MINES OF INTERIOR ARE BEING CLOSELY WATCHED

Capital Said To Be Awaiting Results Of Development

NICKEL REFINERY FOR CANADA

PLANT WILL BE ESTABLISHED UNDER ARRANGEMENTS WITH GOVERNMENT

The British Authorities Are Also Connected With Proposition.

Negotiations which have been under way between the International Nickel Company and the Dominion Government, in which the latter also acted for the British Government, have resulted in a decision being reached by which the International Nickel Company agrees to install a refining plant in Canada of a sufficient capacity to meet all the requirements of its business with the British war office.

The establishment of a plant in Canada will be a considerable economic problem, as it will entail increased cost of sulphur, free oils, coke, nitre cake, fire brick, fire clay, magnesite brick and coal. Until now the refining has been done at Bayonne, New Jersey, adjacent to the great oil refineries and chemical plants. In the ordinary process the ore mined in the mines in the Sudbury district is transported to the smelter at Copper Cliff, and is there smelted by successive stages into a product known as copper-nickel matte, containing approximately 55 per cent. nickel, 25 per cent. copper, and 20 per cent. sulphur. All of this matte has been shipped to the Bayonne refinery, where the nickel and copper has been separated from each other, the copper being advanced to the form of electrolytic copper and sold in the market. The shipment of nickel matte is analogous to that condition existing throughout the copper industry of the United States, in which it is the general practice for the copper producers to bring their products to the stage known as blister copper at a smelter close to their mines, and then transport the blister copper to some central refinery, advantageously situated where the supplies and the power necessary for its economical subsequent refining into a marketable product are cheap, in many cases this distance being thousands of miles.

COPPER FAMINE IS NOW CONSIDERED SERIOUS

Delivery For Nearby Months Cannot Be Had At A Premium.

A famine has developed in copper, says a Boston despatch. Metal for immediate and nearby delivery cannot be had. So claim all the leading copper selling agencies in New York. If the consumer wants copper of January and February delivery he must take his chance on the price and the amount which he can obtain from any one source. Even as far ahead as the March and April deliveries there appears to be little copper to be had.

Although the quotation of twenty-four and a half cents per pound is not quoted generally to customers, it prevails and it may not be long before even the customers will have to suffer.

To all intents and purposes there is no quotable price for copper for January and February deliveries—it all depends on who is trying to buy and how he "stands" with the agency with whom he is negotiating. In this connection the head of one of the largest selling agencies in New York says: "I have nearly worked myself sick trying to take care of the people who have been importuning me for spot copper. To all these the question has to be 'What is the smallest amount you can get along with?' There isn't enough nearby copper to go around and consumers will pay any price to cover their requirements."

F. M. Sylvester, of the Granby Company, went south yesterday.

Rent now from M. M. Stephens.

BRITAIN IS NOT UNPREPARED

A. J. BALFOUR SAYS THE NAVY IS READY FOR GERMAN SURPRISES

There Is Nothing To Indicate That Construction Is Faulty.

A. J. Balfour, First Lord of the Admiralty, stated in the House of Commons that the British Government had no evidence that Germany possessed seventeen-inch guns, but that it was not impossible.

Mr. Balfour was asked to make a statement of such a nature as to assure the country of the navy's preparedness to meet any development in the way of new ships or larger guns produced by Germany during the period of naval activity. He said:

"What Germany is doing in the way of shipbuilding must necessarily be a matter of conjecture. I have seen in the press, mention of 17-inch calibre, but we have no evidence that such exists. But given the time and labor, there would be no difficulty in making them.

"As regards the preparedness of the British navy, I can only say that the successive lords of the Admiralty have most anxiously considered methods by which the building resources of this country can best be used. Speaking broadly, it may be said that every dockyard, public or private, is being used either for new construction or for repairing requirements of ourselves and our allies. This being so, it is impossible to add

THROUGH TRAFFIC AGAIN ESTABLISHED

G. T. P. IS OPEN FOR TRAVEL NOW AFTER SNOW STORMS

The Worst Conditions Prevailed On Road East Of British Columbia.

The G. T. P. has established its through traffic again on the line out of here. During the week's trouble with snow, the worst conditions are said to have been east of British Columbia. The situation was attended with coal shortage in different places.

