Montenegro Formally Surrendered To Enemy To Prevent Ruin

London, Jan. 18.—According to reports from Cettinje, the Capital of Montenegro, King Nicholas has issued a proclamation on behalf of his people declaring the surrender of the country to the enemy. This is necessary in order to prevent the complete ruin of the country.

The white flag was hoisted at Grahovo, where King Peter handed over his sword to General Herless.

Italy's Failure.

Never before in the long history of the little Montenegrin kingdom has it been compelled to bow to a foreign conqueror.

As in Serbia's case, the Entente press has found it inexplicable why Italian assistance was not sent long ago to Lovcen, which, it is said, could have been rendered impregnable with a comparatively small number of reinforcements and a few heavy guns. The reduction of Montenegro will enable Austria, not only to command the Adriatic, but also threaten the flank of any advance from Saloniki, and prevent any effective move by the Entente forces through Albania.

For Italy, the new Austrian success has a most serious aspect. The long, narrow Italian peninsula is peculiarly vulnerable to an attack from the sea. Any really great Austrian naval base in the magnificent harbor of Cattaro would have been impossible without Lovcen, but under the new circumstances Austrian possession of Cattaro is almost as great a menace to Italy as the conquest of Calais would have been to Britain.

DISCARDS ELECTRIC LIGHT FOR GASOLINE

New Jersey Town Returns To Old Style Street Illumination.

After having its streets lighted by electricity for ten years, Newton, N. J., has gone back to gasoline lamps. None of the natives seemed to know the reason, save that the contract with the company that supplied the current expired with the new year and was not renewed.

Some of the villages had their dinners early and came out into the streets to see the effect. They were startled when one by one they saw the lamps being lighted with remarkable rapidity.

It ws puzzling for a time, until an automobile came to a stop beneath one of the lamps. Its driver jumped off the seat, lighted it and moved rapidly to the next one.

London, Jan. 18.—An official report says, near Festubert we destroyed a large portion of the enemy's parapets, exploding a mine. The enemy suffered considerable from the mine explosion and from our artillery fire which followed.

Except for intermittent artillery activity the day has been quiet.

ARTILLERY ACTION.

Paris, Jan. 18.—An official statement says, between the Oise and the Aisne our batteries shattered the German trenches in the region of Moulinsous and Toutvent.

In Champagne and in Woevre our artillery has been active at various points along the enemy's front.

In Vosges the enemy's battery was damaged by the fire of our cannon.

There is nothing to report along the rest of the front beyond the usual cannonading.

CANADIAN'S CURTSY IN REPLY TO SALUTE

Unusual Incident Makes English Street Crowd Laugh.

I got this story from a friend who swore her friend saw the incident herself, so, of course, we must believe her, writes Margaret Kernon, Special Correspondent of the Toronto Daily News. It was Bond Street and the busiest time of a particularly busy tea hour.

She was in khaki with oodles of straps and brass buttons and such a helmet. She was as fat as a drum-major, and oh, she was proud of her array.

GREECE MAY BE FORCED INTO WAR

ALLIES SAID TO CONTEMPLATE OCCUPATION OF ATHENS

Interest Centred On The Greek Attitude For The Present.

London, Jan. 18.—The early occupation of Athens by the Entente troops and the entry of Greece into the war on the side of the Teutonic Allies, seemed a certainty today. It is estimated that Britain and France have 400,000 men in Greece. The Allies have formed a band of steel on three sides of Greece, while the fourth is held by a powerful Austro-German-Belgian force. Indications are that Greece is about to enter the war. The Entente Powers are prepared for her.

REPORTED ULTIMATUM.

Berlin, Jan. 18.—An ultimatum to the Greek Government has been presented by France and Britain. By it, Greece is required to deliver their passports to the Ministers of the Central Powers within 48 hours, failing which the Allies will take "necessary measures."

FLEET IS BUSY.

London, Jan. 18.—Four French cruisers have landed troops on the Greek Island of Corfu, while the inhabitants were asleep. Corfu was formerly used as a hostile submarine base. Reports from German sources say the Allies are landing troops at Piraeus and Plaleron, also at Orfano, fifty miles northwest of Saloniki. The town of Piraeus is the seaport of Athens, only about five miles from the Greek capital.

MAJOR HUNTINGDON IS BACK TO CITY

GRANBY IS FURNISHING ABOUT TWENTY-FIVE MEN FOR THE 102ND

Over Fifty Have Been Enlisted Here Already, He Says.

There returned from Anyox last evening, Major Huntingdon, who is in command of the Prince Rupert Company of the 102nd Battalion. He has been in the smelter town recruiting for the regiment that is being formed. He brought with him from that place, four men who are joining the colors, while there are a number more to follow. Sergt. Maitland, who went north with the Major, remained behind to complete the recruiting and will return in a few days. There will be about 25 men from Anyox, says the Major. The men he obtained there are magnificent ones. In some instances the recruits wanted to remain behind for a few days to wind up some business arrangements they had.

