RETAININC WALLS IN BUSINESS SECTION

City Council Grapples With a Serious Question Affecting the Street Work in Section One---Loose Stone Facing is Decided Upon.

The city council last evening grappled with the question of retaining walls which will have to be built in conjunction with the street work done in Section 1. When the subject was first introduced last year it was felt that a great many of property owners would undertake to build the retaining walls in front of their own property, getting the privilege thereby to take in a space of 10 feet under the sidewalk which could be used for basement purposes. The report of the engineer which was read last evening indicates that a good many had got the privilege of so doing but few had acted on it. The city was therefore up against the proposition of doing it.

The retaining walls in Section 1 are no small works. There are heights of about 30 feet to be attained in places. With this there is the necessity of getting a solid foundation below, which in some instances is a very heavy work.

Heavy Cost

The first report which was presented by the engineer to the streets committee represented an expenditureof $229,591 in Section 1, which was regarded as a prohibitive cost in view of the funds available. The committee at once requested a cheaper form of work and as a result of conferences about five different propositions were presented.

These varied in price from the original one of $229,581 to about $8,000. The character of the walls differed of course materially, the first named being a concrete structure built from bed rock in a manner to stand for all time. The cheapest character was a loose stone sloping surface, which the engineer felt was the cheapest kind that could be possibly used.

Yesterday afternoon the chairman of the streets committee called the members of the council together to meet the engineer and discuss these, feeling that each member should be thoroughly informed on the subject. The question with the council, as with the engineer, was purely one of cost. All were favorable to the original form of wall if the cost were not prohibitive. The decision of the majority of the council was in favor of the cheapest wall as the only one within reach.

Various Propositions

The propositions of the engineer, in brief, were as follows:

$229,581, which provided for a cement wall on bed rock, without surcharging and very substantially built to resist all pressure.

$88,865, which would provide for a surcharged retaining wall.

$69,822, being a modified form of the $88,865 scheme, made cheaper owing to the fact that large stones would be used, estimated by the engineer to constitute about half of the wall.

$40,000, a proposition providing for this work proposed from Lynch's to McBride only.

$8,000, and up if rubble walls were used. These would be substantial, but would not be of as good appearance as the other walls.

The streets committee reported in favor of the last proposition, that of the $8,000 and up, the cost varying according as the work was done under the charge of masons or not.

Ald. Hilditch Objects

Ald. Hilditch, however, differed from the committe in the matter. As soon as the subject was brought up he stated that he was opposed to the adoption of the report. It meant that a skeleton wall of about 18 inches was to be built. It was a wall that would fall in if it were not for the filling. It was not the fault of the engineer because he could not do better without funds. It reflected upon last year's council that did not provide for the work before undertaking it. It would be a disgrace in years to come. It would give endless trouble in years to come.

Ald. Pattullo wanted to know why Ald. Hilditch did not raise his voice las tyear as a member of the streets committee against this. He understood the engineer to say that it would render the streets perfectly

COST OF CULVERTS

Council Discusses the Question of How These Works Shall Be Paid For.

Subject of Large Working Force Being Employed, Comes up for Consideration

The method of assessing the cost of storm culverts and surface drains on the streets came up before the city council last evening. The subject was in troduced precipitately by Ald. Newton asking if he was correctly informed that the city engineer had 180 workmen in his employ in various parts of the city.

Ald. Hilditch, in explaining, said he had intended to bring this subject up later and did bring up the subject of the method of assessing the cost involved.

Ald. Hilditch in reply to Ald. Newton's question said that last Wednesday, he had found 129 men employed by the engineer independent of those employed in the electric lighting department.

Ald. Smith said about 20 were employed there.

Ald. Newton asked if there was sufficient work to warrant this.

Ald. Hilditch said last week there seemed to be too many employed. A new plan was being introduced which would, it was expected effect a saving of about 25 per cent. The men were employed for the most part on culverts.

System Employed

Ald. Kirkpatrick asked if this was being done under local improvement.

Ald. Hilditch said the work was being done. He did not know under what authority. It had been a surprise to him to find this work being carried out without any authority of the council so far as he knew. It would cost about $25,000 or $30,000, he thought.

Ald. Newton was glad to hear that Ald. Hilditch was taking care to see that the money was properly expended. He did not object to the employment ofthe labor if it were necessary and the work was being economically done.

Ald. Pattullo did not think the engineering department should be criticised. The work had to be taken up. It was paid for out of the general revenue but that would be a question to decide later how it should be paid for.

Ald. Hilditch said the engineer had no right to expend $1,000 without the authority of the council. He Ald. Hilditch never had heard of this authority being given.

Ald. Pattullo contended that there was authority for it and the engineer should explain.

Engineer Explains

The engineer being called upon, said he was instructed by last year's committee ot go ahead and carry out such works as were necessary in conjunction with the work. The by-law gave him authority to engage these men. The work had increased at a considerable rate lately. Three

THE NEXT GOVERNOR

Duke of Connaught Has Been Decided Upon for the Position.

He Will Reach Canada in September for a Two-Year's Term of Office

(Special to The Journal)

OTTAWA, Jan. 31.—Official announcement is made of the appointment of the Duke of Connaught as the next governor-general of Canada. A cablegram from the colonial secretary says the Duke will be here in September, that his term will be two years with no doubt the possibility of an extension of the time. The Duchess will accompany him.

His Expectations

The Duke of Connaught, speaking at a banquet at Guildhall, said yesterday it would shortly be his pride to be closely, and he hoped affectionately, connected with the Dominion of Canada.

AUDITING DEPARTMENT

Information Sought Looking to a Change in That End of City's Work

Some members of the city council, including Ald. Kirkpatrick, chairman of the finance committee, gave the information last evening that they would make inquiries as to the best methods of carrying on the auditing of the city.

It was suggested that some move might be made to have the audit kept up to date each month, instead of leaving it to the end of the year.

During the proceedings of the council Ald. Clayton asked how long the auditor was engaged and what it cost.

Ald. Pattullo said the auditor was far longer than was at first intended. It was originally expected that the work would cost $250. It was likely now, however, in view of the fact that longer time was taken it would be more costly.

INSPECTOR OF B. C. FISHERIES

Mr. F. H. Cunningham of Ottawa Likely to Get Appointment

F. H. Cunningham, Superintendent of Fish Culture for the Department of Fisheries, will be appointed Chief Dominion Inspector of Fisheries for British Columbia, with headquarters at Vancouver or New Westminster.

