JULY FOURTH CELEBRATION DESTROYS PRINCETON

WANT WATER AND POWER PROPOSALS SEGREGATED

Board of Trade After Discussion, Recommends to City Council That the By-Law for the Hydro-Electric Scheme be Submitted as Separate Proposals---Meeting Favored Getting a Company Started Right Away

"That in the opinion of the Board money by-laws on the water system and Hydro-Electric power plant should be segregated and voted upon separately. The Board of Trade recommends that the City Council should consider this opinion before finally passing the proposed by-law combining the two."

Above is the resolution come to by the Prince Rupert Board of Trade on the matter of the Hydro-Electric scheme proposed for Prince Rupert by City Engineer Thompson of Seattle in conjunction with the water supply from Woodworth Lake provided for by Colonel Davis. After some discussion of the problem of electric power for the city, and the Tsimpsan Company's proposals the resolution resulted.

Must Have Water
A water supply Prince Rupert must have; an electric power scheme in conjunction with the water supply, the city might have. This is the attitude of the Board of Trade. Whether it is most advantageous for the city in its

present stage to instal its own water power electric plant, or to leave the supplying of electric power to a wealthy corporation prepared to start right in and spend money now, was the question. The feeling of the meeting rather inclines to the latter idea, though the corporation need not necessarily be the Tsimpsan Power Company. Mr. J. Kirkpatrick mentioned that he was in touch with another company anxious to locate in Prince Rupert and supply gas and electric power.

About the Tax-payer
Mr. M. P. McCaffery expressed, and other members of the Board supported the contention that for Prince Rupert to get to work and instal her own hydro-electric power system at this stage means the imposition upon the tax-payer of an increased burden which might be relieved by the leaving out of the electric power part of the Woodworth water scheme. A company coming in to establish a power system would contribute to the revenue of the city and he, up to the revenue of the city and help relieve the burden of the tax-payer. It was decided that as the city council seems set on

combining the two schemes of water supply and electric power and submitting the by-law in this form to the people, steps should at once be taken to let the council know the attitude of the Board of Trade on the matter.

Pregnant Sentences
"One thing we must have is water. We also want it as cheaply as possible. We want to know too, how the council will spend the money provided for in the Hydro-Electric By-law."—The President of the Board of Trade.
"To drag the Hydro-Electric Scheme into the water supply scheme is just to complicate the matter and not do any good."—L. W. Patmore.
"To hang the two together does not seem right to me at all. It seems a very serious thing for the taxpayers."—M. P. McCaffery.

On a Vag. Charge
A man named John Mooney who once figured as a witness in the strike preliminary hearings was arrested early this morning on a vag. charge. Magistrate Carrs decided to let him go on suspended sentence. Chief Vickers will keep an eye on him.

BOOST MINES IN THE DISTRICT

Vancouver Minerals Exhibition Superintendent Requests Specimens of Ores from Prince Rupert and Hazelton Districts.

Through the Board of Trade Mr. H. B. Bream, superintendent of the Mineral Section of the Vancouver Exhibition, has made the request that Prince Rupert as the headquarters for Hazelton should send south specimens of ores from the mining districts tributary to Prince Rupert for display at the Minerals Exhibition. Mr. Bream mentioned that they have plant ready for free testing of ores specimens up to amounts not exceeding 250 lbs. Ores should be shipped not later than August 1st.

TO REWARD BRAVE DEED

Rev. Mr. Ganton and Geo. Robinson May be Recommended for Medal.

The prompt action of Rev. Mr. Ganton and George Robinson, in rescuing five persons from drowning in Port Simpson harbor—particulars of which were telegraphed to the Daily News—continues to be a topic of interest at Port Simpson.

In a private letter to a friend in Prince Rupert, Mr. John Flewin whose wife and two children were among those rescued, after narrating the incidents of the rescue says: "The actions of Mr. Robinson and Rev. Mr. Ganton are deserving of the Royal Humane Society's Medal. Too much credit cannot be given them for their prompt action, which resulted in saving all lives, the more remarkable from the fact that there were five in the water at the same time and only a ten foot skiff to save them with."

LUMBER CORPORATION IS ANXIOUS TO LOCATE HERE

On Condition That Electric Power and a Suitable Site on the Waterfront is Obtainable the British-Canadian Lumber Company Will Consider Erecting a \$500,000 Lumber Mill---Shall the City Offer Inducements?

To the Secretary of the Board of Trade, Prince Rupert.

Dear Sir,—We note in several issues of the local papers the organisation of the Prince Rupert Hydro-Electric Company, Ltd., and we are now negotiating with them in regard to the supply of power to us in Prince Rupert or the vicinity.

Kindly state if it is the policy of your city to encourage the establishment of industries employing a large number of hands by the granting of free sites, free water and a low rate of taxation for a number of years? Also how are wharfage facilities to be obtained?

We would also like to know if desirable water frontage and industrial facilities can be obtained outside of the incorporated area at such places as Port Hays or Purport Harbor which we understand are also tributary to the railway.

For your information I may say that a sum of about \$500,000 has been set aside by our company for the building of a mill and factory in Prince Rupert or the immediate vicinity. A

prompt answer will oblige.

Yours very truly,
The British Canadian Lumber Corporation, Ltd.
Montreal, 17th June.