At the present time the 102nd is filling up well here. There are now over 50 recruits, and with those on the outside, that are to come in, there will be well on for 100 already enlisted.

On Thursday Major Huntingdon will leave for Prince George to make an inspection there, and to meet Col. Warden, the officer commanding the Battalion. The Col. is coming in from the south by way of Ashcroft. He will return to Prince Rupert, it is expected, with Major Huntingdon and make an inspection of the local company.

Uniforms are arriving for the men, and soon the local company will all be in their uniforms.

GRAND ICE CARNIVAL ARRANGED FOR TONIGHT

If The Weather Permits There Will Be Great Event At Rink.

The first ice carnival ever held in Prince Rupert is to be put on at the Rink at Government Place tonight. This is conditional upon the weather remaining cold enough to allow skating, which seems rather problematical.

It has been decided to have the evening start at 8 o'clock, instead of 9:30, as at first intended. The following is the programme of events open to competition:

1. Best fancy costume—Lady.
2. Best fancy costume—Gentleman.
3. Best comic costume—Lady.
4. Best comic costume—Gentleman.
5. Best lady skater.
6. Best gentleman skater.
7. Best fancy costume, girl under 15 years.
8. Best fancy costume, boy under 15 years.
9. Best comic costume, girl under 15 years.
10. Best comic costume, boy under 15 years.

Races.

11. 1 Mile handicap.
12. 1 Mile closed race.
13. Half Mile backwards.
14. Half Mile Ladies.
15. Half Mile lady and gent.
16. Obstacle race.

A great matched race will also be held.

A suitable list of prizes is being prepared.

Italian Forces Are In Ascendant At Different Points

Rome, Jan. 18.—An official report says, along the front from Stelvie to the sea, there has been great activity on the part of the enemy's artillery. This has been done in an attempt to hinder our reinforcements from coming up. Our artillery replied vigorously.

On the heights northwest of Gorizia, in a counter offensive which we decided upon, and which opened on the morning of January 15, the end was a complete success. Despite the enemy's resistance, supported by violent artillery fire, our troops recaptured all the trenches they had previously abandoned. Our original line is now completely re-established.

The enemy's aviators are flying over Isonzo. Everywhere they have been put to flight. Our anti-aircraft guns of our aviators bombarded Volna, where the Austrians were observed.

RUSSIAN FLEET TO BE INCREASED

Agent Of Russian Government Announces Addition Of Two Or Three Vessels.

The Russian Volunteer fleet, which has been operating two steamers between Puget Sound ports and Vladivostok will put two and perhaps three large vessels on this run to handle shipments of war munitions until navigation to Archangel reopens in the spring, says a Seattle despatch of Jan. 14. This announcement was made today by Colonel Vladimir de Golokhvastoff, Transportation Agent of the Russian Government, who has been here two weeks investigating shipping conditions. During the next three months large shipments of war supplies will be brought overland to Seattle, Tacoma and Vancouver for trans-shipment to Vladivostok. Colonel Golokhvastoff said that it might be necessary to charter additional ships to supplement the sailings of the Russian

Halibut Arriving In Quantity Again With Bright Outlook

Prince Rupert has been experiencing a few weeks of quiet conditions as far as the fishing business is concerned. That period is now about passed and from now on there may be expected to be a decided change in the situation. The halibut trade is again active and fish are coming into port in quantities that warrants the belief that the industry will be in full swing before many days are gone. The arrivals from the banks report that there are all kinds of boats now out, and before many days pass the arrivals in port may be similar to what they were last summer and fall.

Yesterday there reached port here the Summer an American boat, with 65,000 pounds of halibut on board. She had not sold last night, but will likely dispose of her catch this morning.

Two smaller trips were disposed of yesterday, although arriving the day before. These were the Nellie, with about 8,000 pounds, which was sold to H. O. Roberts, of the San Juan Company. The other was the Gilford, which had a smaller catch of 7,000. This went to Mr. Bernhoff, of the National Independent Company. The catches were shipped to Seattle to supply the demands there.

The Andrew Kelly which came in with 125,000 a day or two ago is now ready for the banks again, and leaves this morning early. She will have on board on this trip, Will Thompson, the halibut expert from Leland Stanford University, who is studying the habits and life history of the fish.

There is every prospect now that the halibut season is well upon the city. The Summer, which came in yesterday, brought fish that had been taken from the water only the day before she came in here. The fishing is now just a short distance out of the harbor, off Forrester Island.

RECRUITING FOR NORTHERN BRITISH COLUMBIA BATTALION

Raising Men In Vancouver For The 102nd—Veterans Joining Force.