The unprecedented coal shortage is taking a serious aspect in practically every town along the line of the G. T. P. from Edmonton to Saskatoon, says a message of a few days ago. A temperature ranging around the 35 degree below zero mark was experienced here Tuesday, and this, coupled with a high wind, left residents shivering.

So acute is the fuel shortage today that it has been deemed advisable to close down the schools at Wainwright until an adequate supply has been delivered. Inquiry elicits the information that other towns will of necessity have to follow Wainwright's example, should the present condition continue for many more days.

H. P. Wilson and Mrs. Wilson left yesterday morning for the south, on their way to Moose Jaw, where Mr. Wilson assumes the management of the Royal Bank there.

ANOTHER TWENTY-FIVE TONS OF HALIBUT IN

The Mololo Came In With 50,000 Pounds Yesterday.

The Mololo arrived in port yesterday with 50,000 pounds of halibut. The weather is reported still to be cold on the banks.

RECRUITING FOR REGIMENT AT SOUTHERN POINTS

Lieut.-Col. Warden, at Nelson, took on two officers, Lieut. James H. Grant and Lieut. William J. Sturgeon, of H Company, 107th Regiment, says the Vancouver World. They are to leave Nelson within two weeks for Work Point, for the officers' course of instruction. Both men are prominent in athletics at Nelson. Lieut. Grant is Vice-President of the Nelson Rowing Club, while Lieut. Sturgeon played a number of years on the senior baseball team there.

About 50 men enlisted at Grand Forks, and at Hazelton there were three recruits added to the strength. At Nelson, among the 110 who joined were Robert E. Georges and his son. The father has seen two active service campaigns as a first sergeant in the 4th Regiment Tirailleurs Algeriens.

A recruiting party for the 102nd will leave Comox this week for a cruise around the north end of Vancouver Island. Recruiting meetings are to be held at all points on the Comox and Alberni districts that can be reached by water. The 102nd is now about 800 strong.

Open Wednesday and Saturday evenings, M. M. Stephens.

LOCAL BOYS WON FINAL MATCH

HOCKEY GAME WENT TO PRINCE RUPERT BY A SCORE OF 3 TO 2.

The Players From Here Expect To Go To Hazelton Monday.

The third and last game of the series, between the Hazelton Hockey Team and the local players, was won by the Prince Rupert boys yesterday afternoon by a score of 3—2.

Both teams were somewhat battered up as a result of the two previous strenuous games, but took the ice confident of winning. The match was delayed somewhat owing to Lavery receiving a nasty injury in the mouth, causing him to lose a couple of teeth. He was injured by being struck in the mouth with the puck, while "warming up."

The most noticeable feature of the game was the attempted individual rushes by a number of the players. Irwin and Holtby starred for the home team throughout the match by their clever stick-handling and dodging man after man, but lost many an opportunity of a possible goal by not passing the rubber to the wing men.

La Casse seemed lost in the position of centre, instead of rover, but played a steady game throughout.

Keddie, Macdougall and Warner, for the visitors, bore the brunt of the play; making a number of end to end rushes that caused the local goal-tender many anxious moments.

The first period ended one to one, Holtby doing the trick for the locals and Macdougall for the visitors; but it was not because the goal-tenders were not kept busy stopping shots that the count was not greater. The Hazelton man stopped many "hot ones" that caused the enthusiasts on the benches to gasp. The game was cleanly played, but quite rough enough to suit anyone.

In the second period the score was once more tied. Irwin shot a sizzling one from centre that got by Wilson into the net. Following this goal, Keddie, making one of his spectacular rushes, aroused his team into an attempt to even the score. All players speeded up, and for a few minutes play became very fast. A number of the boys were tripped, others sprawling on the ice, three being down at one time, but none were severly injured. Warner finally fought clear and shooting on the net evened the score.

One other goal was scored in the final period by Holtby, making the count at the finish of the game three to two in favor of the home team. Credit is due Wright, the judge of play, for a practically clean game.

There was not a large crowd present at the contest, although it was a perfect afternoon. The cause, no doubt, was due to the long delays in getting the games started, the spectators having, on one occasion, to wait in the cold for upwards of an hour.

