BRITAIN ASSUMES WAR WILL LAST ANOTHER YEAR

Budget Provides For Additional Taxes Upon Many Things

Another Zeppelin Raid On West Coast Of British Isles

Holland Closed Frontier On Germans And Massed Forces

Artillery Actions Have Been Frequent In Verdun District

Paris, April 4.—In the Argonne we bombarded certain German organizations, particularly in the region of Mantfalcon and Malancourt. West of the Meuse there has been artillery fighting of considerable violence against the front at Avoncourt, as far as Malancourt. The Germans made no attack against Douaumont and Vaux, where they re-established themselves by counter attacks yesterday.

The French have been particularly active in firing upon the enemy's positions. The enemy responded, but its battery answered feebly from the Forest of Espre.

A strong reconnaissance of the enemy was dispersed by our fire and the French batteries were successful in shelling a German supply train on the highway between Than and Meulhausen.

OVER ONE HUNDRED THOUSAND OF FISH

LARGE NUMBER OF SMALLER CRAFT CAME INTO PORT YESTERDAY WITH HALIBUT

The Canadian Fish & Cold Storage Secured All That Offered.

There is considerable halibut constantly coming into port here, in spite of the strike keeping a lot of the vessels out of commission. Yesterday there was over 100,000 pounds of fish came in. The Canadian Fish & Cold Storage Company secured practically all of it, paying about 9 cents a pound.

That company had one of its own boats in last evening, the W. R, Lord, which brought 23,000 pounds.

In addition there were the following catches taken over by the Cold Storage. Crescent, 16,000; Minnie V., 4,000; Doreen, 5,000; Polaris, 25,000; Alvilda, 12,000; Jessie, 16,000.

In addition to the catches of halibut, there is now abundance of bait being caught and landed here.

FORTNIGHTLY CLUB.

A good programme has been arranged for the last meeting of the Fortnightly Club, of the Presbyterian Church, which takes place tonight. It includes a sketch entitled "Tilda's New Hat," a dialogue and several musical numbers. Admission 25c.

ZEPPELIN CAN BE SALVED AND PUT INTO USE AGAIN

London, April 4.—Aeronautical officials are salving the German Zeppelin L-15 from the shallow waters of the River Thames. Experts state that the airship can be salved, rebuilt and used against the enemy within the space of three months.

TRAPPING SEASON IS EXTENDED ONE MONTH

Trappers Have Not Had Successful Winter Owing To Depth Of Snow —Pelts In Prime Condition.

The trapping season in British Columbia, which usually closes on March 31, has been extended to take in the month of April. Owing to the severity of the past winter, and the unusual depth of snow which fell in most parts of the Province, the season has not proved a profitable one for the trappers, and it is with the aim of giving the trappers a chance to derive something from their licence that the extention has been made.

In many sections of the Province, more especially those parts where the fur-bearing animal has his haunts, the traps remained for the greater part of the season beneath four or five feet of snow. With the unusual lengthening out of winter, however, the effect upon the fur-bearing animals has been very noticeable. The pelts are still in splendid condition, it is said, and with the price of furs still holding, many of the trappers will be able to make good their poor success earlier in the season.

REV. DR. MACKAY'S CHANGE OF HEART

CORRESPONDENCE BROUGHT DOWN IN LEGISLATURE MADE INTERESTING READING

Letters Of Well Known Clergyman Dealing With The Provincial Government.

(Special Correspondence.)

Legislative Press Gallery, Victoria, March 29.—A good deal of interest in the House today centered on the production of the correspondence between Rev. John MacKay and the Government, respecting Dr. MacKay's hope of becoming President of the University of British Columbia. These letters were written to Dr. Young, formerly Provincial and to Sir Richard McBride, back in 1912 and 1913. Dr. MacKay, among others, had been asked by the Government if he was in a position to accept the appointment should he be offered it. Dr. MacKay's early letters indicated a warm feeling towards the Govern-

DOMINION LOAN WAS GRAND SUCCESS

SIR FREDERICK WILLIAMS-TAYOR, OF BANK OF MONTREAL, GIVES OPINION

The Handling Of The Floatation Was Such As To Reflect Highest Credit.

