HAYSPORT NEARLY WIPED OUT BY FIRE

GERMANS ARE SAID TO BE RETIRING

THE ALLIES SEEM TO BE DRIVING A WEDGE INTO THE ENEMY.

The Evacuation of West Flanders Is Expected to Start Soon.

Paris, Dec. 12.—All along the front the Germans are showing signs of discomfort. The Allies' lines are being gradually pushed forward. Slowly but surely an unyielding wedge is being driven into the heart of the enemy.

The Belgian air is full of rumors about allied victories and German retirement. The opinion is general that the Allies will begin definite operations within a short time and that the passage across West Flanders will likely be swift. The enemy plans to make a great stand before Brussels in the course of a day or two.

SITUATION AT LODZ IS MYSTIFYING ONE

Correspondents Believe That Russian Retirement Is Dictated by Sound Strategic Motives.

The situation around Lodz proves rather mystifying to the Petrograd correspondents of the London newspapers, says a despatch of a few days ago. They are disinclined to admit the retirement is a definite Russian reverse and believe rather that the movement away from Lodz will be eventually shown to have been dictated by sound strategic motives.

All the despatches, moreover, emphasize the tremendous cost in men of the latest German operations "without any commensurate gains."

The Petrograd newspapers call their readers' attention to the fact that with the new year Russia will throw a huge army into this territory to hasten the decisive blow.

The Petrograd correspondent of the Daily News says: "It has been increasingly evident for several days that the process of an irregular siege in the region of Lodz and Lowicz was not helping the Russians towards the delivery of a decisive blow on the enemy. The handicaps of the rain and the incessant positional battles were calculated to detain a large Russian force in operation, which did not further the main purpose of annihilating the Germans or driving them back into Germany.

"It was evident that sound strategy had been served by deploying the Russian troops into a new position for a faster and more aggressive campaign. Immediate interest now centres south of Cracow, where the Germans are attempting to cross the Dounaets River on the Russian left flank."

The Post's Petrograd correspondent says: "All signs point to a regrouping of the hostile forces and the straightening out of the knots and tangles. Both sides probably need rest."

DECISION GIVEN FOR MRS. BURROWES

CIVIL ACTION WITH RESPECT TO INTEREST IN DEAL SETTLED.

Plaintiff Won in Supreme Court Action Concluded Yesterday Here.

In the Supreme Court yesterday Mr. Justice Clement gave his decision in the civil action of Burrowes vs. Harrison. He decided in favor of the plaintiff with costs.

The case was continued yesterday, when Samuel Harrison, the defendant in the action gave evidence. He contended that he had made the situation clear to Mr. and Mrs. Burrowes when the subject was talked over. He contended that the money was to be devoted as it had been used as payment for shares in the company.

His Lordship decided that the case as made out by the plaintiff was the true situation. When it was promised that she should be let in on the "ground floor" he felt she should have had the share in the property represented as $400 was to $13,500, the original price paid.

Latest novelties in ladies' collars and fashionable neckwear— Wallace's. d12tf

CITY HYDRO ELECTRIC SYSTEM WORKING WELL

The Engineers Are Receiving Congratulations for Work They Have Done In Connection With Installation

The city's hydro-electric plant is now running in good shape. Reports from the system seem to indicate that the installation has been well done and all is in order. As a result the engineers are receiving congratulations on all sides for the manner in which the work has been carried out, following the provision being made for the money. The city engineer, W. McG. Mason, and the electrical engineer, T. Duncan, have worked most assiduously on the undertaking and have reason to be proud of the way in which the plant and system have been installed.

There will of necessity be some differences of opinion on points, but the lights under the new electrical installation are very steady and satisfactory. It is said that Mr. Duncan's installation as far as the light is concerned has been done below the original estimate and the efficiency increased by the doubling of the capacity.

This city now has a gravity system of water supply sufficient for all time it is anticipated. It has an electric plant that is able to take care of the needs of the city for some little time at least and which is not dependent upon steam power.

