilliant Scene in Red Chamber.

(Special to the Optimist)

Ottawa, Nov. 18.—The session of the eleventh Canadian parliament was opened yesterday afternoon with the customary ceremonies. Members are inclined to believe it will be a long and lively session and that prorogation cannot be looked for until some time in May.

There was the usual crowd of members and their friends to witness the ceremonies, and quite a number of distinguished visitors. Many of the latter were admitted to the floor of the senate

the galleries of the Red Chamber all being crowded.

It was a most brilliant scene. There were more uniforms present than usual, their gorgeousness blending harmoniously with the many beautiful costumes of the ladies.

The speech from the throne was read by Earl Grey, first in English and then in French. It dealt with the numerous topics concerning which new legislation is to be introduced, such as the law of copyright, amendments to the banks and banking acts, a review of the Hague fisheries decision, terminal ele-

vators on Lake Superior, the arrival of the first cruisers for the Canadian navy, the progress of the Hudson Bay railway with a reference to Earl Grey's trip into those northern regions, and minor matters.

After the debate on the address the copyright law will probably be the first brought forward. It is a law by which all works must seek copyright in Canada, just as though she were an independent nation, the copyrights obtained from Great Britain to no longer carry any rights in the Dominion.

ROADHOUSE FIRE NEAR FAIRBANKS

JACK VACHON LOSES THREE YOUNG CHILDREN

He Rescued Mother and Infant and was Fearfully Burned in Attempt to Reach the Others.— Doctor Sent Out From Fairbanks.

Special to the Optimist.

Fairbanks, Alaska, Nov. 18—Plovan's roadhouse and general store was destroyed by fire last night. Jack Vachon, ex-captain of the Dawson fire department, was the owner and manager. He and his family lived upstairs above the store, and to this floor there was only one narrow stairway. Vachon managed to escape with his wife and youngest child while the store was blazing. He made most strenuous efforts to rescue the other three children who were in the upper room, crawling on his hands and knees along the burning floor. He was terribly burned, but will recover, but his three babies were smothered by the smoke.

A doctor was sent from here today to attend to Vachon and his wife. It is believed that both will recover.

FORMED A DANCING CLUB

Will Hold Dances Each Thursday Evening

A large number of ladies and gentlemen attended the opening dance last night of the series which Professor Paul Kauffmann is holding each Thursday evening in the K. of P. hall. Professor Kauffmann proved himself a genial and capable teacher.

A club was formed with Mr. Edward Kohse as president, Professor Kauffman treasurer, and Frank Messedat secretary. An admission fee of one dollar to the gentlemen is charged, the ladies being admitted free. The first hour of each Thursday evening will be devoted to giving instruction to the members and from 9 p.m. to 12 p.m. a program of dances will be held.

FOUND LEAK ON STEAMER

Henriette to Be Cemented Before Leaving for Vancouver

A bad leak was discovered on the steamer Henriette this morning and she is to be at once taken across the harbor and beached. There the leak will be cemented until she can go into drydock at Vancouver and be permanently repaired.

RETURNS FROM INSPECTION

Contractor Stewart Finds Camps Well Provisioned for Winter

J. W. Stewart, of the firm of Foley, Welch & Stewart, contractors for this end of the Grand Trunk Pacific railway, returned last night from an inspection trip of the construction work upon which he accompanied Superintendent Mehan. He says that he found all the camps well supplied for the winter and the work progressing as well as he could be expected.

Work will go on on the second section all winter. The ballasting was the work of the railway company itself, but his impressions were that the frost would not interfere before the ballasting of the one hundred mile section was completed.

The Camosun will likely be a little early getting in to-night.

BRING YOUR OWN HAMMER AND SAW

THEN YOU WILL BE A SKILLED CARPENTER

City Council Decides That Skilled Carpenter Should Bring Their Own Tools and Get 62 1-2 Cents Per Hour in Future.

In future anyone employed as a skilled carpenter on work for the city of Prince Rupert will be paid at the rate of 62 1-2 cents per hour. The definition of a "skilled carpenter" is "anyone doing the work of a skilled carpenter." This was the effect of a resolution passed by the streets committee and presented for adoption at last night's council after discussion. It was adopted.

Ald. Hilditch went into the matter of the qualifications of a skilled carpenter. He said it was usually understood that a workman who supplied his own tools in connection with carpenter work was a "skilled carpenter." He mentioned that the city engineer's recent pay rolls for carpenter work showed "carpenters' assistants" paid at 50 cents an hour. He thought it a pity that the city should appear as the first to cut down carpenters' wages.

Ald. Pattullo explained that the point was not a case of cutting down but of levelling the carpenters' wages to the regulation standard of 62 1-2 cents per hour for skilled work.

Ald. Hilditch spoke of the excellent work done by the men paid at the 50 cent rate, and said it was certainly entitled to be called skilled work.

Ald. Pattullo said that if any man was dissatisfied with the rate of his wages he could have complained at the time of payment; but the City Clerk said there had been no complaints.

To this Ald. Hilditch replied that the men did not complain for fear of losing their jobs.

Ald. Lynch's opinion was that it would not be in any way to the city's ultimate advantage to employ men at low wages. They would by and by have only the poorest class of workers available.

The question of the supplying of tools stated by Ald. Hilditch to be the means of distinguishing between a skilled workman and an unskilled gave rise to the suggestion of Ald. Pattullo that if this were all the difference, then they would have all sorts of men coming with hammer and crosscut saws of their own and claiming the 62 1-2 cent rate on the strength of this qualification!

The matter was considered then reconsidered on the motion of Ald. Smith and finally settled as stated.

WANT BAYS KEPT OPEN

Council Will Approach Minister of Railways

The fact that the G. T. P. without apparently having filed plans showing their purposes are carrying their grade across Hays creek, Camerons Bay, Seal Cove, and an inlet beyond Seal Cove will be brought before the Minister of Railways and the Department of Public Works in the form of a copy of the motion put by Ald. Naden at last night's council.

The motion embodies the matter pointed out to Premier McBride and states that it is desirable that these inlets be kept open for harbors for small craft, and purposes of loading and unloading scows, etc. It was resolved that copies be sent as proposed.

CITY SEWER PROBLEM

Is Briefly Attended To by Alderman Hilditch

The fact that residents in other districts besides Section 1, where the grading is being done will require sewers, and do now require them was mentioned by Ald. Hilditch last night. He said it was time the finance committee got at the question.

Ald. Pattullo pointed out to him that the immediate necessity in regard to sewers was to keep the sewer construction going on just a little in advance of grading as this would keep the cost of the work down.

A report from the city engineer stating the amount of pipe that will be required to lay the sewers in Fraser and Eighth streets before the grading is done there was read by the city clerk and referred to the finance committee.

PETITION AGAINST PLANKWAY

Problem of Traffic on Second Avenue Between Sixth and Eighth

That Second avenue plankway between Sixth street and Eighth, is already a little problem. The work was begun but owing to representations against it by a percentage of neighboring business men and residents it has been stopped. A petition setting forth the objections to the plankway's being used for both horse and foot passenger traffic was presented at last night's council signed by about 50 per cent of those interested.

But Ald. Hilditch mentioned that a counter petition fully as largely signed will probably come before Monday night's council. Meantime the grading of this busy street goes on merrily, and in order that the position may be cleaned up quickly the city clerk will at once advertise the proposal to carry out this work so that objections may be lodged and met in due course quickly.

NO WOOD BULKHEADS

City Will Insist on Properly Constructed Retaining Walls

Wood bulkheads will not be allowed to prevent street grading dumps from sliding on to lots. Proper retaining walls will have to be constructed to the satisfaction of the city engineer. This was the substance of the report from the streets committee presented at last night's council, which was adopted.

