British Will Sink German Submarine When Sighted

Opportunities For Trade With Russia After War Ends

Considering the great population in Russia, somewhere in the neighborhood of 170,000,000, and the tremendous area of the country, about one-seventh of the earth's surface, it is not to be wondered that an examination of the imports of the country shows a wonderful market for manufactured goods of every description, says Kelly's Monthly Trade Review.

Manufacturers will find in the following list goods for which there is a good Russian market: Agricultural machinery, building materials, carriages, cast-iron, chemicals, coal, coke, cotton, textiles, cotton yarn, e'ectric dynamos and electric motors of all kinds, fertilizers, iron and steel, machinery, knitted and braided goods, leather goods, manufactured copper, motor cars and cycles, musical instruments, paints and dyes, paper and stationery, machinery parts and apparatus, physical appliances, pig-iron, silk manufactures, tallow and animal oils, tanning materials, timber, woollen manufactures, shoes and boots, hats, ties, scarfs, haberdashery, etc.

The match-making industry will probably develop considerably in Russia and there should be a market immediately after the war for match-making machinery.

There is a tremendous demand for beeswax in Russia. In spite of the fact that the total home production averages some 245,000 poods (equal to 8,847,638 pounds), valued at some £600,5000 per annum, imports of beeswax amount to some 8,000,000 pounds annually, more than half of which was hitherto imported from Germany. Owing to the number of churches there is a great demand for candles, which has increased during the war, and it is estimated that there will be a shortage of some 7,500,000 pounds in the coming year.

There is a movement on foot to develop the home production of beeswax, and it is proposed to include the study of apiculture in the schools.

STRAWBERRIES IN DANGER OF LOSS

SHORTAGE OF PICKERS AT TERRACE, IT IS SAID, MAY MEAN WASTE

Proposition Made That Organized Attempt May Be Made To Assist.

From Terrace come reports that the strawberry crop there may be cut down materially owing to the fact that there are not pickers there to take care of the crop that is ripening. Recent visitors to the valley state that as many as a thousand crates are liable to be left to rot on the ground if pickers are not obtained at once.

There is a proposal here to organize a band of boy scouts to go to Terrace and relieve the situation if this is the true condition that exists there.

STEAMER ALASKA ON NEW TRADE

THE VESSEL WILL VISIT ATLANTIC PORTS, GOING BY WAY OF PANAMA

The First Run From Seattle Will Be Made This Fall.

According to an announcement made for the Alaska Steamship Company, the steamer Alaska will be taken from the Alaska run this fall and placed on a new route from Seat-

CHARACTERISTICS OF SIR DOUGLAS HAIG

THE LEADER OF THE BRITISH ARMY IN THE FIELD IS CAPABLE

He Is Not The Dashing Kind, But An Arduous Worker.

What manner of man is this Sir Douglas Haig, who is leading Britain's new armies to such victories?

There has been little written about the new commander-in-chief of the British armies in France. No military leader is more averse to publicity than this quiet, self-possessed, determined and efficient Scotchman, the press correspondents at the front tell us, but all are agreed that he was the one most fitted by equipment, training and experience to succeed Sir John French. So at fifty-five he is directing a great host, and the Empire looks to this solid, studious, industrious and brainy man to lead the armies of a freedom-loving people to victory.

Sir Douglas Haig is first and foremost known as a good organizer. He is of the Kitchener type, and like Sir William Robertson, Chief of the General Staff, is not of the old style, dashing, magnetic leader type, but is the hard-working man with the capacity to keep a firm grasp on every part of the modern war-machine and cause it to work like a well-oiled piece of mechanism. One correspondent writes: "When anyone asked at the front who was the best to take Sir John French's place, the answer was almost invariably 'Haig.' He had not captured the army's imagination, but it sreason. The tribute was one to brains."

Here is something more personal as to the new commander-in-chief: "Like General Joffre," one writes "he sleeps long hours. A rested mind

(Continued on Page Two.)

ANCHORAGE WILL BE ON MAIN LINE

IT IS ANNOUNCED THAT ALASKAN RAILWAY WILL GO THROUGH THAT PLACE

Good News Conveyed In This For Those Interested In Town.

Abandonment of the proposed direct connection between the old Alaska Northern Railroad and the main line and the selection in its stead of the new route through Anchorage is the latest development in Alaska railroad work, according to William C Edes, Chairman of the Alaska Engineering Commission, who arrived in Seattle from Washington, D. C., says The Seattle Times. The new route will place Anchorage on the main line of the road instead of on a branch as formerly and will guarantee the development of that port as a Northern metropolis.

"Original plans for development around Anchorage," said Mr. Edes, "called for construction of the road north from Anchorage to Fairbanks with the Matanuska coal field branch and then for connecting the Alaska Northern with the main line at a point some distance north of the town. This virtually would place Anchorage on a branch of the trunk line from Seward to Fairbanks.