SUCCESSFUL BAZAAR WAS HELD YESTERDAY

Ladies' Aid of Methodist Church Cleared About $200 at the Function.

The bazaar held yesterday afternoon and evening in the K. of P. Hall was a decided success. A sum approaching $250 was taken in, but as there was some expense connected with it the profits will not amount to more than about $200.

The arrangements for the event were perfect and very attractive booths were fitted up and carried on a good business. In the evening a good musical programme was given.

SAYS VERDICT WAS RIDICULOUS ONE

MR. JUSTICE CLEMENT EXPRESSES OPINION ON STEALING CASE.

Argument in Connection With Money Will Be Heard on Monday.

The disposition of the money involved in the Harris case will be argued to on Monday morning before Mr. Justice Clement. The point was raised yesterday morning by A. M. Manson, acting for Daisy Lee who asked for the payment of the money into court pending a decision as to the taking of a civil action against the woman accused in the case, Lily Harris.

L. W. Patmore for the Harris woman reminded His Lordship that he had ordered the money to take another course.

His Lordship thereupon expressed his opinion as to the verdict. He said that he thought it was a ridiculous one.

After further discussion it was decided to allow the matter to stand until Monday when it will be argued to by the counsel concerned.

"Something different" in blouses and neckwear just received—Wallace's. d12tf

NEW BANK RESERVE SYSTEM'S BENEFIT

HOW THE ORDER WORKS THAT HAS BEEN PUT INTO EFFECT IN UNITED STATES.

Financier Tells of the Results and Thinks Panics Will Cease.

Panic, due to distrust of banks, has been relegated to the museum of antiquities by the new reserve banking system, in the opinion of C. S. Hamlin, governor of the Federal Reserve board, voiced in a speech before the New York Chamber of Commerce.

"The federal reserve system will relegate to its proper place, the museum of antiquities, the panic generated by distrust in our banking system leading to a struggle of self-preservation between banks and individuals, and ultimate hoarding by the people," Mr. Hamlin asserted. "Such hoarding usually follows hoarding by the banks and does not precede it. If hoarding by banks should cease, hoarding by individuals would never occur, and both, I believe, will be relegated to obscurity under the federal reserve system."

Mr. Hamlin did not think that all panics would be done away with of necessity by the new system.

"If in the future business expands unduly in the spirit of speculation, the day of reckoning will surely come in the future as it has in the past," he said. "Undue expansion will correct itself just as the air bubble will ultimately burst. I believe, however, that the federal reserve banking system will materially check undue expansion. It is a fact, however, that even under the federal reserve system the banks still have it in their power to permit, if not encourage, undue speculation; and if they do this the inevitable result—commercial stringency—must follow. When, however, the state banks and trust companies of the United States join in the federal reserve system, I hope in the near future even that possibility will be greatly minimized.

"Much speculation exists as to the authorship of the federal reserve act. I can say with confidence that no selfish interests assisted at its birth. I can fairly say that beyond those primarily responsible for its provisions—Mr. Glass and others of the House, Senator Owen and others of the Senate, and the secretary of the

(Continued on Page Four.)

HAYSPORT HAS SUFFERED FROM FIRE WITH ONE LIFE LOST

Outbreak At The Fishing Town Twenty-Three Miles From Here Started In Imperial Hotel---Cold Storage Buildings, School House And The Post Office Were Not Destroyed Up To Midnight---Strong Wind Added To The Trouble Of Fighting the Flames---May Yet Get Fire Under Control

Haysport, Dec. 12.—In a fire started in the Imperial Hotel at 9 p.m. tonight, Tony Barichievich, an employee of the Skeena River Fisheries Limited, was burned to death. The hotel has been a total loss as a result of the fire. Three buildings in close proximity and the Government telegraph office were also destroyed.

The postoffice and other buildings in the place were in great danger of destruction for a time. A strong north-easterly wind was blowing at the time which rendered it nearly impossible to check the flames and the place, without fire protection, was at the mercy of the flames. The whole town was in danger of destruction when fortunately the wind shifted.