REVOLUTION IN MEXICO

Nipped in the Bud Before It Had Obtained A Fair Start

(Special to the Optimist)

Mexico City, Nov. 17.—The revolutionary movement, which had strong ramifications throughout the twelve states of the republic, has been nipped in the bud by the authorities. Yesterday they succeeded in arresting Madero, the candidate for the presidency at the last election, and Ricardo Magon, a notorious revolutionist.

RECEIVED SAD NEWS

Mrs. J. F. Brandt Hears of Death of Her Mother

Mrs. J. F. Brandt has received the sad intelligence of the death of her mother, which took place last Sunday at Minneapolis, the city where Mrs. Bhandt was born.

THEY ARE NOT BRITISHERS

Can City Clerk Keep Their Names Off Voters Roll?

The city solicitor will be asked by the city clerk for a written opinion stating whether or not the city clerk is empowered to enter on the voter's roll the names of persons whom he knows not to be British subjects. The city clerk has already had a verbal opinion on the subject about which he is himself perfectly clear, he says, but he reserves his views until after he has obtained the written opinion.

EIGHTH AVENUE PLANKWAY

J. A. Meeker Was the Lowest Tender. Awarded the Contract

At last night's city council it was decided to accept the tender of J. A. Meeker for the construction of a 16-ft. plankway on Eighth avenue according to specifications, and to award the contract. Ald. Lynch explained that this tender was the lowest, and this was the only reason for the streets committee's recommendation that it should be accepted.

His motion that the tender be accepted was carried and the city clerk instructed to arrange for the signing and sealing of the contract as soon as the finance committee has arranged for the amount required for the work.

FROM STEWART TO EDMONTON

(Special to the Optimist)

Ottawa, Nov. 18---McKenzie & Mann will make an application at the present session of parliament for a charter for a railway running from Edmonton to Stewart.

BOARD OF TRADE MEETING

Will Discuss Several Important Questions This Evening

It is the regular monthly meeting of the Board of Trade this evening and it will be held in the Knights of Pythias hall in the Helgerson block at eight o'clock. The report of the Council of the Board on the President Hays' letter as to assessment will be among the subjects for discussion, and also the report of the Council of the Board relative to the power to be derived from the tides of Zanardi rapids and other matters.

DAVE'S CREDIT WAS GOOD

A Police Court Story by our own Rhymester.

David Brown got drunk again and went last night to gaol. No protestation to the cop was of the least avail. Before the magistrate today, quite perkily he stood; he pleaded guilty, but he said in future he'd be good. He told the court his wanderings had led him round the world; in many distant lands he'd seen each nation flag unfurled. But Rupert was his farthest north, he'd never been as far, as Dawson in the Yukon, beneath the polar star. Upon a rolling stone of course, no mossy green back grows; so David lacked ten dollars to pay the fine he owes. But David Brown looks honest, so the magistrate he said "just come back in a fortnight Dave, and pay it then instead!"

= THE COSY CORNER =

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

Start Happiness at Home

Mrs. Cornwallis-West formerly Lady Randolph Churchill, and the mother of Winston Churchill, the British statesman, has written a warning play which will be staged in America this winter.

The play deals with a husband and wife who devote their life to helping humanity to the neglect of their own home, in which they are very unhappy.

Without depreciating in the least the efforts of those great men and women who labor in philanthropic and humane interests, and who give their lives that others may live in better conditions and enjoy more hopeful days, it is well to remember that mankind dwells in two worlds.

Two entirely different and foreign worlds; the one, that in which the whole human race lives and mingles each with the other; the other is home.

Within the narrow confines of home there lies a world—the world of one's own, just as wonderful, just as much in need of constant thought and help as is the other world—the world of everybody.

Be that home, palace or hovel, it is home, and as such there is constant need of love, friendly interest, smiles and endearing words, beside the more material needs of shelter, clothing and food.

A very wise man once remarked that charity begins at home.

Interest in fellow beings should not only begin there, but enough of it should always remain there so that the beautiful flower of family happiness may blossom to the last.

The purpose of Mrs. Cornwallis-West's play is not to make us selfishly inclined to heap all our love, wealth and devotion upon ourselves but to keep us from going to either extreme.

It reminds us that in the eternal fitness of things there has been given everyone the ability to live in two worlds simultaneously—the world of home and the world of everybody.

To fail to live to the fullest of our possibilities in either is a dire misfortune to ourselves and to humanity.

A Delicate Compliment

Many delicate compliments have been paid the fair sex by men subtle in speech, but the following comes straight from the heart of an illiterate negro, who was married in the South the other day by a white minister. At the conclusion of the marriage the groom asked the price of the service.

"Oh, well," answered the minister, "you can pay me whatever you think it is worth to you."

The negro turned and silently looked his bride over from head to foot; then, slowly rolling up the whites of his eyes, said:

"Lawd, sah, you has don ruined me for life; you has, sure."

Working Girls Hotel

A hotel for working girls, for which Miss Virginia Potter, niece of the late Bishop Potter, and other influential New York women have been working has become a fact with the incorporation before the Supreme Court Justice Brady of an organization for maintaining non-sectarian, self-supporting homes for working women. "This is the result of an attempt to provide inexpensive living for working girls who have no real home environments," said Miss Potter. "The charge will be from \$3.50 a week up. We believe that by supplying a building free of debt we can make the venture self-supporting."

The organization is named after Miss

Potter, the "Virginia." She is head of the New York association for working girls and has given much of her time to helping carry out Bishop Potter's plan for establishing social halls on the east side.

To Keep A Veil

Costly veils are often ruined in a few wearings by stretching out of shape. This can be prevented by stitching each edge on the machine before wearing the first time. If silk the color of the veil is used and the line run in thickest part of border the work cannot be detected.

Besides running the edges it helps to keep a veil in shape by hemming the ends. This is done always in chiffons, but is also advisable for nets and open-mesh veils.

As an additional precaution roll a veil each time it is taken off on a thick mangle tube covered with cretonne or silk. See that the edges are kept even in the rolling.

So treated, with care as to pinning so as not to tear with hat pins, and with occasional alcohol baths, even a cheap veil should give good service, while more costly meshes prove worth the money put into them.

BE AN OPTIMIST

Don't be a grouch, friend. Laugh and grow fat,

It's no use to grumble and whine. We all have our troubles, and big ones at that,

Though yours may be larger than mine.

Laugh, or smile, or just grin if you will, You'll find it's the best in the end;

But for goodness' sake don't advertise that you're ill,

If you'd have the whole world for a friend.

Don't be a grouch, friend, give us a smile, We'll show you a smile in return; Your troubles of now will be gone in a while,

And think of the blessings you'll earn. Try to smile, and you'll grin if you fail, And you'll find it's the best in the end.

But for goodness' sake don't let your spirits get stale.

If you'd have the whole world for a friend.

Don't be a grouch, friend, cheer up your voice,

And don't let us think by its sound Your presence among us was not of your choice;

We don't like a "knocker" around. Whistle, then, sing, or just hum if you can,

We'll be glad of the cheer you intend; But for goodness' sake don't be a whiner, old man,

If you'd have the whole world for a friend.

—George Callon.

FRIDAY, NOV. 18

WHO IS TO BLAME?

We are pleased to be able to print in this issue a letter from Mr. J. W. Dowling, manager of the Dominion Government Telegraph Service, referring to our editorial published last Monday under the above head.

Mr. Dowling on behalf of his service assures us that they are not to blame for the telegraphic delay which seems likely to upset Mr. Norton Griffith's plans for the colonisation of the Naas Valley.

This assurance will be accepted with gratification by the citizens of Prince Rupert.

Our inquiry having cleaned up the matter so far as the line from Ashcroft to Prince Rupert is concerned, perhaps the other telegraphic services will make similar inquiries.

The public is still interested in the question "Who is to blame?"