Owing to the special conditions which prevail in the west it is believed that the law can be better administered by placing on the coast an official with wider powers than those possessed by local fisheries inspectors.

J. T. Donaldson has put in a request through his solicitor that the city consider the question of remuneration on account of his having fallen from the sidewalk and sustained injuries. The claim is made that the sidewalk was unprotected.

ADDITIONAL GRANT TO HOSPITAL BUILDING

William Manson Has Secured a Further Sum of $2,500 From the Provincial Government Towards the Local Institution.

J. A. Kirkpatrick, president of the hospital board, received from Victoria today the gratifying news that a grant of $2,500 in addition to that already voted by the provincial government towards this institution, has been secured by William Manson, the member for this district. The welcome news was contained in a message to Mr. Kirkpatrick from Mr. Manson. The additional grant towards this building will very materially aid in the task which the board has of providing for the building.

The provincial government originally made a grant of $7,500 to this institution. Mr. Manson, knowing the local situation and realizing that there was necessity for a still further grant, was able to persuade the members of the government on that point and succeeded in getting a grant that is quite substantial to supplement the former one.

The annual meeting of the hospital association will be held in the court house this evening at 8 o'clock, when business connected with the institution will be transacted and arrangements will be made to carry on the affairs next year.

The grant made by the government, while of great assistance to the association, does not remove the need which the board has found for the fullest co-oeration of the citizens to make the institution one worthy of the city.

The grant of the government will be of decided advantage, but the board is open to receive further assistance to overcome the pressing demands.

THE DUNEDIN BLOCK

Council Decides to Take the Necessary Steps to Have It Torn Down

The Dunedin block again came up before the city council last evening when it was decided to take steps to have it torn down, charging the cost up against the owner.

A letter from C. V. Bennett the solicitor, was read before the council last evening when the opinion was given that while under the act, power was given to tear down the building and make a charge against the owners, it was doubtful whether a fine could be collected for allowing a condemned building to stand.

It was decided to have the acting mayor and the chairman of the streets committee go into the subject with the solicitor and take the steps necessary to have the demolition of the building carried out.

A RAY OF LIGHT

Ald. Newton Gets Information As to Electric Lighting Proposition

Ald. Newton cannot be charged with failing to seek information on various subjects and long sessions of the council ensue in consequence. Last evening he wished to know if any "ray of light" could be obtained as to when the electric light plant would be in operation.

The acting mayor, Ald. Smith said they were held up for some material which was ordered last November. It was expected on the next boat and as soon as it arrived it would be but a short time until the lights were going.

Ald. Clayton explained that the committee was busy new trying to ascertain where the trouble was. If anyone was culpable there would be quick action taken.

Ald. Smith did not believe anyone was to blame for the delay. It was the common difficulty met here of delaying for material.

Ald. Kerr asked if any rate of charges was fixed and received a negative answer.

Ald. Hilditch felt that the delay might be found to be due to those who furnished the material. He had felt that it would be wise to have an investigation as to delay, cost etc.

Ald. Pattullo said he had always thought it would take longer than some others thought to install this plant.

DEATH OF A. B. FRASER

Well-Known Business Man of Victoria Passes Away Suddenly

(Special to The Journal)

VICTORIA, Jan. 31.—A. B. Fraser, Sr., died on Sunday after a brief illness.

The deceased was the head of the large hardware firm with which his name was associated and was prominent among the business men of the city. He came to Victoria from the old country a number of years ago.

LIBERAL OFFICERS

At the annual meeting of the Liberal association of this city, the following officers were elected:

Hon. president, Sir Wilfrid Laurier; Hon. vice president, Hon. Wm. Templeman; president, A. J. Morris; firse vice president, Dr. Kergin; second vice president, G. R. Naden; secretary-treasurer, P. W. Anderson; executive committee—F. Stork, A. M. Manson, D. G. Dawson, W. P. Lynch, T. Trottier, T. D. Pattullo, F. Keeley, R. Stalker, C. V. Bennett, G. C. Emmerson, Geo. Frizzell, J. J. Sloan, T. Phillipson Martin O'Reilly.

EXPRESS APPROVAL

Moral and Social Reform Council Agree With Policy of Police Commissioners.

Resolution Passed in Favor of the Move Made by the New Board of Control

At a recent meeting of the Moral and Social Reform Council of this city, a resolution was passed expressing appreciation of the move made by the police commissioners, backed up by the city council, to rid the city of undesirables.

Copies of the resolution were sent to Mayor Manson, to the city council and to the police commissioners.

The resolution is as follows:

Prince Rupert, B. C.,
Jan. 20, 1911.

At a meeting of the Moral and Social Reform Council of Prince Rupert, B. C., held in this city this evening, the following resolution was moved by Rev. F. W. Kerr, seconded by Mr. T. J. Davidson, and unanimously carried:

Resolved, That we, the members of the Moral and Social Reform Council of Prince Rupert desire to place on record our most hearty appreciation of the recent declared determination of the police commissioners, together with the mayor and city council, to rid our city of undesirable characters connected with the social evil, gambling and illegal liquor selling, and that the secretary be instructed to forward a copy of this resolution to the mayor and city council and the police commissioners of Prince Rupert, B. C.

F. H. DU VERNET,
President
R. C. BEAN,
Secretary.

THE MARINE DEPOT

The Dominion Government Has Awarded Contract for About $200,000.

Concrete Piles Will Enter into the Wharf Work Which Is to Form Important Part

The awarding of the contract for the depot of the Marine Department for a sum approximating $200,000, indicates that the Dominion government is going to equip an important station at Casey cove.

"The work consists of the building of a large wharf set on patent ferro-concrete piles, dredging in front of the wharf, considerable paving, and the erection of workshops, power house, buoy shed and residence for the staff."

The Dominion government is centering its marine work at Casey cove on Digby island ,which seems destined to become quite a populous settlement made up of government officials and those dependent upon them. The wireless station is close at hand, and the quarantine station will also be located within easy reach of the new depot which will make the Dominion government section of the ctiy quite a lively place.

The work to be done at the depot is to be of the most substantial character. Reinforced concrete piles are to be used in the construction of the wharf, making it practically everlasting.

