EMERSON INTERESTS COMMENCE ON MILL

LOCAL OFFICERS ACQUIT THEMSELVES WELL

Col. Guthrie Is To Address The Canadian Club Today

STARTING IN ON PLANS FOR SAWMILL TO BE BUILT AT SEAL COVE WITHOUT LOSS OF TIME BY EMERSON INTEREST

E. Duby, the active head of the sawmill planned for here, arrived in the city yesterday. He is here in connection with the big enterprise with which J. S. Emerson has identified himself. The work seems now absolutely assured, and the mill will be carried along to completion as quickly as possible.

Mr. Duby says that the negotiations have all along been of the very best order. His only lament now, is that he did not get started about four months sooner, so that he could have taken advantage of the coming season's business. With the City of Prince Rupert he has found nothing but a readiness to aid. The same is true of the G. T. P. The officials have given him every assistance in the obtaining of the site and he has nothing but well to say of them, including Messrs. Mehan and McNicholl, the local representatives with whom he came in contact.

With the city, negotiations are about to be started looking to the obtaining of an electric supply for the works. If satisfactory arrangements can be made for an available supply of from 400 horse power to 500 horse power, that will be taken from the city. Mr. Duby will use electric power very largely, and prefers to get it from the city rather than generate it at the site.

The negotiations will at once be commenced, the City Hall being now engaged in going into the question of the supply and the cost. It will take a little time to fully settle, but in the meantime other necessary work can be under way. Mr. Duby wants to get started by about February 1.

There will be a steam plant put in for part of the work in any event, but a large part of the operations will be carried out by electric power. Mr. Duby is more and more impressed with the possibilities of the plant here. He is free to admit that at first, when he saw the rock work to be done, he was somewhat appalled, but he finds now upon investigation that there are advantages also in it. The work done will be of a very lasting character. He is well satisfied with the outlook in the city, and sees many lines of industry connected with the mill business that he is opening up.

The exact plans are yet to be prepared. He is working out, in a general way a scheme for the plant, so that it may be made to work out economically.

The mill and the other auxiliary plants will take from half a million to three-quarters of a million feet of lumber to construct. This will have to be brought in. When under way it will call for a staff of from seveny-five to one hundred in the mills alone, while the logging camps will bring the whole up to about three hundred men.

The prairie demand for the product will be an immense one, and he only laments the fact that it will be well on to August before the mill will be ready to ship.

British firms who have hitherto been content to employ Spanish or Portuguese speaking Germans to represent them as travellers in the South American markets are strongly advised to appoint Englishmen only in future; they must, however, know the local languages.

WARNING WAS THROWN OUT TO THOSE WHO HAD HAD CONVICTIONS

Question Of Refund For Fifteen Days Came Up At Sitting.

The regular statutory sitting of the License Commission was held yesterday afternoon, with all the members present, Mayor McCaffery, Ald. Smith and Commissioner Vereick.. All the licenses of the city were renewed for the next six months.

Occasion was taken in the cases of the hotels against which convictions for violation of the law had been obtained, for the Mayor to state that he thought the hotels should be warned that if there was another conviction the licenses would be suspended.

The question of the fee being made to come up to July 15, whereas, if prohibition comes into effect it will do so on July 1, came up. The City Solicitor suggested that the fee collected might be made for the term, with the deduction of half a month off, pending a reference of it to the Government. The vote had been taken and prohibition carried.

Alex. Prudhomme pointed out that the vote was not completed and would not be until December 31. He did not know how a license, issued as proposed, would work out should prohibition not carry.

Mr. Peters said he was not par-

Stirring Addresses In Aid Of Recruiting For The Forces

Last evening in the Empress Theatre a recruiting gathering was held, the opportunity of hearing Lieut.-Col. Percy A. Guthrie, Officer Commanding the 236th Kiltie Battalion, the McLeans, being afforded by it. The address was one of special merit from a recruiting standpoint. Rev. Dr. Grant presided, while with him on the platform were Lieut. Woods, R. N., Major C. G. Geggie, Capt. E. A. Sturdee, Capt. Percy Godenrath, Lieut. H. H. Seeley, Major McMullin, Judge Young, Mayor McCaffery and Rev. W. E. Collinson. During the evening a number of instrumental selections were rendered. J. H. McMillan contributed violin solos, accompanied by Mrs. McMillan.