The Prince Rupert team expects to get away to Hazelton for a return series next Monday morning. The Hazelton boys leave by train this morning.

M. M. Stephens wants your business. j-5

If Mining Properties Along G.T.P. Turn Out As Anticipated All Kinds Of Capital Is Available To Invest In Enterprises There

The outlook in a mining way in this city and district for the year has been held to be bright. Citizens of Prince Rupert have known that the coming summer holds great promise. The Journal has received information from a visitor to the city, who is in a position to be informed, that makes the promise for the immediate future brighter than there had been any thought that it was.

The Journal is informed that investigations are being made into mining properties in the interior by representatives of the most prominent mining men on the continent. If the investigations prove the values to be there, then the future is assured. There will be a tremendous investment says the informant. Much depends upon the showing made in the next few months. He says there is no question about the interest aroused. The situation is being watched with the utmost interest.

The development of the mining country along the line of the G. T. P. will bring to Prince Rupert unbounded prosperity. It will mean the opening up of mining camps which calls for heavy investments. Mining operations are carried on with heavy expenditures. It is not a poor man's proposition. It is a business which calls for heavy capitalization. The development of a good mine brings with it simultaneously a good mining camp.

Mining camps have always been good consumers, so that a stimulus is given to the country within reach of the camp to produce the natural supplies for the camp. In addition, it will mean the development of the wholesale business here along healthy lines.

Mining development has been the forerunner of general development in those parts of the country where there has been an agricultural country to open up, and so an activity along this line will be welcomed in this district.

The details connected with the possible boom in mining were not revealed. It was assured the Journal, however, that the capital was not lacking, and that it would come freely if the ends at all justified it.

For Red Cross.

The thanks of the Red Cross Society is extended for the donation to the funds of $32.95, made yesterday by Lawrence Mun... This is the amount realized at the Hard Times Ball, held under the auspices of the Bartenders Union of this city.

RUSSIANS HAVE TRAPPED TURKISH ARMIES IN FLIGHT

Petrograd, Jan. 29.—Two entire Turkish army corps have been trapped between Erzerum and Mush, in their flight before the Russian forces.

In the preceding battle, the Russians completely crushed a Turkish column, capturing 17 officers and 2,740 men, besides artillery and ammunition.

In the pursuit which followed, the Russians captured Turkish troops at the town of Khynysskala with reserves of ammunition for the Turkish army. The Russians continue to pursue the enemy in the direction of Mush.

Vote Of Thanks.

A hearty standing vote of thanks was given on Thursday evening at the annual meeting of the Prince Rupert Branch of the Patriotic Society,

LIFE UNDER SEA IN A SUBMARINE

HOW THE CREW PUT IN TIME WHILE BELOW THE SURFACE

Air Becomes Stuffy After Long Continued Period Underneath.

A simple story of life below the ocean in a submarine is told in a letter received at the Rectory, St. Andrew's, Man., by Miss Bessie Warwick from her cousin, S. Herbert, of Swindon, Wilts, Eng., who is one of the crew of British submarine D-8, now on constant vigil in the North Sea waters. The letter reads in part:

"We have been almost constantly on the run for the last two months. I have now just returned from a eleven days' trip from Heligoland. We are on patrol duty over there and very often we are right in sight of the German coast. The weather has been very bad in the North Sea during the last month, and some days it has been so bad that one could see nothing whatever out of our peri-

LIFE UNDER SEA.

(Continued from Page One.)

scopes. Of course rough weather does not affect us much; in fact, we have less to do, for on such days, we simply go to the bottom and rest until the weather moderates.

"We were 72 hours below the surface last week owing to the weather being so bad, and when we broke surface it was too rough for any of us except the captain to go up the conning tower, in fact, for ten days we never saw daylight, for only at night-time we dare go up on top. Of course it is not really bad times we are having. We are 'happy and chatty,' as an old saying goes, for we never wash, shave or change our clothes from the day we commence a trip to the day we come back, water being too precious to wash in. We always spend the night on the bottom, and continue our patrol at daylight the following day at 22 feet below the surface. We can then just see what is going on on top with our periscopes. At dusk we generally go to the surface to charge our batteries up and charge up with compressed air, which takes a couple of hours.