The Pacific Coast Construction company, of Victoria, of which Thomas Stedham is the practical head, has secured the contract. Mr. Stedham has done considerable concrete contracting in Victoria since he

(Continued on Page Eight)

QUESTION OF PRIVILEGE

Ald. Pattullo and Ald. Newton Clash at the Council Board

On a question of privilege Ald. Pattullo last evening at the council meeting introduced the Empire's reference to the Industrial workers and their resolution condemning the members of the city council in the matter of the increased rate of wages.

It was charged by the Empire that he (Ald. Patullo) introduced the resolution he did to refer this to a committee, only to sidetrack it.

Ald. Pattullo said that Ald. Newton supported the resolution to refer this to a committee. On that ground he supported a motion to sidetrack the issue. He objected to the threat held out. It would be interesting to know if the editor-alderman spoke for the "Manson party" in this respect.

Ald. Newton explained that he was not there to "haggle." He had taken no part relative to the resolution. He denied that he spoke for any one but himself. As to the threat he felt that it was unfair of these men of the Industrial workers' association to take the stand they did in passing a condemnatory resolution after being received as they were in a considerate way by the board. It was very ill-advised on their part.

Ald. Pattullo said he felt he was entitled to an explanation.

Ald. Newton explained that he had given only tacit support to the motion. He would take occasion at the earliest opportunity to move in favor of granting the request of the Industrial workers. He did so because he wanted to see that citizen workmen were given a chance to earn a fair living.

TIDAL WAVE

(Special to The Journal)

MANILA, Jan. 31.—That at least fifty persons and possibly 300 perished through a tidal wave which overwhelmed the island on which the volcano of Taal is situated, is reported by a teacher who says villages along the western shore are inundated.

INSURGENTS BEATEN

Mexican Officials Report That Leader Talamantes Has Been Killed.

The Rebellion in Senora Has Been Stamped Out, It is Announced

(Special to The Journal)

DOUGLAS, Ariz., Jan. 31.—Mexican officials along the border have received government despatches denying reports of insurgent successes and declaring that the rebel forces in Senora principality have been annihilated and the leader Talamantes killed.

CANADIANS SUCCESS

McCurdy on His Biplane Almost Succeeds in Making Prssage to Cuba.

Failure of Engineer Robs Him of Honor When Only 10 Miles from Land

(Special to The Journal)

HAVANA, Cuba, Jan. 31.—Only the failure of his engines prevented McCurdy in his bi-plane completing the flight from Key West to Havana. He landed in water ten miles from here, and was picked up by a destroyer and brought to port, never having been wetted when his machine fell into the water.

McCurdy is a Canadian, the son of A. W. McCurdy of Victoria, B. C., and has achieved a wonderful success. A line of destroyers was provided to make sure that he should not lose his life in case of any failure, the bi-plane being provided also with floats.

Lionel Crippen is again in the city having returned from Port Simpson.

STAY OF EXECUTION

(Special to The Journal)

VICTORIA, Jan. 31.—C. F. Davie, counsel for Gunner Allen who shot Capt. Elliston at Work Point barracks, secured a stay of execution yesterday until March 15. Mr. Justice Gregory granted the application and an appeal in the Allen case will be brought before the Supreme Court of Canada at its session which starts the third Tuesday in February.

ORIENTAL QUESTION

The Outlook Deals With the Subject of Exclusion With Reasons For It.

The Inability to Intermix Must Remain As Argument Against Immigration

It has been very difficult for the people living on the Atlantic coast to properly understand the sentiment of the west with respect to the Oriental immigration question. The "Yellow Peril" was to the eastern mind, the product of an unduly excited western imagination The east are assimilating the alien races of Europe, why should not the western part of America take up its share of the white man's burden and absorb the Asiatics? says the New Westminster Columbian. There was, too, the Christian conception that all men are brothers. These were the views of easterners who looked upon the westerner as exceedingly narrow-minded in his exclusion atitude.

The east is beginning to realize that there is some reason back of the permanent conviction of the westerners that this Pacific coast must be kept as a white man's country at a'l costs. What these reasons are, an editorial in the Outlook, the American magazine, with which Mr. Roosevelt is connected as associate editor, presents to the east, and it clearly and convincingly explains why Oriental immigration on an unlimited scale is perilous to American institutions, and what applies to the Pacific coast of the Republic applies equally to Canada.

The real or the fundamental reasons for the opposition by the people of this section of the continent to admitting the Orientals is not found in social or economic objections. Orientals are not barbarians, they are not more vicious than the uncultured peoples of Europe who are represented in the immigration to America, nor more ignorant. They are not more filthy, nor on the part of the Japanese, more given to forming a slum element than other immigrants. Their standards of living are admittedly low and they accept wages on which a white man cannot support his family. But while it is an important consideration, that the wages and standards of living of the workmen on the American continent must be protected, since, quoting an American writer, "the future of American democracy is the future of the American wage earner." The Outlook asserts that experience indicates that a limited Oriental immigration will not permanently depress wages, and that the Oriental soon learns to demand the current rate and to get it. The real reason is found in the firm conviction among westerners that Oriental immigration will have a baneful influence on the national development of the peoples of the Pacific coast and of America. The Oriental in America, it is believed, will always remain an alien element, unassimilated and unassimilable. Herbert Spencer is quoted as saying that if Chinese are allowed to settle extensively in America, they must either, if they remain unmixed, form a subjective race, standing in the position of a class approaching slaves, or if they mix, they must form a bad hybrid. Amplifying this thought the writer points out that the educated German, Scandinavian, or Italian, if not the educated Slav, becomes in the second or third generation an American; but the educated Oriental remains an Oriental. Education in the case of the latter does not solve the problem. Lafcadio Hearn is quoted as saying that "as the Oriental thinks naturally to the left where we think to the right, the more you cultivate him, the more he will think in the opposite direction from you." And Kipling's lines point in the same direction: "Oh, East is East and West is West, and never the twain shall meet."

It is better that they should not meet concludes this article. It is not that the Chinese or Japanese are inferior races ;it is that they are different. No nation, it is pointed out, is large enough for two races. The Oriental and the Occidental should not attempt to keep house together, although there may be a few intermingling in international trade.