Later Bulletins.

Haysport, Dec. 12.—(10:55 p.m.)—The fire is still raging. The man who was burned to death was a native of Austria.

Cold Storage Saved.

Haysport, Dec. 12.—(11 p.m.)—The schoolhouse, cold storage buildings and postoffice are still intact.

Haysport, which is situated on the line of the G.T.P., twenty-three and a half miles from here, has depended entirely upon the fishing industry. The Skeena River Syndicate under the charge of Harry Sheere operates the cold storage and have been shipping by way of the G.T.P. since its completion. Mr. Sheere was in the city a few days ago, leaving yesterday morning for home.

The cold storage plant is situated between the railway tracks and the river. The hotel and the remainder of the town for for the most part on the other side of the tracks. The hotel was quite a comfortable building, having about twenty rooms. From the scene of the fire word was received last night that the Government telegraph operator was driven out by the flames from his office and had to seek other quarters.

It is fortunate for the company that the cold storage plant was saved, thus permitting work to go on as usual it is expeteced.

HOW BANK OF ENGLAND BUILT UP GOLD RESERVE

Increase of $223,000,000 Since August 7 Makes Total of $361,000,000 on Hand.

The common explanation of the extraordinary increase of $223,000,000 in the Bank of England gold reserve since the 7th of August is that London has been calling in its loans from all the rest of the world. But this is by no means the fundamental explanation, according to the New York Post. To begin with, the figure of August 7 represented a decrease of $62,500,000 within a fortnight, and of $52,000,000 in a single week. The greater part of that loss reflected hoarding by private banks and individuals who had converted their bank notes into gold. That hoarded gold apparently came back to the bank within three weeks, when panic had subsided.

This was not all. Before the war begun, the Continent had been getting most of the gold which England received each week from the Transvaal. Since August 1, however, all of the newly-mined South African gold has been lodged with a branch of the Bank of England in Cape Colony. That production since the war broke out has amounted to something like $60,000,000.

These two causes would account for $122,000,000 out of the bank's total gain of $223,000,000 since August 7. As to the sum of sometning like $80,000,000 sent since August 1 by the United States to the Bank of England's branch in Canada, that undoubtedly represented recall of London capital invested in the United States—in the sense of not renewing certain large maturing

JURYMEN REMEMBERED SHERIFF SHIRLEY'S KINDNESS

Presentation of a Valuable Meerschaum Pipe Made to Him.

John Shirley, the sheriff of Atlin County, is rejoicing in the possession of a beautiful meerschaum pipe, a gift from the members of the petit jury that have been on duty at the Assizes for the past two weeks. The sheriff has a reputation for being obliging. It is his nature to be so, and the members of the jury have every reason for knowing that he possesses this charactertistic.

When they were dismussed by the judge at the Assize sitting they waited upon the sheriff in his office and made the presentation. Needless to say, the popular official prizes the gift very highly—so highly that he hesitates about using it. He is retaining it for special occasions, only utilizing the older pipes for general use.

BRAVERY IS SHOWN.

London, Dec. 12.—Twenty-Victoria Crosses have been awarded since the outbreak of the war.

DENIES REPORT.

Irvin S. Cobb's report of Lord Kitchener has been met by the statement that "the remarks attributed to the Secretary of War are imaginary." So says the official denial of this piece of fiction from the Saturday Evening Post. No further comment is called for.

LIBERAL CRITICISM ANSWERED.

