U. S. WAR SECRETARY HAS RESIGNED HIS PORTFOLIO

A BATTLE IN MID-AIR FOUGHT OVER LONDON

Wonderful Demonstration Made in Presence of Army Council and Lords of the Admiralty—Fleet of Aeroplanes Armed With Machine Guns Attacked the Army Dirigible

(Canadian Press Despatch)

London, May 13.—The most remarkable exhibition of aviation ever given was presented this morning at Henden outside London, under the auspices of the Parliamentary Aerial Defence League. It demonstrated that Great Britain is alive to the importance of the new means of attack and defence.

Fourteen Aviators

Fourteen of the leading air-men of the world were on the programme, including several French aviators. Their feats were all for the purpose of showing the utility of the aeroplane as an instrument of war. Their tests included bomb-throwing, scouting and despatch carrying.

"Grand Stand"

There were present Premier Asquith, War Minister Haldane, Home Secretary Churchill, Mr. Lloyd-George, two hundred members of Parliament, and a great number of officials from the army council and admiralty. They were greatly impressed by what they saw.

Some of the Feats

Graham-White who led in most of the feats showed how bombs could be placed by an aeroplane flying high in the air. He dropped a number of golf-balls on objects which it was supposed it would be advisable in war to destroy. Finally he took a blank missile weighing one hundred pounds, and flying high in the air drop into an imaginary fortification. While this was going on, other aviators flew to Aldershot and back with messages and for scout reports of the troops.

Battle in the Air

For a grand finale a battle in the air was shown, in which a fleet of aeroplanes fought with the army dirigible. The aeroplanes had little machine guns mounted on them. Flying like a swarm o mosquitos they discharged volley after volley of rapid shots at the dirigible which though it retaliated, seemed to be at the mercy of the aeroplanes.

WAR SECRETARY RESIGNS

Henry L. Stinson Succeeds Dickison in Taft's Cabinet

(Canadian Press Despatch)

Washington, May 13.—Secretart of War Dickinson, a Democratic member of the President's cabinet has resigned. Henry L. Stinson, of New York who was recently defeated as a candidate for governor in that state has been given the portfolio. Private affairs are the reason given for the resignation.

Everything at Reilly's is home made. When you want something good to eat go to Reilly's in the Empress basement.

UP TO GOVERNMENT TO PAY STRIKERS' EXPENSES

Deputy Attorney General's Wire Does Not Apparently Include All Witnesses, But for Fair Trial All Must be Present—Some are in Alaska While Some are Up River

Probably the Government will eventually have to bear the expense of taking all the witnesses in the Prince Rupert strike case to Victoria for the trial at the assizes on June 15th. In the telegram from Deputy Attorney General J. C. McLeod, it is stated that the Government Agent will be instructed to pay the expenses of those witnesses who testified for the defence at the preliminary hearing.

For a Fiar Trial

But there are more witnesses for the defence to call than those who testified at the preliminary hearing, and it is certain that the government if it pays the expenses of one witness must pay for all in order that the cases may be fairly tried. Unless all the witnesses for the defence are there it cannot be a fair trial.

It may be a costly matter to get together all these witnesses Some of them are in Prince Rupert, some are up river, some are as far away as Dawson and other points in Alaska.

Men are Mostly Broke

Since the men concerned were all pretty well broke at the time of the trouble it stands to reason that they are not very likely to be in a position to pay their own expenses even by June. Therefore it looks as though the payment must rest with the government.

The case of Nick Vasovitch a striker, who was to have appeared before Judge Young for election yesterday was not gone on with on account of objections by the Crown Prosecutor. As Judge Young is going up river, the case has now been adjourned until the Judge returns.

Will Know on the 20th

"At present I have nothing to say about the application I made to the Supreme Court in Vancouver to compel the license commissioners of this city to grant me a license," said Mr. Prudhomme, proprietor of the Savoy Hotel, to the News this morning when he returned from Vancouver "The case will come up on May 20th."

EXPLOSION ON FIRST AVE. INJURES THREE WORKMEN

Gubano Bartoldi, Joseph Obano and Bronca Leoni Rushed to the Hospital---Bartoldi Terribly Mangled---Other Two May Lose Their Sight---Accident Caused by Putting Powder in Hot Hole in Rock Cut

As the result of a premature explosion on Salvatore Camosi's contract on First avenue opposite the St. John Hotel, three Italians, Guliano Bartholdi, Joseph Oliario and Bronca Leoni were terribly injured this afternoon shortly before two o'clock.