AS OTHERS SEE US

That this journal is not alone in its point of view in urging the City Council and the citizens to resist the Grand Trunk Pacific's request for exemptions from taxation, is evidenced by the following editorial which we take from the Vancouver Sun of last Saturday:

"Prince Rupert is having its own troubles these days. It is beginning to realize that it is no snap to run a town owned partly by a railway company, partly by the government and the balance by the citizens. Prince Rupert needs streets, water works, city buildings and all sorts of public works and these have to be constructed under exceptionally difficult and expensive conditions. It believes the G. T. P. should contribute its share of the cost of improvements. Apparently the provincial government thinks so too for its own assessor valued the G. T. P. holdings there at \$7,291,500 last March. Upon this the city wants to levy a tax rate of 15 mills or \$101,497.50. The Prince Rupert Board of Trade takes a more moderate view of the railway's obligation to the city and suggests that the figures be reduced to a fifth of those the government assessor or to be exact, the assessment should be \$1,726,500 which at 15 mills would mean a tax bill to the G. T. P. of \$25,897.50.

"The G. T. P. however has no more use for a tax bill than the rest of us. It comes back with an offer of a lump sum of \$5,000 a year for twenty years, this to cover every sort of taxes that could be levied against it. This offer is variously regarded in Prince Rupert as a joke or an outrage. As President Chas. M. Hays is not noted as a humorist it cannot be a joke.

"Then to make matters worse Premier McBride got in wrong by making a speech in which he accepted the role of a mediator and pleaded for generosity on the part of the city towards the G. T. P. This speech was delivered a few hours before President Hays' letter to the council was made known. No doubt when the premier learned the terms of that letter he felt like kicking himself. President Hays' letter was not gently worded. He bluntly threatened to hold up the construction of the G. T. P. hotel and many other improvements.

"The average man will be inclined to regard the G. T. P. in its attitude towards Prince Rupert as considerable of a hog. The G. T. P. has already made millions out of the exploitation of Prince Rupert real estate which cost it little more than the auctioneer's commission and advertising, and Prince Rupert has been asked to pay for a good deal of the latter as I will mention further on. It will strike the man on the street that the G. T. P. should be sufficiently public spirited to want to see Prince Rupert properly equipped as a city. In fact enlightened selfishness should make it apparent that it was very much in its own interest that Prince Rupert should be a well managed and well built town. It still owns many millions of dollars worth of town lots every one of which will enhance in value as public improvements are made. It is safe to say that the expenditure of the hundred odd thousand of the taxes demanded of the G. T. P. by the city would enhance the value of the company's property five times that amount every year. No tax payer in Prince Rupert stands to benefit so much by the expenditure of civic money as the G. T. P. yet President Hays has the effrontery to offer the city \$5,000 a year for twenty years in lieu of a tax bill proportioned to that of every other taxpayer in the city.

"Prince Rupert has had a rough deal all the way through. It has had to fight for everything it needs. It must go hat in hand to the government to beg for a site for a city hall. It asked of the G. T. P. lands for a cemetery, reservoir and city hall sites worth about \$215,000 but President Hays thinks they should pay 'some reasonably adequate compensation.' Before the sale of lots the government spent a considerable sum of money on plank roads and sidewalks. These were all temporary works erected purely for advertising purposes. They were put down so that prospective buyers could travel over the rock and muskeg of the townsite. Hardly any permanent grade was put down. Yet Prince Rupert was scarcely incorporated before the government put in a bill for this advertising and asks Prince Rupert to pay for it.

"We hear a great deal of the magic city the G. T. P. is building in the North and of the empire building it is doing up there but it simmers down that the G. T. P. in return for the many millions which it has taken out and will take out of the city lots, is willing to do just \$5,000 worth of magic city and empire building per annum."

Letters to the Editor

"Who is to blame?"

Nov. 17, 1910

Editor, "The Optimist"

Sir,—Referring to your recent article in which you state that a difficulty has arisen in Mr. Norton Griffith's colonisation plans, as the result of a delay in the transmission of telegram, I would be obliged if you would make it clear that any delay which may have taken place as you allege, did not occur on the Government system.

Our records show that the telegram was delivered in Prince Rupert within fifteen minutes after it was filed with us by the connecting line at Ashcroft.

Yours truly,

J. W. DOWLING, Manager Government Telegraph Service
Prince Rupert.

**DOOLEY TELLS HENNESSY HIS
PRIDE IN BEING A DIMMYCRAT**

"Well, me fellow boolwark iv th' constitution," said Mr. Dooley, "It's a gran' thing to ba a dimmycrat this year."

"It is that," said Mr. Hennessy. "We'll sweep th' counthry, won't we?"

"I wasn't thinkin' about that," said Mr. Dooley. "It's always been aisy enough to win if we took th' trouble to be republicans. With a good sound republican candydates selicted be th' Union League Club an' a gin'ral ordher fr'm headquarters f'r former dimmycrats to keep away f'rm party meetin's, it's been impossible to beat us. We're all right this year. But that ain't what was in me mind. What plazes me this year an' makes me take off me stove-pipe hat an' give two or more ringin' huzzas is that it's so genteel to be a dimmycrat. F'r th' first time in me life I find meself in s'ciety that I long have worshipped fr'm afar. F'r near half a cinchry, man an boy, I've voted f'r our gran ol' party. I wuz a dimmycrat durin' the war whin we had to go down to Camp Douglas to get a quorum f'r a caucus. I've known th' time whin me vote on th' election returns was recorded as scathrin. I was a dimmycrat whin no wan was wan that cud get as near a bank as th' front dure step without bein' shot at be th' watchman. Whin a dimmycrat coollected ballast enough to be a steady citizen, ayether in the marts iv thrade or with a piece of gas pipe, he become ex-officyo, as Hogan says, a republican. If a man with money come into our party th' pa-apers spoke iv him as an eccentric millyonaire, his fam'ly thried to hide the awful thruth be sayin' that he'd become a settlement wurruker, an' his will was broke whin he die or he was. Gin'rally speakin' a dimmycrat was an ondesirable immygrant that had got past Ellis Island. If a man improved his station in life he showed it be movin' fr'm a dimmycrat to the republican ward. A republican saloon was a doggery. Ivry time I cast me vote I was made to feel that I had betrayed me native land.

"Th' highest use th' dimmycrat party was put to in thim days was as a mop to clane out th' republican household. Ivry wanst in awhile th' betther ilimit in th' republican party got licked to the prim'ries and reached out f'r us to scour th' flure in th' old home. Whin we'd been used f'r a year an' got most iv the republican dirt on us they threw us out in th' alley.

"But it's diff'rent this year, Hinnissy. Th' dimmycrat party is no longer low an' vulgar. It's the hite iv fashion an' the home iv wealth. I blush to r-read what's said about me in th' pa-apers. I'm a boolwark iv th' constitution. I'm th' savior iv property; th' Supreme Coort can sleep a dhreamless sleep knowin' that I'm on guard. If anything shud happen to me civylization wud take a back somersault. F'r th' first time in me life I find meself in th' same party with iv'ry man who's richer th' day after pay day than he was th' day before. If ye see an old gentleman with white side whiskers an' gold rimmed glasses readin' th' Dhry Goods Economist in a corner iv th' car don't go an' step on his feet. Set down beside him an' talk to him as a fellow dimmycrat. If ye want to swing on annywan let go a punch at the lean man with th' long hair that's denouncin' corporations because he was carried past his block. He's a republican. We have more millyonaire in th' party thin ye'd find in a socyalist novel. A bank prisidint in New York has been locked up be his fam'ly because he was heerd to say that he thought Tiddy Rosenfelt was a betther man thin Binidick Arnold. His case is supposed to be incurable. Down in New York dimmycrat argimints are quoted on th' stock ex-

change. People in Fifth avenoo are askin' each other what they ought to wear at the dimmycrat rally. It's 'Mother lay out me dhress soot an' me stove-pipe hat, I'm goin' to a dimmycratic meetin'.' If ye resisther as a dimmycrat ye get into the socyal register.