"The new plan calls for the construction of a forty-five-mile strip direct from Mile 75 to Anchorage and connection with the road north of that city. The new development plan will cause all end-to-end travel on the road to pass through Anchorage and will greatly increase the importance of that city."

The new forty-five-mile stretch, Mr. Edes explained, must be built through rock and will require nearly a year and a-half to complete. Work during part of the winter, however, he said, will be possible on this connecting link and it may be completed sooner.

"Besides construction on the forty-five-mile connection," said Edes at the Frye Hotel, "the chief work on the road during 1916 will be north from Anchorage into the Matanuska coal fields on the main line, and repairing the old Alaska Northern, which, while in a fair condition, includes a number of bridges unfitted to withstand heavy traffic. At the northern end of the road Commissioner Riggs will conduct work between Fairbanks and the Nenana coal fields."

97-Piece Dinner Sets, Glassware, Chamber Sets at Tite's Sweeping July Sale Prices.

Allied Attack On Western Front Is Methodically Planned

Paris, July 13.—The British have regained ground which they lost at Mametz Wood and have repulsed German attacks upon Contalmaison which the British captured on Tuesday. The presence of a great number of German dead in the region of Trones Wood is ample evidence of the great sacrifices made by the Germans during the strenuous ten days' fighting at this point.

Well Planned.

The Allied advance on the Somme front is considered to be of the nature of a steam-roller proceeding with mathematical exactness along the lines originally planned by Earl Kitchener and General Joffre.

German Gain.

The Germans have gained a little ground at Sainte Fine, but the gain was made at a tremendous sacrifice in men.

STEADY ADVANCE OF RUSSIAN FORCES ON EAST

Petrograd, July 13.—On the Caucasus and Riga fronts the Russians are engaging the enemy and are progressing steadily, capturing prisoners and quantities of munitions daily.

JAPANESE MILL TO BE ENLARGED

NIPPON FLOUR MILL IS GETTING READY FOR LARGER TRADE

War Has Had Beneficial Effect Upon The Business.

The Japan Mail says: "The Nippon Flour Mill Company, Ogibashi, Tokyo, is reported to have decided to enlarge its mills on the strength of the reports presented by the company's expert on the supply of wheat from overseas and the demand for flour both at home and abroad. Before the plan is to be realized, however, the company will augment its present capital from 1,550,000 yen to 3,100,000 yen by issuing new shares to the original shareholders.

The war, it is reported, has had a very beneficial effect on the flour trade and the company's receipts for the present term will, it is expected, far surpass the last figures."

ALLIES WILL SINK GERMAN SUBMARINE

DEUTSCHLAND, WHICH CROSSED ATLANTIC, WILL BE GIVEN NO QUARTER

Craft Came To The United States With A Convoy.

Washington, July 13.—The Allied nations learn that a neutral ship convoyed the German submarine Deutschland from Bremen across the Atlantic.

Britain, France, Russia, Italy and Japan declare that they cannot recognize submarine liners as trade vessels and are determined to sink the Deutschland upon discovery.

Nearly Three Million Pounds Of Fish Were Landed In June

During the month of June the landing of fish here represented 2,666,300 pounds. At the rate of five cents a pound all round, the value of the fish so landed was $133,315.

In point of quantity, halibut easily surpassed all the rest, representing 1 640,200 pounds for the month. Salmon came next, there having been 951,100 pounds landed.

Of the remainder, 73,000 pounds was cod and about a ton of crabs was also landed here.

MANITOBA'S NEW GOVERNOR MAY BE SIR JAMES AIKENS

Otttawa, July 13.—Sir James A. M. Aikens will probably be appointed Lieutenant-Governor of Manitoba in succession to Lieutenant-Governor Cameron. Sir James resigned his seat to run in the Conservative cause in the last provincial election.

TWO MORE GERMAN STEAMERS HAVE BEEN TAKEN

London, July 13.—Russian torpedo boats have captured the German steamers Lissabon and Worms in the Baltic. The Swedish captain and crew of the Worms have been detained and the remainder are being delivered at Skellaftea.

Iron Beds, Baby Cribs and Mattresses, all in the Big Sale Reduction at Tite's July Sale.

PRESIDENT WILSON HAS AUTHORIZED RECRUITING SERVICE

Washington, July 13.—President Wilson has authorized the immediate organization of a National Guard recruiting service, with the object of raising the strength by 160,000. This will permit of an army of 210,000 being placed along the Mexican border for protective purposes.

HENRY FORD MAY BE CANDIDATE FOR PROHIBITIONISTS

Chicago, July 13.—The Prohibitionist National Convention, which will meet at St. Paul on the 18, is expected to nominate Henry Ford as President.

GENERAL GOETHALS HAS RESIGNED GOVERNORSHIP OF CANAL ZONE

Washington, July 13.—President Wilson has accepted the resignation of General Goethals, Governor of the Panama Canal zone.