A recruiting rally will be held by the 102nd Battalion, C.E.F., (Northern British Columbia) in the Dominion Hall, Pender Street, under the auspices of Col. Ogilvie, D.O.C., M.D., No. 11, and Brigadier Col. J. Duff-Stuart, says the News Advertiser, announcing a rally. A splendid programme has been arranged. The chair will be taken at 8 p.m. by Mr. George Black, Commissioner of the Yukon Territory. Rousing patriotic speeches will be given by Messrs. George Black, A. H. B. Macgowan, M. P. P., Charles Macdonald, Father O'Boyle, Sergt. Stafford and Lieut.-Col. Warden, commanding officer of the unit.

The musical programme will be well taken care of by Masdames P. G. Shallcross, F. Leeson and Mae

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

HALIBUT SEASON.

There is the prospect now, that the halibut fishing for the year is about to begin in full earnest. This season promises to surpass last year, as far as this port is concerned in a marked degree. It will be recalled that last year the season was well started before the concessions, sought and obtained here, were conceded. In the meantime the fish were going to Seattle, and it took some little time to get the fishermen induced to come in here. Eventually they did, but the fishing year was well on. This season this preparatory work does not need to be done. The fishermen are accustomed to come in to Prince Rupert, and the ground is not to be broken. It is believed, by those in touch with the trade, that the year will be one of wonderful results as far as the city is concerned.

MONTENEGRO'S FALL.

After a gallant fight the Kingdom of Montenegro has been forced to acknowledge itself defeated. The King has surrendered to the Hun army that has overrun the country. This action on the part of the small state that has been devastated and wasted, was absolutely necessary. The aid of the Allies came too late, and Montenegro was overrun before any blow was struck to check the onrush of the enemy. There must be general regret at the crushing of this brave people. There is the assured feeling, that later, the country will come into its own. When the Allies have won the day, it will be up to them to make sufficient demands to recompense Montenegro for his loss, and the humiliation of having been for once conquered.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

CANADIAN'S CURTSY

(Coninued from Page One.)

with his little plaid skirt swinging gaily and nearly covered by the handsome sporran. His cap was set at such an angle. His regiment was—well if you stand long enough at the corner of King and Yonge Streets, you will probably meet one of them. I do not say that he wasn't feeling a bit pompous and chesty himself. But picture the horror of it—the fat lady saw him coming, and drawing herself up as well as she could, she brought her plump hand up to her hat brim in a smart salute.

The Canadian gasped, but only for a moment. Quickly he seized the kilted skirt with one hand and holding it out daintly placed the tip of his finger under his chin and dropped a demure curtsy. And good old Bond Street rocked with laughter.

FRANCE'S FINANCES

(Continued from Page One.)

seen for France from the financial point of view. There was predicted the emission by the Bank of France of 20,000,000,000 francs in notes, unlimited advances by the bank to the State, a moratorium without end, indefinite postponement of liquidation on the Bourse, failure of confidence in great credit establishments, and a general fall in value of all securities. What are the facts? Treasury bonds have been issued to the sum of 8,800,000,000 francs, and bonds for national defence for 3,800,000,000. Advances by the bank to the State reached 7,400,000,000, and as soon as the 'Loan of Victory' was issued advances of the bank were reduced to 5,000,000,000. The note issue of the bank reached 3,300,000,000, but its gold stock has risen to 5,015,000,000. Meanwhile the moratorium has liquidated itself without any radical measures being taken.

"At the beginning of Oct., 1914, loans in the Bank of France amounted to 4,476,000,000 francs, but at the end of 1915 they amounted to on'y 1,834,000,000 francs. The Bourse closed July 31, 1914, not to re-open before the end of the war, yet it not only re-opened, but at the end of Sept., 1915, pre-war accounts were liquidated. The Bank of France offered to lend 250,000,000 francs for liquidation, but it was never called for. Members of the Bourse themselves subscribed 75,000,000 francs for liquidation, and that was all that was needed, and the market became once more free and open."

The new loan will be quoted on the Bourse beginning January 5.

RECRUITING

(Continued from Page One.)

George, together with Mr. Hamilton Earle. Miss Helen Badgley will render a recitation. The band of the 62nd Battalion, C.E.F., by kind permission of Lieut.-Col. Hulme, O.C. will be in attendance and render various selections.

The large Dominion Hall has been donated for the purpose by Prof. O'Brien.

Recruiting for this unit is progressing rapidly, and the work of construction of the battalion's camp at Comox is being rushed to completion.

One of the latest to join the 102nd is F. H. Windle, late corporal of the 10th, who returned from the front a few weeks ago after having been wounded and gassed in the engagement at Ypres last April. This makes still another of the boys back from the trenches who have joined forces with the new battalion. Corpl. Windle is now acting as recruiting sergeant for the Northern British Columbians.

Insure now with M. M. Stephens.

TENDERS FOR FREIGHTING OF SUPPLIES FOR THE YUKON TELEGRAPH LINE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Packing Supplies," will be received until 4 p.m., on Tuesday, March 7, 1916, for the packing of material and supplies for points along the Yukon telegraph line between Hazelton and Atlin, in the course of the season 1916, 1917 and 1918.

Forms of tender and specification may be obtained from Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnel, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Quality *vs.* Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.