TO EXTEND PLANT

P. Burns & Co.'s Abattoir Will Be Greatly Enlarged—Reason of High Beef Prices

A $200,000 extension of the experimental meat packing plant, which Messrs. P. Burns & Co. have been operating at the abattoir at the foot of Woodland Drive, in Vancouver, is to be built at once. Mr. P. Burns, the head of the firm, who reached Vancouver from the east, stated that work would be commenced immediately the materials could be gathered together. He expected that the new buildings would double the capacity of the plant.

Regarding the reported rise in meat prices, Mr. Burns said that he anticipated a very considerable increase in the cost of beef meat in the near future. While the cost of fodder and hay was just now abnormally high this was not the reason. It was purely a question of supply and demand. The suggestion that the severity of the winter in Alberta had anything to do with the matter was absurd, because the season had been one of the mildest experienced for many years.

In answer to the question, did he think it was feasible by any means to reduce the price of meat to the people, Mr. Burns said that if breeders took full advantage of the available lands of Canada and bred cattle, he believed that the supply could be brought nearer to the demand than at present; but it was a matter that wanted extended and careful treatment and he did not wish to say anything more on the subject at present.

THE BIG..... FURNITURE STORE

This Week we are Selling Lace Curtains

We carry everything to furnish your house, and have it in endless variety.

Another Stock to Dispose of

The FLEXMAN & BROWN Stock must be sold at once. Come and get your pick at the start. There is $6,085.97 worth of goods to choose from in this, made up as follows:

CARPETS AND LINOLEUMS	$1,307.00
FURNITURE	1,877.95
CROCKERY	422.84
BLANKETS	482.06
CURTAINS, ETC.	347.94
PICTURES, POLES, ETC.	848.48
ODDS AND ENDS	300.00

All must be sacrificed!

Take advantage of this Sale to make your home comfortable.

If you want a bargain in Lace Curtains, NOW IS THE TIME

LACE CURTAINS, at from, per pair	25c to $16.00
TAPESTRY CURTAINS, at from, per pair	$1.00 to $25.00
CHENILLE CURTAINS, at from, per pair	$4.00 to $10.00
LACE CURTAINS, worth $1.00, now	25c
TAPESTRY CURTAINS, worth $8.50, for	$4.00
LACE CURTAINS, worth $2.50, now	$1.25
LACE CURTAINS, worth $5.00, now	$2.50
TAPESTRY CURTAINS, worth $5.00, now	$2.50

ON TOURIST ROUTE

G.T.P. East of Prince Rupert Will Attract Pleasure Seekers.

Jasper Park with Mount Robson Will Rival All Other Sections

Jasper park, the magnificent new Dominion park in the Yellowhead Pass, in which is to be located the Banff of the Grand Trunk Pacific railway, and in which is located the highest peak in the Canadian Rockies, namely, Mount Robson, will be practically available to tourists the coming summer, owing to the fact that the Grand Trunk Pacific has been able to complete the steel of their line to Prairie creek, and will probably extend it on to the Athabasca river in the summer, says the Edmonton Capital.

Although it will be another year before the Grand Trunk Pacific will take steps to establish their hotels and resorts throughout the park, it will be a very easy matter for tourists to reach the park over the Grand Trunk Pacific line, since it is probable that a passenger service will be installed right through to the end of the steel next summer. Prairie creek is 35 miles from the point where the Grand Trunk Pacific crosses the Athabasca river, only a short distance from the eastern boundary of the Jasper Park.

The opening of tourist trade through Edmonton to this new resort of campers and mountain climbers will be marked the coming summer by the annual camp of the Alpine Club of Canada, which is to be held this year in the new park.

Development Work Commences

Active development work within the park in preparation for the throwing open to the public, will be commenced this spring by the Dominion Commissioner of Parks, Mr. Howard Douglas, of Edmonton, who is the most enthusiastic over the possibilities of the new park as a drawing card for an immense tourist trade. Mr. Douglas has made a personal study of the natural features of the park and is preparing to devote a great deal of his attention the coming year to its development.

Ever since the park was first set aside some years ago by the Dominion government, a number of fire rangers and game wardens have been maintained in the park. It is expected that this number will be increased within the next year, and that extra steps will be taken to protect the game and timber.

To Rival Banff

Banff, the Canadian Pacific railway resort in the National park, which has been the mecca for years of tourists from all over the world, has been said by those tourists to be the most beautiful spot in all the Rockies, in both the United States and Canada. If Banff has been the most beautiful point yet visited, the Jasper park in the Yellowhead will furnish some surprises when it comes to be opened to the touring public of the world. From those who have made personal inspection of its beauties, it is learned that Jasper park far exceeds that at Banff for magnificence of scenery. Towering far above the clouds on the western border of the park, is the majestic peak, Mount Robson, rising to a height of 13,700 feet, the highest peak in the Canadian Rockies. Only once has that peak been scaled, and to a Canadian, and a minister at that, has gone the honor of conquering the terrific heights of this ice-clad peak, which baffled the efforts of the best mountain climbers of England, guided by the most expert of Swiss guides. This Canadian minister, Rev. John Kinney, alone save for the company of his camp companion, Kinney, a year ago last summer, undertook to scale the peak, and after risking his life many times, and being nearly starved to death, succeeded, the climb to the top of the peak and his return to the bottom, occupying two days.

A Tourist Route

What the opening of the Jasper park to the public will mean to Edmonton in the way of tourist trade, it is impossible to estimate. When the Grand Trunk Pacific is completed to Prince Rupert, tourists will have an all-Canadian tourist route that will be hard to beat anywhere in the world. It will then be possible to take a train to Edmonton through the Yellowhead to Prince Rupert, down the Pacific coast by steamer to Vancouver, and back eastward through the Banff park. In this way tourists will be given a glimpse of mountain scenery that will be equalled in few places in the universe, and all on Canadian territory.

LAND PURCHASE NOTICES

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that Nellie Biebig, of Vancouver, occupation married woman, intends to apply for permission to purchase the following described lands:— Commencing at a post planted about 2¼ miles southerly of mouth of Jas un River and 5 miles west; thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement, containing 640 acres, more or less.

CIVIC REFORM

Joseph Fels says to raise civic revenue by means of licenses is to fine men for doing something. The interpretation is good, and it can be extended to floor-space tax, income tax and poll tax.