Bartholdi is injured more seriously than the other two poor fellows. He has a broken leg, fingers blown off and serious injuries about the face and body. Oliario and Leoni are injured about the hands and face and it is feared that owing to the severe injuries to their eyes they will lose their sight.

Dr. Tremayne was called immediately after the accident and after rendering first aid had the men rushed to the General Hospital where up to the time of going to press he did not know the exact result of the injuries as he had not completed his examination.

Cause of the Accident

As far as can be learned the result of the accident was putting in the dynamite in a hole before the hole had got thoroughly cold after drilling Bartoldi was putting the powder in and the two other men were standing near by when the explosion happened. A shower of rocks shot up with terrific force and knowked the men down.

SCHOOL INSPECTOR HERE

Came on Official Inspection—Praises the Staff

"You have a good school here and an efficient staff of teachers," was the enconium handed out this morning by Mr. T. Leith, Government Inspector of Public and High Schools for the coast section of British Columbia. Mr. Leith arrived here on the S. S. Prince George and after he has inspected the public schools in this city he will go on to Stewart and other places along the coast before he returns to his home in Vancouver.

POPULAR PASTOR BACK

Rev. F. W. Kerr came back today by the Prince George from the Presbyterian Synod meeting at Vancouver. While taking part in the work of the Synod Mr. Kerr spoke strongly in the cause of temperance, and was reported in the Vancouver press as having pointed out in a vigorous anddress, the difficulties which have beset the fighters for temperance in Prince Rupert.

DR. McINTYRE RETURNS

Intends Staying Here This Summer, Will Probably Build

Fresh from San Diego where he has been sperding the winter Dr. McIntyre returned today to Prince Rupert. He was accompanied by Mrs. McIntyre, and Mr. Maurice Bondeau. Dr. McIntyre has been quite close to the turbulent scenes in Mexico, saw the U. S. troops leave to restrain the menacing advance of the insurrectos, and saw the British ships of war steam into harbor after taking part in the work of preserving order and the safety of non-combatants.

During the summer Dr. McIntyre will remain in Prince Rupert. "This is my home of course," he said, "and I intend to develop and improve my property here this season. If things are as good as their promises indicate at present, I shall go in for some more building."

Another Wrong Idea

It has been reported that Reilly's Bakery Lunch in the Empress Theatre basement would not serve lunches in the morning in future. To the contrary that place will be, commencing Monday, May 15, open from 7 a.m. until 1 a.m. daily except Sunday when it will open at 8.30 a.m. If you want a good quick morning lunch in a clean place go to Reilly's. 107-108

CITIZENS' RIFLE CLUB

Effective Revival for This Summer

TO SHARE RANGES

Membership Increases and Office-bearers are Appointed at Meeting Last Night. Shooting Match with Earl Grey's Rifles Will Shortly Take Place.

Prince Rupert Citizen's Rifle Association has taken a new lease of life for this season. In the court house last night a meeting of members of the Citizens' Rifle Assoication and all interested was held to discuss the re-organisation of the Association.

An arrangement is being planned by which the Citizens' Rifle Association and Earl Grey's Rifles will have the joint use of the ranges across the harbor now used by Earl Grey's Rifles alone. Regular practice will proceed this summer, and a match is already being talked of between Earl Grey's Rifles and the rifle association as soon as the range matters are got in shape.

All young men in the city who are interested in rifle shooting are welcomed to the membership of the association. The subscription is $4 and present members or any of the office-bearers or members of committee will introduce new members.

Office bearers elected last night: President R. Cameron, Secretary Treasurer Arthur Cuthbert, Committee J. R. Beattie, Guy Tooker, I. Cameron, J Brown, C E Woods and J W Potfer

Daly Graham is not welcomed very cordially in cities on the Pacific Coast, at least not by the Police. He is frequently requested to move on and today it was up to him to move again. He left for Hazelton for a brief sojourn.

A man named Sweeny, who is said to answer also to the name o Pat promised Chief Vickers the morning that he would be good and get work at once. Chief Vickers relented a little and let him go under supervision.

