GREATER ACTIVITY IS EXPECTED AT IKEDA

Premier Brewster On Peace River Country Railway Line

Appreciation Is Felt In The Matter Of Fish Concession

Appreciation Of Concessions Gained In Fishing Line

G. W. Nickerson, who is now resident in Hamilton, but who still takes a deep interest in things pertaining to Prince Rupert, is very appreciative of what was accomplished by the delegation that visited Ottawa in connection with fishery matters.

In a letter sent to the Editor of this paper, Mr. Nickerson says:

"Friend Nelson,—

"Allow me to congratulate you on your appointment to the Advisory Board. I feel that this, together with the concessions that your committee obtained, (which, while some may not think enough), has put Prince Rupert many a pace nearer the position that is rightfully hers as the foremost fishing port on the Pacific, and some day in the world."

Mr. Nickerson always took a deep interest in the fishing industry in Prince Rupert. He went further than that and put his money into it. He appreciates what has been done now for the industry.

GOVERNMENT ORDERS PLUGGING ENQUIRY

Three Judges Will Compose Court On The By-Election.

Victoria, Feb. 23.—The by-election plugging enquiry by Royal Commission will be authorized by the Legislature early in the coming session, according to a semi-official statement today. The Commissioners will be Mr. Justice Galliher of the Appeal Court as Chairman and Justices W. A. Macdonald and Murphy. It is understood that Mr. Douglas Armour, K. C., will be counsel for the Government.

Premier Brewster Looking Into Road To Bella Coola

There is considerable uncertainty it seems about the route that is finally to be adopted for the railroad from the coast into the Peace River and Grand Prairie country. Premier Brewster said in a recent interview with a delegation from Grande Prairie, that after years of agitation and the expenditure of about $27,000,000 the present situation in regard to the Pacific and Great Eastern Railway was far from satisfactory, and a new route was now being considered as an alternative. The people of the coast province were desirous of getting into closer touch with the north country, and recognized the trade possibilities. Mr. Brewster said, in the upper part of Alberta. A shorter and more direct route would be needed, however, before there could be the desired business connection between the north country and the coast.

A new route now being looked into by the Government, the British Columbia Premier went on to say, began at Bella Coola Inlet on the Pacific side and traversed the plateau north of the Chilcotin River, then through the Pine Pass to the boundary via Prince George. The advantage of this route would be not only that it would avoid steep grades, but would be much shorter, its total length being only 350 miles, as compared with about 600 miles for the Pacific and Great Eastern. Of the latter distance there is still 400 miles of steel to be laid, and despite the large amount of money already expended on construction it is now being considered whether it might not be better in the end to begin all over again with an entirely new route.

Engineers are understood to be working on a number of possible routes, and both J. D. McArthur and Sir Wm. Mackenzie have made propositions to the British Columbia Government, but no final decision is to be made until full surveys and re-

London, Feb. 23.—Hostile raiding attempts to the east of Vermelles were unsuccessful. The enemy suffered severe casualties and left many prisoners behind. Artillery activity continues to be particularly severe from Ypres to the Somme.

INTERESTING FACTS ABOUT THE SALMON

Fish Expert Lectures On Life Of The Salmon.

Victoria, Feb. 23.—A very interesting and instructive paper was read by J. P. Babcock, scientific assistant of the Provincial Fisheries Department, before the Victoria Natural History Society. The lecture, which was illustrated with a very excellent series of lantern slides made by micro-photography, was on the subject of the story of the Pacific salmon as told by their scales.

Mr. Babcock first pointed out by means of the slides that the scale of the salmon is marked with circular rings, by a study of which one is able to determine the age of the individual.

The scale of the Pacific salmon does not begin to grow until the first summer of the fish's life, so that the very young salmon are scaleless for weeks after they can swim freely.