Recommendation to Council

In the opinion of the Board of Trade it is most desirable that the city should offer facilities to the incoming and settling here of industries. A letter will be sent to the city council expressing this and requesting an assurance that this will be the attitude of the city so that the fact may be stated definitely and with authority in the Board of Trade Secretary's reply to the Lumber Company's letter. Mr. M. M. Stephens, Secretary of the Board of Trade, was instructed to furnish the other information desired by the Lumber Company's representative.

This also brought up the question of the supply of power to companies coming to locate here. The advantage of having electric power available at reasonable rates for the carrying on of industries was agreed to be a considerable inducement to outside capital to invest here in the establishment of industries.

The question of the Tsimpsan Power Company's position was discussed at some length. While it was agreed that the coming into the city of a corporation ready to instal speedily a power scheme would be an inducement to other industries to locate here, the members of the Board of Trade are by no means assured that the Tsimpsan Company is the only one. Mr. J. Kirkpatrick announced that he had a corporation, and which he believed to be a better concern for the city than the Tsimpsan. It had been principally a gas company, but he had himself induced its heads to go into the electric power business and aim at Prince Rupert.

The Tsimpsan Proposals

Some talk about the Tsimpsan Company's proposals in which these were criticised more or less resulted in the statement by Mr. L. W. Patmore that the proposals published in the local press for the perusal of the public were drafted in one day by Mr. R. Brutinel and that their intention was simply to form the basis of discussion and further negotiation on the part of the city with the Tsimpsan Company.

AD. WOLGAST BEAT MORAN IN THIRTEEN ROUNDS

After Terrific Battle the Game Little Englishman Was Counted Out for the First Time in Eleven Years Wolgast Showed Terrific Punching Power

(Canadian Press Despatch)
San Francisco, July 4.—For the first time during the eleven years he has been in the ring, Owen Moran, the game little lightweight English champion, was counted out today when he fought with Champion Ad Wolgast for the lightweight championship of the world.

Was a Fierce Contest
It was in the thirteenth round that the victory was won. The fight had been a hot one right from the start, with both men punching for all they were worth. It resolved itself into a contest of strength and capacity for punishment. It was anyone's fight in the early stages, but as the

contest progressed Wolgast began to show his strength.

A Clean Knock Out

At the thirteenth round Wolgast rushed Moran, dealing him two swift uppercuts to the stomach, followed by a left hook to the jaw. It was a clean knockout. Wringing and unconscious Moran lay on the boards, while Referee Welsh's arm tolled off the fatal ten seconds which secured the victory for Wolgast.

A Popular Victory

The victory of the American champion was a popular one, though Moran's plucky fight earned him much admiration. It was a clean and decisive victory, earned by the ragged strength and terrific punching power of Wolgast.

Everybody Invited

Rev. F. W. Kerr of the Presbyterian Church, will conduct services at the Salvation Army Citadel on Thursday evening. There will be some special music and singing.

WERE VERY FEW DEATHS ON INDEPENDENCE DAY

Campaign for a Sane Fourth of July Has Borne Fruit—Only Thirteen Deaths and Three Hundred Accidents Reported—The Best Result on Record

Washington, July 5.—The Fourth of July passed off this year with very few casualties. The nationwide campaign for a safe and sane celebration of Independence Day has borne fruit. This year showed the smallest number of deaths and accidents ever recorded.

According to figures compiled at a late hour this morning at the Government headquarters, thirteen deaths only occurred. The number of those injured amounts to 294. This shows a remarkable falling off as compared with the figures for last year.

Among the deaths recorded, no less than five of them were caused by setting off giant fire-crackers. Great satisfaction is expressed by the press this morning at the result of the campaign.

Strawberry Festival
The Presbyterian Ladies' Aid will hold a Strawberry and Candy Festival, in the old Church Building on Thursday afternoon and evening, July 6th. Tea will be served.

PORCHER ISLAND TO BE SUMMER RESORT

Walter Warner Predicts a Great Future for Our Neighboring Island—Have Market Gardens, Sandy Beaches and Sea Bathing—Hampered by Government

Great things are expected from Goose Bay on the Naas River. Great things, too, may be expected from the Goose Bay on Porcher Island. Not in the same line though. In a much more popular line as a matter of fact. Goose Bay, Porcher Island, bids fair to become one fine day the summer resort of town weary Prince Rupert citizens.

Fine Sandy Beach

First of all Goose Bay, Porcher Island, is only some fourteen miles from this city. It is in fact, the nearest point on Porcher Island to Prince Rupert. Further, it represents the nearest stretch of

agricultural land to Prince Rupert. Already supplies of green stuff, vegetables, lettuce, radishes, etc., are being brought over and readily disposed of to Prince Rupert customers. And there is a beautiful sandy beach there ideal for picnics parties. Pleasurable sea bathing is possible from this beach for after the sun has warmed the sand the flowing tide absorbs the heat.

Fruit and Flowers

Gardens are flourishing on the pre-emptions here. There are apple trees just entering on their third year's growth and promising to bear this year and flowers in

bud and bloom. It has been proved by a settler of experience and training as a gardener and fruit grower, that market gardening can be carried on profitably on this part of Porcher Island. This settler's name is Walter Warner. He has been in this country since 1904, and knows the agricultural districts of Northern B. C. from the Bulkley Valley through the Kitsumkalum district, and right down to his present location on Porcher Island which he has the greatest faith in.