TWO STEAMERS LOST BY COLLISIONS AT SEA

Steamer Debays Sank Off Goodwin Sands—Captain and Four Others Drowned—Steamer Merida Founders in Collision—Three Hundred Passengers Escape

(Canadian Press Despatch)

Dover, England, May 13.—Within sight of shore, off the Goodwin lands, the Spanish steamer Debayo sank today, as the result of a terrible impact with the British steamer Westmoreland which ran into her. The captain chief officer and four of the crew of the Debayo were drowned with her. She sank within two minutes before assistance could reach her.

New York, May 13.—A terrible tragedy of the sea was narrowly averted off this coast this morning, when the ship Merida, bound from Havana to New York with 319 souls on board was rammed by the steamer Admiral Farragut. The accident occurred 55 miles northeast of Cape Charles, and the vessel sank in 35 fathoms of water.

After exciting scenes among the panic-stricken passengers, all were rescued and brough to port. In the struggles which took place a number were injured and are being treated in the hospitals.

LABORERS FIND NUGGET ON MOOSE JAW STREETS

Were Digging for a Track Bed for Street Railway when a Rich Gold Sample Was Found—There is Now a Still Hunt for Spot that Earth Came From

(Canadian Press Despatch)

Moose Jaw, May 13.—While preparing the track bed for the new street railway a laborer this morning found a good sized nugget of gold. The discovery has caused a great sensation, and raised hopes that Moose Jaw may become the scene of a gold strike Men are already prospecting in the district where the earth came from.

A Good Specimen

Supt. McPhee who is in charge of the tracklaying has had a lot of mining experience, and he declares that the nugget is a very rich sample. The soil in which it was found had been carted from neighboring hills to fill in a ravine, and every effort is being made to trace the soil to its source. It is expected that more nuggets are to be found where the first came from.

DAILY EDITION. SATURDAY, MAY 13

WHAT KIND OF PRINCE RUPERT SHALL WE MAKE?

"What kind of Prince Rupert shall we make?" It is a question that every man and women who intends to live their life here might well take time to ponder over. Even if half the population stayed away from church over the week end to contemplate on the questio, it would be justified. No more solemn question will be propounded in the churches. To build a good clean livable city here and now, is a much more revelant thing than to worry about admission to a New Jerusalem in the skies, after we are dead.

And even the man who wrote most and with most assurance about the New Jerusalem, pictured it saying, "And I beheld a city—." It was to him the ideal city.

No one need waste any gray matter in wondering whether Prince Rupert is going to be a rich or a big city. With a continent like a big wheatfield behind us, with the trade of the East and the West to pass along the little line of steel that comes to a stop on the banks of Tucks Inlet, there is no doubt as to the great commercial future that is awaiting Pruince Rpert. There is no doubt but that every inch of real estate held long enough,will make a turn-over yielding profits to present owners.

But the fact has got to be faced that a city may grow to be a big city and a rich city, and not even in a worldly sense be a good city. It is an awful responsibility for a handful of people to have thrust on them, this responsibility for making or marring that side of a city's life which in a man responds to what we call character. And cities have characters, just as men do. New York, Chicago, Boston, London, Manchester, Paris, Glasgow,—often they vary as much in their characters as do the men of one family, who in featur resemble each other.

It is true that Prince Rupert started off with a handicap in its charter of incorporation. After we had all decided, as it were, what kind of a character we were going to try to live up to, that character was denied us. Another one, very different from the one we wanted was forced on us. Conditions and contracts of which we knew nothing and wanted nothing were hung about our necks. A good many valiant souls were disheartened at the handicap. And it is a handicap on the hopes we had, that we would show the world and the seer of Patmos himself, something of what that ideal city might look like on earth.

But just as the man who throws away his character finds it staring him in the face which ever way he turns,so the city cannot get away from its ideals. At every crisis it confronts us. "What kind of city are you going to make of me?" it asks.

Since the city was incorporated,it has had a bad attack of party fever. Party fever to young cities corresponds to measles in children. Few escape it. It is an infantile complaint. Some folk think it is a good thing to get it over and done with. Let us hope so.

Now that the fever is pretty well out of our blood, the time has come for good citizens of all parties, Liberals, Conservatives, Socialists and Labor, to face the question of questions—the question on which so many things depend—"What kind of city shall we make?"