The income tax which Edmonton collected for 1910 is the last income tax that will be collected in this city. The poll tax which was collected in 1909 was probably the last poll tax that will be collected in this city. The floor-space tax which Edmonton will collect in 1911 will probably be the last floor-space tax which the city will collect. The licenses exacted of real estate men, financial institutions of various kinds cigar stores, pool rooms, restaurants, etc., etc., will probably disappear at about the same time as the floor-space tax.

With the single exception of Vancouver, Edmonton places smaller taxes on industry, energy and enterprise than any other city in the Dominion of Canada, and Edmonton is tending more rapidly toward the place where all such fines will be abolished than any other city on the North American continent.—Edmonton Capital.

SHEDDING WHIGS

Interviewed in Winnipeg, Joseph Martin, member for East St. Pancras in the Imperial parliament, said:

"In my opinion Mr. Asquith is the poorest parliamentary leader imaginable except Mr. Balfour. Five-sixths of the present Liberal party consists of Radicals, and we are shedding whigs at every election. While Mr. Asquith remains leader, he is still further away from the Radical point of view than he is from Mr. Balfour."

Probably Mr. Martin had in view when he referred to "shedding whigs" the part he took in "shedding wigs" as used in the law courts of the province. Mr. Martin had no inconspicuous part in the movement against the use of wigs and anyone who has ever seen the member for St. Pancras in his wig could not wonder that he was opposed to their use.

ALASKA SALMON PACK

Output During Season Nearly a Million Cases

The annual output of the Alaska Packers' association places the pack at 971,116 cases and 4,083 barrels of salt salmon. The different varieties put up were: Sockeye, 39,960 cases; red, 662,718 cases; king, 17,895 cases; coho, 36,097 cases; pink, 157,607 cases; chums, 57,439 cases.

The two salmon hatcheries of the association have continued operations. During 1910, from the 45,228,000 red salmon eggs taken in 1909 at the Karluk salmon hatchery, 40,620,000 fry were liberated and 49,626,000 red salmon eggs were taken. From the 53,340,000 red salmon eggs taken at the Fortmann salmon hatchery in 1909, 50,725,000 fry were liberated and 34,920,000 red salmon eggs were taken in 1910.

In Alaska the government continued operating large salmon hatcheries on McDonald lake and at Litnik, Afognak island.

ACTIVE YEAR AHEAD

Manager of Large Lumber Concern Having Interests Here Predicts Prosperous Year

The lumbermen on the prairies are anticipating the busiest season in history next summer, Mr. R. L. Scott, the manager of D. E. Sprague & Co., who reached Vancouver recently, said there is a very large amount of building planned in Winnipeg this year, the predominant portion being small houses. He said that 1910 was a good year, but it was anticipated that 1911 would exceed it in the volume of trade by 50 per cent. Mr. Sprague, the head of Mr. Scott's firm, has very extensive lumber interests in British Columbia. He has 500 miles in the Fort George district, 40 miles near Cranbrook and some more on one of the inlets adjacent to Vancouver.

Mr. Scott is in the city in connection with Mr. Fels' advocacy of the single tax. The Winnipeg lumberman said:

"I don't practice what I preach, but I am firmly convinced that Henry George's theory will be eventually adopted by the most civilized nations. Never has it compelled so much respect as it does today. In Great Britain, in Germany, in Oregon, measures involving some of the great political economist's ideas have already been introduced. The rest will come later, I believe." said Mr. Scott, "in the survival of the fittest and the equality of opportunity."

REQUESTS OF LABOR

Provincial Government Hears the Wishes of Workingmen of the Province Respecting Laws

The provincial executive has received a deputation from the British Columbia executive of the Trades and Labor Congress of Canada, which made the following requests:

1. A weekly payment in cash, and where an employee leaves employment or is discharged wages then due to be paid within twenty-four (24) hours.
2. Every laundry open to public patronage to be brought under the working of the "Factories Act."
3. Abolition of property qualifications for holding public office, and of election deposit and revenue tax.
4. Pensioning of all workers permanently disabled in the industries of the province.
5. The careful selection of coroners' jurors.
6. An eight-hour law on all government construction work.
7. A legal work day of eight hours for all men employed in and around smelters, stamp mills concentrators and rock crushers operating in the province.
8. Extension of free text books principle in all public schools.
9. Rigid enforcement of the "Factory Inspection Act," by the appointment of more inspectors.
10. Inspectors of mines to be chosen by the miners.
11. No assistance to be given to immigration.
12. Government ownership of Tranquille Sanitorium and the operation of the same as a free institution.
13. Separate schools for Orientals.
14. The strict enforcement of steam boiler inspection.
15. Amendment of the Municipal Act by making the examination and registration of plumbers compulsory.
16. The appointment of assistant inspectors to rigidly enforce the regulating cross arm distances spacing of wires, inspection of poles, etc., the installation of a telephone signal system in all underground workings; and the compulsory drilling, at least once a month, of every employee, in the method of artificial respiration or resuscitation from electric shock, by companies operating electric lines.
17. Government ownership of coal mines, telephones and all public utilities.

NARROW ESCAPE

KELOWNA—The folly of negotiating the snow-covered mountains alone has again been painfully emphasized. Charles Bailey has been brought into town more dead than alive, and with his feet badly frozen as the result of a fall whilst out trapping in the hills east of town.

The snow is very deep now on the higher slopes, and whilst making the round of his traps his snowshoe tripped in the buried underbrush, causing him to sprain his hip. This was Monday, and at the beginning of last week's cold snap. His recollections of the terrible experiences of the next few days are vague, and the awfulness of the situation, away up in the hills, with deep snow all around him, with the thermometer rapidly falling, and a cutting wind tearing through the snow-laden trees, painfully struggling on with an injured hip, may be better imagined than described.

Soon after the accident he fainted and lay all night where he fell, only to find his feet badly frozen upon regaining consciousness. Tuesday, with greater difficulty than ever, and the storm still blowing, he struggled on to a pre-emptor's shack, but it was empty and unoccupied. With a twenty-two mile tramp to the next place, many a less plucky fellow would have now given in ,but, spending the night in the empty shack, he continued his long tramp next morning, finally reaching Tom Leddy's place on the K. L. O. Here assistance was secured from town, and the unfortunate fellow placed under the doctor's care. He is pulling through all right, but with the loss of five toes.