This Spring's Results

Commencing work on his garden (Continued on Last Page.)

MAY NOT RUN IN COMOX-ATLIN

Hon. Wm. Templeman Writes Liberal Association Advising Them of His Intention.

Hon. Wm. Templeman has addressed a cordial letter to the Liberal Associations of Comox-Atlin, notifying them that he does not wish to offer himself as a candidate at the next election, feeling that the seat should be offered to some one residing in the constituency, and offering his support to any candidate who might be nominated.

Strong efforts will be made to induce the popular Cabinet Minister to reconsider his decision.

A beautiful lot of various kinds of cut flowers came today from Victoria. Place your order at once if you would like some.—The Arctic Studio, Third Avenue.

PRINCETON IN FLAMES RESULT OF FIREWORKS

Sad Ending to Fourth of July Celebration in Missouri Town—Business Section is in Ashes and the Flames Have Now Seized the Residential District

Kansas City, Mo., July 5.—The town of Princeton is reported to be all on fire, with half of the town in ashes, as the result of a Fourth of July celebration. A special train carrying all the available fire fighting apparatus has been despatched from Trenton to aid the burning town.

Reports received here by telephone say that the flames have swept the business section, and are now spreading into the residential section. A firework display in honor of the Fourth, is said to have started the fire, which rapidly got beyond the control of the local fire fighters.

LOCAL MERCHANTS FORM PROTECTIVE ASSOCIATION

Idea is to Get Better Knowledge of People Asking For Credit and Assist to Make the Lot of the Retail Merchants an Easier and More Happy One

"It shall be the object of this association to assist merchants in getting better knowledge of people who ask for credit, making collections easier, and getting more uniform hours of business in the uniform lines of trade; and any other movements that will be mutually more profitable and pleasant."

This is the chief clause in the by-laws of the Prince Rupert Merchants' Association, a new organization that burst into actual being last night, when several retail merchants of the city met for the purpose of forming the association. The officers are: J. E. Merryfield, president; G. J. Frizell, vice president; J. J. Sloan, treasurer; George Tite and W. P.

Lynch, executive committee. Another important resolution carried states that different members of the association will report to the secretary those persons who are behind in their accounts and these persons will, in turn, be reported to all the merchants of the city.

Business men here contend they have been held up long enough by habitual "dead beats" and if a small debtors' court can't be established here, then this new way will be a protection to merchants.

The Rev. Mr. Kerr will conduct the services at the Salvation Army Citadel on Thursday night at 8.15. Special singing. Everybody cordially invited.

His advertisement on another page is worth careful perusal.

COUNCIL HOT SHOT**Mayor's Mistake**

"I believe the Mayor is making a mistake when he allows certain members of this council to get mixed up in certain acts which have taken place. It will militate against his and our influence in this city if we allow this to go on. Contracts have been let, licences granted, and other things that I could mention."—Alderman Newton.

Turned Down Brown

"There is a good deal of hard feeling in the city against the Licensing Commissioners for the way they are handling the licenses, especially about the way Austin Brown was turned down, and there is a lot of talk against the council for allowing it."—Alderman Douglas.

Only Two Valid Licences

"The best legal advice in the city says that only one hotel licence and one wholesale licence will exist in the city after July 16th unless the amendment goes through."—Alderman Kerr.

All for Poor Alex

"I believe this was done solely in order that a licence might be granted to the Savoy Hotel."—The Mayor.

Got no Gumption

"It does not look good to me. If these men haven't got the gumption to apply properly for their renewals they deserve to lose them. I would not support this for a minute. It is a trumped up scheme."—Alderman Clayton.

Make or Break

"I am in favor of seeing that every man who has put a dollar into business in Prince Rupert has a chance to get his money out of it."—Alderman Morrissey.

Hotel Men in Danger

"The hotel men are in danger. I never heard a whisper of their being in danger until it came out to have a handle made of the Prudhomme case to get in these

two bottle licences."—Alderman Newton.

In the Mayor's Room

"The Mayor called us into his room and told us that the other licences were all right. It was only Prudhomme and the two bottle licences."—Alderman Douglas to Alderman Morrissey.

Where was Peters?

"It's a funny thing that the city solicitor is absent from this meeting when he has been at every other one since he came to town. He must have known this was coming up and kept away to avoid giving his opinion."—Alderman Douglas.

Almighty Bowser

Alderman Newton—"Couldn't permits be issued to carry over the irregular licences?"

The Mayor—"There is no such system that I know of." Alderman Hilditch—"In the Bowser Act you can't issue no permits."

Alderman Douglas—"Oh, Bowser can do anything he likes."

The Mayor—"I'm not taking any chances on any permits."

Alderman Newton—"That means we have to gulp this thing whole bolus."

Newton's Great Big "D"

"We are not sacrificing the interests of holders of licences, but this matter is simply a frame-up to cover up methods to increase licences in this city. We are going on step by step until we shall have these damnable saloons in this city on the lines of the southern cities."—Alderman Newton.

Social Note

Mrs. George Eckerman left yesterday for a visit with relatives and friends in Tacoma. Her sister, Mrs. P. R. Harris, will return with her to Prince Rupert.