No financing that the Dominion of Canada has ever effected has attracted such attention in banking circles as the new loan of $75,000,000, which has been placed with the leading New York banking houses, says a Montreal despatch. In order to obtain particulars regarding the main features of the now loan, Sir Frederick Williams-Taylor, General Manager of the Bank of Montreal, was asked to make a statement dealing with the arrangements that have been carried out and the terms on which the loan had been placed. Sir Frederick said in part:

"Without hesitation or reservation, I express the opinion that the terms

Holland's Frontier On German Side Closed Forces Massed There

Rome, April 4.—Holland has closed its frontier on the German side. She has massed all the available forces there. There is no announcement made as to the policy of the Government of Holland in the matter.

GERMAN WRITER MAKES APPEAL FOR IMMEDIATE PEACE

London, April 4.—Maximillian Harden, the famous German writer, in an article which has been passed by the German censor, appeals for immediate peace.

He says that, in spite of the series of brilliant German victories, the war is a cruel misfortune and a mistake by all concerned.

COL. ALLISON HAS BEEN LOCATED IN THE WEST INDIES

Ottawa, April 4.—The missing Colonel John Wesley Allison, charged with irregularities in connection with munition contracts, has been located in the West Indies. Members are determined to have him appear in answer to the charges made in the House by Mr. Kyte.

ANOTHER ZEPPELIN RAID MADE ON THE EAST COAST

London, April 4.—Zeppelins again raided the east coast last night. No damage was done and there were no casualties.

British Budget Prepared On Assumption War To Last Whole Year

London, April 4.—In opening his Budget Speech, Hon. Mr. McKenna assumed that the war would last the whole financial year. The total daily expenditure was estimated at $25,000,000.

Financial assistance to the extent of $1,165,000,000 will be given the Allies.

The new budget provides for an additional tax of a penny a pound on sugar. The tax on cocoa will be increased six-pence per pound. Coffee is increased three-pence.

A penny will be charged on every shilling paid for railway tickets, and from half-pence to two-pence will be taken from every shilling taken by amusement places.

GERMAN ARMY IS DIVERTED INTO TWO GREAT MASSES

Paris, April 4.—There is evidence that Germany is running short of soldiers. All her 1916 class are now in the trenches and the German casualties of the first three months of 1916 amount to a total of 300,000 men. It is estimated that the German reserve amount to only 700,000 men.

The Germans on the western front have divided their army into two masses, with thirty divisions facing the French at Verdun, and thirty-four divisions facing the British front.

PAY OF RETURNED CANADIAN SOLDIERS

REGULATIONS GOVERNING THE MATTER SUMMARIZED FOR GENERAL INFORMATION

Department At Ottawa Gives Out Information On The Subject.

The following is a summary of the Militia Regulations regarding pay of returned members of the Canadian Expeditionary Forces:

(a) Men in Class 1 receive their arrears of pay, plus fifteen days pay for subsistence allowance.

(b) Married men in Class 2 or single men who are the sole support of a widowed mother to whom they assigned a portion of their pay, and to whom separation allowance was granted, receive a sum on account of accrued pay, plus one month's advance pay and subsistence allowance. Other single men in this class receive accrued pay, plus one month's advance pay, but no subsistence allowance.

(c) Men in Class 3 receive a sum on account of accrued pay, plus one month's pay and subsistence allowance. They are retained on pay and allowance from Headquarters until the date of their pensions.

PRINCE JOHN BACK FROM ALASKA RUN

THE G. T. P. OFFICIALS REPORT THAT THE PROSPECTS ARE GOOD FOR BUSINESS

The Vessel Came Back Well Ahead Of Time Yesterday Afternoon.

Yesterday afternoon the G. T. P. steamer Prince John returned to port, completing her first round-trip to Skagway, calling at Ketchikan, Wrangle and Juneau. She brought back from the northern ports about twenty passengers. Of these some will go east over the G. T. P., while others were bound south and will leave by the first steamer. There were also a few passangers for here.

G. A. McNicholl, A. G. F. and P. A., and R. Beaumont, Assistant to Capt. Nicholson, Manager of the steamer services, made the round-trip to the north. They are well satisfied with the prospects for business there. The citizens of the different Alaskan ports visited, Mr. McNicholl says, expressed their satisfaction at having the new service in operation. The Prince John will leave Thursday again on her trip.

Capt. Mackenzie is in command of the Prince John. On the return trip the steamer reached port here one hour ahead of her scheduled time.