Take the question of the waterworks scheme, for which the council will soon ask the citizens to vote half a million dollars; take the question of the Tsimpsean Power Company's proposals to establish gas works, an electric power plant and a street railway. On any one of the propositions it is the character element that is the deciding factor. We need waterworks, we need gas works, we need a power plant, soon we will need a street railway. Of their desirability there is no question.

The question arises over what is the waterworks project to be—a vast piece of patronage to be bestowed piecemeal in the guise of day's labor, or a bona fide piece of civic enterprise where every man in return for good wages will do an honest day's work,and where his liability for "services rendered" ends with the blowing of the whistle each night.

So too, with the Tsimpsean Power Company's projects, there is material enough to prove both that civic ownership is a success and that it is a failure. The determining question is, "Are we good enough and honest enough to run these enterprises for the public benefit alone, or must we get a private company to come in and act as trustee for the public, in return for the profit it can make?" The question of "Can we raise the funds?" takes second place to that.

The question of "What kind of city are we going to make?" depends upon the kind of citizen each man and woman proposes to be. To the discussion of the question "How best to make Prince Rupert a good city" we invite the assistance of all who are interested. Were it not that any prize we could offer would be wholly incommensurate to the benefits someone might confer on the community, we would feel like offering a prize for the best contribution.

How do you propose to answer the problem?

THERE is an increasing demand for dwelling houses and apartments. Anyone having houses and apartments for rent to be vacant at any time in the near future should list them with us at once as we have many demands by mail from parties who desire to secure quarters by the time they arrive here.

I AM daily asked my opinion as to the permanent values of real estate in Prince Rupert for investment. To all such enquiries I honestly state that any Prince Rupert properties, at present valuations, are a good investment, but I advise my clients who are desirous of taking advantage of "snaps" to invest only where offerings are made at much below present market quotations.

WE are able to pick up for our clients who have ready cash for investments good properiies at from 20 to 40 per cent. below the market by careful watching of fluctuations and chances by our staff. If you have cash for investment and are looking for real bargains call in and talk it over. I can show you how to make quick profits.

JUDGE YOUNG BACK

Finds Rupert Weather Much Better Than in Vancouver

Judge Young who returned by the S. S. Prince Rupert on Wednesday is to leave for Hazelton by the first boat going up river. A court is fixed to be held at Hazelton on May 17th. Mrs. and Iss Young will remain in Rupert. Judge Young was pleased to find such fair weather prevalent here. He declared that the Vancouver weather he experienced just before leaving there was worse than anything he had seen for months.

After today no more Georges need apply even with numerou dollars for a share in Prince Rupert's Coronation contribution to the King.

The Citizen's Rifle Association meets tonight in the Court Room. All interested are invited to attend. Captain Godson will preside. The meeting is called to discuss important organisation matters.

For every dollar of his income the average man must render a full-measure equivalent of service. For every dollar spent the advertising housewife will secure full-measure value.

TORONTO LAWYER JAILED

W. D. Earngey Goes to Penitentiary for Three Years

Toronto, May 12.—. D. Earngey, a well-known Toronto barrister, has been sentenced to three years in Kingston penitentiary for forging a check for $1,000 and forging a false mortgage. He pleaded guilty when arraigned before Judge Denton. Friends of the prisoner pleaded for leniency, saying that Earngey had given way to drink during the past year or two, and that he had not realised the seriousness of his action in consequence.

In passing sentence on him, Judge Denton said that drink was no excuse for what he had done. In forging the name of the registrar of titles to the mortgage he had committed one of the most serious kinds of forgery.

REMEMBER SATURDAY NIGHT

Meeting for All Interested in Empire Day Athletics

Young men in the city who are at all interested in athletics and the success of the Empire Day celebration should not fail to attend the meeting on Saturday night at eight o'clock in the Court House. Mr. William Godson has arranged forthe use of the Court Room and the Mayor will preside. All the local "red-bloods" who are aware of the purpose of the meeting have promised to attend. Committees will be formed to take charge of the different branches of athletics at the Empire Day display.

Already a number of young men have been training for the running events, and some canoe practice has been in progress. The idea is to have water and land sports in as live and lively forms as the youth of the youngest and livest city in the whole Dominion can develop.

Dr. and Mrs. Eggert are again in town after a visit to the south.