Sir Richard McBride has made a most effective reply to the criticism by the Richmond District Liberal Association of the administrative policy of his government with respect to the character of the food gift to the Empire from British Columbia, also the unemployment problem and the conditions of agricultural production, says the New Westminster Columbian. The premier abundantly justified the action of the government in selecting salmon as a food product distinctly characteristic of British Columbia, acceptable to the Imperial authorities who were offered the choice of salmon, potatoes or apples, and a gift of a substantial character with other provinces since it was of guaranteed quality, every care being taken to send forth a well-packed article. It was not, according to the later corrected reading of the Association's letter, "but fish from the Fraser River, largely the product of yellow labor," but the product of the salt waters of the British Columbia coast, a splendid quality of fish, "Pinks" were not available on the Fraser at that period of the year, but were canned under provincial fishery regulations which the government have enforced in the north with the special object of granting exceptional privileges to white fishermen.

Pinks costing $3.50 a case, as compared with sockeyes at $8 a case the premier also points out, have an equally good food value, but the excellent qualities of this grade of salmon are not so well known in England as of sockeyes. Since the gift is being used for the purposes of general relief in England, the opportunity was taken to not only furnish a grade that would provide a greater quantity for the money expended but a brand that would bring to the attention of the people of the Old Country a desirable food, thus enhancing the demand for a product which the northern canneries can so well supply. The 1913 salmon pack returns for the province show that of a total output of 192,887 cases of pinks, as compared with a sockeye pack of 972,178 cases, the Fraser River district produced 20,773 cases, and the Skeena River district 66,045 cases, and other northern districts the balance, or 106,066 cases of pink salmon.

BUY AT HOME.

If the men and women of Canada would buy Canadian-made goods exclusively, all Canadian workmen would be back at work. Charity begins at home, and this is both charity and good business, says the Conservation Bulletin, issued by the Commission on Conservation in Canada.

FEEDING THE EMPIRE.

"Canada," said the Hon. Robert Rogers recently, "is going to do her share in feeding the Empire." The Government's announcement that the acreage to be given to wheat in Manitoba, Alberta and Saskatchewan is 45 per cent. more than that of this year bears him out, says the New York Evening Post. Such figures must be based partly on fall preparations for spring planting; but there is no reason to believe them greatly exaggerated. In 1913 the three provinces named planted over 10,000,000 acres—nine-tenths of Canada's whole acreage, and about one-fifth of the American total. An increase bringing this up to about 15,000,000 acres, and the output in bushels to over 315,000,000 would be amazing in its suddenness. The Government, however, has made strenuous efforts to induce the settlers to enlarge their farms, and, with the railways, is even now distributing millions of bushels of seed; the current of immigration has been fairly steady; and the price of grain is now an extraordinary incitement.

CANADA'S POSITION ENVIABLE ONE

SIR GEORGE FOSTER IN OPTIMISTIC MOOD AS TO THE DOMINION.

The Natural Resources of the Country Makes Position Very Strong.

"I affirm that of all the countries in the world, Canada today occupies the best position," said Sir George Foster, "addressing the Toronto Board of Trade. "I say it for several reasons, which I will briefly give you. In the first place, we are contributing men and money to the war. But though we are doing that, we are absolutely at peace within our borders and there is no wastage on the field there is no wastage in the factory there is no wastage anywhere which makes it necessary that one single stroke less of work in the Dominion of Canada shall be done from this time henceforward than has been done in Canada.

"Canada is strong, too, because it is the country, the great country par excellence, where primary products and natural resources constitute the strength of her position and the great source of her wealth; $432,000,000 of products of Canada were exported last year. Think over what they were—of the field, of the forest, our agricultural products in the way of meats, dairy products, stock, everything of that kind; our mines, our timber, our fisheries—these are the great products that made up all but $44,000,000 of the $432,000,000 of exports. Do you not see the strength of Canada's position is that the vast proportion of what she has to sell is what she makes up on primary products and from her natural resources?.

The roar of cannon and carnage of war may run riot in old Europe, but in Canada not an echo of artillery not a shadow of the darkness of war, makes it essential or necessary or probable that Canada's natural resources of primary products will thereby be diminished during the coming year and the next year. In fact, if it is possible at all to feel satisfaction that war is going on—or, to put it better, some satisfaction whilst war is going on and despite it—it is that Canada will be called upon to fill the vacuum and repair the damages made by the waste and destruction of war; and her primary products in nearly all particulars will be greater in demand and higher in price than they have been during the past year. So I say that in this respect Canada occupies a favored position. In truth, to compare her with other countries, I come to the conclusion—and I believe it is a wise and proper conclusion—that today her position in this respect is better than that of any country outside of the region of the war."