CONTINUED FROM PAGE 1

thropic motives towards Alex Prudhomme. Alderman Newton stood stubborn and unconvinced. He won support for himself too.

No Escape Possible

A very few moments after the trend things were taking became apparent an effort was made by Alderman Kirkpatrick to evade the issue by compelling an adjournment under the new procedure by-law at eleven p.m. This failed utterly because Alderman Hilditch instantly pointed out the fact that the council was in committee of the whole from which there is no such escape. There was a motion before the house. The thing had to be thrashed out. Alderman Hilditch and Alderman Douglas declared they did not care if it took till ten a.m. next morning. So they went to it hammer and tongs.

"Coward" and "Funk"

After listening to Alderman Newton's denunciation of the Licence Commissioners, Alderman Hilditch rising to their defence accused Alderman Newton of cowardly conduct in making his charges. Right on the dot Alderman Newton came back at him with the taunt that the charge of cowardice came rather poorly from a man who had thrown out a challenge and then faked it. Alderman Hilditch retorted by saying that Alderman Newton and Alderman Douglas had put their heads together to frame up that night's doings. He had seen them at it.

Three Aldermen Up

Next instant there were three aldermen up at once almost ready to come to blows, and all speaking at once, while Chairman Morrissey tried vainly to bring them to order.

"I never faked the challenge," yelled Alderman Hilditch.

"We didn't frame anything up at all," shouted Alderman Douglas.

"You did funk your challenge," sneered Alderman Newton. "You talk of cowardice, Pah!"

"Make good your cowardly charges or retract them," demanded Alderman Hilditch of his opponent.

"Discuss the question at issue, and after that, your charges," implored Chairman Morrissey through the tumult.

"I wouldn't challenge a man and then back down from it," exclaimed Alderman Douglas as a parting shot.

"Yours are weak charges made by a weak man," hissed Alderman Hilditch to Alderman Newton through the noise.

Clayton in the Scrap

With lulls more or less prolonged the battle raged on. Alderman Clayton got into the melee with untempered denunciation of the hotel men as bum business men if they could not make proper application for the renewal of their licences. "They deserve to lose them," said Alderman Clayton.

"Surely to heavens," he exclaimed, "these people know by this time how to apply for renewals legally. All the same," he added, "I do not for one moment think that the law will stand for these men losing their licences on a mere technicality."

Alderman Kerr was not so sure of this. His experience as a Licence Commissioner in Alberta was that the merest shade of a flaw in the legality of an application meant goodbye for ever to a liquor licence.

Amendment on Amendment

Although well after midnight, the councillors managed feebly to extricate themselves from the octopus grip of "Committee of the Whole" and contrived somehow to report "progress," there really was no progress at all. First a motion by Alderman Newton to reject the alteration in the by-law was amended by Alderman Hilditch in favor of accepting the alteration. An amendment of the amendment was made to postpone the question till next week. This Alderman Newton would have opposed out of existence if there had been any other

feasible plan for getting rid of the matter in dispute. There was none however, and the amendment to the amendment was carried. Alderman Hilditch and Alderman Smith voted for the carrying of the disputed by-law amendment. Against having the question discussed next Monday night were Alderman Clayton, Alderman Douglas, and Alderman Newton. When the entangled aldermen extricated themselves from committee of the whole a motion by Alderman Newton to have the matter hoisted for six months supported by Alderman Douglas and Alderman Clayton fell down, and the motion to have it up again next Monday night was carried. Aldermen Kirkpatrick, Morrissey, Hilditch, Kerr, Smith and the Mayor in favor. So Monday night should see still more discussion, and perhaps dispute.

LONDON, ENGLAND—The Clougher Syndicate, Grand Trunk Building, Trafalgar Square.

"The newspaper, with the law, should assume the accused innocent until proven guilty; should be the friend, not the enemy of the general public; the defender, not the invader of private life and the assailant of personal character. It should be, as it were, a keeper of the public conscience."—Henry Watterson.

DAILY EDITION.

WEDNESDAY, JULY 5

SEATTLE'S HYDRO-ELECTRIC EXPERIENCES

Owing to its geographical nearness, and the similarity of its civic problems, the city of Seattle has a good deal of interest for Prince Rupert. An article on the electric light and water plants of Seattle, by Commissioner L. B. Youngs in a recent issue of the Twentieth Century Magazine, has a very special interest for us at the present time. Mr. Youngs has been in charge of the water department for sixteen years, and of the electric light department for the past six years.

The water department at Seattle was taken over by the city from private parties in 1890, a sum of \$352,289 being paid for the old plant. Since then additions and improvements have been made till now the total investment exceeds \$8,500,000, the income being approximately \$800,000 at the present time.

The bonded debt of the department at the time of writing—in the fall of last year—was \$4,079,000, upon which an annual interest of \$204,000 is paid. Of the \$800,000 revenue, nearly \$500,000 was applied to meet the fixed charges and the cost of operation, the balance being applied to the redemption of outstanding warrants, and new construction.

The fixed rate for dwellings with modern conveniences is \$1.05 per month, the minimum charge for metered water being 50 cents per month. Over 20,000 meters are in use.