"The time passes very quickly on these trips, for during these winter months there is so much darkness, which means more time on the bottom, and one cannot do much else but sleep for there are no duties to perform there. We very often have the gramophone on, and sometimes we get up a concert; everyone has to sing and really it is very amusing, being below for 24 hours, in fact it requires an effort to speak sometimes for the air becomes more or less foul, and also gets a pressure. Well, I don't want to weary you too much with our doings, but thought perhaps such talk may interest you all.

"We had a German ship last Sunday week. After firing a torpedo at her we went to the bottom after hearing the explosion, then came up some time after, but she was no more. Well, I have just been sent for, so give my kindest regards to all your people and hoping all of you are in the best of health, I remain

NAVIGABLE WATERS' PROTECTION ACT.

R. S. C. Chapter 115.

Richard B. McGinnis hereby gives notice that he has, under section 7 of the said Act, deposited with the Minister of Public Works, at Ottawa, and in the office of the District Register of Titles at Prince Rupert, B. C., a description of the site and of the plans for a wharf proposed to be built in Alice Arm, Observatory Inlet, British Columbia, at a point situate about ¾ miles south of the south east corner of Lot 1,074, Range 5, Coast District, B. C.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, Richard B. McGinnis, will under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to construct the said wharf.

Dated at Prince Rupert, B. C., this 22nd day of October, A. D. 1915.

TIMBER SALE X 541.

Sealed tenders will be received by the Minister of Lands not later than noon on the 19th day of January, 1916, for the purchase of Licence X 541, to cut 1,256,000 feet of Hemlock and Spruce, on an area adjoining L. 1,625, East Arm, Juskatla Arm, Graham Island, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the right applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that R. N. Ferguson, agent, Victoria, B. C., and A. M Hall, manager, Vancouver, B. C., intends to apply for permission to prospect the following described lands for coal and petroleum: Commencing at a post planted 100 chains east and 60 chains north of the mouth of Joseph Creek, to the southeast corner of C. L. No. 10,148, thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to the point of commencement.

TENDERS FOR FREIGHTING OF SUPPLIES FOR THE YUKON TELEGRAPH LINE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Packing Supplies," will be received until 4 p.m., on Tuesday, March 7, 1916, for the packing of material and supplies for points along the Yukon telegraph line between Hazelton and Atlin, in the course of the season 1916, 1917 and 1918.

Forms of tender and specification may be obtained from Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnel, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, December 23, 1915.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

HIGH CLASS STOCK TO CHOOSE FROM

Corner Third Avenue and Sixth Street

Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.

Proceeds Of Sale.

The last sale of home cooking, held under the auspices of the Red Cross Society here, was as usual a success. The proceeds amounted to $34.75. The sale was under the charge of Mrs. R. E. Walker and Miss Gertrude Clarke. The donations of the cooking were as usual very generous, and those in charge wish to thank the contributors.

VOTE OF THANKS.

(Continued from Page One.)

to the Secretary, the Rev. W. E. Collinson and the Treasurer, Mr. C. T. Heward. These gentlemen have given a great deal of very efficient service during the past year, and although the work has greatly increased, they have consented to continue in their positions for 1916. This voluntary service has been of the utmost service to the city and ought to be very warmly appreciated.

BRITAIN IS NOT.

(Continued from Page One.)

to the magnitude of our preparations.

"The most one can do is to alter the character of the type of ships under construction, but nothing has yet occurred which would justify us in thinking that any serious error of judgment has been made in connection with the type of ship under construction."

Insure now with M. M. Stephens.

Skeena Land District—District of Queen Charlotte Islands.

Certificate of Improvements.

NOTICE.

"Tiger," Black Bear" and "Thelma" Mineral Claims, situate in the Portland Canal Mining Division of Cassair District. Where located, on Glacier Creek.

TAKE NOTICE that I, George Rudge, Free Miner's Certificate No. 80,511B, acting for myself and as agent for James A. Robertson, Free Miner's Certificate No. 94,052B, Administrator of the Donald A. Robertson estate and George Matheson, Free Miner's Certificate No. 93,874B, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issue of such Certificate of Improvements.

Dated this 2nd day of Nov. A. D. 1915. w-d-1

Quality vs. Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the

Anheuser-Busch Brewery
St. Louis, Mo.