Dr. Grant paid a compliment to the Scottish race. It was found that the migrations to the Northern States were proportionately less than those from other parts of the British Isles, and the migrations to the Dominions under the British flag was greater. He did not suppose that all the men of the Scottish regiments from Canada were Scotsmen; but men seemed to march and fight better in the kilts.

The officers of the McLeans had all been on the battle field. The place, he felt, to do service for the British flag was not here, but on the battlefields of France.

Lieut. Woods, R. N., said that he would not take long. They had come here to hear Col. Guthrie. If there were those who did not wish to join the army they might step into the naval recruiting station. If there were those who were troubled over their spring suit, he would recommend to them the King's uniform.

Capt. Godenrath was greeted with three rousing cheers and a tiger. He paid a high compliment to C. W. Peck, who was now the O. C. of the 16th Battalion. He recalled the retaking of lost ground by the 16th Battalion on June 13, when Col. Peck refused to retire and led the attack.

There would be many men returned maimed and wounded looking well. In many cases they were not so, but were sufferirng and would suffer for some time.

Major Geggie recalled that, in 1908, he had been attached to the French army in France. At that time they were looking forward to the war. He had learned the Frenchman and loved him. In France today the men between 16 and 60 were never seen in the ordinary pursuits.

In Canada there was a waning interest in the war. This should not be, and he pleaded for men to fill the ranks. He held out a rather discouraging view of the situation.

Col. Guthrie was greeted with rousing cheers. He said that there had been a lot said about the men. There was a woman in the hall who had been at the front and he was going on strike until she was honored.

Mrs. Godenrath was thereupon conducted to the platform by her husband amid cheers.

Col. Guthrie proceeded to tell how, when he was wounded at the front,

Prince Rupert Men Are Making Good At The Front

Word has been received in the city, through the visiting officers, that C. W. Peck, who left here in command of the first local contingent has now attained command of the 16th Battalion. Col. Leckie has been given a Brigade command and Major Peck has been appointed to the Colonelcy.

From Col. Warden of the 102nd Battalion, has come a letter to Mayor McCaffery, in which the local officers are spoken of most highly. The letter is as follows:

In the Field, France,
November 17, 1916.

His Worship, The Mayor,
Prince Rupert, B. C.

My Dear Mr. Mayor,—

I feel sure that a brief line from the front reporting progress of the gallant lads you furnished from Prince Rupert and vicinity will be welcome. It will indeed have to be brief and seemingly superficial, for assuredly if I were to try and tell you in detail how wonderfully well your boys have worked and fought, the war would be over before I had finished. They are simply grand. Whether with pick and shovel, toiling and morting in the Flanders mud, or straining their backs in torturous trenches, carrying food and ammunition to the front line, or wielding the bayonet as they go "over the top," they are A 1, and that is about as high praisec as can be given—but they deserve every word of it.

No fewer than seven of my officers came from your town. Of them, also poor Carss and Gordon are gone, the former bombed by a wounded Hun, to whom he was carrying water. Very noble gentlemen, both of them, and their loss was a heavy blow. Captains Brandt and Halsey, the former of whom organized the Prince Rupert detachment, and the latter the Prince George, are still with me. Captain Brandt has been a most valuable officer, and Captain Halsey, after very efficient service in the field, is now acting as Adjutant. Capt. McNeil, R. A. M. C., after very strenuous and invaluable work, has been promoted to an important position in one of the large field hospitals, while Lieut. Stalker, slightly wounded, is still on sick leave. Capt. Kirkpatrick makes the seventh, and is still with me, in fact he is sitting directly underneath me in the room below as I write. All Paymasters are popular, but I verily believe that John Andrew is beloved.

Now Mr. Mayor, you and your townsmen must remember that your boys, whom we call in the battalion, "The Men From The North," have already greatly distinguished themselves in three separate engagements, where they showed the finest nerve and bravery and you should be very, very proud of them. On their return, and I trrust that the majority will return, you should give them the honorable place in your midst that they have earned.