In constructing new mains in the business district an interesting policy is in force. It is assumed that a large main is a benefit to the property, so all mains up to 12 in. diameter are assessed against the property it serves. If the main is over 12 in. in diameter, the cost in excess of the cost of a 12 in. main is met by the water fund. The same policy is in force in the residential district, save that the limit of assessment against the property owners is the cost of an 8 in. main.

"We have been very fortunate in being able to secure and retain the confidence and support of the people for the water plant," says Mr. Youngs. "Every proposition to improve the plant has been carried by large majorities. I consider that our plant may fairly and justly be credited with thorough success, and any proposition to revert to the system of private ownership and management would not be listened to for a moment by the people of this city."

In regard to the Lighting Plant, the city was handicapped by the fact that two large electrical companies were in operation and had secured control of the electrical business in the city. Nevertheless, the city plant had had a successful history during its six years of operation. When the plant started, there was an instant drop in the rates for electric light from 20 to 50 per cent. That alone would have justified the civic venture. But at the reduced rates, Mr. Youngs has been able to bring the plant from a point where it made losses in its first years, to a position where its income provides for its operation, maintenance, fixed charges, depreciation, and also for a substantial yearly reduction on its outstanding debt.

The figures quoted show that the investment is \$2,018,000. In its first four months in 1905 there was a loss of \$18,876. For the year 1906 there was a deficit of \$11,025. In the next two years, the earnings paid off \$108,687 interest on bonds, \$84,737 for depreciation, and reduced the total deficit of the previous years to \$5815. In the year 1908 a surplus of \$26,533 was shown. In the following year it grew to \$99,459.

Both plants are of course, very large affairs. The street lighting circuit totals 685 miles; the commercial department lights in addition to 177 multiple arcs and 710 Nernst lamps, a total of 168,250 multiple incandescents. The waterpower is obtained from the Cedar River, a distance of 44 miles away, which supplies both water and light systems.

The heart of the whole matter is touched by Mr. Youngs at the conclusion of his article where he says: "My experience with these two plants convinces me that under proper management, such plants can be thoroughly successful, at any rate where there is a sufficient community to furnish the necessary patronage. I am constrained to add, however, that every city might not be as free as this has been from political interference and political influences."

WHO WILL BUILD THE STEEL BRIDGE

Question of Access to the City's Waterfront Crops Up in Council.

The question of access to the civic waterfront across Morse Creek came up in the council on Monday night. It was pointed out by Alderman Morrissey that originally the idea for the construction of the bridge was to have three parties to the work, viz., the city, the government, and the G. T. P. It was to be a costly steel bridge.

The Mayor said that he and Alderman Kirkpatrick had walked out that way recently, and believed access to the waterfront for the city might be had temporarily along the railway property, but Alderman Morrissey has his doubts about this. The committee will begin work pending the decision of the people on the assessment agreement.

WANTS \$25,000 FOR FIVE LOTS

Provincial Government Offers to Sell City a Site for City Hall at Market.

From the Deputy Minister of Lands a letter was read in council on Monday night stating the price asked by the government for Lots 1, 2, 3, 4, and 5, Block 15, Section 1, to be \$5000 per lot. This property is at Market Place, and the idea is that it is a suitable site for the City Hall. This letter has been filed, and meanwhile the Mayor has instructed the committee looking after City Hall sites to prepare their report for submission to the people with the forthcoming by-laws, etc.

If coal dust is piled on a piece of paper and then put in the fire it will burn without deadening the fire.

CAUGHT BY A ROCK SLIDE

Charlie Lager Laborer on Larsen's Cut Near the Cold Storage Plant Injured about the Head this Morning.

This morning a laborer named Charlie Lager was injured about the head by a fall of rock down the face of Larsen's Cut on the G. T. P. line near the Cold Storage Works. Lager was shovelling, and the fall of stones just missed burying him. His injuries were attended to at first by William Lake, book-keeper at Larsen's camp, and he was then brought along by George Newcombe in the launch Dixie to the wharf. He was able to walk up to Dr. Eggert's office where his head was dressed.

POLICE CHIEF AND CURTAINS

Recommends that Private Boxes in Restaurants be Abolished Entirely.

Chief Vickers has instituted a campaign against the "private boxes" in licensed premises in the city, and is even inclined to frown upon those in unlicensed restaurants. He regards them as undesirable, and thinks that if done away with the standard of the hotels in the city would be better maintained. As Chairman of the Police Commissioners May or Manson thinks this matter had better be dealt with by the city council with any recommendation from the commission.

Chief Vickers gave the city a good reputation for the month of June. Two serious crimes were mentioned in the report, the Homer Wood's case, and the case of the Chinamen, Dr. Law and Mah Hong. Otherwise the police report was a good one on the whole.

The police officers in the city

will have uniforms and helmets just like the pictures. Messrs. Sweder Bros. will do the uniforms at \$175 for the five. Chief Vickers will select helmets and capes at an extra price to be left to his judgment.

STRANGE TRAGEDY AT VANCOUVER

Charles Giser Fatally Shot by an Italian on Prior Street Last Night.

(Canadian Press Despatch) Vancouver, July 4.—Charles Giser was probably fatally shot by an Italian on Prior street last night following a quarrel the men had earlier in the day. Giser called at his assailant's house during the evening, and the Italian shot him down as he stood at the door. The bullet entered his left side below the heart.