"An, we're livin' up to our station, me boy, in th' charakter iv our candydates. Ye no longer r-read in th' obitchury notice iv th, dimmycrat candydade printed just before iliction: 'Willum J. Groggins, betther known as Ate-em-up-Bill first come into notice as a dimmycratic leader whin he was arrested in th' year ninety six,' but it's 'Opposed to th' sinister pollytician that has been imposed on th' decayed republican party be an arrogant usurper, is a well-known statesman an' manyfachtrer iv paper collars, who has sarved his counthry well in many important public positions. Alongzo F. Snivvy, although not a mumber iv th' well-known bankin' firm iv that name, is wan iv our most thrustworthy public men. He first attracted th' attintion of consarvitive people be his vigrous measures durin' a sthrike in eighteen ninety two. Misther Snivvy is wan iv the wheel horses iv th' dimocracy an' whiniver possible has voted with his party. Th' onforchint vagaries iv th' dimmycrats esthranged him for awhile but with th' exception iv th' inthervals between eighteen senvy six an' nineteen hundhred an' four an' between nineteen nuhdhred an' five an' nineteen hundhred an' ten he has been a stanch dimmycrat. Durin' th' peryods whin his conscience f'rbid him to jine with th' party organ-ization his articles entitled: 'Shud Kansas be put under Martial Law?' an' 'Is th' West Inhabited be cannybals?' will be remembered be readers iv this paper. Among th' pollytickal offices which Misther Snivvy has held with distinction are: prisidint iv th' first naytional bank, vice prisidint iv th' paper collar thrust, an' hon'ry threasurer iv th' Dimmycrat Protictive Tariff Assocoyation. He has been prominently connected with a number iv dimmycratic organ-izations, such as th' Rutherford B. Hayes Dimmycratic Club, th' Tippycahoe dimmycrats, th' Blaine Jeffersonyans, th' Hanna dimocracy, th' Down-with-Bryan Old Line Dimmycrats, an' so on. But in local pollyticks he has always been independant, votin' f'r th' best man offered by ayether party if he was a republican'."

CHIPS FROM THE HUMORISTS

"You should endeavor to do something for the comfort of your fellow-men," said the philanthropist, "without thought of reward."

"I do. I buy umbrellas instead of borrowing them."

"Poor thing, she's wasting her time." "Why?"

"She has four children, and is now hunting for a steam-heated flat."

"Every man should sleep eight or nine hours a day."

"I couldn't think of it," replied the energetic person. "If I didn't find life any more interesting than that, I'd die of the blues."

"What do you think of the man who acted in your place during your absence?"

"I think," replied the conscientious official, "that he was a bad actor."

He Did the Right Thing

"I hope it will be a long time before I have such another test applied to my honesty," a downtown merchant remarked as he returned from waiting on a customer.

"What was the trouble?" asked his partner.

"Those near-wool suits. An old fellow came in just now and asked me the price of one.

"Seven dollars," I told him.

"Speak louder!" he said, holding his hand behind his ear. So I yelled 'Seven dollars!'

"Eleven dollars! Too much! I'll give you nine!" he replied.

His partner looked at the speaker in alarm.

"You—er—of course, you did the right thing?"

"I guess you can depend on me to do the right thing," was the haughty retort. Then he paused. "You'd better get some dollar bills when you go to the bank," he remarked. "I just gave an old fellow our last one for change!"

Perhaps you were

When I see a youth with his pants turned up and his beautiful socks on view,

And over one eye perched a little round hat, with a ribbon of mauve or blue,

And fourteen rings and the seven pins that he got at his dear prep. school,

Why, it strikes a chord, and I say: "Oh, Lord! was I ever that big a fool?"

When I see a youth with his gloves turned down, and a cigarette stuck in his face,

And a loud check coat and a horse-cloth vest and a half-inch wide shoe lace,

And a bunch of hair that hides his ears and a line of senseless drool,

Then I paw the sward as I say: "Oh, Lord! was I ever that big a fool."

—New York Times.

CAN'T COLLECT COMMISSION

Interesting Point of Real Estate Law Comes Up

In a case that came before Judge McInnes in Vancouver the court held that a realty broker is not entitled to commission if he himself buys property that has been listed with him. Mr. John Stevenson listed certain property for sale with Mr. Arthur Goodrich, real estate broker, stating his terms. The next day the broker gave Stevenson a deposit of \$25 and shortly afterwards the latter, in partnership with several others, purchased the property. Goodrich tendered a first payment of \$1,750, less \$237 for commission. Stevenson accepted it under protest, and brought suit to recover the amount of the commission. The judge held that Mr. Goodrich, being in the buying syndicate, and having accepted a receipt of \$25 to hold the property, was not entitled to commission.

SIXTH AVENUE GRADING

Petitioners Send Representative to City Council

By some means the citizens who recently petitioned for the grading of the portion of Sixth avenue serving their dwellings in this neighborhood got the idea that the matter had been dropped by the streets committee and council. Last night they deputed Mr. Engel to attend the council meeting and enquire about the matter. He did so and Ald. Lynch explained to him that the matter was not dropped but that there was some feeling that it might be well to include a further group of residents in a more extended scheme in the same district. Satisfied that the matter was having attention Mr. Engel thanked the council and withdrew.

Chinese Laundry Overflow

Permission to place their undry overflow pipe as desired along Beach Place to the creek was refused the Chinese applicants at last night's council on the recommendation of the streets committee. There was a precedent for this in the case of another laundry pipe previously applied for and not allowed.

= THE COSY CORNER =

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

Among the Fashion-Makers

According to the Millinery Trade Review which is supposed to be in the secret in all such matters, all shades of red are now fashionable from the deep winey reds one associates with old tapestry to the vivid Chantecler shade, which is most popular of all. Flashes of this bright shade catch the eye on all sides, and very lovely it is with silver or steel, these metals being, by the way, par excellence.

There is a craze for velvet for all things pertaining to a woman's outer garments. The two-tone effects are in demand, but the favorite of favorites is the old-fashioned straight pile velvet in dark, rich shades and with this fur is used as well as the gold, silver and steel trimmings.

The craze for tapestry is gaining in favor. Some wonderful sets have been designed for horse show week and added to the hat, neckpiece and muff is a quaint bag to hang on the arm and hold one's handkerchief and purse. These have met with great success, and are used, of course, for opera bags as well. For this purpose all manner of rich Oriental tapestries, brocades and fancy materials, such as wide silk and stain strips in strongly contrasting colors are used.

Under Five Reigns

There are not many of us who would be willing to pay \$4 for a new book though most would not hesitate to pay twice as much or more for a new hat that at the end of a short season will be worthless.

A very old lady who has lived through five reigns and has met most of the interesting and celebrated people of her time has published a volume of her reminiscences. This is Lady Dorothy Neville. The book, to judge by the reviews, does not pretend to be very clever or very learned. It does not reveal state secrets or show the evil side of fashionable life. It gives the impressions and recollections of a bright and popular lady whose privilege it was to meet some of the greatest and most noted men and women of the past and present century.

Who can help envying the woman who talked with Lytton and Disraeli, who received letters from Matthew Arnold, who could appreciate Gladstone and has in her old age received courtesy from John Burns.

Of John Bright Lady Dorothy writes: "What a fine speaker Mr. Bright was! Alas! there is no one like him today; and of most political speakers it may be said that one hears the humming of the wheel whilst never able to perceive the thread."

Here is a story of Whistler, the artist. He was late at dinner one day, and the hostess was evidently annoyed. "Whistler," however, was in no wise disconcerted, for, cheerily grasping a somewhat limp hand, he rattled out, "Don't apologize for having begun without me. I shan't be offended in the very least." After which, taking his seat, he became the very life and soul of the party.

In this vivacious way does Lady Dorothy tell us of the men she has met in her long life.

Baby's Bow

There is a new baby's bow which appears to be popular as a side trimming for these round bonnets. It consists of three upward and three downward turning and lapping loops, in graded lengths, bound in the center with a single fold of ribbon. These bows are placed directly over the ears on each

side. They are very simple to make. Ribbon three inches wide is used, usually a soft louisine or liberty. Added to any Dutch bonnet they give a pretty, up-to-date touch.