Townsite

ELLISON

For reservations of Lots in Ellison, write or wire Land Commissioner, G. T. P. Railway Company, Winnipeg; A. W. Bridgeman Victoria, B. C., or Jeremiah H. Kugler, Prince Rupert.

The only Main Line Townsite in British Columbia in which the Grand Trunk Pacific Railway Co., has announced its joint ownership. -:

Lots in Ellison Townsite and Rogers Addition For Sale.

SEE THE OFFICIAL MAP

The first glance will show you that ELLISON is located at the junction of the Skeena River and the Bulkley Valley. The Grand Trunk Pacific has announced that they are joint owners in the townsite of Ellison. Now, my dear reader, you must remember that up to date the Grand Trunk Pacific has not announced that it has any interest in any other main line townsite in British Columbia. Does that start you thinking?

STUDY THE MAP and you will find that Ellison is where the railway tracks leave navigation. That fact is a very important one for conservative investors to think over. What is known as the Hazelton district covers a territory many miles in extent in every direction radiating from the townsite of Ellison. Mining machinery, ore shipments, smelters, reduction plants and all sorts of mining operations starting up in this rich mineral region, must necessarily have a metropolis, a HUB, a headquarters. If any sane, conservative man can figure out any other spot except Ellison for the hub of the great commerce of this district, his plan should be very interesting to the Grand Trunk Pacific officials. It does seem as though these officials, after several years of investigation and engineering, would know just what they were doing when they put their official stamp on Ellison.

STUDY THAT MAP—I desire to say to all parties who are talking townsites in the vicinity of Skeena River and Bulkley Valley that there will no doubt be several small towns, just the same as one always finds in a mining district. There will be towns in the vicinity of Ellison along branch railways, probably towns at the ends of branch lines made to serve the mines and the collieries, but it will be history repeating itself in regard to the building up of every metropolis. Ellison has every natural advantage, has every earmark of being the future mercantile and financial centre of the Skeena River mining district and the entrance to the Bulkley Valley.

STUDY THAT MAP and you will find that all of the mining towns and railroad towns around there just beginning to be talked about will only be feeders to city and port of ELLISON. The Grand Trunk Pacific has put its official stamp on Ellison. Do you believe the company will do as much for townsites owned by individuals as it will for one in which its stockholders are joint owners? If you do, don't buy any lots in Ellison. If you desire to make a permanent investment, or merely to make a little quick money, you must decide for yourself right now. Do you propose to follow the individual townsite promoters or the Grand Trunk Pacific Railway Company.

STUDY THAT MAP—If you desire to put your money into a real estate promoter's townsite you will have many, many opportunities this summer. The average promoter is full of hurrah and red fire. He must enthuse investors of the mail-order class with his wares. ELLISON is in the Missouri class. Therefore, I am not telling any fairy tales about it. I am making statements that can be readily verified.

STUDY THAT MAP.—If you want to join that great army of investors-at-long-range, then you should put your money into promoters' townsites. If you want a perfectly safe and sound inuestment, certain to bring you large profits, then put your money where the Grand Trunk Pacific, after years of careful investigation, have put their money.

STUDY THAT MAP.—It is not likely the Grand Trunk Pacific will have any other townsite in British Columbia for sale this year. The officials of the company state that the company is not interested in any townsite in the Hazelton district except ELLISON.

ELLISON is on the bank of the Skeena at its confluence with the Bulkley. You may change railway surveys, you may change the location of towns, but you cannot change the geography of the country through which the railway passes. The head of navigation necessarily means an important townsite. Ellison will not only be at the head of navigation, but the centre of a mining district wonderful in its resources that is now being opened up, and for which Ellison will be the shipping point both by rail and water. The fact that trains may change engines up or down the line or in the suburbs of the town of Ellison does not amount to shucks in building up a town when such places are compared with a town located where rails and navigation meet.

STUDY THAT MAP.—You will find on the official plan of Ellison that a large part of the townsite has been reserved for future sales, the same as the company has done with certain sections of Prince Rupert townsite. There are, therefore, at this time, comparatively few lots on the market. You must hurry if you want one.

STUDY THAT MAP.—ROGERS' ADDITION to Ellison, only a small parcel of land, lies within eight blocks of the site of the railway station. Lots in this are being offered. I am advising my clients to buy Rogers Addition lots at $150 for inside lots and $250 for corners. Terms—10 per cent. discount for cash, or 10 per cent. down and the balance on easy terms, no interest.