SILVER STANDARD WORKING STEADILY IN PRODUCTION

There Are About Twenty Men Employed In The Mine—Shipping Ore Steadily.

Angus Stewart returned last evening from Hazelton where he visited the Silver Standard mine in which he is interested. There are about twenty men employed there, he says. Work is going along steadily. The owners are making shipments all the time.

The council last evening decided to make a change in connection with the assessment for sewer connection under a local improvement bylaw, in which Thomas Trotier was held to be unfairly dealt with.

* * *

The Court of Revision for the city will open today at 11 o'clock at the city hall. In the absence from the city of Ald. Dybhavn, who was a member of that court, Ald. Nelson was appointed last night to serve on it.

* * *

The city council has now barely a quorum to do business in the city. Ald. Dybhavn went east; Ald. McRae has gone to Spokane; Ald. Casey is at Alice Arm; and Ald. Smith, last evening went to the mining camps there. If another member leaves there will not be a quorum. Only four aldermen and the Mayor sat last night.

* * *

Cow Bay and a number of other convenient bays along the water front are busy hives of industry. Many of the boats which go to make up Prince Rupert's mosquito fleet have been beached by the owners and are undergoing a general overhauling, in preparation for the coming season.

* * *

The Ladies' Aid of the Presbyterian Church will hold a Violet Tea on Saturday afternoon in the church hall.

* * *

The whist drive and dance given last evening in aid of prisoners of war, by the Knights of Pythias, proved an enjoyable event. The early part of the evening was given over to the playing of progressive whist, after which dancing was indulged in until an early hour. Fifty couples or more were present.

* * *

A number of improvements are being made at the Imperial Oil Company's wharf for the better handling and supplying of fuel to the smaller craft. Four tanks, with a capacity of one hundred gallons each, have been placed in a convenient position on the wharf, and are now being connected up with the main pipes from the tanks. Mr. Walter Pearle, who is the engineer in charge of the work, expects to have them in working order in a short time. The tanks will be used for the storage of gasoline.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

WOMAN SUFFRAGE.

It is expected that the Government will in a few days bring down a bill providing for a plebiscite at the next general election, on that much discussed issue of Women's Suffrage. Provincial voters will therefore have an opportunity of casting their ballots for or against Votes for Women. Presumably, if there is a good majority in favor of extending the franchise to the fair sex, some legislation action may be expected the next session.

REV. DR. MACKAY'S

(Continued from Page One.)

ment, and in several communications he gives expression to statements which would appear to show that he hoped for a governmental victory in the 1912 election.

In one letter he tells Dr. Young that the "Methodist machine is after something, but that is a habit it has." Evidently there are other machines besides the Russian Steam Roller and political machines, if one is to believe Dr. MacKay.

Dr. MacKay also refers to the venomous attacks of The Sun upon the Government in regard to its method of making the proposed appointment of a University President. In the same connection he tells Dr. Young that a coterie headed by Principal Vance, of the Anglican Theological School in Vancouver, and Mr. F. C. Wade, is also criticizing the Government on the same score, but he himself, of course, is doing good work in defending the administration. Later letters appear to indicate that Dr. MacKay is not so sure of obtaining the appointment.

He becomes somewhat more urgent in his demands, but adds, that while he believes that no man on earth could bring more pressure to bear on the Government than he, nevertheless, he does not desire any appointment except on the ground of merit. His communications would indicate that he had doubt as to his qualifications in that direction.

Eventually the doctor's letters show that he realizes the Government is about to select Dr. Wesbrook for the position. He forwards a multitude of letters and telegrams on the subject, and winds up with a stormy epistle to Sir Richard McBride, in which he claims that the Government has repudiated an obligation to give him the position, he concludes, "If you think I will tamely submit to this you are greatly mistaken."

History shows that Dr. MacKay certainly did not tamely submit, for within a few months he was championing that great pamphlet "The Crisis in B. C.," and was attacking the Government, both on the platform and in the press, making free use of the columns of The Sun, which such a short time before he had described to the Government as a venomous journal. On one occasion Dr. MacKay went so far as to say that the administration in British Columbia was a God-curse to Government.

It is believed by the members of the Government that the doctor's chagrin at failing to receive the appointment of President of the University of British Columbia, certainly led him a long way on the road of revenge. The publication of his letters will undoubtedly throw discredit upon his motives.