All such close little bonnets are finished with a cord or edge, or one of flat silk. Ruching may be placed under the edge and very often is for very young babies; and occasionally a ruche is set over the edge, with turned-back effect; or one of fringed taffeta may be used there

If bureau or pantry drawers stick, rub the edges with damp soap.

Salt mixed with vinegar is excellent for cleaning copper vessels.

Almonds chopped fine and browned in sugar make delicious ice cream.

Boiled starch is very much improved by the addition of a little salt or gum arabic.

When repairing a rent in a glove it is well to turn the article inside out and then sew it over and over with cotton, not with silk, thread.

When laying oilcloth or linoleum on floors, if the edge is well smeared with brewer's yeast it will keep its place and will not curl up.

To separate the yolk of an egg from the white, break the egg in a small funnel. The white will slip through, leaving the yolk intact.

EIGHT MILLIONS FOR BIG SHOW

LOUISIANA TO HAVE PANAMA EXPOSITION

Vote on Bond Issue Taxing People Six and Half Millions Was Singularly Large.—Fair in New Orleans in Nineteen-Fifteen.

New Orleans, Nov. 14.—The world's Panama exposition constitutional tax amendments were voted upon Tuesday by the entire state of Louisiana and the returns now show that a bond issue of \$6,500,000 has been ratified by the people by a singularly large vote. The fifteen amendments to the constitution were adopted.

The first two are the exposition tax amendments providing for \$6,500,000 for the Panama exposition of 1915 and were adopted by a vote of ten to one in New Orleans and eight to one over the whole state.

This increases the exposition fund now in hand many thousands in excess of \$8,000,000 for the purpose of erecting exposition buildings, power plants, etc., for the use of the world's Panama exposition in New Orleans in 1915.

PRINCE GEORGE ON WAYS

Many Changes Being Made on This Popular Steamer

The Grand Trunk Pacific steamer Prince George, which is undergoing overhaul at Esquimalt, is having some important changes made to her cabin plans. Some of the rooms are being connected so that it will be possible for parties to secure rooms en suite. The parlor bathrooms are also being remodelled, while the pantry and mess rooms are to be enlarged, thus providing an improvement in the dining room service.

The Prince Rupert Optimist

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

SUBSCRIPTION RATES—DAILY, 50c per month, or \$5.00 per year, in advance. WEEKLY, \$2.00 per year. OUTSIDE CANADA—Daily, \$8.00 per year; Weekly, \$2.50 per year, strictly in advance.

DAILY EDITION.

SATURDAY, NOV. 19

NAILED TO THE COUNTER

We are usually so busy in attending to our business of supplying the people of Prince Rupert with a real newspaper, as to have no time, even if we had the inclination, to bother about correcting the many bad blunders made by our contemporary. Repeated errors of taste and judgment betoken mental astigmatism, for which there is no cure save Time or death.

When our contemporary charged us with being the organ of the City Council, we did not reply. It would have been a cruel blow to have intimated what is common knowledge, that not one member of the City Council is on the board of the Prince Rupert Publishing Co., or has any but an investor's interest in the "Optimist." Any opportunity to purchase stock in the Prince Rupert Publishing Co. which any members of the Council may have availed themselves of, was an opportunity for investment, which was equally open to our contemporary. If occasion warrants, we will talk to the City Council through these columns with just as much freedom and restraint, just as much straightforwardness and delicacy, as we now address our contemporary.

When our contemporary published a lengthy editorial charging the Council with introducing the ward system we did not even bother to pass the joke along, although many were laughing at the crass ignorance which made such a blunder possible.

But when our contemporary exceeds the limits of decency, and repeats the error and charges the Council with "the unnecessary introduction of the vicious ward system, to leave the avenue open for the further pollution of our city government," it is time to put ones generous instincts away, and expose our contemporary's lack of knowledge.

There is no reason for false delicacy. The cold and brutal truth is that "the vicious ward system," etc., is not being "introduced" by the City Council. It is part of the statutory conditions imposed upon all new municipalities in British Columbia under the Municipal Clauses Act. Section 24 of the Act, decrees that every city shall be divided into wards. At the outset the city has no option. But after the system is in practice for a year or more it can be abolished by the Council, upon a petition of citizens owning more than half of the assessed lands in the city. In the face of the provisions of the Act, our contemporary's hysterics are mirth-provoking.

In all good nature we commend our contemporary to study facts. Anything its editorials may lose in fire, they will gain in veracity.

We do not want to be ungenerous to our contemporary. It may indulge in stage tears and artificial thunderings to its heart's content. It will go unmolested. But it must not become slanderous.

We are not all at concerned about espousing the cause of the Council. But when our contemporary makes such a false and slanderous attack, what are we to do? We would defend any man, whatever his politics, from an unfair attack. We would even defend our contemporary from such a charge.

For ourselves we would much prefer going on our way, compiling the day's news, and dealing constructively with the problems which confront the city, to the necessary task of answering our contemporary's slanders by exposing its lack of understanding.

THE COST OF VICTORY

(From the Montreal Herald)

"No, Mr. Bourassa, having raised the whirlwind, you cannot tell us it is only a summer breeze. Having won an election through anti-British votes, you cannot blind our eyes to the fact that your appeals created these votes.

"You have won a victory, but at what a cost! You have secured a verdict against Laurier's naval policy, but at what a cost!

"If your object is to isolate Quebec from the rest of the Dominion, you are succeeding. If your object is to convince the rest of the Dominion that Quebec cannot be looked to to take a wide view of Canada's duties to herself and obligations within the Empire, you are succeeding.

"If you think it part of nation-building to set Province against Province, you are succeeding. If you are anxious to weaken Canada's position in the Empire by having it felt in Britain that the Dominion is not even united on the meagre naval defence programme now outlined, you are succeeding. If you would destroy the work of Laurier in promoting trust and confidence between all our peoples, you are succeeding. But these are not the aims nor the counsels of a patriot. They mirror, rather, the aspirations of a man of ambition, regardless of how he gratifies them.

"And to what end is all this destructive work of yours, Mr. Bourassa? The naval programme will be carried out. Come the Conservatives into power tomorrow, they will not do less than the Liberals are undertaking. You say all you have wanted is an appeal to the people on this question. Then why did you not confine the Drummond-Arthabaska campaign to attacks upon Laurier? Why did you extend it to the naval proposals, and to the whole question of Imperial relations? Again we say, Mr. Bourassa, you do protest too much. The campaign was won by appeals to anti-British and anti-Imperial sentiment, whether you personally voiced these appeals or not.

ASK GOVERNMENT FOR DAIRY FARM

MILK AND VEGETABLES NEEDED FOR HOSPITALS

Board of Trade on Suggestion of Mr. J. C. McLennan Asks That Dairy and Vegetable Farm Be Established Across the Bay.

J. C. McLennan last night called the attention of the Board of trade to the necessity of a fresh milk supply, especially for the patients of the two hospitals.

He said there was little doubt that land for a small dairy and vegetable ranch could be selected across the bay out of the 23,000 acres owned by the government and railway company there. Such an experimental farm would be of utility to the government as demonstrating the agricultural possibilities of those lands.

He moved that the matter be brought to the attention of the government. The suggestion was taken up by several members who unanimously supported the motion.

STABLE OBJECTED TO

Building Inspector Appeals to Council Regarding Permit

The city building inspector approached the city council last night on the subject of a building permit which had been granted to the owner of Lot 14, Block 24, Section 5, to erect a stable. The applicant had not informed the building inspector that there were houses at the back of the adjoining lots, and now the occupants of these dwellings complained against the erection of a stable so near them. The work of building had not commenced, and the building inspector requested the council's consideration of the matter. It was referred to the health committee.