Regarding the number of years that it takes for the Pacific salmon to come to maturity the speaker said that while the majority of Fraser River sockeye mature in their fourth year, as shown by the examination of the scales of some twenty odd thousand individual specimens taken in the last four years, a considerable number, including all the larger ones, are in their fifth years. The females of the sockeye and the spring salmon predominately mature in their fourth years, while the cohoe mature normally in their third year. The humpback always come to this stage in their second year, and the dog salmon in their third, fourth or even fifth year.

PLAN LAID TO DEVELOP PROSPECTS

In Hedley Local Men Have A Proposition Which Promises Well.

They have formed a development syndicate in Hedley, says the Gazette, to take over and work claims on lease and bond. The scheme has worked satisfactorily in other camps, often realizing good returns on the investment. The scheme is for a number of men to invest $5 or $10 monthly, bond a claim, and put men to work developing it. All are contributors or workers. If pay ore is struck big enough to lift the bond and pay dividends it may prove a big winner. On the other hand, there is the known investment and loss should it prove a failure. It is a good gamble. The scheme could be worked in almost any camp.

NEW ZEALANDERS MADE DENT IN GERMAN FRONT

London, Feb. 23.—New Zealanders to the south of Armentieres entered the German lines for a depth of three hundred yards. They remained there for a full half hour wrecking the enemy dugouts and the various trench work. The enemy support lines were found to be filled with German dead from the bombardment prior to the preceding raid. Forty-four prisoners were captured.

OPEN LETTER TO THE WOMEN OF CANADA

Captain the Hon. Rupert Guinness, A.D.C., C.B., C.M.G., R.N.V.R., Senior Officer of the Royal Naval Volunteer Reserve, and his wife, Lady Gwendolen Guinness sailed a few weeks ago for England after having spoken in almost every town of any size in Canada.

Their aim was to organize committees to secure recruits for the Overseas Division of the Royal Naval Canadian Volunteer Reserve, and the work which they launched and which was unreservedly helped along by the Hon. Mr. Hazen for the Canadian Government, has already had

splendid results, and hundreds of good recruits have joined the Navy under the auspices of the R. N. C. V. R.

Before leaving, The Lady Gwendolen made arrangements to have a specially designed souvenir pendant distributed through the various recruiting centres to the Mothers, or Wives—or Sweethearts whose influence had helped to secure recruits.

This pendant is a very pretty one of silver—gilt—and bears the motto "I helped to serve."

Reorganization Of Ikeda Mines Is Now Under Way

The Ikeda mines on the Queen Charlottes are likely to see far greater development this year than ever in the past. A reorganization of the management is in course of consummation. New capital is expected to be introduced and the mines worked to a greater extent than ever before.

Manager Norrie of the Silver Standard mine, near Hazelton, has blocked out work at the Ikeda and will continue to keep an eye on the property. He will continue to manage the Silver Standard.

TO ADVERTISE CITY ALL OVER WORLD

It Has Been Decided To Take Space In Pretentious Publication.

P. Duryee and D. A. Macdonald met the members of the City Council yesterday and placed before that body their plans in connection with an elaborately illustrated work on the four western provinces of Canada, which will be issued under the name of the Imperial Highway.

Each province is to have space, and, in addition, most of the cities and communities will likewise have publicity given them. The design is to have about 30,000 circulated through the instrumentality of the provinces and the cities represented.

The write-ups are to be conservatively done and will set forth the opportunities for business. Prince Rupert city will have considerable space, while a number of local firms are likewise taking space in it.

James Martin of the Queen Charlottes, is in the city.

Germany's Ruthless Submarine War Is Not Very Disastrous

The British Embassy at Washington issued a statement announcing that Germany's "widely advertised campaign of ruthless murder on the high seas" resulted in the loss of less than one ship in every hundred plying in or out of British ports between February 1 and February 14.

"The German wireless press messages," said the statement, "since the German declaration of indiscriminate submarine warfare against merchant shipping within a zone around the United Kingdom and France have been confined to advertising achievements of German submarines.

"Claims to have paralyzed the mercantile marine activity of the Allies and more particularly that of Great Britain have appeared together with hints at a vast increase in the number of German submarines so employed.