LOCAL IMPROVEMENT NOTICE

TAKE NOTICE, that the Municipal Corporation of the City of Prince Rupert, intends to make the following local improvements:

The alteration of Grade of Second Avenue between the intersection of Third Street and McBride Street and the raising or lowering of the buildings effected by making the said alteration, and to assess the final cost thereof upon the property fronting or abmutting thereon, or to be benefited thereby, and that a statement and diagram showing the lands to be so specially assessed for the said improvement or work, is now filed in the office of the City Clerk, and is open for inspection between 10 a. m. and 4:30 p. m. daily.

The estimated cost of the work is $12,100.

Dated at Prince Rupert this 24th day of January, 1911.

WM. MAHLON DAVIS,
City Engineer.
ERNEST A. WOODS,
City Clerk.

Rooms, $3 Per Week

STATIONS ARE NAMED

Selections of Names for Stopping Points in First Hundred Miles of G.T.P.

Short Titles Are Given to Facilitate Matters Generally

A. E. McMaster, the local agent of the Grand Trunk Pacific, who has just returned from a trip to the east, has brought with him the list of names decided upon by his company for the stations 100 miles east of Prince Rupert.

Starting with this city, the names are as follows, with the approximate mileage from this terminus:

Prince Rupert	0.00
Sockeye	16.61
Tyee	21.28
Essington	26.49
Skeena	32.66
Phelan	37.61
Quintsa	46.41
Kosiks	52.62
Salvus	57.99
Hubert	62.14
Exstews	69.54
Shamos	75.31
Lakelse	82.80
Kitsum	88.36
Eddy	94.32
Copper River	100.29

as the work of the telegraph operators. Mr. Chamberplain and Mr. Hinton make a practice of submitting all new names to the telegraphic staff, and they in turn eliminate such appellations as do not lend themselves to distinct transmission over the telegraph wire. This accounts for the brevity of most of the station names given. Indian names have been preserved in the main.

Superintendent Phelan of the Yukon telegraph wire, and Contractor Salvus of the Grand Trunk system, have both been remembered and their names perpetuated in the list given above. Names like Kitsumkallum have, under the censorship, become Kitsam. The new names will in all probability be promulgated in a Grand Trunk official order in the near future.

UNIVERSITY LAND

Amending Bill Introduced to Extend Time for Selecting Endowment.

Minister of Education Has Measure Before the Provincial Legislature

The minister of education, Hon. Dr. Young, in moving the second reading of a bill to amend the University Endowment Act, 1907, explained that the object is to extend the time within which the government may make selection of the land which is to form the endowment of the proposed provincial university. The original limit of three years expired on April 25 last and it is proposed to extend this for three years longer, or to April 25, 1913. The reason for doing this, Dr. Young said was that since the act was first passed the development had been such as to prevent the department from carrying out its plans of selection to the full extent. The act also legalized what had been done during the past summer. Continuing, Dr. Young said:

"The selection is proceeding apace and it is hoped to proceed at greater speed in the near future. The selection will exceed half a million acres, enough to enable the government to proceed with the carrying out of the university scheme. It is my intention during the session to bring down further legislation, as soon as I get the data from the surveyors in the field, as to the immediate site for the university. I will then state what steps the government is taking in regard to the establishment of the university, but I can assure the House that everything is being done consistent with the proper development of the scheme, to give fruition to what the House has done in this matter."

Shipping Report

Point Grey—Raining; calm; barometer 29.68; temperature 39.

Cape Lazo—Overcast; wind northwest; barometer 29.55; temperature 35; sea moderate.

TO PREVENT PLAGUES

Prompted by the fact that the bubonic plague is raging in the Orient in startling proportions, the provincial board of health has renewed activity in combating this dreaded disease. All rules and customs which were enforced when the plague visited the United States will be put into practice in connection with al steamships which enter Canadian ports from China and Japan.

Every line with which a vessel is made fast to the dock must be guarded with tin plates and every steamship must keep six feet from the wharf to prevent rodents from leaping on shore. A man must also be stationed at every gangway leading from the ship to keep the rats from coming on shore. Steamships which fail to comply with these rules will be heavily fined, as the officials are determined not to let the plague get a foothold here. Inspectors have been appointed to see that the rules are enforced and every boat from the Orient will be inspected.

Severan instances can be cited in which it seems practically impossible to prevent some rodents from coming ashore one being that rats secrete themselves in freight packages and when it is landed make their escape.

THE COST OF CULVERTS

(Continued From Page One.)

months ago there were only about 11 men employed. Last week he had to employ as high as 150 men to do the work required in different parts of the city.

Later, when this point of the charging of the cost of these culverts came up, Ald. Pattullo expressed the opinion that it would be well to pay for it out of general revenue in the meantime, at least. Later, if it was found that it was a work to be charged up to local improvement the accounts could be transferred to the other account. In this connection he referred to the fact that this was done last year. When all the moneys were properly transferred from general revenue there would be a surplus of $25,000 in current revenue last year. If the G. T. P. taxation was settled on the lines proposed there would be another $25000 or $50,000 of a surplus.

Question of Surplus

Ald. Newton wanted to know if the $25,000 surplus reported included the appropriation of $17,000 for a city hall and $25,000 for taking over the telephones.

Ald. Pattullo said he did not favor appropriations with provision for a surplus. If these were taken out of the $25,000 there would be no surplus, it was true.

Ald. Newton objected to Ald. Pattullo taking credit for $25,000 when there was actually a deficit.

Ald. Pattullo exlained that if the G. T. P. taxation were taken into account there would be $125,000 of a surplus really.

Ald. Hilditch did not favor this taking money out of general revenue to be applied later under a local improvement scheme. It was contrary to the act and the council might find some time that the council would not votethe bylaw and then where would they be?

Ald. Morrissey thought the question of whether these culverts should be paid out of general revenue or by local improvement depended upon whether these works served the general good or were purely local in character.

Ald. Hilditch doubted whether it would not be necessary to pass a bylaw dealing with this.

The matter was finally allowed to drop.

Victoria, B. C., June 16th, 1910.
(First insertion July 5.)

NOTICE TO CONTRACTORS

Masset School

SEALED TENDERS, superscribed "Tender for Masset School," will be received by the Honourable the Minister of Public Works up to noon of Wednesday the 22d day of February, 1911, for the erection and completion of a large one-room school building at Masset, in the Queen Charlotte Islands, Skeena Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 28th day of January, 1911, at the offices of Mr. Charles Stewart, Secretary to the School Board, Masset, B. C.; the Mining Recorder, Jedway; and the Department of Public Works, Victoria.