Ald. Barrow pointed out that a stable properly kept need not be a nuisance. Ald. Pattullo wanted to know where a man was to build a stable if he wanted one, and Ald. Naden spoke of the precautions taken with stable sanitation in large cities.

HARBOR MASTER IS ON THE JOB

CAPTAIN ALLCOCK BUSY GETTING THINGS IN ORDER

With the Growth of the Port, Office Will Become a Very Important One —Is Awaiting Official Instructions Before Starting Operations.

Until his official instructions arrive, and he has everything shipshape in connection with his department, Captain Allcock, Prince Rupert's first harbor master does not intend to make any alteration or extension of the present system of harbor management. So far there seems to be some delay over the forwarding of Captain Allcock's instructions from Ottawa. These were supposed to have been enclosed with his letter of appointment, but had evidently been omitted, and Captain Allcock has written to Ottawa regarding them.

The harbor master's position in Prince Rupert is one of gradually growing importance and realizing this, Captain Allcock whose experience of shipping and harbor management is extensive is anxious that at the outset the work should be set on a sound systematic basis.

An office handily situated for the wharves will be needed for the harbor master, and such important items as a barometer and a tide gauge will have to be near at hand. Then in connection with the duty of looking after the buoys and harbor lights there will need to be a boat provided. It is usual also in harbors of size for the harbor master's boatmen to attend at the berthing of large vessels.

As Prince Rupert has no intention of remaining at the primitive stage when only small steamers call and berth pretty much as they please, the need for a properly established harbor master's department is apparent, and Captain Allcock's appointment is timely.

TOMORROW'S BAPTIST SERVICES

Rev. W. K. McLeod on "Jesus and His Portraits"

The following is the program of services tomorrow in the First Baptist church, conducted by Rev. W. H. McLeod:

11 a.m.—Morning worship with sermon by the pastor.

2:30 p.m.—Bible School and Brotherhood Baraca Bible Class. All men welcome to this class.

7:30 p.m.—Third sermon in the November series: subject, "Jesus and His Portraits. Does He Live Today in Story and Art?"

Large and appreciative congregations have heard the first and second sermons in this series. There will be special music by the Grey Orchestra.

FAMILY TRADE
OUR SPECIALTY

MADE ATTACK ON SALARIES PAID TO CITY SOLICITORS

Ald. Smith Thinks \$350 a Month Too Much for Legal Expenses and Wanted it Reduced by \$100
---Council Decided to Let the Matter Stand

There was an opinion expressed by certain section of the city council last night that the city solicitors receive too high a salary. The amount paid them \$250 plus \$100 for the salary of a stenographer. Ald. Smith thinks this much for the work just at present being done by the city solicitors, and wanted to cut down by the amount of stenographer's salary. He said that city solicitors can have any typing required done by their own staff and that the work while heavy at present and when the city solicitors are first retained, has fallen off considerably of late, and the services of the stenographer can very well be dispensed with as far as city work is concerned. Ald. Pattullo, on the other hand, is of the firm opinion that the city solicitors are not only doing a very great deal of work but that they are by no means highly remunerated for what they do. In the discussion he pointed out that a good deal of the work does not go to the city solicitors but nevertheless the solicitors are being almost continually consulted

day by day upon various items that crop up in connection with the work of the finance committee and the streets committee.

To this Ald. Lynch agreed. Ald. McIntyre also holds this opinion, and said that considering the salary in question was only for another month it might very well be allowed to stand, and be reconsidered after the election.

Ald. Barrow and Ald. Naden rather side with Ald. Smith as regards the stenographers' salary, but the council's general feeling is to let the matter stand for the final month of this year.

The numerous instances cited by Ald. Pattullo of forthcoming work for the city solicitors over the grading contracts, by-laws, etc., and the feeling that at the present stage it would mean very considerable inconvenience to the city if the solicitors were to resign owing to the reduction by \$100 of their fee for looking after the city's interest, led to the decision more or less informally arrived at that nothing should be done regarding the stenographers' salary until next year.

The Optimist regrets that owing to a delay in the arrival of a new part of its typesetting machinery several of the articles on this page written for yesterdays issue had to be left over for today.

LAUNCH 'EVELYN' STARTS TODAY

FINE NEW QUARANTINE CRAFT FOR DR. TREMAYNE

Now Making Voyage From Victoria in Charge of Captain Butterfield, Gus Hansen and One Deck Hand.

Dr. H. E. Tremayne, quarantine officer for the port of Prince Rupert, has received word that the new gasoline launch "Evelyn" specially designed and built for quarantine purposes for this harbor, has been launched successfully at Victoria, and performed her trial trips satisfactorily.

The "Evelyn" is a first class launch fifty feet long and eleven feet beam. She is propelled by a powerful gasoline motor, developing 25 to 32 horse power Eastern Standard. Her speed on trials registered over nine miles per hour, and after tuning up, the engine may be expected to give her a good ten-mile speed per hour.

A further advice received by Dr. Tremayne states that the launch leaves Victoria on the journey to Prince Rupert today, and may be expected here within a week under favorable conditions. The Evelyn is in charge of Captain Butterfield, Gus Hansen, and one deck hand. The launch will be in charge of Gus Hansen when stationed in the harbor here, and will have plenty of work as the harbor traffic increases. She was built and engined by the Hinton Electric company, Victoria.

STRIKE ENDED AT LAST

New York Express Drivers Obtain Their Demands in Full

New York, Nov. 14.—The strike of express wagon drivers, which has paralyzed express traffic in New York and vicinity for the last week and threatened to result in a general teamsters' walkout, practically is ended. The New York teamsters today tentatively accepted the terms offered by the Jersey City teamsters and accepted by them. All drivers will return to work Monday.

The express companies agree to take back the strikers and consult with representatives of the employees regarding wages and hours.

OLDEST TRADE UNIONIST

Still Active in Duty as President at Ninety-Five

Australia claims the oldest trade unionist official in the world. He is Mr. James Wardley, the president of the Melbourne Bakers' Union, and he is in his ninety-fifth year. In spite of his great age, he is hale and hearty, and regularly takes his chair at the meetings of the union. Not only that, but he works every night at his trade. He is a native of Exeter, Devonshire, England, and he confesses that he is a beer drinker. But that, he explains, is an acquired Australian taste. In his native land he imbibed nothing but Devonshire cider, which he considers "the finest drink in the world." He emigrated to Australia in 1852.

WANT DUMPS FOR EARTH TAKEN FROM HIGH LOTS

Council Faces One of the Coming Problems of Grading
---Aldermen Mention Several Fills That Can Be Used by Citizens for Levelling Lots

The need for spaces in which owners of high lots may dump the material excavated when levelling them for building was emphasized by Ald. Hilditch in the city council last night.

A report by the city engineer stated that about 25,000 cubic yards might be dumped at a point at Hays Cove Circle, and Ald. Hilditch suggested other places. He thought the G. T. P. might be approached regarding a suitable hollow beyond the new Kelly-Douglas building.

Acting Mayor Mobley informed him that this ground was leased by five firms who had all been approached on the subject of dumping and would probably be willing to allow it to a certain extent.

Another very suitable fill beyond McBride street was mentioned by Ald. Naden and Ald. Hilditch said he fancied they would need a lot of space like this, as there were thousands of feet of material to come off lots. The council would shortly have to consider the matter definitely.

BIG INFLUX TO CANADA

American Immigration Still Leading Feature in Returns

Ottawa, Nov. 15.—During the last four months of the fiscal year which ended on July 31, 155,594 immigrants arrived in Canada, as compared with 90,248 for the corresponding four months of 1909. American immigration jumped from 40,267 to 54,679, while immigration at ocean ports increased alone from 49,982 to 100,850, or an increase of 102 per cent. During July alone as against 16,113 for July, 1909, an increase of 57 per cent.