It was only last spring that Dr. MacKay had been urged by a large number of friends to head the Liberal ticket in Vancouver, with the idea of becoming Premier in case the Liberals won. His friends at that time had loooked upon him as a man above the petty sordidness of party politics, and one who would bring to the Legislative Hall in Victoria the lofty purposes of a high-minded man, against this the public has now the doctor's letters.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

WATER NOTICE.

TAKE NOTICE that THE SURF INLET POWER COMPANY, LIMITED, will apply by Petition to the Minister for the approval of the undertaking of its works and that such Petition will be heard in the office of the Board on a date to be fixed by the Comptroller and that any person may file an objection thereto in the office of the Comptroller or of the Recorder of the District.

The name and address of the applicant is THE SURF INLET POWER COMPANY, LIMITED, having its Head Office at 1,001 Rogers Building, Vancouver, B. C. The Water Recorder's office in which this notice is to be filed is at the Court House, Prince Rupert, B. C. The name of the lake from which the water is to be taken is Cougar Lake, Princess Royal Island.

The quantity of water applied for is ten thousand inches or sixteen thousand cubic feet per minute. The proposed point of diversion is at a point at the outlet of Cougar Lake, and it is to be returned at a point at sea level on Surf Inlet, and will be used for developing power and electric energy to be used within a radius of ten (10) miles of the works on Princess Royal Island.

A copy of this notice was posted on the ground on the 24th day of February, A. D., 1916.

Dated at Vancouver, B. C. this 24th day of February, A. D., 1916.

DOMINION LOAN

(Continued from Page One.)

of the Canadian Government loan now before the American public reflect the greatest possible credit upon Canada.

"It is indeed an achievement to have floated this loan at a price that, in view of its magnitude, cannot properly be criticized by the most captious.

"No other foreign country in the world could borrow on such favorable terms in the United States.

"As it is only one man in thousands who follows market conditions, but as every citizen of the Dominion is concerned, it may be of public interest to give my reason for this emphatic statement.

"In opening negotiations in New York for a loan of this nature, the Government was obviously faced with two outstanding influences, each with a most important bearing not only upon the amount procurable in Wall Street but upon the price of the loan.

"First, it is regretfully true that the Anglo-French loan has been non-successful in the sense that it has not even yet reached the hands of permanent investors and has been selling at a serious discount under the issue price. This means that these greatest international creditors and other foreign borrowers seeking loans in the United States must of necessity feel the influence of this adverse factor.

"When the terms of the Canada loan were first under discussion the Anglo-French loan was selling on a 6 1-2 per cent. interest basis yield to the purchaser. Notwithstanding this fact, Sir Thomas White has been able to float that portion of his loan, viz.: $25,000,000, five year 5 per cent.—corresponding thus closely with the Anglo-French loan—on a 5.10 per cent. basis, or 1.40 per cent. better terms to the borrower than the market price of the Anglo-French loan.

"If the average price of the three loans is taken it will be found that the interest basis yield to the investor is 5.36 per cent., whereas the Anglo-French loan was issued on a 5.45 per cent. interest basis yield to the investor, or a difference in favor of the Canadian loan of .09 per cent. The underwriting of the Anglo-French loan was open to practically everyone and on the underwriting price, viz., 96, the difference in Canada's bargain would widen to over 1-2 or 1 per cent.

"Second, in comparing the New York loan with our recent domestic loan, we find that the former, i.e., the New York loan, has been floated, as I say, at an average of 5.36 per cent. interest basis yield to the investor as compared with 5.48 per cent. interest basis yield to the investor in the case of the domestic loan. In other words, the Dominion of Canada floated in a foreign country in time of war a loan three times as large as the largest loan the Dominion ever attempted in the London market at .12 per cent. better terms than our recent $50,000,000 patriotic loan.

"There is another point Canadian provincial and municipal borrowers can note with advantage, and it is this. The lay mind, not unnaturally, asks why the Government does not resort to the tender system. The answer is, they know better. Experience long ago taught important and continuous borrowers throughout the world that there is no form of finance more expensive in the end than loans sold, as it were, by public auction. A striking example, per contra, is that of the Canadian Pacific Railway, whose 4 per cent. perpetual debenture stock has long enjoyed one of the broadest markets on the London Stock Exchange and at prices to make many European nations anxious. This result has been achieved not merely because of the high intrinsic merit of the securities, but because each sale by the company has been effected by negotiation and not by competitive process.

