DISPOSITION MADE OF SOME CASES

MR. JUSTICE MORRISON GAVE JUDGMENT IN SEVERAL ACTIONS

Rorvik Fish Company's Suit Dismissed By His Lordship.

Yesterday the Supreme Court sittings that have been held here by Mr. Justice Morrison were concluded, with the dismissal of the suit brought by the Rorvik Fish Company against the Canada Surety Company.

Judgments were handed down by His Lordship in a number of cases. Among these was the case of Coyle vs. McNeil, in which various adjustments were made between the litigants under the decision he reached. The plaintiff was finally allowed $92.14 with costs.

In the case of Harvey vs. McDonell, which was settled out of court, there was allowed $100 for fees and cost to W. E. Fisher out of the sum paid into court.

The case of Gibb vs. Ellis and Marshall was dismissed by His Lordship, who found that the plaintiff was intent upon coming to central British Columbia, and the fact that the land sold was not actually in the Bulkley Valley did not make any real difference. In view of the fact that the plaintiff was going to the war he relieved him of costs in the action.

The importance of herring in connection with the halibut business is so well known that residents of Prince Rupert have come to look forward to the first appearance of this variety of fish in the nearby waters with more expectancy than the first robin in spring is heralded in some other localities. This fishing port has suffered from a shortage of herring for two seasons and the presence of the fish is a matter of more than ordinary importance.

John Flewin of Port Simpson, who is now in the city, saw schools of herring on his way to Prince Rupert. He believes they were making for the Port Simpson spawning grounds.

The first appearance of herring in the harbor here will be the signal for an era of activity among the fishermen. It is possible now for fishermen to get sufficient for bait from schools encountered outside.

BRITISH HAVE BEEN BOMBARDING AROUND YPRES

London, Nov. 28.—British artillery has been bombarding the enemy's trenches around the Ypres area. In active co-operation with the artillery fire, aeroplanes did successful work.

The weather conditions were against these operations, but despite this they bombarded many points of military importance.

Two of the British machines failed to return.

HIGHLAND BOY IS SOON TO SHIP

ANOTHER ROCHER DE BOULE PROPERTY IS MAKING GOOD SHOWING

George Clothier, The Superintendent, Is Getting Good Ore Uncovered.

George Clothier, Superintendent of the Highland Boy mine on Rocher de Boule Mountain, expects very shortly to be able to ship from the property.

The Omineca Miner says the Highland Boy mine is now working eight men in the tunnel which opened up a good shoot of ore. The tunnel gives a depth of a hundred feet and there is about eighteen inches of shipping ore for a distance of thirty-five feet. The surface is uncovered for a distance of sixty-five feet more and shows the same ore, so there is really a hundred-foot shoot. The vein is from five to eight feet wide, carrying mineral all across. The surface is stripped for a distance of several hundred feet towards the Rocher de Boule mine.

The management expects that within the next month they will be in a position to make regular shipments of ore. They are now rigging up to get their ore down the hill to the Rocher de Boule property, and from there the tram line will be used

SOME OF THE REASONS AGAINST ORGANIZING BATTALIONS FOR FUTURE

Men Will Get To The Front Quicker It Is Thought.

The following statement has been given out by the Militia Department:

"During the past few weeks F. B. McCurdy, Parliamentary Secretary, and the officials of the Department of Militia and Defense, have been giving much time and consideration to recruiting matters and mobilization. The system of recruiting, by battalions, has resulted in a large and rapid enlistment, upwards of 375,000 men having been enlisted in twenty-seven months.

"The practise of sending complete battalions overseas has necessarily caused the accumulation of a number of senior officers in England; because, following the formation of army divisions at the front, the additional battalions sent to England were necessarily called on to provide reinforcements for battalions in the fighting line.

"The fact that battalions in the front are being broken up will not cause any surprise to the officers commanding. Almost a year ago official notice was sent out by the depart-

Allies Won Position After Fierce Fight On Saloniki Front

Saloniki, Nov. 28.—A body of French Zouaves, in conjunction with Serbian troops have made a brilliant coup. They successfully carried Hill 150 by storm and remain in occupation.

To accomplish this the attacking force had to defeat and displace a specially selected garrison drawn from the Chasseurs of the Guard.

These had orders to hold the hill regardless of cost. Following the capture by the French and the Serbians there have been several counter attacks made by the enemy to recapture the lost position so highly prized. The instructions were to retake at all costs, but in spite of the determined attacks they were all repulsed.