The Italian is now under arrest and Giser is not expected to live.

= THE COSY CORNER =

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

HANDSOME STRIPED SUIT

An effective suit developed in cream serge, showing a black stripe and black satin, is illustrated in today's sketch, and is one of the pleasing summer models. The coat fits the figure closely about the hips and curves gracefully at the waist line. The skirt is designed on pleasing lines, and the hat matches the costume in color effect. Dark blue serge showing a white stripe would develop well in this model, with the bands of blue satin.

DOWN ON FASHION

Zion City Leader Dictates to the Ladies There

Love, politics, and hobble skirts are hopelessly entangled in the latest edicts of Wilbur Glenn Voliva, overseer at Zion City, the north shore community founded by the late John Alexander Dowie.

Voliva discovered that some of the young women of his faction are actually making love to young men in Zion who are opposing him. The overseer officially took the matter in hand and issued an order forbidding the young women of the church to associate with his enemies.

"If you want to wear hobble or harem skirts go live in a pond with toads and frogs, where you belong, you fools," writes the overseer. "The word of God calls for moderate dress and there is no reason why Christian women should follow the dictates of foolish old women over in Paris. People of today will wear anything, or practically nothing, just as Dame Fashion dictates."

GIRL FLEW MONOPLANE

Established Record for First Feminine Achievement

The first successful cross country monoplane flight ever made by a woman flying alone stands to the credit of Mrs. James B. Martin, wife of the Harvard aviator. In

an eighteen-minute flight the other day she flew over Waltham, Watertown, Waverly and Belmont. She performed her evolutions with the same speed and daring that have marked the flights of her husband and she made a perfect landing.

HOUSEHOLD HINTS

Every One a Winner. Try Them in Your Own Home

Matches can be made waterproof by dipping them in very hot melted paraffine.

Add a teaspoonful of soda to a gallon of water when rinsing lavender linens.

Try adding half a dozen raisins to a pot of coffee. The slight change in flavor is delicious.

A delicious sandwich is made of brown bread cut very thin, and spread with caviare.

Some housekeepers prefer a piece of ordinary screening to all else for cleaning a flat-iron.

A luxury in the shape of a hot water bag is the one which comes provided with a silk cover.

Before putting away a plush garment it is well to clean it by sponging it over with gasoline.

The chanteuse has invaded the kitchen and cookie cutters in the shape of roosters are available.

To remove a scar make an ointment of 40 grains of boric acid and one ounce of lanolin. Apply this daily.

When washing window panes or cupboard doors use a little whiting on the flannel instead of soap.

Sam Langford, the Boston negro heavyweight, knocked out Jack Fitzgerald, a Philadelphia "white hope," in the fifth round of a ten-round fight the other day.

In the class for Jumpers for teams of two, fifth place was won by Hon. C. Sifton's Elmhurst and Wasp, at the London Horse Show.

The new manager of Brandon, in the Western Canada League, is Joe Custer, who formerly caught for Seattle. Joe went to Rock Island last spring to backstop for Bill Carney.

To add to the triumphs of the coronation, King George VI of England scored a big turf victory when his three-year-old, Dorando, won the Bottisham Plate from a field of six. Dorando was favorite at 2 to 1.

Tom Flanagan and Jack Johnson, evidently intend handing the Dublin fight fans a jolt and the Bob Day match with the negro champion is to be staged. A card from Flanagan to Tim O'Rourke, says: "Have Bob Day ready when I cable for him. Get that stomach off him." Day is the amateur heavyweight champion of Canada, who lately turned professional.

Secretary Fred Thompson of the Toronto lacrosse club, has admitted that he communicated with Gordon Spring, asking the terms on which the latter would play for Toronto, but denied offering five thousand dollars or any such sum.

Coach Alf. Smith of the Capitals, has announced that he had practically closed with Clint Benedict to play goal for the balance of the season. Benedict is a member of the New Edinburgh Hockey team, champions of the Inter-Provincial Amateur Hockey Union, and challengers for the Allan cup. The Capitals have been after the youngster all the season. Jack Shea and Jack Ashfield, two of the fastest defence fielders that ever wore the Capital colors, have quit owing to friction with Smith.

ALD. MORRISSEY'S TRIP

He Goes East and Will be Absent Three Months

Alderman Morrissey will be absent from the city council from July 8th to October 25. He is going East to Prince Edward Island. The Mayor on behalf of the council in granting him leave of absence wished him a pleasant trip.

TWO KILLED AT STEWART

Dynamite Explosion at Bitter Creek Hurls One Body 200 ft. Thomas Fall and Fred Johnston Both Dead.

By the blowing out of a missed hole in the workings at Bitter Creek on Wednesday two miners, both Finlanders, were instantly killed. Their names were Thomas Fall, foreman, and Fred Johnston. Johnston's body was flung over 200 ft. across the river, and Fall's was thrown 40 ft. by the force of the explosion. No inquest was necessary, though the exact cause of the accident is not positively as only the two men were in the workings at the time.

A meeting of those interested in the forming of a Caledonian Society is called for Friday evening at 8 o'clock, July 7. All interested are kindly requested to attend. The place of meeting, Central Hotel.