FOUR SAILORS DROWNED

Tug Sea Prince Rammed by British Steamer Greystake Castle

(Special to the Optimist)
 San Francisco, Nov. 19.—Four men, comprising the crew of the sea-going tug Sea Prince, were drowned last night when the British steamer Greystake Castle rammed and sunk the tug in the bay off Angel island. The tug had a line on the steamer, which suddenly gained a strong headway nearly cutting the tug in two.

IRELAND'S HOME RULE SCHEME
 DESCENDANTS OF KINGS TO RULE THEMSELVES

Irish Liberals Draft Plan on Comprehensive Scale—Hundred and Fifty Members of House and Fifty Six Members of Senate.

Dublin, Ireland, Nov. 14.—The Imperial Home Rule association, a body composed chiefly of Irish Liberals, has drafted a scheme of home rule on a comprehensive scale. Under this scheme Ireland's parliament would consist of a house of commons of 150 members and a senate of fifty-six members, the former to be elected for three and the latter for five years. Each county and county borough would elect a senator, except Dublin and Belfast, which would each return two; and fifteen would be elected by the universities. Ireland would be represented in the imperial parliament by fifteen members for every million inhabitants, which means that there would be between sixty and seventy Irish representatives at Westminster.

The lord-lieutenant, no longer a member of the imperial government, would select the head of the executive, to be known as the first lord of the treasury, who in turn would choose ministers of finance, local government, education, agriculture and commerce, public works, and posts and telegraphs. These, with the lord chancellor, the attorney-general and the solicitor-general, would form the administration.

The activities of the Dublin parliament would be confined strictly to matters relating to the internal government of the country. It would have no power to legislate on questions affecting Irish relationship with other countries, national defence, the levying of customs or exise duties, or any item comprised in a schedule of "prohibited" subjects. A parliamentary court of appeal would be constituted, consisting of two Irish and three imperial lords justices, by whom all legislative and administrative acts of the Irish authority would be reviewed. Any act which the court regarded as beyond the powers of the parliament would become null and void, unless the decision were reversed by the judicial committee of the imperial privy council. In the event of disagreement, senators and commons would meet in joint session to determine the issue.

WHAT'S IN A NAME
 TWENTY DOLLARS IS OFFERED FOR A GOOD ONE

Messrs. W. S. Benson and the Law-Butler Co. Offer Prize for a Good Name for a New Town They Are Promoting in Pleasant Valley.

These two firms have acquired a piece of land for townsite purposes in the famous Pleasant Valley (a valley within the greater Bulkley) on the line of the G. T. P. Railway, about thirty miles east from Aldermere, and eighty-five miles from Hazelton, at the junction of the Bulkley and Buck rivers. It is the natural townsite of Pleasant Valley, which is one of the richest valleys and contains some of the best land in the interior of British Columbia. The land in the valley is all taken and the greater portion settled on. The trail to Francois, Fraser and Orosa lakes runs within a mile of the townsite and will be diverted to this town. The site is surrounded by the richest agricultural lands, as well as coal lands; is only five miles from the famous Barrett Ranch, conceded one of the best in British Columbia. Engineers and surveyors are now on the ground planning the site, and the above firms anticipate putting the lots on the market by January 1st. They have not, however,

quite decided on a name for the town and believing thoroughly in the old adage that "everything's in a name" are going to offer a prize of Twenty Dollars (\$20.00) in Gold, for the most suitable and appropriate name for their new town.

Conditions are as follows: Contest open to the world. The name must be one word, not to exceed ten letters, and a reason given why the contestant considers it an appropriate name. The contest closes on Friday, November 25th, at six o'clock p. m.

Address all communications to either W. S. Benson, or the Law-Butler Co., Prince Rupert, B. C.

Skeena Mining District

Notice to Delinquent Partners

Helen Flewin, W. C. Flewin und J. A. Robertson, executor for the estate of D. A. Robertson, take notice that you, having failed to contribute your proportion of the expenditure or work required to be done, under section 24 of the Mineral Act on the Bonanza, Emma, Emerald, North Star, Princess Louise and Moena claims, known as the Bonanza Mining Partnership, situated at Goose Bay, in the Skeena Mining District, your interests in the above claims are hereby declared null and void.

CHIPS FROM THE HUMORISTS

A surgeon in a western town, engaged to perform an operation of minor character upon a somewhat unsophisticated patient, asked him if her were willing to have only a local anaesthetic. "Sure," replied the other, "I believe in patronizing home industry whenever I can."

"Now, Johnny," said the teacher, "if your mother bought three baskets of grapes, the dealer's price being 25 cents a basket, how much would she pay for the entire lot?"

"Nobody couldn't tell," answered Johnny. "Ma's a wonder when it comes t' beatin' them hucksters down."

The Friend—Do you think your suit for \$100,000 damages against the railroad will be decided in your favor?

The Plaintiff—It looks like it now. My lawyer has just placed an order for a \$5,000 automobile.

"We keep our own cow," explained the hostess proudly. "So we're sure of our milk." "Well," interrupted the small son of the guest, setting down his cup, "somebodys had you with a sour cow."

The man rushed into a restaurant, and, seating himself at the table, proceeded to tuck his napkin under his chin. He then called a waiter and said, "Can I get lunch here?"

"Yes," responded the waiter in a dignified manner, "but not a shampoo."

Dona d MacDonald, farmer, of Hoots Ava, N. B., had married a woman with a wooden leg. Needless to say, all Hoots Ava was amazed, for Donald MacDonald was a man with an eye to the main chance, and it had always been conjectured that when he did marry he would marry a good, strong woman, who could work well in the fields draw the cart if need be, and so forth.

"Tosh mon!" whispered Sandy, meeting MacDonald in the road one day. "Why did ye do it? Was it lo'e?"

"Lo'e be blethered!" returned Donald. "It's mebbe no' a very bonnie thing to marry a woman wi' a wooden leg; but mon, she'll be awful handy at settin' time when I'm puttin' down my cabbages an' taties. She can just gang on in front, an' mak' a hole wi' her stump, while I follow ahint an' put in the seed!"

Salvation Army Services

The local Salvation Army corps will conduct services in the Majestic theatre tomorrow afternoon at three o'clock, p.m., and at night commencing at eight o'clock. During the afternoon service the lady officers and others will sing some special songs, and there will also be some selected songs by the congregation. Captain W. Kerr will have charge of the Bible service. At night, Ensign Johnstone will preach.

The Optimist Job

THE benign old gentleman pictured above is daily depositing at our store gifts of all kinds for the good people of Prince Rupert. It's a bit early to talk of the "holiday spirit," but the forehanded buyers always do their shopping early and thus get a better choice as well as avoid the rush and bustle of the last few days before Christmas. We'll tell you more later about the great variety of Holiday Goods that we'll soon have on display. At present we're busy checking off a large shipment of toys for the kiddies. To those who wish to get gifts to send away we would suggest that we have many things now in stock that can be conveniently mailed. We pack anything for long shipment without extra charge. Anything in our stock may be selected and laid away until wanted.

BOY SCOUTS AT WORK

Despatch Delivery Drill This Afternoon

The Boy Scouts were out this afternoon in full strength under Captain Brown, Lieutenant Flexman and Dr. Reddie. The drill consisted in despatch delivery between the reservoir and a point beyond McBride street. The "Enemy" through whose lines the despatches were supposed to be safely and secretly carried, stretched along the line of McBride street. The boys are bright and alert, and keenly enjoyed the manoeuvres.

FIGHT ABOUT A GIRL

Two Men Killed and Several Wounded in Battle of Armed Men

(Special to the Optimist)
Mount Kisco, N. Y., Nov. 19.—Two men are dead and several are badly wounded as the result of a pitched battle between two parties of armed men which took place last night. The battle took place at Merritt's roadhouse and the attacking party was led by a man who claimed that his sister was held prisoner in the resort against her will.

Mining Investments

information on meritorious investments.—Correspondence invited.