Yours very sincerely,

J. W. WARDEN,

Lieut.-Colonel, O. C. 102nd Canadian Infantry Battalion, (North British Columbia.)

PLEASED WITH TREATMENT.

There is a general tendency always to heap abuse upon a corporation that may be in a position to exercise a preponderating influence in a place. The G. T. P., in relation to Prince Rupert, is no exception. It is gratifying, therefore, to find men having business to do with such corporations express satisfaction with the way they have been treated. This is the case with Mr. Duby of the Emerson sawmill. He speaks in high terms of his treatment. It is quite evident that the Emerson interests knew what they wanted and had a legitimate proposition to offer. The railway lost no time in closing with them. It is not to be expected that the company will fall for every proposition put to it, irrespective of whether it looks like real business for the city or not. There is no evidence that any concern that has real merit behind it has been turned away by the G. T. P. It would not be to its interests to do so, irrespective of what irresponsible people may sometimes say.

INDUSTRIAL AWAKENING.

The coming of the big sawmill to Prince Rupert, which seems now to be really assured, means more than a sawmill in the ordinary sense. Such works will constitute the nucleus for many related enterprises. The effect of such upon building small craft or even large wooden vessels is very direct. Prince Rupert is a point where fishing craft might, with advantage, be constructed. The presence of a mill capable of turning out all kinds of material will have a very direct effect upon such an enterprise.

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-s.

STIRRING ADDRESSES.

(Continued from Page One.)

he woke up in the hospital to find Mrs. Godenrath nursing him back to life.

Col. Guthrie paid an eloquent tribute to the navy that was watching night and day and saving the Empire from its menace.

He appealed for every Canadian that could get into khaki and get over and beat the beastly Germans on land. Two years was long enough in which for any one to make up his mind. He advocated a system of conscription. Some said it was Britain's war. True it was, but was not Canada a part of the Empire. Canada had more to lose than the Old Country if the war was lost. The Old Land would have more taxes and become a fifth rate power perhaps. Canada would be colonized by Germany.

The old flag was worth fighting for. They should rally round it and see it planted by Haig at the very gates of Berlin.

A reference made to Lloyd George was greeted with loud applause. With him at the head of affairs the muzzle would be torn off. There would be no stopping of the pursuit of the German submarines at the three-mile limit.

Col. Guthrie waxed eloquent in describing what Belgium had done to hold the Hun in check, while France and England got in the field. He described what was being done by the Canadians, where the officers and men worked as one.

All the officers with him had seen service at the front. Major Geggie, the Medical Officer at Ypres, he said, had 3,005 cases passed through the cellar in which he was located until it was blown up and the major wounded. On the way home on the Hesperian, when that boat was torpedoed, Major Geggie carried Colonel Guthrie up on deck from below and assisted in his further rescue. Capt. Sturdee, a cousin of Admiral Sturdee, has had distinguished service, and Lieut. Seely made a name for himself, being the man who carried Lieut. Todhunter over 200 yards across "No Man's Land" only to find that Todhunter had died during the perilous journey.

The speaker admonished them to keep the flag that had been nailed to the mast for 1,000 years, nailed there for another 1,000 years. There was a need for men. The figures showed that for every 7,000 falling out of the Canadian forces only 4,000 were enlisting to take their places. They must remember that not one Canadian had gone hungry for one meal. The situation in France must be remembered.

"The only place to fight this war," he concluded, "is over there on the edge of hell."

The meeting closed with the singing of "God Save the King."

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—*HON. MARTIN BURRELL, Minister of Agriculture.*

"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. *'Work and Save'* is a good motto for War-time."—*SIR THOMAS WHITE, Minister of Finance.*

THE CALL OF EMPIRE COMES AGAIN IN 1916

TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS

WHAT IS NEEDED? THESE IN PARTICULAR—

WHEAT, OATS, HAY,
BEEF, PORK, BACON,
CHEESE, EGGS, BUTTER, POULTRY,
CANNED FRUITS, FRUIT JAMS,
SUGAR, HONEY, WOOL, FLAX FIBRE,
BEANS, PEAS, DRIED VEGETABLES

We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.

"THE AGRICULTURAL WAR BOOK FOR 1916" is now in the press. To be had from The Publications Branch, Department of Agriculture, Ottawa.