PORCHER ISLAND SUMMER RESORT

Continued from page 1.

as late as May 4th this spring, Mr. Warner is able to market produce now in Rupert. This shows that his confidence in the conditions there is not misplaced. Near by his ranch is that of W. Sims whose garden he says is even more promising. The Government expert, Mr. Carpenter, though he visited Porcher Island unfortunately did not visit the Goose Bay district or his enthusiasm for Porcher Island might have been still more marked. "The ground more than repays labor applied with knowledge," says Mr. Warner. His own training in English gardens, and in the peach country at St. Catharines, Ontario, has been of great assistance to him. Pea vines grow to a height of from three to four feet on Porcher Island, and flowers of the kind usually believed to flourish only in California thrive hardly here too. The California poppies Mr. Warner raised last summer were perfect.

Pre-emptors' Difficulties
But the paths of Porcher Island are not all roses unfortunately, though if the Government were more liberal in its treatment of the settlers they believe things would be far better. For instance, there is the matter of the surveying of the lands. All the Government surveyors have done is to place four posts marking the corners of the boundaries. They have run no lines, and the result is that a settler may easily spend his labor developing across into a neighbor's land for which work there is no return in cash or kind. Mr. Warner has repeatedly approached the Government Agent and Mr. Manson in the endeavor to have something done about this but still Porcher "saddens at the long delay."

"Uninhabited Island"
On the southern side of Porcher Island there are large tracts of timber, including the valuable yellow cedar in sizes large enough for use in boat-building, etc. There are no settlers and pre-emptions on that side, and the Porcher Islanders are sorry to see that in some Eastern papers Porcher has been described as "an uninhabited island" because some seamen landed on the southern side and found no houses but only timber. The fact is that although splendid agricultural land exists in these parts of the Island there can be

Butler Building

no settlers there, for large tracts of it are tied up by timber limits granted by the Provincial Government. Land here has been sold for as little as a dollar an acre chiefly to speculators in the United States and the East who will wait until the toll of a few pre-emptors has raised the value of their lands and then sell at many dollars per acre thus reaping the advantage of the enterprise and energy of the few hardy men who stayed with the soil and made the "forest primeval" give way to the coming of the garden, orchard, dairy farm, and profitable poultry ranch. Already Mr. Walter Warner has found that he can rear and sell profitably chickens raised by the incubator process. There is abundance of room for them, and food on his pre-emption. With the advance of Prince Rupert, he looks for a great increase in the commercial position of Porcher Island.

HYDRO-ELECTRIC BY-LAW PROGRESS

Gets Through Committee of the Whole after a Rather Uneventful Discussion.

The Hydro-Electric By-law passed through committee of the whole quite pleasantly at last City Council before the scrap. Alderman Douglas was in the chair. He refused the honor at first saying he was a democrat, but took his seat all the same amid great applause. "You fellows are handing me a bunch," he remarked as he sat down. But he made a vigilant and efficient chairman all the same, and the committee over which he presided worked smoothly.

The by-law provides for the raising of the sum of \$550,000 for the construction of the hydro-electric scheme, and will come up for its third reading next Monday.

CONTRACT AWARDED

Handasyde & Hurt Will Supply Sewer Pipe

Messrs. Handasyde & Hurt get the contract for a small quantity of sewer pipe required by the city. Its cost is \$2600 according to their price. Other bidders were the Prince Rupert Hardware Co. \$2930, and the Kaien Hardware Co. \$2862.80. This matter was embodied in a report by the City Engineer to the council on Monday night.

CITY'S OWN SNIFF YACHT

Temporarily the city garbage scow will be moored at the Davis wharf. The nuisance caused by the dumping of garbage through a trap door on the G. T. P. wharf has got too bad for the long-suffering company and the civic sniff yacht is on the tide ready for action. The question was asked for how long shall the Davis wharf be used? and Alderman Kirkpatrick suggested that Mr. Davis should be roped in for it for a year before he gets a chance to smell the scow for a month. The matter remains to be settled by the committee.

Malicious and Cruel

Some malicious brute deliberately cut one of Lynch Bros.' horses about the face and jaw yesterday, presumably with a knife.

It is believed that the horse was injured by somebody who wished to spite Lynch Bros. The mischief was done during the absence of the driver. The police are making inquiries about the incident.

BLAMED IT ON THE STORE EGGS

Deck Hands Wrecked the Steamer Kingston in Temper over the Hen Fruit.

(Canadian Press Despatch)
Kingston, Ont., July 5.—Because they were not served with new laid eggs for breakfast, the deck hands on the R. and O. steamer Kingston ran amuck, and badly wrecked the vessel. They have all been arrested here on a charge of malicious destruction.

HEAT IN MISSOURI
Miss Ethel McCumber is Glad to Get Back North Again

Miss Ethel McCumber, well known in Prince Rupert as a business woman and owner of several parcels of real estate, left on the train today for Hazelton where she has a real estate and mining brokers' office. She has just returned from a vacation outside, having visited her old home at Kansas City, Mo. She states that when there twelve days ago the heat was something terrific, being as high as 101 in the shade. The newspapers had accounts every day of deaths and prostrations from the extreme heat.

"WAPPY" IS GUILTY
Former Seattle Police Chief is Found Guilty of Accepting a Bribe.

(Canadian Press Despatch)
Seattle, Former Chief of Police Wapenstein was found guilty last night of accepting a bribe of \$1,000 in connection with the operation of the crib houses. The jury were out for seven hours before reaching a verdict.