Each proposal must be accompanied by accepted bank cheque or certifcate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works for the sum of $150, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.

Hints for Women

RENAISSANCE LACE

Ther is hardly any form of fancy work that is more fascinating than the making of Renaissance lace, and even the novice, can make a fairly good-looking piece if she is careful and likes the work. The difference between embroidery and lace is a radical one; embroidery presupposes a fabric, or something to act as a groundwork, while lace is a creation in itself with nothing to start from. Renaissance or Battenberg lace is a braid lace, very beautiful, and is always made over a design stamped on cambric; the lines of this design the braid is made to follow. Often the lace is made in a fine lawn centrepiece, and when done this way is really prettier than when made solidly of the lace braid and stitches. To do this the fine linen centre is basted over the plain centre of the cambric, and the braid is then basted over the lines or the bars of the pattern. The basting must be done with great care. Lay the braid on the pattern and sew it to the cambric with rather fine stitches through the centre of the braid. When this is all fastened to the cambric backing, the lace stitches are woven into the spaces between with linen thread, thus uniting the whole into one delicate fabric.

THE NEW HEAD DRESS

Parisian millinery also includes a variety of evening caps or headdresses, which, while they do not obviate the necessity for a quantity of hair, certainly hide the greater part of the coiffure. Some are mere hollow, upright bands, two or three inches in depth, covered with gold embroidery but without a crown. Others have soft silk or transparent crowns that cap the head softly. One such is of silver tulle with a band of gold and silver lace. At the left side, drooped over the hair, just behind the ear, is a big blush-rose. These hea ddresses are not reserved for the opera or theatre, be it understood, but are to be worn with dancing frocks as well, with which they are very coquettish. Some are like skull caps of gauze, studded all over with tiniest of baby roses. An occasional cap of this sort shows an aigrette or sparkling ornament at the side, tipped with diamond dust or with gold powder.

Let it be added, for the reassuring of bird-lovers, that the smallest possible percentage of the so-called aigrettes are the real thing. Rather they are skillfully contrived out of the stems of discarded feathers which otherwise would go to waste.

FOR LARGE SHOES

If shoes a trifle too large annoy one by slipping up and down at the heel, it may be remedied by pasting a piece of velvet at the back and a little way around each side. Another method, applicable only to low shoes, is to sew a piece of elastic across the back near the top and just a little to each side. The elastic should be stretched a little, and this will keep the heel from slipping.

NEW YEAR'S INFLUX

Ottawa authorities tell us that we may expect an addition to our numbers of half a million people in the next twelve months through the regular immigration channels, says the Montreal Star. Of this number, it is anticipated that 350,000 will come from Great Britain and the continent and 150,000 will find their way across the boundary line which separates us from the United States. To take to themselves 500,000 newcomers in the course of a year is something of a responsibility for a people who number between eight and eight and a half million. Assimilation, even under the most favorable conditions, requires a measureable amount of time and, though we have had no difficulty to speak of in connection with our national digestion in the past, that is no reason why we should not take pains to guard against the possibility of it in the future. There is no reason for believing that we cannot take care of half a million immigrants next year to the mutual advantage of both the immigrants and ourselves, but the character of the new-comers will go far toward determining the ease and rapidity with which it is possible to transform them into good Canadians and the method of their distribution will be a powerful factor in the process. Normally the great bulk of our immigrants will for many years to come, look to the western provinces as their Promised Land, but even among them, there will be many who are better adapted to the farming conditions of the eastern and central portions of the Dominion and who might with advantage be diverted to Nova Scotia, New Brunswick, Quebec and Ontario. With the rising of the tide of immigration there will inevitably come a corresponding increase in the difficulties which are to be adjusted and the dangers which ought to be avoided. If we shall ever need a wise and careful handling of immigration problems, it will be during the next few years.

—THE—
Oliver Typewriter
—FOR—
Seventeen Cents a Day

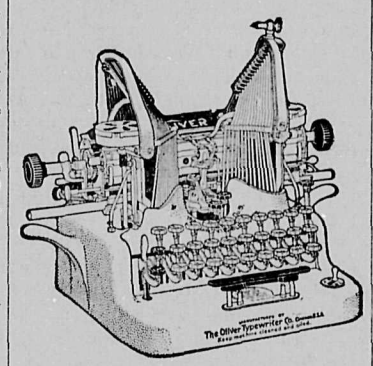
Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—yours for 17 cents a day!

The typewriter whose conquest of the commercial world is a matter of business history—yours for 17 cents a day!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard"—all

Yours For 17 Cents a Day



We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money With

The OLIVER Typewriter

The Standard Visible Writer

The Oliver Typewriter is a money-maker, right from the word "go!" So easy to run that beginners soon get in the "expert" class. Earn as you learn. Let the machine pay the 17 cents a day—and all above that is yours.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably above those of many classes of workers.

"An Oliver Typewriter in Every Home!"

That is our battle cry today. We have made the Oliver supreme in usefulness and absolutely indispensable in business. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An educator as well as a money maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a copy of the new Oliver catalog. Address:

SILVER CUP ORE

Excellent Showing Made By Trial Shipment Sent to Trail Smelter.

Over $40 a Ton Realized in Spite of Exceptional Expense

Nearly all the readers of The Journal are aware of the fact that the Silver Cup company recently made a shipment of a carload of its ore, weighing 28,932 pounds, to the Trail smelter, and not a few of them are keenly interested in the returns to be reported by the smelter, as the Silver Cup is essentially a Prince Rupert enterprise. Vernor W. Smith, the secretary of the company, has just received these returns and states that he has pleasure in giving them to the readers of The Journal. They are as follows:

1880.58 oz. silver at 54 5-8c per oz.	$ 975.90
9345 lbs. lead at 1.822 per 100 lbs., less 10 per cent	153.23
Total smelter values	$1,129.13

To this has to be added the government bounty on lead, say $70, bringing the total to $1,199.13. Also, it must be borne in mind that this was unpicked ore, the object being to obtain an average value of the ore, generally.

The smelter charges were $121.51 and the freight bill amounted to $178.65, leaving the nett balance of $898.97. This will give a nett profit of about $40 per ton.

