HOUSE TO AID THE CANADIAN NORTHERN AND G.T.P.

All Rebels In Dublin Have Surrendered To Authorities

German Officers Found Among Dead In Irish Trouble

Men From Beyond Telegraph Creek On Way To Enlist

Another Impersonator From Seattle Testified To Crookedness

Victoria, May 1.—L. Madden, a Seattle longshoreman, testified today in the Vancouver election inquiry. He corroborated the evidence given by J. J. Kelly at the previous sitting.

The Opposition members tried to shake Kelly's evidence but failed.

Madden stated he was given three cards to vote on, but only voted once and that time for Macdonald, the Liberal. He stated that about 150 men were brought to Vancouver from Seattle to vote.

Recrimination Made.

There was a good deal of recrimination passed across the floor of the House last week.

Mr. Brewster taunted the Government with having taken a spasm of virtue.

Premier Bowser retorted that the Liberals who looked upon themselves as apostles of the purity were really afraid to face an investigation in Vancouver.

Mr. Macdonald suggested that it might be found on enquiry into the "plugging" in Vancouver would reveal that it was something in the nature of a Conservative "plant."

Premier Bowser replied that the police court prosecution of Peter Annance, started by the Liberals was merely a red herring drawn across the trail, for the Peter Annance end of the affair was but the smallest portion of it. From information which he had regarding the corruption in the by-election, he had no confidence in the Liberals with regard to carrying out any thorough house-cleaning, and he proposed, therefore, that a committee of the Legislature should go into the whole situation in Vancouver from one end to the other.

QUARTER MILLION OF FISH LANDED

IN TWO DAYS OVER TWENTY BOATS CAME IN WITH HALIBUT

A New Company Has Opened Up Here In Buying Line.

In spite of the strike which has affected the supply of halibut being landed all along the coast there has been about a quarter of a million pounds of halibut landed in Prince Rupert during the past two days. This, at the abnormal price prevailing reaching 10 3-4 cents a pound in some instances, represented over $25,000.

The latest turn in events is the advent of a new buyer to the corps now here. The Goletas Fish Company, of Vancouver, which owns the cannery at Shustaitie has decided to go into the halibut buying here. Mr. Payson is here representing that company. He bought yesterday the catches of the Unity and the Nautilus, being 4,000 and 3,000 pounds respectively.

The waterfront on Sunday and yesterday was lined with fishing boats, waiting their turn to land their catches. As a result the fish dealers have been kept exceedingly busy.

The Eagle, with 26,000 pounds, and the Tacla, with 18,000, remained with their catches unsold last night. They will be taken care of this morning.

The Skugaid, of the Canadian Fish & Cold Storage fleet, brought in 30,000 pounds on Sunday.

The other boats in yesterday and Sunday with their catches were as follows:

Bought by Canadian Fish & Cold Storage—Cora, 8,000; Star, 15,000; Roald Amundsen, 17,000; Magnolia, 30,000; Valhalla, 10,000; Lillian S.,

COMPENSATION BILL ABLY OUTLINED

ERNEST MILLER IN LEGISLATURE DEALT AT LENGTH WITH MEASURE

He Showed How It Would Work To The Advantage Of Labor.

(Special Correspondence.)

Legislative Press Gallery, Victoria,—In one of the best speeches of the present Legislative session Mr. Ernest Miller, Grand Forks, ably outlined the history of the Workmen's Compensation legislation, and dealt with the chief provisions of the important compensation bill now before the House.

Mr. Miller said this bill had been conceived upon the idea that it was the duty of every Legislature to pass legislation which would be in the interests of the physical, intellectual and moral well-being of the people as a whole. In carrying out that duty no legislation brought before that House in the past had been so important as this.

It was well, before considering the nature of the bill, to recall what the present conditions were. There were evils affecting labor in existence, which would be remedied more or less by this Act. The existing law was based on the English common law, and was, therefore, bound to be defective and did not give the workman all the protection and compensation to which he was entitled. There were many things which the employer could seize upon for his defence, such as the doctrine of common employment (the act or negligence of a fellow-employee) and the matter of contributory negligence.

The adoption of the employers' liability act increased the chances of the workman recovering to some extent, but in its working out it had been found that workmen did not receive the compensation to which they were entitled, or that after they had been awarded it little was left after paying their costs.

To secure information upon the working out of compensation laws elsewhere, the Government had appointed a royal commission, but its powers were wide and covered many other matters affecting labor. A bill based on its finding was brought in and left before the House and the people over recess. In the interview the Government took the wise precaution of appointing another committee to go into the matter. Upon its recommendations many changes were made to improve the bill.

The basis principles of the bill were that the workman was entitled to compensation from the industry in which he was employed, and that he was entitled to it without cost or litigation. It would eliminate all questions as to who was to blame, and the elimination of all litigation would lead to better feelings between employers and employed. It would give to every workman and those dependent upon him, a feeling of security that whatever might happen to him in the chances of human existence he and they would be provided for.