Money Effectually To Be Cut Off From Reaching Enemy

London, Nov. 28.—With reference to the royal proclamation issued, making all financial instruments contraband, it is explained officially that the new proclamation is an amendment by the Entente Governments to the one issued in April. In order to introduce absolute certainty into neutral financial operations, it is declared, the Entente Governments frankly intend, if possible, to prevent every transaction calculated to assist the Teutonic Allies to prosecute belligerent operations in any part of the world.

Hitherto, it is asserted, there have been attempts by the Central Powers to evade the terms of the previous proclamation. The new declaration defines the intentions of the Entente Governments more clearly and, it is asserted, states frankly to the whole neutral world that the Entente intends to try by every legitimate means to prevent any neutral from financially assisting their opponents. The official statements adds:

"Money in the long run wins wars, and no one who realizes the power of money can regard our action as either illegitimate or unnecessary. To give one indication of the vast importance of this question, it is calculated roughly that since the Allies began examining mails to neutrals contiguous to Germany they have stopped about £50,000,000 sterling which were going to banks or persons in enemy countries, and including large numbers of subscriptions to enemy war loans.

"If instruments of any kind whatever having the object of transferring such vast quantities of money to the enemy are not to be regarded as contraband, it is impossible to concede what can properly be so regarded."

The proclamation gives the following definition of what will be considered contraband: "Gold, silver, paper money, securities, negotiable instruments, checks, drafts, orders, warrents, coupons, letters of credit, delegation or advice ,credit and debit notes or other documents which authorize, confirm or give effect to the transfer of money, credit or securities."

CONCERT TONIGHT IN AID OF THOSE LEFT BY SAILORS

In the past residents of this city have not had the opportunity of contributing to the funds in aid of the widows and orphans of the men who have fallen in the navy. The opportunity is to be given this evening.

A committee composed of Fred Peters and members of the Ship Masters' Association have had the matter in hand and have an excellent programme prepared for tonight's concert. The concert will be given in the Empress Theatre.

SKIRTS MAY BE LONGER SAYS FASHION DECREE

American Dealers Have Decided Upon This For Coming Season.

Skirts will be a bit longer next spring. The National Cloak, Suit and Skirt Manufacturers' Association, which held its annual convention in Chicago, has decreed that styles in general must be "Americanized" if the confidence of American women is obtained and held, and as a first step of the reform they will add a few inches to the skirt. Incidentally, the lines for the coming season will be long and straight, coats fitted easily about the waist, stitching will be much used in heavy, loose threads, and the shade will be the most flower-like and delicate imaginable.

J. P. Haviland, one of the Chicago members of the Association, is responsible for this advance information.

ment to all G. C. O.'s that no assurance could be given that such could be kept intact after leaving Canada. Furthermore, the senior Canadian officers in France have repeatedly asked that no officer be sent to France above the rank of lieutenant, as they naturally wish to promote those in the trenches who have acquired knowledge and experience in action.

"It is altogether probable that the practise of authorizing, recruiting and sending battalions overseas intact will be discontinued, and further, that some of the battalions at present authorized and recruited in Canada will be converted into draft-giving battalions.

"The natural desire of every soldier enlisted is to get to the front at the earliest possible date, and the new system of recruiting reinforcements instead of by the battalion system as previously followed, will come as good news to those anxious to get overseas.

"There are a number of battalions in Canada which have not as yet been able to recruit up to strength, and the advisability of amalgamating such with other similar battalions is receiving the consideration of the department. It is expected that a number of senior officers now in England will be given an opportunity of reverting and going to the front. Unless their services can be utilized for military duty they will be given an opportunity of returning to civil life until their services are further required."

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Nothwest Teritories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Aplications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights re not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—*HON. MARTIN BURRELL, Minister of Agriculture.*

"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. *'Work and Save'* is a good motto for War-time."—*SIR THOMAS WHITE, Minister of Finance.*

THE CALL OF EMPIRE COMES AGAIN IN 1916

TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS

WHAT IS NEEDED? THESE IN PARTICULAR—

WHEAT, OATS, HAY,
BEEF, PORK, BACON,
CHEESE, EGGS, BUTTER, POULTRY,

CANNED FRUITS, FRUIT JAMS,
SUGAR, HONEY, WOOL, FLAX FIBRE,
BEANS, PEAS, DRIED VEGETABLES

We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.

"THE AGRICULTURAL WAR BOOK FOR 1916" is now in the press. To be had from The Publications Branch, Department of Agriculture, Ottawa.

to the railway. To get the ore down from the Highland Boy a three-thousand foot cable, fitted with toboggans will be used. This will get it to within half a mile of the Rocher de Boule and then a horse and sleigh will convey it the rest of the distance.

This is only the preliminary work in connection with the development of the Highland Boy. In the spring a much larger force will be put on and real development undertaken. That another copper property is joining the shipping ranks is good news for the district.