"In other words, it is the best of policies—not to drive too hard a bargain—to strike a happy medium between what is termed a right price and an attractive price. This clearly is what the Dominion Government has aimed at in this instance as in previous instances in London, and the result of the public issue will doubtless prove that Sir Thomas White's judgment has been good."

LOCAL NEWS ITEMS

The Court of Revision sat yesterday morning at the city hall, when a few appeals were heard. They were all in by 12:30. The court then adjourned until today. The appeals are very light.

* * *

Lynch Bros. are fitting up the store in the Smith Block, Third Avenue, and will open a branch retail house there. The purpose of the firm is to take advantage of the more central position for the handling of the more perishable branches of the trade, as well as to facilitate shopping for those who visit the store.

* * *

Major Clayton Coming.

Major W. B. Clayton, of the Dental Service, is expected to arrive here on Friday from the south. It is likely that he will address the Canadian Club at a luncheon Saturday noon. Major Clayton, who is a former resident of Prince Rupert, would be listened to with a great deal of interest.

GREAT OHIO IS SHOWING WELL WITH ADDED DEPTH

A nice showing of ore was seen in the Great Ohio tunnel by Frank Martin, who visited the property on Wednesday, says the Omineca Miner, of Hazelton. For 140 feet along the vein the tunnel shows ore, the face being all in mixed ore. Assay values are expected to run high. Another 60 feet of tunnel will complete the present contract, and will give a depth on the vein of approximately 500 feet.

PAY OF RETURNED

(Continued from Page One.)

The rate of pay for a Private is one dollar per day, plus ten cents per day field allowance, and the subsistence allowance is from sixty cents to eighty-five cents per day.

When a Private in Class 2 is admitted to a Convalescent Home he receives free treatment plus his pay of $1.10 per day. If he is married his wife is granted an allowance of $20 per month, termed Separation Allowance. Privates in Class 2, whether married or unmarried, who are permitted to go to their homes, (out-patients) receive $1.10 per day plus Subsistence Allowance, 60 cents per day. Separation Allowance is issued to the wife, whether the man is in a Convalescent Home or at his own home. During February, 75 cents per day was paid to the wives of 100 men in Convalescent Homes, and 85 cents per day if they were in their own homes for Subsistence in lieu of Separation Allowance. Previous to January 31, the Subsistence Allowance was 75 cents per day, whether a man was in the Convalescent Home or at his own home. All men who are under pay are required to assign at least $15 per month to their wives. In the case of men in Class 2 this amount is deducted from the $1.10 per day payable as above and is added to the $20 per month payable to the wives, making a total of $35 per month.

A number of cases have risen where men have been placed by the Medical Board in Class 1 and have been given an immediate discharge, or a post-dated discharge, and later have been found to be unfit to earn their living and to require treatment. A regulation has therefore been issued by the Paymaster General of the Militia Department, by which any man who, upon further medical examination, is certified to be unfit for work, may be re-classified, and reinstated on pay and allowance from the date to which he was previously paid up. This also applies to some men who have been placed in Class 3.

If the case of a man permaturely discharged has reached the pension stage, it is necessary that a special amending Order-in-Council be prepared and passed by the Governor-General-in-Council if this man is to be re-instated on the pay-roll.

Any men whose cases might fall under either of the two preceding paragraphs should make application to the Assistant Director of Medical Services of their Division or District for re-examination.

NOTICE.

Notice is hereby given to firms and individuals who sell provisions or other supplies to Stewards of Canadian Government Ships under this Department, that the Department is not responsible for debts contracted by such Stewards.

Clause No. 8 of Contract with Stewards, covering the Victualling of such Ships reads as follows:—

"It is distinctly understood by the "parties hereto that the said Depart-"ment shall not be responsible for "any debts contracted by the said "Steward, and the said Steward "agrees to notify all persons with "whom he wishes to contract for the "purchase of any such provisions, "store or groceries, and before con-"tracting for same, that the said De-"partment, shall not be responsible "for any debt to be contracted by him "in that or any other respect."

PRINCE RUPERT ASTONISHED BY SIMPLE MIXTURE

Prince Rupert people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL removes such surprising foul matter it relieves almost ANY CASE constipation, sour stomach or gas. Because Adler-i-ka acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. C. H. Orme, Pioneer Druggist. g-4.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber."
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil formonth of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.