Parsonage: 632 6th Ave. W.; Church: 6th Ave. and Musgrave Place. British Columbia Conference: Rev. J. F. Dimmick, Pastor.

Prince Rupert, B.C., April 9, 1914.

MR. HARRY HANSON,
"The Reliable Plumber," Prince Rupert, B.C.

Dear Sir,—I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty-gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this the wall radiator which you placed in dining room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel. I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Sincerely yours,
(Signed) (REV.) J. F. DIMMICK.

Rexall
REGISTERED TRADE MARK

The Rexall Stores of Canada

CONTRIBUTE TO

The Canadian Patriotic Fund

THE Rexall Stores of Canada, 400 of the leading Drug Stores in Canada have unanimously agreed to contribute to the Canadian Patriotic Fund, FIVE PER CENT. of their total purchases of all Rexall Toilet Goods, Rexall Remedies and other merchandise manufactured or sold by he United Drug Company, Limited, Toronto, from October 15th o December 31st, 1914.

This action of the Rexall Drug Stores of Canada has been undertaken co-operatively, because as a co-operative organization, they realize ow much more can be done unitedly than individually, and it has been taken for two reasons—to fulfill a humane duty in raising a fund for the relief work of the Canadian Patriotic Organization, and a patriotic duty in an endeavor to keep a large staff of Canadian employees busy.

The 400 Rexall Stores of Canada make an appeal to your sympathy and support in their doubly worthy cause for increasing the funds of th Canadian Patriotic Organization and for the support o Canadian workmen because:—The fund that would be raised on the basis of last year's business can be tremendously increased if every man and woman in Canada will help a little by the simple process of purchasing Rexall Goods at the Rexall Stores.

No need to give space in this announcement to emphasize the high quality of Rexall Toilet and Medicinal goods. Sufficient to say that 7,00 of the leading Drug Stores in Canada, Great Britain, and the United States place their personal and collective reputations behind them; that the public in these countries endorse them to the extent of several million dollars worth of purchases a year.

Better goods are not made, and you take no risk in buying, for every Rexall Store will return you your money if any Rexall Product is not entirely satisfactory and do it, too, without the slightest objection.

There's a full list of Rexall products waiting for you at the Rexall Store in your town.

Ask for it—kindly pass he word along to your friends. It is the collective purchases of all that will make this Rexall Store Fund for the Canadian Patriotic Organization work a big one.

The Fund will be collecte from each Rexall Store in Canada by the United Drug Company, Limited, Toronto, and will be paid by them direct to the officers of the Canadian Patriotic Organization, and the amount so collected will be published in this paper when paid over.

REXALL GOODS ARE MADE IN CANADA and you can procure them in your town only from

Resolution of Condolence.

At a meeting of the hospital board held on Friday a resolution of condolence with Mr. and Mrs. Len Bell was introduced by Dr. Clayton and carried unanimously. The meeting was the first held since the death of the infant child of Mr. and Mrs. Bell. Mr. Bell, who is a member of the board, thanked that body for its thoughtfulness at a time like that through which he and Mrs. Bell had passed.

Useful and economic gifts of many kinds—Wallace's. d12tf

Made Presentation.

A presentation of a set of silver spoons was made at the home of Bishop Du Vernet to Mr. and Mrs. Mellior on behalf of St. Andrew's congregation and choir. Canon Rix spoke for the congregation and W. E. Fisher for the choir, where the services of Mr. Mellior have been of such valuable character. W. E. Burritt, C. C. Purdy, Rev. W. E. Collison, and the Bishop, all referred to Mr. Mellior's long and faithful services as choirmaster.