AIRSHIPS HAVE BEEN AT WORK OVER CALAIS CAMP

Berlin, July 13.—German areoplanes have bombed Allied military encampments at Calais.

FRIDAY, JULY 14, 1916.

A MINING BOOM.

The New York Commercial says that, practically unnoticed by the world in general, a mining "boom" has been in progress in British Columbia for more than a year. If by "boom" the Commercial means an era of marked activity in the sound development of mineral resources, it is correct. If it means a "boom" in the sense in which the word is generally used, it is wrong, says The Nelson News.

There is nothing of the "boom" about British Columbia mining at this time. It is very much to be desired that there should not be.

The "boomster," the man who tries to make money by mining the public, is the worst enemy of mining. There is no place in British Columbia for the wildcatter, for the man who would float a million dollar company on a valueless property. At the present time he is not apparent on the British Columbia mining horizon. If he appears he should be run out of the country.

The industry is undergoing legitimate development in a territory that has been proved to be worthy of it. Nothing more exciting is desired. Nothing of more permanent value to the country could occur.

CHARACTERISTICS.

(Continued from Page One.)

is a clear mind for great responsibilities. Like Von Hindenburg, he never reads fiction. When reading has not to do with his profession it is of serious books and monthlies and quarterlies. Even during the battle of Ypres, when it was touch and go with disaster, he slept as soundly as General Joffre during the battle of the Marne. At a crisis of the retreat from Mons, he remarked as quietly as if he were giving a direction to an aide: 'We shall have to hold on here for a while if we all die for it.' Again during the retreat when a certain general became somewhat demoralized, Sir Douglas took him by the arm and walked up and down with him in silence till he was over his fit of nerves on that terrible August day. Those who work with him know that his sign of anger is a prolonged silence of a telling kind. He has a temper but does not let it get past his lips, they say. He has, too, a keen sense of humor with a Scotch flavor."

In a recent interview he spoke of the task of training the new armies for their great work, and his words revealed a quiet determination to perfect a conquering machine and a firm purpose to achieve victory for freedom's cause. In this connection he said:

"With us the small nucleus of regular officers who survived the retreat had to train even larger forces to meet a military machine which had farty years of preparation. Not only man to man, but in organization must we make ourselves superior to our powerful enemy. The training of battalions and the manufacture of guns in England and their transfer to France represented only the first stage of real preparation for our task. Here they must be organized into divisions, corps and armies under the actual conditions of warfare before they could become worthily effective as a whole in any decisive effort against a foe whose staff training, reinforced by experience in the field, must remain excellent, however exhausted he becomes. Every day he grows weaker and we grow stronger. Owing to the indomitable spirit of our officers and men in learning we are accomplishing what seemed the impossible to many soldiers at the outset of the war. Our cause gives us strength; for we are fighting for civilization. Those who have looked to us for victory wil lhave their patience rewarded."

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior

STEAMER ALASKA.

(Continued from Page One.)

tle to New York by way of the Panama Canal.

The first sailing of the steamer will be from Seattle November 15, and she will make stops at all points of interest in the West Indies and at Panama.

The Alaska will have the distinction of being the first Seattle owned ship to invade the canal route on regular schedule. If the development of business justifies, the company will place a second passenger ship on the route, and also will add whatever freighters it can spare.

The route adopted by the company for the new service follows: From Seattle to the Panama Canal via San Francisco, San Pedro and San Diego, through the canal to the Atlantic, then to Kingston, Jamacia; from Kingston to Santiago, Cuba; thence to Havana and from Havana to Philadelphia. On the return voyage the ship will retrace her course. The company plans to allow its passengers to leave the liner at Santiago and travel by rail across Cuba to Havana, where they will rejoin the vessel.

On the return half of the first voyage the steamship will sail from Philadelphia December 15. On the second voyage she will leave Seattle January 15, and Philadelphia February 15.

Besides the ports already named, the Alaska will call at Panama and Colon. She will remain a day in each of her ports of call, thus giving her passengers ample time to go sightseeing ashore.

In the canal route the Alaska will receive only first class passengers and the number of these will be limited to 150.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Advertise In The Journal.

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-s.

WATER NOTICE

Use and Storage

TAKE NOTICE that Granby Consolidated Mining, Smelting & Power Co., Ltd., whose address is Anyox, B. C., will apply for a license to take and use 100,000 gals. per day, and to store 2,500,000 gals. of water out of West Branch of Hidden Creek, which flows southerly and drains into Granby Bay about one half mile west of Anyox.

The storage dam will be located about two and a half miles from the mouth of Hidden Creek. The capacity of the reservoir to be created is about 2,500,000 gals., and it will flood about two acres of land. The water will be diverted from the stream at a point about 450 feet south of north line of Maypole M.C. Lot 1676, and will be used for domestic and mining purposes upon the land and mine described as Hidden Creek Mine and Mine Townsite.

This notice was posted on the ground on the 15th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber,"
Prince Rupert, B. C..

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil for month of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.