The section setting forth what industries and trades the Act would apply to was very exhaustive, and it included two never before covered by a similar act—the men employed in civic police and fire brigades. The board was given a wide discretion in

(Continued on Page Three.)

Victoria By-Election Will Be Investigated By Legislature Also

Victoria, May 1.—The House today unanimously decided to appoint a committee to investigate the charges made in connection with the Victoria by-election.

Last week the ground taken by the Liberals, was that the committee should be given power to investigate the Victoria and Rossland by-elections as well as the Vancouver one, and Mr. Brewster brought in an amendment to that effect.

Premier Bowser refused to accept it however, that if the Liberals wished to take the responsibility for investigating Victoria and Rossland the House would appoint special committees for that purpose. He did not wish he declared, to be-fog the issue in Vancouver by dragging in any other cases. The Premier accepted an amendment, raised by M. A. Macdonald, to make it clear that the scope of the committees investigation could extend to all frauds under the Elections Act, which might have taken place in Vancouver and not merely to the impersonation now being charged. An amendment by Mr. Pooley, of Esquimalt, to give the protection of the House to witnesses before the committee, provided they gave testimony in good faith, was also accepted. This was for the purpose, it was explained, of inducing witnesses to come forward from Seattle and elsewhere, to tell the truth about the impersonation charges.

Government To Consider Taking Over Railways Operating In Canada

Ottawa, May 1.—It is now generally agreed that fifteen million dollars will be granted to the Canadian Northern and ten million to the G. T. P. by the Dominion Parliament.

It is also stated that a commission will be appointed to report upon the best methods for the Government taking over both. The methods the supporters contend will be strongly attacked. The loans which will be granted will put the Government in control of the situation.

RE-OPENING PROVED A GRAND SUCCESS

Westholme Theatre Was Packed To The Doors Last Evening.

The re-opening of the Westholme Theatre last night, under new management, was a signal success. Added to a magnificent programme of pictures there was put on the Prince Rupert Ladies' Red Cross Italian Cabaret show, taken from the programme given at the Red Cross Festival. The theatre was packed to the doors.

Included in the cabaret was dainty dancing by Miss Muriel Patmore and also excellent dances by the Bailey sisters, who are always popular here.

The mandolin club, connected with the Ladies' show, rendered selections The instrumentalists were Mrs. Burritt, Miss Coyne, Miss Jenns, Mrs. Alexander, Mrs. Merryfield and Mrs. Miller.

The singing of the company was much enjoyed, they appearing in striking costumes. Among the choruses "Keep the Home Fire Burning" proved most popular. There were solo selections also. Mrs. Miller sang "Society"; Miss Barnsley, "Somewhere in France;" Mrs. Linnell rendered a solo well, and Mrs. Alexander also sang most acceptably. Mrs. Cole, who assited materially in the preparing of the programme, acted as pianist throughout.

Telegraph Creek Men On Way South To Serve With Colors

(Special to The Journal.)

Telegraph Creek, May 1.—A scow left here this morning following the ice out with a party of volunteers on board bound for the front. The party includes Dougald McDonald, a South African veteran; Jack Morin, Tom Hankin, and Lloyd Simpson.

They have tramped on snowshoes for a distance of one hundred and fifty miles, with a further journey of the same distance to connect with the boat for Vancouver. All of them are experiencel frontiersmen.

The residents of Telegraph Creek turned out to give these men a hearty sendoff. More will follow shortly from here.

This contingent, with those already at the front, makes a very creditable showing for a small place like Telegraph Creek.

LIGHT SUPERINTENDENT HAS ARRIVED IN CITY

D. D. Kennedy Enters Upon His Duties As Head Of Public Utilities.

There reached the city Sunday night D. D. Kennedy, the new Superintendent of Light and Telephones for the city. Mr. Kennedy has had many years experience in this work, mastered the practical side of the work and later took a full course in the technical side, so that he is eminently qualified to carry along the work in a satisfactory manner.

Advantage was taken of the fact that Mayor McCaffery was in the south to have him meet the applicants for the post personally. He selected Mr. Kennedy as the most likely to fill the requirements here.

Yesterday he visited the plant at Lake Woodworth and is going fully into the situation now.

At the council meeting last night the Mayor's action was confirmed, and Mr. Kennedy was duly given the position.

WELL KNOWN FUR DEALER HAS TAKEN TRIP SOUTH

Wm. Goldbloom Who Has Made Prince Rupert Centre In That Line.

Wm. Goldbloom, who has spent several months here engaged for the most part of the time in buying furs, has gone south. He will visit Vancouver, his home for a time, but expects to be back in Prince Rupert again inside of a couple of weeks.

A drop in the price of furs has given Mr. Goldbloom the opportunity to get away.

In no small measure it has been he that has given Prince Rupert its prominent place as a market for furs. He has the greatest faith in the future of the city in that trade, and certainly he has done his part to attract the trade here. He will return to resume business in furs in the city.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

WATER NOTICE.