For Reservation of lots in Ellison, write or wire A. W. Bridgman, 1007 Government street, Victoria, B.C.

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

LINEN AND LACE

Here is a modish design for a linen coat suit, which may be developed in one's favorite shade by having the lace dyed to match the linen, which was done for the original of our model. A lovely shade of violet linen was elected, and the heavy linen lace then was colored to match.

The coat is exceedingly unique with its stole arrangement of lace and the broad band of lace around skirt of coat. Kimono sleeves are employed, and these, too, are banded with lace, and the front of skirt has a pointed tab corresponding to the stole on coat, the former running a trifle lower than the stole.

HARBORS AND DEEP

The ships now in the harbor lie
asleep
And have forgot how the sea-
wind puffs the sails
There cast upon the decks. Yonder
the deep
Lies brooding and the lost gull
weakly flails
The clam with listless wing, that
fain would be
Wet with the spindrift of a scud-
ding prow.
He sickens, pale Odysseus of the
sea
Shaped for the storm, o'er wind-
less waters now.
So have I fallen in thine arms
asleep,
And my soul sickens and I rest-
less lie
Adventure-struck and hungry for
the sweep
Of rhythmetic oars and islands
drifting by.
I waken, let me go! It is not pride;
Bright Lucifer into the darkness
hurled
Was happier than angels quiet-
eyed.
God in me urges; yonder glooms
the world.
The sailor seeks the haven but a
day,
His life spills on the sea; then
sweeter sleep,
And dearer thou for yearnings far
away;
They know not harbors who
know not the deep.
—Christian Gauss, in the May Scribner.

Needle Note

In making all-over embroidery or other corset covers having draw-strings at the top asnd waitline, stitch the shoulder straps to the upper edge of the back. In the front fasten these to the garment on the underside with a small safety pin, or a button and buttonhole. This is to be undone when laundering and the covers opens out flat and is as easily ironed as a handkerchief.

Messrs. W. Morrison and W. Munford of Seattle have gone to Alice Arm to look up a mining prospect there.

BY MACK

In the rich life-giving Canadian sunshine yesterday afternoon I chanced on a tiny girl with pretty flaxen curls, big dark, enquiring eyes, and a dainty baby mouth with a whole lot of coming feminine character in its dainty little curves. She was watching her daddy building a boat. His was perhaps the most interesting occupation in the whole world for a man. Hers was surely one of the most interesting of the million and one occupations there are for babies, which we absurdly serious grown-ups so foolishly forget. The glory of the afternoon sunshine fell richly upon the wee lassie. With her chubby little hands she busied herself picking up red-gold shavings, to her so infinitely more valuable than the grimy old dollar bills half of us are wasting our lives after.

I watched the wee hands with their tiny pink fingers working away busily in the sunshine with those delightfully curly shavings. Only once or twice did the big dark baby eyes peep up wonderingly in my direction. The little lady had much more use for fragrant red-gold shavings than she had for a clumsy man-creature. How much wiser baby girls are than girls a little older. Did you ever think about it? There in the warm sun-glow, beside her daddy, with her childhood's gift of health, and her childhood's wealth of shavings, she was absolutely glad. Nothing in the world worried her, except perhaps the sensible Irish terrier who came and kissed her because he was Irish and gallant, and she looked good to him.

All over the world wherever the afternoon sun shines warmly, wherever there are kindly, busy daddies building boats or mending boots there are small girls with chubby baby fingers toying with priceless baby treasures of shavings, or rose-leaves or buttons and string. In the alleys and squares of old-world capitals, in the gardens and grass-plots of rising Canadian cities, in Europe, Asia, Africa and America as you are reading this very line, there are baby fingers cuddling worthless trifles of inestimable value in big wondering baby eyes. Surely the sunshine loves to linger on the bonnie wee people as it turns their shavings to leaf-gold, and their flower petals to fairy dresses. Surely baby-girls who play in the sunshine, store up lots of it in their hearts that will shine out afterwards in their lives if some blunderbus man doesn't manage to rob them of it. One of those sad-eyed, robbed ones I met once told me that her favorite color was "the color of sunshine." There is more than merely hope for that girl's happiness yet. While there is still the child-love in her heart for "the color of sunshine," there is help, the help of the sunshine, the help, perhaps of love.