One encouraging result of these returns is the promise of the Grand Trunk Pacific railway to build an eight-mile spur to the Silver Cup and adjacent mines, on the modest guarantee of but two carloads of ore regularly every day. This is to be completed as soon as possible and will make a difference in the cost of transportation from the mine to the railway of about $18 per ton, which, of course, will be that much more profit to the operating company.

From the recent sales of stock the Silver Cup is now in a good financial condition, having $13,000 cash in the treasury and 1,400,000 shares of stock. No more sales of stock will be made except in case funds are needed to push development work, and under these circumstances it is not likely that any more will be placed upon the market. The company is working a small gang of men, and this force will be added to as the season advances. But it is not proposed to make any more shipments under existing conditions, the force to be employed in getting out a large quantity of ore while the railway spur is under construction to ensure the regular shipments which are the guarantee of its construction.

RACING DOOMED

The doom of horse racing in California will be sounded within the next fortnight, according to leading Republican legislators, who declared today that the race track lobby has thrown up its hands in defeat.

The racing men are beseeching the lawmakers to permit oral betting to continue to the end of the present meet at Emeryville, and they pledge that in return they will make no fight to test the anti-betting law that is due to be passed.

"What's that noise?" asked the visitor in the apartment house.

"Probably some one in the dentist's apartment on the floor below getting a tooth out."

"But this seemed to come from the floor above."

"Ah! then it's probably the Popley baby getting a tooth in."

Local News

In reply to a question of Ald. Newton asto whether there was anything to report as to the G. T. P. assessment question the reply was given there was nothing.

A petition has been received from property owner on Second avenue asking for a five-foot sidewalk on the avenue from A. C. Little's to Seventh street. The streets committee will deal with it.

The engineering department of the city council has requested the appointment of an accountant. E. Flexman last evening made application for the position. The matter will be considered by the streets committee.

The hotel keepers of the city have petitioned the council for amendments to the liquor bylaw. It is asked that the hours be altered so as to allow an hour later selling. It is also asked to amend the section relating to licensing bartenders so that they shall be charged only $5 year instead of $10.

LOSS BY FIRE

Historic Building in Vickersville Falls Prey to Conflagration

A fire which wiped out what has been a distinguishing feature of Vickersville, occurred yesterday morning about half-pase seven. The building stood in the centre of the flat area of ground just off Cameron bay. It was not a valuable structure, but afforded accommodation to a considerable numberof roomers in addition tothe family who owned the premises. Mr. Haudenschild, the proprietor, is out of the city, but his wife and family occupied the main part of the building.

Fire Chmief McInnes has no doubt the firestarted inthe top storey in the room occupied by a colored man. The building was a frame one, which had been added to from time to time and from the character of its construction lent itself to being quickly consumed.

The fire department found the premises in flames when they reached the spot and were unable to do anything towards saving it.

The contents, belonging to the proprietor were, for the most part, removed.

Breaking out just at the time when many were getting astir, the sky was lit up in such a manner as to indicate that a much more serious fire was in progress, and a large crowd made its way to the scene. At first, from the heart of the city, it was feared that the electric light plant had fallen a victim to the flames.

The place was at once time run by "Red Ashcroft" and later was occupied by Mr. Nehring.

REGIMENT FOR CORONATION

Major Lydon Plans to Send Highland Cadets, Two Hundred Strong

If the plans of Major Lydon, commander of the Highland Cadet Battalion, materiaze, the regiment, two hundred strong, with pipe and bugle bands, will attend the coronation cermonies which are to be held in London next June.

Speaking of the project, Major Lydon said that if the permission of the Federal government for the battalion to leave the country is obtained, he believed it would be possible to raise sufficient money for the expenses of the trip by public subscription. Already several large sums have been promised by prominent Montrealers in the event of the trip being undertaken.

THE MARINE DEPOT

(Continued From Page One.)

arrived there a few years ago and was for a time engaged as a foreman of street work. He has had experience in the old country and in New Zealand also.

Interviewed in Victoria after being awarded the contract, Mr. Stedham said:

"We purpose starting at once, and hope to have the whole job completed by the end of the year. We shall give employment for most of that period to a staff of 150 men."

"I feel sure," said Mr. Stedham, "that the determining factor in our getting the contract from the Dominion government at Prince Rupert was our abilit yto furnish the patent ferro-concrete piles. They are similar to the famous Hennebique concrete piles which are used so extensively in Great Britain, Australia and New Zealand."

RETAINING WALLS IN BUSINESS SECTION

(Continued from Page One)

safe. It would not be as satisfactory for adjoining property.

Ald. Newton said he had been called upon in the afternoon to take into consideration a proposition that he had never had to consider before. He hesitated about adopting a report, in view of the views expressed by the chairman, Ald. Hilditch. He would like to see this laid over.

Question of Money

Ald. Pattulo said he personally favored the $228,000 scheme if the money could be obtained.

Ald. Hilditch pointed out that the whole of Section 1 was an area of local improvement. When turned over to the city it would have to be kept in repair. He did not want to see a proposition taken over that would be an endless bill of expense. It would be better to pay for this out of general revenue. He would favor the $88,000 scheme rather than the loose wall.

Ald. Morrissey pointed out that the carrying out of the $88,000 scheme would entail removing some parts of the fills now made. They might have to indemnify the contractors for delay. An engineer was engaged at a high price. The engineer made it quite clear that rip rap laid under the charge of masons would be satisfactory. It was felt that under the present condition of the finances that this would be advisable and future generations might take a share in the work.

Follow Engineer

Ald. Clayton felt that the permanent retaining walls would be the cheapest in the long run. It would cost too much, however. Railways built their lines along the principle of improving later on. He felt the engineer who was reputed to be a good one should be followed in the matter. He said it would be satisfactory.

Ald. Morrissey could not agree with the $40,000 proposition. As the representative of Section 1 he represented it all. To do only a part of the local improvement area —as the $40,000 proposition would do, might lead to complications.

The report carried on the following vote: For—Ald. Clayton, Ald. Kerr, Ald. Pattullo, Ald. Morrissey, Ald. Newton and Ald. Kirkpatrick; against—Ald. Hilditch.

Mr. Glass, a newspaper man of experience, has arrived in the city and intends to make his home here. He will devote his time to publicity work, doing a general advertising business.

Hoax—The amateur photographer is generally a pessimist.

Joax—How do you figure that out?

Hoax—He takes the worst view of everything.