TAKE NOTICE that THE SURF INLET POWER COMPANY, LIMITED, will apply by Petition to the Minister for the approval of the undertaking of its works and that such Petition will be heard in the office of the Board on a date to be fixed by the Comptroller and that any person may file an objection thereto in the office of the Comptroller or of the Recorder of the District.

The name and address of the applicant is THE SURF INLET POWER COMPANY, LIMITED, having its Head Office at 1,001 Rogers Building, Vancouver, B. C. The Water Recorder's office in which this notice is to be filed is at the Court House, Prince Rupert, B. C. The name of the lake from which the water is to be taken is Cougar Lake, Princess Royal Island.

The quantity of water applied for is ten thousand inches or sixteen thousand cubic feet per minute. The proposed point of diversion is at a point at the outlet of Cougar Lake, and it is to be returned at a point at sea level on Surf Inlet, and will be used for developing power and electric energy to be used within a radius of ten (10) miles of the works on Princess Royal Island.

A copy of this notice was posted on the ground on the 24th day of February, A. D., 1916.

Dated at Vancouver, B. C. this 24th day of February, A. D., 1916.

COMPENSATION BILL

(Continued from Page One.)

deciding what class an industry came under. In addition to farm laborers and domestic servants, to whom the Act would not apply, it would not affect those engaged in clerical pursuits, travelling salesmen, members of the employer's family and outworkers. It was provided, that in the case of a workman killed or injured outside the Province while on the business of his employer would be dealt with as if the accident had happened within the Province.

In the case of a workman permanently disabled he would be entitled to compensation for the remainder of his life, to the extent of fifty-five per cent. of his average earnings. The "waiting period," during which no compensation was granted, is now two weeks, but the commission thought this too much of a contribution from the workman and cut the period down to three days. Any worker whose disability lasted over three days would, therefore, be entitled to compensation, but during the three days he was entitled to medical attendance. Where there was facial disfigurement there might be allowed a lump sum in compensation.

Employers were benefitted in that they were relieved from exhorbitant damages and heavy law costs, and know from year to year just how much the matter of compensation would require them to pay out. The employees, on the other hand, know absolutely that they were sure of compensation without cost, and know just what they would get.

An important principle of the bill had to do with medical aid. It had often happened, that for lack of medical attention or first aid at the moment of the accident, workers had lost their lives or suffered disability or long periods of illness. The board would have control of this and would have authority to provide medical surgical and hospital treatment, transportation, nursing, medicines, crutches and apparatus, and aritficial limbs if necessary. Existing plans of medical aid in force between employers and employees which the board may consider "not less efficient in the interest both of the employer and of the general body of workmen" may be allowed to continue.

The system of assessment on the employers adopted was that known as the capitalized system, whereby there would be assessed annually an amount on each industry sufficient to meet the cost of the compensation in the year before. This system had been decided to be the fairest and most satisfactory. Employers would be expected to retain from the wages of each man one cent a day for the medical fund and pay this over when he paid his assessment.

A question which had to be considered, was that of whether there should be absolute state insurance or whether the insurance companies now operating should be allowed to take part in the business of insuring the employers against compensation for accidents. The principle adopted was one that would meet with the approval of the House, and it was borne out by the experience in the States. In Ohio it cost less than ten per cent. to administer the system of state insurance, but it cost forty per cent. with the casualty companies. In Wisconsin it cost $2.07 to collect $1, while in Oregon it cost but $1.13, a saving to the Oregon employers of $351,522 in one year in premiums.

A most commendable feature of the Act was that dealing with accident prevention, the board being given wide powers to make inquiries, appoint committees, supply information to employers and workmen, distribute bulletins and make such rules and regulations as would tend to prevent accidents.

Regarding the composition of the board of three men, Mr. Miller insisted that the greatest care must be exercised in the selection of these men. Their choice was just as important as that of a judge, if not more so, and the work should be an incentive to any man to give of the very best in him. The Government would have to guard against the danger of appointing men who would not be able to forget politics, which would be a serious mistake.

Mr. Miller paid a tribute to the work of the committee which recently went into this question, and referred to the report made by its members and the bill now before the House as a proof of the zealousness and faithfulness they had shown. It was possible some small changes might be found advisable in committee of the whole, but it was significant in favor of the bill that there were no complaints made regarding it from either employers or workmen.

Parker Williams moved the adjournment of the debate until tomorrow.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

British Columbia Conference — Rev. J. F. Dimmick, Pastor.
Parsonage 632 Sixth Ave. W. — Church, Sixth Ave. & Musgrav Place

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C.,

Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil formonth of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—*HON. MARTIN BURRELL, Minister of Agriculture.*

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from **without** the Empire. Out of 430,420 tons of beef only 104,967 tons came from **within** the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly $6,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15¼ to 17 cents; January 1916, 18¼ to 18½ cents. Butter: January 1915, 24 to 28¾ cents; January 1916, 32 to 33 cents.

EGGS—Canada produced $30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.