MONTREAL WILL WELCOME CANADA'S PREMIER

River St. Lawrence Will be Illuminated and the City Decorated When Sir Wilfrid Steps From his Yacht on Monday Evening—Great Plans Arranged

(Canadian Press Despatch)

Montreal, July 5.—Plans for a great reception in honor of Sir Wilfrid Laurier's return are in progress. When the Premier steps from his ship on Monday he will behold the greatest demonstration that has ever been tendered to any Prime Minister of Canada.

The plans arranged for so far include the illumination of the St. Lawrence and River and St. Helen's Island. Jacques Cartier Square and Champs de Mars and several other of the principal streets of the city along which Sir Wilfrid will pass will be gaily decorated with flags and flowers. An address will be read to him welcoming his return, and expressing Canada's gratitude for his past services.

Sir Wilfrid is due to arrive at about eleven in the evening, when the crowds will be able to attend. He will journey up the St. Lawrence to Montreal on a private yacht.

ODDFELLOWS CELEBRATED WITH MUSIC AND BANQUET

Held an Interesting "At Home" for Their Lady Friends Last Night—Lodge Has Had Phenomenal Growth During the Year—Dr. Cade is New N. G.

From a membership of five to fifty-one is the remarkable growth the I. O. O. F. Lodge No. 63, of Prince Rupert, has undergone since it was formed nine months ago. To celebrate this event and also the installation of officers for the coming term the members of the local lodge were at Home last night to their friends after the installation of officers.

It was a happy gathering. Bro. Rev. W. H. McLeod was chairman of the evening and did splendidly. The programme of music was contributed by Misses Mabel and Ethel Gray, Miss Grant, Mrs. Johnstone, Miss Wright of the Salvation Army, Mrs. Hoy, Messrs. J. Russell Fletcher, George Shaw, and speeches by Brothers G. R. Naden, C. V. Bennett, Alderman Douglas, Allison and others.

Dr. J. P. Cade is the new Noble Grand for the coming term. Brother G. S. Johnstone the retiring Noble Grand, came in for warm tributes from the speakers. He has made the local I. O. O. F. lodge what it now is and it is something to be proud of! In replying to congratulations Brother Ensign Johnstone said he wished for the new Noble Grand as good a band of officers to support him as he, the retiring Noble Grand enjoyed.

Brother C. V. Bennett humorously remarked that when Brother Dr. Cade came to diagnose the case of Lodge No. 63 the only thing he would find the matter with it would be an acute attack of growing pains.

A number of the transfer men and horse owners of the city in a petition headed by J. G. Weston asked the council on Monday to attend to the condition of certain important streets and street junctions being graded which the contractors are keeping in a rough and uneven state dangerous to horses. The fact that in relaying planks contractors are leaving the spikes sticking up was especially mentioned. Referred to streets committee.

HARD ON HORSES
A number of the transfer men and horse owners of the city in a petition headed by J. G. Weston asked the council on Monday to attend to the condition of certain important streets and street junctions being graded which the contractors are keeping in a rough and uneven state dangerous to horses. The fact that in relaying planks contractors are leaving the spikes sticking up was especially mentioned. Referred to streets committee.

HELD DANCE ON FOURTH OF JULY

"Old Glory" Radiantly Adorned Young America in B. C. at Pretty Assembly Last Night.

The Fourth of July, America's Great Day, was observed loyally by many Americans and Canadians of American origin, in Prince Rupert yesterday. Pretty homes, pretty girls fluttered the Stars and Stripes gaily. Roguish red bloods amongst the youngsters bombarded the city harmlessly with fire-crackers, and all having any associations across the line experienced the holiday spirit.

In the evening under the auspices of the Young People's Dancing Club a very successful Fourth of July dance was held at the Auditorium. Gray's orchestra rendered the music, the floor was specially polished and in good condition and about fifty couples greatly enjoyed themselves together until 2 a.m. Everywhere the pretty silken favors fashioned daintily from the folds of "Old Glory" appeared, and the touch of the south in the music revived memories of "The Glorious Fourth."

C. D. Newton made the request to the city council that while the civic rock crusher is busy on Third avenue it might take some rock from lots of his near by. Referred to streets committee.

Resigned Managership
Mr. Thomas Dunn, who has been manager of the Prince Rupert Hardware and Supply Company for some time, has resigned to look after his private affairs.

Mr. L. C. Macken succeeds Mr. Dunn as manager for the company.

Police Station and Residence of E. A. Woods Win Dominion Day Prizes.

Award of the two prizes offered for the best decorated residence and public building in the city on Dominion Day was announced last night. The prize of Fifteen Dollars for the best decorated public building goes to the Police Station and Court Room which with flags and evergreens made a very effective show.

Ernest A. Woods, City Clerk, gets the Ten Dollar prize for the best decorated private residence. His pretty bungalow on Borden street was brilliant with the flags of England and of Canada. With excellent taste Mr. Woods who is nothing if not patriotic, emphasized the Union Jack on Coronation Day, and the Canadian National flag on Dominion Day in his decorative schemes.

The judges of the competition were Messrs. A. Ward, W. Nicolson Lailey, architect, and Morte H. Craig.