"During the period in question the following are the figures of ships which have arrived and sailed from ports in the United Kingdom:

"Date—February 1 to February 14—Arrivals: British, 4,053; Allied, 227; neutrals, 497. Total, 4777.

"Sailings: British, 3,298; Allied, 225; neutral, 361. Total, 4.514.

"Daily average between February 1 and February 14:

"Arrivals: British, 290; Allied, 16; neutrals, 35. Totals, 341.

"Sailings: British, 280; Allied, 16; neutral, 26. Total, 322.

Coasting Vessels Not Included.

"It must be remembered, however, that the totals of arrivals and departures do not include fishing vessels, coastwise and local coastwise traffic, nor craft of under 100 tons burden. Omitting these and comparing totals of those sunk with the total arrivals and departures it is interesting to note that the widely ad-

Andy Blygh of Vancouver, it is safe to say, is one of the happiest men in the Province. The new Government has clothed him with some power by making him a J. He has only started. It was certainly a most injudicious act on the part of any government to make the appointment.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns, accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Prisoners Of War Sale.

At a meeting of the Prisoners of War Committee it was decided to hold a jumble sale on the 17 March. Ladies will be at the Red Cross rooms three days before the sale to receive donations. Everyone has some article of furniture, clothing or bric-a-brac that they have no use for, but which might be useful to someone else. As far as possible the articles donated are asked to be in good condition.

It is hoped everyone will be able to contribute something, so that a good sum may be realized for the Canadian prisoners in Germany. Particulars of the sale will appear later. tf.

vertised campaign of ruthless murder on the high seas on which Germany has embarked, has resulted in a loss of less than one ship for every 100 which has arrived or left British ports during the two weeks from February 1 to February 14."

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Ormo, Pioneer Druggist. g-c.

Assist Returned Soldiers.

Anybody who knows of any Prince Rupert or Northern B. C. soldier who has lost his life, and which fact has not yet become generally known, will confer a favor by communicating with Clifford Brethour, Secretary of the Returned Soldiers' Association of Prince Rupert. tf.

OPEN LETTER.

(Continued from Page One.)

The badge is now, we are informed, being distributed by the committees and will doubtless be worn by many women as a badge of honor, as well as a souvenir of their loved ones. The illustration gives some idea of its general appearance, and the following is the open letter written by her Ladyship:

To The Women Of Canada.

In a journey throughout the provinces of Canada, from the Atlantic to Pacific, I have had the opportunity of personally witnessing the splendid spirit and untiring work of patriotic women everywhere in the Dominion.

I am convinced that here, as in Great Britain, the debt which is owed by the Women of the Empire to our Navy is not forgotten.

The iron hand of Naval Dominion alone shields us from the ruthlessness of an enemy who has not scrupled to make war on the helpless and defenceless. The power of the Navy protects our loved ones on their journey to the battlefields, and preserves our homes in safety and prosperity. Recognizing this debt, I am sure that every Canadian woman will do her utmost to secure that support for Naval defence which has been asked for from Canada.

I am asking every woman who obtains a recruit for the Overseas Division of the Royal Naval Canadian Volunteer Reserve to accept a small silver badge, as a souvenir of her effort and sacrifice towards upholding the Cause of Humanity and Civilization, and bringing the struggle in which we are all engaged to a speedy and a triumphant issue.

A Patriotic Concert, under the auspices of the I. O. D. E., will be held in the Westholme Theatre on Tuesday, March 6, at 8 p. m. A special feature will be the rendering of a cantata "The Lady of Shallott," by a choir of 40 girls. Tickets 50c, reserved seats, 75 cents.

Skeena Land District, District of Queen Charlotte Islands.

TAKE NOTICE that George D. Tite, of Prince Rupert, B. C., occupation merchant, intends to apply for permission to prospect for coal and petroleum on the West Coast of Graham Island, in vicinity of West River.

Commencing at a post planted one mile south of the southeast corner of C.L., 9,971 thence north 80 chains; thence west 80 chains; thence south 80 chains; thence east 80 chains to point of commencement.

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