For investment in mining shares we consistently recommend "SILVER CUP MINES"—nothing but good reports continue to come from the "SILVER CUP MINES." New and important discoveries are made almost daily and ore bodies are showing up magnificently with every shot. The great interest being manifested in the Hazelton district coupled with the splendid condition of the mine and the Company's finances make investment in Silver Cup shares an opportunity for extraordinary profits. . . . We offer superior facilities for the buying and selling of securities and our files are up-to-date with

BOARD TALKED OF PUBLICITY

APPOINTMENT OF EXPERT IS DISCUSSED

Alderman Naden Suggests That City Council Should Vote Board of Trade \$1,000 a Year for Publicity Work.

The value and urgent need of publicity work was drawn to the attention of the Board of Trade at its monthly meeting last night and discussed with a great deal of interest, but when it came to the selection of the committee to take the matter up one after another of the members named courteously but firmly declined to serve, even though some of them had spoken in favor of such a course being taken.

The matter was introduced by a letter from Mr. Von Dohlen, former secretary of the Prince Rupert Publicity Club, addressed to Mr. Law. He suggested the appointment of a secretary who would act as secretary of the board and also as secretary of the Real Estate Exchange, and devote his best efforts to publicity work under the direction of the Board of Trade. He had a good publicity man to suggest in W. R. Hull, who would expect a salary of from \$150 to \$175 per month. A letter from Mr. Hull, applying for the position, was also read.

A Novel Proposal

Mr. Law's suggestion was to get at least forty people in town to guarantee to subscribe \$5 per month. This would give a salary of \$150 per month, and a little over for office rent and so forth.

Mr. H. H. Clarke, former president of the Publicity Club, said Mr. Law's ideas were good if they could be carried out. The Publicity Club had done a lot of good work and such work was now more necessary than ever. The proposition to employ this man was all right, but the board should be sure it was going to get the money before it hired the man.

Get a Civic Grant

Ald. Naden thought Mr. Law's suggestion a good one, but in regard to the Real Estate Exchange, they had now an exceedingly good secretary. If they were going to appoint a publicity man he might be secretary of the Board of Trade and then the Board get for publicity purposes a vote from the city council of say \$1000 a year.

Mr. M. M. Stephens agreed that the combination would have to be between the Board of Trade and the city council as the Real Estate Exchange was very well satisfied with its secretary. He thought the burden of the expense should be borne by the people of the city, as the Real Estate Exchange had

already done its share, and, in fact, had been heavily taxed for the publicity work done so far.

Blamed the Merchants

J. H. Rogers said if they referred to the membership of the Publicity Club they would find that the merchants had not done as much as the real estate men, in fact many of them had refused to join or to subscribe at all.

Later, in discussing the question of funds Mr. Law pointed out that they could not expect a good man for such a position to collect his own salary.

Mr. Tite said the city had been canvassed for subscriptions very much this year, and he thought if the matter was left in abeyance until the new year better results could be obtained.

Finally a motion was put to appoint a publicity committee but when the president mentioned one after another for such a committee, each one named declined. It was thereupon decided that the president should appoint the committee at his leisure.

PLENTY OF BUILDING

Good Number of Permits Granted This Week

James Ridley, dwelling at corner of Eighth and Ninth avenues, to cost \$150.

Geo. E. St. Clair & Co, premises two stories and basement on Second avenue, to cost \$3,600.

Pony Express Co., barn on Seventh avenue, to cost \$200.

H. F. McRae, offices on Second avenue, to cost \$2500.

A. J. Gallant, store on McBride street, to cost \$500.

ZANARDI WATER POWER

Board of Trade Withdraws Objection To the Scheme

Alderman Barrow sent a letter to the Board of Trade, which was read at the meeting last night, stating that the city council had withdrawn its objections to the use of Zanardi Rapids, and asking that the board take similar action. A motion was passed that the board formally withdraw the objections filed in the matter.

One Solitary Drunk

Before Magistrate Carss this morning John Costello appeared charged with having been drunk. The usual fine of five dollars was imposed with costs.

TO ESTABLISH PILOT BOARD

CONTINUED FROM PAGE 1

not do to be in a hurry about the matter. He said the time was hardly ripe yet for such a course of action. The large ships had simply been bringing in supplies for the railway. It might be all right so far as they were concerned, but it might deter the American boats, which carried their own pilots, from touching here. For the next two years there would be very few large boats coming here except for the railway, therefore he thought any action at this time would be premature.

Captain McCoskey replied that the charge to the coasting boats would be small in any case, and those local steamers might be entirely exempted for awhile.

Vancouver Might Get It

Mr. Tite asked if there was real danger of Vancouver obtaining jurisdiction of the waters at this port.

Captain McCoskey said there certainly was, as the captains of the big ships had applied to Vancouver for pilots, understanding there were none here, and Vancouver would have to apply to the Dominion government for an extension of jurisdiction in order to be able to supply such pilots.

To Forestall Vancouver

J. H. Rogers thought it would be a proper move to forestall Vancouver. He thought it would be within the power of the pilot board here to make the pilot charge for American boats so small that it would not deter them from coming here. Also, as had been pointed out, the large deep sea boats really demanded pilots, as otherwise they could not get reasonable insurance rates to this port. He believed now was the time to recommend the appointment of a pilot board for Prince Rupert. There were plenty of men here who had captain's papers that could do the work and not interfere very much with their present occupations.

Withdrew His Objection

Upon this Alderman Naden withdrew his objection and Mr. Clarke moved that the board petition the department at Ottawa for the establishment of a pilot commission at this port. This was seconded by Mr. Rogers and the motion carried.

USING AUTOS ON TRAIL

White Pass Experiment Proves Successful Half Way to Dawson

(Special to the Optimist)

Whitehorse Nov. 19.—The experiment of substituting automobiles for the winter stages seems likely to be entirely successful. The first out from here made the trip in good time to Yukon Crossing, half the distance to Dawson, but the Yukon river was found to be still open at that point. Rather than wait the machine was driven back here and will leave tomorrow with a second load.

Canadian Club

A meeting will be held on Monday night, November 21, at eight o'clock in Major G. E. Gibson's offices for the purpose of organizing a Canadian Club for Prince Rupert. All interested in such an organization are requested to attend.

INSURANCE

DON'T WAIT

Until you fall and sprain your ankle or break your leg before you inquire in to our

Accident Policy

We pay weekly indemnity for full or partial loss of time through any accident.

BIGGEST ROCK CUT ON G.T.P.

CONTINUED FROM PAGE 1

twice over by the gradual renewal of worn parts.

A Giant Blast

There was plenty of big blasting done. One notable blast shifted 50,000 yards of rock. This is said to have been the second largest blast ever fired on G. T. P. construction. A slightly larger one was fired near Quebec.

The total mass of rock tackled on the whole contract measured about 1,100 feet long by 180 feet wide, and 68 feet high. Bit by bit it has been reduced, and the material excavated spread out filling in two large bays and forming the fine solid ground for the railway yards. From six to twelve tracks can be laid in the space levelled and prepared for them by the removal of the bluff.

Not One Serious Accident

Messrs. Ross & McColl who have supervised the work in person since the start are to be congratulated on its success. While they have averaged 100 men continually on the pay roll since the start, there has been not a single fatal accident, nor any serious mishap whatever during the work. One workman had a leg broken very early in the history of the contract. Since then all the heaviest part of the work has gone on without accident.

Mr. Stewart, of the firm of Foley, Welch & Stewart has highly complimented Messrs. Ross & McColl on this, saying that it is a remarkable thing and very creditable to the contractors that so big a rock cut right in the city should have been completed without mishap to anyone.

HAYS' LETTER AGAIN

Mere Formal Acknowledgement by Board of Trade

The Hays letter on the assessment of the Grand Trunk Pacific's property came up before the Board of trade at its monthly meeting last night, by the reading of the report of the council of the board. There was no discussion.

The president made a brief explanation and on a formal motion the secretary was directed to make an acknowledgement of the receipt of the letter to the city council.
